### Arab Meeting to Hear Press Chief

**Saadat Hasan, chief of press and public liaison of the Arab Information Center in New York, will speak at the International Relations Club Arab Conference, Feb. 4 and 5.**

Hasan, who attended the First Palestine National Congress in Jerusalem recently, will speak at 7:30 p.m. Feb. 4 in French Auditorium of the Life Science Building. He will speak on "The Arab World As It Is Today."

"The Arab-Israeli Conflict As It Stands Today" will be discussed by Hasan at 9:30 a.m. Feb. 5 in the Seminar Room of the Agricultural Building.

Hasan, who received his B.S. degree in chemical engineering, worked as an assistant director of research for a chemical concern in Chicago until 1953 when he joined the Arab Information Center. Hasan was one of the founders of the organization of Arab Students in the United States and served on the organization’s executive committee.

The veteran lecturer has appeared on radio and television and in Arabic-language groups in Ohio before coming to SIU, he speaks fluent English.

Other speakers at the conference will include Rassool Hashimi, a native of Iraq and lecturer from Edwardsville.

---

### Trip to Haiti

Eighth SIU design students will leave Feb. 15 to spend a month on the island of Haiti.

But they won’t be on a midwinter vacation. They will be involved in a "problem-solving" field session.

The group, to be headed by instructor Davis Prant, will include the entire junior class in design. Pratt said the students will confer with Haitian agency leaders and organizations in order to develop a proposed list of study projects. They’ll select some to work on, trying to develop useful solutions during the expeditions.

The class will stay at a villa owned by Katherine Dunspitz who has been an artist-in-residence at SIU, Miss Dunspitz is making the villa which overlooks the capital city of Port-au-Prince, available.

The students will pay their own expenses for the trip, Pratt said.

The trip is a pilot project. If it is successful a similar field expedition in a society unlike that of the United States will become part of the regular junior-year curriculum in design, Pratt said.

The students scheduled for the Haitian trip are Roger E. McCredie, Elden D. Sromberg, Bruce C. Lierman, Robert T. Drinan Jr., Stephen Herron, Thomas J. Eschel, Katherine Dunspitz, Victor Struch, Ronald P. Schnurr, James T. Reynolds and Brian Henneberry.

Donald E. Ball, James E. Hadley, Gary R. Nadell, Charles I. Notaros, Hobart Jackson, Andrew B. Vander Tuin and Jeffrey M. Glass.

### Time Out at WHAM

**TIME OUT AT WHAM—These four clocks were photographed within minutes of each other, shortly after 2 p.m. Wednesday. Clocks is the Wham Education Building and almost all the others.**

**The Daily Egyptian Midterm:**

**If a Given University Clock Shows 10:30,**

**The Real Time Is:** (a) 4:15, (b) 8:11...

By Frank Messersmith

No matter how much hurrying or how early I got up, I still get to my 8 o’clock class at 1 p.m.—that is, according to the clock on the third floor of the Wham Education Building.

Most students are arriving early or late, and occasionally, on time to their classes, depending upon which section of which building they happen to be in at the time.

The central signal generating device for the automatic clocks on campus has really “gone to pieces” and has caused most of the clocks to show the wrong times.

Confusion caused by the clocks is beginning to play with the minds of many students and faculty members.

In Browne Auditorium, where the huge free-time and sophomore physics and chemistry classes are held, the bell system rings about 10 minutes after the classes start. This can be annoying to students who are trying to sleep.

A professor on his way to class in the Wham Education Building glanced at the hall clock and noticed he was just on time for his 9 o’clock class. He walked a few paces past the clock and stopped to talk with one of his students.

Following a deeply involved conversation, he turned his back to the clock and stopped to talk with one of his students.

### Spook Show Set for Convocations

Interpreters Theater will present the show, "Unvarnished, Straight-Shooting Farcas About Desperados, Sheriffs, and Associated Riff-raff of the Old West" at today’s convocations at 10 a.m. and 1 p.m. in Shryock Auditorium.

The show contains, as the title implies, certain truths about heroes of the Old West. Many colorful characters are of the time, including Jesse James, Wyatt Earp, Bat Masterson, Calamity Jane and Billy the Kid will be discussed.

The reader’s theater style presentation will use tongue-in-cheek readings to tell the strengths and weaknesses of western heroes.

David Bailey, Rudolph V. Barcelo, David M. Davidson, Francisca A. Henshaw and Ethel B. Turner will perform for the show. The script was compiled by Stephen Neilon and arranged by Gerald L. Cady, who is directing the show. Both are graduate students in speech.

Western ballads and themes will be provided by guitarist and singer Charles R. Edelhoffer.

Davidson should be able to add some authenticity to the show. He appeared in the movie "How the West Was Won."
Carbondale Council Delays Motorcycle Parking Proposal

Action on a proposed ordinance regulating motorcycle parking in Carbondale is being delayed a week to let the City Council study suggestions concerning the manner in which cycles should be parked.

The decision to delay action on the ordinance was made Monday night at the Council meeting. Questions concerning the ordinance were proposed by members of the audience.

In its present form the ordinance calls for motorcycles to be parked parallel to markings which will be painted on the curb. It limits the number of cycles per meter to four.

The Council did approve an ordinance which prohibits more than two riders on a motorcycle and which states that all riders must be inside the cycle rather thanside saddle.

The ordinance goes into effect immediately.

Nuclear Physicist to Speak at SIU

Gareth E. Guest, physicist at Oak Ridge National Laboratory, will be guest speaker at the Department of Physics colloquium at 10 a.m. Friday in Room 308, Parkinson Laboratory.

Guest will discuss "Plasma Stability Theory and Controlled Fusion."

To Perform Here Feb. 4

Choir Director Luboff's Career Includes Teaching, Singing, Films

The Norman Luboff Choir, which will perform here Feb. 4, has been well known for years on recordings, radio and television, but it didn't begin its college-concert tours until 1963.

The 30-voice choir, backed by four instrumentalists and directed by Norman Luboff, will give one concert at 6 p.m. in the SIU Arena.

A reception for the group will follow the concert.

Luboff, who started his professional career in Chicago as a teacher of theory and a "pops" singer on radio, began to make commercial arrangements and orchestrations.

Moving to Hollywood, he composed and arranged music for more than 80 films, including "Giant," "Island in the Sun," "Search for 'Cinerama South Seas" and "The Miracle."

Luboff arrangements have been heard regularly on television programs.

Bridge Club Sets Saturday Meeting

The Bridge Club will hold its first meeting at 1 p.m. Saturday in Room C of the University Center. It will meet each Saturday afternoon for the rest of the term.

Interested students, faculty or staff members should bring a deck of cards and, if possible, a partner to the meeting.

The club is sponsored by the recreation committee of the University Center Programming Board and the SIU Male Glee Club.

To be Unforgettable

Today's Weather

Continued cold today with high in the 30's. The record high for this date was 71 set in 1936. The record low of 6 was set in 1956, according to the SIU Climatology Laboratory.

**Don't Cut Into Line at Oats**

Standing in a long line to get a cup of coffee is not too annoying, but then the line moves quickly and without delay.

However, impolite and unfair students are beginning to cause delays in the line. In the latter part of fall, the police student community is just apathetic—a term which has been bestowed on the SIU students quite lately. This is doubtful. Students, the police line-standers that is, now is the time to resist. The next time someone tries to cut in front of you, step in front of him, and tell him to go to the end of the line.

Discretion should be used in this approach. After all, you wouldn't want to say something like that to an SIU football player or wrestler.

If the line-cutters are thwarted, a faster pace will result.

Frank Messersmith

**Here's How Writer Stacks Carbondale, Emporia, Kan.**

Dear Mrs. Sather,

I would like to compliment you on your fine evaluation of this area of Southern Illinois. You have described it far better than Mrs. Meyer did.

As one who has also moved into this area from one which was "home," I too see the conditions differently from the residents. I too have seen the "swampy farmlands," many of which I would not wish onto an animal, much less a human. Have there been some of the adults from this area who have not been educated, and I understand why they don't wish to come back to manage these farms and industries. I have observed city government, and I agree it is a good governmental method, but for a town of 1,000, not for Carbondale.

The city from which I came, Emporia, Kan., is also a college town (or city of about 20,000 people). In many ways it is very similar to Carbondale. A college, a railroad center, an industrial center, an automobile center, all of that area of the state, but there are conditions which Carbondale probably has never heard of. For instance, Emporia has very good streets, no traffic problems to speak of, no trains to hang up traffic every hour, and the main streets are four-lane centers on both sides. Feature that!

And if wonders should never cease, the streets in the commercial district are washed every six months with water they in Carbondale? Only when it rains.

James W. Hill
Graduate student, chemistry

**We're Top Dog Now, So Keep It That Way**

_to the editor:_

In answer to the editorial from Sather, What's wrong, with the name Salukis? I can think of nothing more trite, boring and corny than Bulldog, Wildcat, Grizzly, or any other names for athletic teams. Such names stir as much interest as the name John Smith.

On the other hand, when someone asks the Salukis are tops on the small college basketball polls, people pick up their ears and notice—"Salukis! If sports fans don't know what it means, it's about time they learned.

A little information about the heritage of one's own area isn't hurt anyone. Leave the corny names for the high schools who can't think of anything more original. At this point I think I should insert a word of praise for the Golden Cornhuskers. By the way, what's so ferocious sounding about the state champion's name?

Colleges, being fewer, being spread farther apart, having more creative, can choose a name that will represent the their areas. When the Salukis break into the top ten in basketball, it will be deservedly not only in basketball, everyone in the nation will know from whence the Salukis come. The name will point out the area as distinctly as the Cornhuskers point out Nebraska, or the Razorbacks point out Arkansas, or the Jackrabbits point out South Dakota, or the Saltshakers point out Houston, or the Oiler point out Houston, or the Phins point out San Francisco—need I go on?

Who can tell where Bearcats come from?

Another point in favor of the Salukis is that it symbolizes grace and speed. These are attributes any football coach would be delighted to see in his backs. Many pro teams use track star backs because of their speed and ability to elude tacklers. Perhaps the editor of the News Plaindealer should confer with the football coach before he makes rash judgments on the importance of speed in football. Besides, southern is stronger in basketball and this makes the name even more appropriate since the aforementioned attributes of the name are more suitable to this geographic region.

At any rate, I'm afraid it's going to take more than aскors to get me out of my lawn chair.

Living conditions of students (since I know more of them) have been so courteous to me. As one who has also moved to Emporia, Kan., is already getting the "Goldwater treatment" of California. I am planning to move in and settle down, and I hope to be a good landlady here.

Lina C. Shoemaker

**The Return of Congress**

**Joo Van**

The Daily Iowan

Reagan Treatment

Ronald Reagan, the announced Republican candidate for the governorship of California, is already getting the "Goldwater treatment" from the liberal press.

Some editorialists see Reagan as a "true conservative," others point him as an arch reactionary, who, despite the actor's repeated denials, would turn back the clock on moderate and liberal security, if he could.

As he could.

Reagan, an ex-liberal who now embraces the conservative philosophy, is a personification of the cacophony that describes individual possessing strong convictions. And he has no hesitancy about expressing them.

So he needn't hear him out before deciding that he is a menace, either to the GOP or the State of California.

Excerpt from John S. Knight's "The Editor's Notebook"

---

**Student Tickled Off at Contrary Clocks**

_to the editor:_

Last Tuesday I was sitting in the library studying. The student across the table asked me, "What time is it?"

I glanced at the clock, told him "four o'clock," and realized I was missing my philosophy class. I jumped up and ran to Lawson Hall and walked into the classroom as the bell rang.

I decided to sit in the back, rather than go to my chair in the front, so I would not disturb the class. The instructor was lecturing and within a couple of minutes I found out I was in a 12 o'clock history class.

How did it happen? Then I realized I was at SIU. Nor is SIU floundering, it is just that the clocks here seem useless. I can tell better time by my watch than by looking at the clocks.

Almost every clock I have looked at shows a different time. The ones at Lawson Hall are usually correct, but only now when I get out and not when I go.

Is SIU trying to flunk out students by making them miss their classes? I doubt it, but they will if the clocks are not fixed. It is just as important to one of those students because my brother told me he cannot afford to buy his own watch, so I will wait and watch the clocks to see if maybe, by chance, they are all correct someday.

Terry Klinworth
Boldness Shocks

Castro Breathes Fire Again, Wants to Take On 11 Nations

By William Glandon
Latin American Editor
Copley News Service

Castro's speech amounted to a Communist declaration of revolutionary war on the rest of Latin America. It was liquidated for insisting that Cuba follow the Cuban line.

Castro also revealed that the guerrilla movement in Guatemala has split, with one faction following the armed forces of ex-rebellion leader, Marco Antonio Yon Sosa, and the other Luis Agusto Turcios, another former officer who completed the basic infantry officers' course at Ft. Benning, Ga.

The division came, according to Castro, because Yon Sosa permitted a "Trotskyite" agent, allegedly working for the United States, to infiltrate the Communist movement and isolate it from the Guatemalan people.

Castro made one point very clear; Cuba is in and will be the fountainhead of Communist revolutionary activity in the Americas, at least, for years.

The "Committee for Aid of Movements of Liberation," set up by the tricontinental congress, will be headquartered in Cuba and beosed by Cubans, at least until 1968, when the next Asia-Africa-Latin America meeting will be held in Cairo.

Castro Upgrades Officer Corps

HAVANA, Cuba—The Cuban Communists are professionalizing their military officer corps, no longer do bearded, often illiterates, peasant command troops in Red Cuba and no longer are there just four ranks of officers in the Cuban armed forces.

There has been a marked change in Premier Fidel Castro's "Rebel Army." Now insignia of rank in evidence and new men, some of them university graduates trained in Russian and Czechoslovakian Communist military schools, are wearing them.

Many of those who came down from the mountain in 1955 sporting the red and black diamond with the white star in the center—the insignia of "commandante" or major—no longer wear it.

The hard-bitten guerrillas of the Sierra Maestra were mostly unlettered. They had gained the maximum rebel rank of "commandante" for their courage, cunning and Castroism.

The top echelon was made up of Fidel and his brother, Raul, minister of the armed forces; and Ernesto "Che" Guevara, Juan Almeida, Sergio del Valle, Faure Chautem and Raul Curbelo, they all hold the rank of "commandante" and wore the same insignia.

Now they do not.

Castro apparently decided that the veterans of the 25-month guerrilla campaign were not up to running the Russian-equipped military machine that makes Cuban Communist the preponderant military power among the Latin American nations.

Since the Soviet Union assumed virtual control of Cuba's military establishment, hundreds of young Cubans have been sent behind the Iron Curtain for modern military training.

To have degraded his old friends to make room for the young professional officers would have been difficult, if not fatal, to Castro, so he created new officer ranks. Whereas there were only four—Heurteyn, first Heurteyn, commander, and "commandante" in the old rebel army, now there are ten.

Next in rank to Fidel is his brother, Raul, who is commander of army, approximately equivalent to Heurteyn general. Then follows Almeida, who had been army chief of staff and now is provincial comrائد of Las Villas, in central Cuba, a commander of corps. Del Valle, Chautem and Curbelo, none of them professional soldiers, hold the rank of commander of division but their posts are, at best, sinecures. They are engaged in civilian administrative work.

Of the old tried-and-true fighters of the Sierra Maestra, none but Almeida remains active. Huber Matos is serving 30 years in Isle of Pines prison, accused of treason for having resigned from the army. Camilo Cienfuegos was "lost" on a plane flight from Camaguey to Havana.

Che Guevara, best known of the fighters in the hills, is gone. Castro insists Che is fighting "imperialism" elsewhere, but Guevara's wife goes about Havana dressed in widow's weeds.

Copley News Service
Humanities Librarian Elected To Club for Book Collectors

Alan M. Cohn, humanities librarian at The Caxton Club, is also a member of the club. He holds the bachelor of arts degree from Washington University and the master of arts degree from the University of Illinois. He has published numerous articles, reviews, critiques and bibliographies. He has made an intensive search for James Joyce materials and has contributed numerous times to the James Joyce Review and the James Joyce Quarterly since he first prepared a 1947 catalogue of the Dr. H.K. Grossman Joyce collection in Morris Library.

Forestry Department Studies Rural Land Recreation Use

An SIU forestry research project is under way to find out the kinds of contracts owners of rural land in Illinois have made with private and public organizations for outdoor recreational uses.

The Illinois Department of Business and Economic Development is cooperating by granting $1,200 to SIU to help the Department of Forestry with the study. Assistant Professor Dwight R. McCurdy is a specialist in forest recreation and park management, and directing the research. Assisting is Herbert Echelberger of Maywood, a graduate assistant in forest recreation. He received his bachelor's degree in forestry at SIU last year.

McCurdy says the study has three main objectives: to find out the various kinds of outdoor recreation for which rural land is being leased in most of Illinois, to determine how much rent land owners are getting for such land and how it is being paid, and to find out what provisions are included in the rental contracts.

About 94 per cent of the forested land in Illinois is privately owned, and 81 per cent of this is in tracts of 100 acres or less. McCurdy says these lands and other small rural acreages are potential sources of income from outdoor recreational uses. The rapidly increasing population and the growing of amount of leisure time available to the American people are giving more and more pressure for added outdoor recreational facilities.

Many rural land owners would rather lease land to other individuals or groups for developing recreational facilities than to do it themselves. Others do not know how to go about leasing land for such purposes. Results of the survey, which may take most of a year to finish, will be published by the Illinois Department of Business and Economic Development, McCurdy says.

VISTA to Seek Volunteers

For Year's Poverty Service

Representatives from Volunteers In Service to America (VISTA) will be on campus from Jan. 31 to Feb. 4 to recruit students to serve on Indian reservations, among migrant farm workers, in urban slums and in rural poverty pockets across the nation.

Led by Dottie MacCall, the group will meet students from 9 a.m. to 5 p.m. daily in Activities Room H at the University Center. VISTA volunteers serve for one year, receiving living expenses and medical care. In addition to allowances for food, housing, travel and clothing, they receive $500 at the end of their service.

"We are looking for volunteers of all backgrounds and abilities," said Miss MacCall. "VISTA volunteers are currently in training or on assignment in poverty areas throughout the United States. About 75 per cent of them are between the ages of 18 and 24, VISTA jobs include conducting literacy programs, organizing clean-up campaigns, developing recreation programs, tutoring dropouts, setting up libraries, organizing community meetings and surveying health needs.

Volunteers have renovated one-room school houses, started night classes for adults and extended legal services on bail bond projects.

Five From SIU Will Present Research Papers at Meeting

Three SIU graduate students will present research papers at the annual meeting of the American Fisheries Society's Illinois Chapter in Chicago Feb. 14-16.

An SIU instructor in zoology and a recent graduate also will present papers.

Frank Bulow, Oak Lawn, will describe his thesis project, "Feeding-Out Channel Catfish in Strip Mine Ponds."

Stephen A. Flickinger, a student working on his masters, from Mount Carroll, will read a paper on "Shoreline Movement and Distribution of Largemouth Bass in a Small Lake."

Richard Vanderborght, of Woodson, will describe a study of farage utilization by garfish.

Other presentations will be by Richard Collins, instructor, and Dr. James Van Dusen, SIU graduate from Metropolis who is now teaching at Western Illinois University.

Gene Ulrich, a student working toward his Ph.D., from Hoskins, Neb., will participate in a panel discussion with Mr. Carlisle, chairman of the chapter.

All participants are associated with the Cooperative Fisheries Research Laboratory at SIU.
Problems of Southern Illinois
To be Topic of Conference

The Upper South Conference, to discuss the problems of Southern Illinois and possible solutions, will open here at 8 p.m., Friday.

Two films, "The Inheritance," the story of the organization struggle of labor unions in the United States, and "Long and Lonesome Sound," the story of eastern Kentucky and the changes that have come to the region, will be shown at 8 p.m., Friday in French Auditorium. An open discussion will follow the showing.

Reports on projects that are being carried out in the Southern Illinois region will be given at 9 a.m., Saturday in Ballrooms A and B of the University Center.

Projects to be included are the Cairo Project, Bloomington Student Movement, Missouri Student Union, Tennessee Voters Project and the Carbondale Freedom Committee.

Welfare agencies in this region will be discussed Saturday afternoon. At 3 p.m., a film on the Community Union, New York, will be shown. A dance will be held at the Student Christian Foundation at 8 p.m., Saturday. The Bloomington Be-bops will provide music.

Beginning at 11 a.m., Sunday in Ballrooms A and B of the University Center, farm labor and union organization in the area will be discussed. Speakers will include James Simrall from the Mississippi Freedom Labor Union, an organizer from the Textile Workers Union and Melvin Brooks, associate professor of sociology, who will talk about migrant labor in the area.

At 3 p.m., a panel will discuss the university's role in meeting a changing society. Patrick H. Hare, Robert J. Wenc from the Action Party, Mr. and Mrs. John Satterfield from the Bloomington Student Movement, Jo Allen from the University of Illinois and Phyl Beams, former Carleton College student and SDS organizer, will start the discussion. Harry F. W. Perk, lecturer in design, will address the conference on "An Analysis of Our Society," at 6 p.m., Sunday at the Wesley Foundation. Dinner will be served Saturday.

The conference is being sponsored by Students for a Democratic Society.

---

Faculty Quintet to Give Recital

The Altgeld Wind Quintet, an SIU faculty ensemble, will present a recital at 8 p.m. today in Davis Auditorium in the Wham Education Building.

The group will present the same program which it played Sunday evening in a concert at Fontbonne College under sponsorship of the Music Guild of Creater St. Louis.

The program will include Allegro and Arioiso for Five Wind Instruments by Ingolf Dahl, Wind Quintet in B-flat major by Anton Reicha, Caszazions for Wind Quintet by W.A. Mozart and Quintet 1958 by David Diamond.

Although the quintet has been organized since 1950, this is the first season during which the personnel is made up entirely of artist-performers who specialize on their respective instruments.

They have performed throughout Illinois, at national music conventions, on educational television programs and at campus concerts. Each year they are requested to present clinic-recitals for schools, music festivals and professional music meetings in Illinois and Missouri.

The group has chosen its name because the music building at SIU in named Altgeld Hall in honor of the former Illinois governor under whose administration it was constructed.

Members of the wind quintet are Will Gay Bottje, flute; George Hussey, oboe; Robert Resnick, clarinet; George Nadaf, French horn; and Lawrence Intravaia, bassoon.

The public is invited to tonight's concert, without charge.

---

How would you like to jump into your career with both feet...and be on the run from the beginning?

WESTERN ELECTRIC has a unique program for those interested in a management career—a high-reward program that offers you one of the most dramatic opportunities in business. You are put in a management position immediately—required to handle high-level transactions all by yourself. If you do your job well, you'll have begun a managerial career in the growing communications industry. If the demands prove too stringent (and they will for some), then both of us will benefit by learning this before a significant investment in time has been made.

Whatever your background—from technical to business to liberal arts—there may be a place for you in the College Graduate Development Program at Western Electric. Your college record must indicate a high level of scholastic achievement and the ability and initiative for effective leadership—and you must be interested in a management career.

If you feel you qualify, be sure to arrange a personal interview when the Bell System recruiting team visits your campus. And before that, get your copy of the Western Electric College Graduate Development Program booklet from your Placement Officer. Or write: College Relations Staff Manager, Western Electric Company, Room 2510A, 222 Broadway, New York, New York 10038. An equal opportunity employer.
Reds Avoiding Contact

U.S. Activity Hiked in Viet War

SAIGON, South Viet Nam (AP)—A Red mortar crew lobbed two shells at the Da Nang airbase complex early Thursday as if in response to another Allied offensive that raised hundreds of tons of explosives on suspected Communist stockpiles.

The mortar shells landed near the U.S. 9th Seabee Battalion area shortly after midnight, but caused neither damage nor casualties. Marines fired several rounds in return. It was a re-enactment of a mortar duel early Tuesday at Da Nang, in which the Viet Cong killed one American and wounded two Vietnamese.

Whether for military or political reasons, Communist field units were avoiding any substantial contact with probing troops of South Viet Nam, the United States and other allies.

In the biggest encounter reported, Vietnamese troops killed 14 Viet Cong and captured 114 Wednesday in Kien Phong Province on the Cambodian border, a government spokesman said.

Among the prisoners were 100 described as recently recruited. A large store of arms was reported taken.

In the same province, Vietnamese troops used artillery and air strikes to drive back a Viet Cong attack on an outpost. Washington sources expected that President Johnson soon would order renewal of U.S. bombing attacks on North Viet Nam, suspended since last Christmas as an as part of a peace offensive that Hanoi denounced as trickery.

The aerial raiders included 253 Stratofortress bombers of the 9th Seabee Battalion, which the U.S. Air Force launched to bolster the Civilian Office of Reconstruction for the South.

Two Red Chinese mortars also were in action Wednesday, but none was hit by return fire.

U.S. Raps Moscow's Role in Mott Death

WASHINGTON (AP) - The United States accused the Soviet Union of waging a "concerted campaign" in Moscow to escape blame for events which led to what the Russians called the outside last week of Newcombe Mott.

Soviet sources had been quoted Moscow press dispatches as saying that Mott, 37, the white-haired priest, had suggested that the United States exchange a Russian prisoner for him, but he had repressed when his proposal was turned down.

A State Department spokesman said it was true that Mott raised the possibility of an exchange in a letter last September

Dirksen, Mansfield Agree

WASHINGTON (AP) - After three days of maneuvering on the Senate floor, Sen. Everett M. Dirksen, R-Ill., figured out loud: "We are right back where we started from."

"Exactly," said Sen. Mike Mansfield, D-Mont. The Senate still was embroiled in the question of taking up the legislation to eliminate the right of states which employes must join a union or at least pay the union or at least pay the union shop contracts, under the Taft-Hartley Act.

The Senate met Thursday at 10 a.m., two hours ahead of the usual time, and the pending business will be a motion to consider the bill. Opponents are ready to talk against it. Mansfield had tried the motion Monday, and opponents launched a filibuster against it. Tuesday and Wednesday he wanted to make his motion during the Senate's "morning hour," the first two hours when motions are not debatable.

He couldn't; Opponents filled the time with other things. Wednesday, they talked about prayer.

"I can stand only so much futility," Mansfield said.

Tories May Gain in British Vote

HULL, England (AP) - The life of Prime Minister Harold Wilson's Labor government could be at stake today in a special parliamentary election influenced by factors ranging from the local party machines to the war in Viet Nam.

The vigorous and complicated campaign closed Wednes-

The election was caused by the death in November of Hen-

The nation's three major parties are in the race, but three independents could de-

Kevin McNamara is the Labor candidate; Toby Jessel, the Conservative nominee; and Laurie Millward represents the Liberal party.

The key to victory can be in whether the party organizations can get their people to the polls.

British Priest Authors

LONDON (AP) - Rory is the most popular columnist in the parish magazine of St. Mary Magdalen Roman Catholic church in Brockley. It gives a weekly message—tips on horse racing.

Rory comes up with winners. But he has remained a mysterious figure until now.

The Rev. Brendan Fox, 62, a parish priest, finally disclosed his identity.

"I know little about form and naturally would have the time to spend working it all out."

In addition to printing selections in the magazine to help circulation, the Augustinian priests operate a de luxe tip service in aid of the parish building fund.

A 70-cents postal order will bring a real hot tip. Two years ago, Father Fox backed a winner again himself in a modest way, by investing a shilling—14 cents—in a double. It came up.

So far he's run the 14 cents up to $19,60.
Sterling Chosen as Director Of Opera, ‘Gianni Schicchi’

Wallace Sterling, a doctoral candidate in the Department of Theater, will be stage director for the forthcoming production of the opera, “Gianni Schicchi.”

The Puccini comic opera is one of the two short operas to be staged Feb. 14, 12 and 13 by the Opera Workshop with Marjorie Lawrence, former Metropolitan Opera dramatic soprano, now research professor of music at Southern, as producer. The second is Menotti’s contemporary “The Medium,” in which Elsa Lawrence will star.

Sterling is designing the stage setting and directing the acting for “Schicchi,” which will have an all-student cast.

Sterling, who holds the bachelor of arts and the master of arts degrees from the University of Florida, had two years’ teaching experience in high school, three years as instructor in drama and two years as a graduate assistant in speech.

He currently holds a graduate fellowship in the Department of Theater, and is president of the SHU chapter of National Collegiate Players.

Last spring he was one of a group of students who presented a “concert reading” of Mark Van Doren’s play, “The Last Days of Lincoln,” before the National Civil War Centennial Commission meeting in Springfield.

BAPTIST SPEAKER–The Rev. Robert Hasinger, pastor of University Baptist Church, will speak at the chapel service at 12:30 p.m. Friday at the Baptist Student Union.

War’s No Game of Tag

Bombing Resumption Voiced in Survey

By Richard Liverth

“Do I think that we should have stopped bombing North Viet Nam? Of course not! If you think it was a game of tag, we should never have started in the first place. But as long as we are there, we should resume the bombing right now and in Vietnam and to end the war as soon as possible,”

This statement by Michael R. Clowers, a senior majoring in psychology, is representative of the strongly-worded response most students gave in interviews about the recent U.S. offensive.

Here are some of the comments:

“I think that we should not take a de-
effort role when there is a matter of American lives. Ac-
clusive is a necessary evil in war. I definitely think that we
ad we should assume the role of a aggressor to flush the the
of war from the bush.”

Agreeing with this idea was Michael A. Cellar, a junior majoring in marketing. “To resume the bombing when we were wrong. In a war, the moral objectives are out-
Vegetarianism. We should not only resume the attacks on the north, but we should increase them. Our men are being killed over there for no reason.”

Rosalee K. Simons, a senior majoring in elementary edu-
cation, also went along with the bomb-the-northside. “No, we shouldn’t have stopped. It gave them a chance to build up their forces again. The only way that we can stay ahead in the war is to resume the bombing raids on the north.”

Steven Tucker, a junior majoring in sociology, said, “I wish we could stop bombing North Viet Nam and we did because it was the best opportunity to open the door for peace negotiations. But now, we have to continue the war to get our interest for a peaceful settle-
ent. The North Vietnamese, however, have shown us quite clearly, by word and action, that they do not want a peace-
ment now or in the foreseeable future. We should resume the bombing raids on the north, and prove to the world that we are not the wishy-washy nation that everybody thinks we are.”

A rather extreme view of the situation was expressed by Stuart A. Fox, a senior majoring in geography. “I'm in agreement with the proposed motives relevant at the time the action was taken. But now the situation has changed. Not only should we bomb Hanoi, but also Red China, Pakistan, Indonesia, and anybody else that plays us for the suckers that they've been playing us for. And I'm serious!”

HARVEY L. FISHER

Fisher to Discuss Biology Education

Harvey L. Fisher, chairman of the Department of Zoology, will lead a discussion on "Problems and Aspects of Modern Biology Education at the University and College Levels," at a biology gradu-
ate seminar today.

It will begin at 4 p.m., in Room 205 of the Life Science Building.

Taking part in the dis-
cussion will be Isaac L. Steckelheister, professor of microbiology; and Lorraine P. Morin and Mary G. Ulrich, graduate students in zoology,
JOB INTERVIEWS

Job interview appointments should be made at Placement Service, Antomy Hall, as soon as possible.

Jan. 31

FREEPORT SCHOOL DIST., No. 145, Freeport: Seeking teachers for the following positions: elementary, kindergarten, first, third, and fifth grade, general and vocal music supervisors, art consultant-supervisors, trainable mentally handicapped, educable mentally handicapped, junior high teachers for social studies, English, girls' physical education, home economics, boys' physical education. Senior high teachers for Spanish (males' preferred), English, girls' physical education, business education, girls' counselor, boys' counselor. Community College teachers for English, journalism, accreatable science, business administration, director of technical education and English/Speech/Drama.

Feb. 1

ILLINOIS BELL TELEPHONE CO., Chicago: Seeking liberal arts and business majors for positions in management, marketing, sales. Also seeking women candidates for commercial representatives (public relations).

MAGNAVOX CO., Fort Wayne, Ind.: Seeking accountants.

FEDERAL-MOGUL CORP., Detroit: Seeking sales trainees, accountants, general business trainees and engineers (mechanical and industrial).

COLLEGE LIFE INSURANCE CO., Champaign: Seeking liberal arts and business majors for positions as sales consultants.

ALLIS-CHALMERS, Springfield: Seeking seniors with majors in applied science, engineering, engineering technology, industrial technology, mathematics, business management and business administration.

ARTHUR YOUNG AND CO. (CPA's), Chicago: Seeking accountants.

HEATH SURVEY CONSULTANTS, INC., Wellesley Hills, Mass.: Seeking majors in forestry, agronomy, horticulture and other related botanical studies for services retained by gas companies throughout U.S. and Canada.

UNION CARBIDE CORP. (NUCLEAR DIVISION), Paducah, Ky.: Seeking engineers, chemists and physicists for research and development.

THE FOLGER COFFEE CO., St. Louis: Seeking liberal arts and marketing majors for sales. Also business majors for corporate positions.

Feb. 2

WESTERN ELECTRIC CO., Chicago: Seeking machine-tool making and drafting at VTI.

UNION CARBIDE CORP., (NUCLEAR DIVISION): See listing above.

JOHN DEERE CO., Moline: Seeking juniors or seniors for summer work in John Deere advertising department. Candidates preferred in photography, journalism and advertising with a strong background in photography.

CAMPBELL SALES CO., St. Louis: Seeking sales trainees to contact retail outlets.

SWIFT & CO., Chicago: Seeking business, agricultural, engineering and liberal arts and science seniors for positions in sales, management, marketing and production.

GENERAL ELECTRIC CO., St. Louis: Seeking college graduates or men with four years consumer goods sales experience for distribution training program.

GENERAL TELEPHONE CO. OF ILLINOIS, Bloomington: Seeking trainees in accounting, traffic, office management, commercial management and plant supervision.

WESTERN ELECTRIC CO., Chicago: At VTI, seeking two-year candidates in machine tooling and drafting.

UNION CARBIDE CORP., (NUCLEAR DIVISION), Paducah: Seeking engineers (all fields), chemists and physicists.

AMSTED INDUSTRIES, Chicago: Seeking business majors in accounting and personnel for opportunities in sales and production. Also seeking engineers for plant and product engineering.
Computerized Caper

When Woody Hall and University City residents decided to let an IBM machine match mates for a dance, the results were surprising, to put it mildly. But most of the young men and women took it all in fun including the 23-year-old senior girl who was paired off with an 18-year-old freshman boy. However, one coed who stood in line for almost two hours to find out who her date was didn't take it in such high humor. She reportedly took one look at him and fled the room.

Who Will He Be—One party card matches system, as the woman for the male partner who still gave her a look to the "perfect" date.

THE MACHINES ADD UP—the score—Another Data Processing machine begins the final separation of the IBM cards which have recorded individual characteristics of about 200 students.

THE PROCESS BEGINS—An example of the Data Processing Service starts the identification cards on the way through the IBM 605, a machine that resembles a flown bridge with a ship going beneath it.

MRS. Wm. FILLS OUT CARD—Members of the committee in charge of the computer dance stand around Mrs. Delores W. Harris as she fills out a token card for the dance.

THE GIRLS LINED UP TOO—Amused from the box, the cards also stood in line to get their matching partners. The card of the right seemed to be eying a good prospect in the other line.

SO THIS IS THE CULPRIT?—A matched couple holds one of the IBM cards which was used to arrange the dance dates.

THE TIME HAS COME—A couple destinations of the cards are decided if the cards is going through the IBM 605. In the end, to dance or not to dance. That's the question.
A Tough Act to Follow

59 Persons Spend 70 Hours Producing 40 Minute Cage-Show

By Larry Odell

The big show is still about 30 minutes away but the house is almost full. Laughter, shouts and occasional cheers split the air, to an outsider it all may appear a little too strident, a bit too forced, but anticipation and excitement have a way of making things appear not quite natural.

Finally it is 7:35 p.m. From the north staging area of the giant hall the "director" and "cast of 14" appears. The crowd comes unglued.

At 7:55 the first of the five-star cast is introduced. "Starting at one guard for Southern Illinois is No. 12, George McNeil, 6-2 guard from St. Louis, Mo."

McNeil's $43.45 warm-up suit is draped neatly on the back of a chair at the sideline as he tucks in his $12.20 Saluki basketball shirt while taking position in the spotlight at the center of the floor. Dave Lee tugs nervously at his $11.20 basketball trunks while waiting to be introduced.

Daily Egyptian Classified ads pack a big wallop.

Just one dollar places a classified ad of 20 words into a whopping big audience . . . well over 20,000 people during the regular school year. A giant summer audience too. It stands to reason that if you have something to buy, sell, rent or trade — from automobiles to houses to parts — these classified ads pack a big wallop.
Trackmen to Enter Illinois Open
In 5-Team Meet at Champaign

The SIU track squad will travel to Champaign Saturday for the Illinois Open at the University of Illinois Armory. George Woods of SIU holds the armory record in shot put at 57 feet, 2 inches. Last year, Woods set a school record in shot put at an invitational meet in Kansas City, Mo.

Freshman Oscar Moore will try to break the armory mile record, which was set in last year's Big Ten meet by Norris Pesce of Minnesota at 9:01.8.

Moore was third last weekend in a close two-mile run held in Winnipeg, Canada. High jumpers Mitch Livingston and Tom Ashman will be shaving for the armory's sota at mark of 6 feet, 8 and 7/8 inches.

Livingston holds the school record for high jumping, after going 6 feet, 8 inches last weekend in Kansas City.

Other teams entered are the University of Illinois, Purdue, the Chicago Track Club and Tennessee, SIU entries and 60-yard dasher Robin Coventry, Ron MacKenzie and Ed Richards.

70-yard high hurdles: Mitch Livingston, Richards and Frank Whitman. 70-yard low hurdles: Richards, Livingston and Bill Carlone.

880-yard run: Al Ackman, Van Hallam and Jeff Duxbury.

Mile run: Ackman and Jeff Rogers.

Two-mile run: Oscar Moore, Ralph Kanzig and John Grove.

At U. of I. Armory

Clocks at University Can't Seem to Agree

(Continued from Page 1)

discovered two clocks in the Science Center building before he realized what had happened. At 7:30 a.m. Monday, a student who is required to be at work every morning at 8, discovered two clocks in the University Center which had identical times—only one hour early.

Being as clever as most students, he reasoned that all the clocks are operated off the same electrical timer system, and that if these two clocks were off an hour, all the clocks would be off an hour, including the one on the time clock where he works (or rather worked) were on time—he wasn't.

It's been rumored that the University is going to add a pipe to the schedule for today in the Arena because they have not had a basketball game this season.

COVENTRY and MACKENZIE

The freshman Oscar Moore of SIU is going to add a mile to the schedule for today in the Arena because they have not had a basketball game this season.

Purdue, Michigan Players Lead In Scoring Parade for Big Ten

CHICAGO (AP) — Purdue's Dave Schellhase may be leading the national basketball scoring parade, but Michigan's Cazzie Russell is pulling away from the Boilermaker star in their race for the Big Ten points-making title.

Official conference statistics released Wednesday credited Russell with a 33.4 average, against runner-up Schellhase's 29.9, also for four league games.

For the overall season, Schellhase, defending Big Ten scoring champion, has a 32.1 average and Russell has 30.0.

Although Illinois is trailing third in the team title chase with a 3-1 record, the Illini have three shooters among the top ten league scorers. Illini Don Freeman with a 23.5 average in fourth behind third place Archie Clark of Minnesota, who has 26.3.

Two other Illini, Rich Jones with 19.5 and Jim Dawson with 18.8, rank eighth and ninth respectively.

Undefeated Michigan leads both in team scoring with a 90.3 average and in average rebounds with 48.0. Iowa, running fourth with 3-2, has the Big Ten's best defensive record with an average of 73.0 points.

The top scorers include:

Pts. Avg.
Russell, Mich. 138 34.5
Schellhase, Purdue 119 29.8
Clark, Minn. 79 20.3
Freeman, Ill. 102 25.5
Burns, Northwest. 100 25.0
Hosker, Ohio St. 89 22.3
Washington, Mich St. 104 25.8
Jones, Ill. 78 19.5
Dawson, Ill. 73 18.0
Kozliz, Northwest. 72 18.0

Campaneris Signs Contract With A's

KANSAS CITY (AP) — Bert Campaneris, who led the Kansas City A's in nearly every offensive department last season became the first player to sign a 1966 contract.

Dewey Researcher To Talk to Faculty

Jo Ann Boydston, assistant director of the Dewey Project, will speak to the Faculty Club today on "The Woman in the Scholarly Community."

The meeting will be held at noon in the River Rooms of the University Center. Mrs. Boydston received B.A. and M.A. at Oklahoma University and her Ph.D. at Columbia University.

As assistant director of the Dewey Project, Mrs. Boydston helps collect John Dewey's works for publication for scholarly research.

Peace Disturbance Leads to Probation

Allan C. Alexander, a student from Scotia, N.Y., has been placed on disciplinary probation after pleading guilty to charges of disturbing the peace on Jan. 12.

Alexander was fined $25 plus $5 costs by Robert Schwartz, magistrate of Jackson County Circuit Court.
