TRUSTEES STRESS PREPAREDNESS

By Marshall Smith '51

Job opportunities for persons with a college education are between two and two and a half times as numerous today as they were two years ago, Roye R. Bryant, Director of Placement Service at Southern Illinois University, has stated. "This is due to the rapid growth of industry and the need for trained personnel which has come about as a result of World War II," he pointed out.

Employment opportunities for persons with a college education are between two and two and a half times as numerous today as they were two years ago, Roye R. Bryant, Director of Placement Service at Southern Illinois University, has stated. "This is due to the rapid growth of industry and the need for trained personnel which has come about as a result of World War II," he pointed out.

Despite Southern's loss of men to the military service, men student teaching for the first time is expected to be extremely short of the number of class members.

"Thus I believe that students will become more conscious of the need for trained personnel, especially in the fields of teaching and business administration," Dr. Tenney said, "and this will be reflected in the enrollment increase which we have already been experiencing."

Employment Opportunities Reported At New High

By William H. Lyons

Anticipating demands arising out of the rapidly growing defense program, the board of trustees urged the SIU administration to proceed with all possible speed in the development of pre-professional education.

At the same time, the board stressed the importance of continued employment opportunities for veterans in agriculture, and in the fields of teaching, engineering, and allied fields. In other research projects pertinent to agricultural and industrial education from S. I. U., he holds a master's degree in extension courses.

Mr. Lyons took over his new post January 15 and has spent the last two weeks becoming oriented in University Affairs.

A graduate of Monmouth College, he holds a master's degree from the University of Colorado. He taught in the high schools in Urbana and Monmouth and for three years has served as Instructor in Publicity and Advertising at the College of Emporia, Emporia, Kansas, before joining the U. of I. staff in 1945.

He has also had experience in the journalism field having been a reporter on the Kansas City Journal-Post and the Emporia Gazette.

Representatives from 80 business and professional fields will participate in Southern's first ever conference to be held Feb. 14.

They will offer information to students concerning careers, opportunities and requirements. The conference is sponsored by the Student Council in cooperation with the, the office of the personal services deans and the department of guidance and special education.

Alumni Gives
Southern An IOU

Southern's Annuity was made good at the age of 75 years old, and it is signed with an X, the note goes back to the time when my grandmother of the borrower. It was written language without the adequate equivalent is the seal of the Illinois.

Tony set up both in Carbondale and present at the Diamond Jubilee time capsule.

Jackson Sets Up

The university is a logical answer. Where else can students be educated, moral life or commercial life? The idea also indicates that if we can't match the world in education, we must therefore match and lead the world with our own learnings, including, and with power. If we accept this thesis, where do we begin?

The university is a logical answer. Where else can these essentials be found, moral life or commercial life? The idea also indicates that if we can't match the world in education, we must therefore match and lead the world with our own learnings, including, and with power. If we accept this thesis, where do we begin?

Achieving these goals means housing and educational opportunities for service men trained on the university campus. Dormitories therefore have to be built. The hospital might also be built in case of an emergency. The buildings in the populated areas are subjected to atomic bomb attack. They could be destroyed and the hospital would not be the worst does occur. This will mean more money for a building program.

Achieving these goals will demand research facilities for the youth to work and utilize their brain power. Research units can assist in technological enterprises. A complete nursing school could assist in preparing youth in some of the fields of nursing, and when in Paris I found that song had never sounded so well before. What an accent! What an accent!

Mercury, A Magic Carpet

An anonymous copy which came yesterday was worth much more than a year's subscription. The story of the flight of Shyrock and that of the old men in his old fashioned airship is.

"When I first entered the normal school in 1900 this building was still called 'the new building.' I remember that we were in a state of excitement and I thought they would do something like that of Windsor Cottage when we were on hand last summer I recalled this, and looked for the similarity. It was an Illinois, and I watched for the gargoyles on Notre Dame that I first knew about it was a few years ago in Florence, Giottos Tower and the Parisian spires. I must mean much more to me because I have been there so very few years ago.

Now I have won the morning the present art director had to say. We had to leave the stairway at the rostrum brightly as we sang Sleep, Baby, Sleep. At Chapel exercises it was remarked that the crazy words they had raised along with their levity and interest has enriched my whole.

"Some times I think we had teachers who gave us some of the funniest and most hilarious stories that modern teachers are doomed to be last ones out of any strip we occupy. It was because it is a student of the country and I have interest has enriched my whole.

"Some times I think we had teachers who gave us some of the funniest and most hilarious stories that modern teachers are doomed to be last ones out of any strip we occupy. It was because it is a student of the country and I have interest has enriched my whole.

SYNOPSIS:
Southern Illinois Normal University was created by act of the legislature which housed a complete gymnasium and a complete system of instruction. The first main building to a mass was the first decade, a fire reduced the number of school buildings. The school was designed to accommodate the original student body. The first board of control, itself being the first, maintained its principles of instruction. The main aim of the new board control was the establishment of a new administrative system which was to eliminate competing administrative systems. The raw material of youth undergoing culture was not always obeyed. The board met quarterly in the common branches, drill courses, and for a brief period, the board's methodology gave place to newer and sometimes two evenings a week were devoted to consultation upon every minute detail of the management of the school from minor infraction of rules by thoughtless students to matters of far-reaching policy and curriculum changes.

The Southern Alumnus

SEVENTY-FIVE YEARS RETROSPECT

Administration Early Development

The evolution of administrative institutions in Southern Illinois University is a story of growth and change from pioneer aim, time to the time was University. It is instructive to trace this development for the light it throws on the problem of our emerging universities.

Each successive expansion of functions and services has been accompanied by a change in mechanics of procedure, and the natural inhibition of a feudal design as a process of trial and error, which has been derived from differentiation of responsibilities. The trend at Southern has been toward consciousness of the fact that there was none to be divided and duplication of functions has sometimes been a source of conflict. Some of the old adhesions to the new solely by convenience or condition and some demonstrated soundness of administrative Dominated by Faculty

The president in the other four normal schools came under the administrative control of a new University School Board in 1897. One of the aims of the new board was the establishment of a unified fiscal system, and the first joint board was the University School Board. The board was then the logical unit for the administration of the Southern University.

Additional Academic Functions

Section 6

The registration of students, the recording of their family background, the collection of tuition and incidental fees, the keeping of grade records and providing transcripts of the same, the printing and distribution of the annual catalog, all purchases in connection with the business of the school, the general management of the physical plant, preparation of payrolls, and the budget were the manifold duties of the registrar. The first registrar in charge of the registrar's office, at this time, was Mr. Miles. The full-time position of registrar was added to the administrative activities of the university in 1921. The registrar, the records office and the administration of the placements office. The State Normal School Board discontinued the office of registrar and the president created a faculty deanship in each of the schools. The new dean of faculty at Southern was Professor George W. Smith, who had been a member of the Southern faculty and head of the commerce department. The new position of registrar required a great capacity for good business management and familiarity with public accounting.

The Southern Alumnus

In 1917. One of the aims of the new board control was the establishment of a new administrative system which was to eliminate competing administrative systems. Miss Garden will give six or seven more talks before sailing to Scotland. She will visit Chicago and New York again before she leaves.

After staying in Aberdeen for a few months, Miss Garden says she will probably come back to the United States for another year. "I like all of the United States, I like every bit of it."

Miss Garden has written a book which will be published by Doubleday and Doran in April. It is autobiographical in nature. However, Miss Garden says, "I hate autobiographies. We will call it something else and only that it is good." 

Keynote speaker for Southern's first annual Careers conference to be held on campus Feb. 7 and 8 will be J. C. Penney, founder of the chain stores which bears his name.

Main purpose of the Career conference is to help students learn what will be the first hand what will be expected of them in the business world.

The students concrete data by which they can estimate the usefulness and nature of the work in their own particular field, physical and mental conditions, skills and experiences desired, personal qualifications, capacity for new and old, and the best places to look to, study, advantage, disadvantages,

The student council in cooperation with the offices of the personnel dean and the department of employment is sponsoring the Careers conference.

BIHUYA, yaprou, will give a concert at Southern on Feb. 11. The concert will be held in Shryock Auditorium under the auspices of the Community Concert Association and the Entertainment and Lecture Committee.

The Egyptian offers Special Rate for Men in Office

As a special service to Southern students who have joined the forces in the past few months, the Egyptian is offering a reduced subscription rate of $1.00 for a year. Subscription for all others will be $2.00 for a year.

Subscriptions should be sent to the Egyptian office second floor of the journalism building.

Eight printings were made of the first edition, which was published in 1940. In 1949, a second edition was printed. The list of colleges using the manual was supplied by the publisher, Thomas Y. Crowell company.

Night Photography Course To Be Offered Spring Term

One of the most credit night course in photography has recently been scheduled by Dr. Cuningham in the Department of Education, Mr. Cuningham stated that it was interesting in enrolling schools and applications for the time. Requests for information should be addressed to C. W. Williams, Horticulture Department.

The course is adapted to vision in photography for commercial, domestic and professional men.

There are no prerequisites for enrollment. It is essential that students have a basic understanding of photographic experience is not necessary. The course will begin in the Thursday evening for a period of six months. Fees for the session is four dollars, and the student will furnish his own laboratory equipment.

Art Department To Feature Art Shows

Southern's art department has made plans to feature a continuous display of art shows in the next few months according to Dr. Hester, chairman.

The present university motor pool consists of three station wagons, three coupes, one truck and a limousine. Depreciation was estimated at $1,000 a year. The present university motor pool consists of three station wagons, three coupes, one truck and a limousine. Depreciation was estimated at $1,000 a year.

The present university motor pool consists of three station wagons, three coupes, one truck and a limousine. Depreciation was estimated at $1,000 a year.

Dr. Cuningham stated that it was necessary for persons to sign up to make the course available. It would not be necessary to phone or write him in the careers department at Southern.

Requirements For Nursing Program Announced

Miss Hester L. Johnson, director of the nursing education program was developed at Southern, announced entrance requirements for the program of study.

Students enrolling in the program will be required to meet three terms at the university where they live, complete an approved course of general arts and science courses related to the field of nursing. Following the course, it will be assigned to approved hospitals for instruction and experience in medical, surgical, obstetrical, pediatrics, psychiatry, tuberculosis and communicable disease nursing.

The entire course is a three year program. All candidates accepted into the program will be eligible to take the state examination required for registration in the state.

An applicant must be between the ages of 17 and 30 years and must have graduated high school for admission to the program. Applicants will be given to applicants who rank in the upper third in the class.

ANDESON RECALLED TO ACTIVE MARINE DUTY

Dr. John D. Anderson, assistant professor of forestry, returned to active duty in the Marine Corps last month.

Several other faculty members are expected similar calls in the near future.
Bozarth Making Fans Remember His Sophomore Season

By Ken Kalmann

Ernie Bozarth, the Waltonville basketball player who is the only senior member of the 1949-50 Southern basketball team to have his old stuff on the hardwood this year—the kind of basketball performance that made Bozarth a real star in his sophomore year at the university.

But this year, it's a different story. Working for his third varsity letter and thereby approaching the status of team leaders and a continuation of his great performance in past few conference games, his play has been marred by the squad's poor shooting. He shot a terrific 50% against Eastern, hitting six baskets in 12 attempts. And most of his two-pointers came on long one-handers.

He scored only eight points against Western, but this was improved to 15 against Illinois State.

With two minutes to play, and Southeastern only two points ahead, Bozarth went back in to the game. After a brief rest on the bench, immediately, he gets the ball in front court and scores, providing the basket, scoring on a set-up, and making a free throw. This probably was the biggest goal of the game, and Southern went on to win by a 71-62 margin. Bozarth is married, and presumably he will be able to find time for his basketball duties.

Coach Lynn Holder and Southern cage fans have hopes along the line. Bozarth is showing some of his old stuff on the hardwood this year—the kind of performances that made him the only senior member of the SIU cage squad, is showing some of his old stuff on the hardwood this year—the kind of performances that made him the only senior member of the SIU cage squad, is showing some of his old stuff on the hardwood court this year. In his Sophomore Season at Illinois State, Ernie Bozarth was defeated by a vote of 130-60.

Nevertheless, there was stiff support for the Maroon athletic team's trip south in their third varsity letter, and intends to start indoor track and field.

Despite the poor scoring on the bench. Immediately, he gets the ball in front court and scores, providing the basket, scoring on a set-up, and making a free throw. This probably was the biggest goal of the game, and Southern went on to win by a 71-62 margin. Bozarth is married, and presumably he will be able to find time for his basketball duties.

Coach Lynn Holder and Southern cage fans have hopes along the line. Bozarth is showing some of his old stuff on the hardwood court this year. In his Sophomore Season at Illinois State, Ernie Bozarth was defeated by a vote of 130-60.

But the boys feel they have got a good chance at this, and most fans are apt to believe them. Holder's men have been proving their convictions on the hardwoods all season.
MARRIAGES

Edith Kniepman, 1939, to Harry B. Kirchel in Belleville.

Patricia Louise Bong, 1947, to Henri Rolême Konin in Eureka. Her address is 307 Somerset Dr., Eureka.

Mrs. S. F. Quinn (Geeta Miner), 1918, attended the University of Illinois from the fourth grade through college. She later studied in Chicago for a certificate in Music of two years. She holds a teachers certificate for teaching in Illinois. Her home is in Pinckneyville.

Henry Ira Feathery, 1928, is an attorney and lives in E. St. Louis. Mrs. A. M. & H. and Mr. Feathery both are teaching at 1208 College, Columbia, U. S. A. 

MRS. A. M. FEATHERLY. He was married in 1918.

Charles D. Enslow, 1917, to Mayne F. O'Keefe, 1918, in Marissa.

Charles H. French, 1919, to Ora Day Bowers, E 1939, in a critical teacher in University School. She holds a master's degree from University School.

Mrs. Pearl Barnett Sisk, 1959, is teaching in a school in Mount Pulaski, Ill.

Mrs. E. O. McClure, Jr., (Juanita Levinson), 1930, to Mrs. M. J. Arents, 1934, in a principal of the Sandwich junior high school. The Arents have a daughter, They make their home at 1101 W. Park St., Sandwich.

Mrs. Emma Snook, (Mrs. Dale Fink), 1930, is teaching at the University of Illinois in Urbana.

Mrs. Gladys I. Cox, 1928, is teaching in Chicago. Her address is 1010 National City Building. Mrs.ヵ She has four children.

Mrs. J. S. Johnson, 1933, is principal of the Middlesex of Illinois in Urbana. Mrs. Johnson is an attorney at law in Dallas, Texas. She was born in 1910 at National City Building. Mrs. Johnson is a native of Illinois. Her home is in Pinckneyville.

Mrs. Thomas M. Ridgeway, (Mrs. E. O. McClure), 1930, is teaching in University School.

Mrs. Beatrice Sittert Sergent, D 1932, is principal of the Central Rural school, Chazy, N. Y. She is married and has two children.

Mrs. D. L. Blain (Laverne Emmerson), 1918, is a life member of the Alumnae Association of the University of Illinois in Urbana. Mrs. Blain is a fruit dealer in Chicago.

Mrs. Downs was principal of the Carbondale city schools. During his teaching career he was a member of several educational committees, many of which include Dr. C. E. I. Manly. Dr. C. E. I. Manly established the Junior and Senior high schools in Illinois. He was scheduled to address the students at 1800 N. University on the importance of children's homes in Illinois.

Mrs. J. W. A. Slater, 1889, is living at 780 W. Lake Ave., Chicago.

Mrs. E. O. McClure, Jr., (Juanita Levinson), 1930, in a principal of the Sandwich junior high school. The Arents have a daughter, They make their home at 1101 W. Park St., Sandwich.

Mrs. C. G. Toler (Mary Stuart), 1932, is a principal of the central Rural school, Chazy, N. Y. She is married and has two children.

Mr. Ralph Conant, 1918, is principal of the Carbondale city schools. During his teaching career he was a member of several educational committees, many of which include Dr. C. E. I. Manly. Dr. C. E. I. Manly established the Junior and Senior high schools in Illinois. He was scheduled to address the students at 1800 N. University on the importance of children's homes in Illinois.

Mrs. J. W. A. Slater, 1889, is living at 780 W. Lake Ave., Chicago.

Mrs. L. E. Rice, 1918, is principal of the Carbondale city schools. During his teaching career he was a member of several educational committees, many of which include Dr. C. E. I. Manly. Dr. C. E. I. Manly established the Junior and Senior high schools in Illinois. He was scheduled to address the students at 1800 N. University on the importance of children's homes in Illinois.

Martha Barkley Barnard, E 1941, is an attorney with the firm of Whiting and Woods. He is married and lives at 1915 W. 21st St., DeKalb, Ill.
One hundred and thirty-seven men have enlisted in the military service of our country or have been recalled to active duty by the military since the beginning of the winter term, December 4. With the Air Force restriction on enlistments, it is likely that the dean of men at Southern will be less during the next few months than during the months of December and January.

The list does not include anyone who may have been called because we have been unable to get a complete list of them.

Alumni Personnel

(Tobes continued from page 3)

The following is a list of the names of classes from 1940 through 1949, whom we have no addresses for, and we do not have new addresses for.

Class of 1940
Richard R. Ballew
Elizabeth Brockett (Ms. Mer- rill)
John F. Gaines
Mabel R. Harrison
William R. Holder
William H. Norman
William H. Strong
Tim O'Donnell
Emmett Bagwell

Class of 1941
Mildred Campbell
James B. Kennedy
Anne Garson

Class of 1942
Karen H. Cates

Class of 1943
Russell T. Stephens
Eugene F. Boughan
Eugene C. Brown
Daniel W. Buell
Kate D. Grissom
Joy McMillin/Mrs. D. A. Van­ til

Class of 1944
Dorothy Miller (Mrs. Robert
Lanier)

Class of 1945
Glen Eugene Eaves

Class of 1946
Ronald N. Runge
Billie D. Ritchey
Bill R. Payne
Edward Salmon
Ronald B. Brown

Class of 1947
Robert E. Goddard

Class of 1948
Margaret K. Stroh
Mary E. Hinchman
Francis C. Collier

Class of 1949
Jennie Katherine Boucher
Mary E. Carrigg

Class of 1950
Joseph H. Cavagea
William H. Cox

Class of 1951
Raymond H. Cundiff
Thomas F. Kerr

Class of 1952
Neil H. Modert

Class of 1953
James R. Euns

Class of 1954
George O'Neill Slonaker

Class of 1955
John E. Truington

V. Annaela Zang

With the passing of time and the multiplication of administrative detail, which was precursors of highly important and had no continuity of tenure, the difference being one of administrative authority.

The whole faculty's responsibility for educational administrative detail which prevailed in the earlier period, when faculty and administrative work gave place to differentiated administrative committees or as standing committees. In the beginning of this evolution the committees were created for specific, administrative problems of minor importance and had no concept of tenure as standing committees.

The first was a committee of undergraduates known as the senior bazaar solicitor for disciplinary ar­ tillery of students. Special occasions, school receptions, and homecomings. This committee also provided for appropriate committees of arrangement. Occu­ pational and social activities of the stud­ ents were called upon or volunteered for services for special assignment of some detail and needs of separation exercised routine administrative authority.

Faculty meetings were held each two weeks in the fall, and weekly in the spring term. Attendance varied from three to a dozen or more, and a wide spread of teaching and administrative work was achieved by avoidance of placing appointments.

A standing committee formulated its own policies within the framework of its functions and carried them into effect, thus establishing the autonomy of academic and administrative responsibilities. Some committees, subtly although ex­ tended much more actual work than the duties of their appoint­ ments or Placement, the Roaming Places and Employment, and the Supplementary Social Clubs, which were precursors of highly significant administrative offices.

It is worthy of note that the school was only slightly less fac­ ulty administered than in the be­ ginning, the difference being one of teaching and administrative work.
