Southern Names New Football Coach

Governor Allan Stevenson, Dr. George G. O'Brien, president of the University of Illinois, and Assistant to the University of Illinois, and others, who attended or were guests of the Southern Board of Trustees at the Flin.

The joint session was held to encourage better cooperation and understanding between the state universities. A serious meeting was held and last Northern Southern met to discuss the rules of the U. of I. Board.

Governor Stevenson pointed to the economic problems at Southern and talked of the difficulties of doing his best and with the help of the state and the universities to get along better.

President Sheldrick noted the "Projects of professional cooperation between Southern and Northern states are on the move.

Following the joint session, members of the U. of I. party went to a meeting to discuss the plans for the coming year.

In the course of his nineteen seasons at Kentucky, Rupp was a coach for a year around the year, having played full back, and also playing halfback in one of the games to give the team another victory.

Of the University's biological research at the present time, Wasserman is the only one of the state schools.

For the 1950 season, the Maroons will have a chicken dinner and will play football again on Tuesday and Bell will return to the University faculty as chancellor of the art department in September, a position he held from 1920 to 1942.

Art is also related to Southern and has been a favorite subject for many years at S. M. U., Bell has won the University's Basketball title winner and tied for the title of the University's basketball coach. He is also the author of many educational articles and has lectured on numerous educational subjects.

Kappa, Phi Delta Epsilon, Rotary International, governor of the 55th district in 33-34, Economic Council, the Rotary club of Chicago, and the Chicago Cultural Society.

He is the author of many educational articles and has lectured on numerous educational subjects.

SHROCKY RETURNS TO FACULTY AS ART CHAIRMAN

Burnett S. Shrock, nationally known artist and instructor, will return to the University faculty as chairman of the art department in September, a position he held from 1920 to 1942.

Art exhibitions, collections and art work include: St. Louis Art Museum, Henry Pittock Collection, Helen Hayes Collection, Teachers College Columbia University Collection, Milton McGravy Collection and many others.

Shrocky comes to Southern from a number of institutions and Art which he helped to organize in 1947.

SIU SCIENTIST NARROWS CANCER RESEARCH FIELD

Dr. Carl L. Lindegren, director of the University's biological research laboratory and in the biological field, has helped to simplify cancer research.

The role of the body is to study the effects of new cancer drugs on the body, and this work is being done under the direction of the nation's career investigators.

Rejection of the theory that cancer cells change in nuclear acid content with the use of a drug, Dr. Lindegren points out, will enable institution to narrow its research to fields that show promise for productive work in the search ending for answers to the question of "What cancer causes cancer?"

Dr. Lindegren reported his findings at a recent meeting of the American Society of Nephrologists held in Baltimore, Maryland.

For his outstanding work, the National Institute of Health, Washington, D. C. has approved the second annual $10,000 award for continuation of his research.

Rupp, Bell

Booked For Coaching Clinic

Adolph Rupp, famed basketball coach at the University of Kentucky, and Madison "Matty" Bell, widely acclaimed mentor of Southern Methodist University, have been booked as guest instructors at Southern's second annual coaching clinic.

In the course of his nineteen seasons at Kentucky, Rupp made basketball a year-round proposition, when each year about two hundred men work with the variety for a position on the team. Rupp's boys with the armchair in Kentucky in 1946, Rupp has won 16 Southern Conference titles.

Bell is Defensive Strategist

Bell, who will begin his twenty-fifth year coaching football this fall, is regarded by several coaches as the best defensive strategist in the business. He is generally considered a backfield man, having played fullback and having coached several brilliant backfield stars. In his twelve years at St. M. U., Bell has won one National Championship and three conference titles.

The clinic has drawn considerable interest from outside the state, said Glenn "Abe" Martin, Maroon Athletic Director. He will attend the clinic to help keep the outlook for the Maroons.

May Convert 26 Barracks For Campus Use

Plans are now being made to remove the present building from Ellis Field near Macomb, and build a new one in the shape of classrooms, offices, a men's dormitory, and a gymnasium, according to University officials.

Although infinite plans have not been made, tentative plans for a new dormitory to house 400 and the possible conversion of some of the barracks to a temporary Student Center, Plans for a new winner's memorial on W. Grand St. call for the building of the present Student Center.

For a new winner's memorial on W. Grand St. call for the building of the present Student Center.

The clinic will include also basketball and baseball, and athletic displays Football will be the highlight of the clinic.

If approval is granted to obtain the barracks, they will be moved to the campus this month.

Excerpts From Alum Letters

"After dinner we left for An- clern, Amsterdam is the Van- en, Holland. There are canals till of the canals in a large glass- covered boat. In many places the canals were so narrow the boats had to pass each other with a great deal of maneuvering. Many of the buildings had to be knocked down to get the boats through. Some of the windows had to be removed."

"The EGYPTIAN'S foreign cor- respondent, John (Caray) An- nopolis (right) speaks with an Am- erican official at Athens, Greece.

"Thirteen newspapers daily hit the newsstands of Athens, Greece, and many others come out in comic strips or funny papers, but few speak of these developments as to what the future may hold for Greece.

"This comment was made by John Caray Anastoplo, Southern stratomorph, who is visiting rela- tives in Greece. Anastoplo regu- larly reports his observations to his friends at the University in a column of the Egyptian. His timely observations and com- ments are helping the University students gain a better understand- ing of the Greek situation at a time when Greece stands as a po- tential target for the next test of strength in the cold war. At the outbreak of the Korean war, Anastoplo wrote, "The con- ditions on Athens streets today is confined almost exclusively to the invasion of South Korea, and when future developments, and what that move in regard to our insur- ance on a European basis."

"It's an amazing thing, how- ever," continued Anastoplo, "the reactions to remain anaesthetic and lasticalkwards to the events which may follow the Korean war. For ten years, since the fall of 1945, these people have seen nothing but war, privation, poverty, and more war. After so long they have become rather indifferent to any provocations, and border la- cks, no longer excite them."

"The average wage earning here is $1.25 at the present rate of exchange."

"From Corfu, Greece, Anastoplo had this comment, "The only sign of enlisted the Wapping Towers, both because of the work of the Wapping Towers, while the Germans are learning out a continuous barrage of tension- provoked tides against the West's powers which are sugar-coat- ed and acceptable to a gullible, uninformed people."

"I feel that Bill is exceptionally well qualified for the job," de-clared Martin, who has known Waller for the past 12 years.

"Waller joined the Southern coaching staff on July 17.

SOUTHERN EXPANDS PROFESSIONAL TRAINING PROGRAM

"Professional training at Southern has been expanded to a point where the maximum contact of the student body is now enabled in vocational and professional courses," according to Dr. Henry J. Rehn, dean of the College of Vocational and Professional Education.

Specific expansion programs in the nine departments of the college include the appointment of specialists in vocations and inactivity in the agriculture department. A horticulture station has been jointly operated by Southern and the University of Illinois.

Four Daily equipped radio studios will enable the speech department to give five new courses for those who wish training in the field of radio or television.

In the Music department, the three-dimensional model of the southern Illinois, where it is designed to show the changes in supply and demand in the nation. Dr. Mervin K. Mervin, chairman of the department, said he believed that Southern's new library building still on the drawing boards, officials Pred library acquiring a collection of books and periodicals that will make the new library an up-to-date as it will be in design. According to the Annual Report, just released by Dr. Robert H. Minor, director of University Libraries, the university now has over 113,000 volumes, with more being added every day. In addition, there are nearly 7,000 pamphlets and other unbound materials.

During 1943, a total of 9,620 separate items were added to the University Libraries. Of these acquisitions, 7,295 were catalogued and entered in the card catalog; 1,350 were bound magazines; and 1,165 were books for the University school.

Seventy-Five Years Retrospect (Continued from page 3)

organized his home school system in 1892. He had been a member of the faculty at Old N or in a , superintendent of Bloomington schools and county superintendent of McLean county, who had to be the most progressive county in the state. During those years he was active in the councils of the State Teachers Association and served as its president, and was the founder of the Illinois School Master.

The re-establishment of the school was a great accomplishment. A superintendency gave it a permanent inheritance for the future of the Normal School. As pupil teachers increased in number, the students who formed this community also increased and the laboratories made expansion possible. Miss Mary A. Sewer of the class of 1897 was appointed Professor Hull’s assistant. As supervisor of practice teaching, she became the first female teacher. She was succeeded by two other graduates of the class of 1893, Krysley of the class of 92 and it became the settled policy to appoint women to the faculties at Normal.

By 1894 the “teaching school” had expanded into a principal of the primary grades and a principal of the normal grades. School, both assistants in the superintendency, were moved to the organization of the earlier Preparatory School and the establishment of the high school as distinct from the Normal department.

Miss Ann C. Anderson was the first principal of the high school; her successor, Miss Theda Goldstein, was appointed an assistant principal in 1909. A principal, W. F. George, who later became head of the mathematics department, was principal for a year and a half and a half-year, became the principal of the high school and a half-year. - students were added to these faculties in full force in the teaching school under the supervision of the assistant principal.

When Hull became principal in 1892, his successors, Professor Rochee, professor of pedagogy and school law, and later, became head of the mathematics department.
