28. In 2015, the State of Illinois had an estimated 33,000 tons of grocery and retail plastic bags in landfills across the state. In order to address the amount of plastic in landfills, some cities have passed a checkout plastic bag tax of 7 to 10 cents per bag. Other jurisdictions are considering banning such bags altogether. Which would you support at retail establishments in Illinois: charging a small fee for plastic bags, banning them altogether, or neither?

20. In July 2019 the U. S. Department of Justice announced that the government would resume capital punishment at the federal level for the first time since 2003. The death penalty has also been banned in Illinois during all of this period. Some have proposed that the death penalty be reinstated in Illinois. Do you strongly favor, favor, oppose, or strongly oppose reintroducing capital punishment at the state level in Illinois?

28. In 2015, the State of Illinois had an estimated 33,000 tons of grocery and retail plastic bags in landfills across the state. In order to address the amount of plastic in landfills, some cities have passed a checkout plastic bag tax of 7 to 10 cents per bag. Other jurisdictions are considering banning such bags altogether. Which would you support at retail establishments in Illinois: charging a small fee for plastic bags, banning them altogether, or neither?
