* Opening day of term.

** Closing day of term.

(School will be in session five Saturdays within the summer quarter.)

Fall Term, 1927, opens Monday, September 19.

Fall Term, 1927, closes Friday, December 9.

Winter Term, 1927-28, opens Monday, December 12.

Winter Term, 1927-28, closes Friday, March 16.

Spring Term, 1928, opens Monday, March 26.

Mid-Spring Term, 1928, opens Wednesday, May 2.

Spring and Mid-Spring Terms, 1928, close Wednesday, June 13.

First Session Summer Term, 1928, opens Thursday, June 14.

First Session Summer Term, 1928, closes Saturday, July 21.

Second Session Summer Term, 1928, opens Monday, July 23.

Second Session Summer Term, 1928, closes Wednesday, August 29.

HOMEcoming.

Every year one Friday and Saturday are set aside in the school's calendar when former students and friends gather for two days of fun and renewal of old acquaintances. The big features are always the homecoming play on Friday evening, the Zetetic and Socratic Society reunions, 9:30 A. M. Saturday, and the football game at 2:30 P. M. Additional features such as athletic stunts, alumni breakfast at Anthony Hall, downtown parade, etc., are often provided.

The date for Homecoming is usually the first Friday and Saturday in November. For 1927 the date is November 4-5, and the football game is with Cape Girardeau.

FACULTY.

1927-1928.

College.

Henry William Shryock, President.

Preparation and Experience:

Ph. B., Illinois Wesleyan; taught 11 years in public schools of Olney, Ill., 34 years member of faculty of the Southern Illinois State Normal University,—as follows: 3 years head of English Department; 16 years head of English Department, Vice-President, and Registrar; 15th year as President of the institution.

English:

Emma L. Bowyer

Preparation and Experience:

A. B., A. M., University of Chicago; 6 weeks graduate work, University of Chicago; taught 7 years in public schools of Illinois, 15 years, S. I. S. N. U.

Mae C. Trovillion

Preparation and Experience:

A. B., A. M., Indiana University; taught 5 years in high school; 8 years, S. I. S. N. U.

Elizabeth A. Cox

Preparation and Experience:

A. B., A. M., Kansas University; taught 5 years in public schools of Kansas; 5 years in college; 7 years, S. I. S. N. U.

Frances Barbour

Preparation and Experience:

A. B., A. M., Washington University, St. Louis, Mo.; taught 2 years in public schools of Illinois, 2 years in public schools of California; 3 years, S. I. S. N. U.

Julia Jonah

Preparation and Experience:

A. B., A. M., Washington University, St. Louis, Mo.; taught 5 years in public schools of Illinois; 1 quarter in Missouri Normal; 2 years, S. I. S. N. U.

Juliette Hanford

Preparation and Experience:

A. B. University of Illinois; 1 year graduate work, Columbia University; 1st year, S. I. S. N. U.

*Stella Sutherland

Preparation and Experience:

A. B., Queen's University; A. M., University of Chicago; 3 years of graduate work, University of Chicago.

* On leave of absence to complete work for Ph. D.

Education:

George D. Wham, Dean of Faculty

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; taught 12 years in public schools, including 10 years as principal of high school and superintendent of schools, Olney, Ill.; 22 years, S. I. S. N. U.

Bruce W. Merwin

Preparation and Experience :

A. B., B. S. of Education, A. M., Kansas University; residence work for Ph. D. completed, Kansas University; taught 11 years, public schools of Kansas, 1 year as instructor in Education, Kansas University; 1st year, S. I. S. N. U.

Language:

J. M. Pierce

Preparation and Experience:

A. B., Washington University, St. Louis, Mo.; A. M., Harvard; residence work for Ph. D. completed, Harvard; taught 5 years in public schools of Illinois and Missouri, 1 year in Boston High School; 30 years, S. I. S. N. U.

Helen A. Baldwin

Preparation and Experience:

A. B., Denison; A. B., University of Chicago; A. M., Denison; 6 months, University of Chicago; taught 15 years, Joliet Twp. High School; 10 years, S. I. S. N. U.

Drawing and Design:

Gladys Potter Williams

Preparation and Experience:

Graduate, St. Louis Normal; graduate, Pratt Institute; certificate, Chicago Art Institute; 14 weeks University of Cincinnati; taught drawing 12 years in public schools of St. Louis; 2 years in Milwaukee, Wis. High School; 10 years, S. I. S. N. U.

Grace L. Burket

Preparation and Experience:

Junior College graduate, Southern Illinois State Normal University; taught 3 years in public schools of Illinois; 17 years, S. I. S. N. U.

Social Sciences:

George W. Smith

Preparation and Experience:

18 weeks, Cook County Normal School; 2 years Blackburn University; A. M. (Honorary) Blackburn University; taught 14 years in public schools; 7 years in Training School S. I. S. N. U.; 31 years, head of History Department, S. I. S. N. U.

E. G. Lentz

Preparation and Experience:

15 weeks, Creal Springs College; 120 weeks, Valparaiso University; 8 weeks, University of Illinois; 21 weeks, graduate work, Indiana University; served 11 years as principal and superintendent of public schools; 13 years, S. I. S. N. U.

Henrietta M. Larson

Preparation and Experience:

A. B., St. Olaf College; A. M. Ph. D., Columbia University; taught 1 year in high school, 6 years in college and university; 2 years, S. I. S. N. U.

Geography:

Frank H. Colyer

Preparation and Experience:

A. B., University of Indiana; M. S., University of Chicago; taught 8 years in public schools; 31 years, S. I. S. N. U.

Marjorie Mae Shank

Preparation and Experience:

A. B., University of North Dakota; A. M., Clark University; 6 weeks, University of Chicago; taught 3 years in public schools of North Dakota; 5 years, S. I. S. N. U.

Edna M. Gueffroy

Preparation and Experience:

B. Ed., Illinois State Normal University, Normal, Ill.; A. M., Clark University; taught 6 years in public schools; 30 weeks, Geography Department, State Normal University, Normal, Ill.; 1st year, S. I. S. N. U.

Mathematics:

W. T. Felts

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; lacks only two credits of completing work for Ph. B., University of Chicago; taught 19 years in public schools; 27 years, S. I. S. N. U.

Alice B. Kelsey

Preparation and Experience:

A. B., Indiana University; A. M., University of Illinois; taught 1 year in Indiana public schools, 2 years in University of Illinois; 3 years, S. I. S. N. U.

Chemistry:

George Mervin Browne

Graduate, Massachusetts State Normal, Westfield, Mass.; 2 years, special student at Harvard; 2 years, research work in chemistry at Tufts College; taught 1 year, Tufts College; 2 years, Cook County Normal; 8 years, Oshkosh State Normal; 25 years, S. I. S. N. U.

R. A. Scott

Preparation and Experience:

B. S., M. S., University of Illinois; taught 5 years, S. I. S. N. U.

J. W. Neckers

Preparation and Experience:

A. B., Hope College; M. S., Ph. D., University of Illinois; taught 2 years as student assistant, Hope College; 3 years as half-time graduate assistant, University of Illinois; 1st year, S. I. S. N. U.

Physics and Astronomy:

S. E. Boomer

Preparation and Experience:

A. B., A. M., University of Illinois; taught 10 years in public schools; 2 years in University of Illinois Academy; 17 years, S. I. S. N. U.

Charlotte Zimmerschied

Preparation and Experience:

A. B., A. M., University of Minnesota; 12 weeks, University of Chicago; taught 2 years, University of Minnesota; 3 years, public schools; 1 year, private school; 1st year, S. I. S. N. U.

Biology:

William Marshall Bailey

Preparation and Experience:

A. B., B. S., Campbell College; M. S., University of Chicago; 60 weeks graduate work beyond Master's degree, University of Chicago; taught 3 years in public schools; 9 years in Campbell College; 14 years, S. I. S. N. U.

Mary Minerva Steagall

Preparation and Experience:

Ed. B., Ph. B., M. S., Ph. D., University of Chicago; taught 11 years in public schools; 28 years, S. I. S. N. U.

Delia Caldwell

Preparation and Experience:

M. D., Northwestern University; taught $7\frac{1}{2}$ years in public schools; practiced medicine 25 years; taught 7 years, S. I. S. N. U.

Agriculture:

R. E. Muckleroy

Preparation and Experience:

B. S., University of Illinois; M. S., University of Wisconsin; taught 7 years in Mt. Vernon Township High School; 17 years, S. I. S. N. U.

Manual Arts:

Louis C. Petersen

Preparation and Experience:

B. S., Northwestern University; 6 weeks graduate work, Cornell University; taught 1 year N. W. Military Academy; 1 year, Seattle, Washington H. S.; 3 years, Oklahoma State Normal; 19 years, S. I. S. N. U.

Household Arts:

Grace E. Jones

Preparation and Experience:

2½ years, Teachers College, Columbia University; ½ quarter, University of Chicago; 1 quarter, Southern Illinois State Normal University; taught 1 year as instructor, University of Nebraska; 7 years, supervisor of Household Arts, elementary schools of Auburn, N. Y.; 17 years, S. I. S. N. U.

Lucy K. Woody, Dean of Women

Preparation and Experience:

B. S., Teachers College, Columbia University; taught 17 years, S. I. S. N. U.

Commercial:

T. L. Bryant

Preparation and Experience:

Graduate, Junior College, Southern Illinois State Normal University; twenty of the twenty-four credits required for Senior College graduation; taught 10 years, S. I. S. N. U.

Edward V. Miles, Jr.

Preparation and Experience:

1½ years, University of Chicago; taught 9 years, S. I. S. N. U.

Music:

David S. McIntosh

Preparation and Experience:

B. M. E., Northwestern University, School of Music; taught 2 years in public schools of Indiana, 2 years in public schools of Illinois; 1st year, S. I. S. N. U.

Julia Chastaine

Preparation and Experience:

Graduate, Chicago Musical College; B. Ed., Southern Illinois State Normal University; 6 weeks, University of Chicago; taught 13 years, S. I. S. N. U.

Helen E. Matthes

Preparation and Experience:

1 year, Chicago Musical College; taught 7 years, S. I. S. N. U.

Physical Education:

William McAndrew.

Preparation and Experience:

A. B., Vincennes University; LL. B., Cumberland University; 20 weeks special summer work in coaching courses; taught 1 year, Vincennes University; 2 years Lawrenceville Twp. H. S., 11 years, S. I. S. N. U.

Leland P. Lingle

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; 6 weeks, University of Illinois; taught 4 years in public schools of Missouri; 1st year, S. I. S. N. U.

Frances D-L Etheridge

A. B., B. S., University of Illinois; taught 1 year public schools of Kentucky; 3 years, S. I. S. N. U.

Harriet B. Rodgers

Preparation and Experience:

A. B., Hamline University; A. M., Columbia University; 1 year, Sargent School for Physical Education; 6 weeks, University of Iowa; taught 1 year, North Dakota State Normal; 1st year, S. I. S. N. U.

Library:

Mildred D. Kohlstedt

Preparation and Experience.

A. B., Northwestern University; 1 year, University of Illinois Library School; taught 3 years in public schools; 2 years, S. I. S. N. U.

Margaret Garrett

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; 8 weeks, University of Illinois Library School; 1st year, S. I. S. N. U.

Senior High School.

Mathematics:

F. G. Warren, Principal, Senior High School

Preparation and Experience:

A. B., McKendree College; 24 weeks graduate work, University of Chicago; served 1 year as Principal, Pinckneyville, Ill. H. S.; taught 3 years, Mt. Vernon, Ill. Township H. S.; 15 years, S. I. S. N. U.

English:

Florence A. Wells

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; taught 17 years in public schools of Illinois; 1st year, S. I. S. N. U.

Latin:

Fuller Combs

Preparation and Experience:

A. B., Wabash College; A. M., Indiana University; 30 weeks, Universities of California and Washington; taught 16 years in public high schools of Indiana, Montana, and Oregon; 5 years, S. I. S. N. U.

Chemistry and Agriculture:

C. C. Logan

Preparation and Experience:

B. S., University of Illinois; 6 years soil mapping, 12 years agricultural extension work, Illinois and North Carolina; 6 years, S. I. S. N. U.

Biology:

Sarah M. Hardin

Preparation and Experience:

Ph. B., University of Chicago; 6 weeks graduate work, University of Chicago; taught 7 years in public schools of Illinois; 5 years, S. I. S. N. U.

History:

John I. Wright

Preparation and Experience:

Ph. B., University of Chicago; 18 weeks graduate work, University of Chicago; taught 3 years, S. I. S. N. U.

Manual Training:

J. Henry Schroeder

Preparation and Experience:

Graduate, Junior College, Southern Illinois State Normal University; 1 year, Senior College; taught 5 years in public schools; 5 years, S. I. S. N. U.

Commercial:

Emma Francis

Preparation and Experience:

Graduate, Junior College, Southern Illinois State Normal University; taught 5 years, S. I. S. N. U.

Music:

Ruby Robertson

Preparation and Experience:

Teacher's Certificate, Bush Conservatory; taught 8 years, S. I. S. N. U.

Practice Department.

Allyn Training School:

W. A. Furr, Superintendent

Preparation and Experience:

A. B., A. M., Indiana University; superintendent of schools at Ottawa, Ill., 6 years; Jacksonville, Ill., 8 years; 15 years, S. I. S. N. U.

Dilla Hall, Principal

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; 24 weeks graduate work, University of Chicago; taught 4 years in public schools; 4 years, S. I. S. N. U.

Minna Louise Fox, Critic

Preparation and Experience:

A. B., Washington University, St. Louis, Mo.; 12 weeks of graduate work, University of Illinois and University of Colorado; taught 4 years in public schools; 2 years, S. I. S. N. U.

Virginia E. Myers, Critic

Ph. B., University of Chicago; taught 2 years in public schools, 3 years, S. I. S. N. U.

Lulu R. Clark, Critic

Preparation and Experience:

Graduate, Junior College, Southern Illinois State Normal University; 1 year, Teachers College, Columbia University; taught 17 years in public schools; 11 years, S. I. S. N. U.

GENERAL INFORMATION.

You are asked to note carefully following sections from the new certificating law:

SEC. 2. State certificates granted by the Superintendent of Public Instruction and the requirements for the same shall be as follows:

First—*A four year elementary school certificate valid for teaching and supervision in the elementary schools and in the first and second years of the high school of any district in the State for which the requirements shall be:* (1) Graduation from a recognized high school and from a recognized normal school, or an equivalent preparation; (2) three years' successful teaching, two of which shall have been in the State on a first grade county certificate; (3) a successful examination in English, educational psychology, and the principles and methods of teaching, and (4) the preparation of a thesis on one or more elementary school problems, the subject or subjects of which shall be selected from a list prescribed by the Superintendent of Public Instruction.

Second—*A four year high school certificate valid for teaching and supervising in any high school and in the seventh and eighth grades of any district in the State for which the requirements shall be:* (1) Graduation from a recognized college or university, or the completion of an equivalent preparation; (2) three years' successful teaching, two of which shall have been in the State on a first grade, a high school, or a supervisory county certificate; (3) a successful examination in English, educational psychology, and the principles and methods of teaching, and (4) the preparation of a thesis on one or more secondary school problems, the subject or subjects of which shall be selected from a list prescribed by the Superintendent of Public Instruction.

Third—*A four year supervisory certificate, valid for teaching and supervising in all grades of the public schools in any district in the State.* The requirements for this certificate shall be: (1) Graduation from a recognized high school and from a recognized normal school, or an equivalent preparation; (2) three years' successful supervision, two of which shall have been in this State on a county supervisory certificate; (3) a successful examination in English, educational psychology, sociology, the history of education, and school organization, administration, and supervision, and (4) the preparation of a thesis on one or more problems of school administration, the subject or subjects of which shall be selected from a list prescribed by the Superintendent of Public Instruction.

SEC. 6. County certificates granted by the county superintendent and the requirements for the same shall be as follows:

First—A second grade elementary school certificate valid for two years in the first eight grades of the common schools of the county and in the ninth and tenth grades, when endorsed for the same by the county superintendent. This certificate shall be renewable on evidence satisfactory to the county superintendent of six months' successful teaching or twelve weeks' professional training, and a second time if in

the period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school providing such training, and, thereafter, the same shall be renewable indefinitely for periods of two years upon evidence of successful teaching and professional growth satisfactory to the county superintendent. The applicant for this certificate shall be examined in orthography, civics, Illinois history, physiology, penmanship, reading, grammar, geography, United States history, arithmetic, *general science*, pedagogy, and the principles and methods of the State course of study. *Graduation from a recognized high school or an equivalent preparation shall be required for admission to the examination. At the option of the county superintendent this certificate may be issued without examination to persons who have completed the junior year's work in a recognized normal school or its equivalent.*

Second—A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county, and in the high school when endorsed for the same by the county superintendent. This certificate shall be renewable indefinitely for periods of three years, upon evidence of successful teaching and professional growth satisfactory to the county superintendent. The requirements for this form of certificate shall be: (1) Graduation from a recognized high school, or an equivalent preparation; (2) six months of successful teaching and (3) an examination in orthography, including spelling, civics, Illinois history, physiology, arithmetic, pedagogy, English, algebra, general history, and any three of the following natural sciences: botany, zoology, physics, chemistry and physiography. *This certificate shall be issued to graduates of a recognized normal school, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching, and applies for the certificate within three years after graduation.*

Sixth—A special certificate, valid for two years in the common schools of the county, renewable for two-year periods. Such certificate shall be issued in music, drawing, agriculture, manual training, domestic science, domestic art, physical training, penmanship, book-keeping, German, and such other subjects as may be added by the Examining Board and shall authorize the holder to teach only the subject or subjects named in the certificate. The requirements for this form of certificate shall be graduation from a recognized high school, or an equivalent preparation, and a certificate showing the completion in a recognized higher institution of learning of at least two years' special training in the special subject or subjects, certified credits in English and the principles and methods of teaching, and satisfactory evidence that the applicant has taught or can teach the subjects successfully. In lieu of such special training and certified credits a special certificate may be obtained by an examination in English and the principles and methods of teaching and in the special subject or subjects. (As amended by an act approved June 23, 1915.)

SEC. 7. The county superintendent is hereby authorized to issue a *provisional certificate valid for one year* to persons of his or or other counties who fall below the required *minimum or average in an examination for second grade certificate*. *This certificate may be issued without examination to persons who have completed two years of work in a recognized normal school, or one year of such work if the applicant is a graduate of the tenth grade*. Such certificates shall be designated on their face, "Provisional," and the same shall not be renewable or issued the second time to the same person.

LOCATION, ETC.

Carbondale is a city of nearly 7,000 inhabitants, with many refined people. It is easy of access, and offers inducements for board and social advantages beyond most places of its size. It has, perhaps, fewer temptations to idleness, and combines religious and educational privileges in a degree greater than the average town of its size. Parents may be assured that their children will be as safe as in any school away from home, and students may come here and feel assured that economy and industry will be respected and honored by their fellow students and by the faculty. The Illinois Central Railroad affords ample facilities for convenient access, three of its branches passing through Carbondale.

TERMS OF ADMISSION.

All applicants for admission must present evidence of good moral character and, to secure free tuition, they must agree to teach in the public schools of the State for a time not less than that covered by their attendance upon the school. This agreement must not be entered upon unless the applicant fully intends to teach. It may become void, however, if engagement to teach cannot be secured by reasonable effort. In case of a permanent change in plan, the individual is expected to pay to the registrar of the Institution the difference between the regular tuition for the entire time and the incidental fees he has paid.

All other entrance requirements and all graduation requirements are provided for in the following rules adopted by the Board of Trustees of the five Normal Schools:

1. Graduates of any recognized four-year high school or academy may be admitted to any standard two-year or other curriculum of college rank.
2. Fifteen units of entrance credit from a recognized high school shall be the minimum requirement for admission to such standard curriculums of college rank.

All credentials should be filed in advance of registration.

Following are the requirements for college entrance:

LIST A—Required.

English I, II, III.....	3 years
Algebra I	1 year
Plane Geometry	1 year

5 years

LIST B—*Elective.*

Latin	2 to 4 years
French	2 years
English IV.....	1 year
Advanced Algebra.....	$\frac{1}{2}$ year
Solid Geometry.....	$\frac{1}{2}$ year
Trigonometry	$\frac{1}{2}$ year
Ancient History.....	1 year
American History.....	1 year
Commercial Geography	$\frac{1}{2}$ year
Geology	$\frac{1}{2}$ year
Mediaeval and Modern History.....	$\frac{1}{2}$ to 1 year
English History.....	$\frac{1}{2}$ year
Civics	$\frac{1}{2}$ year
Economics	$\frac{1}{2}$ year
Physiography	$\frac{1}{2}$ year
Physiology	$\frac{1}{2}$ year
Zoology	$\frac{1}{2}$ year
Botany	$\frac{1}{2}$ year
Physics	1 year
Chemistry	1 year

LIST C.

Agriculture	1 to 3 years
Bookkeeping	1 year
Business Law.....	$\frac{1}{2}$ year
Commercial Arithmetic (only after Algebra).....	$\frac{1}{2}$ year
Domestic Science	1 to 3 years
Drawing, Art and Design.....	$\frac{1}{2}$ to 1 year
Drawing, Mechanical	$\frac{1}{2}$ to 1 year
Manual Training	1 to 2 years
Music	1 year
Shorthand and Typewriting (together).....	1 to 2 years

Of 15 year credits required for entrance, the 5 units of List A are prescribed for all courses. Of the 10 units that remain, 6 must be selected from List B. The remaining 4 units may be selected from List B or List C or both.

ADVANCED STANDING.

- Credits for advanced standing may be obtained:
 - By transfer from recognized higher institutions.
 - By examination.
 - By earning the credit by work done in, or under the direction of the normal school.
- Students coming from state normal schools in other states whose standards are the same as obtained in Illinois may receive full credit for the work accomplished in such schools.
- Students from city teacher-training schools in Illinois shall receive credit only after the training school has been inspected by a

member of the faculty of the normal school in whose supervision district the training school lies, and his recommendation confirmed by the action of the normal school president's council.

4. No credits shall be given for high school work in excess of the units required for graduation.

5. No credit except by examination shall be given for work done in business college or like unrecognized institutions unless such credit is recommended by the teacher in the normal school in whose class the student has done one term's work.

6. Graduates of recognized colleges and universities may be admitted to a one-year curriculum.

7. Undergraduates of recognized colleges and universities may enter the normal school and receive credit for such of their college work as will apply to the curriculum upon which they enter.

Expenses.

The State Normal School Board has established the following regulations in the matter of fees paid by students enrolled in any of the State Teachers Colleges of Illinois. The paragraphs below are taken from the minutes of the Normal School Board, meeting held at Carbondale, Ill., April 29, 1926:

1. The total fees to be charged a student in any of the Normal Schools shall not exceed the maximum sum of \$15.00 per term.

2. A pledge shall be exacted from all students attending any of the Normal Schools of the State of Illinois to teach in the public schools of Illinois for a period equal to the time spent in said schools.

3. While the Normal Schools are organized primarily for the training of teachers, the demands at present seem to justify admitting students who do not pledge themselves to teach, and all such students shall be required to pay tuition fee of not less than \$25.00 per term, which is the same fee as that provided for high school students.

4. The following is a schedule of fees for special services, the same to become operative September 1, 1926.

GENERAL FEES.

	Amount	
1. Registration fee (paid by all except ex-service men and holders of township scholarships)...	\$3.00	Uniform
2. Towel fee (paid by all students taking gymnasium courses)	1.00	Uniform
3. Library fee	1.00	Uniform

PENALTIES.

1. Late Registration	\$1.00	Uniform
2. Change of program after third day.....	1.00	Uniform
3. Original transcript and carbon copy.....	1.00	Optional
4. Library Fines		Optional
5. Breakage, etc.		Optional

FEES FOR SPECIAL SERVICES.

1. Chemistry	} Not to exceed actual cost } Optional
2. Physics	
3. Biology	
4. Home Economics	
5. Manual Training	
6. Art	
7. Use of Typewriter.....	
8. Lessons in Voice.....	
9. Lessons on Violin, Piano, Organ, etc....	
10. Extension Courses	
11. Correspondence Courses	

5. There shall be no fee for diploma.

6. Student activity assessment shall be left with the various student bodies but provision must be made for the proper handling and auditing of all such accounts under the direction of the governing bodies.

The "Students Activity Fee" has been ~~fixed~~ by the Student Council of this institution at \$1.00 per term for 1927-28.

ANTHONY HALL.

With the beginning of the Fall Term, 1913, the Woman's Building, Anthony Hall, was opened. This model school home for girls will accommodate about seventy students. It was erected and furnished at a cost of \$75,000, and every possible provision has been made for the comfort, safety and well-being of its inmates. Board and lodging in this ideal boarding house will be furnished at \$7.00 per week. We reserve the right to charge a higher rate if it becomes necessary.

A deposit fee of \$5.00 must accompany each application for room, and this deposit will under no circumstances be refunded.

OTHER STUDENT HOMES IN CARBONDALE.

Much of a student's success depends upon the conditions at his boarding and rooming place. He must have not only fresh air, pure water, wholesome food, even temperature and good light in his study room but also favorable conditions for study and for sleep. The following conditions as applied to rooming places meet the approval of the faculty:

On the part of the householder—

1. Men and women not to room in the same house.
2. Premises hygienically clean and supplied with good, sanitary water.
3. Good light in study rooms and rooms heated to not less than 68 degrees.
4. Telephone accessible.
5. Parlor furnished at reasonable times.

6. Reports to the University authorities of the illness of students, and of habits of study, sleep, or recreation on the part of students if these are likely in any way to injure the health, reputation or character of the student, or to interfere with the success of his work in school, or to bring discredit upon the school.

On the part of the student—

1. Quiet and order in the house at all times.
2. Proper care of furniture and premises.
3. Repair of damages beyond ordinary wear.
4. Householder to be notified when students expect to be away from the house later than 10:30 P. M.

5. Absence from town to be reported to the householder and address left.

6. Vigorous co-operation on the part of both student and householder, in cases of contagious diseases within the house, to prevent the exposure of others and the spread of the disease.

There are three modes of living practiced by the students.

1. Board and room in the same house. The cost of board and room is from \$6.00 to \$9.00 per week.

2. Room with light-housekeeping. Students who practice light-housekeeping are able to reduce their living expense as low as \$4.00 a week.

3. Rooms without the privilege of light-housekeeping. Such rooms, two persons to the room, cost \$1.50 to \$2.50 per week per person.

Except in unusual cases, the committee believe that two occupants in a room secures the best results. Be sure to have it clearly understood how many are to occupy a room with you and how many occupants there will be in the house.

No contract for a room will be considered binding unless a deposit amounting to one week's rental shall be paid. Said deposit need not be returned unless the renter has good reasons for failing in his part, and not then except he notify said landlady three days before the term of school opens.

Many serious complications will be avoided if students will consult the Housing Committee before engaging rooms. Some houses, now open to students, *are not recommended by the committee*. A copy of rooming house regulations will be sent upon request.

Committee:

E. G. Lentz, 520 S. Normal Ave.

W. M. Bailey, 506 S. Poplar St.

George M. Browne, 902 S. Normal Ave.

Mary M. Steagall, 808 S. Illinois Ave.

Lucy K. Woody, 716 S. Normal Ave.

Free Instruction in Instrumental Music.

The free instruction in violin and other stringed instruments, cornet and other brass instruments, has proved very successful. Encouraged by the interest in the violin, cornet work, etc., the management has opened three music rooms, each provided with a piano, and an

organ has been added to the equipment, so that any student who wishes to prepare himself to lead the music in his school with either the organ or piano, may be accommodated.

LITERARY SOCIETIES.

ZETETIC AND SOCRATIC.

During the first term of the first year of the Institution, September, 1874, the Zetetic Literary Society was organized. Later in the year a sister organization was planned for, and in due time was thoroughly established and christened the Socratic Literary Society. These have a large membership and are well attended.

The more elaborate exhibition of what these societies are able to do is annually given to the public on Monday and Tuesday evenings of Commencement Week.

The varied programs of these literary societies from week to week add very materially to the work of the English department in securing additional practice in the delivery of original and other matter, and in the opportunity for becoming acquainted with parliamentary usages, thus fitting the Normal student for more intelligent service in the communities in which he may labor.

The Faculty and Board of Trustees foster, with much care, the best interests of these valuable adjuncts to the literary work of the Institution. Their usual time of meeting is on Friday evening of each week in the halls provided by the University.

ATTENDANCE UPON CHURCH.

Students are urged to identify themselves at an early date after entering the Normal School, with some church of the city. It is assumed, of course, that the student will affiliate with the church to which he belongs at home, or with which he is most in sympathy as to doctrine and modes of worship.

Christian Association.

The Young Men's Christian Association and the Young Women's Christian Association each has a well-conducted organization, which meets weekly in a room fitted for their use on the second floor in the Library Building. Their committees look after new students upon their arrival, and those who may be sick while attending school, and in many ways minister to the wants of their fellow students. Several classes in Bible study are maintained by these societies. The State college secretaries of each of these branches of Christian work pay the Institution a visit twice a year, or oftener, for conference and direction of work. New students upon their arrival may recognize the representatives of these associations by special badges worn, indicating their willingness to render their kindly services whenever needed. These persons may be trusted implicitly in directing strangers to boarding houses and clubs.

SCHOOL HEALTH SERVICE.

DELIA CALDWELL, M. D.

It is the province of this department to have the oversight of the health of the students, especially for the purpose of detecting and excluding communicable diseases; to assist the local and state health authorities in establishing and maintaining quarantine, whenever it is required by law.

The physician in charge of this department has an office in the Science Building, keeping regular office hours, during which any student may have the benefit of consultation, with diagnosis of conditions and general directions in regard to matters of diet, exercise and good care of the body. It is not the policy of this department to prescribe or administer professional assistance, except first aid in injuries or sudden illness occurring during school activities. All of those students who are found to require the services of a physician are referred to our local physicians, whenever possible to the family physician of the student.

One of the duties of the physician in charge is to visit the boarding or rooming house of any student to investigate, when necessary, cases of suspected contagious disease, or any other condition affecting the health or welfare of the students or of the school.

In general, it is the object of the medical adviser to promote good health among the students, both in the school and in their homes.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF EDUCATION.

College Requirements—Each candidate must meet the general college requirements with respect to registration and residence, and must also secure credit in approved courses amounting to an aggregate of forty-eight term credits (the equivalent of one hundred twenty semester hours, one full year of Physical Training not counted), a term credit representing twelve weeks' work, five periods a week, except in the case of the laboratory sciences which require four or five additional periods each week for laboratory work.

In order to receive his bachelor's degree a student must have secured grades not lower than C in subjects aggregating at least three-fourths of the work, prescribed or elective, required for the degree. The system of grading is as follows: A, excellent; B, good; C, fair; D, poor (but passing); E, failure.

(A) Prescribed Subjects—Rhetoric, 2 or 3 terms, according to the proficiency of the student; Practice Teaching, 3 terms; Health Education, 1 term; Physical Education, 3 terms, taken without credit.

(B) Group Requirements—Every candidate must offer the minimum of work specified in each of the following groups:

I. English—At least 2 terms in English and American Literature.

II. History, Political and Social Science—History, Economics, Political Science, Sociology. At least 3 terms.

III. Mathematics, and Physical Science—Mathematics, Astronomy, Physics, Chemistry. At least 2 terms.

Note—Every candidate for the degree of B. Ed. shall offer a minimum total of 6 terms in Groups III. and IV., combined, with a minimum of 2 terms in each.

IV. Biology, and Earth Science—Botany, Bacteriology, Entomology, Geology, Geography, Physiology, Zoology. At least 2 terms. See note under III.

V. Education—At least 6 terms.

(C) Major Subjects—Each candidate must select some one subject as his major. A major consists of courses amounting to six terms chosen from among those designated by the department and approved by the Faculty. Such courses are to be exclusive of those elementary or beginning courses which are open to freshmen and inclusive of some distinctly advanced work. See Description of Courses as to what subjects may be taken in each department in making up a major.

(D) Minor Subjects—Each candidate must offer, in addition to his major, a minor of three terms in one or more allied subjects designated by the major department and approved by the Faculty.

(E) Elective Subjects—

1. Not more than nine terms in any one subject may be counted for graduation, except in special cases with the approval of the examiners.

2. Foreign language may be elected as a part of the course, subject to the following condition:

If a student elects foreign language and has offered two units of foreign language for entrance, he must pursue the study through two additional one-year courses, or the equivalent. If a student elects foreign language and has offered three or more units for entrance, he must continue the study for at least one year of his college course.

3. A limited amount of credit toward the B. Ed. Degree will be given for courses offered in the special departments of the school, as follows:

Department of Agriculture—Horticulture 6, 7, and 10, Animal Husbandry 32 and 32a (Livestock Judging), Agronomy 2 and 3 (Farm Crops), Teachers' Course 5 (Method Agriculture), Animal Husbandry 5 and 5a (Principles of Feeding), Animal Husbandry 7 (Dairy Production), Agronomy 4 (Soil Physics), Animal Husbandry 6 (Genetics), Animal Husbandry 11 (Dairy Farming), Agronomy 6 (Soil Fertility), Agronomy 9 (Soil Biology).

The total credit in the Department of Agriculture may not exceed six terms.

Art Department—Art 4 (Method Public School Drawing), Art 29 (Method Public School Drawing), Art 28 (Principles of Design).

Art 27 (Theory of Color), Art 5 (History of Art), Art 9a (History of Art), Art 15 (Freehand Drawing), Art 26 (Perspective), Art 21 (Commercial Design), Art 10 (Advanced Water Color).

The total credit in the Art Department may not exceed six terms.

Commercial Department—Accounting 7, 8, and 9 (First Year), Accounting 26, 27, and 28 (Second Year), Commercial Law 13, 14, and 15, Principles of Economics 29, 31, and 32.

The total credit in the Commercial Department may not exceed three terms.

Household Arts Department—Household Arts 5, 6, and 7 (Selection and Preparation of Food), Household Arts 2, 3, and 19 (Clothing), Household Arts 11, 11a, 11b (Nutrition and Dietetics), Household Arts 12a (Economics of the Household).

The total credit in the Household Arts Department may not exceed six terms.

Manual Arts Department—Manual Arts 9 and 10 (Machine Shop Practice), Manual Arts 11, 12 and 13 (Mechanical Drawing), Manual Arts 31 (Mechanics of Machinery).

The total credit in the Manual Arts Department may not exceed three terms.

Music Department—Music 2 (Method Music), Music 8 (Method Music), Music 9 (Band and Orchestra Methods), Music 10 (History of Music), Music 5 (Harmony), Music 6 (Harmony), Music 11 (Harmony), Music 12 (Harmony).

The total credit in the Music Department may not exceed six terms.

Physical Education—Phys. Ed. 4—for women (Methods and Materials), Phys. Ed. 5—for women (Coaching), Phys. Ed. 6—for women (Playground Course), Phys. Ed. 17—for men (Methods and Materials), Phys. Ed. 18—for men (Coaching), Phys. Ed. 19—for men (Playground Course).

The total credit in the Physical Education Department may not exceed three terms.

Studies of the Freshman Year.

Fall.	Winter.	Spring.
1. Rhetoric	Rhetoric	Practice or Rhetoric
2. Foreign Language	Foreign Language	Foreign Language
(a) Latin	(a) Latin	(a) Latin
(b) French	(b) French	(b) French

(a) Geography	(a) Geography	(a) Geography
(b) Botany	(b) Botany	(b) Botany
(c) Zoology	(c) Zoology	(c) Zoology
(d) Physiology	(d) Physiology	

In the freshman year there are two studies required: Rhetoric for two or three terms depending upon the proficiency of the student; and Practice I or Rural Practice, for one term. One subject a term may be taken from the foreign language group. Those taking a foreign language must choose two additional subjects each term from the remaining groups. Those not taking a foreign language must choose three additional subjects each term from the remaining groups.

While the work of the freshman year is offered in full-year courses, a student may after two terms of a subject (with the exception of the foreign languages) be allowed to substitute a term from some other course for the third term prescribed.

Studies of the Sophomore Year.

Fall.	Winter.	Spring.

(b) Foreign Lan- guage	(b) Foreign Language	(b) Foreign Language
(c) History	(c) History	(c) History
(d) Mathematics	(d) Mathematics	(d) Mathematics

Persons expecting to teach in the elementary school at the end of the sophomore year may, as a means of special preparation for their work, elect courses in Art, Music, Manual Arts, Household Arts, Agriculture, Commercial work, and Physical Education. However, not more than three credits in any one of these special departments may be applied to Junior College graduation except by permission of the President.

So far as the work of the sophomore year is offered in full-year courses, a student may after two terms of such courses (with the exception of the foreign languages) be allowed to substitute a term from some other course for the third term prescribed.

A student securing twenty-four term credits of freshman and sophomore work as outlined above will be graduated with the usual Junior College diploma and may be recommended for a first-grade certificate. The credits required for graduation must include the following sixteen credits: Practice, 3 credits; Rhetoric, 2 credits; Health Education, 1 credit; Literature, 2 credits; History, 2 credits; Mathematics or Mathematical Science, 2 credits; Biological or Earth Science, 2 credits; Education, 2 credits. The remaining eight credits are elective.

During the Junior and Senior years subjects must be so chosen as to complete Group Requirements, meet the requirement for a major of six terms and a minor of three terms, and secure through free electives whatever credits may be lacking to make the forty-eight credits necessary for graduation. See Requirements for the Degree and Description of Courses as to subjects acceptable for a major.

DESCRIPTION OF COURSES.

ENGLISH.

EMMA L. BOWYER.

MAE C. TROVILLION.

ELIZABETH A. COX

JULIA JONAH.

FRANCES BARBOUR.

JULIETTE HANFORD.

Junior College.

Eng. 7a. History of English Literature to 1832. Long's Outline of English Literature; Manly's Prose and Poetry.

Eng. 7b. History of English Literature, 1832-1927. Long's Outline of English Literature; Manly's Prose and Poetry; *History of American Literature.* Long's Outline of American Literature with Readings.

Eng. 9. Freshman Rhetoric. Drill in fundamentals of spoken and written English. Required Fall Term of first year. Texts: M. O. S. and Wooley's Handbook.

Eng. 9a. Advanced Rhetoric. Advanced oral and written composition. Text: Forms of Discourse, Cairns.

**Eng. 8. Elocution.* Whole credit will be given to those doing extra work in public speaking. Text: Cumnock's Choice Readings.

**Eng. 8b. Advanced Elocution.* Practice in public speaking.

**Eng. 10. English Poetry.* Technique of poetry Macbeth, Paradise Lost, Idylls of the King, Princess. Technique, 10a; Classics, 10b.

**Eng. 11. English Prose.* Text: Pancoast's English Prose and Verse; illustrative material drawn from the works of DeQuincey; Macaulay, and Carlyle, one-half credit. Technique of fiction, one-half credit, 11a; Classics, one-half credit, 11b. Novels studied; Silas Marner, Kenilworth, House of Seven Gables, Henry Esmond, and David Copperfield.

**Eng. 6. Method English.* This course covers the work in reading and language in the primary and intermediate grades. Observation lessons in reading and language in the Training School constitute an important part of the work. Text: Klapper's Teaching Children to Read.

**Eng. 13. American Literature.* A survey of American literature from the Colonial period to the present day. Texts: Boynton's American Literature and Boynton's Milestones in American Literature.

(Any two of the courses starred above may be included in the major).

* Courses starred may be counted as part of major.

Senior College.

**Eng. 14. Shakespeare.* This course consists of a thorough study of *As You Like It*, *King Henry V.* *Hamlet*, and *The Tempest*, with a brief survey of other plays.

**Eng. 15. The Short Story.* This is principally an advanced theme course dealing with the technique of the short story, with illustrative material from the works of the best story writers. Three days a week will be devoted to the study of the story, two days to the writing of original stories.

**Eng. 16. Victorian Literature.* A survey of the prose and poetry of the Victorian period.

**Eng. 17. Old English.* Grammar and easy reading. Text: Bright's Anglo-Saxon Reader. Some reading of Old English will be done, but principally we shall trace the development of our language, and account for the presence in our language of many irregular forms.

**Eng. 18. Method English.* Course designed for those expecting to teach in high school. Classics taught in these years are studied. Lesson plans made.

**Eng. 20. Victorian Novel.* A study of representative Victorian Novelists. Texts: Hardy's *Return of the Native*; Stevenson's *Kidnapped*; Reade's *Cloister and Hearth*; Trollope's *Barchester Towers*.

**Eng. 21. Contemporary American Literature.* This course includes a special study of those writers whose books can be used in teaching. Text: Manly and Rickert's *Contemporary American Literature*.

**Eng. 22. Contemporary British Literature.* Text: Manly and Rickert's *Contemporary British Literature*.

**Eng. 23. Essay.* Various types of essay will be read and discussed.

**Eng. 24. Modern Drama.* This course will include a study of the technique of the Modern Drama.

**Eng. 25. Advanced Rhetoric.* Course on style and advanced composition, based on Genung's *Working Principles of Rhetoric*.

**Eng. 26. Development of the Drama.* Restricted to Seniors. Lecture and reading course. A syllabus in the hands of each student will direct the library work. Representative plays will be read showing the development of the drama from the Greek and Roman down to the present period.

**Eng. 29. Magazine Fiction.* The principles of the short story will be studied in a few classics, but mainly in the fiction of current magazines.

**Eng. 30. British Poets of the Nineteenth Century.* The more important poems of Burns, Wordsworth, Shelley, Keats and others are studied both for technique and content. Text: *British Poets of the Nineteenth Century*. Vol. 1.

**Eng. 31. Eighteenth Century Poetry.* Genesis, rise ascendancy, and decline of Classicism; rise of Sentimentalism; inception of the Romantic Movement. Text: *The Poets of the Eighteenth Century*.

**Eng. 32. Lyric Poetry.* A survey of the English lyric from Shakespeare to the present day.

**Eng. 39. Journalism.* Study of phases of Journalism which are applicable to school papers and year books.

**Eng. 42. Emerson's Essays and Poems.* A study of Emerson's philosophy in prose and poetry.

LATIN.

HELEN A. BALDWIN.

Junior College.

College students may begin Latin and receive credit for a minimum of two years. Students having two or more years of high school credit are eligible to college classes.

For advanced students majoring in Latin practice teaching is provided.

Latin 1, 2, 3. Beginning Latin. Smith's Elementary Latin is used, the aim being familiarity with the elements of Latin grammar.

Latin 4, 5, 6. Caesar's Gallic War. The equivalent of four books is read, Walker's Caesar being the text. Scott's Prose Composition.

Latin 13. Advanced Composition. This is useful for teachers and is a convenient review for students.

Latin 14. Cicero's Essays. De Senectute and part of De Amicitia.

Latin 15. Livy. Books I and XXI, Westcott's edition.

**Latin 16. Phormio of Terence.*

**Latin 17. Horace, Odes and Epodes.*

**Latin 18. Tacitus.* The Agricola and Germania.

Senior College.

**Latin 19. Cicero's Letters.* For the benefit of teachers emphasis is laid upon the history of the times and the personality of Cicero.

**Latin 20. Vergil's Georgics and later Aeneid.* This too is intended for teachers. The hexameter is carefully studied and Vergil's spirit and contribution to Rome are considered.

**Latin 21. Pliny's Letters.*

**Latin 40. Roman Private Life.* Open to college students having already credit for two years of Latin. Given in summer, second term.

**Latin 41. Methods in Latin.* A half credit. Deals with the psychology of the subject, objectives, text books, etc. Given in summer, second term. For Senior College students.

In both terms of the summer quarter reading courses are offered for Junior College and for Senior College students.

FRENCH AND GERMAN.

J. M. PIERCE.

Junior College.

French 1, 2, 3. Holzwarth and Price, Beginners' French. Wor-
man's First French Book. Guerber, Contes et Legendes, I. Lavis-
se, Histoire de France (Cours Moyen). Kullmer and Cabeen, France.

* Courses starred may be counted as part of major.

**French 4, 5, 6.* Mairat, La Tâche du Petit Pierre. Halévy, L'Abbé Constantin. Dumas, La Tulipe Noire. Erckmann-Chatrian, Madame Thérèse. Dumas, Les Trois Mousquetaires. Mérimée, Colomba. Technical and Scientific French (part).

**French, 7, 8, 9.* Texts are chosen that have not been read by members of the class, who come from other schools. Among those usually read are Hugo, Les Misérables; Dumas, Le Comte de Monte Cristo; Brieux, Blanchette; Sandeau, Mlle. de la Seiglière; Technical and Scientific French (part). Additional books from the college library are assigned to individuals.

German 1, 2, 3. Mosher and Jenney: Lern- und Lesebuch. Immensee. Germelshausen. Das Peterle von Nuernberg.

German 4, 5, 6. Hoeher als die Kirche. Der Fluch der Schoenheit. Der Prozess and Einer muss heiraten. Flachsmann als Erzieher. Karl Heinrich. Carl Schurz' Leebenserinnerungen. German Science Reader.

ART.

GLADYS P. WILLIAMS.

GRACE L. BURKET.

Junior College.

Art 3. Blackboard drawing is valuable to those expecting to teach in the grades. Composition and perspective are studied. Drawings are from dictation, memory and imagination.

Art 4. Public School Drawing. Course for teachers in common school art for the first six grades.

Art 5. History of Art. Periods and styles of architecture, sculpture, and painting preceding the Italian Renaissance. Texts: Reinach's Apollo and Hamlin's History of Architecture.

Art 7. Advanced Design. Continuation of the principles of design and their practical application to art in the home.

Art 9. Clay Modeling. This course includes the making of type forms and objects based on them, simple animal forms, modeling from casts, tiles and hand built pottery.

Art 10. Advanced Water Color. Work from still life and nature. Prerequisite, Art 27.

Art 13. History of Art. Italian Renaissance to present time. Same texts as Art 5. Prerequisite 5.

Art 21. Commercial Design. Design with reference to its application in the business world; principles of advertising; methods of reproduction and printing. Prerequisites, Art 27 and 28.

Art 24. Bookbinding. A course to meet the increasing demands for industrial art. It covers a progressive series of problems for the grades and high school. It includes mending, rebinding, and sewing books.

Art 26. Perspective. The principles of perspective are applied in the drawing of objects singly and in groups. The course includes the drawing of interiors and exteriors of buildings.

* Courses starred may be counted as part of major.

Art 27. Theory of Color. A study of the theory of color and harmony of color. Text: Sargent's The Enjoyment and Use of Color.

Art 28. Principles of Design. Origin and theory of design; principles applied in costume design, tooled leather and bookbinding.

Art 29. Public School Drawing. Course for teachers in public school art for the seventh and eighth grades and high school, with special reference to supervisory and administrative duties.

Art 30. Home Decoration. Principles of design are studied in terms of the home and its furnished details from the standpoint of the designer. Reference work, color plates, and the compiling of illustrative materials are required.

Art 31. Freehand Drawing. Perspective and freehand drawing using pencil, ink, charcoal, and other media; study of values stressed in graphical representation.

Senior College.

Art 7a. Design, Elements of Composition. Elementary study of simple architectural problems. Mediums: pencil, pen and water.

Art 7b. Design. Talks and laboratory work dealing with the principles of design and color with typical problems to illustrate their use in the home. Batik designs studied and developed.

Art 9a. History of Architecture. Ancient to Modern times; considering, influence of material, climate, political and economic conditions on styles of architecture; evolution of structural and ornamental forms. Text: Hamlin's History of Architecture.

Art 15. Freehand Drawing. Charcoal drawing from the cast. Some drawings finished in water color washes.

Art 21a. Design, Study of Elements. Continuation of Art 7a.

DEPARTMENT OF SOCIAL SCIENCES.

GEO. W. SMITH.

E. G. LENTZ.

HENRIETTA LARSON.

Junior College.

The following courses may be pursued by students in either the first or the second year. They should be taken in the order indicated, namely;—13, 17, 14. Course 9 should be taken after the student has done some work in the Department of Education.

Hist. 13. English History, Junior College. The value of this course lies in its relation to the Junior College course in American History which follows it. The aim is to trace the growth of English institutions and to observe briefly the planting of those institutions in America. Due attention is given to the social and economic phases of the history as well as to the political life of England. The course is concluded with the study of the Stuart period. Text: Cross' A Shorter History of England and Greater Britain.

Hist. 17. Modern Europe, Junior College. This also is a preparatory course to Junior College American History. It is a study of revolutionary Europe of the eighteenth and nineteenth centuries with brief attention to the problems which in any way affected American history. Beginning with the English Revolution of the seventeenth century it covers in a general way the Old Regime, the French Revolution, the Napoleonic Era, and the Revolutions after Vienna. The study is brought down to 1870. Text: Robinson's *Modern Europe*.

Hist. 14. American History. A term course giving a survey of the history of the United States from 1783 to 1861, with emphasis on political and constitutional development and with considerable attention to social and economic conditions and changes. Text: Muzzey, *The United States of America*, vol. I.

Hist. 9. Method History, Junior College. This course has for its purpose the study of the nature of history, the organization of the subject-matter, and the consideration of the proper material for the several years of the school course. Especial attention is given to what should be done in presenting history matter to the primary and intermediate grades.

Preparing lesson plans and conducting recitations will occupy a portion of the time. Careful attention will be given to the History outline in the State Course of Study. Text: Mace's *Method*.

Senior College.

The courses which follow comprising two years of Senior College history are intended to present intensive studies of certain important phases of world history. The method of the study is stressed with a view to preparing the prospective teacher of high school history for the most effective work in this special field. Extensive library reference work is required to familiarize the student with the general literature of the subject. The writing of theses upon selected topics and the making of numerous oral reports are among the requirements of each course. No credit can be given for work done in absentia unless it be carried on by correspondence with a reputable school offering such courses, and then only by previous approval of the department.

**Hist. 15. Greek History.* This course is a study of Greek civilization and its meaning to world history. The general topics for discussions are: origin of the Greek peoples; their migratory movements; the city-state form of government; sources of culture, art, literature, education, religion, science, etc.; the spread of Greek culture into Asia, Africa, and the West. Text: Bury's *Greek History*.

**Hist. 16. Roman Political Institutions.* In this course we take a comprehensive survey of the political institutions under the Monarchy, the Republic, and the Empire. We find the sources of many of our American political institutions in the political institutions of the Roman people. Whenever we find the opportunity we make comparisons between these Roman institutions and similar ones of our own day. Text: Abbott's *Roman Political Institutions*.

* Courses starred may be counted as part of major.

**Hist. 23. The Age of Feudalism.* This is a study of the origin, development and decay of feudal institutions from the age of Charlemagne to the fifteenth century. The emphasis is placed upon the political institutions, the feudal state, but the social and economic phases of feudalism receive attention. This course is preparatory to Hist. 24. Text: Thorndyke's *History of Medieval Europe*.

**Hist. 24. The French Revolution.* This course occupies a middle ground between the old and the new order—the final extinction of the remnants of the feudal system. Beginning with the Old Regime the study is carried through the revolutionary cycle concluding with the fall of the Napoleonic Empire.

**Hist. 25. Europe Since 1870.* This course begins with the Franco-Prussian War, takes up the organization of the Empire, and traces the expansion of the governments of Western Europe. The World War in its various aspects and the world problems growing out of it is the subject of this study. Text: Turner's *Europe Since 1870*.

**Hist. 26. English Constitutional History.* The origin, growth, and present workings of the English Constitution is the special study of this course. The American political heritage from England receives due emphasis. Owing to the technical nature of the subject, Hist. 13 or its equivalent is an imperative pre-requisite. Text: Taswell-Langmead's *English Constitutional History*.

**Hist. 27. Recent History of the United States.* The history of the United States during the last sixty years is the subject of this course. Social, economic and political developments and problems, and international relations are considered topically. A term paper is required in order to acquaint the student with the methods of historical research. Text: L. B. Shippee, *Recent American History*.

**Hist. 32. Political Science.* A brief introductory course in comparative government. The main features of American government, state and national, are treated in comparison with significant features of other modern governments. This course is intended to follow the junior college courses, Hist, 13, 17, 14.

GEOGRAPHY AND GEOLOGY.

FRANK H. COLYER.

MARJORIE MAE SHANK.

EDNA M. GUEFFROY.

Junior College.

Geography 4a. Primary Methods. This course is devoted to the teaching of geography in the first three years, usually grades four, five and six. This subject is primarily for freshmen, but is open to sophomores. The work is completed in six weeks, carrying with it one-half credit. A full credit of twelve weeks may be had by taking Geography 4b. Five recitations per week.

Geography 4b. Geography Methods of Upper Grades. This course deals with the methods of teaching geography in the upper grades. It is a freshman course of the junior college, but is open to

* Courses starred may be counted as part of major.

sophomores. The work will be completed in six weeks; but if desired Geography 4a may be taken to secure a twelve weeks credit. Five recitations per week.

Geography 11. Human Geography. This subject is commonly referred to as advanced geography. Many of the fundamental facts and principles of economic geography are taught in this course. This is a freshman class which is open to sophomores. Text: Huntington and Cushing; Principles of Human Geography. This is a course of twelve weeks, five recitations per week, laboratory two days per week.

Geography 11a. Geography of North America. The purpose of this course is to make an intensive study of the continent of North America. This is a sophomore subject, open to members of the freshman class. Five recitations are held per week for a period of twelve weeks, laboratory two days per week. Text: J. Russel Smith's *North America*.

Senior College.

**Geology 8. Physiographic Geology.* This is the first twelve weeks of a course extending through the entire year. This term will be confined to the physiographic phase of geology. In this course contour map work will also be discussed. The course is primarily for juniors of the senior college, but is open to seniors. A student entering this course should have a fair knowledge of physiography of high school grade. This is a twelve weeks course of five recitations per week, laboratory two days per week.

**Geology 9. Rocks and Minerals. Also structural geology.* This is the second twelve weeks unit in a year's work in college geology. The first six weeks will be a study of the leading minerals and rocks, largely from the standpoint of field work. The second six weeks is a study of structural geology and the first part of historical geology. Students taking this course should first take Geology 7, or its equivalent, and should have a working knowledge of chemistry and biology. Five recitations per week, laboratory two days per week.

**Geology 10. Historical Geology.* This is the third twelve weeks unit in a year's work in college geology. The entire term will be taken up with historical geology. This course presupposes Geology 7 and Geology 8 or their equivalent. Five recitations per week, laboratory two days per week.

**Geography 12. Economic Geography of United States and Canada.* This is the first portion of a year's work in economic geography and meteorology. The course is primarily for seniors but is open to juniors. Students entering this course should have a fair knowledge of the essentials of economic or commercial geography of high school grade. Five recitations per week.

**Geography 13. Economic Geography of World Outside United States and Canada.* This is the second twelve weeks unit in a year's work in College Economic Geography and Meteorology. This course should follow Geography 12. This is a senior class open to juniors. Five recitations per week.

**Geography 14. Meteorology.* This course deals with the condition of the atmosphere, the changes of condition, and the causes of

* Courses starred may be counted as part of major.

these changes. This is the third twelve weeks unit in a year's work in college Economic Geography and Meteorology. This is a senior course but is open to juniors. A working knowledge of the essentials of physics and chemistry are desirable before undertaking this course. Five recitations per week.

**Geography 15. Geography of Europe.* This course is open to students of the senior college. It consists of an intensive study of the continent of Europe. It is a course occupying twelve weeks, five recitations per week.

**Geography 16. Geography of South America.* This study of the continent of South America is for juniors and seniors. During the school year it will follow the study of Europe. It is a course of twelve weeks, five recitations per week.

**Geography 17. Influences of Geographic Environment.* Taken after Geography 13, and 14, Geography 17 completes the year's credit. This sequence is not essential however. The course is open to all students in the senior college. Five recitations per week.

PSYCHOLOGY AND PEDAGOGY.

GEORGE D. WHAM.

J. M. PIERCE.

W. O. BROWN.

BRUCE W. MERWIN.

Junior College.

Education 2. Educational Psychology. A study of the facts and laws of mental life with special reference to the learning and teaching processes. The various principles that underlie effective teaching are developed and illustrated by concrete exercises and problems. Text: Bagley's Human Behavior, or its equivalent. Assigned readings in James' Talks to Teachers, Colvin's The Learning Process, and McMurry's How to Study.

Education 3. Principles of Education. A systematic study of the fundamental principles of education as derived from the basic sciences of biology, physiology, psychology, and sociology. The principles thus derived are applied in the interpretation and criticism of current and proposed educational theory and practice. Text: Bagley's Educative Process, or its equivalent. Assigned readings in Spencer's Education, Ruediger's Principles of Education, and Horne's Philosophy of Education.

Education 11. General Method. A detailed study of the various processes of teaching and learning involved in elementary education. Text: Parker's Types of Elementary Teaching and Learning, and Parker's General Methods of Teaching in Elementary Schools.

Education 3a. Elementary Curriculum. The first half presents the principles of curriculum construction; the second half, the important studies of curriculum construction with resulting conclusions as to the content and organization of the various school subjects. Texts:

* Courses starred may be counted as part of major.

Charters' Curriculum Construction, and Bobbitt's How to Make a Curriculum.

Education 1. School Management. A study of such topics as the first day of school; the organization of the school; the daily program; equipment, sanitation, decoration; the conduct of the recitation; discipline and moral training. Lesson-planning is an important feature of the course. Text: Bagley's Class-room Management, or its equivalent. Additional readings according to topic.

Education 12. Rural Education. A college course designed for those who expect to teach or supervise country schools. The first half is devoted to rural sociology; the second half, to a study of school organization, school equipment, subject matter and methods, required by the conditions of rural life. Texts: Cubberley's Rural Life and Education, and Sear's Classroom Organization and Control, or their equivalents.

Senior College.

Education 5. Advanced Educational Psychology. A description of the bodily organs and mechanisms upon which behavior depends; a discussion of instinctive activities and capacities; a formulation of the general laws of learning and their application to teaching; a study of individual differences. Text: 'Gates' Psychology for Students and Teachers, or its equivalent.

Education 7. High School Method. A detailed study of the various processes of learning and teaching involved in high school education. Texts: Parker's Methods of Teaching in High Schools, and Parker's Exercises for Methods of Teaching in High Schools.

Education 7a. High School Administration. A study of such topics as adolescence; the history and aims of secondary education; high school courses of study; high school equipment; and the problems of organization, management, and discipline peculiar to the high school. Texts: Inglis' The Principles of Secondary Education; King's The High School Age, or their equivalents.

Education 4. History of Education. The chief aim is to afford the teacher the sanity of judgment that comes only by seeing present-day education in perspective against its historical background. It traces the evolution of educational ideals and practice in response to social needs and to the contributions of philosophic and scientific thought. Texts: Cubberley's A Brief History of Education and Curoe's Outline of History of Education, or their equivalents. Additional readings in Graves' History of Education and Cubberley's Book of Readings.

Education 6. Educational Sociology. A consideration of the origin nature, and functions of society and social institutions. A special study of the relation between society and the individual, and of the practical social problems growing out of the complexity and rapid development of modern society. Text: Hayes's Introduction to the Study of Sociology, or its equivalent.

Education 9. School Administration. This course is designed primarily for those who look forward to positions as supervisors, prin-

cipals, or superintendents. Texts: Cubberley's Public School Administration or its equivalent, and Stark's every Teacher's Problems.

Education 10. Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for both elementary and high school pupils. Texts: Terman's The Measurements of Intelligence, and Trabue's Measuring Results in Education, or their equivalents.

MATHEMATICS.

W. T. FELTS.

ALICE KELSEY.

Junior College.

Math. 19. Col. Algebra I. A course for students who have had only one year of high school algebra. A non-credit course for those who have had a year and a half of high school algebra. This course must be followed by Col. Algebra II by students who expect to transfer to the university for credit.

Math. 19a. Col. Algebra II. An extension of work in Math. 19. Includes the work usually given in a two and one-half hour college course. Prerequisite: Col. Algebra I or a year and a half of high school algebra.

Math. 30. Special Methods in Arithmetic. A course in the pedagogy of arithmetic for the grades. This course is so organized that a student may take either half for a half credit; however, taking the course by halves is discouraged.

Math. 25. Plane Trigonometry. A course in the elements of plane trigonometry with applications.

**Math. 27. Plane Analytical Geometry I.* Cartesian coordinates, curve and equation, straight line, circle, polar coordinates, functions and graphs, transformation of coordinates, parabola, ellipse, hyperbola. Prerequisites: Trigonometry and Col. Algebra I.

Senior College.

**Math. 28. Plane Analytical Geometry II.* A special study of conic sections, asymptotes, transcendental curves and equations. Prerequisite: Math. 27.

**Math. 44. Differential Calculus.* The elements of differential calculus with applications.

**Math. 45. Integral Calculus.* The elements of integral calculus with applications and occasional reviews of the differential calculus.

**Math. 45a. Differential and Integral Calculus.* An extension of Math. 44 and Math. 45 in combination with multiple differentiations and integrations, and special applications.

**Math. 45b.* A half-credit course in extension of Math. 45a with special attention to physical and mechanical applications.

**Math. 36. Descriptive Geometry.* A short course in the elements of descriptive geometry to enlarge the student's mathematical concepts and to prepare for further engineering or mechanical courses. Prerequisite: Analytical Geometry II.

**Math. 46. The Teaching of Secondary Mathematics.* A course in the pedagogy of high school algebra, geometry, and trigonometry, planned especially for those who are planning to teach mathematics in high schools.

CHEMISTRY.

GEORGE BROWNE.

ROBERT A. SCOTT.

J. W. NECKERS.

The growth in popularity of the study of chemistry during the past has been largely due to the growing conviction that chemistry is the foundation of other sciences and of nearly all of our modern industrial processes. A knowledge of chemistry is now considered an essential part of a liberal education. During the past few years the Normal has been adding to its equipment to meet this demand and it is now prepared to give three full years of work in chemistry and thus to prepare students to teach chemistry in the public high schools and also to prepare them for entrance to the medical schools.

Junior College.

Chemistry 1a. General Inorganic Chemistry. For students who have had no previous study of chemistry. Periods 1 and 2, 3 and 4 or 5 and 6 during the Fall Term, or 7 and 8 during the Spring Term.

Chemistry 2a. General Inorganic Chemistry. Periods 1 and 2, 3 and 4 or 5 and 6 during the Winter Term.

Chem. 1a is a prerequisite.

Chemistry 3a. General Inorganic Chemistry. Periods 1 and 2, 3 and 4 or 5 and 6 during the Winter Term.

Chem. 2a is a prerequisite.

Chemistry 1b, 2b, 3b. General Inorganic Chemistry. With laboratory work in qualitative analysis. For students who have had one year's work in chemistry in their high school.

**Chemistry 7. Descriptive Chemistry and Qualitative Analysis.* Lectures, recitations, and laboratory work. Periods 7 and 8 during the Fall Term.

**Chemistry 8. Descriptive Chemistry and Quantitative Analysis.* Lectures, recitations, and laboratory work. Periods 7 and 8 during the Winter Term. Chemistry 7 is prerequisite.

**Chemistry 10. Elementary Quantitative Analysis.* Lectures, recitations and laboratory work. Periods 3 and 4 during the Winter Term.

**Chemistry 11. Elementary Quantitative Analysis.* Lectures, recitations, and laboratory work. Periods 3 and 4 during the Spring Term.

Senior College.

**Chemistry 9. Advanced Qualitative Analysis, Inorganic.*

**Chemistry 12. Advanced Quantitative Analysis, Inorganic.*

**Chemistry 13. Elementary Organic Chemistry.* Recitations and laboratory work. Periods 7 and 8 during the Fall Term.

* Courses starred may be counted as part of major.

**Chemistry 14. Elementary Organic Chemistry.* Recitations and laboratory work. Periods 7 and 8 during the Winter Term.

**Chemistry 15. Elementary Organic Chemistry.* Recitations and laboratory work. Periods 7 and 8 during the Spring Term.

PHYSICS AND ASTRONOMY.

S. E. BOOMER.

CHARLOTTE ZIMMERSCHIED.

The department provides two distinct one year courses in general physics,—one for those who have had no previous preparation in the subject, the other for those who have had a year of high school physics. The chief aims in both are to develop scientific methods in thinking, to interpret physical phenomena intelligently, and to become acquainted with many of their applications in modern life. Local industrial plants are visited and written reports required. Such subjects as spectrum analysis, radioactivity, the electron theory, and other recent discoveries and applications are emphasized to stimulate interest.

Junior College.

Physics 2, Mechanics and Sound; 3, Magnetism and Electricity; 4, Heat and Light, constitute the year's work for those who have had no previous preparation. Merchant and Chant's Elements of Physics is the text.

Physics 2a, Mechanics and Sound; 3a, Magnetism and Electricity; 4a, Heat and Light. These three courses constitute a year's work for freshmen who have had a year of high school physics. Stewart's text and Taylor, Watson and Howe's Laboratory Manual are used.

Senior College.

Physics 5. A one term course for students in Household Arts based upon those principles of physics which are applied extensively in the home.

**Physics 6, Mechanics and Sound; *7, Magnetism and Electricity; *8, Heat and Light* constitute a year's work for those who have had high school physics. Stewart's text and Taylor, Watson and Howe's manual are used.

The following courses are open to those who have had either Physics 2, 3, and 4, or 6, 7, and 8, and Math. 19 and 25. May be taken in any order:

**Physics 14, Heat; *15, Electricity; *16, Light.*

The following are half-credit courses, each requiring six weeks work:

**Physics, 17, Teachers' Course; *18, Sound and Radio.*

ASTRONOMY.

Junior College.

Astronomy 1 and Astronomy 2 constitute a two term course. Russell, Dugan and Stewart's text. Five recitations per week, together

* Courses starred may be counted as part of major.

with frequent evening observations with and without the telescope, constitute the work. As the students go on in their study from the earth to the moon, the sun, the plants, the stars, and the nebulae, their vision is broadened perhaps as rapidly in this ennobling science as it can be in any subject. The varying phases of the moon and the inferior planets, the vast distances to the stars, their great magnitude and high magnitude and high velocities, their constitution, temperature, and brilliance appeal especially to those who enjoy thinking along these lines. Those who take the course will find it helpful in presenting the difficult problems of mathematical geography and in vitalizing their nature, study work.

BIOLOGY.

W. M. BAILEY.

MARY M. STEAGALL.

DELIA CALDWELL, M. D.

Botany.

Junior College.

Biology 20. General Botany I. An introductory course in Botany. It consists of a study of the vegetative organs of the higher seed plants, their form and structure, physiological activities, and relations and adjustments to their environment. Laboratory studies, lectures and recitations. Fall Term.

Biology 21a. General Botany II. A brief study of the morphology of representative plants of the great plant groups, the general classification of plants and the evolution of the Plant Kingdom. Laboratory studies, lectures and recitations. Winter Term.

Biology 21b. General Botany III. A course in Taxonomic Botany. It consists of a study of the principles of classification and the use of manuals, and work in classifying and identifying seed plants and ferns of the local flora. Field studies, lectures and recitations Spring Term and Mid-spring Term.

Senior College.

**Biology 22. Morphology of the Thallophyta.* A study of the structures, development and relationships of the groups of Thallophyta, the evolution of the plant body, origin and evolution of sex in plants, parasitism and saprophytism in the Bacteria and Fungi. Laboratory studies, lectures and recitations. Fall Term, Third Year of College Course.

**Biology 23. Morphology of the Bryophyta and Pteridophyta.* A continuation of Course 22. This course consists of a study of the structures, development and relationships of the liverworts and mosses, ferns, equisetums and clubmosses, evolution of the sporophyte, alternation of generations, and heterospory. Laboratory studies, lectures and recitations. Winter Term, Third Year of the College Course.

**Biology 25. Morphology of the Spermatophyta.* A continuation of Course 23. This course consists of a study of the structures, de-

* Courses starred may be counted as part of major.

velopment and relationships of the Gymnosperms and Angiosperms, vascular anatomy of the seed plants, the development of flowers, gametophytes, fertilization, and embryology of the seed plants, and the structure and development of seeds. Laboratory studies, lectures and recitations. Spring Term, Third Year of the College Course.

**Biology 26. Plant Physiology I.* A study of the physiological relationships of plants and soil, absorption of water and mineral nutrients, water relations and requirements of plants, movements of materials in plants, functions of mineral nutrients. Laboratory studies, lectures and recitations. Fourth Year of the College Course.

**Biology 27. Plant Physiology II.* A study of the synthetic processes in green plants, digestion, translocation and uses of foods in plants, the nutritional processes in plants without chlorophyll, respiration and fermentation, growth in plants. Laboratory studies, lectures and recitations. Fourth Year of the College Course.

**Biology 28. Plant Ecology.* Plants in relation to their environment; symbiosis; plant communities and their classification; plant associations; plant succession; phenology. Spring Term, senior year.

Zoology.

These courses are planned for college students who are specializing in order to teach or to do professional work in Zoology.

Junior College.

Biology 1a. General Zoology. This is an elementary college course in Zoology dealing with the salient facts of Zoology. It notes the evolution of groups and varieties. The field work will be largely devoted to a study of local forms, life histories, habits and environment. Economic relations will be emphasized.

Biology 2. Invertebrate Zoology. This course follows Biology 1a. Here the single living cell will be studied in both its simplicity and its complexity; its limitations will be seen and the factors sought that give rise to the Metazoan. The rise of tissues, the combination of these, and their organization into organs and systems will be studied. The inter-relation of lower organisms will be noted in both field and laboratory, and the successive steps in the evolution of more complex forms studied. Methods of preparing invertebrate whole mounts will be given, and slides of invertebrate material prepared.

**Biology 6. Entomology.* A course of economic interest to students of biology, to teachers of rural and village schools and to students of agriculture. The critical point in the life histories of the common local insects will be emphasized, together with the insects' ecological and pathological importance. The relation of insects to crops, truck gardens, orchards, lawns and parks will be studied and the effectiveness of certain remedies and preventive measures for such pests. Field work and individual experiments will be encouraged. This comes preferably after Invertebrate Zoology. Methods of classifying, mounting, preserving and naming forms will be stressed.

* Courses starred may be counted as part of major.

**Biology 5. Ornithology.* Required, Biology 1 or its equivalent. The object of this course is to acquire ability to recognize practically all of the birds of the locality, to know their field markings, their characteristic position, calls and flight, together with their feeding and nesting habits, their economic importance in relation to agriculture and horticulture and the laws for their protection. For bird structure the English sparrow or pigeon will be used. Two field trips per week will be made, equivalent to five school hours per week. A special study of some individual bird will be made by each student. Texts: Reed's Land Birds East of the Rockies; Chapman's Birds of Eastern United States.

**Biology 12. Field Zoology.* This course presupposes high school Zoology or its equivalent. Types will be studied. Much time will be spent in the field, getting local material and learning methods of doing out-door and research work. An opportunity will be given for the observation and study of an individual animal, and experimentation with it. Texts: Hegner's College Zoology; Ward and Whipple, Fresh Water Life. Allee's Synoptic Key.

Senior College.

These courses are prepared for those who expect to be high school teachers of Zoology or for those getting ready for such professional work as nursing, dentistry, medicine, etc.

**Biology 3 and 3a. Comparative Vertebrate Anatomy.* An elementary course in Zoology must precede these courses. They may precede or follow Invertebrate Anatomy.

These two courses cover the general field of Comparative Vertebrate Anatomy and should be taken in sequence. The subject is taken from a phylogenetic and evolutionary standpoint. Structures, origin of various tissues, of organs, and development of skeleton will receive especial attention. Biology 3 deals with the evolution of tissues and organs, Biology 3a with that of systems. Texts: Hyman's Laboratory Manual for Comparative Vertebrate Anatomy; Kingley's Comparative Anatomy of Vertebrates.

**Biology 13. Animal Ecology.* A study in local fauna and habitat. High school or Invertebrate Zoology is a prerequisite.

Animals are considered in relation to each other and to their environment. The animal societies and formations of lake, stream and forest will be found and the factors noted that control their successions. This necessitates an acquaintanceship with all of the common animals of the region, their names, habitats, relations, characteristics and associations. Text: Allee's Synoptic Key. Pearse's Animal Ecology. Access must be had to a number of both vertebrate and invertebrate manuals.

**Biology 8. Embryology.* This course is confined to Vertebrate Embryology. The chick and pig embryos will be used as types and studied in detail through whole mounts as well as serial sections. The development of the eggs of such other forms as the frog, the bird, fish, etc., will be used for comparison. The ontogeny of the individual will

* Courses starred may be counted as part of major.

be studied in its apparent relation to the race phylogeny. Text: Prentiss and Arey; Manual: Lillie and Moore.

**Biology 9 and 9a. Histology and Histological Technique.* Biology 9a is a study in technique, while Biology 9 is the recognition of microscopic material with its relations and origin.

9 acquaints the student with microscopic structure of animal tissues, and follows their development from primitive germ layers: 9a gives latest methods of preparing histological material in both Botany and Zoology that the student may be furnished with material and equipment for doing original research in morphology, and acquire skill to work independently.

Texts: Hill's Organography, and Dahlgren and Kepler. For technique; Guyer's Animal Micrology, and Chamberlain's Methods in Plant Histology.

Physiology, Hygiene and Public Health.

Junior College.

Biology 24. Bacteriology and Sanitation. An introductory study of sanitary science, including a study of the morphology and physiology of microorganisms and their relationships to human interests. The course includes the following phases of the subject: sterilization and disinfection; preparation and use of culture media; growing and studying cultures; microscopic examination of microorganisms; food preservation; bacteriology of the soil, of milk and of water; and pathogenic microorganisms in relation to production of infectious diseases. One hour of lectures and recitations daily and one hour of laboratory work daily, 120 hours. Prerequisites: Elementary Physiology and Elementary Chemistry. Fall Term. Freshman Year. 3 and 4.

Biology 4a. College Physiology. A study of the anatomy, physiology and hygiene of the great systems of the human body. It will include a study of digestion, secretion and excretion, metabolism. Special emphasis will be placed on the circulatory system and its close connection with digestion. One hour of lectures and recitations and one hour of laboratory work daily, 120 hours. Prerequisites: Elementary Physiology, Botany or Zoology and Elementary Chemistry. Winter Term. Sophomore Year. 5 and 6.

Biology 43. Health Education. This course will teach the meaning of health, its value to the individual and to the community, how it may be attained and how preserved. Special attention will be given to the hygiene of the mouth and teeth and to the organs of special sense. The principles of the prevention of communicable diseases will be taught and their application to the individual and to the community clearly demonstrated. This teaching will be adapted to the needs of the students themselves, for the improvement of their own health and detailed instruction will be given for the application of this work to the teaching of health in all of the grades of public schools. One hour of lectures, recitations and demonstrations daily. Fall Term, Spring Term and Summer Term. Sophomore Year.

* Courses starred may be counted as part of major.

Senior College.

Biology 42. Home Nursing and Child Care. A study of the anatomy and physiology of the new-born infant and young child and the feeding and care of children in health and disease. Also a study and mastery of the more common and necessary of the nursing procedures which can be carried out in the home, minor illness and injuries and first aid. One hour of lectures, recitations and demonstrations daily. 60 hours. Prerequisites, College Physiology and Bacteriology & Sanitation. Winter Term. Senior Year. 2.

AGRICULTURE.

R. E. MUCKLEROW.

The aim of the Agricultural Course is to develop a better appreciation of farm life by study of economic production, and to enable those who choose the work to teach it to others or to find a safe and profitable employment in the practice of farming.

The Normal owns a 110 acre farm which lies just south of the campus. In addition to the regular class work, students are required to make observations and to study the various phases of livestock farming on this farm. Demonstration plots are used to illustrate the various methods of soil treatment in relation to crop production. Students carry on project work from time to time with the various crops.

All the animals kept on the State Farm are pure bred. Percheron horses, Holstein cattle, Shropshire sheep, Poland China hogs, Barred Rock and Single Comb Rhode Island Red chickens, are used for class demonstration and judging work. Demonstration work in the feeding of farm animals is also carried on each year.

Students of the department find it profitable to join the Agricultural Club. While this club is more or less of department work, it is one of the factors promoting student life and the best interests of the institution. The club meets every Wednesday evening of the school year. The programs are made up of music, optionals, studies in soils and crops, livestock production and improvement, and community work.

An. Husb. 5. Principles of Feeding. Relations of plant and animal life, elements of nutrition, composition of plants and animals, digestion, composition of feeds, relative values in balanced rations.

An. Husb. 5a. Principles of Feeding. Balanced rations, feeding trials on State Farm, study of various feeding trials from different Universities, value of economic feeding and management.

An. Husb. 32. Livestock Judging. Leading characteristics of the various breeds of livestock, native homes, selection for feed lot, market requirements, breeding, nomenclature of external parts, score card and comparative judging.

An. Husb. 32a. Livestock Judging. Better livestock in relation to economic production, type, utility, show form, judging and management.

An. Husb. 7. Dairy Production. Balance of factors on a dairy farm, buildings, fields, rotation of crops, study of breeds.

An. Husb. 7a. Dairy Production. Breed history, feeding, herd testing, breeding, management.

An. Husb. 6. Principles of Breeding. The work embodies variation, mutation, inheritance of acquired characters, the pure line, segregation and dominance, reversion, blending inheritance, mendelian factors, theory of sex determination, prepotency, influence of environment, methods of animal breeding, and the factors involved in conducting breeding experiments. (Laboratory work.)

An. Husb. 4a. Poultry. Pigmentation, molting, inheritance of type, breeding, mating, influence of environment, incubation, feeding for early maturity, market conditions, marketing, poultry farming, including ways and means of developing the industry, results of egg laying contests.

Agronomy 1. Farm Crops. Fundamentals of soil fertility glaciation, adaptation of crops, insects and methods of control. Laboratory.

Agronomy 2. Farm Crops. Cereal crops. A study of plant structure, habits, characteristics, requirements, methods of production and harvesting. (Laboratory.)

Agronomy 3. Farm Crops. Forage crops. A study of plant structure, requirements, habits and characteristics, with special attention given to legumes and crop rotations. (Laboratory.)

Agronomy 5. Soil Physics and Management. The value and functions of organic matter. Soil moisture, erosion, drainage, aeration, temperature, tillage and irrigation. (Laboratory.)

Teachers' Course 4. The course is planned for teachers with farm experience who wish to teach agriculture in the country or village schools, and who do not care to take the regular courses.

The fundamentals of soil fertility and livestock production will be organized with a view of making the vital point of contact with school and community life.

Teachers' Course 10. Rural Life. A course planned for those interested in rural welfare. Study of rural life conditions, needs, standards, ways and means of improvement. The place of agriculture in community life. Problems of elementary and secondary school agriculture.

Horticulture 6. Elements of Horticulture. Vegetable gardening,—the production of vegetables for home use.

Horticulture 7. Small Fruits. History, varieties, propagation, harvesting, and storing.

Horticulture 8. The principles of fruit growing with special reference to the home orchard; pruning, spraying, and marketing.

HOUSEHOLD ARTS.

GRACE E. JONES.

LUCKY K. WOODY.

Junior College.

Household Arts 2. Garment Making. This course embraces both hand and machine work. Stress is laid upon the suitability of material and trimmings and upon economical purchasing. The work in-

volves the use and alteration of commercial patterns, some drafting and the various methods of trimming. The work in textiles embraces the history of the industry and the fundamentals of cloth making. Text: Textiles, by Woolman and McGowan.

Household Arts 3. Dressmaking. The work involves the making of two summer dresses, a study of materials, color combinations and line in dress, some drafting of patterns and elaboration of plain patterns.

In textiles the work includes the study of the important fibers in relation to careful buying.

Prerequisite: Household Arts 2.

Text: Textiles, by Woolman and McGowan.

Household Arts 5, 6, 7. Foods and Cookery. A year's course in the study of the production, marketing, relative costs, nutritive value, and preparation of food. The principles of cookery are developed by the use of experiments.

Course 5. The laboratory work is in heat, fuels, apparatus, food preservation, fruits, vegetables, starches, sugar.

Course 6. Beverages, dairy products, eggs, meat, fish, poultry, meat substitutes, fats.

Course 7. Flour mixtures, salads, desserts, meal planning and service, pure food laws, buying.

Text: Food Products, Sherman. References.

Household Arts 11. Dietetics and Nutrition. A study of food and its relation to the body. Planning dietaries for infants, children and adults. Special emphasis on the undernourished school child.

Prerequisites: Household Arts 7, Biology 4a, Chemistry 14.

Text: The Chemistry of Food and Nutrition, by Sherman; Laboratory Manual for Dietetics, Rose.

Household Arts 11a. A continuation of course 11. Practice in conducting nutrition classes for the under nourished.

Household Arts 11b. Food Course. A general course in food values. Prerequisites: Sixty hours of college work. Text: The Foundations of Nutrition, Rose.

Household Arts 12a. Household Economics. The economic function of the household. Its sources of income and principles of expenditure. The budget. Handling household resources. Social aspects of housing and of the food supply. Household operation and equipment.

Prerequisites: Household Arts 3, 7.

Text: Economics of the Household, by Andrews.

Household Arts 19. Costume Design and Draping. In this course dresses will be constructed in inexpensive materials. These will be planned from the standpoint of becomingness to the individual. A study of historic costume will accompany the work and be relied upon to furnish suggestions for the plans.

Prerequisites: Household Arts 3 and Art 7, or Art 27 and 28.

Household Arts 14. Advanced Dressmaking. This course involves the handling of silk and wood in tailoring, draping and the

use of commercial patterns. A term paper is required following investigation and discussion. Prerequisites: Costume Design and H. A. 3.

MANUAL ARTS.

LOUIS C. PETERSEN.

Junior College.

It is the purpose of this department to bring the student into close touch with industrial methods and manufacturing processes. The industrial activities are of such far reaching importance that they are increasingly becoming subjects of special study. This department is provided with ample equipment in the line of tools, benches, and power driven machinery, and offers the student opportunity for obtaining the knowledge and practical training for teaching the manual arts. Besides the shopwork courses, mechanical drawing courses are offered and are open also to pre-engineering students.

Students with the required preparation may secure training in practice teaching.

Man. Arts 1. Method Elementary Construction. For teachers of the lower grades. Study of purposes and nature of contents of courses. Choice of materials. Technical and expressional handwork. Processes of construction. Preparation of materials. Management of equipment. Methods in organization and presentation of subject matter. Outline of courses. Text: Primary Industrial Arts, Wilson.

Man. Arts 6a. Pattern Making. Study of draft, shrinkage and finish, coring, split and loose piece patterns. Working out typical patterns. Foundry practice in moulding and core making. Casting soft metal. Text: Wood Pattern Making, McCaslin.

Man. Arts 8. Art Metal Work. This work includes the making of angles, forming curves, binding, punching, riveting, filing, sawing, drilling, beating, annealing, soldering, etching and coloring by heat and chemicals. Problems incorporating these operations are worked out.

Man. Arts 9 and 10. Machine Shop Practice. The student gains experience by doing practical work at the vise, the drill press and the lathe. He makes an analytical study of the shape and function of details of tools and machines, properties of metals, cutting tools and speeds. Text: Lathe, Bench, Forge, by Burghardt.

Man. Arts 10a. Machine Shop Practice. This course includes work on the planer, scraper, fitting and assembling machine parts; building speed lathes. Text: Machine Tool Operations, Burghardt.

Man. Arts 11, 12, and 13. Mechanical Drawing. The work begins in the fall and continues through the year. It includes the use of instruments, applied geometry, lettering, orthographic projection, developed surfaces and intersections, pictorial representation, technical sketching, architectural drawing, machine drawing, tracing and blue-printing, strength of material, and specifications. Text: Engineering Drawing, French.

Man. Arts 31. Mechanics of Machinery. Motions and velocities. Instantaneous centers. Velocity diagrams. Motion mechanism. Cams.

Gearing. Gear trains. Belting. Intermittent and quick-return motion. Text: Mechanism, Keown.

Man. Arts 17. Constructive Design. A detailed study is made of the principles governing contour outline, spaces and masses as related to the proportions of furniture, machinery, and buildings. Projects are designed subject to the requirements of adaptability, strength, and beauty for the purpose intended. Text: Industrial Arts Design, Varnum.

Man. Arts 18. Instrumental Perspective. This course treats of the location on the picture planes of the perspective of points, lines, surfaces and solids. Application is made in drawings of houses and parts of machinery. Text: Perspective Drawing, Lawrence.

Man. Arts 20. Methods in Manual Arts. A study of the principles, origin and development of manual training in the school. Trade guilds and unions, relation of youth to industry, factory system and shop management. Place of manual arts in the schools. Texts: Teaching Manual and Industrial Arts, Griffith; The Manual Arts, Bennett; Principles and Methods of Industrial Education, Dooley.

MUSIC.

DAVID S. MC INTOSH.

JULIA D. CHASTAINE.

HELEN E. MATTHES.

Junior College.

Music 1. Method Music. This course is offered to those students who have not had elementary training in music. It consists mainly of sight-reading simple songs and exercises; but also includes drill in pitch, rhythm, and theory; formal ear training (response, oral and written); song singing by use of syllables; and appreciation of music (listening lessons). Text: School Music Handbook, by Cundiff-Dykema.

Music 2. Method Music. A course designed to meet the music requirements demanded of grade teachers. The work covers pedagogic principles of music teaching, observation in Training School, practice in lesson plans, and practical experience in class teaching.

Prerequisite: Music 1, or previous training equivalent to that course. Text: School Music Handbook, by Cundiff-Dykema.

Music 3. Practice Teaching. This course offers an opportunity to teach music in any grade of the Training School. All teaching will be under the supervision of members of the music department. Class will meet once a week for further training in methods, for discussion of problems encountered while teaching, and for general discussions with supervisors. Text: School Music Teaching, by Karl Gehrken.

Music 5. Harmony. The work covers the formation of major and minor scales, a thorough study of intervals, the common chord, and harmonic progressions. Text: A Treatise on Harmony, Part I, by J. Humfrey Anger.

Music 6. Harmony. A continuation of Music 5. The course covers harmonic progressions, the chord of the sixth and the six-four, the dominant seventh and its inversions, and natural modulations. Text: A Treatise on Harmony, Part I, by J. Humfrey Anger.

Music 7. Music Appreciation. A course designed to assist the student in understanding music. Texts: From Song to Symphony, by Daniel Gregory Mason. Common Sense of Music, Sigmund Spaeth.

Music 8. Method Music. A continuation of Music 2. More advanced methods are studied and especial emphasis is given to the junior and senior high schools. Courses of study are made to include all of the music work required in the eight grades of the elementary school and the work of the junior high school.

Music 9. Band and Orchestra Methods. This course is offered only during the summer session. It offers a study of all the orchestral instruments, the common band instruments, and scoring for the orchestra. Considerable attention is given to the art of conducting with opportunities to direct the school orchestra. The entire course is outlined and conducted in terms of the grade school and the high school band or orchestra.

Music 10. History of Music. A general course covering the important movements of the following periods: uncivilized and ancient music, mediaeval music, the sixteenth century, the seventeenth century, the eighteenth and early nineteenth century.

Music 11. Harmony. (Second year.) A study of the dominant seventh and its inversions, diminished sevenths, secondary chords of the seventh, chords of the ninth, eleventh, and thirteenth. Text: Modern Harmony by Foote and Spalding.

Music 12. Harmony. A continuation of Music 11. Chromatically altered chords, suspensions, ornamental tones, and modulations. Text: Modern Harmony by Foote and Spalding.

Applied Music.

Class instruction in piano, violin, and other orchestral instruments is elective. Classes recite three days each week, one credit being given for three terms work.

Music 21, 22, 23. Violin First Year. The subject matter of the text used is correlated with the singing lesson wherever possible. Emphasis is placed upon the mechanics of the instrument by employing: (1) short and easily memorized exercises in rhythmic form for the development of the bow hand and arm; and (2) technical exercises suitable for young beginners designed for the purpose of training the left hand. Text: Max Fischel's Graded Course, Book 1 and Book 2.

Music 24, 25, 26. Violin Second Year. The work of the second year provides for the presentation and the development of the third position, the more difficult keys, rhythms, bowings, and the easier harmonies; during the latter part of the year the seven positions in scale form are used. Text: Elementary Violin Lessons by Eugene Gruenberg and Max Fischel's Book 3.

Music 40, 41, 42. Piano First Year. Teaching of the rudiments of piano playing from one of the most approved methods for beginners. Careful attention is given to hand culture, touch, music notation, rhythm and ear training. Text: Standard Graded Course of Studies by W. S. B. Mathews.

Music 43, 44, 45. Piano Second Year. The W. S. B. Mathews Standard Graded Course continued.

The University maintains a band, orchestra, and a chorus. Students who are especially interested in music are urged to apply for membership in at least one of these organizations. One credit is given for three term's work in any of these organizations.

COMMERCIAL.

T. L. BRYANT.

EDWARD V. MILES, JR.

Junior College.

Commercial 7. Accounting. This course in introductory bookkeeping is planned for those who have never studied the subject. The work is taught on the laboratory plan. The double entry system is introduced in the beginning and all the laws governing the debit and credit of business transactions are fully explained and mastered. The journal, day book, cash book, sales book, purchase book and the auxiliary books are introduced and their use in accounting fully demonstrated. A complete line of business transactions is placed in the books of original entry, posted to the ledger, trial balance taken, inventories entered, and accounts closed. A comprehensive study of the financial statement is made. Text: McKinsey's Bookkeeping and Accounting, Vol. 1.

Commercial 8. Accounting. Partnership accounting is studied and several sets are worked out. This course embodies all the principles taught in Commercial 7. The student is familiarized with negotiable instruments and their use. Text: McKinsey's Bookkeeping and Accounting, Vol. 2.

Commercial 9. Accounting. Corporation and Manufacturing Accounting are offered in this course. It takes up the changing of books from single proprietorship and partnership to a corporation. In this work the latest systems of accounting are presented. Commercial 7, 8 and 9 require two hours each, the first is used for discussion, and the second for laboratory work under supervision. Text: McKinsey's Bookkeeping and Accounting, Vol. 3.

Commercial 13. Commercial Law. The aim of this course is to give a comprehensive training in the law pertaining to business. In the text the fundamental and governing principles of law are stated; differences in fundamental principles of dissenting authorities are referred to. Leading illustrative cases are given.

Contracts, Sales, Negotiable Instruments, Agency, and Bankruptcy are among the topics studied. Text: Child's Business Law.

Commercial 14. Commercial Law. This course is a continuation of Commercial 13, covering Bailments, Partnership, Corporations, Insurance and Property.

Commercial 15. Commercial Law. A continuation of Commercial 14 covering internal relation and control in Agency, Partnership, and corporations; dissolution and accounting in agency, partnership and corporations. The case method will be used in this course.

Commercial 26, 27, and 28. Advanced Accounting. A second year course in accounting designed to give intensive study in theory and practice. This course deals with partnerships and ventures, corporations, investments, stocks and bonds, depreciation, reserves, surplus, dividends, corporate obligations, balance sheet and profit and loss statement; statement analysis for credit purposes, statement analysis for investment purposes, Mergers vs. Consolidations, Parent vs. Holding Companies, consolidated statements and fiduciary statements. Text: Advanced Accounting, Sherwood.

Senior College.

—*Commercial 29. Principles of Economics.* A general survey of industrial society, its structures, its institutions, its operations. The first part of the course examines briefly the structures of medieval industrial society and the evolution of modern capitalistic industry. The second part of the course deals with certain outstanding features of the present industrial society, such as private exchange cooperation; the pecuniary organization of society; the significance of technology; specialization and interdependence; risk and risk-bearing; concentration in large-scale production; ownership of wealth and income, and control of industry; impersonal relations; the guidance of economic activity. The third part of the course is concerned with private property competition and social control of industrial activity. Text: Elementary Economics, Fairchild, Furness and Buck.

—*Commercial 30. Principles of Economics.* A continuation of Course 29, being designed to work out the principles of Value, including those determining rent, wages, interest and profits, in our peculiarly organized society. Text: Elementary Economics, Fairchild, Furness and Buck.

—*Commercial 31. The Financial Organization of Society.* A broad general survey of the whole financial system. It includes a study of the nature and work of the various types of financial institutions, of the forces that have led to their development, and of their relation to the organization of industrial society. The principal forms of financial institutions covered are: coinage and monetary systems; credit; commercial banks; saving banks; bond houses; trust companies; stock exchanges, and various forms of cooperative credit associations. Text: Financial Organization of Society, Moulton.

Commercial 32. Business Administration. A study of business problems from the standpoint of the manager. The course covers location of plant, administration of personnel, marketing, finance, pro-

duction, risk-bearing, and the selection of the best adapted business unit for a certain industry or business. Text: Business Administration. Marshall.

PHYSICAL EDUCATION.

WILLIAM MC ANDREW.
FRANCES D-L. ETHERIDGE.
HARRIET B. RODGERS.
LELAND P. LINGLE.

Men:

First Year.

Physical Education 7. Fall Term. This course consists of calisthenics, marching tactics, and particular attention is paid to posture.

Physical Education 8. Winter Term. A continuation of the calisthenics and marching tactics with the addition of stress laid on basket ball and volley ball.

Physical Education 9. Spring Term. The greater part of this term will be devoted to games for children and adults, and some little time will be spent on track events in such a manner as to equip the student for handling that work in the grades.

All freshmen are required to take physical training throughout the year. Unless a student is a member of one of the team squads he will be required to take courses 7, 8, and 9.

Physical Education 10. Coaching is offered during the first six weeks of the Summer Term. The work covers basketball and track, and, for those who desire it, football. The theory and practical application of the courses offered is gone into thoroughly, particularly a firm grounding in the fundamentals being demanded. The object of the course is to fit the student to coach in high school. Five periods per week.

Physical Education 11. The school supports a football team during the Fall Term. Physical Training credit is given to men retained on the squad. Students are not dropped from the squad because they have no chance of making the team. They are encouraged to work for the physical benefits and to learn the game, as not a few who are unable to make the team ultimately coach this branch of athletics.

Physical Education 12. A basketball team represents the school during the Winter Term. The statement above concerning the football team holds true for basket ball.

Physical Education 14. Track. The same facts hold for this branch of sport as for courses 11 and 12.

Physical Education 15. Credit in the fall and spring may be obtained by playing tennis.

Physical Education 16. Interclass basket ball teams are formed and a regular schedule played during the Winter Term. Credit is given to the men who make the teams, except freshmen.

Physical Education 17. Methods and Materials. A general course in the methods of teaching physical education including the history, aims, and values of physical education with classification of activities according to the age interest and development of elementary school children, also health exercises, games, and rhythm material.

Physical Education 18. Coaching. A course in methods and practice of coaching the following games: soccer, playground ball, basketball, volley ball, and speed ball. A short survey of track and field work will be included.

Physical Education 19. Playground. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the modern play movement is studied in connection with practical applications and practice of games and playground activities.

Women:

First Year.

Physical Education 1. Posture Training. Fall Term. Educational gymnastics, games and folk dancing, marching tactics.

Physical Education 2. Posture Training. Winter Term. Recreational gymnastics, marching tactics, group games, advanced folk dancing.

Physical Education 3. Posture Training. Recreational gymnastics, marching tactics, athletics, group games, advanced folk dancing, rhythm work and elementary interpretative dancing.

Second Year.

Physical Education 4. Methods and Materials. A general course in the methods of teaching physical education including the history, aims, and values of physical education with classification of activities according to the age interests and development of elementary school children, also health exercises, games, and rhythm material.

Physical Education 5. Coaching. The rules and methods of coaching organized games for girls. Field hockey, basketball, volley ball, and baseball will be studied from the coaching standpoint.

Physical Education 6. Playground. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the modern play movement is studied in connection with practical applications and practice of games and playground activities.

Illinois law requires 144 forty-minute periods of physical education for graduation from normal schools.

LIBRARY SCIENCE.

MILDRED KOHLSTEDT.

Lib. 1. Library Methods. The modern curriculum demands that, for successful school work, the library must be used by teachers and pupils. The teacher of today must know how to use a library intelligently and be able to direct the children's reading.

An elementary course in library science for Normal School students and teachers who may have charge of small school libraries in rural communities and small towns, is offered the Summer Term. The aim of the work is not to train librarians but to acquaint teachers with library indexes to prepare them for selecting books for supplementary work, for directing the children's reading, and for making the school

library valuable to pupils. Some of the subjects discussed in the course are. (1) care and treatment of books; (2) selection of books; (3) use and object of the card catalogue; (4) Dewey decimal classification system; (5) general reference books; (6) periodical literature; (7) children's literature; (8) organized library factors; and (9) preparation of a bibliography. The course consists of lectures and practical problems. No text is necessary.

THE LIBRARY.

The Wheeler Library possesses a working library of nearly 34,000 books and 2,000 pamphlets. Both books and pamphlets are classified according to the Dewey decimal classification. The dictionary catalogue has three entries (author, title and subject) for every book, and many books have analytical subject headings in addition. The books have been carefully selected with reference to the needs of the various departments. They comprise the standard works in literature, travel, history, science, philosophy, pedagogy, and art; and general works of reference, including dictionaries, encyclopedias, yearbooks, atlases, and books of quotations. All periodical literature which is of permanent value is bound and made accessible by Poole's Index and the Reader's Guide. Nearly one hundred and fifty of the best current periodicals are received in the library, as well as many county newspapers. The library contains much bibliographical material on children's literature and many beautiful illustrated books for children. There is a large collection of classified pictures for use in all departments. Numerous government reports are received and catalogued.

The library is open on school days from eight to five-thirty and on Saturday mornings. During the Summer Terms special hours are announced.

THE TRAINING SCHOOLS.

The Training Schools include the following branches:

1. The school on the campus, consisting of the school for Junior College practice, located in the *Allyn Building*, and that for Senior College practice located in *Normal Hall*.
2. The *Brush Training School* located in the city and giving practice two and three for Junior College graduation.
3. The *Rural Practice Schools* located in near-by districts and reached by hard roads, giving practice two and three for Junior College graduation.

Junior College Practice Teaching:

Junior College practice work is done in the *Allyn Building*. The school consists of the elementary grades one to six inclusive, and the junior high school grades seven to nine inclusive. These groups of pupils furnish not only an opportunity for practice teaching but also an opportunity for observation, required in practice one, and for classes doing college work.

Practice *one* is open to freshmen and given in the Allyn Building *only*. This course is required of all, and is prerequisite to practice teaching in the Allyn Building and at Brush. During the first half of the term an effort is made to fit the student to take up the work of teaching a definite class and a definite subject without too great a loss to the class and with a minimum of loss to himself. Brief studies are made to discover the practical values of a knowledge of the aim in education, the function of the school, the function of the different lines of work, the cycles of child development, and of some of the more important school practices—the problem and project methods, the socialized recitation, and supervised study. The work consists of library reading, discussions, lecture, reports, tests and the making of a permanent note book. The second half of the term is devoted to plan writing, observation of lessons given by critics, and round table discussions of these lessons.

Practice *two* and *three* are taken in the sophomore year by those who have had practice one. This work is based directly on the principles discovered in practice one.

Practice teaching in the Junior College course requires the preparation of daily, or unit, lesson plans that shall be submitted to the critic in charge for constructive criticisms, before the assignment is made to the class. All students doing Junior College practice teaching must arrange suitable consultation periods with critics, and must attend all meetings called by the critic in charge.

General and special meetings may be called from time to time by the Superintendent of the Training School.

Senior College Practice Teaching:

Two units of teaching are offered and one required. Practice one, two, and three, required in the Junior College, are prerequisite to Senior practice in the senior high school. Much of the formal plan writing may be omitted, but assignments must be carefully criticized by the critic before giving to the pupils. It is expected that the assignment for work shall be in the student's major or minor subjects chosen by the applicant. The work done must be closely supervised by the critic. This will necessitate conferences—regular and special—based on *frequent* visitations. Students must make themselves familiar with the pedagogy of their work—the function of subject matter, the approach to the adolescent mind, and the principles of the problem and project methods, the socialized recitation, and supervised study as applied in Secondary Education. Prerequisite: Ed. 7.

General Information:

Past experience in teaching will receive no practice credit.

Every effort will be made to accommodate teachers in service who can attend Mid-Spring and Summer terms only. Those who must get practice teaching in these terms should write for application blanks as early in the year as possible. Names will be filed for work in the order of receiving applications, but no positions will be held beyond the first day of registration in the term indicated. Opportunities for practice teaching in these terms are very limited. In the first summer term

opportunities will be offered in the first five grades and in the senior high school. During the second summer term a limited number of practice classes may be offered in the senior high school for Senior College practice. Practice one is open every term.

RURAL PRACTICE DEPARTMENT.

During the year we have had charge of five rural schools for the purpose of giving rural practice teaching to those who have elected to teach in the country, or in small villages:

The Buckles School, Dist. No. 98, Jackson County.

The Wagner School, Dist. No. 136, Jackson County.

The Bridge School, Dist. No. 92, Jackson County.

The Foreville School, Dist. No. 38, Williamson County.

The Pleasant Grove School, Dist. No. 104, Jackson County.

Within the year over one hundred seventy teachers have taken one or two terms of work in one or another of these schools. More than one hundred of them are now under contract to teach in rural or village schools during the present school year. Added to this large number are many more who had taken our course in previous years and who are now teaching in various country schools of Southern Illinois. Taken together this makes a respectable showing among the rural and village teachers of this end of the state.

It is our purpose to follow up these teachers as far as possible to see what success they are having in their actual teaching experience in order to strengthen our course in its weaker phases. Several of them, it is now known, have met with such good success that their salaries have been materially increased. Others have proved satisfactory, and with some more practical experience they will be numbered among the best teachers.

One credit is given for six weeks of practice teaching. During this time the teacher puts in three and one-half sixty minute periods each day in the school, and is busy all the time. This equals four and two-thirds periods of forty-five minutes each daily, or one hundred forty of such periods for the credit.

In addition to the above, students are required to submit a note book containing anything received from the course which they think might help them when they go out to teach for themselves. Plans, also, for two distinct recitations daily must be submitted and approved by the critic teachers.

If the practice teacher takes the work during the entire term, two and one-half credits are allowed. This represents two hundred eighty forty-five minute periods.

For the coming year we have agreed to teach five of these rural schools.

The rural schools to be under our direction for the coming year follow:

The Wagner, Dist. No. 136, Jackson County.

The Pleasant Grove, Dist. No. 104, Jackson County.

The Bridge, Dist. No. 92, Jackson County.

The Buckles, Dist. No. 98, Jackson County.

The Foreville, Dist. No. 38, Williamson County.

All of these schools are to begin Monday, September 5th, two weeks before the opening of the College.

The course in rural practice will consist in—

(a) Attention to the purely physical phases of rural or small village schools; such as, the proper heating, lighting and ventilating of rooms; cleanliness in all its aspects; water supply; blackboards; maps; globes; libraries; toilets, etc.

(b) The beautifying of school premises, clean up days, patrons days, parent-teacher associations, club work for boys and girls.

(c) Rural health problems, play and playground activities with a touch of rural sociology.

(d) All routine factors of school management, as, the passing of lines, passing of work materials and other factors in time-saving.

(e) The use of the state course of study and some supervised study and individual instruction.

(f) The proper use of maps, globe and other apparatus.

(g) The technique of teaching Reading, Spelling, Writing, Arithmetic, Language, Geography and History.

(h) Methods of control, the proper questions to ask, etc.

Many requests have been made for a course in Rural Education for Junior College students who expect to teach in rural or village schools before finishing in the Junior College. It is planned to offer such a course beginning September, 1927.

UNIVERSITY HIGH SCHOOL.

A high school department with enrollment limited to 55 in each year except the fourth is maintained. In common with all the better class teacher training institutions we find it necessary to provide practice teaching of secondary rank to fit our graduates for high school positions. Furthermore, conditions in Southern Illinois cause us to enroll a good many students who have never had secondary privileges and who are too old to feel at home among the boys and girls of the ordinary high school. In addition to all this, we have a good many ambitious country boys and girls from sixteen to twenty years of age who wish to enter the teaching profession but who have never had any high school training. These mature students are at the end of three years of training recommended for the provisional certificate. In order to secure this the student must not only have done three years of work beyond the eighth grade, but he must have had at least one term of rural school management, a half term of "lesson-plan" work, and one term in rural practice. To enable us to carry out this program we maintain a rural practice school system which includes six rural schools,

four in Jackson County and two in Williamson County, all of these on the hard roads system out of Carbondale.

Students who have not been enrolled in this school before and who desire to do high school work here must make application in writing before the opening of school.

COLLEGE ENTRANCE EXAMINATIONS.

College entrance examinations are given the third week of every term. Students who wish to enter the college but whose high school work is incomplete may make up by these examinations any deficiency, provided it does not exceed 10 of the 16 year credits required for entrance. Entrance examinations are not given in the laboratory subjects such as Chemistry, Physics, Biology, Manual Arts, Agriculture, Domestic Science, Bookkeeping, Typewriting, etc.

Any person who wishes to take these examinations must apply in writing at least two weeks before the examinations, submitting an official list of the high school credits already earned and stating the subjects in which the candidate wishes to be examined. All college entrance examination work must be completed within a year of the time when the examinations were first attempted.

The student's credits earned in high school and by these examinations must satisfy the entrance requirements of the college which are given on pages 20 and 21 of this catalog.

The questions for these examinations will be based on the description of courses in the high school manual of the University of Illinois. A copy of this manual may be seen in the office of the local high school principal or in some cases may be obtained from the University. Additional information may be obtained by writing this school.

SUMMER TERM—SECOND SESSION.

	Time						
1	7:00		Occ.				
2	7:45	English	English History	Pl. Geom. 3		Biol.	Draw.
3	8:30		English History	Alg. 3		Ag.	Draw.
4	9:15	English	Occ.			Geog.	Draw.
	10:00	ASSEMBLY EXERCISES				Biol.	
5	10:30			Pl. Geom. 3			
6	11:15		English History	Alg. 3		Ag.	Occ.
	12:00					Geog.	

SUGGESTED SECONDARY COURSE.

	Fall.	First Year. Winter.	Spring.
English I	English I	English I	English I
Algebra I	Algebra I	Algebra I	Algebra I
Elective	Elective	Elective	Elective
Elective		Elective	Elective

	Second Year.	
English II	English II	English II
Pl. Geometry	Pl. Geometry	Pl. Geometry
Biology	Biology	Biology
Elective	Elective	Elective

	Third Year.	
English III	English III	English III
Gen. History	Gen. History	Gen. History
Elective	Elective	Elective
Elective	Elective	Elective

(Students who expect to teach after this year should carry Rural Education and Rural Practice as extra subjects.)

	Fourth Year.	
English IV	English IV	English IV
U. S. History	U. S. History	U. S. History
Elective	Elective	Elective
Elective	Elective	Elective

Following are the requirements for graduation and college entrance:

LIST A—*Required.*

English I, II, III.....	3 years
Algebra I.....	1 year
Plane Geometry	1 year

 5 years
LIST B—*Elective.*

Latin	2 to 4 years
French	2 years
English IV	1 year
Advanced Algebra	$\frac{1}{2}$ year
Solid Geometry	$\frac{1}{2}$ year
Trigonometry	$\frac{1}{2}$ year
Ancient History	1 year
American History	1 year
Commercial Geography	$\frac{1}{2}$ year
Geology	$\frac{1}{2}$ year
Mediaeval and Modern History.....	$\frac{1}{2}$ to 1 year
English History	$\frac{1}{2}$ year
Civics	$\frac{1}{2}$ year
Economics	$\frac{1}{2}$ year
Physiography	$\frac{1}{2}$ year
Biology	1 year
Physics	1 year
Chemistry	1 year

LIST C.

Agriculture	1 to 3 years
Bookkeeping	1 year
Business Law	$\frac{1}{2}$ year
Commercial Arithmetic (only after Algebra).....	$\frac{1}{2}$ year
Domestic Science	1 to 3 years
Drawing, Art and Design.....	$\frac{1}{2}$ to 1 year
Drawing, Mechanical	$\frac{1}{2}$ to 1 year
Manual Training	1 to 2 years
‡Music	1 year
Shorthand and Typewriting (together).....	1 to 2 years
‡Education	$\frac{1}{3}$ year
‡Penmanship	$\frac{1}{3}$ to 1 year
‡Physical Training	$\frac{1}{3}$ to 1 year

‡ Not good for college entrance.

Of 16 year credits required for graduation, the 5 units of List A are prescribed for all courses. Of the 11 units that remain, 6 must be selected from List B. The remaining 5 units may be selected from List B or List C or both. Only 1 unit may be made up of subjects not good for college entrance.

Additional Requirements for Special Courses.

Students who expect later in College or University to take up any of the following courses:

Literature and Arts, Journalism, Pre-Legal, Household Administration and Home Economics must take 2 years of Latin, French or Spanish (both units in the same language).

For Pre-Medical courses, students must have two years of the same foreign language and also 1 year of History and Civics.

For University courses in Chemistry and Chemical Engineering students must have 2 years of French, 1 year of Chemistry in addition to another unit of laboratory science from List A, and also Advanced Algebra $\frac{1}{2}$ year.

For University courses in Commerce and Business Administration, students should take 2 years of Latin, French, or Spanish (both units in the same language) or Advanced Algebra $\frac{1}{2}$ year and Solid Geometry $\frac{1}{2}$ year or Science (in addition to the unit of List A) 1 year.

Students who look forward to Engineering must take Advanced Algebra $\frac{1}{2}$ year and Solid Geometry $\frac{1}{2}$ year.

For University courses in Agriculture, 1 year of Science (in addition to the unit of List A) must be taken.

For University courses in Music, the student must have Latin, French or Spanish, 2 years (both units to be in the same language), and Music 2 years.

The student who plans to take University courses involving College Mathematics, Physics, or Advanced Chemistry including the Curriculum in Home Economics, the Pre-Medical Curriculum, and the Curriculums in Commerce and Business Administration in which University courses in Mathematics are prescribed should take $\frac{1}{2}$ year of Advanced Algebra.

ENGLISH.

First Year.

Literature and Life. Book One; drill in punctuation, oral and written composition. In addition, the following books will be read:

Eng. I-1. (Fall Term.) Selected novels, Christmas Carol.

Eng. I-2. (Winter Term.) Last of the Mohicans, Treasure Island.

Eng. I-3. (Spring Term.) Merchant of Venice, Richard Carvel.

Second Year.

Literature and Life. Book Two; punctuation, oral and written composition. In addition, the following books will be read:

Eng. II-1. (Fall Term.) Quentin Durward, The Crisis.

Eng. II-2. (Winter Term.) Ivanhoe, Man for the Ages.

Eng. II-3. (Spring Term.) The Oregon Trail or Vandermark's Folly, Merchant of Venice, Idyls of the King.

Third Year.

Halleck's English Literature, Century Hand Book.

Eng. III-1. (Fall Term.) Prologue to Canterbury Tales, Macbeth, The Moonstone, The Virginian.

Eng. III-2. (Winter Term.) Carlyle's Essay on Burns, Sir Roger de Coverly, David Copperfield, Modern Plays.

Eng. III-3. (Spring Term.) Essay on Johnson, Palgrave's Golden Treasury, Kenilworth, Vanity Fair.

Fourth Year.

Eng. IV-1, Eng. IV-2, Eng. IV-3. Century Hand Book, House of Seven Gables, Hamlet, Talisman, three modern novels, Moulton's Short Stories, Twelfth Night, Jane Eyre, Franklin's Autobiography, Emerson's Essays, Burke's Speech on Conciliation, Theme Building.

LATIN.

Four years of secondary Latin are offered. The general aim of the course is to create an abiding interest, to develop subsidiary values, and to prepare for college.

Latin I. Text: Place's Beginning Latin.

Latin II. Texts: Place's Second Year Latin and Scott's Latin Composition. The equivalent of the traditional four-book course is covered.

Latin III. Cicero's Orations. Texts: Johnston and Kingery and Scott's Prose. An amount equal to six orations is required. With strong classes some letters, or a bit of Ovid or of Sallust may be read.

Latin-IV. Virgil. Text: Knapp's Virgil's Aeneid with Ovid. An effort is made here to develop a feeling for some of the finer literary qualities involved in translation.

FRENCH.

French I. Méras, Le Premier Livre. Worman's First French Book. Guerber, Contes et Légendes.

French II. Lavissee, Histoire de France. Mairret, La Tâche du Petit Pierre. Dumas, Le Comte de Monte Cristo. Mérimée, Colomba. French-English Dictionary. Reference Grammar. French Newspapers.

ART.

Freehand Drawing. This course is offered to meet the requirements of the State University for college entrance. Time required—two hours daily. Subjects covered—perspective, pencil technique, design, blackboard drawing, and elementary water color.

Fall Term: One hour of perspective and one hour of blackboard drawing.

Winter Term: One hour of perspective, one hour of design, and pencil technique.

Spring Term: Elementary water color.

HISTORY.

The Senior High School courses in History are:

Medieval History—one-half year.

Modern History—one-half year.

English History—one-half year.

American History—one year.

Civics—one-half year.

Economics—one-half year.

GEOGRAPHY.

Physiography. This is a High School course devoted entirely to the physical phases of geography and their influences. Laboratory work and field observations are an essential part of the work. This is an 18 weeks' course: Text: Salisbury's Physiography, Briefer Course.

Industrial and Commercial Geography. This course deals primarily with the commerce and industries of the United States, but with a less intensive survey of other countries. Text: Smith's Commerce and Industry. This is an 18 weeks' course.

EDUCATION.

Rural School Management. A course especially adapted to the conditions and needs of the one-room country school. One half of the term is devoted to such matters as organization, equipment, and control; the other half, to the technique of teaching and the making of lesson-plans. Texts: Wilkinson's Rural School Management, Charter's Teaching the Common Branches, and the State Course of Study.

MATHEMATICS.

Alg. I-1. The fundamental operations with literal and signed numbers, scale drawings and graphs, simple equations, stating algebraically simple problem situations.

Alg. I-2. Factoring and fractions, stating and solving problems involving the difficulties of factoring and fractions, the line graph.

Alg. I-3. Simultaneous equations with both numerical and literal coefficients, with both integral and fractional terms, involution and evolution, radicals, and quadratics.

The student should plan to take these courses the first year beyond the eighth grade.

Geom. I-1. Book I of Plane Geometry.

Geom. I-2. Books II and III of Plane Geometry.

Geom. I-3. Books IV and V of Plane Geometry.

The usual theorems and exercises of Geometry are covered, including symmetry, maxima and minima, and incommensurables. Emphasis is placed upon proper methods of study. Power and independence are aims rather than retention of a large mass of information.

Elective—Advanced Algebra, $\frac{1}{2}$ year; Solid Geometry, $\frac{1}{2}$ year.

CHEMISTRY.

To meet the needs of students preparing for college the following courses, making a high school unit, are offered:

Chemistry I-1. Elementary Chemistry. Recitations and laboratory work. Periods 1 and 2 during the Fall Term.

Chemistry I-2. Elementary Chemistry. Recitations and laboratory work. Periods 1 and 2 during the Winter Term. Chem. 1 is prerequisite.

Chemistry I-3. Elementary Chemistry. Recitations and laboratory work. Periods 1 and 2 during the Spring Term. Chem. 2 is prerequisite.

PHYSICS.

High School Physics. A year is given to Physics,—mechanics and heat the Fall Term, electricity the Winter Term, sound and light the Spring Term. Seven periods per week. Practical Physics, Millikan and Gale. A Laboratory Course in Physics, Millikan, Gale, and Bishop.

BIOLOGY.

Elementary Botany. An elementary course in Botany of high school rank. The study of plants is approached from the physiological viewpoint, with the nutrition of the plant as the central theme. Sufficient study of anatomy and physiology of plants is included to make possible an understanding of the processes of nutrition and reproduction in plants. Recitations five periods per week, Laboratory and field studies five periods weekly.

Elementary Zoology. This high school course in Zoology has as its purpose to give a general view of the field of Vertebrate Zoology. Type studies will be used to represent to great groups. Scientific approach will be given by the working out in the field and laboratory of a group of problems leading to the discovery and study of a few of the basic biological principles. These studies will also include an acquaintanceship with animal life in its ecological relations, geographical distribution and economic relations.

Elementary Physiology. This is beginning Physiology and is given in the second year high school. It includes human anatomy, the structure and elementary composition of the body, with the physiology, the performance of all the functions of the body. It also includes an elementary study of health and sanitation, especially the student's health, and the sanitation of the school and home. Spring or Fall Term. One hour of recitation and one hour of laboratory work daily, —120 hours.

AGRICULTURE.

Animal Husbandry. Farm Animals. This is an elementary course in animal husbandry, covering the types and breeds, life history, native home, adaptability and popularity of our domestic animals.

Animal Husbandry. Farm Animals. This is a continuation for six weeks of Animal Husbandry completing the semester's work. Breed characteristics, food nutrients, an explanation of the balanced ration and the Babcock test will be the work of this course.

Animal Husbandry. Poultry. Selecting the farm flocks, types, breeds, varieties, feeding and general management.

Animal Husbandry. Sheep. Origin of the sheep industry, adaptability, types, breeds, market classes and grades, grades of wool, establishing the pure bred flock, grading for market, care and management, feeding and housing, adaptability to Southern Illinois.

Animal Husbandry. Beef Cattle. The work in beef cattle includes the general problem of fattening cattle for market, relations of cattle feeding to soil improvement, business phases of feeding, production and feeding of baby beef, market classes and grades, general equipment, diseases, breeding beef cattle, and the elementary principles of cattle feeding and breeding.

Animal Husbandry. Dairy Cattle. The dairy cow as a food producer, characteristics, types, breeds, native homes, historic development, adaptation to climatic conditions, judging, selection, breeding for production, and balanced rations, will constitute the larger part of this term's work.

Animal Husbandry. Elementary Feeding. This course deals with the classification, digestibility and functions of feed nutrients, values of feeding materials, and balanced rations for farm animals.

Agronomy. Elementary Soils. The last six weeks of the Winter term will be devoted to the physical properties of soils, type soils, size of soil particles, pore space, internal surface area, water holding power, and air circulation.

Agronomy. Elementary Soils. This course will include the ten essential elements of plant food, sources of the different plant foods, water, air and soil, limiting plant foods, organic matter and legumes, crop rotation and the replacement of foods taken out by plants on crops, the purchase of limestone and rock phosphate, and the fundamental principles of a permanent fertility.

Horticulture. Elements of Horticulture. Fruit growing in general for home consumption, the family orchard, economic importance, general ornamental planting to beautify the farm home.

MANUAL ARTS.

Manual Training I. One half the time is spent in actual woodwork, involving the use of different tools, and the application of common joints in useful articles. The other half is spent in a study of allied industries, and mechanical drawing, which conforms to standard methods in technique, and so far as possible, has a practical connection with shop work. Text: Woodwork for Secondary Schools—Griffith.

Manual Training II. Care and operation of power machinery. Practice in furniture construction, upholstering, and finishing as employed by cabinet makers. Practice in pattern making and molding for simple castings. Text: Art in Woodturning—Klenke. Wood Pattern Making—Hanley.

COMMERCIAL.

Penmanship. This course presents the study of Penmanship in the latest methods of developing the subjects. All of the work both in movement drills and in letter and word writing are studied in tempo.

The rhythm is first developed by counting. Drill on the straight line and the ovals, direct and indirect, constitute a part of each recitation.

The pedagogy of the subject as presented in the different compendiums of penmanship is carefully worked out and studied in class. Comparative values of different movements are presented, also the rise and fall of different systems.

A study of the plan as outlined in the State Course of Study is required of all taking this work.

Towards the close of each term opportunity will be given to all who desire to write for a Palmer's Teachers' Certificate. To possess a Palmer's Teachers' Certificate ranks the holder as fully equipped, not only as a master of the art of business writing, but also prepared to teach this subject in the most modern and up-to-date method. One-half credit is given for each twelve week term. Text: The Palmer Method of Business Writing.

Commercial Arithmetic. Short methods in dealing with the fundamentals. Aliquot parts of 100. A mastery of the 45 combinations. Tables of denominate numbers. Fractions. Formulas used in percentage and their applications. Formulas used in mensuration. Solving and analysis of problems by mental processes.

Vocational problems in mensuration, lumber, building, plastering, papering, carpeting, painting. Land measure. Base line. Principal meridian. Township section and its divisions. Distance. Surfaces. Solids. Capacity. Ratio and Proportion. Longitude and Time.

A mastery of single column addition. Some time will be given to double column addition. Short cuts in dealing with the fundamentals. The single equation method of stating and solving problems and checking results. Arithmetical problems in business.

Denominate numbers. Bills. Statements. Accounts. Sales. Shipments. Cash account. Bank account. Closing and ruling ledger accounts. Daily balances. Percentage. Profit and loss. Interest. Bank discount. Trade discount. Brokerage. Commission. Premium. Stocks. Bonds. Insurance. Taxes. Negotiable paper. Text: Smith's Arithmetic of Business.

Equation of accounts. Cash balance. Partnership. Trading account. Profit and Loss. Inventories, Financial Statement. Present worth. Balance sheet.

Building and Loan Associations. Terminating. Serial. Permanent. Earnings. Distribution of profits. Annual reports.

Shorthand. The principles of the system as found in the first eight lessons of the Gregg Manual form the basis of study. These principles include a study of phonetics and the characters to represent these sounds; the rules for formation of words; the use of the word signs; the phrasing devices for speed and legibility; writing from dictation, and reading from notes and printed plates. Texts: Gregg Shorthand Manual; Gregg Speed Studies; Graded Readings in Gregg Shorthand.

Shorthand. The work started in Course 1 is continued. The Gregg Manual is completed and a theory test given. This work includes abbreviation of long outlines; prefix and suffix forms and more advanced phrasing. Texts: Gregg Shorthand Manual; Gregg Speed Studies; Graded Readings in Gregg Shorthand.

Shorthand. Advanced dictation to attain speed and enlarge the vocabulary. Rapid, continuous sight reading and typewritten transcriptions from plates and notes. Special work in secretarial practice, using actual instructions and model stationery. Many phases of the business world are touched upon, such as railroad, mining, insurance and others. A note-taking speed 100 words per minute and a transcription speed of 40 words per minute are expected before completion. Method work if asked for. Texts: Gregg Speed Studies; Advanced Dictation and Secretarial Training.

Typewriting. A study of the parts of the machine and their uses; care and cleaning of the machine. The learning of the keyboard by touch system and a series of drills fixing the position of each character. Frequent drills in rhythm and speed are a part of the program. Text: Intensive Touch Typewriting by Ross.

Typewriting. A continuation of Course 1. Work in exercises requiring originality. Tabulating, making stencils, correcting rough draft, making carbon copies, and copying legal forms are phases taken up.

Speed receives greater attention and the student is encouraged to earn one of the 40 word certificates issued by the typewriter companies. Text: Intensive Touch Typewriting by Ross.

Typewriting. Open to those who have a speed of 35 words per minute. This term is devoted to the development of speed and accuracy in typing. Daily work is given so that the student may become master of his machine. The regular speed tests are given each month and certificates awarded as earned. A speed of sixty words per minute is necessary for completion. In addition to the work in typing, a thorough course in filing covering the theoretical basis and the practical use of filing devices is given. Texts: Intensive Touch Typewriting; Modern Filing.
