Spring and Mid-Spring Terms, 1929, close Wednesday, June 12.

First Session Summer Term, 1929, opens Thursday, June 13.

First Session Summer Term, 1929, closes Saturday, July 20.

Second Session Summer Term, 1929, opens Monday, July 22.

Second Session Summer Term, closes Wednesday, August 28.

HOMEcoming.

Every year one Friday and Saturday are set aside in the school's calendar when former students and friends gather for two days of fun and renewal of old acquaintances. The big features are always the homecoming play on Friday evening, the Zetetic and Socratic Society reunions, 9:30 A. M. Saturday, and the football game at 2:30 P. M. Additional features such as athletic stunts, alumni breakfast at Anthony Hall, downtown parade, etc., are often provided.

The date for Homecoming is usually the first Friday and Saturday in November. For 1928 the date is November 16-17, and the football game is with Charleston.

FACULTY.

1928-1929.

College.

Henry William Shryock, President.

Preparation and Experience:

Ph. B., Illinois Wesleyan; taught 11 years in public schools of Olney, Ill., 34 years member of faculty of the Southern Illinois State Normal University,—as follows: 3 years head of English Department; 16 years head of English Department, Vice-President, and Registrar; 16th year as President of the institution.

Emma L. Bowyer

Preparation and Experience:

A. B., A. M., University of Chicago; 6 weeks graduate work, University of Chicago; taught 7 years in public schools of Illinois, 16 years, S. I. S. N. U.

Mae C. Trovillion

Preparation and Experience:

A. B., A. M., Indiana University; taught 5 years in high school; 9 years, S. I. S. N. U.

Elizabeth A. Cox

Preparation and Experience:

A. B., A. M., Kansas University; taught 5 years in public schools of Kansas; 5 years in college; 8 years, S. I. S. N. U.

Frances Barbour

Preparation and Experience:

A. B., A. M., Washington University, St. Louis, Mo.; taught 2 years in public schools of Illinois, 2 years in public schools of California; 3 years, S. I. S. N. U. On leave of absence for one year.

Julia Jonah

Preparation and Experience:

A. B., A. M., Washington University, St. Louis, Mo.; taught 5 years in public schools of Illinois; 1 quarter in Missouri Normal; 3 years, S. I. S. N. U.

Juliette Hanford

Preparation and Experience:

A. B., University of Illinois; 1 year graduate work, Columbia University; 1 year, S. I. S. N. U. On leave of absence for one year.

Stella Sutherland

Preparation and Experience:

A. B., Queen's University; A. M., University of Chicago; 3 years of graduate work, University of Chicago; 1st year S. I. S. N. U.

Mary Crawford

Preparation and Experience:

B. Ed., S. I. S. U.; A. M., University of Illinois; taught 7 years Jonesboro, Ill., High School; 7 years Jonesboro-Anna Community High School; 1st year, S. I. S. N. U.

Education:

George D. Wham, Dean of Faculty.

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; taught 12 years in public schools, including 10 years as principal of high school and superintendent of schools, Olney, Ill.; 23 years, S. I. S. N. U.

Bruce W. Merwin, Assistant, Department of Education, (1/2 time); Assistant Superintendent of Practice School.

Preparation and Experience:

A. B., B. S. of Education, A. M., Kansas University; work for Ph. D. completed, Kansas University; taught 11 years in public schools of Kansas, 1 year as instructor in Education, Kansas University; 2 years, S. I. S. N. U.

Language:

J. M. Pierce

Preparation and Experience:

A. B., Washington University, St. Louis, Mo.; A. M., Harvard; taught 5 years in public schools of Illinois and Missouri, 1 year in Boston High School; 31 years, S. I. S. N. U.

Helen A. Baldwin

Preparation and Experience:

A. B., Denison; A. B., University of Chicago; A. M., Denison; 6 months, University of Chicago; taught 15 years, Joliet Twp. High School; 11 years, S. I. S. N. U.

Social Sciences:

George W. Smith

Preparation and Experience:

18 weeks, Cook County Normal School; 2 years Blackburn University; A. M. (Honorary) Blackburn University; taught 13 years in public schools; 7 years in Training School S. I. S. N. U.; 32 years, head of History Department, S. I. S. N. U.

E. G. Lentz

Preparation and Experience:

15 weeks, Creal Springs College; 70 weeks, Valparaiso University; 8 weeks, University of Illinois; 21 weeks, graduate work, Indiana University; served 11 years as principal and superintendent of public schools; 14 years, S. I. S. N. U.

Edgar Allan Holt

Preparation and Experience:

A. B., Lincoln Memorial University; M. A., The State University of Iowa; Ph. D., The Ohio State University. Principal of high school one year and superintendent of schools, two years in the Iowa public schools. One year as half-time instructor in the Department of History of the Ohio State University.

Geography:

Frank H. Colyer

Preparation and Experience:

A. B., University of Indiana; M. S., University of Chicago; taught 8 years in public schools; 32 years, S. I. S. N. U.

Marjorie Mae Shank

Preparation and Experience:

A. B., University of North Dakota; A. M., Clark University; 6 weeks, University of Chicago; taught 3 years in public schools of North Dakota; 6 years, S. I. S. N. U.

Edna M. Gueffroy

Preparation and Experience:

B. Ed., Illinois State Normal University, Normal, Ill.; A. M., Clark University; taught 6 years in public schools; 30 weeks, Geography Department, State Normal University, Normal, Ill.; 2 years, S. I. S. N. U.

Mathematics:

W. T. Felts

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; lacks one and one-half credits of completing work for Ph. B., University of Chicago; taught 19 years in public schools; 28 years, S. I. S. N. U.

Alice B. Kelsey

Preparation and Experience:

A. B., Indiana University; A. M., University of Illinois; taught 1 year in Indiana public schools, 2 years in University of Illinois; 4 years, S. I. S. N. U.

Chemistry:

George Mervin Browne

Graduate, Massachusetts State Normal, Westfield, Mass.; 2 years, special student at Harvard; 2 years, research work in chemistry with Arthur Michaels (Tufts College); 2 years, Cook County Normal; 8 years, Oshkosh State Normal; 26 years, S. I. S. N. U.

R. A. Scott

Preparation and Experience:

B. S., M. S., University of Illinois; taught 5 years, S. I. S. N. U. On leave of absence,—at work for Ph. D.

Leave

J. W. Neckers

Preparation and Experience:

A. B., Hope College; M. S., Ph. D., University of Illinois; taught 2 years as student assistant, Hope College; 3 years as half-time graduate assistant, University of Illinois; 2 years, S. I. S. N. U.

T. W. Tabbott

Preparation and Experience:

A. B., Indiana University; A. M., Harvard University; Ph. D., University of Illinois. Taught 5 years in public schools; 1 year, assistant at Harvard University; 2 years, instructor at Georgia School of Technology; 1st year, S. I. S. N. U.

Physics and Astronomy:

S. E. Boomer

Preparation and Experience:

A. B., A. M., University of Illinois; taught 10 years in public schools; 2 years in University of Illinois Academy; 18 years, S. I. S. N. U.

Charlotte Zimmerschied

Preparation and Experience:

A. B., A. M., University of Minnesota; 12 weeks, University of Chicago; taught 2 years, University of Minnesota; 3 years, public schools; 1 year, private school; 2 years, S. I. S. N. U.

Biology:

William Marshall Bailey

Preparation and Experience:

A. B., B. S., Campbell College; M. S., University of Chicago; 60 weeks graduate work beyond Master's degree, University of Chicago; taught 3 years in public schools; 9 years in Campbell College; 15 years, S. I. S. N. U.

Mary Minerva Steagall

Preparation and Experience:

Ed. B., Ph. M., M. S., Ph. D., University of Chicago; taught 11 years in public schools; 8 years, State Normal, Ypsilanti, Mich.; 21 years, S. I. S. N. U.

Delia Caldwell

Preparation and Experience:

M. D., Northwestern University; taught 7½ years in public schools; practiced medicine 25 years; taught 8 years, S. I. S. N. U.

Agriculture:

R. E. Muckleroy

Preparation and Experience:

B. S., University of Illinois; M. S., University of Wisconsin; taught 7 years in Mt. Vernon Township High School; 18 years, S. I. S. N. U.

Drawing and Design:

Gladys Potter Williams

Preparation and Experience:

Graduate, St. Louis Normal; graduate, Pratt Institute; certificate, Chicago Art Institute; completed credit hour requirements, M. A., University of Cincinnati; taught drawing 12 years in public schools of St. Louis; 2 years in Milwaukee, Wis. High School; 11 years, S. I. S. N. U.

Grace L. Burket

Preparation and Experience:

Junior College graduate, Southern Illinois State Normal University; 12 weeks, University of Chicago; taught 3 years in public schools of Illinois; 18 years, S. I. S. N. U.

Manual Arts:

Louis C. Petersen

Preparation and Experience:

B. S., Northwestern University; 6 weeks graduate work, Cornell University; taught 1 year N. W. Military Academy; 1 year, Seattle, Washington, H. S.; 3 years, Oklahoma State Normal; 20 years, S. I. S. N. U.

Household Arts:

Grace E. Jones

Preparation and Experience:

2½ years, Teachers College, Columbia University; ½ quarter, University of Chicago; 1 quarter, Southern Illinois State Normal University; taught 1 year as instructor, University of Nebraska; 7 years, supervisor of Household Arts, elementary schools of Auburn, N. Y.; 18 years, S. I. S. N. U.

Lucy K. Woody, Dean of Women

Preparation and Experience:

B. S., Teachers College, Columbia University; taught 17 years, S. I. S. N. U.

Commercial:

T. L. Bryant

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; taught 11 years, S. I. S. N. U.

Edward V. Miles, Jr.

Preparation and Experience:

Graduate, Junior College, Southern Illinois State Normal University; 1½ years, University of Chicago; taught 10 years, S. I. S. N. U.

Music :

David S. McIntosh

Preparation and Experience:

B. M. E., Northwestern University, School of Music; taught 2 years in public schools of Indiana, 2 years in public schools of Illinois; 2 years, S. I. S. N. U.

Julia Chastaine

Preparation and Experience:

Graduate, Chicago Musical College; B. Ed., Southern Illinois State Normal University; 6 weeks, University of Chicago; taught 14 years, S. I. S. N. U.

Helen E. Matthes

Preparation and Experience:

1 year, Chicago Musical College; taught 8 years, S. I. S. N. U.

Physical Education :

William McAndrew

Preparation and Experience:

A. B., Vincennes University; LL. B., Cumberland University; 20 weeks special summer work in coaching courses; taught 1 year, Vincennes University; 2 years Lawrenceville Twp. H. S., 12 years, S. I. S. N. U.

Leland P. Lingle

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; 6 weeks, University of Illinois; taught 4 years in public schools of Missouri; 2 years, S. I. S. N. U.

Frances D-L Etheridge

Preparation and Experience:

A. B., B. S., University of Illinois; taught 1 year public schools of Kentucky; 4 years, S. I. S. N. U.

Harriet B. Rodgers

Preparation and Experience:

A. B., Hamline University; A. M., Columbia University; 1 year, Sargent School for Physical Education; 6 weeks, University of Iowa, 6 weeks University of Minnesota; taught 1 year, North Dakota State Normal; 2 years, S. I. S. N. U.

Library :

Mildred D. Kohlstedt

Preparation and Experience:

A. B., Northwestern University; 1 year, University of Illinois Library School; taught 3 years in public schools; 3 years, S. I. S. N. U.

Margaret Garrett

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; 8 weeks, University of Illinois Library School; 2 years, S. I. S. N. U.

Bonnie Batson

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; 1st year, S. I. S. N. U.

Senior High School

F. G. Warren, Assistant, Department of Education, and Director of Senior High School Practice Teaching.

Preparation and Experience:

A. B., McKendree College; A. M., University of Chicago; served 1 year as Principal, Pinckneyville, Ill., H. S.; taught 3 years, Mt. Vernon, Ill., Township H. S.; 16 years, S. I. S. N. U.

Mathematics:

English:

Florence A. Wells

Preparation and Experience:

B. Ed., Southern Illinois State Normal University; taught 6 years in grade schools of Illinois, 11 years in high school; 2 years, S. I. S. N. U.

GENERAL INFORMATION:

You are asked to note carefully following sections from the certifying law:

SEC. 2. State certificates granted by the Superintendent of Public Instruction and the requirements for the same shall be as follows:

First—*A four year elementary school certificate valid for teaching and supervision in the elementary schools and in the first and second years of the high school of any district in the State for which the requirements shall be:* (1) Graduation from a recognized high school and from a recognized normal school, or an equivalent preparation; (2) three years' successful teaching, two of which shall have been in the State on a first grade county certificate; (3) a successful examination in English, educational psychology, and the principles and methods of teaching, and (4) the preparation of a thesis on one or more elementary school problems, the subject or subjects of which shall be selected from a list prescribed by the Superintendent of Public Instruction.

Second—*A four year high school certificate valid for teaching and supervising in any high school and in the seventh and eighth grades of any district in the State for which the requirements shall be:* (1) Graduation from a recognized college or university, or the completion of an equivalent preparation; (2) three years' successful teaching, two of which shall have been in the State on a first grade, a high school, or a supervisory county certificate; (3) a successful examination in English, educational psychology, and the principles and methods of teaching, and (4) the preparation of a thesis on one or more secondary school problems, the subject or subjects of which shall be selected from a list prescribed by the Superintendent of Public Instruction.

Third—*A four year supervisory certificate, valid for teaching and supervising in all grades of the public schools in any district in the State.* The requirements for this certificate shall be: (1) Graduation from a recognized high school and from a recognized normal school, or an equivalent preparation; (2) three years' successful supervision, two of which shall have been in this State on a county supervisory certificate; (3) a successful examination in English, educational psychology, sociology, the history of education, and school organization, administration, and supervision, and (4) the preparation of a thesis on one or more problems of school administration, the subject or subjects of which shall be selected from a list prescribed by the Superintendent of Public Instruction.

SEC. 6. County certificates granted by the county superintendent and the requirements for the same shall be as follows:

First—A second grade elementary school certificate valid for two years in the first eight grades of the common schools of the county and in the ninth and tenth grades, when endorsed for the same by the county superintendent. This certificate shall be re-

newable on evidence satisfactory to the county superintendent of six months' successful teaching or twelve weeks' professional training, and a second time if in the period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school providing such training, and, thereafter, the same shall be renewable indefinitely for periods of two years upon evidence of successful teaching and professional growth satisfactory to the county superintendent. The applicant for this certificate shall be examined in orthography, civics, Illinois history, physiology, penmanship, reading, grammar, geography, United States history, arithmetic, *general* science, pedagogy, and the principles and methods of the State course of study. *Graduation from a recognized high school or an equivalent preparation shall be required for admission to the examination. At the option of the county superintendent this certificate may be issued without examination to persons who have completed the freshman year's work in a recognized normal school or its equivalent.*

Second—A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county, and in the high school when endorsed for the same by the county superintendent. This certificate shall be renewable indefinitely for periods of three years, upon evidence of successful teaching and professional growth satisfactory to the county superintendent. The requirements for this form of certificate shall be: (1) Graduation from a recognized high school, or an equivalent preparation; (2) six months of successful teaching; and (3) an examination in orthography, including spelling, civics, Illinois history, physiology, arithmetic, pedagogy, English, algebra, general history, and any three of the following natural sciences: botany, zoology, physics, chemistry, and physiography. *This certificate shall be issued to graduates of a recognized normal school, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching, and applies for the certificate within three years after graduation.*

Sixth—A special certificate, valid for two years in the common schools of the county, renewable for two-year periods. Such certificate shall be issued in music, drawing, agriculture, manual training, domestic science, domestic art, physical training, penmanship, book-keeping, German, and such other subjects as may be added by the Examining Board and shall authorize the holder to teach only the subject or subjects named in the certificate. The requirements for this form of certificate shall be graduation from a recognized high school, or an equivalent preparation, and a certificate showing the completion in a recognized higher institution of learning of at least two years' special training in the special subject or subjects, certified credits in English and the principles and methods of teaching, and satisfactory evidence that the applicant has taught or can teach the subjects successfully. In lieu of such special training and certified credits a special certificate may be obtained by an examination

in English and the principles and methods of teaching and in the special subject or subjects. (As amended by an act approved June 23, 1915).

SEC. 7. The county superintendent is hereby authorized to issue a *provisional certificate valid for one year* to persons of his or other counties who fall below the required *minimum or average in an examination for second grade certificate*. *This certificate may be issued without examination to persons who have completed two years of work in a recognized normal school, or one year of such work if the applicant is a graduate of the tenth grade*. Such certificates shall be designated on their face, "Provisional," and the same shall not be renewable or issued the second time to the same person.

LOCATION, ETC.

Carbondale is a city of nearly 7,000 inhabitants, with many refined people. It is easy of access, and offers inducements for board and social advantages beyond most places of its size. It has, perhaps, fewer temptations to idleness, and combines religious and educational privileges in a degree greater than the average town of its size. Parents may be assured that their children will be as safe as in any school away from home, and students may come here and feel assured that economy and industry will be respected and honored by their fellow students and by the faculty. The Illinois Central Railroad affords ample facilities for convenient access, three of its branches passing through Carbondale.

Terms of Admission.

All applicants for admission must present evidence of good moral character and, to secure free tuition, they must agree to teach in the public schools of the State for a time not less than that covered by their attendance upon the school. This agreement must not be entered upon unless the applicant fully intends to teach. It may become void, however, if engagement to teach cannot be secured by reasonable effort. In case of a permanent change in plan, the individual is expected to pay to the registrar of the Institution the difference between the regular tuition for the entire time and the incidental fees he has paid.

All other entrance requirements and all graduation requirements are provided for in the following rules adopted by the Board of Trustees of the five Normal Schools:

1. Graduates of any recognized four-year high school or academy may be admitted to any standard two-year or other curriculum of college rank.

2. Fifteen units of entrance credit from a recognized high school shall be the minimum requirement for admission to such standard curriculums of college rank.

All credentials should be filed in advance of registration.

Following are the requirements for college entrance:

LIST A—*Required.*

English I, II, III-----	3 years
Algebra I-----	1 year
Plane Geometry-----	1 year

5 years

LIST B—*Elective.*

Latin -----	2 to 4 years
French -----	2 years
English IV -----	1 year
Advanced Algebra -----	$\frac{1}{2}$ year
Solid Geometry -----	$\frac{1}{2}$ year
Trigonometry -----	$\frac{1}{2}$ year
Ancient History -----	1 year
American History -----	1 year
Commercial Geography -----	$\frac{1}{2}$ year
Geology -----	$\frac{1}{2}$ year
Mediaeval and Modern History -----	$\frac{1}{2}$ to 1 year
English History -----	$\frac{1}{2}$ year
Civics -----	$\frac{1}{2}$ year
Economics -----	$\frac{1}{2}$ year
Physiography -----	$\frac{1}{2}$ year
Physiology -----	$\frac{1}{2}$ year
Zoology -----	$\frac{1}{2}$ year
Botany -----	$\frac{1}{2}$ year
Physics -----	1 year
Chemistry -----	1 year

LIST C.

Agriculture -----	1 to 3 years
Bookkeeping -----	1 year
Business Law -----	$\frac{1}{2}$ year
Commercial Arithmetic (only after Algebra) -----	$\frac{1}{2}$ year
Domestic Science -----	1 to 3 years
Drawing, Art and Design -----	$\frac{1}{2}$ to 1 year
Drawing, Mechanical -----	$\frac{1}{2}$ to 1 year
Manual Training -----	1 to 2 years
Music -----	1 year
Shorthand and Typewriting (together) -----	1 to 2 years

Of 15 year credits required for entrance, the 5 units of List A are prescribed for all courses. Of the 10 units that remain, 6 must be selected from List B. The remaining 4 units may be selected from List B or List C or both.

ADVANCED STANDING.

1. Credits for advanced standing may be obtained:

- a. By transfer from recognized higher institutions.
- b. By examination.

(In order to pass off a subject by examination the

student must apply to the President for permission, and no examination may be given to any student except at the beginning of the student's school year).

- c. By earning the credit by work done in, or under the direction of the normal school.

2. Students coming from state normal schools in other states whose standards are the same as obtain in Illinois, may receive full credit for the work accomplished in such schools.

3. Students from city teacher-training schools in Illinois shall receive credit only after the training school has been inspected by a member of the faculty of the normal school in whose supervision district the training school lies, and his recommendation confirmed by the action of the normal school presidents' council.

4. No credits shall be given for high school work in excess of the units required for graduation.

5. No credit except by examination shall be given for work done in business college or like unrecognized institutions unless such credit is recommended by the teacher in the normal school in whose class the student has done one term's work.

6. Graduates of recognized colleges and universities may be admitted to a one-year curriculum.

7. Undergraduates of recognized colleges and universities may enter the normal school and receive credit for such of their college work as will apply to the curriculum upon which they enter.

Graduation.

Every candidate for graduation must file application with the Registrar not later than the beginning of the Spring Term.

Each candidate should appear before the Committee on Graduation to have his record checked at least ninety days before the date of his expected graduation.

Expenses.

The State Normal School Board has established the following regulations in the matter of fees paid by students enrolled in any of the State Teachers Colleges of Illinois. The paragraphs below are taken from the minutes of the Normal School Board meeting held at Carbondale, Ill., April 29, 1926:

1. The total fees to be charged a student in any of the Normal Schools shall not exceed the maximum sum of \$15.00 per term.

2. A pledge shall be exacted from all students attending any of the Normal Schools of the State of Illinois to teach in the public schools of Illinois for a period equal to the time spent in said schools.

3. While the Normal Schools are organized primarily for the training of teachers, the demands at present seem to justify admitting students who do not pledge themselves to teach, and all such students shall be required to pay tuition fee of not less than \$25.00

per term, which is the same fee as that provided for high school students.

4. The following is a schedule of fees for special services:

GENERAL FEES		Amount
1. Registration fee (paid by all except ex-service men and holders of township scholarships)---	\$3.00	Uniform
2. Towel fee (paid by all students taking gymnasium courses)-----	1.00	Uniform
3. Library fee-----	1.00	Uniform

PENALTIES		
1. Late Registration-----	\$1.00	Uniform
2. Change of program after third day-----	1.00	Uniform
3. Original transcript and carbon copy-----	1.00	Optional
4. Library Fines-----		Optional
5. Breakage, etc.-----		Optional

FEES FOR SPECIAL SERVICES

1. Chemistry-----	} Not to exceed actual cost }	Optional
2. Physics-----		
3. Biology-----		
4. Home Economics-----		
5. Manual Training-----		
6. Art-----		
7. Use of Typewriter-----		
8. Lessons in Voice-----		
9. Lessons on Violin, Piano, Organ, etc.		
10. Extension Courses-----		
11. Correspondence Courses-----		

5. There shall be no fee for diploma.

6. Student activity assessment shall be left with the various student bodies but provision must be made for the proper handling and auditing of all such accounts under the direction of the governing bodies.

The "Students Activity Fee" has been fixed by the Student Council of this institution at \$2.00 per term for 1928-29.

ANTHONY HALL.

With the beginning of the Fall Term, 1913, the Woman's Building, Anthony Hall, was opened. This model school home for girls will accommodate about seventy students. It was erected and furnished at a cost of \$75,000, and every possible provision has been made for the comfort, safety and well-being of its inmates. Board and lodging in this ideal boarding house will be furnished at \$7.00 per week. We reserve the right to charge a higher rate if it becomes necessary.

A deposit fee of \$5.00 must accompany each application for room, and this deposit will under no circumstances be refunded.

OTHER STUDENT HOMES IN CARBONDALE.

Much of a student's success depends upon the conditions at his boarding and rooming place. He must have not only fresh air, pure water, wholesome food, even temperature and good light in his study room, but also favorable conditions for study and for sleep. The following conditions as applied to rooming places meet the approval of the faculty:

On the part of the householder—

1. Men and women not to room in the same house.
2. Premises hygienically clean and supplied with good, sanitary water.
3. Good light in study rooms and rooms heated to not less than 68 degrees.
4. Telephone accessible.
5. Parlor furnished at reasonable times.
6. Reports to the University authorities of the illness of students, and of habits of study, sleep, or recreation on the part of students if these are likely in any way to injure the health, reputation or character of the student, or to interfere with the success of his work in school, or to bring discredit upon the school.

On the part of the student—

1. Quiet and order in the house at all times.
2. Proper care of furniture and premises.
3. Repair of damages beyond ordinary wear.
4. Householder to be notified when students expect to be away from the house later than 10:30 P. M.
5. Absence from town to be reported to the householder and address left.
6. Vigorous co-operation on the part of both student and householder, in cases of contagious diseases within the house, to prevent the exposure of others and the spread of the disease.

There are three modes of living practiced by the students.

1. Board and room in the same house. The cost of board and room is from \$6.00 to \$9.00 per week.

Room with light-housekeeping. Students who practice light-housekeeping are able to reduce their living expense as low as \$4.00 a week.

3. Rooms without the privilege of light-housekeeping. Such rooms, two persons to the room, cost \$1.50 to \$2.50 per week per person.

Except in unusual cases, the committee believe that two occupants in a room secures the best results. Be sure to have it clearly understood how many are to occupy a room with you and how many occupants there will be in the house.

No contract for a room will be considered binding unless a deposit amounting to one week's rental shall be paid. Said deposit need not be returned unless the renter has good reasons for failing in his part, and not then except he notify said landlady three days before the term of school opens.

Many serious complications will be avoided if students will consult the Housing Committee before engaging rooms. Some houses, now open to students, *are not recommended by the committee*. A copy of rooming house regulations will be sent upon request.

Committee:

E. G. Lentz, 520 S. Normal Ave.
W. M. Bailey, 506 S. Poplar St.
George M. Browne, 902 S. Normal Ave.
Mary M. Steagall, 808 S. Illinois Ave.
Lucy K. Woody, 716 S. Normal Ave.

Free Instruction in Instrumental Music.

The free instruction in violin and other stringed instruments, cornet and other brass instruments, has proved very successful. Encouraged by the interest in the violin, cornet work, etc., the management has opened three music rooms, each provided with a piano, and an organ has been added to the equipment, so that any student who wishes to prepare himself to lead the music in his school with either the organ or piano, may be accommodated.

LITERARY SOCIETIES.

ZETETIC AND SOCRATIC

Within the first term of the first year of the Institution, September, 1874, the Zetetic Literary Society was organized. Later in the year a sister organization was planned for, and in due time was thoroughly established and christened the Socratic Literary Society. These have a large membership and are well attended.

The more elaborate exhibition of what these societies are able to do is annually given to the public on Monday and Tuesday evenings of Commencement Week.

The varied programs of these literary societies from week to week add very materially to the work of the English department in securing additional practice in the delivery of original and other matter, and in the opportunity for becoming acquainted with parliamentary usages, thus fitting the student for more intelligent service in the communities in which he may labor.

The Faculty and Board of Trustees foster, with much care, the best interests of these valuable adjuncts to the literary work of the Institution. Their usual time of meeting is on Friday evening of each week in the halls provided by the School.

ATTENDANCE UPON CHURCH.

Students are urged to identify themselves at an early date after entering the Normal School, with some church of the city. It is assumed, of course, that the student will affiliate with the church to which he belongs at home, or with which he is most in sympathy as to doctrine and modes of worship.

Christian Associations.

The Young Men's Christian Association and the Young Women's Christian Association each has a well-conducted organization, which meets weekly in a room fitted for their use on the second floor in the Library Building. Their committees look after new students upon their arrival, and those who may be sick while attending school, and in many ways minister to the wants of their fellow students. Several classes in Bible study are maintained by these societies. The State college secretaries of each of these branches of Christian work pay the Institution a visit twice a year, or oftener, for conference and direction of work. New students upon their arrival may recognize the representatives of these associations by special badges worn, indicating their willingness to render their kindly services whenever needed. These persons may be trusted implicitly in directing strangers to boarding houses and clubs.

SCHOOL HEALTH SERVICE.

DELIA CALDWELL, M. D.

It is the province of this department to have the oversight of the health of the students, especially for the purpose of detecting and excluding communicable diseases; to assist the local and state health authorities in establishing and maintaining quarantine, whenever it is required by law.

The physician in charge of this department has an office in the Science Building, keeping regular office hours, during which any student may have the benefit of consultation, with diagnosis of conditions and general directions in regard to matters of diet, exercise and good care of the body. It is not the policy of this department to prescribe or administer professional assistance, except first aid in injuries or sudden illness occurring during school activities. All of those students who are found to require the services of a physician are referred to our local physicians, whenever possible to the family physician of the student.

One of the duties of the physician in charge is to visit the boarding or rooming house of any student to investigate, when necessary, cases of suspected contagious disease, or any other condition affecting the health or welfare of the students or of the school.

In general, it is the object of the medical adviser to promote good health among the students, both in the school and in their homes.

COURSES OF STUDY.

Two basic courses are provided: the Four-Year Course leading to the Degree of Bachelor of Education and the High School Certificate; and the Two-Year Course designed for those preparing for elementary teaching, and leading to a diploma and the First-Grade Certificate. Each of these courses is adapted through choice and assignment of subjects to the individual needs of the prospective teacher.

THE FOUR-YEAR COURSE.

Requirements for the Degree of Bachelor of Education.

College Requirements—Each candidate must meet the general college requirements with respect to registration and residence, and must also secure credit in approved courses amounting to an aggregate of forty-eight term-credits, (the equivalent of one hundred and twenty semester hours, one hundred and forty-four forty-minute periods of Physical Training not counted). A term-credit represents twelve weeks' work, five periods a week, except in the case of laboratory sciences which require the usual additional periods each week for laboratory work.

In order to receive his bachelor's degree a student must have secured grades not lower than C in subjects aggregating at least three-fourths of the work, prescribed or elective, required for the degree. The system of grading is as follows: A, excellent; B, good; C, fair; D, poor (but passing); E, failure.

(A) Prescribed Subjects—Rhetoric, 2 or 3 terms, according to the proficiency of the student; Practice Teaching, 3 terms; Health Education, 1 term; Physical Education, 144 forty-minute periods taken without credit.

(B) Group Requirements—Every candidate must offer the minimum of work specified in each of the following groups:

- I. English—At least 2 terms in English and American Literature.
- II. Foreign Language—College French, German, or Latin. At least 3 terms.
- III. History, Political and Social Science—History, Economics, Political Science, Sociology. At least 3 terms.
- IV. Mathematics, and Physical Science—Mathematics, Astronomy, Physics, Chemistry. At least 2 terms.

NOTE—Every candidate for the degree of B. Ed., shall offer a minimum total of 6 terms in Groups IV, and V, combined, with a minimum of 2 terms in each.

- V. Biology and Earth Science—Botany, Bacteriology, Entomology, Geography, Geology, Physiology, Zoology. At least 2 terms. See note under IV.
- VI. Education—At least 9 terms (including 3 terms of Practice).

(C) Major Subjects—Each candidate must select some one subject as his major. A major consists of courses amounting to nine terms chosen from among those designated by the Department and approved by the Faculty.

The subjects at present recognized as majors in this college are: Botany, Chemistry, English, French, Geography and Geology, German, History, Latin, Mathematics, Physics, Zoology.

(D) Minor Subjects—Each candidate must offer, in addition to his major, a minor of at least six terms in one or more allied subjects designated by the major department and approved by the Faculty.

(E) Elective Subjects—

1. Not more than nine terms in any one subject may be counted for graduation, except in special cases with the approval of the Examiners and the Committee on Graduation.
2. A limited amount of credit toward the B. Ed. Degree will be given for courses offered in the special departments of the school, as follows:

Department of Agriculture—Horticulture 6, 7, and 10, Animal Husbandry 32 and 32a (Livestock Judging), Agronomy 2 and 3 (Farm Crops), Teachers' Course 5 (Method Agriculture), Animal Husbandry 5 and 5a (Principles of Feeding), Animal Husbandry 7 (Dairy Production), Agronomy 4 (Soil Physics), Animal Husbandry 6 (Genetics), Animal Husbandry 11 (Dairy Farming), Agronomy 6 (Soil Fertility), Agronomy 9 (Soil Biology).

The total credit in the Department of Agriculture may not exceed six terms.

Art Department—Art 4 (Method Public School Drawing), Art 29 (Method Public School Drawing), Art 28 (Principles of Design), Art 27 (Theory of Color), Art 5 (History of Art), Art 9a (History of Art), Art 31 (Freehand Drawing), Art 15 (Freehand Drawing), Art 26 (Perspective), Art 21 (Commercial Design), Art 10 (Advanced Water Color).

The total credit in the Art Department may not exceed six terms.

Commercial Department—Accounting 7, 8, and 9 (First Year), Accounting 26, 27, and 28 (Second Year), Commercial Law 13, 14, and 15, Commercial 31 (Financial Organization).

The total credit in the Commercial Department may not exceed six terms.

Household Arts Department—Household Arts 5, 6, and 7 (Selection and Preparation of Food), Household Arts 2, 3, and 19 (Clothing), Household Arts 11, 11a, 11b (Nutrition and Dietetics), Household Arts 12a (Economics of the Household).

The total credit in the Household Arts Department may not exceed six terms.

Manual Arts Department—Manual Arts 9 and 10 (Machine Shop Practice), Manual Arts 11, 12, and 13 (Mechanical Drawing), Manual Arts 31 (Mechanics of Machinery).

The total credit in the Manual Arts Department may not exceed six terms.

Music Department—Music 2 (Music Method), Music 8 (Music Method), Music 9 (Band and Orchestra Methods), Music 10 (History of Music), Music 5 (Harmony), Music 6 (Harmony), Music 11 (Harmony), Music 12 (Harmony).

The total credit in the Music Department may not exceed six terms.

Physical Education—Phys. Ed. 4—for women (Methods and Materials), Phys. Ed. 5—for women (Coaching), Phys. Ed. 6—for women (Playground Course), Phys. Ed. 17—for men (Methods and Materials), Phys. Ed. 18—for men (Coaching), Phys. Ed. 19—for men (Playground Course).

The total credit in the Physical Education Department may not exceed three terms.

6. Health Education		

It is understood of course, that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Four courses a term constitute the regular assignment. Two or three terms of rhetoric are required in the freshman year. One term of Health Education is required in the sophomore year. The remaining courses each term are selected with a view to meeting the group requirements as listed above, and furthering the student toward the accomplishment of his major and minor work.

While the work of the freshman and sophomore years is offered in full-year courses, a student may after two terms of a subject (with the exception of the foreign languages), be allowed to substitute a term from some other course for the third term prescribed.

It may be noted again that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Education and Practice Teaching are required courses in the junior and senior years. Other courses must be so chosen as to complete group requirements, meet the requirement for a major of nine terms and a minor of six terms, and secure through free electives whatever credits may be lacking to make the forty-eight credits necessary for graduation. See Requirements for Degree and Description of Courses as to subjects acceptable for a major and a minor.

THE TWO-YEAR COURSE.

The two-year course is designed specifically for those who are to teach in the elementary school. A student securing twenty-four term-credits of freshman and sophomore work as outlined below will be graduated with a diploma, and may be recommended for a first-grade certificate.

A. Subjects Available in the Two-Year Course: Rhetoric 2 or 3 terms; Education 3 terms; Practice Teaching 3 terms; Geography 1 or 2 terms; History 1 or 2 terms; Literature 1 or 2 terms; Biology 1 or 2 terms; Chemistry or Physics 1 or 2 terms; Method Music 1 or 2 terms; Drawing 1 or 2 terms; Method Arithmetic 1 term; Method English (Primary or Advanced) 1 term; Method

Geography and Method History 1 term; Penmanship and Manual Arts (Primary or Advanced) 1 term; Elective subjects from Agriculture, Household Arts, and Physical Education 3 terms; Health Education 1 term; Physical Education (without credit) 3 terms.

The student will take note of the opportunity afforded to get as much as two terms of a number of subjects. This is of particular importance to those who expect to continue their college work beyond the two-year course.

B. Subjects Prescribed for All: Rhetoric 2 to 3 terms; Education 3 terms; Practice Teaching 3 terms; United States History 1 term; Arithmetic 1 term; Geography 1 term; Literature 1 term; Biology 1 term; Health Education 1 term; Chemistry or Physics 1 term; Penmanship and Manual Arts 1 term of each with a half-credit in each; Physical Education 144 forty-minute periods (without credit).

The remaining 7 or 8 credits are to be so selected as to afford the largest amount of definite preparation for the kind of teaching the graduate expects to do.

C. Provision for Differentiation:

- I. Those fitting for primary work should include in their program the following subjects: Child Psychology; Primary Method English; Primary Elementary Construction; Method Music; Public School Drawing; Practice Teaching in the primary grades; and such other prescribed and elective work as is necessary to make up the 24 credits required for graduation.
- II. Those fitting for intermediate and upper-grade teaching should, in the main, include the following subjects: School Management or Measurements; Upper-grade Method English; Upper-grade Manual Arts; Method History and Geography (one-half credit each); Method Music; Public School Drawing; Practice Teaching in the intermediate and grammar grades; and such other prescribed and elective work as may be necessary to make up the 24 credits.
- III. Those preparing for rural school teaching should include the following: Rural Education; Rural Practice Teaching; Method English; Method History and Geography; Method Music; Public School Drawing; and some work in Agriculture, or Household Arts, or both.
- IV. As a means of adapting the two-year course still further to the needs of teachers, the Examiner may, with the consent of the President, make substitutions. In this way, subjects excepting those in the prescribed group, may in special cases be set aside for additional

work in subjects already taken, and for credits (not to exceed three in number) from the Departments of Agriculture, Household Arts, and Physical Education.

D. An Illustrative Program:

Freshman Year.

FALL	WINTER	SPRING
Rhetoric	Rhetoric	Rhetoric
Geography	History	History or Music
Biology	Biology or Geography	Literature
Arithmetic	Psychology	Practice I
Physical Education	Physical Education	Physical Education

Sophomore Year.

FALL	WINTER	SPRING
Chemistry or Physics	Chemistry or Physics, or Elective	Drawing or Elective
Principles of Education	Measurements	Health Education
Pen. & Man. Arts. ($\frac{1}{2}$ credit each)	Meth. Geog. & Hist. ($\frac{1}{2}$ credit each)	Method English
Music or Literature	Practice II	Practice III

It is understood of course, that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

ENGLISH.

EMMA L. BOWYER.

MAE C. TROVILLION.

ELIZABETH A. COX.

JULIA JONAH.

FRANCES BARBOUR.

JULIETTE HANFORD.

MARY CRAWFORD.

STELLA SUTHERLAND.

Eng. 7a. History of English Literature to 1832. Long's Outline of English Literature; Manly's Prose and Poetry.

Eng. 7b. History of English Literature, 1832-1927. Long's Outline of English Literature; Manly's Prose and Poetry; *History of American Literature.* Long's Outline of American Literature with Readings.

Eng. 9, 9a., 9b. Freshman Rhetoric. Two or three terms required according to the ability of the student. Not counted toward a major in English. Texts: Composition for College Students (Thomas, Manchester, and Scott), Readings in English Prose of the Nineteenth Century, Part II (Alden), Handbook of Composition (Woolley), and for the three term people the M. O. S. book.

Eng. 8. Elocution. Whole credit will be given to those doing extra work in public speaking. Text: Cumnock's Choice Reading.

Eng. 8b. Advanced Elocution. Practice in public speaking.

Eng. 10. English Poetry. Technique of poetry Macbeth, Paradise Lost, Idylls of the King, Princess. Technique, 10a; Classics, 10b.

Eng. 11. English Prose. Text: Pancoast's English Prose and Verse; illustrative material drawn from the works of DeQuincey; Macaulay, and Carlyle, one-half credit. Technique of fiction, one-half credit, 11a; Classics, one-half credit, 11b. Novels studied; Silas Marner, Kenilworth, House of Seven Gables, Henry Esmond, and David Copperfield.

Eng. 6. English Method. Theme: How the child works out the problems of expression. This covers the first twelve years of the child's life and extends through the primary and intermediate grades. Observation lessons in reading and language in the Training School constitute an important part of the work.

Eng. 6a. Advanced English Method (Junior High School). In primary method, of course, much of the emphasis must be placed on the mechanics of reading. In advanced method the major emphasis passes over to the content of the reading material. Attention is paid to the technique of poetry,—to the poet's handling of rhythm, tone, color, and rhyme scheme. In the stories that are used the attention of the class is drawn to the use of scene and setting, plot construction, accessories, character portraiture, use of dramatization, dialogue, humor, etc. Methods in grammar and compoi-

tion are stressed. Some time is devoted to the study of the art of public speaking.

Eng. 13. American Literature. A survey of American literature from the Colonial period to the present day. Texts: Boynton's American Literature and Boynton's Milestones in American Literature.

Eng. 14. Shakespeare. The course consists of a thorough study of As You Like It, King Henry V, Hamlet, and the Tempest, with a brief survey of other plays.

Eng. 15. The Short Story. This is principally an advanced theme course dealing with the technique of the short story, with illustrative material from the works of the best story writers. Three days a week will be devoted to the study of the story, two days to the writing of original stories.

Eng. 16. Victorian Literature. A survey of the prose and poetry of the Victorian period.

Eng. 17. Old English. Grammar and easy reading. Text: Bright's Anglo-Saxon Reader. Some reading of Old English will be done, but principally we shall trace the development of our language, and account for the presence in our language of many irregular forms.

Eng. 18. Method English. Course designed for those expecting to teach in high school. Classics taught in these years are studied. Lesson plans made.

Eng. 20. Victorian Novel. A study of representative Victorian Novelists. Texts: Hardy's Return of the Native; Stevenson's Kidnapped; Reade's Cloister and Hearth; Trollope's Barchester Towers.

Eng. 21. Contemporary American Literature. This course includes a special study of those writers whose books can be used in teaching. Text: Manly and Rickert's Contemporary American Literature.

Eng. 22. Contemporary British Literature. Text: Manly and Rickert's Contemporary British Literature.

Eng. 23. Essay. Various types of essay will be read and discussed.

Eng. 24. Modern Drama. This course will include a study of the technique of the Modern Drama, together with the reading of thirty modern plays.

Eng. 25. Advanced Rhetoric. Course on style and advanced composition, based on Genung's Working Principles of Rhetoric.

Eng. 26. Development of the Drama. Restricted to Seniors. Lecture and reading course. A syllabus in the hands of each student will direct the library work. Representative plays will be read showing the development of the drama from the Greek and Roman down to the present period.

Eng. 29. Magazine Fiction. The principles of the short story will be studied in a few classics, but mainly in the fiction of current magazines.

Eng. 30. British Poets of the Nineteenth Century. The more important poems of Burns, Wordsworth, Shelley, Keats and others are studied both for technique and content. Text: *British Poets of the Nineteenth Century*. Vol. 1.

Eng. 31. Eighteenth Century Poetry. Genesis, rise ascendancy, and decline of Classicism; rise of Sentimentalism; inception of the Romantic Movement. Text: *The Poets of the Eighteenth Century*.

Eng. 32. Lyric Poetry. A survey of the English lyric from Shakespeare to the present day.

Eng. 36. Recent American Poetry. The significant American verse writers of the period 1860-1920—Longfellow, Holmes, Emerson, Whittier, Whitman, Lowell, Lanier, Robinson, Lindsay, Frost, and Amy Lowell, with an effort to evaluate the contribution of each, with emphasis on originality of content and poetic form.

Eng. 38. Milton. A study of the poetry of Milton with emphasis on the forms, influences, and ethical values.

Eng. 39. Journalism. Study of phases of Journalism which are applicable to school papers and year books.

Eng. 41. Wordsworth. A study of Wordsworth's characteristic poems as they reflect his theory of art and his philosophy of human development. Text: *Oxford Edition of Standard Authors*.

Eng. 42. Emerson's Essays and Poems. A study of Emerson's philosophy in prose and poetry.

PSYCHOLOGY AND PEDAGOGY.

GEORGE D. WHAM.

BRUCE W. MERWIN (PART TIME)

F. G. WARREN (PART TIME)

W. O. BROWN (PART TIME)

Education 2. Educational Psychology. A study of the facts and laws of mental life with special reference to the learning and teaching processes. The various principles that underlie effective teaching are developed and illustrated by concrete exercises and problems. Text: *Colvin and Bagley's Human Behavior*, or its equivalent.

Education 3. Principles of Education. A systematic study of the fundamental principles of education as derived from the basic sciences of biology, physiology, psychology, and sociology. The principles thus derived are applied in the interpretation and criticism of current and proposed educational theory and practice. Text: *Bagley's Educative Process*, or its equivalent.

Education 11. General Method. A detailed study of the various processes of teaching and learning involved in elementary education. Text: *Parker's Types of Elementary Teaching and Learning*, or its equivalent.

Education 1. School Management. A study of such topics as the first day of school; the organization of the school; the daily program; equipment, sanitation, decoration; the conduct of the recitation; discipline and moral training. Lesson-planning is an important feature of the course. Text: Bagley's *Class-room Management*, or its equivalent.

Education 10. Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for elementary school pupils. Text: Monroe, DeVoss, and Kelley's *Educational Tests and Measurements*.

Education 12. Rural Education. A college course designed for those who expect to teach or supervise country schools. The first half is devoted to rural sociology; the second half, to the study of school organization, school equipment, subject matter and methods, required by the conditions of rural life. Texts: Barnes' *Rural School Management*, and Ritter & Wilmarth's *Rural School Methods*.

Education 8. Child Psychology. A course designed especially for those who expect to teach in the lower grades. It undertakes a description of the child mind, dealing especially with the phenomena of growth, physical and mental, and with the instinctive capacities and interests of childhood. Text: Norsworthy and Whitley's *Psychology of Childhood*, or its equivalent.

Education 5a. General Psychology. A study of the fundamental facts and principles of human behavior. A prerequisite to Education 5. Text: Warren's *Human Psychology*, or its equivalent.

Education 5. Advanced Educational Psychology. A description of the bodily organs and mechanisms upon which behavior depends; a discussion of instinctive activities and capacities; a formulation of the general laws of learning and their application to teaching; a study of individual differences. Text: Gates' *Psychology for Students and Teachers*, or its equivalent.

Education 7. High School Method. A detailed study of the various processes of learning and teaching involved in high school education. Texts: Parker's *Methods of Teaching in High Schools*, and Parker's *Exercises for Methods of Teaching in High Schools*, or their equivalents.

Education 7a. High School Administration. A study of such topics as adolescence; the history and aims of secondary education; high school courses of study; high school equipment; and the problems of organization, management, and discipline peculiar to the high school. Text: Koos' *The American Secondary School*, or its equivalent.

Education 4. History of Education. The chief aim is to afford the teacher the sanity of judgment that comes only by seeing

present-day education in perspective against its historical background. It traces the evolution of educational ideals and practice in response to social needs and to the contributions of philosophic and scientific thought. Texts: Cubberley's *A Brief History of Education* and Curoe's *Outline of History of Education*, or their equivalents. Additional readings in Graves' *History of Education* and Cubberley's *Book of Readings*.

Education 6. Educational Sociology. A consideration of the origin, nature, and functions of society and social institutions. A special study of the relation between society and the individual, and of the practical social problems growing out of the complexity and rapid development of modern society. Text: Smith's *Principles of Educational Sociology*, or its equivalent.

Education 9. School Administration. This course is designed primarily for those who look forward to positions as supervisors, principals, or superintendents. Texts: Cubberley's *Public School Administration* or its equivalent, and Stark's *Every Teacher's Problems*.

Education 10a. Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for high school pupils. Texts: Ruch and Stoddard's *Tests and Measurements in High School Instruction*, and Freeman's *Mental Tests*, or their equivalents.

Education 15. Psychology of High School Subjects. An analysis of the mental processes exhibited by pupils in studying the various high school subjects, with parallel consideration of effective teaching processes. Text: Judd's *Psychology of Secondary Education*, or its equivalent.

FRENCH AND GERMAN.

J. M. PIERCE.

French 1, 2, 3. Holzwarth and Price, *Beginners' French*. Worman's *First French Book*. Guerber, *Contes et Legendes*, I. La-visse, *Histoire de France*. (Cours Moyen). Kullmer and Cabeen, *France*.

French 4, 5, 6. Mairret, *La Tâche du Petit Pierre*. Halèvy, *L'Abbé Constantin*. Dumas, *La Tulipe Noire*. Erckmann-Chatrian, *Madame Thérèse*. Dumas, *Les Trois Mousquetaires*. Mérimée, *Colomba*. Technical and Scientific French (part).

French 7, 8, 9. Texts are chosen that have not been read by members of the class, who come from other schools. Among those usually read are: Hugo, *Les Misérables*; Dumas, *Le Comte de Monte Cristo*; Brieux, *Blanchette*; Sandeau, *Mlle. de la Seiglière*; Technical and Scientific French (part). Additional books from the college library are assigned to individuals.

German 1, 2, 3. Mosher and Jenney: *Lern- und Lesebuch*. Immensee. Germelshausen. *Das Peterle von Nuernberg*.

German 4, 5, 6. Hoeher als die Kirche. Der Fluch der Schoenheit. Der Prozess and Einer muss heiraten. Flachsmann als Erzieher. Karl Heinrich. Carl Schurz' Lebenserinnerungen. German Science Reader.

German 7, 8, 9. Schiller: William Tell. Goethe: Herman und Dorothea. Sudermann: Frau Sorge. Roedder: Schwarzwaldleut'. Klenze: Deutsche Gedichte. Keller: Bilder aus der deutschen Literatur. Scientific German. Word-Study: Historical and Linguistic Relations between English and German.

LATIN.

HELEN A. BALDWIN.

HARRIET RODGERS (PART TIME)

College students may begin Latin and receive credit for one or two years. Students having two or more years of high school credit are eligible to college classes.

For advanced students majoring in Latin practice teaching is provided.

Latin 1, 2, 3. Beginning Latin. Smith's Elementary Latin is used, the aim being familiarity with the elements of Latin Grammar.

Latin 4, 5, 6. Caesar's Gallic War. The equivalent of four books is read, Walker's Caesar being the text. Scott's Prose Composition.

Latin 13. Advanced Composition. This is useful for teachers and is a convenient review for students.

Latin 14. Cicero's Essays. De Senectute and part of De Amicitia.

Latin 15. Livy. Books I and XXI, Westcott's edition.

Latin 16. Phormio of Terence.

Latin 17. Horace, Odes and Epodes.

Latin 18. Pliny's Letters.

Latin 19. Cicero's Letters. Emphasis is laid upon the history of the times and personality of Cicero.

Latin 20. Vergil's Georgics and later Aeneid. The hexameter is carefully studied and Vergil's spirit and contribution to Rome are considered.

Latin 12. Tacitus. The Agricola and Germania.

Latin 40. Roman Private Life. Open to college students having already credit for two years of Latin. Given in summer, second term.

Latin 41. Methods in Latin. A half credit. Deals with the psychology of the subject, objectives, text books, etc. Given in summer, second term. For Senior College students.

In both terms of the summer quarter reading courses are offered for Junior College and for Senior College students.

GEOGRAPHY AND GEOLOGY.

FRANK H. COLYER.

MARJORIE MAE SHANK.

EDNA M. GUEFFROY.

Geography 4a. Primary Methods. This course is devoted to the teaching of geography in the first three years, usually grades four, five, and six. This subject is primarily for freshmen, but is open to sophomores. The work is completed in six weeks, carrying with it one-half credit. Five recitations per week.

Geography 4b. Geography Methods of Upper Grades. This course deals with the methods of teaching geography in the upper grades. It is a freshman course of the junior college, but is open to sophomores. The work will be completed in six weeks. Five recitations per week.

Geography 11. Human Geography. This subject is commonly referred to as advanced geography. Many of the fundamental facts and principles of economic geography are taught in this course. This is a freshman class which is open to sophomores. Text: Huntington and Cushing; Principles of Human Geography. This is a course of twelve weeks, five recitations per week, laboratory two days per week.

Geography 11a. Geography of North America. The purpose of this course is to make an intensive study of the continent of North America. This is a sophomore subject, open to members of the freshman class. Five recitations are held per week for a period of twelve weeks, laboratory two days per week. Text: J. Russel Smith's *North America*.

Geology 8. Physiography. All students who may wish to take Geology 9 or Geology 10 should take this course in physiography. Those students who wish to teach physiography in high school, or who wish a better preparation to teach geography in the grades may take this course without taking Geology 9 and Geology 10. This is a twelve weeks course with five recitations per week.

Geology 9. Rocks and Minerals. Also structural geology. This is the second twelve weeks unit in a year's work in college geology. The first six weeks will be a study of the leading minerals and rocks, largely from the standpoint of field work. The second six weeks is a study of structural geology and the first part of historical geology. Students taking this course should first take Geology 8, or its equivalent, and should have a working knowledge of chemistry and biology. Five recitations per week, laboratory two days per week.

Geology 10. Historical Geology. This is the third twelve weeks unit in a year's work in college geology. The entire term will be taken up with historical geology. This course presupposes Geology 8 and Geology 9 or their equivalent. Five recitations per week, laboratory two days per week.

Geography 12. Economic Geography of United States and Canada. This is the first portion of a year's work in economic geography and meteorology. The course is primarily for seniors, but is open to juniors. Students entering this course should have a fair knowledge of the essentials of economic or commercial geography of high school grade. Five recitations per week.

Geography 13. Economic Geography of World Outside United States and Canada. This is the second twelve weeks unit in a year's work in College Economic Geography and Meteorology. This course should follow Geography 12. This is a senior class open to juniors. Five recitations per week.

Geography 14. Meteorology. This course deals with the conditions of the atmosphere, the changes of condition, and the causes of these changes. This is the third twelve weeks unit in a year's work in college Economic Geography and Meteorology. This is a senior course, but is open to juniors. A working knowledge of the essentials of physics and chemistry are desirable before undertaking this course. Five recitations per week.

Geography 15. Geography of Europe. This course is open to students of the senior college. It consists of an intensive study of the continent of Europe. It is a course occupying twelve weeks, five recitations per week.

Geography 16. Geography of South America. This study of the continent of South America is for juniors and seniors. During the school year it will follow the study of Europe. It is a course of twelve weeks, five recitations per week.

Geography 17. Influences of Geographic Environment. Taken after Geography 15, and 16, Geography 17 completes the year's credit. This sequence is not essential however. The course is open to all students in the senior college. Five recitations per week.

SOCIAL SCIENCES.

GEO. W. SMITH.

E. G. LENTZ.

EDGAR A. HOLT.

The following courses may be pursued by students in either the first or the second year. They should be taken in the order indicated, namely: 13, 17, 14. Course 9 should be taken after the student has done some work in the Department of Education.

Hist. 13. English History, Junior College. The value of this course lies in its relation to the Junior College course in American History which follows it. The aim is to trace the growth of English institutions and to observe briefly the planting of those institutions in America. Due attention is given to the social and economic phases of the history as well as to the political life of England. The course is concluded with the study of the Stuart period. Text: Cross' A Shorter History of England and Greater Britain.

Hist. 17. Modern Europe, Junior College. This also is a pre-

paratory course to Junior College American History. It is a study of revolutionary Europe of the eighteenth and nineteenth centuries with brief attention to the problems which in any way affected American history. Beginning with the English Revolution of the seventeenth century it covers in a general way the Old Regime, the French Revolution, the Napoleonic Era, and the Revolutions after the Congress of Vienna. The study is brought down to 1870. Text: Robinson's *Modern Europe*, Vol. II.

Hist. 14. American History. A term course giving a survey of the history of the United States from 1783 to 1861, with emphasis on political and constitutional development and with considerable attention to social and economic conditions and changes. Text: Muzzey, *The United States of America*, vol. I.

Hist. 9. Method of History, Junior College. This course has for its purpose the study of the nature of history, the organization of the subject-matter, and the consideration of the proper material for the several years of the school course. Especial attention is given to what should be done in presenting history matter to the primary and intermediate grades.

Preparing lesson plans and conducting recitations will occupy a portion of the time. Careful attention will be given to the History outline in the State Course of Study. Text: Mace's *Method*.

Hist. 15. Greek History. This course is a study of Greek civilization and its meaning to world history. The general topics for discussions are: origin of the Greek peoples; their migratory movements; the city-state form of government; sources of culture, art, literature, education, religion, science, etc.; the spread of Greek culture into Asia, Africa, and the West. Text: Bury's *Greek History*.

Hist. 16. Roman Political Institutions. In this course we take a comprehensive survey of the political institutions under the Monarchy, the Republic, and the Empire. We find the sources of many of our American political institutions in the political institutions of the Roman people. Whenever we find the opportunity we make comparisons between these Roman institutions and similar ones of our own day. Text: Abbott's *Roman Political Institutions*.

Hist. 23. The Age of Feudalism. This is a study of the origin, development and decay of feudal institutions from the age of Charlemagne to the fifteenth century. The emphasis is placed upon the political institutions, the feudal state, but the social and economic phases of feudalism receive attention. This course is preparatory of Hist. 24. Text: Thorndyke's *History of Medieval Europe*.

Hist. 24. The French Revolution. This course occupies a middle ground between the old and the new order—the final extinction of the remnants of the feudal system. Beginning with the Old Régime the study is carried through the revolutionary cycle concluding with the fall of the Napoleonic Empire.

Hist. 25. Europe Since 1870. This course begins with the Franco-Prussian War, takes up the organization of the Empire, and

traces the expansion of the governments of Western Europe. The World War in its various aspects and the world problems growing out of it is the subject of this study. Text: Turner's Europe Since 1870.

Hist. 26. English Constitutional History. The origin, growth, and present workings of the English Constitution is the special study of this course. The American political heritage from England receives due emphasis. Owing to the technical nature of the subject, Hist. 13 or its equivalent is an imperative pre-requisite. Text: Taswell-Langmead's English Constitutional History.

Hist. 27. Recent History of the United States. The history of the United States during the last sixty years is the subject of this course. Social, economic and political developments and problems, and international relations are considered topically. A term paper is required in order to acquaint the student with the methods of historical research. Text: L. B. Shippee, *Recent American History*.

Hist. 32. Political Science. A brief introductory course in comparative government. The main features of American government, state and national, are treated in comparison with significant features of other modern governments. This course is intended to follow the junior college courses, Hist. 13, 17, 14.

Hist. 35. Renaissance and Reformation. This course comprises a study of the historic forces which brought about a transition from the medieval to the modern world. The many-sided character of this highly complex revolution, political, social, economic, cultural, and religious, is the subject of consideration with a view to the student's better understanding of the immediate back-ground of American history. Text: Hulme's Ren. & Ref.

Hist. 37. The World War. A brief survey of the causes, progress, and results of the World War, giving especial attention to diplomatic matters connected with this world event. Text: Gooch.

Hist. 40. Industrial and Social England. This is a parallel course to the *Constitutional History of England*. It deals with the growth and development of the economic life of the people of England, giving proper attention to the social progress of the people. Text: Usher.

MATHEMATICS.

W. T. FELTS.

ALICE KELSEY.

The Department of Mathematics offers fourteen courses selected with a view of meeting three types of needs of students: (1) The mathematics requirement for graduation from Junior College; (2) A minimum of fifteen hours of work in the department for a special certificate to teach mathematics in two and three year high schools; (3) A major in mathematics with a minimum of twenty hours of work for a degree.

Math. 0. Freshman Arithmetic. A non-credit course in the

subject matter of arithmetic for students who lack sufficient arithmetical knowledge for Math. 30.

Math. 30. Method Arithmetic. A course in the pedagogy and psychology of arithmetic for those planning to teach arithmetic in elementary grades. Problem solving in this course is supplementary.

Math. 19. College Algebra I. A course in the algebraic topics usually covered in the third semester of high school algebra. It is a non-credit course for students offering a year and a half of high school algebra and who wish to review before taking Math. 19a. This course will not transfer to the University unless followed by Math. 19a.

Math. 19a. College Algebra II. A course such as is usually offered in colleges.

Math. 25. Trigonometry. A two and one-half hour course covering the work usually offered. Prerequisites: Col. Alg. II.; however, it may be taken at the same time as Col. Alg. II.

Math. 27. Analytics I. Cartesian coördinates, curve and equation, straight line, circle, polar coördinates, functions and graphs, transformation of coördinates, parabola, ellipse, hyperbola. Prerequisites: Trigonometry and College Algebra II.

Math. 28. Analytics II. A special study of conic sections, asymptotes, transcendental curves and equations. Prerequisite: Math. 27.

Math. 44. Calculus I. The elements of differential calculus with applications. Prerequisite: Math. 28.

Math. 45. Calculus II. The elements of integral calculus with applications and occasional advanced forms of differentiation.

Math. 45a. Calculus III. An extension of Calculus I and II. Multiple differentiations and integrations in connection with special applications.

Math. 45b. Calculus IV. A half credit course extending the work of Calculus III, Summation, mass, mean density, moments, centroids, singular points, etc.

Math. 48. Differential Equations. A course following Calculus IV covering the topics usually found in similar courses. Prerequisite, Calculus IV.

Math. 36. Descriptive Geometry. A short course in the elements of descriptive geometry to prepare for further work in engineering or mechanical courses and to enlarge and enrich the student's space concepts.

Math. 46. The Teaching of Secondary Mathematics. A course in the pedagogy of high school mathematics, algebra and geometry, planned especially for those preparing to teach mathematics in a high school.

Students who intend to major in mathematics should consult the head of the department early in their course so that the work may be planned to establish sequences and avoid conflicts.

Courses 30 and 46 should not be included in the twenty hours of mathematics offered as transfer credits to the University.

CHEMISTRY.

GEORGE BROWNE.

ROBERT A. SCOTT.

J. W. NECKERS.

T. W. ABBOTT

The growth in popular of the study of chemistry during the past has been largely due to the growing conviction that chemistry is the foundation of other sciences and of nearly all of our modern industrial processes. A knowledge of chemistry is now considered an essential part of a liberal education. During the past few years the Normal has been adding to its equipment to meet this demand and it is now prepared to give three full years of work in chemistry and thus to prepare students to teach chemistry in the public high schools and also to prepare them for entrance to the medical schools.

Chemistry 1a. General Inorganic Chemistry. For students who have had no previous study of chemistry. Periods 1 and 2, 3 and 4, or 5 and 6 during the Fall Term, or 7 and 8 during the Spring Term.

Chemistry 2a. General Inorganic Chemistry. Periods 1 and 3 and 4, or 5 and 6 during the Spring Term.

Chem. 1a is a prerequisite.

Chemistry 3a. General Inorganic Chemistry. Periods 1 and 2, 3 and 4, or 5 and 6 during the Spring Term.

Chem. 2a. is a prerequisite.

Chemistry 1b, 2b, 3b. General Inorganic Chemistry. With laboratory work in qualitative analysis. For students who have had one year's work in chemistry in their high school.

Chemistry 7. Descriptive Chemistry and Qualitative Analysis. Lectures, recitations, and laboratory work. Periods 7 and 8 during the Fall Term.

Chemistry 8. Descriptive Chemistry and Qualitative Analysis. Lectures, recitations, and laboratory work. Periods 7 and 8 during the Winter Term. Chemistry 7 is prerequisite.

Chemistry 10. Elementary Quantitative Analysis. Lectures, recitations and laboratory work. Periods 3 and 4 during the Winter Term.

Chemistry 11. Elementary Quantitative Analysis. Lectures, recitations, and laboratory work. Periods 3 and 4 during the Spring Term.

Chemistry 9. Advanced Qualitative Analysis, Inorganic.

Chemistry 12. Advanced Quantitative Analysis, Inorganic.

Chemistry 13. Elementary Organic Chemistry. Recitations and laboratory work. Periods 7 and 8 during the Fall Term.

Chemistry 14. Elementary Organic Chemistry. Recitations and laboratory work. Periods 7 and 8 during the Winter Term.

Chemistry 15. Elementary Organic Chemistry. Recitations and laboratory work. Periods 7 and 8 during the Spring Term.

PHYSICS AND ASTRONOMY.

S. E. BOOMER.

CHARLOTTE ZIMMERSCHIED.

The department provides two distinct one year courses in general physics,—one for those who have had no previous preparation in the subject, the other for those who have had a year of high school physics. The chief aims in both are to develop scientific methods in thinking, to interpret physical phenomena intelligently, and to become acquainted with many of their applications in modern life. Local industrial plants are visited and written reports required. Such subjects as spectrum analysis, radioactivity, the electron theory, and other recent discoveries and applications are emphasized to stimulate interest.

Physics 2, Mechanics and Sound; 3, Magnetism and Electricity; 4, Heat and Light, constitute the year's work for those who have had no previous preparation. Merchant and Chant's *Elements of Physics* is the text.

Physics 5. A one term course for students in Household Arts based upon those principles of physics which are applied extensively in the home.

Physics 6, Mechanics and Sound; 7, Magnetism and Electricity; 8, Heat and Light, constitute a year's work for those who have had high school physics. Stewart's text and Taylor, Watson and Howe's manual are used.

The following courses are open to those who have had either Physics 2, 3, and 4, or 6, 7, and 8, Math. 19 and 25. May be taken in any order:

Physics 13, Mechanics; Physics 14, Heat; Physics 15, Electricity.

Math. 27, 28, 44, and 45 should precede the following courses:

Physics 16, Light; Physics 17, sound; Physic 18, (half credit), Radio.

Physics 19 (half credit). Recent Advances in Physics.

Astronomy.

Astronomy 1 and Astronomy 2 constitute a two-term course. Duncan's text. Five recitations per week, together with frequent evening observations with and without the telescope, constitute the work. As the students go on in their study from the earth to the moon, the sun, the planets, the stars, and the nebulae, their vision is broadened perhaps as rapidly in this ennobling science as it can be in any subject. The varying phases of the moon and the inferior planets, the vast distances to the stars, their great magnitude and high magnitude and high velocities, their constitution, temperature, and brilliance appeal especially to those who enjoy thinking along these lines. Those who take the course will find it helpful in presenting the difficult problems of mathematical geography and in vitalizing their nature study work.

BIOLOGY.

W. M. BAILEY.

MARY M. STEAGALL.

DELIA CALDWELL, M. D.

Botany.

Biology 20. General Botany I. An introductory course in Botany. It consists of a study of the vegetative organs of the higher seed plants, their form and structure, physiological activities, and relations and adjustments to their environment. Laboratory studies, lectures and recitations. Fall Term.

Biology 21a. General Botany II. A brief study of the morphology of representative plants of the great plant groups, the general classification of plants and the evolution of the Plant Kingdom. Laboratory studies, lectures and recitations. Winter Term.

Biology 21b. General Botany III. A course in Taxonomic Botany. It consists of a study of the principles of classification and the use of manuals, and work in classifying and identifying seed plants and ferns of the local flora. Field studies, lectures and recitations Spring Term and Mid-spring Term.

Biology 22. Morphology of the Thallophyta. A study of the structures, development and relationships of the groups of Thallophyta, the evolution of the plant body, origin and evolution of sex in plants, parasitism and saprophytism in the Bacteria and Fungi. Laboratory studies, lectures and recitations. Fall Term, Third Year of College Course.

Biology 23. Morphology of the Bryophyta and Pteridophyta. A continuation of Course 22. This course consists of a study of the structures, development and relationships of the liverworts and mosses, ferns, equisetums and clubmosses, evolution of the sporophyte, alteration of generations, and heterospory. Laboratory studies, lectures and recitations. Winter Term, Third Year of the College Course.

Biology 25. Morphology of the Spermatophyta. A continuation of Course 23. This course consists of a study of the structures, development and relationships of the Gymnosperms and Angiosperms, vascular anatomy of the seed plants, the development of flowers, gametophytes, fertilization, and embryology of the seed plants, and the structure and development of seeds. Laboratory studies, lectures and recitations. Spring Term, Third Year of the College Course.

Biology 26. Plant Physiology I. A study of the physiological relationships of plants and soil, absorption of water and mineral nutrients, water relations and requirements of plants, movements of materials in plants, functions of mineral nutrients. Laboratory studies, lectures and recitations. Fourth Year of the College Course.

Biology 27. Plant Physiology II. A study of the synthetic processes in green plants, digestion, translocation and uses of foods

in plants, the nutritional processes in plants without chlorophyll, respiration and fermentation, growth in plants. Laboratory studies, lectures and recitations. Fourth Year of the College Course.

Biology 28. Plant Ecology. •Plants in relation to their environment; symbiosis; plant communities and their classification; plant associations; plant succession; phenology. Spring Term, senior year.

Zoology.

These courses are planned for college students who are specializing in order to teach or to do professional work in Zoology.

Biology 1a. General Zoology. This is an elementary college course in Zoology dealing with the salient facts of Zoology. It notes the evolution of groups and varieties. The field work will be largely devoted to a study of local forms, life histories, habits and environment. Economic relations will be emphasized.

Biology 2. Invertebrate Zoology. This course follows Biology 1a. Here the single living cell will be studied in both its simplicity and its complexity; its limitations will be seen and the factors sought that give rise to the Metazoan. The rise of tissues, the combination of these, and their organization into organs and systems will be studied. The inter-relation of lower organisms will be noted in both field and laboratory, and the successive steps in the evolution of more complex forms studied. Methods of preparing invertebrate whole mounts will be given, and slides of invertebrate material prepared.

Biology 6. Entomology. A course of economic interest to students of biology, to teachers of rural and village schools and to students of agriculture. The critical point in the life histories of the common local insects will be emphasized, together with the insects' ecological and pathological importance. The relation of insects to crops, truck gardens, orchards, lawns and parks will be studied and the effectiveness of certain remedies and preventive measures for such pests. Field work and individual experiments will be encouraged. This comes preferably after Invertebrate Zoology. Methods of classifying, mounting, preserving and naming forms will be stressed.

Biology 5. Ornithology. Required, Biology 1 or its equivalent. The object of this course is to acquire ability to recognize practically all of the birds of the locality, to know their field markings, their characteristic position, calls and flight, together with their feeding and nesting habits, their economic importance in relation to agriculture and horticulture and the laws for their protection. For bird structure the English sparrow or pigeon will be used. Two field trips per week will be made, equivalent to five school hours per week. A special study of some individual bird will be made by each student. Texts: Reed's Land Birds East of the Rockies; Chapman's Birds of Eastern United States.

Biology 12. Field Zoology. This course presupposes high school Zoology or its equivalent. Types will be studied. Much

time will be spent in the field, getting local material and learning methods of doing out-door and research work. An opportunity will be given for the observation and study of an individual animal, and experimentation with it. Texts: Hegner's College Zoology; Ward and Whipple, Fresh Water Life. Allee's Synoptic Key.

These courses are prepared for those who expect to be high school teachers of Zoology or for those getting ready for such professional work as nursing, dentistry, medicine, etc.

Biology 3 and 3a. Comparative Vertebrate Anatomy. An elementary course in Zoology must precede these courses. They may precede or follow Invertebrate Anatomy.

These two courses cover the general field of Comparative Vertebrate Anatomy and should be taken in sequence. The subject is taken from a phylogenetic and evolutionary standpoint. Structures, origin of various tissues, of organs, and development of skeleton will receive especial attention. Biology 3 deals with the evolution of tissues and organs, Biology 3a with that of systems. Texts: Hyman's Laboratory Manual for Comparative Vertebrate Anatomy; Kingley's Comparative Anatomy of Vertebrates.

Biology 13 and 13a. Animal Ecology. A study in local fauna and habitat. High school or Invertebrate Zoology is a prerequisite.

Animals are considered in relation to each other and to their environment. The animal societies and formations of lake, stream and forest will be found and the factors noted that control their successions. This necessitates an acquaintanceship with all of the common animals of the region, their names, habitats, relations, characteristics and associations. Texts: Allee's Synoptic Key. Pearse's Animal Ecology. Access must be had to a number of both vertebrate and invertebrate manuals.

Biology 8. Embryology. This course is confined to Vertebrate Embryology. The chick and pig embryos will be used as types and studied in detail through whole mounts as well as serial sections. The development of the eggs of such other forms as the frog, the bird, fish, etc., will be used for comparison. The ontogeny of the individual will be studied in its apparent relation to the race phylogeny. Text: Prentiss and Arey; Manual: Lillie and Moore.

Biology 9 and 9a. Histology and Histological Technique. Biology 9a is a study in technique, while Biology 9 is the recognition of microscopic material with its relations and origin.

9 acquaints the student with microscopic structure of animal tissues, and follows their development from primitive germ layers; 9a gives latest methods of preparing histological material in both Botany and Zoology that the student may be furnished with material and equipment for doing original research in morphology, and acquire skill to work independently.

Texts: Hill's Organography, and Dahlgren and Kepler. For technique; Guyer's Animal Micrology, and Chamberlain's Methods in Plant Histology.

Physiology, Hygiene and Public Health.

Biology 24. Bacteriology and Sanitation. An introductory study of sanitary science, including a study of the morphology of microorganisms and their relationships to human interests. The course includes the following phases of the subject: sterilization and disinfection; preparation and use of culture media; growing and studying cultures; microscopic examination of microorganisms; food preservation; bacteriology of the soil, of milk and of water; and pathogenic microorganisms in relation to production of infectious diseases. One hour of lectures and recitations daily and one hour of laboratory work daily, 120 hours. Prerequisites: Elementary Physiology and Elementary Chemistry. Fall Term. Freshman Year. 3 and 4.

Biology 4a. College Physiology. A study of the anatomy, physiology and hygiene of the great systems of the human body. It will include a study of digestion, secretion and excretion, metabolism. Special emphasis will be placed on the circulatory system and its close connection with digestion. One hour of lectures and recitations and one hour of laboratory work daily, 120 hours. Prerequisites: Elementary Physiology, Botany or Zoology and Elementary Chemistry. Winter Term. Sophomore Year. 5 and 6.

Biology 43. Health Education. This course will teach the meaning of health, its value to the individual and to the community, how it may be attained and how preserved. Special attention will be given to the hygiene of the mouth and teeth and to the organs of special sense. The principles of the prevention of communicable diseases will be taught and their application to the individual and to the community clearly demonstrated. This teaching will be adapted to the needs of the students themselves, for the improvement of their own health and detailed instruction will be given for the application of this work to the teaching of health in all of the grades of public schools. One hour of lectures, recitations and demonstrations daily. Fall Term, Spring Term, and Summer Term. Sophomore Year.

Biology 42. Home Nursing and Child Care. A study of the anatomy and physiology of the new-born infant and young child and the feeding and care of children in health and disease. Also a study and mastery of the more common and necessary of the nursing, procedures which can be carried out in the home, minor illness and injuries and first aid. One hour of lectures, recitations and demonstrations daily. 60 hours. Prerequisites, College Physiology and Bacteriology & Sanitation. Winter Term. Senior Year. 2.

AGRICULTURE.

R. E. MUCKLERoy

The aim of the Agriculture Course is to develop a better appreciation of farm life by study of economic production, and to enable those who choose the work to teach it to others or to find a safe and profitable employment in the practice of farming.

The Normal owns a 110 acre farm which lies just south of the campus. In addition to the regular class work, students are required to make observations and to study the various phases of livestock farming on this farm. Demonstration plots are used to illustrate the various methods of soil treatment in relation to crop production. Students carry on project work from time to time with the various crops.

All the animals kept on the State Farm are pure bred. Percheron horses, Holstein cattle, Shropshire sheep, Poland China hogs, Barred Rock and Single Comb Rhode Island Red chickens, are used for class demonstration and judging work. Demonstration work in the feeding of farm animals is also carried on each year.

Students of the department find it profitable to join the Agricultural Club. While this club is more or less of department work, it is one of the factors promoting student life and the best interests of the institution. The club meets every Wednesday evening of the school year. The programs are made up of music, optionals, studies in soils and crops, livestock production and improvement, and community work.

An. Husb. 5. Principles of Feeding. Relations of plant and animal life, elements of nutrition, composition of plants and animals, digestion, composition of feeds, relative values in balanced rations.

An. Husb. 5a. Principles of Feeding. Balanced rations, feeding trials on State Farm, study of various feeding trials from different Universities, value of economic feeding and management.

An. Husb. 32. Livestock Judging. Leading characteristics of the various breeds of livestock, native homes, selection for feed lot, market requirements, breeding, nomenclature of external parts, score card and comparative judging.

An. Husb. 32a. Livestock Judging. Better livestock in relation to economic production, type, utility, show form, judging and management.

An. Husb. 7. Dairy Production. Balance of factors on a dairy farm, buildings, fields, rotation of crops, study of breeds.

An. Husb. 7a. Dairy Production. Breed history, feeding, herd testing, breeding, management.

An. Husb. 6. Principles of Breeding. The work embodies variation, mutation, inheritance of acquired characters, the pure line, segregation and dominance, reversion, blending inheritance, mendelian factors, theory of sex determination, prepotency, influence of environment, methods of animal breeding, and the factors involved in conducting breeding experiments. (Laboratory work.)

An. Husb. 4a. Poultry. Pigmentation, molting, inheritance of type, breeding, mating, influence of environment, incubation, feeding for early maturity, market conditions, marketing, poultry farming, including ways and means of developing the industry, results of egg laying contests.

Agronomy 1. Farm Crops. Fundamentals of soil fertility

glaciation, adaptation of crops, insects and methods of control. (Laboratory.)

Agronomy 2. Farm Crops. Cereal crops. A study of plant structure, habits, characteristics, requirements, methods of production and harvesting. (Laboratory.)

Agronomy 3. Farm Crops. Forage crops. A study of plant structure, requirements, habits, and characteristics, with special attention given to legumes and crop rotations. (Laboratory.)

Agronomy 5. Soil Physics and Management. The value and functions of organic matter. Soil moisture, erosion, drainage, aeration, temperature, tillage and irrigation. (Laboratory.)

Teachers' Course 4. The course is planned for teachers with farm experience who wish to teach agriculture in the country or village schools, and who do not care to take the regular courses.

The fundamentals of soil fertility and livestock production will be organized with a view of making the vital point of contact with school and community life.

Teachers' Course 10. Rural Life. A course planned for those interested in rural welfare. Study of rural life conditions, needs, standards, ways and means of improvement. The place of agriculture in community life. Problems of elementary and secondary school agriculture.

Horticulture 6. Elements of Horticulture. Vegetable gardening,—the production of vegetables for home use.

Horticulture 7. Small Fruits. History, varieties, propagation, harvesting, and storing.

Horticulture 8. The principles of fruit growing with special reference to the home orchard; pruning, spraying, and marketing.

HOUSEHOLD ARTS.

GRACE E. JONES
LUCKY K. WOODY.

Household Arts 2. Garment Making. This course embraces both hand and machine work. Stress is laid upon the suitability of material and trimmings and upon economical purchasing. The work involves the use and alteration of commercial patterns, some drafting and the various methods of trimming. The work in textiles embraces the history of the industry and the fundamentals of cloth making. Text: Textiles, by Woolman and McGowan.

Household Arts 3. Dressmaking. The work involves the making of two summer dresses, a study of materials, color combinations and line in dress, some drafting of patterns and elaboration of plain patterns.

In textiles the work includes the study of the important fibres in relation to careful buying.

Prerequisite: Household Arts 2.

Text: Textiles, by Woolman and McGowan.

Household Arts 5, 6, 7. Foods and Cookery. A year's course

in the study of the production, marketing, relative costs, nutritive value, and preparation of food. The principles of cookery are developed by the use of experiments.

Course 5. The laboratory work is in heat, fuels, apparatus, food preservation, fruits, vegetables, starches, sugar.

Course 6. Beverages, dairy products, eggs, meat, fish, poultry, meat substitutes, fats.

Course 7. Flour mixtures, salads, desserts, meal planning and service, pure food laws, buying.

Text: Food Products, Sherman. References.

Household Arts 11. Dietetics and Nutrition. A study of food and its relation to the body. Planning dietaries for infants, children and adults. Special emphasis on the undernourished school child.

Prerequisites: Household Arts 7, Biology 4a, Chemistry 14.

Text: The Chemistry of Food and Nutrition, by Sherman; Laboratory Manual for Dietetics, Rose.

Household Arts 11. A continuation of course 11. Practice in conducting nutrition classes for the under nourished.

Household Arts 11b. Food course. A general course in food values. Prerequisites: Sixty hours of college work. Text: The Foundations of Nutrition, Rose.

Household Arts 12a. Household Economics. The economic function of the household. Its sources of income and principles of expenditure. The budget. Handling household resources. Social aspects of housing and of the food supply. Household operation and equipment.

Prerequisites: Household Arts 3, 7.

Text: Economics of the Household, by Andrews.

Household Arts 19. Costume Design and Draping. In this course dresses will be constructed in inexpensive materials. These will be planned from the standpoint of becomingness to the individual. A study of historic costume will accompany the work and be relied upon to furnish suggestions for the plans.

Prerequisites: Household Arts 3 and Art 7, or Art 27 and 28.

Household Arts 14. Advanced Dressmaking. This course involves the handling of silk and wool in tailoring, draping and the use of commercial patterns. A term paper is required following investigation and discussion. Prerequisites: Costume Design and H. A. 3.

ART.

GLADYS P. WILLIAMS.

GRACE L. BURKET.

Art 3. Blackboard drawing is valuable to those expecting to teach in the grades. Composition and perspective are studied. Drawings are from dictation, memory and imagination.

Art 4. Public School Drawing. Course for teachers in common school art for the first six grades.

Art 5. History of Art. Periods and styles of architecture;

sculpture, and painting preceding the Italian Renaissance. Texts: Reinach's *Apollo* and Hamlin's *History of Architecture*.

Art 7. Advanced Design. Continuation of the principles of design and their practical application to art in the home.

Art. 9. Clay Modeling. This course includes the making of type forms and objects based on them, simple animal forms, modeling from casts, tiles and hand built pottery.

Art 10. Advanced Water Color. Work from still life and nature. Prerequisite, Art 27.

Art 13. History of Art. Italian Renaissance to present time. Same text as Art 5. Prerequisite, Art 5.

Art 21. Commercial Design. Design with reference to its application in the business world; principles of advertising; methods of reproduction and printing. Prerequisites, Art 27 and 28.

Art 24. Bookbinding. A course to meet the increasing demands for industrial art. It covers a progressive series of problems for the grades and high school. It includes mending, rebinding, and sewing books.

Art 26. Perspective. The principles of perspective are applied in the drawing of objects singly and in groups. The course includes the drawing of interiors and exteriors of buildings.

Art 27. Theory of Color. A study of the theory of color and harmony of color. Text: Sargent's *The Enjoyment and Use of Color*.

Art 28. Principles of Design. Origin and theory of design; principles applied in costume design, tooled leather and bookbinding.

Art 29. Public School Drawing. Course for teachers in public school art for the seventh and eighth grades and high school, with special reference to supervisory and administrative duties.

Art 30. Home Decoration. Principles of design are studied in terms of the home and its furnished details from the standpoint of the designer. Reference work, color plates, and the compiling of illustrative materials are required.

Art 31. Freehand Drawing. Perspective and freehand drawing using pencil, ink, charcoal, and other media; study of values stressed in graphical representation.

Art 7a. Design, Elements of Composition. Elementary study of simple architecture problems. Mediums: pencil, pen and water.

Art 7b. Design. Talks and laboratory work dealing with the principles of design and color with typical problems to illustrate their use in the home. Batik designs studied and developed.

Art 9a. History of Architecture. Ancient to Modern times; considering, influence of material, climate, political and economic conditions on styles of architecture; evolution of structural and ornamental forms. Text: Hamlin's *History of Architecture*.

Art 15. Freehand Drawing. Charcoal drawing from the cast. Some drawings finished in water color washes.

Art 21a. Design, Study of Elements. Continuation of Art 7a.

MANUAL ARTS.

LOUIS C. PETERSEN.

It is the purpose of this department to bring the student into close touch with industrial methods and manufacturing processes. The industrial activities are of such far reaching importance that they are increasingly becoming subjects of special study. This department is provided with ample equipment in the line of tools, benches, and power driven machinery, and offers the student opportunity for obtaining the knowledge and practical training for teaching the manual arts. Besides the shopwork courses, mechanical drawing courses are offered and are open also to pre-engineering students.

Students with the required preparation may secure training in practice teaching.

Man. Arts 1. Method Elementary Construction. For teachers of the lower grades. Study of purposes and nature of contents of courses. Choice of materials. Technical and expressional handwork. Processes of construction. Preparation of materials. Management of equipment. Methods in organization and presentation of subject matter. Outline of courses. Text: Primary Industrial Arts, Wilson.

Man. Arts 1a. Method Construction. For teachers of the upper grades. Study of kinds of tools, their uses and upkeep. Kinds of materials, their history, properties and uses. Operations, construction, and shop management. Drawing, design, and construction practice of useful articles in wood and metal. Method of demonstration. Planning of courses. Text: Dooley's Principles and Methods of Industrial Education.

Man. Arts 6a. Pattern Making. Study of draft, shrinkage and finish, coring, split and loose piece patterns. Working out typical patterns. Foundry practice in moulding and core making. Casting soft metal. Text: Wood Pattern Making, McCaslin.

Man. Arts 8. Art Metal Work. This work includes the making of angles, forming curves, binding, punching, riveting, filing, sawing, drilling, beating, annealing, soldering, etching and coloring by heat and chemicals. Problems incorporating these operations are worked out.

Man. Arts 9 and 10. Machine Shop Practice. The student gains experience by doing practical work at the vise, the drill press and the lathe. He makes an analytical study of the shape and function of details of tools and machines, properties of metals, cutting tools and speeds. Text: Lathe, Bench, Forge, by Burghardt.

Man. Arts 10a. Machine Shop Practice. This course includes work on the planer, scraper, fitting and assembling machine parts; building speed lathes. Text: Machine Tool Operation, Burghardt.

Man. Arts 11, 12, and 13. Mechanical Drawing. The work begins in the fall and continues through the year. It includes the use of instruments, applied geometry, lettering, orthographic projection, developed surfaces and intersections, pictorial representa-

tion, technical sketching, architectural drawing, machine drawing, tracing and blueprinting, strength of material, and specifications. Text: Engineering Drawing, French.

Man. Arts 31. Mechanics of Machinery. Motions and velocities. Instantaneous centers. Velocity diagrams. Motion mechanism. Cams. Gearing. Gear trains. Belting. Intermittent and quick-return motion. Text, Mechanism, Keown.

Man. Arts 17. Constructive Design. A detailed study is made of the principles governing contour outline, spaces and masses as related to the proportions of furniture, machinery, and buildings. Projects are designed subject to the requirements of adaptability, strength, and beauty for the purpose intended. Text: Industrial Arts Design, Varnum.

Man. Arts 18. Instrumental Perspective. This course treats of the location on the picture planes of the perspective of points, lines, surfaces and solids. Application is made in drawings of house and parts of machinery. Text: Perspective Drawing, Lawrence.

COMMERCIAL.

T. L. BRYANT.

EDWARD V. MILES, JR.

Penmanship. This course presents the study of Penmanship in the latest methods of developing the subject. All of the work both in movement drills and in letter and word writing are studied in tempo.

The rhythm is first developed by counting. Drill on the straight line and the ovals, direct and indirect, constitute a part of each recitation.

The pedagogy of the subject as presented in the different compendiums of penmanship is carefully worked out and studied in class. Comparative values of different movements are presented, also the rise and fall of different systems.

A study of the plan as outlined in the State Course of Study is required of all taking this work.

Towards the close of each term opportunity will be given to all who desire to write for a Palmer's Teachers' Certificate. To possess a Palmer's Teachers' Certificate ranks the holder as fully equipped, not only as a master of the art of business writing, but also prepared to teach this subject in the most modern and up-to-date method. One-half credit is given for each twelve week term. Text: The Palmer Method of Business Writing.

Commercial 7. Accounting. This course in introductory bookkeeping is planned for those who have never studied the subject. The work is taught on the laboratory plan. The double entry system is introduced in the beginning and all the laws governing the debit and credit of business transactions are fully explained and mastered. The journal, day book, cash book, sales

book, purchase book, and the auxiliary books are introduced and their use in accounting fully demonstrated. A complete line of business transactions is placed in the books of original entry, posted to the ledger, trial balance taken, inventories entered, and accounts closed. A comprehensive study of the financial statement is made. Text: McKinsey's Bookkeeping and Accountancy, Vol. 1.

Commercial 8. Accounting. Partnership accounting is studied and several sets are worked out. This course embodies all the principles taught in Commercial 7. The student is familiarized with negotiable instruments and their use. Text: McKinsey's Bookkeeping and Accounting, Vol. 2.

Commercial 9. Accounting. Corporation and Manufacturing Accounting are offered in this course. It takes up the changing of books from single proprietorship and partnership to a corporation. In this work the latest systems of accounting are presented. Commercial 7, 8 and 9 require two hours each, the first is used for discussion, and the second for laboratory work under supervision. Text: McKinsey's Bookkeeping and Accounting, Vol. 3.

Commercial 13. Commercial Law. The aim of this course is to give a comprehensive training in the law pertaining to business. In the text the fundamental and governing principles of law are stated; differences in fundamental principles of dissenting authorities are referred to. Leading illustrative cases are given.

Contracts, Sales, Negotiable Instruments, Agency, and Bankruptcy are among the topics studied. Text: Child's Business Law.

Commercial 14. Commercial Law. This course is a continuation of Commercial 13, covering Bailments, Partnership, Corporations, Insurance and Property.

Commercial 15. Commercial Law. A continuation of Commercial 14 covering internal relation and control in Agency, Partnership and corporations; dissolution and accounting in agency, partnership and corporations. The case method will be used in this course.

Commercial 26, 27, and 28. Advanced Accounting. A second year course in accounting designed to give intensive study in theory and practice. This course deals with partnerships and ventures, corporations, investments, stocks and bonds, depreciation, reserves, surplus, dividends, corporate obligations, balance sheet and profit and loss statement; statement analysis for credit purposes, statement analysis for investment purposes, Mergers vs. Consolidations, Parent vs. Holding Companies, consolidated statements and fiduciary statements. Text: Advanced Accounting, Sherwood.

Commercial 29. Principles of Economics. A general survey of industrial society, its structures, its institutions, its operations. The first part of the course examines briefly the structures of medieval industrial society and the evolution of modern capitalistic industry. The second part of the course deals with certain outstanding features of the present industrial society, such as private

exchange coöperation; the pecuniary organization of society; the significance of technology; specialization and interdependence; risk and risk-bearing; concentration in large-scale production; ownership of wealth and income, and control of industry; impersonal relations; the guidance of economic activity. The third part of the course is concerned with private property competition and social control of industrial activity. Text: *Elementary Economics*, Fairchild, Furness and Buck.

Commercial 30. Principles of Economics. A continuation of Course 29, being designed to work out the principles of Values, including those determining rent, wages, interest and profits, in our peculiarly organized society. Text: *Elementary Economics*, Fairchild, Furness and Buck.

Commercial 31. The Financial Organization of Society. A broad general survey of the whole financial system. It includes a study of the nature and work of the various types of financial institutions, of the forces that have led to their development, and of their relation to the organization of industrial society. The principal forms of financial institutions covered are: coinage and monetary systems; credit; commercial banks; saving banks; bond houses; trust companies; stock exchanges, and various forms of coöperative credit associations. Text: *Financial Organization of Society*, Moulton.

Commercial 32. Business Administration. A study of business problems from the standpoint of the manager. The course covers location of plant, administration of personnel, marketing, finance, production, risk-bearing, and the selection of the best adapted business unit for a certain industry or business. Text: *Business Administration*, Marshall.

MUSIC.

DAVID S. MC INTOSH.

JULIA D. CHASTAINE.

HELEN E. MATTHES.

Music 1. Sight Singing, Ear Training. This course is offered to those students who have not had elementary training in music. It consists mainly of sight-reading simple songs and exercises; but also includes drill in pitch, rhythm, and theory; formal ear training (response, oral and written); song singing by use of syllables; and appreciation of music (listening lessons). Text: *School Music Handbook*, by Cundiff-Dykema.

Music 2. Method Music. A course designed to meet the music requirements demanded of grade teachers. The work covers pedagogic principles of music teaching, observation in Training School, practice in lesson plans, and practical experience in class teaching.

Prerequisite: Music 1, or previous training equivalent to that course. Text: *School Music Handbook*, by Cundiff-Dykema.

Music 3. Practice Teaching. This course offers an opportunity to teach music in any grade of the Training School. All teaching will be under the supervision of members of the music department. Class will meet once a week for further training in methods, for discussion of problems encountered while teaching, and for general discussions with supervisors. Text: *School Music Teaching*, by Karl Gehrken.

Music 5. Harmony. The work covers the formation of major and minor scales, a thorough study of intervals, the common chord, and harmonic progressions. Prerequisite: Music 1 or equivalent.

Music 6. Harmony. A continuation of Music 5. The course covers harmonic progressions, the chord of the sixth and the six-four, the dominant seventh and its inversions, and natural modulations.

Music 7. Music Appreciation. A course designed to assist the student in undertaking music. Prerequisite: Music 2.

Music 8. Method Music. A continuation of Music 2. More advanced methods are studied and especial emphasis is given to the junior and senior high schools. Courses of study are made to include all of the music work required in the eight grades of the elementary school and the work of the junior high school.

Music 9. Band and Orchestra Methods. This course is offered only during the summer session. It offers a study of all the orchestral instruments, the common band instruments, and scoring for the orchestra. Considerable attention is given to the art of conducting with opportunities to direct the school orchestra. The entire course is outlined and conducted in terms of the grade school and high school band or orchestra. Prerequisite: Music 5.

Music 10. History of Music. A general course covering the important movements of the following periods: uncivilized and ancient music, medieval music, the sixteenth century, the seventeenth century, the eighteenth and early nineteenth century.

Music 11. Harmony. (Second year.) A study of the dominant seventh and its inversions, diminished sevenths, secondary chords of the seventh; chords of the ninth, eleventh, and thirteenth. Text. *Modern Harmony*, by Foote and Spalding.

Music 12. Harmony. A continuation of Music 11. Chromatically altered chords, suspensions, ornamental tones, and modulations. Text: *Modern Harmony*, by Foote and Spalding.

Applied Music.

Class instruction in piano, violin, and other orchestral instruments is elective. Classes recite three days each week, one credit being given for three terms' work.

Music 21, 22, 23. Violin First Year. The subject matter of the text used is correlated with the singing lesson wherever possible. Emphasis is placed upon the mechanics of the instrument by employing: (1) short and easily memorized exercises in rhythmic form for the development of the bow hand and arm; and (2) tech-

nical exercises suitable for young beginners designed for the purpose of training the left hand. Text: Max Fischel's Graded Course, Book 1 and Book 2.

Music 24, 25, 26. Violin Second Year. The work of the second year provides for the presentation and the development of the third position, the more difficult keys, rhythms, bowings, and the easier harmonies; during the latter part of the year the seven positions in scale form are used. Text: Elementary Violin Lessons by Eugene Gruenberg and Max Fischel's Book 3.

Music 40, 41, 42. Piano First Year. Teaching of the rudiments of piano playing from one of the most approved methods for beginners. Careful attention is given to hand culture, touch, music notation, rhythm and ear training. Text: Standard Graded Course of Studies by W. S. B. Mathews.

Music 43, 44, 45. Piano Second Year. The W. S. B. Mathews Standard Graded Course continued.

The University maintains a band, orchestra, and a chorus. Students who are especially interested in music are urged to apply for membership in at least one of these organizations. One credit is given for three terms' work in any of these organizations.

PHYSICAL EDUCATION.

WILLIAM MC ANDREW.

FRANCES D-L. ETHERIDGE

HARRIET B. RODGERS.

LELAND P. LINGLE.

Men:

First Year.

Physical Education 7. Fall Term. This course consists of calisthenics, marching tactics, and particular attention is paid to posture.

Physical Education 8. Winter Term. A continuation of the calisthenics and marching tactics with the addition of stress laid on basket ball and volley ball.

Physical Education 9. Spring Term. The greater part of this term will be devoted to games for children and adults, and some little time will be spent on track events in such a manner as to equip the student for handling that work in the grades.

All freshmen are required to take physical training throughout the year. Unless a student is a member of one of the team squads he will be required to take courses 7, 8, and 9.

Physical Education 10. Coaching is offered during the first six weeks of the Summer Term. The work covers basketball and track, and for those who desire it, football. The theory and practical application of the courses offered is gone into thoroughly, particularly a firm grounding in the fundamentals being demanded. The object of the course is to fit the student to coach in high school. Five periods per week.

Physical Education 11. The school supports a football team during the Fall Term. Physical training credit is given to men retained on the squad. Students are not dropped from the squad because they have no chance of making the team. They are encouraged to work for the physical benefits and to learn the game, as not a few who are unable to make the team ultimately coach this branch of athletics.

Physical Education 12. A basketball team represents the school during the Winter Term. The statement above concerning the football team holds true for basket ball.

Physical Education 14. Track. The same facts hold for this branch of sports as for courses 11 and 12.

Physical Education 15. Credit in the fall and spring may be obtained by playing tennis.

Physical Education 16. Interclass basket ball teams are formed and a regular schedule played during the Winter Term. Credit is given to the men who make the teams, except freshmen.

Physical Education 17. Methods and Materials. A general course in the methods of teaching physical education, including the history, aims, and values of physical education with classification of activities according to the age interest and development of elementary school children; also exercises, games, and rhythm material.

Physical Education 18. Coaching. A course in methods and practice of coaching the following games: soccer, playground ball, basket ball, volley ball, and speed ball. A short survey of track and field work will be included.

Physical Education 19. Playground. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the modern play movement is studied in connection with practical applications and practice of games and playground activities.

Women:

First Year.

Physical Education 1. Practice. Fall Term. Educational gymnastics, games and folk dancing, marching tactics.

Physical Education 2. Practice. Winter Term. Recreational gymnastics, marching tactics, group games, advanced folk dancing.

Physical Education 3. Practice. Recreational gymnastics, marching tactics, athletics, group games, advanced folk dancing, rhythm work and elementary interpretative dancing.

Second Year.

Physical Education 4. Methods and Materials. A general course in the methods of teaching physical education, including the history, aims, and values of physical education with classification of activities according to the age interests and development of elementary school children; also exercises, games, and rhythm material.

Physical Education 5. Coaching. The rules and methods of coaching organized games for girls. Field hockey, basketball, volley ball, and baseball will be studied from the coaching standpoint.

Physical Education 6. Playground. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the modern play movement is studied in connection with practical applications and practice of games and playground activities.

Illinois law requires 144 forty-minute periods of physical education for graduation from normal schools.

THE TRAINING SCHOOLS.

The Training Schools include the following branches:

1. The Rural Practice Schools, which give practice for Junior College Graduation, include five rural schools located in near-by districts.

2. The Allyn Training School, which gives elementary school practice for Junior College graduation, is located on the campus.

3. The Brush Training School, which gives elementary school practice and training for grade principalships, is located in the city. The practice is for Junior College graduation.

4. The University High School, which provides the practice teaching required for Senior College graduation, is located on the campus.

GENERAL INFORMATION

Past experience in teaching will receive no practice credit.

Three units of practice work are required for Junior College graduation. This work will usually be done in the elementary grades.

Three units of practice work are required for Senior College graduation. This work will usually be done in the University High School, and it is expected that it be done in the student's major or minor subjects.

Application for practice work, except Practice 1, must be made at the beginning of the term preceding the term in which the practice teaching is desired. Assignments in practice teaching will be made on the basis of the student's scholastic attainment and demonstrated ability.

RURAL PRACTICE DEPARTMENT.

During the year we have had charge of five rural schools for the purpose of giving rural practice teaching to those who have elected to teach in the country, or in small villages:

The Buckles School, Dist. No. 98, Jackson County.

The Wagner School, Dist. No. 136, Jackson County.

The Bridge School, Dist. No. 92, Jackson County.

The Foreville School, Dist. No. 38, Williamson County.

The Pleasant Grove School, Dist. No. 104, Jackson County.

Within the year over one hundred sixty teachers have taken one or two terms of work in one or another of these schools. More than one hundred of them are now under contract to teach in rural or village schools during the present school year. Added to this large number are many more who had taken our courses in previous years and who are now teaching in various country schools of Southern Illinois. Taken together this makes a respectable showing among the rural and village teachers of this end of the state.

It is our purpose to follow up these teachers as far as possible to see what success they are having in their actual teaching experience in order to strengthen our course in its weaker phases. Several of them, it is now known, have met with such good success that their salaries have been materially increased. Others have proved satisfactory, and with some more practical experience they will be numbered among the best teachers.

One credit is given for six weeks of practice teaching. During this time the teacher puts in three and one-half sixty minute periods each day in the school, and is busy all the time. This equals four and two-thirds periods of forty-five minutes each day, or one hundred forty of such periods for the credit.

In addition to the above, students are required to submit a note book containing anything received from the course which they think might help them when they go out to teach for themselves. Plans, also, for two distinct recitations daily must be submitted and approved by the critic teachers.

For the coming year we have agreed to teach six of these rural schools as follows:

The Wagner, Dist. No. 136, Jackson County.

The Pleasant Grove, Dist. No. 104, Jackson County.

The Bridge, Dist. No. 92, Jackson County.

The Glade, Dist. No. 96, Jackson County.

The Buckles, Dist. No. 98, Jackson County.

The Foreville, Dist. No. 38, Williamson County.

All of these schools are to begin September 1st, two weeks before the opening of the College.

The course in rural practice will consist in—

(a) Attention to the purely physical phases of rural or small village schools; such as, the proper heating, lighting and ventilating of rooms; cleanliness in all its aspects; water supply; blackboards; maps; globes; libraries; toilets, etc.

(b) The beautifying of school premises, clean up days, patrons days, parent-teacher associations, club work for boys and girls.

(c) Rural health problems, play and playground activities with a touch of rural sociology.

(d) All routine factors of school management, as, the passing of lines, passing of work materials and other factors in time-saving.

(e) The use of the state course of study and some supervised study and individual instruction.

(f) The proper use of maps, globe and other apparatus.

(g) The technique of teaching Reading, Spelling, Writing, Arithmetic, Language, Geography, and History.

(h) Methods of control, proper questions to ask, etc.

THE LIBRARY.

The Wheeler Library possesses a working collection of 27,200 books and 1,500 pamphlets. Although accession records show the entry of 39,375 volumes since the library was started, many books have necessarily been withdrawn because of loss or hard usage, so that according to accurate inventory figures 27,200 books are actually on the shelves and in circulation. One thousand two hundred of these volumes have been added during the past year.

Both books and pamphlets are classified according to the Dewey decimal classification. The dictionary catalog has three entries (author, title, and subject) for each book, and many books also have analytical subject headings. Books have been selected with reference to the needs of the various departments, and include standard works in literature, travel, history, science, philosophy, education, and art, as well as such general reference books as dictionaries, encyclopedias, yearbooks, atlases, and quotations.

Periodical literature of permanent value is bound and made accessible by the use of the Reader's Guide. The library receives 125 of the best current periodicals. Bibliographical material on children's literature and children's illustrated books are available, in addition to a large collection of classified pictures for the use of all departments. Government reports are received and cataloged.

The library is open on school days from eight to five-thirty, and on Saturday morning. During the Summer Term special hours are announced.

UNIVERSITY HIGH SCHOOL.

A high school department with enrollment limited to 55 in each year except the fourth is maintained. In common with all the better class teacher training institutions we find it necessary to provide practice teaching of secondary rank to fit our graduates for high school positions. Furthermore, conditions in Southern Illinois cause us to enroll a good many students who have never had secondary privileges and who are too old to feel at home among the boys and girls of the ordinary high school.

COLLEGE ENTRANCE EXAMINATIONS.

College entrance examinations may be taken only at the beginning of the student's school year. Students who wish to enter the college but whose high school work is incomplete may make up by these examinations any deficiency, provided it does not exceed 10 of the 15 year credits required for entrance. Entrance examina-

tions are not given in the laboratory subjects such as Chemistry, Physics, Biology, Manual Arts, Agriculture, Domestic Science.

Any person who wishes to take these examinations must apply in writing at least two weeks before the examinations, submitting an official list of the high school credits already earned and stating the subjects in which the candidate wishes to be examined.

The student's credits earned in high school and by these examinations must satisfy the entrance requirements of the college which are given on page 22 of this catalog.

The questions for these examinations will be based on the description of courses in the high school manual of the University of Illinois. A copy of this manual may be seen in the office of the local high school principal or in some cases may be obtained from the University. Additional information may be obtained by writing this school.

SUMMER TERM—SECOND SESSION.

SUGGESTED SECONDARY COURSE.

First Year.		
Fall.	Winter.	Spring.
English I	English I	English I
Algebra I	Algebra I	Algebra I
Elective	Elective	Elective
Elective	Elective	Elective
Second Year.		
English II	English II	English II
Pl. Geometry	Pl. Geometry	Pl. Geometry
Biology	Biology	Biology
Elective	Elective	Elective
Third Year.		
English III	English III	English III
Elective	Elective	Elective
Elective	Elective	Elective
Elective	Elective	Elective
Fourth Year.		
English IV.	English IV	English IV
U. S. History	U. S. History	U. S. History
Elective	Elective	Elective
Elective	Elective	Elective

Following are the requirements for graduation and college entrance:

LIST A—*Required*

English I, II, III	-----	3 years
Algebra I	-----	1 year
Plane Geometry	-----	1 year
		<hr/>
		5 years

LIST B—*Elective*

Latin	-----	2 to 4 years
French	-----	2 years
English IV	-----	1 year
Advanced Algebra	-----	1/2 year
Solid Geometry	-----	1/2 year
Trigonometry	-----	1/2 year
Ancient History	-----	1 year
American History	-----	1 year
Commercial Geography	-----	1/2 year
Geology	-----	1/2 year
Mediaeval and Modern History	-----	1/2 to 1 year
English History	-----	1/2 year
Civics	-----	1/2 year
Economics	-----	1/2 year
Physiography	-----	1/2 year
Biology	-----	1 year
Physics	-----	1 year
Chemistry	-----	1 year

LIST C.

Agriculture -----	1 to 3 years
Bookkeeping -----	1 year
Business Law -----	$\frac{1}{2}$ year
Commercial Arithmetic (only after Algebra) -----	$\frac{1}{2}$ year
Domestic Science -----	1 to 3 years
Drawing, Art and Design -----	$\frac{1}{2}$ to 1 year
Drawing, Mechanical -----	$\frac{1}{2}$ to 1 year
Manual Training -----	1 to 2 years
‡Music -----	1 year
Shorthand and Typewriting (together) -----	1 to 2 years
‡Penmanship -----	$\frac{1}{3}$ to 1 year
‡Physical Training -----	$\frac{1}{3}$ to 1 year

‡Not good for college entrance.

Of 16 year credits required for graduation, the 5 units of List A are prescribed for all courses. Of the 11 units that remain, 6 must be selected from List B. The remaining 5 units may be selected from List B or List C or both. Only 1 unit may be made up of subjects not good for college entrance.

Additional Requirements for Special Courses.

Students who expect later in College or University to take up any of the following courses:

Literature and Arts, Journalism, Pre-Legal, Household Administration and Home Economics must take 2 years of Latin, French or Spanish (both units in the same language).

For Pre-Medical courses, students must have two years of the same foreign language and also 1 year of History and Civics.

For University courses in Chemistry and Chemical Engineering students must have 2 years of French, 1 year of Chemistry in addition to another unit of laboratory science from List A, and also Advanced Algebra $\frac{1}{2}$ year.

For University courses in Commerce and Business Administration, students should take 2 years of Latin, French or Spanish (both units in the same language) or Advanced Algebra $\frac{1}{2}$ year and Solid Geometry $\frac{1}{2}$ year or Science (in addition to the unit of List A) 1 year.

Students who look forward to Engineering must take Advanced Algebra $\frac{1}{2}$ year and Solid Geometry $\frac{1}{2}$ year.

For University courses in Agriculture, 1 year of Science (in addition to the unit of List A) must be taken.

For University courses in Music, the student must have Latin, French or Spanish, 2 year (both units to be in the same language), and Music 2 years.

The student who plans to take University courses involving College Mathematics, Physics, or Advanced Chemistry including the Curriculum in Home Economics, the Pre-Medical Curriculum, and the Curriculums in Commerce and Business Administration in which University courses in Mathematics are prescribed should take $\frac{1}{2}$ year of Advanced Algebra.

ENGLISH.

First Year.

Literature and Life. Book One; drill in punctuation, oral and written composition. In addition, the following books will be read:

Eng. I-1. (Fall Term.) Selected novels, Christmas Carol.

Eng. I-2. (Winter Term.) Last of the Mohicans, Treasure Island.

Eng. I-3 (Spring Term.) Merchant of Venice, Richard Carvel.

Second Year.

Literature and Life. Book Two; punctuation, oral and written composition. In addition, the following books will be read:

Eng. II-1. (Fall Term.) Quentin Durward, The Crisis.

Eng. II-2. (Winter Term.) Ivanhoe, Man for the Ages.

Eng. II-3. (Spring Term.) The Oregon Trail or Vandermark's Folly, Merchant of Venice, Idyls of the King.

Third Year.

Halleck's English Literature, Century Hand Book.

Eng. III-1. (Fall Term.) Prologue to Canterbury Tales, Macbeth, The Moonstone, The Virginian.

Eng. III-2. (Winter Term.) Carlyle's Essay on Burns, Sir Roger de Coverly, David Copperfield, Modern Plays.

Eng. III-3. (Spring Term.) Essay on Johnson, Palgrave's Golden Treasury, Kenilworth, Vanity Fair.

Fourth Year.

Eng. IV-1, Eng. IV-2, Eng. IV-3. Century Hand Book, House of Seven Gables, Hamlet, Talisman, three modern novels, Moulton's Short Stories, Twelfth Night, Jane Eyre, Franklin's Autobiography, Emerson's Essays, Burke's Speech on Conciliation, Theme Building.

LATIN.

Four years of secondary Latin are offered. The general aim of the course is to create an abiding interest, to develop subsidiary values, and to prepare for college.

Latin I. Text: Place's Beginning Latin.

Latin II. Texts: Place's Second Year Latin and Scott's Latin Composition. The equivalent of the traditional four-book course is covered.

Latin III. Cicero's Orations. Texts: Johnston and Kingery and Scott's Prose. An amount equal to six orations is required. With strong classes some letters, or a bit of Ovid or of Sallust may be read.

Latin IV. Virgil. Text: Knapp's Virgil's Aeneid with Ovid. An effort is made here to develop a feeling for some of the finer literary qualities involved in translation.

FRENCH.

French I. Méras, Le Premier Livre. Worman's First French Book. Guerber, Contes et Légendes.

French II. Lavissee, Histoire de France. Mairret, La Tâche du Petit Pierre. Dumas, Le Comte de Monte Cristo. Mérimée, Colomba. French-English Dictionary. Reference Grammar. French Newspapers.

ART.

Freehand Drawing. This course is offered to meet the requirements of the State University for college entrance. Time required—two hours daily. Subjects covered—perspective, pencil technique, design, blackboard drawing, and elementary water color.

Fall Term: One hour of perspective and one hour of blackboard drawing.

Winter Term: One hour of perspective, one hour of design and pencil technique.

Spring Term. Elementary water color.

HISTORY.

The Senior High School courses in History are:

Medieval History—one-half year.

Modern History—one-half year.

English History—one-half year.

American History—one year.

Civics—one-half year.

Economics—one-half year.

GEOGRAPHY.

Physiography. This is a High School course devoted entirely to the physical phases of geography and their influences. Laboratory work and field observations are an essential part of the work. This is an 18 weeks' course. Text: Salisbury's Physiography, Briefer Course.

Industrial and Commercial Geography. This course deals primarily with the commerce and industries of the United States, but with a less intensive survey of other countries. Text: Smith's Commerce and Industry. This is an 18 weeks' course.

MATHEMATICS.

Alg. I-1. The fundamental operations with literal and signed numbers, scale drawings and graphs, simple equations, stating algebraically simple problem situations.

Alg. I-2. Factoring and fractions, stating and solving problems involving the difficulties of factoring and fractions, the line graph.

Alg. I-3. Simultaneous equations with both numerical and literal coefficients, with both integral and fractional terms, involution and evolution, radicals, and quadratics.

The student should plan to take these courses the first year beyond the eighth grade.

Geom. I-1. Book I of Plane Geometry.

Geom. I-2. Books II and III of Plane Geometry.

Geom. I-3. Books IV and V of Plane Geometry.

The usual theorems and exercises of Geometry are covered, including symmetry, maxima and minima, and incommensurables. Emphasis is placed upon proper methods of study. Power and independence are aims rather than retention of a large mass of information.

Elective—Advanced Algebra, $\frac{1}{2}$ year; Solid Geometry, $\frac{1}{2}$ year.

CHEMISTRY.

To meet the needs of students preparing for college the following courses, making a high school unit, are offered:

Chemistry I-1. Elementary Chemistry. Recitations and laboratory work. Periods 1 and 2 during the Fall Term.

Chemistry I-2. Elementary Chemistry. Recitations and laboratory work. Periods 1 and 2 during the Winter Term. Chem. 1 is prerequisite.

Chemistry I-3. Elementary Chemistry. Recitations and laboratory work. Periods 1 and 2 during the Spring Term. Chem. 2 is prerequisite.

PHYSICS.

High School Physics. A year is given to Physics—mechanics and heat the Fall Term, electricity the Winter Term, sound and light the Spring Term. Seven periods per week. Practical Physics, Millikan and Gale. A Laboratory Course in Physics, Millikan, Gale, and Bishop.

BIOLOGY.

Elementary Botany. An elementary course in Botany of high school rank. The study of plants is approached from the physiological viewpoint, with the nutrition of the plant as the central theme. Sufficient study of anatomy and physiology of plants is included to make possible an understanding of the processes of nutrition and reproduction in plants. Recitations five periods per week, Laboratory and field studies five periods weekly.

Elementary Zoology. This high school course in Zoology has as its purpose to give a general view of the field of Vertebrate Zoology. Type studies will be used to represent two great groups. Scientific approach will be given by the working out in the field

and laboratory of a group of problems leading to the discovery and study of a few of the basic biological principles. These studies will also include an acquaintanceship with animal life in its ecological relations, geographical distribution and economic relations.

Elementary Physiology. This is beginning Physiology and is given in the second year high school. It includes human anatomy, the structure and elementary composition of the body, with the physiology, the performance of all the functions of the body. It also includes an elementary study of health and sanitation, especially the student's health, and the sanitation of the school and home. Spring or Fall Term. One hour of recitation and one hour of laboratory work daily—120 hours.

AGRICULTURE.

Animal Husbandry. Farm animals. This is an elementary course in animal husbandry, covering the types and breeds, life history, native home, adaptability and popularity of our domestic animals.

Animal Husbandry. Farm Animals. This is a continuation for six weeks of Animal Husbandry completing the semester's work. Breed characteristics, food nutrients, an explanation of the balanced ration and the Babcock test will be the work of this course.

Animal Husbandry. Poultry. Selecting the farm flocks, types, breeds, varieties, feeding and general management.

Animal Husbandry. Sheep. Origin of the sheep industry, adaptability, types, breeds, market classes and grades, grades of wool, establishing the pure bred flock, grading for market, care and management, feeding and housing, adaptability to Southern Illinois.

Animal Husbandry. Beef Cattle. The work in beef cattle includes the general problem of fattening cattle for market, relations of cattle feeding to soil improvement, business phases of feeding, production and feeding of baby beef, market classes and grades, general equipment, diseases, breeding beef cattle, and the elementary principles of cattle feeding and breeding.

Animal Husbandry. Dairy Cattle. The dairy cow as a food producer, characteristics, types, breeds, native homes, historic development, adaptation to climatic conditions, judging, selection, breeding for production, and balanced rations will constitute the larger part of this term's work.

Animal Husbandry. Elementary Feeding. This course deals with the classification, digestibility and functions of feed nutrients, values of feeding materials, and balanced rations for farm animals.

Agronomy. Elementary Soils. The last six weeks of the Winter term will be devoted to the physical properties of soils, type soils, size of soil particles, pore space, internal surface area, water holding power, and air circulation.

Agronomy. Elementary Soils. This course will include the ten essential elements of plant food, sources of the different plant foods, water, air and soil, limiting plant foods, organic matter and legumes, crop rotation and the replacement of foods taken out by plants of crops, the purchase of limestone and rock phosphate, and the fundamental principles of a permanent fertility.

Horticulture. Elements of Horticulture. Fruit growing in general for home consumption, the family orchard, economic importance, general ornamental planting to beautify the farm home.

MANUAL ARTS.

Manual Training I. One-half the time is spent in actual woodworking, involving the use of different tools, and the application of common joints in useful articles. The other half is spent in a study of allied industries, and mechanical drawing, which conforms to standard methods in technique, and so far as possible, has a practical connection with shop work. Text: Woodwork for Secondary Schools—Griffith.

Manual Training II. Care and operation of power machinery. Practice in furniture construction, upholstering, and finishing as employed by cabinet makers. Practice in pattern making and molding for simple castings. Text: Art in Woodturning—Klenke. Wood Pattern Making—Hanley.

COMMERCIAL.

Penmanship. This course presents the study of Penmanship in the latest methods of developing the subjects. All of the work, both in movement drills and in letter and word writing, are studied in tempo.

The rhythm is first developed by counting. Drill on the straight line and the ovals, direct and indirect, constitute a part of each recitation.

The pedagogy of the subject as presented in the different compendiums of penmanship is carefully worked out and studied in class. Comparative values of different movements are presented, also the rise and fall of different systems.

A study of the plan as outlined in the State Course of Study is required of all taking this work.

Towards the close of each term opportunity will be given to all who desire to write for a Palmer's Teachers' Certificate. To possess a Palmer's Teachers' Certificate ranks the holder as fully equipped, not only as a master of the art of business writing, but also prepared to teach this subject in the most modern and up-to-date method. One-half credit is given for each twelve week term. Text: The Palmer Method of Business Writing.

Commercial Arithmetic. Short methods in dealing with the fundamentals. Aliquot parts of 100. A mastery of the 45 combina-

tions. Tables of denominate numbers. Fractions. Formulas used in percentage and their applications. Formulas used in mensuration. Solving and analysis of problems by mental processes.

Vocational problems in mensuration, lumber, building, plastering, papering, carpeting, painting. Land measure. Base Line. Principal meridian. Township section and its divisions. Distance. Surfaces. Solids. Capacity. Ratio and Proportion. Longitude and Time.

A mastery of single column addition. Some time will be given to double column addition. Short cuts in dealing with the fundamentals. The single equation method of stating and solving problems and checking results. Arithmetical problems in business.

Denominate numbers. Bills. Statements. Accounts. Sales. Shipment. Cash account. Bank account. Closing and ruling ledger accounts. Daily balances. Percentage. Profit and loss. Interest. Bank discount. Trade discount. Brokerage. Commission. Premium. Stocks. Bonds. Insurance. Taxes. Negotiable paper. Text: Smith's Arithmetic of Business.

Equation of accounts. Cash balance. Partnership. Trading account. Profit and Loss. Inventories. Financial Statement. Present worth. Balance sheet.

Building and Loan Associations. Terminating. Serial. Permanent Earnings. Distribution of profits. Annual reports.

Shorthand I-1. (Fall Term.) The principles of the system as found in the first six lessons of the Gregg Manual form the basis of study. Writing from dictation and reading from notes and printed plates are a part of the program. Texts: Gregg Shorthand Manual, Gregg Speed Studies; Graded Readings in Gregg Shorthand.

Shorthand I-2. (Winter Term.) A continuation of Course 1. The work is carried through Lesson 12 of the Gregg Manual.

Shorthand I-3. (Spring Term.) The work started the Winter Term is continued. The Gregg Manual is completed and a theory test given.

Shorthand II-1. (Fall Term.) A short theory review is given and special attention paid to word signs and phrases. Dictation to attain speed and enlarge the vocabulary. Reading from notes and printed plates. Texts: Gregg Speed Studies; Advanced Dictation and Secretarial Training.

Shorthand II-2. (Winter Term.) A continuation of Course 1. Advanced dictation to attain speed. Typewritten transcriptions from plates and notes.

Shorthand II-3. (Spring Term.) The work started in the Winter Term is continued. Special instruction and work in secretarial practice. A note-taking speed of 100 words per minute and a transcription speed of 40 words per minute are expected before completion.

Typewriting I-1. (Fall Term.) A study of the parts of the machine and their uses; care and cleaning of the machine. The learning of the keyboard by the touch system and a series of drills fixing the position of each character. Frequent drills in rhythm. Text: 20th Century Touch Typewriting.

Typewriting I-2. (Winter Term.) A continuation of Course 1.

Typewriting I-3. (Spring Term.) Elementary Laboratory Practice. Some attention to speed.

Typewriting II-1. (Fall Term.) Business Letters with Office Practice. Secretarial Projects.

Typewriting II-2. (Winter Term.) A continuation of Course 1.

Typewriting II-3. (Spring Term.) This term is devoted to the development of speed and accuracy. A net speed of sixty words per minute is expected before completion.

Bookkeeping I-1. (Fall Term and first six weeks of Winter Term.) The principles of the system as found in the first twelve chapters of the 20th Century Bookkeeping and Accounting text are mastered, and the Practice Set on Single Proprietorship is worked out.

Bookkeeping II-2. (Last six weeks of Winter Term and Spring Term.) The principles found in chapters thirteen through twenty-three are mastered and the Practice Set on Partnership is worked out.
