First Summer Session, ¹⁹³³~~1932~~, opens Monday, June 12.

First Summer Session, ¹⁹³³~~1932~~, closes Friday, July 21.

HOMECOMING.

Saturday, November 18-19, 1932.

Every year one Friday and Saturday are set aside in the calendar of the college when former students and friends gather for two days of fun and renewal of old acquaintances. The big features are always the homecoming play on Friday evening, the Zetetic and Socratic Society reunions, 9:30 a. m. Saturday, and the football game at 2:30 p. m. Additional features such as athletic stunts, alumni breakfast at Anthony Hall, downtown parade, etc., are often provided.

FACULTY.

1932-33.

College.

Henry William Shryock, President

Preparation: Ph. B., Illinois Wesleyan.

Experience: Taught 11 years in public schools of Olney, Ill., 39th year, member of faculty of the Southern Illinois State Normal University,—as follows: 3 years head of English Department; 16 years head of English Department, Vice-President, and Registrar; 20th year as President of the institution.

POLITICAL SCIENCE

Willis G. Swartz, Head of Department

Preparation: B. A., M. A., Ph. D., State University of Iowa; 1 year graduate work, Clark University.

Experience: Head of department two years, Sterling College; taught 10 weeks Penn College; 1 year at Oregon State College; 3rd year, S. I. S. N. U.

ZOOLOGY

Mary M. Steagall, Head of Department

Preparation: Ed. B., Ph. B., M. S., Ph. D., University of Chicago.

Experience: Taught 11 years in public schools; 8 years, State Normal, Ypsilanti, Mich.; 25th year, S. I. S. N. U.

Hilda A. Stein

Preparation: B. Ed., Southern Illinois State Normal University; M. S., University of Illinois; beyond the M. S., one summer Marine Station, Friday Harbor, Wash.; 1 year of doctoral work, University of Illinois.

Experience: 10 years, public schools of Illinois; 8th year, S. I. S. N. U.

PRACTICE DEPARTMENT.

Bruce W. Merwin, Supervisor of Student Teaching

Preparation: A. B., B. S. of Education, A. M., Ph. D., Kansas University.

Experience: Served 11 years as principal and superintendent of public schools; 3 years as assistant curator, University of Pennsylvania Museum; 1 year as instructor in Education, University of Kansas; 6th year, S. I. S. N. U.

Senior High School.

ENGLISH

Florence A. Wells

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.

Experience: Taught 6 years in grade schools of Illinois; 3 years, Marissa Twp. H. S.; 8 years principal, Coulterville High School; 6th year, S. I. S. N. U.

CHEMISTRY AND AGRICULTURE

C. C. Logan

Preparation: B. S., University of Illinois.

Experience: 6 years in soil investigation and research in Illinois; 12 years in Agricultural Extension Service in Illinois, and North Carolina; 10th year, S. I. S. N. U.

HISTORY

John I. Wright

Preparation: Ph. B., University of Chicago; 20 semester hours beyond the Ph. B., University of Chicago.

Experience: Taught 4 years in public schools of Illinois; 8th year, S. I. S. N. U.

May S. Hawkins

Preparation: B. Ed., Southern Illinois State Normal University; 35 semester hours, University of Chicago.

Experience: Taught $9\frac{3}{4}$ years in public schools; served 20 years as county superintendent of schools; 6th year, S. I. S. N. U.

MATHEMATICS

Alberta Gibbons

Preparation: A. B., University of Illinois; A. M., Columbia University; beyond the A. M., 8 semester hours, Columbia University, University of Chicago, George Peabody College for Teachers.

Experience: Taught 3 years in public schools of Illinois including 2 years as superintendent of schools; 1 year, State Teachers College, Kearney, Nebraska; 7th year, S. I. S. N. U.

FOREIGN LANGUAGE

J. Cary Davis

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Chicago; 1 summer, Sorbonne.

Experience: Taught 2 years in public schools; 3rd year, S. I. S. N. U.

MANUAL TRAINING

J. Henry Schroeder

Preparation: B. Ed., Southern Illinois State Normal University; 11 semester hours of graduate work, State University of Iowa.

Experience: Taught 3 years in public schools; 2 years, Community High school, Carbondale, Illinois; 10th year, S. I. S. N. U.

Allyn Training School.

W. A. Furr, Superintendent

Preparation: A. B., A. M., Indiana University.

Experience: Superintendent of Schools, Veedersburg, Ind., 4 years; Superintendent of Schools, Ottawa, Ill., 6 years; Superintendent of Schools, Jacksonville, Ill., 8 years; lecturer in Education, Illinois College, 2 years; 20th year, S. I. S. N. U.

Dilla Hall, Principal and Critic, Junior High School

Preparation: B. Ed., Southern Illinois State Normal University; residence work for M. S. complete, University of Chicago.

Experience: Taught 4 years in public schools; 9th year, S. I. S. N. U.

Madge Troutt, Critic, Junior High School

Preparation: B. Ed., Southern Illinois Normal University; A. M., University of Chicago.

Experience: Taught 3 years in public schools; 9th year, S. I. S. N. U.

Lydia Ragsdale, Critic, Junior High School

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.

Experience: 8th year, S. I. S. N. U.

Ora Rogers, Critic, 6th Grade

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.

Experience: Taught 10 years in public schools; 5th year, S. I. S. N. U.

Mary E. Entsminger, Critic, 5th Grade

Preparation: Graduate, Junior College, Southern Illinois State Normal University; Ph. B., University of Chicago.

Experience: Taught 9 years in public schools; 11th year, S. I. S. N. U.

Ruth Husband, Critic, 4th Grade

Preparation: B. S., A. M., University of Illinois.

Experience: Taught 1 year in public schools; 4th year, S. I. S. N. U.

Lulu R. Clark, Critic, 3rd Grade

Preparation: Graduate, Junior College, Southern Illinois State Normal University; 30 semester hours, Teachers College, Columbia University.

Experience: Taught 17 years in public schools; 16th year, S. I. S. N. U.

Ruby Van Trump, Critic, 2nd Grade

Preparation: B. S., in Education, State Teachers College, Springfield, Missouri; A. M., George Peabody College for Teachers.

Experience: 2 years, College Laboratory School, Springfield, Missouri; 1 year, assistant Rural Critic, State Teachers College, Tempe, Arizona; 5th year, S. I. S. N. U.

Florence R. King, Critic, 1st Grade

Preparation: Graduate, State Normal and Training School, Oswego, N. Y.; 6 weeks, University of Minnesota; 24 weeks, University of Chicago.

Experience: Taught 3 years in State Normal School, Stevens Point, Wisconsin; 22nd year, S. I. S. N. U.

Brush Training School.

W. G. Cisne, Superintendent

Preparation: Ph. B., University of Wisconsin; A. M., University of Chicago.

Experience: Taught 11 years in public schools; served as county superintendent 8 years; 17th year, S. I. S. N. U.

Mae L. Fox, Critic

Preparation: B. Ed., Southern Illinois State Normal University; 15 semester hours of graduate work, University of Chicago.

Experience: Taught 11 years in public schools; 9th year, S. I. S. N. U.

Grace Wilhelm, Critic

Preparation: B. Ed., Southern Illinois State Normal University; 5 semester hours of graduate work, University of Chicago.

Experience: Taught 9 years in public schools; 9th year, S. I. S. N. U.

Verna Gent, Critic

Preparation: B. Ed., Southern Illinois State Normal University.

Experience: Taught 9 years in public schools; 8th year, S. I. S. N. U.

Mabel Eads, Critic

Preparation: B. Ed., Southern Illinois Normal University; 5 semester hours of graduate work, University of Chicago.

Experience: Taught 3 years in public schools; 4th year, S. I. S. N. U.

Jewell Trulove

Preparation: B. Ed., Southern Illinois State Normal University.

Experience: 3rd year, S. I. S. N. U.

Dora Bevis, Critic

Preparation: B. Ed., Southern Illinois State Normal University.

Experience: Taught 3 years in public schools; 7th year, S. I. S. N. U.

Maude Mayhew, Critic

Preparation: Ph. B., University of Chicago; 12 weeks, Teachers College, Columbia University.

Experience: Taught 13 years in public schools; 9th year, S. I. S. N. U.

Tina Goodwin, Critic

Preparation: B. Ed., Southern Illinois State Normal University; 10 semester hours of graduate work, University of Chicago; 12 weeks, Teachers College, Columbia University.

Experience: Taught 11 years in public schools; 8th year, S. I. S. N. U.

Rural Training Schools.

W. O. Brown, Superintendent

Preparation: A. B., Dixon College, Dixon, Ill.; 12 weeks, University of Wisconsin; 6 weeks, Columbia University; 24 weeks, University of Chicago.

Experience: Taught 17 years in public schools of Illinois; served 12 years as county superintendent of schools; 19th year, S. I. S. N. U.

Troy Stearns, Critic

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Michigan.

Experience: 4th year, S. I. S. N. U.

Emerson Hall, Critic

Preparation: B. Ed., Southern Illinois State Normal University; M. S., University of Michigan.

Experience: Taught 6½ years in public schools of Illinois; 4th year, S. I. S. N. U.

Gladys Smith, Critic

Preparation: B. Ed., Southern Illinois State Normal University; A. M., Teachers College, Columbia University.

Experience: 10 years in public schools of Illinois; 2nd year, S. I. S. N. U.

George Bracewell, Critic

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Michigan.

Experience: 2 years in public schools of Illinois; 2nd year, S. I. S. N. U.

LIBRARY

Fay Hart

Preparation: A. B., Illinois College; B. L. S., University of Illinois School of Library Service.

Experience: 2 years, assistant in loan department, University of Illinois Library; 1 year, head of circulation department; 1 year, branch librarian, Hibbing Public Library, Hibbing, Minnesota; 3rd year, S. I. S. N. U.

Opal Stone

Preparation: B. S. in Ed., Northwest Mo. State Teachers College; B. S. in Library Science, University of Illinois.

Experience: Taught 5 years in high schools of Missouri; 3rd year, S. I. S. N. U.

Estella Roy Crane

Preparation: A. B., Oberlin College; B. S. in Library Science, University of Illinois; 1 year, circulation department, University of Illinois Library; 3rd year, S. I. S. N. U.

Katherine Fox

Preparation: A. B., University of Illinois; B. S. in Library Science, University of Illinois.

Experience: Taught 1 year in public school; 3rd year, S. I. S. N. U.

OFFICE

GENERAL INFORMATION.

History.

According to a volume entitled "History of Jackson County," published by S. E. Harwood in 1878, it appears that the idea of a training school for teachers in southern Illinois had its earliest inception in 1868 in a meeting of teachers at an institute at Salem, Illinois. In 1870 the General Assembly passed a bill for the appropriation of \$75,000 for the construction of a building.

Citizens of Carbondale and other residents of Jackson County who were interested in the establishment of a normal school here contributed enough money to increase the original available funds to a total of \$210,000. The first building was erected on the present campus, a thirteen-acre tract of land at the southern limits of Carbondale. It was completed in 1874 at a cost of \$265,000. On July 2 of that year instruction began with Dr. Robert Allyn as President of the Faculty.

On the afternoon of November 26, 1883, this original building was almost completely destroyed by fire. Within sixty days a temporary building was completed and occupied. The original building was soon restored and was occupied in February, 1887, the present Main Building.

In 1892 Dr. Allyn retired and was succeeded by Professor John Hull, who had been a member of the faculty since 1875. Mr. Hull was succeeded as President by Dr. H. W. Everest, whose term of service extended to 1897. Within his administration the Science Building was erected. Dedication exercises were held December 22, 1896.

In 1897 Dr. Daniel B. Parkinson, who had been a member of the faculty since the opening of the college, succeeded Dr. Everest to the presidency. On June 6, 1904, Judge S. P. Wheeler, President of the Board, dedicated the library building, which was later named in his honor because of his assistance in securing the appropriation for its erection. The training school building, later named in honor of Dr. Allyn, was dedicated January 11, 1909. A woman's building, now called Anthony Hall after Susan B. Anthony, was dedicated by President H. W. Shryock on October 23, 1913, as part of the ceremonies of his installation as president.

The State Farm, a ninety-eight acre tract, lying to the south of the campus, and separated from it by a row of houses on Harwood Avenue, was purchased in part under the Parkinson administration and the remainder under the present one. The Auditorium, Gymnasium, and Chemical and Manual Arts buildings were successively occupied in 1918, 1925, and 1930. In 1930, as a result of a movement started by members of the alumni, the Normal School Board approved the naming of the auditorium after President Shryock.

When the Southern Illinois Normal University opened for its first regular session on September 6, 1874, the only requirement for admission was graduation from the eighth grade. Through a long period of struggle the requirements were gradually raised until high school graduation was required for entrance. In 1913 the Southern Illinois Normal University obtained recognition by the North Central Association as a

teacher training institution, but not until 1931 was it transferred to the fully accredited list of Colleges and Universities. In 1928 it received class A rating in the American Association of Teachers Colleges, and in 1930 this same rating was accorded it by the University of Illinois.

Terms of Admission.

All applicants for admission must present evidence of good moral character and, to secure free tuition, they must agree to teach in the public schools of the State for a time not less than that covered by their attendance upon the school. This agreement must not be entered upon unless the applicant fully intends to teach. It may become void, however, if engagement to teach cannot be secured by reasonable effort. In case of a permanent change in plan, the individual is expected to pay to the Business Agent of the Institution the difference between the regular tuition for the entire time and the incidental fees he has paid.

All other entrance requirements and all graduation requirements are provided for in the following rules adopted by the Board of Trustees of the five Normal Schools:

1. Graduates of any recognized four-year high school or academy may be admitted to any standard two-year or other curriculum of college rank.

2. Fifteen units of entrance credit from a recognized high school shall be the minimum requirement for admission to such standard curriculums of college rank.

All credentials shall be filed in advance of registration.

Following are the requirements for college entrance:

List A—Required.

English, I, II, III.....	3 years
Algebra I.....	1 year
Plane Geometry.....	1 year
	<hr/>
	5 years

List B—Elective.

English IV.....	1 year
Advanced Algebra.....	1/2 year
Solid Geometry.....	1/2 year
Latin	2 to 4 years
German	2 to 4 years
French	2 to 4 years
Spanish	2 to 4 years
Italian	1 to 2 years
Ancient History.....	1 year
Mediaeval and Modern History.....	1 year
English History.....	1/2 to 1 year
American History.....	1/2 to 1 year

Civics	1/2 to	1 year
Economics and Economic History.....	1/2 to	1 year
Commercial Geography.....	1/2 to	1 year
Physiography	1/2 to	1 year
Physics	1 to	2 years
Chemistry	1 to	2 years
Zoology	1/2 to	1 year
Botany	1/2 to	1 year
Physiology	1/2 to	1 year

List C—Additional Electives.

General Science.....	1/2 to	1 year
Astronomy		1/2 year
Geology	1/2 to	1 year
Drawing, Art and Design.....	1/2 to	1 year
Drawing, Mechanical.....	1/2 to	1 year
Manual Training.....	1 to	2 years
Agriculture	1 to	3 years
Domestic Science.....	1 to	3 years
Music	1 to	2 years
Bookkeeping		1 year
Business Law.....		1/2 year
Commercial Arithmetic (only after Algebra).....		1/2 year
Shorthand and Typewriting (together).....	1 to	2 years

Of 15 year credits required for entrance, the 5 units of List A are prescribed for all courses. Of the 10 units that remain, 6 must be selected from List B. The remaining 4 units may be selected from List B or List C or both.

ADVANCED STANDING.

1. Credits for advanced standing may be obtained:
 - a. By transfer from recognized higher institutions.
 - b. By examination.

(In order to pass off a subject by examination the student must apply to the President for permission, and no examination may be given to any student except at the beginning of the student's school year.)

- c. By earning the credit by work done in, or under the direction of the normal school or Teachers College.

2. Students coming from state normal schools in other states whose standards are the same as obtain in Illinois, may receive full credit for the work accomplished in such schools.

3. Students from city teacher-training schools in Illinois shall receive credit only after the training school has been inspected by a member of the faculty of the Teachers College or Normal University in whose supervision district the training school lies, and his recommendation confirmed by the action of the normal school presidents' council.

4. No credits shall be given for high school work in excess of the units required for graduation.

5. No credit except by examination shall be given for work done in business college or like unrecognized institutions unless such credit is recommended by the teacher in the Teachers College or Normal University in whose class the student has done one term's work.

6. Graduates of recognized colleges and universities may be admitted to a one-year curriculum.

7. Undergraduates of recognized colleges and universities may enter a Teachers College or Normal University and receive credit for such of their college work as will apply to the curriculum upon which they enter.

College Entrance Examinations.

College entrance examinations may be taken only at the beginning of the student's school year. Students who wish to enter the college but whose high school work is incomplete may make up by these examinations any deficiency, provided it does not exceed 10 of the 15 year credits required for entrance. Entrance examinations are not given in the laboratory subjects such as Chemistry, Physics, Biology, Manual Arts, Domestic Science.

Any person who wishes to take these examinations must apply in writing at least two weeks before the examinations, submitting an official list of the high school credits already earned and stating the subjects in which the candidate wishes to be examined. No examination may be taken in a subject for which the student already holds college credit.

The student's credits earned in high school and by these examinations must satisfy the entrance requirements of the college which are given on page 23 of this catalog.

The questions of these examinations will be based on the description of courses in the high school manual of the University of Illinois. A copy of this manual may be seen in the office of the local high school principal or in some cases may be obtained from the University. Additional information may be obtained by writing this school.

Graduation.

Every candidate for graduation must file application with the Registrar not later than the beginning of the Spring Term.

Each candidate should appear before the Committee on Graduation to have his record checked at least ninety days before the date of his expected graduation.

Course Numbers.

The course numbering system is as follows: 100-199 freshman courses; 200-299 sophomore courses; 300-499 junior and senior courses. As a matter of convenience, for the present, the old numbers are printed immediately following the new.

Unit of Credit.

A term-credit represents the work done by a student in a course pursued for a term of twelve weeks, four hours a week, and in the case of the sciences the usual laboratory periods. It is the equivalent of four quarter hours or two and two-thirds semester hours. Since September, 1930, the periods have been one hour in length. Previous to that time one term-credit represented the work done by a student in a course pursued for a term of twelve weeks, five forty-five minute periods a week.

Failures.

At the first opportunity a student must repeat in class a required course in which he has failed. In a course continuing through two or more quarters, a failure in any quarter must be removed by successful repetition in class before the student will be admitted to the work of the succeeding quarter.

Certification.

You are asked to note carefully the following sections from the certifying law:

SEC. 6. Limited certificates shall be as follows:

First. A limited supervisory certificate shall be valid for four years for teaching and supervising in any and all grades of the common schools. It shall be issued to persons who have completed 120 semester hours of work in a recognized higher institution of learning including 15 semester hours in education and who have taught successfully for four years in the common schools. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 60 semester hours of work in a recognized higher institution of learning and who have taught successfully for four years in the common schools. The examination shall include English, educational psychology, sociology, the principles and methods of teaching and school administration. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 90 semester hours and a second time upon certified evidence that the applicant has completed the requirements for a bachelor's degree in a recognized higher institution of learning with a minimum of 120 semester hours. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Second. A limited high school certificate shall be valid for four years for teaching and supervising in the higher six grades of the common schools. It shall be issued to graduates of a recognized higher institution of learning with a bachelor's degree whose college credits shall include the following: Fifteen semester hours in education, and electives sufficient to make up 120 semester hours. It shall be renew-

able for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 60 semester hours of work in a recognized higher institution of learning. The examination shall include English, educational psychology, the principles and methods of secondary education and seven high school subjects chosen from a list prescribed by the Examining Board, one subject shall be chosen from each of the following groups: (1) mathematics, (2) history, (3) science, (4) foreign language or English literature, or American literature. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 90 semester hours, and a second time upon certified evidence that the applicant has completed the requirements for a bachelor's degree in a recognized higher institution of learning with a minimum of 120 semester hours. Thereafter it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Third. A limited special certificate shall be valid for four years for teaching and supervising the special subject or subjects named in the certificate in any and all grades of common schools. It shall be issued to persons who have completed 60 semester hours of work in a recognized higher institution of learning including 12 semester hours in education and 20 semester hours in each subject named in the certificate. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized higher institution of learning. The examination shall include English, the principles and method of secondary education, and the special subject or subjects named in the certificate. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 60 semester hours of work in a recognized higher institution of learning including not less than 20 semester hours in each of the special subjects named in the certificate. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Fourth. A limited kindergarten-primary certificate shall be valid for four years for teaching and supervising in the kindergarten and in the first and second grades of the common schools. It shall be issued to graduates of a recognized kindergarten-primary training school who have completed 60 semester hours of work in such institution. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized kindergarten-primary training school. The examination shall include English and the theory and practice of kindergarten and primary work. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed the remaining 30 semester hours of work required for graduation from a

recognized kindergarten-primary training school. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Fifth. A limited elementary school certificate shall be valid for four years for teaching and supervising in the lower ten grades of the common schools. It shall be issued to persons who have completed 60 semester hours of work in a recognized higher institution of learning including 10 semester hours in education, 5 of which shall be practice teaching. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized higher institution of learning including 5 semester hours in education. The examination shall include: Physiology, penmanship, grammar, reading, orthography, geography, History of the United States, Illinois history and civics, arithmetic, the State Course of Study, principles and methods of teaching, general science, algebra, English, European history, and two of the five sciences (botany, zoology, physics, chemistry and physiography). When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 60 semester hours of work in a recognized higher institution of learning. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Expenses.

The State Normal School Board has established the following regulations in the matter of fees paid by students enrolled in any of the State Teachers Colleges of Illinois. The paragraphs below are taken from the minutes of the Normal School Board meeting held at Carbondale, Ill., April 29, 1926:

1. The total fees to be charged a student in any of the Normal Schools shall not exceed the maximum sum of \$15.00 per term.

2. A pledge shall be exacted from all students attending any of the Normal Schools of the State of Illinois to teach in the public schools of Illinois for a period equal to the time spent in said schools.

3. While the Normal Schools are organized primarily for the training of teachers, the demands at present seem to justify admitting students who do not pledge themselves to teach, and all such students shall be required to pay tuition fee of not less than \$25.00 per term, which is the same fee as that provided for high school students.

4. The following is a schedule of fees for special services:

GENERAL FEES.

	Amount.	
1. Registration fee (paid by all except ex-service men and holders of township scholarships).....	\$3.00	Uniform
2. Towel fee (paid by all students taking gymnasium courses)	1.00	Uniform
3. Library fee	1.00	Uniform

PENALTIES.

1. Late Registration	\$1.00	Uniform
2. Change of program after third day.....	1.00	Uniform
3. Original transcript and carbon copy.....	1.00	Optional
4. Library Fines		Optional
5. Breakage, etc.		Optional

STUDENT ACTIVITY FEES.

The student activity fees are set by the various student bodies. They have been fixed for 1931-32, to be collected during the Fall, Winter, and Spring quarters.

1. Athletic fee	\$2.00
2. Egyptian fee25
3. Obelisk fee	1.00

FEES FOR SPECIAL SERVICES.

1. Chemistry.....	} Not to exceed } Optional actual cost }
2. Physics.....	
3. Biology.....	
4. Home Economics.....	
5. Manual Training.....	
6. Art.....	
7. Use of Typewriter.....	
8. Lessons on Violin, Piano, Organ, etc....	
9. Extension Courses.....	
10. Correspondence Courses.....	
11. There shall be no fee for diploma.	

Anthony Hall.

With the beginning of the Fall Term, 1913, the Woman's Building, Anthony Hall, was opened. This model school home for girls will accommodate about seventy students. It was erected and furnished at a cost of \$75,000, and every possible provision has been made for the comfort, safety, and well being of its inmates. Board and lodging in this ideal boarding house will be furnished at \$7.00 per week. We reserve the right to charge a higher rate if it becomes necessary.

A deposit fee of \$5.00 must accompany each application for room, and this deposit will under no circumstances be refunded.

Other Student Homes in Carbondale.

Much of a student's success depends upon the conditions at his boarding and rooming place. He must have not only fresh air, pure water, wholesome food, even temperature, and good light in his study room, but also favorable conditions for study and for sleep. The following conditions as applied to rooming places meet the approval of the faculty.

On the part of the householder—

1. Men and women not to room in the same house.
2. Premises hygienically clean and supplied with good sanitary water.
3. Good light in study rooms and rooms heated to not less than 68 degrees.
4. Telephone accessible.
5. Parlor furnished at reasonable times.
6. Reports to the University authorities of the illness of students, and of habits of study, sleep, or recreation on the part of students if these are likely in any way to injure the health, reputation or character of the student, or to interfere with the success of his work in school, or to bring discredit upon the school.

On the part of the student—

1. Quiet and order in the house at all times.
2. Proper care of furniture and premises.
3. Repair of damages beyond ordinary wear.
4. Householder to be notified when students expect to be away from the house later than 10:30 P. M.
5. Absence from town to be reported to the householder and address left.
6. Vigorous co-operation on the part of both student and householder, in cases of contagious diseases within the house, to prevent the exposure of others and the spread of the disease.

There are three modes of living practiced by the students.

1. Board and room in the same house. The cost of board and room is from \$6.00 to \$9.00 per week.
2. Room with light-housekeeping. Students who practice light-housekeeping are able to reduce their living expenses as low as \$4.00 a week.
3. Rooms without the privilege of light-housekeeping. Such rooms, two persons to the room, cost \$1.50 to \$2.00 per week per person.

Except in unusual cases, the committee believe that two occupants in a room secures the best results. Be sure to have it clearly understood how many are to occupy a room with you and how many occupants there will be in the house.

No contract for a room will be considered binding unless a deposit amounting to one week's rental shall be paid. Said deposit need not be returned unless the renter has good reasons for failing in his part, and not then except he notify said landlady three days before the term of school opens.

Many serious complications will be avoided if students will consult the Housing Committee before engaging rooms. Some houses, now open to students, *are not recommended by the committee*. The committee urges students to secure a copy of the house regulations:

Committee:

- E. G. Lentz, 520 S. Normal Ave.
- W. M. Bailey, 506 S. Poplar St.
- Lucy K. Woody, 703 S. Poplar St.

Literary Societies.

ZETETIC AND SOCRATIC.

Within the first term of the first year of the institution, September, 1874, the Zetetic Literary Society was organized. Later in the year a sister organization was planned for, and in due time was thoroughly established and christened the Socratic Literary Society. These have a large membership and are well attended.

The more elaborate exhibition of what these societies are able to do is annually given to the public within Commencement Week.

The varied programs of these literary societies from week to week add very materially to the work of the English department in securing additional practice in the delivery of original and other matter, and in the opportunity for becoming acquainted with parliamentary usages, thus fitting the student for more intelligent service in the communities in which he may labor.

The Faculty and Board of Trustees foster, with much care, the best interests of these valuable adjuncts to the literary work of the institution. Their usual time of meeting is on Wednesday evening of each week in the halls provided by the College.

Attendance Upon Church.

Students are urged to identify themselves at an early date after entering the Teachers College with some church of the city. It is assumed, of course, that the student will affiliate with the church to which he belongs at home, or with which he is most in sympathy as to doctrine and modes of worship.

Christian Associations.

The Young Men's Christian Association and the Young Women's Christian Association both have well-conducted organizations, which meet weekly in rooms fitted for their use on the third floor in the new Chemical and Manual Arts Building. Their committees look after new students upon their arrival, and those who may be sick while attending school, and in many ways minister to the wants of their fellow students. Several classes in Bible study are maintained by these societies. The State college secretaries of each of these branches of Christian work pay the institution a visit twice a year, or oftener, for conference and direction of work. New students upon their arrival may recognize the representatives of these associations by special badges worn, indicating their willingness to render their kindly services whenever needed. These persons may be trusted implicitly in directing strangers to boarding houses and clubs.

School Health Service.

DELIA CALDWELL, M. D.

FLORENCE DENNY, R. N., B. ED.

This department was established at the beginning of the school year 1920-21 and was placed in charge of a graduate physician of wide experience in general practice.

It is the province of the department to have a general supervision of the health of the students. The physician in charge has an office in the school, keeping office hours, during which any student may have the benefit of diagnosis and advice on any medical point. Instructions will be given about the care of the health and methods of treating cases of simple illness. It is not the policy of the department to prescribe or to give specific professional assistance, except to render first aid in cases of accidental injury or sudden illness occurring during school activities. All students requiring medical services beyond this are referred to outside physicians, wherever possible, to the family physician of the student.

An important part of the work of this department is to guard against the spread of communicable disease in the school. Every effort is made to detect such diseases in their incipiency and to promptly exclude such cases from the school, in accordance with the requirements of the State Department of Health.

Another part of the health service of the school is the physical examination of every student who registers in the school, which was initiated at the beginning of the school year 1926-27, and is a required part of the school work.

The physician is assisted by a registered, graduate nurse. The nurse has aided in caring for cases of illness in the school and in helping in the carrying out of such cases of quarantine as were necessary. She has had especial care and supervision of the health of the children in our training school.

THE LIBRARY.

Wheeler Library has a working collection of 32,295 books, pamphlets and magazines. Both books and pamphlets are classified according to the Dewey decimal system. The dictionary catalog has three entries (author, title, and subject) for each book, and many also have analytical subject headings. Books have been selected with reference to the needs of the various departments, and include standard works in literature, travel, history, science, philosophy, education, and art, as well as general reference books such as dictionaries, encyclopedias, year books, and atlases.

Periodical literature of permanent value is bound and made available by the use of the Periodical indexes. The Library receives 150 of the best current periodicals. Bibliographical material on children's literature and children's illustrated books are available in addition to a large collection of pictures.

The library is open on school days from 7:15 a. m. to 5 p. m., evenings from 7 to 9 p. m., and on Sunday mornings. Special hours are announced for the summer terms.

Special rules are made regarding the use of reserved books and of magazines.

EXTENSION COURSES.

A limited number of courses is offered in night classes by regular members of the college faculty. These courses are the same as those taken by students in residence, and the numbers and descriptions may be found in the catalog. The students registered in night classes pay the same registration fee as do the resident students. The classes meet one period of 120 minutes each week for a period of fifteen weeks. One term-credit is allowed for each course, the equivalent of two and two-thirds semester hours.

COURSES OF STUDY.

Two basic courses are provided: the Four-Year Course leading to the Degree of Bachelor of Education and the High School Certificate; and the Two-Year Course designed for those preparing for elementary teaching, and leading to a diploma and the Limited Elementary Certificate. Each of these courses is adapted through choice and assignment of subjects to the individual needs of the prospective teacher.

THE FOUR-YEAR COURSE.

Requirements for the Degree of Bachelor of Education.

College Requirements—Each candidate must meet the general college requirements with respect to registration and residence, and must also secure credit in approved courses amounting to an aggregate of forty-eight term-credits.

In order to receive his bachelor's degree a student must have secured grades not lower than C in subjects aggregating at least three-fourths of the work prescribed or elective, required for the degree. The system of grading is as follows: A, excellent; B, good; C, fair; D, poor (but passing); E, failure. At least sixteen of the forty-eight credits required for the degree must be of Senior College rank.

A graduate of the two-year course who later continues for the degree will lose four credits as follows: Penmanship, one-half credit; Construction, one-half credit; Arithmetic, one credit; Special Methods, one credit by those who have two or more such credits; and Practice Teaching, one credit.

(A) Prescribed Subjects—Rhetoric, 3 credits; Practice Teaching, 3 credits; Health Education, 1 credit; Physical Education, 108 hours taken without credit.

(B) Group Requirements—Every candidate must offer the minimum of work specified in each of the following groups:

- I. English—At least 2 credits in English and American Literature.
- II. Foreign Language—College French, German, or Latin. At least 3 credits. A student taking a beginning required foreign language in his senior year must present four credits in place of three.
- III. History, Political and Social Science—History, Economics, Political Science, Sociology. At least 3 credits, including History 110.
- IV. Mathematics, and Physical Science—Mathematics, Astronomy, Physics, Chemistry. At least 2 credits.

NOTE.—Every candidate for the degree of B. Ed., shall offer a minimum total of 6 credits in Groups IV, and V, combined with a minimum of 2 credits in each.

- V. Biology and Earth Science—Botany, Bacteriology, Entomology, Geography, Geology, Physiology, Zoology. At least 2 credits. (See note under IV.)
- VI. Education—At least 9 terms (including 3 terms of Practice).

NOTE.—Not fewer than three of the six required courses in Education must be taken in the Senior College. At least one term of Practice Teaching must be done in the student's major subject.

(C) Major Subjects—Each candidate must select some one subject as his major. A major consists of courses amounting to nine terms chosen from among those designated by the Department and approved by the Faculty.

The subjects at present recognized as majors in this college are Art, Botany, Chemistry, Commerce, English, French, Geography and Geology, German, History, Latin, Mathematics, Music, Physical Education, Physics, Zoology.

To major in Latin a student must complete five years of college Latin, if he has had no high school Latin; four years of college Latin, if he has had only two years of high school Latin; three years of college Latin, if he has had three or more years of high school Latin.

To major in French or German, a student with no previous work in the language chosen must complete four years of college work. If a student comes with two or more years of high school work in the language chosen, he must complete three years of college work.

(D) Minor Subjects—Each candidate must offer in addition to his major, a minor of at least six credits in some one department designated by the major department and approved by the Faculty.

To minor in a foreign language, a student must meet the requirements of the major, less one year of college work.

(E) Elective Subjects—

1. Not more than nine terms in any one subject may be counted for graduation, except in foreign languages, and in special cases with the approval of the Examiners and the President.

2. A limited amount of credit toward the B. Ed. Degree will be given for courses offered in the special departments of the school, as follows:

Department of Agriculture—Agriculture 212 (Horticulture), Agriculture 105 (Livestock Judging), Agriculture 101 (Soil Fertility), Agriculture 102 (Cereal Crops), Agriculture 103 (Forage Crops), Agriculture 100 (Teachers' Course in Agriculture), Agriculture 205 (Principles of Feeding), Agriculture 231 (Dairy Cattle), Agriculture 330 (Problems of Dairy Farming), Agriculture 350 (Farm Management).

The total credit in the Department of Agriculture may not exceed six terms.

Manual Arts Department—Manual Arts 222 and 223 (Machine Shop Practice), Manual Arts 101, 102, 103, 104, 105 (Mechanical Drawing).

The total credit in the Manual Arts Department may not exceed six terms.

Physical Education Department—For Women: Physical Education 305 (Coaching), Physical Education 306 (Methods and Materials), Physical Education 245 (Playground Course).

The total credit in the Women's Physical Education Department may not exceed six terms.

Studies of the Freshman Year.

5. Biology and Earth Science	Biology and Earth Science	Biology and Earth Science
6. Health Education		

It is understood of course that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Four courses a term constitute the regular assignment. Three terms of rhetoric are required in the freshman year. One term of Health Education is required in the sophomore year. The remaining courses each term are selected with a view to meeting the group requirements as listed above, and furthering the student toward the accomplishment of his major and minor work.

While the work of the freshman and sophomore years is offered in full-year courses, a student may after two terms of a subject (with the exception of the foreign languages), be allowed to substitute a term from some other course for the third term prescribed.

THE TWO-YEAR COURSE.

The two-year course is designed specifically for those who are to teach in the elementary school. A student securing twenty-four term-credits of freshman and sophomore work as outlined below will be graduated with a diploma, and may be recommended for a Limited Elementary Certificate.

A. Subjects Available in the Two-Year Course: Rhetoric 3 terms; Education 3 terms; Practice Teaching 3 terms; Geography 1 or 2 terms; History 2 terms; Literature 1 or 2 terms; Biology 1 or 2 terms; Chemistry or Physics 1 or 2 terms; Method Music 1 or 2 terms; Drawing 1 or 2 terms; Method Arithmetic 1 term; Method English (Primary or Advanced) 1 term; Method Geography and Method History 1 term; Penmanship and Manual Arts (Primary or Advanced) 1 term; Elective subjects from Agriculture, Household Arts, and Physical Education 3 terms; Health Education 1 term; Physical Education (without credit) 3 terms.

The student will take note of the opportunity afforded to get as much as two terms of a number of subjects. This is of particular importance to those who expect to continue their college work beyond the two-year course.

B. Subjects Prescribed for All: Rhetoric 3 terms; Education 3 terms; Practice Teaching 3 terms; United States History 2 terms; Arithmetic 1 term; Geography 1 term; Children's Literature 1 term; Biology 1 term; Health Education 1 term; Chemistry or Physics 1 term; Penmanship and Manual Arts 1 term of each with a half-credit in each; Physical Education 108 hours (without credit.)

The remaining 6 credits are to be so selected as to afford the largest amount of definite preparation for the kind of teaching the graduate expects to do.

C. Provision for Differentiation:

- I. Those fitting for primary work should include in their program the following subjects: Primary Education; Primary Method English; Primary Elementary Construction; Method Music; Public School Drawing; Practice teaching in the primary grades; and such other prescribed and elective work as is necessary to make up the 24 credits required for graduation.
- II. Those fitting for intermediate and upper-grade teaching should, in the main, include the following subjects: School Management or Measurements; Upper-grade Method English; Upper-grade Manual Arts; Method History and Geography (one-half credit each); Method Music; Public School Drawing; Practice Teaching in the intermediate and grammar grades; and such other prescribed and elective work as may be necessary to make up the 24 credits.

- III. Those preparing for rural school teaching should include the following: Rural Education; Rural Practice Teaching; Method English; Method History and Geography; Method Music; Public School Drawing; and some work in Agriculture, or Household Arts, or both.
- IV. As a means of adapting the two-year course still further to the needs of teachers, the Examiner may, with the consent of the President, make substitutions. In this way, subjects, excepting those in the prescribed group, may in special cases be set aside for additional work in subjects already taken, and for credits (not to exceed three in number) from the Departments of Agriculture, Household Arts, and Physical Education.

D. An illustrative program:

Freshman Year.

FALL	WINTER	SPRING
Rhetoric Geography Arithmetic Biology Physical Education	Rhetoric History Pen. & Man. Arts ($\frac{1}{2}$ Cr. each) Biology or Geography Physical Education	Rhetoric History Drawing or Elective Literature Physical Education

Sophomore Year.

FALL	WINTER	SPRING
Chemistry or Physics Psychology Music or Literature Practice	Chemistry or Physics Elective Principals of Education Method Geog. & Hist. ($\frac{1}{2}$ cr. each) Practice	Health Education Measurements or Eleme- ntary Method Method English Practice

It is understood of course, that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

ADVISORY COURSE FOR CHEMISTRY MAJORS.

The following course is strongly urged by the Chemistry Department for those majoring in that science. It fulfills all requirements for the B. Ed. degree, follows the proper order for prerequisites, and gives the minimum overlapping of Junior and Senior College courses. If any difficulties arise in the following of this course the student is advised to consult immediately with his advisor or the Chemistry Department.

FIRST YEAR

<i>Fall Term</i>	<i>Winter Term</i>	<i>Spring Term</i>

Elective	Chemistry 401 (Physical)	Chemistry 402

ADVISORY COURSE IN CHEMISTRY FOR TWO-YEAR PRE-MEDICAL STUDENTS.

<i>First Year</i>	General Chemistry	3 terms
	Qualitative Analysis	1 summer session (12 weeks, double time)
<i>Second Year</i>	Organic Chemistry	3 terms

By following this course the student will have obtained 20 hours of chemistry by the end of the second year (sufficient to enter medical school) and will have time for a transfer of credits so that he may start his professional studies in the fall of his third college year.

AGRICULTURE.

R. E. MUCKLERoy.

Agronomy 101 (Agronomy 1). Soil Fertility. Origin, formation, and nature of soils, glaciations, soil types, soil treatment and cropping systems. (Laboratory.)

Agronomy 102 (Agronomy 2). Cereal Crops. Production and harvesting of common farm crops, means of improvement, diseases, insects, weeds, purity of seeds, germination, grades of grain, and judging. (Laboratory.)

Agronomy 103 (Agronomy 3). Forage Crops. Adaptation, culture, plant structure, requirements and characteristics, with special attention given to legumes and crop rotations. (Laboratory.)

Animal Husbandry 105 (Animal Husbandry 32). Livestock Judging. Leading characteristics of the various breeds of livestock, native homes, selection for the feed lot, market requirements, type, utility, show form, breeding and judging.

Animal Husbandry 120 (Animal Husbandry 4a). Poultry. Pigmentation, molting, inheritance of type, breeding, mating, influence of environment, incubation, feeding for early maturity, market conditions, marketing, poultry farming, including ways and means of developing the industry, results of egg laying contests.

Teachers' Course 100. The first six weeks of this course will be devoted to soil study with special reference to fertility problems and crop rotations to meet better livestock production. The last six weeks will be given to a study of livestock on the farm with better methods of care and management as a means of greater profits. Special emphasis will be placed on illustrative materials which may be used in the country schools.

Hort. 212 (Horticulture 8). The principles of fruit growing with special reference to the commercial orchard; pruning, spraying, and marketing. Soils, cover crops, fertilizers.

Animal Husbandry 205 (Animal Husbandry 5). Principles of Feeding. Relations of plant and animal life, elements of nutrition, composition of plants and animals, digestion, composition of feeds, relative values of balanced rations, feeding trials, value of economic feeding and management. Prerequisite: Animal Husbandry 105.

Animal Husbandry 231 (Animal Husbandry 7a). Dairy Cattle. Breed history, feeding, herd testing, breeding, pedigree, and management. Prerequisite: Animal Husbandry 105 or 205.

Animal Husbandry 330. Problems in Dairy Farming. Balance of factors on a dairy farm, building, fields, rotations of crops, pastures, relative value of breeds. Prerequisites: Agronomy 101 and Animal Husbandry 105 or 231.

Agriculture 350. Farm Management. Factors in production, types of farming, organization and direction, economic use of farm machinery, balance of crops and livestock, market conditions, sectional and seasonal production. Prerequisites: Agronomy 101 and Animal Husbandry 330.

Agriculture 370. Marketing Farm Products. Functions, methods of sale, middle men, storage, transportation, quotations, standardization, advertising, cooperatives, financing, and farm relief.

ART.

GLADYS P. WILLIAMS.

LULU D. ROACH.

Art 105 (31). Freehand Drawing. Perspective and freehand drawing, using pencil, ink, charcoal and other mediums.

Art 110 (28). Principles of Design. Origin and theory of design; principles applied in costume design.

Art 115 (27). Elementary Water Color. A study of the theory and harmony of color.

Art 205 (4). Public School Drawing. Course for grade teachers in common school art.

Art 210 (21). Commercial Design. Design with reference to its application in the business world; principles of advertising; method of reproduction and printing. Prerequisites: Principles of Design 110.

Art 215 (7). Advanced Design. Continuation of the principles of design and their application to art in the home. Prerequisite: Principles of Design 110.

Art 220 (10). Advanced Water Color. Work from still life and nature. Prerequisite: Theory of Color 115.

Art 225 (5). History of Art. Periods and styles of architecture, sculpture, and painting preceding the Italian Renaissance.

Art 230 (13). History of Art. Italian Renaissance to present time. Prerequisite: History of Art 225.

Art 235. Stage Craft. Principles of Art applied to the stage. Prerequisites: Art 105, 115.

Art 305 (15). Freehand Drawing. Continuation of Art 105. Some drawings finished in water color washes.

Art 310 (9a). History of Architecture. Ancient to modern times, considering influence of material, climate, political and economic conditions on styles of architecture; evolution of structural and ornamental forms.

Art 315 (30). Interior Decorations. Principles of design are studied in terms of the home and its furnished details from the standpoint of the designer. Reference work, color plates, and the compiling of illustrative materials are required. Prerequisite: Advanced Design 215.

Art 320 (7a). Elements of Composition. Still life painting is used as a means for the study of design in pictorial composition. Medium: Oil paints. Prerequisite: Art 110 or 215.

Art 325 (21a). Elements of Composition. A continuation of 320, including still life, landscape composition, and the costumed figure. Medium: Oil paints.

Art 330 (7b). Design. Talks and laboratory work dealing with typical problems to illustrate their use in the home. Batik designs studied and developed.

Art 335. History of Sculpture. A survey course covering periods from primitive work to the present day.

Art 340. General Survey of the History of Painting. A study of the great art epochs and their leaders. To determine the epochal developments and influences, analysis of paintings from Giotto to Cezanne will be made according to Speed's "Practice and Science of Drawing."

BOTANY.

W. M. BAILEY.

MARTHA H. SCOTT.

MARY GODDARD.

Botany 101 (Biology 20). An introductory course in botany, consisting of a study of the vegetative organs of the higher seed plants, their form and structure, physiological activities, and their relations and adjustments to their environment. Attention is given to the identification of the more common trees by their leaf and stem characters. Laboratory and field studies, recitations and lectures. Fall Term.

Botany 102 (Biology 21a). A brief study of the morphology of representative plants of the great plant groups, the general classification of plants and the evolution of the Plant Kingdom. Laboratory studies, recitations and lectures. Winter Term.

Botany 103 (Biology 21b). A course in systematic botany, consisting of a study of the principles of classification and the use of manuals, and work in classifying and identifying seed plants and ferns of the local flora. Field studies, lectures and recitations. Prerequisite: Botany 102. Spring Term.

Botany 250. Development and Heredity. A general course in the study of the facts and theories of the development of the plant and animal kingdoms, and heredity in plants and animals. Lectures, reading, and recitation. Prerequisites: Botany 102 and Zoology 105.

Botany 301 (Biology 22). Morphology of the Thallophytes. A study of the structures, development and relationship of the groups of the thallophytes, evolution of the plant body, origin and evolution of sex in plants, parasitism and saprophytism in the bacteria and fungi. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Fall Term.

Botany 302 (Biology 23). Morphology of the Bryophytes and Pteridophytes. A study of the structures, development and relationships of the liverworts and mosses, ferns, equisetum and club-mosses. The problems of evolution of the sporophyte, alternation of generations, and heterospory receive attention. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 301. Winter Term.

Botany 303 (Biology 25). Morphology of the Spermatophytes. A study of the structures, development and relationships of the Gymnosperms and Angiosperms, the vascular anatomy of these plants, the development of flowers, gametophytes, fertilization, embryology, and the structure and development of seeds. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 301, 302. Spring Term.

Botany 315. Genetics. A general course, with experimental work along the lines of breeding, strains, etc., involving the principles of evolution and genetics.

Botany 320 (Biology 26). Plant Physiology. A study of the physiological relationships of plants and the soil, absorption of water and mineral nutrients, water relationships and requirements of plants, functions of mineral nutrients. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Desirable antecedents: General inorganic chemistry, physics.

Botany 325 (Biology 27). Plant Physiology. A study of the constructive metabolism in green plants, the nutritional processes in plants without chlorophyll, movement and storage of materials in plants. Laboratory studies, recitations and lectures. Prerequisites: Botany 320, general inorganic chemistry, organic chemistry, physics.

Botany 330. Plant Physiology. A study of digestion, respiration, fermentation, growth and movement in plants. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 325. Desirable antecedents: Botany 320, general inorganic chemistry, organic chemistry, physics.

Botany 340 (Biology 28). Plant Ecology. An introductory course in Plant Ecology. Plants in relation to their environment; the effects upon the plant of the factors light, heat, air, soil and water; the succession in the time of flowering of the local herbs and the putting out of leaves by the trees; symbiotic phenomena. Field studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Spring Term.

Botany 345. Plant Ecology. The community relationships of plants. Local communities will be studied and the factors influencing their development will be noted. The study of the development of deciduous forest community from bare areas, such as bare rock, bare clay, and water, will constitute a portion of the field work. Field studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 340.

Botany 360. Mycology. An introduction to the study of both lower and higher fungi. Attention is given to pathological forms as well as other fungi. Lectures, laboratory and field studies. Prerequisites: Botany 101, 102, 103.

CHEMISTRY.

J. W. NECKERS.

R. A. SCOTT.

T. W. ABBOTT.

K. A. VAN LENTE.

Chemistry majors and pre-medical students should follow the suggested curriculum in Chemistry on page 40.

Chemistry 101 (1a) General Chemistry. A course for students with no previous instruction in this science. A study of the common non-metals and their compounds is started in this course.

Dr. Scott, Dr. Abbott, Dr. Van Lente.

Chemistry 102 (2a). General Chemistry. A continuation of the study of the non-metals and their compounds. Prerequisite: Chem. 101.

Dr. Scott, Dr. Abbott.

Chemistry 103 (3a). General Chemistry. This course is an introduction to the chemistry of the common metals. Prereq.: Chem. 102.

Mr. Scott, Dr. Abbott.

Chemistry 151 (1b). General Chemistry. A course designed for those who have had a year of high school chemistry. A course in the chemistry of the non-metals. Prereq.: One year of H. S. Chem.

Dr. Neckers, Dr. Van Lente.

Chemistry 152 (2b). General Chemistry. A continuation of non-metal study and preparations. Prereq.: Chem. 151.

Dr. Neckers, Dr. Van Lente.

Chemistry 153 (3b). General Chemistry. An introduction to the metals and their compounds. Prereq.: Chem. 152.

Dr. Neckers, Dr. Van Lente.

Chemistry 201 (7). Qualitative Analysis. A study of the chemistry of the metals and the theory of analytical procedures with applications to the laboratory separation and identification. Prereq.: Chem. 103 or 153.

Dr. Neckers.

Chemistry 202 (8). Qualitative Analysis. A continuation of the work stated in Chem. 201, also anion analysis. Identification of alloys, ores, and general inorganic compounds. Prereq.: Chem. 201.

Dr. Neckers.

Chemistry 252 (11). Quantitative Analysis. Gravimetric determinations and calculations in the inorganic field, including practical examples in the laboratory and a discussion of methods of determination in lecture. Prerequisite: Chem. 201, Math. 105.

Dr. Neckers.

Chemistry 253 (10). Quantitative Analysis. Volumetric analysis with the stoichiometrical accompaniments, including laboratory determinations using the standard methods of volumetric procedure and a discussion of the applied methods for the various elements in lecture. Prereq.: Chem. 201, Chem. 202 or 252, Math. 105.

Dr. Neckers.

Chemistry 301 (13). Organic Chemistry. A study of the compounds of the aliphatic series with laboratory preparations. Prereq.: Chem. 201.

Dr. Abbott.

Chemistry 302 (14). Organic Chemistry. A continuation of the study of the aliphatic series and an introduction to the aromatics. Prereq.: Chem. 301.

Dr. Abbott.

Chemistry 303 (15). Organic Chemistry. A continuation of the study and preparation of compounds of the aromatic series which was started in the preceding course. Prereq.: Chem. 302.

Dr. Abbott.

Chemistry 401. Physical Chemistry. A study of some of the physical aspects of chemical reactions. Prereq.: Chem. 253, Physics 202 or 207.

Dr. Van Lente.

Chemistry 402. Physical Chemistry. A continuation of the study of physico-chemical relations, including theoretical and practical work in electrometric titrations, determination of p H values and other phases of electrochemistry. Prerequisite: Chem. 401.

Dr. Van Lente.

Chemistry 423. Advanced Quantitative Analysis. A course for chemistry majors interested in this field. A continuation in the volumetric field with an introduction of water analysis. Prereq.: Chem. 253.

Dr. Neckers.

Chemistry 443. Advanced Organic Chemistry. A course for majors in chemistry interested in advanced work in this field, especially in more difficult syntheses and preparations. Prereq.: Chem. 303.

Dr. Abbott.

Chemistry 451. Physiological Chemistry. A study of proteins, fats, carbohydrates, tissues, digestion, and metabolism, accompanied by appropriate laboratory preparations and analyses of blood, gastric contents, etc. Prereq.: Chem. 302.

Mr. Scott.

Chemistry 452. Physiological Chemistry. A continuation of the course of study outlined in the preceding course. Prereq.: Chem. 451. Mr. Scott.

Chemistry Seminar. A supervised discussion group of upper-class Chemistry majors and minors for reports on recent events in the field of chemistry and related fields. A non-credit course with voluntary attendance.

COMMERCE.

T. L. BRYANT.

EDWARD V. MILES, JR.

SUSIE O. OGDEN.

Commercial 101 (1). Penmanship. This course presents the study of Penmanship in the latest methods of developing the subject. All of the work both in movement drills and in letter and word writing are studied in tempo.

The rhythm is first developed by counting. Drill on the straight line and the ovals, direct and indirect, constitute a part of each recitation.

The pedagogy of the subject as presented in the different compendiums of penmanship is carefully worked out and studied in class. Comparative values of different movements are presented, also the rise and fall of different systems. One-half credit is given for each twelve week term.

Commercial 205 (7). Accounting. This course in introductory bookkeeping is planned for those who have never studied the subject. The double entry system is introduced in the beginning and all the laws governing the debit and credit of business transactions are fully explained and mastered. The journal, day book, sales book, purchase book, and auxiliary books are introduced and their use in accounting fully demonstrated. A complete line of business transactions is placed in the books of original entry, posted to the ledger, trial balance taken, inventories entered, and accounts closed. A comprehensive study of the financial statement is made.

Commercial 206 (8). Accounting. Partnership accounting is studied and several sets are worked out. This course embodies all the principles taught in Commercial 205. The student is familiarized with negotiable instruments and their use. Prerequisite, Commercial 205.

Commercial 207 (9). Accounting. Corporation and Manufacturing Accounting are offered in this course. It takes up the changing of books from single proprietorship and partnership to a corporation. In this work the latest systems of accounting are presented. Prerequisite, Commercial 206.

Commercial 210 (13). Commercial Law. The aim of this course is to give a comprehensive training in the law pertaining to business. In the text the fundamental and governing principles of law are stated; differences in fundamental principles of dissenting authorities are referred to. Leading illustrative cases are given.

Commercial 211 (14). Commercial Law. This course is a continuation of Commercial 210, covering Bailments, Partnership, Corporations, Insurance and Property.

Commercial 212 (15). Commercial Law. A continuation of Commercial 211 covering internal relation and control in Agency, Partnership, and Corporations; dissolution and accounting in agency, partnership, and corporations. The case method will be used in this course.

Commercial 305, 306 and 307 (26, 27, 28). Advanced Accounting. A second year course in accounting designed to give intensive study in theory and practice. This course deals with partnerships and ventures, corporations, investments, stocks and bonds, depreciation, reserves, surplus, dividends, corporate obligations, balance sheet, and profit and loss statement; statement analysis for credit purposes, statement analysis for investment purposes, mergers vs. consolidations, parent vs. holding companies, consolidated statements and fiduciary statements.

Commercial 325 (32). Business Administration. A study of business problems from the standpoint of the manager. The course covers location of plant, administration of personnel, marketing, finance, production, risk-bearing, and the selection of the best adapted business unit for a certain industry or business.

Commercial 335 (31). The Financial Organization of Society. A broad general survey of the whole financial system. It includes a study of the nature and work of the various types of financial institutions, of the forces that have led to their development, and of their relation to the organization of industrial society. The principal forms of financial institutions covered are: coinage and monetary systems; credit; commercial banks; savings banks; bond houses; trust companies; stock exchanges; and various forms of co-operative credit associations. One credit.

Commercial 336. Marketing. This course deals with the marketing of agricultural products, raw materials, and manufactured goods. Approved retailing methods, sales-management, advertising, and market analysis will also be stressed. Text: *Marketing Principles* by Pyle.

ECONOMICS.

RUSSELL M. NOLEN.

Economics 205 (305). Principles of Economics. The principles that underlie the production, exchange, and distribution of wealth. Practical problems like monetary and banking reform, tariff policy, taxation, labor movements, and railroad regulation. Prerequisite: Sophomore standing.

Economics 206. Principles of Economics. A continuation of Economics 205 in the examination of the economic problems of the United States. Prerequisite: Econ. 205.

Economics 310. Labor Problems. A study of conditions under which labor has worked since the industrial revolution, treating such topics as: trade union policies, unemployment, trade agreements, conciliation, arbitration, immigration, and industrial education. Prerequisite: Econ. 205.

Economics 315. Money Credit and Banking. A study of the principles of money, value, and prices, and the development of the present monetary system. Principles underlying sound banking and the use of credit, with a history of panics and crises. Prerequisite: Econ. 205.

Economics 325. Transportation. An examination of the evolution of American transportation system, of current problems in transportation, railroad operation, rates, and regulation, recent tendencies in financial stability and control of the public transports. Prerequisite: Econ. 205.

Economics 330. Public Finance and Taxation. A survey of the principles affecting public expenditures, the budgetary legislation, and the use of public credit. The raising of revenue, direct and indirect taxation, and the incidence of taxation. Prerequisite: Econ. 205.

Economics 335. Distribution of Wealth. An analysis of the economic laws governing the distribution of economic goods, tendencies in personal distribution and the socio-economic implications. Prerequisite: Econ. 205.

Economics 340. Public Utilities. A study of some of the principles of rate making, and valuation of public utilities. Sound policies in regulating, controlling, or owning natural monopolies. Prerequisite: Econ. 205.

EDUCATION.

GEORGE D. WHAM.

F. G. WARREN.

WELLINGTON A. THALMAN.

Education 205 (2). Educational Psychology. A study of the facts and laws of mental life with special reference to the learning and teaching processes. The various principles that underlie effective teaching are developed and illustrated by concrete exercises and problems. Text: Pillsbury's Essentials of Psychology, or its equivalent.

Education 206 (5a). General Psychology. An introductory course for students of the four-year curriculum, consisting of a study of the fundamental facts and principles of human behavior. Text: Woodworth's Psychology, or its equivalent.

Education 210 (3). Principles of Education. A brief study of the fundamental principles of education, and their application in the interpretation and criticism of current and proposed educational theory and practice. A detailed study of the various processes of teaching and learning involved in elementary education. Text: Thomas's The Principles and Technique of Teaching, or its equivalent. Prerequisite: Education 205 or 206.

Education 220 (10). Elementary Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for elementary school pupils. Text: Monroe, DeVoss, and Kelley's Educational Tests and Measurements. Prerequisite: Education 205 or 206.

Education 230 (12). Rural Education. A course for those who expect to teach or supervise country schools. It consists of rural school organization and management, rural school methods, an outline of the state course of study, the maintenance of the rural school library, together with about two weeks of rural sociology. Texts: Eels, Mueller and Swain's Rural School Management, and Ritter and Wilmarth's Rural School Methods. Prerequisite: Education 205 or 206.

Education 235 (8). Primary Education. A course designed especially for those who expect to teach in the lower grades. A description of the child mind, phenomena of growth, and the instinctive interests of childhood, followed by a detailed consideration of materials and methods. Text: Parker and Temple's Unified Kindergarten and First-Grade Teaching or its equivalent. Prerequisite: Education 205 or 206.

Education 305 (5). Advanced Educational Psychology. A description of the bodily organs and mechanisms upon which behavior depends; a discussion of instinctive activities and capacities; a formulation of the general laws of learning and their application to teaching; a study of individual differences. Text: Gates' Psychology for Students of Education, or its equivalent. Prerequisite: Education 205 or 206.

Education 310 (7a). Principles of Secondary Education. A study of such topics as adolescence; the history and aims of secondary education; high school courses of study; high school equipment; and the problems of organization, management, and discipline peculiar to the high school. Text: Draper and Robert's Principles of American Secondary Education, or its equivalent. Prerequisite: Education 305.

Education 315 (7). High School Method. A detailed study of the various processes of learning and teaching involved in high school education. Text: Burton's The Nature and Direction of Learning or its equivalent. Prerequisite: Education 305.

Education 320 (10a). High School Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for high school pupils. Text: Odell's Educational Measurements in High School, or its equivalent. Prerequisite: Education 305. Not open to those who have taken 220.

Education 325 (9). School Administration. This course is designed primarily for those who look forward to positions as supervisors, principals, or superintendents. Texts: Cubberley's The Principal and His School, and The Eighth Year Book of the Department of Elementary School Principals, or their equivalents. Prerequisite: Education 305.

Education 330 (4). History of Education. The chief aim is to afford the teacher the sanity of judgment that comes only by seeing present-day education in perspective against its historical background. It traces the evolution of educational ideals and practice in response to social needs and to the contributions of philosophic and scientific thought: Texts: Graves' A Student's History of Education, or its

equivalent. Additional readings in Cubberley's Book of Readings. Prerequisite: Education 305.

Education 365 (15). Psychology of High School Subjects. An analysis of the mental processes exhibited by pupils in studying the various high school subjects, with parallel consideration of 'effective teaching processes. Text: Judd's Psychology of Secondary Education, or its equivalent. Prerequisite: Education 305, 310 and 315.

Education 370 (6). Educational Sociology. A consideration of the origin, nature, and functions of society and social institutions. A special study of the relation between society and the individual, and of the practical social problems growing out of the complexity and the rapid development of modern society. Text: Smith's Principles of Educational Sociology, or its equivalent. Prerequisites: Education 305, 310 and 315.

Education 420. Educational Statistics. A course planned especially for superintendents, principals, and supervisors. It includes such topics as: definition and objectives of statistical procedures; methods of securing and arranging educational data; methods of tabulating; a study of the median, mean, mode, and range; mean deviation; standard deviation; variability; coefficient of correlation; measures of reliability; graphic methods; problems of school publicity; and how to use educational statistics in educational work. The laboratory method will be employed in the teaching of this course. Manual: Greene's Workbook in Educational Measurements. Text: Greene and Jorgensen's Use and Interpretation of Educational Tests. Prerequisites: Education 205 or 206, 305, 310, and 220 or 320.

ENGLISH.

EMMA L. BOWYER.

ELIZABETH COX.

FRANCES BARBOUR.

JULIA JONAH.

MARY CRAWFORD.

ESTHER M. POWER.

THELMA L. KELLOGG.

EDITH S. KRAPPE.

ROBERT DUNN FANER.

CHARLES D. TENNEY.

TED. R. RAGSDALE.

English 101, 102, 103 (9, 9a, 9b). Freshman Rhetoric. Three terms. Theory and practice of the types of composition; weekly conferences.

English 201 (7a). History of English Literature to 1700. Text: Lieder, Lovett, and Root's British Poetry and Prose. Book I. Prerequisite, three terms of rhetoric. Required for English major.

English 202 (7b). History of English Literature from 1700. Text: Lieder, Lovett, and Root's British Poetry and Prose, Book II. Prerequisite, 201. Recommended for English major.

English 203. History of American Literature. Text: Snyder's A Book of American Literature. Prerequisite, three terms of rhetoric. Recommended for Junior College students.

English 205a (10a). English Poetry, Technique; 205b (10) Classics: Macbeth, Paradise Lost, Idylls of the King, Princess. Prerequisites, three terms of rhetoric.

English 206a (11a). English Prose, Technique; 206b (11b) Text: Pancoast's Prose and Verse; Genung's Working Principles of Rhetoric; illustrative material drawn from the works of DeQuincey, Macaulay, and Carlyle. Novels studied: Silas Marner, Kenilworth, House of Seven Gables, Henry Esmond, and David Copperfield. Technique of fiction, one-half credit; classics, one-half credit. Prerequisites, three terms of rhetoric. President H. W. Shryock.

English 210 (8). Public Speaking. Emphasis on organization of speeches and their presentation with confidence and interest.

English 213. Children's Literature. A study of literature such as fairy stories, fables, myths, and romance cycles and legends. The course will consist of an analysis of the literary qualities of the selections, a discussion of authors, and a study of the folkloristic background. Text: Curry and Clippinger's Children's Literature. Required for graduates of the Junior College; accepted for graduates of the Senior College. Bowyer, Cox, Ragsdale.

English 215 (6). English Method. Theme: How the child works out the problems of expression. This covers the first twelve years of the child's life and extends through the primary and intermediate grades. Observation lessons in reading and language in the Training School constitute an important part of the work.

English 216 (6a). Advanced English Method. (Junior High School). In primary methods, of course, much of the emphasis must be placed upon the mechanics of reading. In advanced method the major emphasis passes over the content of the reading material. Attention is paid to the technique of poetry—to the poet's handling of rhythm, tone, color, and rhyme. In the stories that are used the attention of the class is drawn to the use of scene and setting, plot construction, accessories, character portraiture, use of dramatization, dialogue, humor, etc. Methods in grammar and composition are stressed. Some time is devoted to the study of public speaking.

English 300 (25). Senior College Composition. Practice in writing under criticism with emphasis on the development of an individual style.

English 305 (21). Modern American Poetry. A study of the chief trends in American poetry and of the works of individual writers. Readings and lectures. Kellogg.

English 306. American Novel. A study of the development of prose fiction in America. Emphasis will be placed on the works of

Hawthorne, Melville, James, and Cather. During the course ten novels will be read. Faner.

English 307. American Drama. A study of the rise of the theatre in America with a survey of the dramas of the early period and intensive reading of contemporary plays. Kellogg.

English 310 (42). Emerson and Carlyle. A study of the philosophy of these men through their representative works. Cox, Faner.

English 314. Seventeenth Century Literature. A study of the poetry mainly in the Donne tradition; of the prose, with emphasis on Sir Thomas Browne, Bunyan, and Dryden. Texts: Coffin and Wither-
spoon's *A Book of Seventeenth Century Prose*; Judson's *Seventeenth Century Lyrics*. Power.

English 351 (31). Eighteenth Century Literature. (a) Poetry: A study of Neoclassicism and the genesis of the Romantic Movement. (b) Prose: An examination of selected masterpieces and a study of the satirical and critical essay. Barbour.

English 320 (30). British Poets, 1798 to 1830. Text: Woods' *Romantic Prose and Poetry*. Barbour.

English 321. British Poets, 1830-1880. Text: Woods' *Poetry of the Victorian Period*. Power.

English 324. Elizabethan Non-dramatic Literature. Material classified according to types and authors. Special emphasis on Spenser. Text: Potter's *Elizabethan Verse and Prose*. Krappe.

English 326. Nineteenth Century Prose. A study of representative writers of England's great prose age, exclusive of fiction, as they appear in relation to nineteenth century life and thought. Text: Reilly's *Masters of Nineteenth Century Prose*. Krappe.

English 330 (22). Modern British Poetry. Tendencies in British Poetry from 1880 to the present. Text: Untermeyer's *Modern British Poetry*.

English 335 (15). The Short Story. A comparative study of the growth of the short story as a literary form. Crawford.

English 340 (23). The English Essay. A study of the development of the English essay through a close examination of thought trends and changing technique. Faner.

English 341 (8b). Advanced Public Speaking. The study and delivery of types and speeches.

English 354 (19). Development of the English Novel. A study of representative novels from Defoe through Scott. Barbour.

English 355 (20). Victorian Novel. A study of representative Victorian novelists.

English 360 (26). English Drama to 1642. Lecture and reading course. Representative plays will be read showing the development of the drama from the Greek and Roman to 1642. Tenney.

English 361. Restoration and Eighteenth Century Drama. A study of the English drama from 1660 to 1830 with intensive reading of plays and with special reports. Kellogg.

English 363 (24). Modern British Drama. A study of the technique of the drama after Ibsen. Twenty-four plays will be read and discussed. Jonah.

English 365 (14). Shakespeare, Comedies and Histories. Plays for intensive study will be selected from these comedies and histories: Taming of the Shrew, Midsummer Night's Dream, Much Ado About Nothing, As You Like It, Twelfth Night, Richard III, Henry IV, Part I. Cox, Jonah.

English 366 (38). Shakespeare, Tragedies and Romances. The course will consist of a thorough study, with readings in the textual critics, of a number of tragedies and romances, selected from this list; Romeo and Juliet, Hamlet, Othello, Lear, Antony and Cleopatra, Winter's Tale, Tempest. Cox, Jonah.

English 369. Criticism of Literature. This course will consist of a historical survey of critical theory from Plato to Croce, with special emphasis on points of view important in the evaluation of recent literature. Text: Saintsbury's *Loci Critici*. Tenney.

English 370 (38). Milton. A study of the poetry of Milton with emphasis on the forms, influences, and ethical values. Texts: Cambridge Edition of Milton's Complete Poems; Hanford's *Milton Handbook*. Crawford.

English 375 (41). Wordsworth. A specialized course in Wordsworth—a study of the man, his theories, practice, and philosophy, with emphasis on the Prelude. Power.

English 376a. A Study of Our Great Prose Stylists. Texts: Genung's *Working Principles of Rhetoric*; DeQuincey's *Confessions of an Opium Eater*; Macaulay's *Essay on Milton*; Carlyle's *Essay on Burns*. Special studies of excerpts as follows: *The Variegated Mosaic which a Bird Sees in Its Migration*, John Ruskin; *A Night Among the Pines*, Robert Lewis Stevenson; *Picture from Adam Bede*, George Eliot; *Beatrice Esmond*, Thackeray's *Henry Esmond*; *Chasing a Loon*, Henry David Thoreau; *The Battle of Killiecrankie*, Macaulay; *Overboard*, Wm. Black; *Battle of Landon*, Macaulay; *The Capture of Quebec*, Francis Parkman; *Bunker Hill Address*, Daniel Webster; *The Three Strangers*, Thomas Hardy; *The Flight in the Heather*, R. L. Stevenson; *The Escape from Paris*, Charles Dickens; *The Wreck*, Charles Dickens.

English 379. Comparative Literature. The lectures will provide a background for the appreciation of literature other than English and American. The readings will be selected from translations of the works of Homer, Plato, Virgil, Dante, Rabelais, Cervantes, Voltaire, Goethe, Turgenev, and Dostoevski. Tenney.

English 380 (17). Old English. Grammar and easy reading. Some reading of Old English will be done, but principally we shall trace the development of our language, and account for the presence in it of many irregular forms. Prerequisite, one year of foreign language. Bowyer.

English 383. Middle English. A general introduction to Middle English literature exclusive of Chaucer. A study of dialects. Bowyer.

English 384. History of the English Language. A historical survey of the beginnings of the language, foreign influences, and their effect upon the vocabulary and grammar. Krappe.

English 385 (18). *English Method.* This course is open to those who have had two terms of college literature. The methods of teaching grammar, composition, and the technique and content of poetry and of prose are all stressed. Crawford.

English 386. *Chaucer.* Rapid reading of representative works with introductory study of Chaucerian grammar and versification. Emphasis on general social and literary background of the fourteenth century. Bowyer.

English majors are advised to choose courses with discrimination, selecting at least one Shakespeare or Milton course, one century course, one type course, and one language course.

FOREIGN LANGUAGES.

VERA L. PEACOCK, French.

J. M. PIERCE, German.

MADELEINE SMITH, French.

HELEN BALDWIN, Latin.

FULLER COMBS, Latin.

J. CARY DAVIS, French.

FRENCH.

Major: Three years of French, excluding courses 101, 102 and 103.

Minor: Two years of French, excluding the above courses.

French 101, 102, 103 (1, 2, 3). *Elementary Course.* Grammar; pronunciation; composition; conversation; reading of modern prose.

Prerequisite: 101 open to students who have had no previous work in French; 102, prerequisite: 101, or one year of high school French.

(Students lacking two or more credits of required beginning French at the end of the Junior year must take course 151 without credit).

French 151 (4). *Second-Year Composition and Reading.* Grammar; composition; oral practice; rapid reading of modern authors.

Prerequisite: French 103 or two years of high school French.

French 152 (5). *Second-Year Composition and Reading (continued).* Grammar; composition; oral practice. Intensive class reading from the works of Hugo, Balzac, Daudet, Loti and Anatole France.

Prerequisite: French 151 or three years of high school French.

French 153 (6). *Intermediate Composition and Reading.* Grammar review; conversation; themes; study of nineteenth century prose and poetry. Conducted largely in French.

Prerequisite: French 152 or its equivalent.

French 201, 202, 203 (7, 8, 9). *Survey of French Literature.* A study of the important currents of French literature from the beginning to the present time. Outside reading and reports. One hour each week will be devoted to French composition.

Prerequisite: French 153.

French 301. *The French Novel of the Eighteenth and Nineteenth Centuries.* A study of the French novel from 1700 to 1900. Lectures, collateral reading and reports.

Prerequisite: French 203.

French 302. *Seventeenth and Eighteenth Century Drama.* Intensive study of Corneille, Racine, Moliere, Lesage, Voltaire, Marivaux and Beaumarchais. Outside reading of minor dramatists.

Prerequisite: French 203.

French 303. *French Lyric Poetry.* French versification; Romantic, Parnassian and Symbolist schools; contemporary poets. Weekly reports on outside reading.

Prerequisite: French 203.

French 351. *Advanced Composition.* Rapid grammar review; study of idiomatic construction; weekly themes. Course conducted in French.

Prerequisite: French 203.

French 352. *French Conversation and Phonetics.* A thorough study of the phonetic alphabet and of the formation of French sounds. Course conducted in French.

Prerequisite: French 203.

French 353. *Advanced Composition and Conversation.* Oral and written composition of a practical nature for advanced students. Intensive study of idiomatic expression and current usage.

Prerequisite: French 351 and 352.

GERMAN.

Major: Three years of German, excluding courses 101, 102, and 103.

Minor: Two years of German, excluding the above courses.

German 101, 102, 103 (1, 2, 3). *Elementary Course.* Grammar; pronunciation; composition; conversation; reading of simple prose. *Deutsche Lieder.*

Prerequisite: 101 is open to students who have had no previous work in German; 102 is open to those who have had 101 or one year of high school German.

(Students lacking two or more credits of required beginning German at the end of the Junior year must take course 151 without credit).

German 151 (4). Second-year texts: reading of modern authors. Composition and conversation in connection with the texts.

Prerequisite: German 103 or two years of high school German.

German 152 (5). Second-year texts (continued). Sight reading in selected stories of Baumbach, Storm, Heyse, Hauff, Riehl.

Prerequisite: German 151 or three years of high school German.

German 153 (6). Classic Drama: Schiller's Wilhelm Tell, Goethe's Hermann and Dorothea, Lessing's Emilie Galotti.

Prerequisite: German 152 or its equivalent.

German 201, 202, 203 (7, 8, 9). Survey of German Literature. This is a general account of the chief writers and their works in chronological order. Outside reading and reports. Composition, one hour a week.

Prerequisite: German 153.

Prerequisite for the following courses: German 203.

German 301. Goethe's Faust, with study of special topics and reports.

German 302. Recent dramatic works.

German 303a. Scientific reading in German.

German 303b. *Educational reading in German*. A choice is offered between 303a and 303b.

Throughout the entire course, attention is given to the linguistic relations between German and English in the vocabulary and grammar.

LATIN.

College students may begin Latin and receive credit for one or two years. Students having two or more years of high school credit are eligible to college classes.

For advanced students majoring in Latin practice teaching is provided.

Latin 101, 102, 103 (1, 2, 3). *Beginning Latin*. Smith's Elementary Latin is used, the aim being familiarity with the elements of Latin grammar.

(Students lacking two or more credits of required beginning Latin at the end of the Junior year must take course 104 without credit.)

Latin 104, 105, 106 (4, 5, 6). *Caesar's Gallic War*. The equivalent of four books is read, Walker's Caesar being the text. Scott's Prose Composition.

Latin 151 (13). *Advanced Composition*. This is useful for teachers and is a convenient review for students. Prerequisite, at least two years.

Latin 152 (14). *Cicero's Essays*. De Senectute and part of De Amicitia. Prerequisite as for Latin 151.

Latin 153 (15). *Livy*. Books I and XXI. Prerequisite as for Latin 151.

Latin 201 (16). *Phormio of Terence*. Prerequisite, 1 year of college Latin.

Latin 202 (17). *Horace, Odes and Epodes*. Prerequisite as for Latin 201.

Latin 203 (18). *Letters of Pliny*. Prerequisite as for Latin 201.

Latin 301 (19). Cicero's Letters. Emphasis is laid on the history of the times and the personality of Cicero. Prerequisite, 2 years of college Latin.

Latin 302 (20). Vergil's Eclogues and Georgics. The hexameter is carefully studied and Vergil's spirit and contribution to Rome are considered. Prerequisite as for Latin 301.

Latin 303 (21). Tacitus. The *Agricola* and *Germania*. Prerequisite as for Latin 301.

Latin 341 (41). Methods in Latin. A half credit. Deals with the psychology of the subject, objectives, text books, etc. For Senior College students.

In both terms of the summer quarter reading courses are offered for senior College and for Junior College students.

GEOGRAPHY AND GEOLOGY.

FRANK H. COLYER.

MARJORIE MAE SHANK.

F. W. COX.

ANNEMARIE KRAUSE.

Geography 100 (11). Principles of Geography. This is a prerequisite to all other geography courses. It deals with the essential facts and principles of the subject. This is a laboratory course. One Saturday field trip required.

Geography 200 (11a). Geography of North America. This is a regional study of the continent of North America. In this course considerable emphasis is given to the methods of presenting the subject in the grades. This continent is taught in Illinois in the sixth grade and other continents in the seventh and eighth.

Geography 205. Physiography. Students planning to take geology should take this course and all others who have not had physiography in high school. This is a laboratory course.

Geography 210. Economic Geography. Geographic conditions affecting industries, production and world trade. Text: *Economic Geography* by Whitbeck and Finch.

Geology 300 (8). Physical Geology. This deals with materials composing earth, agencies and processes involved in its physical history. This course or 205 is prerequisite to geology 301 and 302. Laboratory and field work required: Text: Pirsson and Schuchert. Part I.

Geology 301 (9). Historical Geology, Rocks and Minerals. First Part of Historical Geology. Laboratory deals with study of chief minerals and rocks. Text: *Rocks and Minerals* by Pirsson; *First Part Historical Geology* by Pirsson and Schuchert Part II.

Geology 302 (10). Historical Geology. Continuation of Historical Geology and a study of chief animal and plant fossils characteristic of different geology periods. Text: *Historical Geology* by Pirsson and Schuchert.

Geography 305 (13). Advanced Economic Geography. A study of commodities of the world and factors influencing their production, transportation and marketing conditions.

Geography 310 (14). Climate and Weather. This treats of the conditions of the atmosphere, changes in meteorological elements. Causes of these changes, factors and laws involved in study of weather and climate.

Geography 315 (15). Geography of Europe. A study of life conditions as influenced by climate, relief features, soils, minerals and natural resources. Political and economic conditions.

Geography 316 (16). Geography of South America. World relations of South America. Population, economic conditions and foreign trade as influenced by location, climate, relief, size, shape, and other natural conditions and resources.

Geography 320. Geography of Africa and Australia. Life conditions as influenced by location, relief, climate, soils, and minerals. Vast mineral resources and rapid development of South Africa. Almost complete domination of European countries in Africa.

Geography 318 (18). Geography of Asia. Life conditions and economic development as influenced by location, climate, relief, size, shape, and other natural conditions.

Geography 319. Geographic Influences in American History. A careful study of the natural environment which has furnished the setting for American History together with an inquiry into the relation between a number of events, movements and developments and their natural environment.

Geography 325. Conservation of Natural Resources. This gives a survey of our natural resources, waste in production and use. What may be done to prevent future waste. Text: Conservation of Our Natural Resources by Van Hise and Havemeyer.

Geography 330. Problems of Political Geography. A study of the political units of the world, which set forth the location and resources of independent political units, dominions, colonies, and mandates and the effect of geographic factors upon the commercial, social and other relations that exist between the various political units. Text: The New World. Bowman.

HISTORY.

RICHARD L. BEYER.

GEORGE W. SMITH.

E. G. LENTZ.

SARA S. BAKER.

CHARLES J. PARDEE.

CLARENCE H. CRAMER.

History 105 and History 106 are pre-requisites for advanced courses in European History, while History 110 and History 111 are pre-requisites for advanced courses in American History.

Hist. 105. Modern Europe, 1500-1815. This is a survey course in European History which is designed to give the student an appreciation of the broad outlines of the history of western civilization. Required of all history majors. Beyer and Smith.

Hist. 106 (17). Modern Europe, 1815-1930. This course naturally follows *Hist. 105* and is designed to carry forward in their proper sequence and causal relationships those tendencies which exist in the Europe of today. Required of all history majors. Pardee.

Hist. 110 (14). American History, 1763-1860. This is a survey course in the fundamental aspects of American History from the conquest of New France in 1763 to the southern war for independence in 1861. Required of all students. Beyer, Baker, Smith, Cramer.

Hist. 111. American History, 1865-1930. A fundamental course dealing with the main features of American History from Appomatox to the present time. Required of all history majors. Lentz, Baker, Cramer.

Hist. 210. Methods of Teaching History. One-half credit. Designed to aid history instructors by providing actual contacts with historical material and by suggesting means for the presentation of history to grade and high school students. Beyer.

Hist. 305 (15 and 16). Ancient Civilizations. A survey course in the development of Greek and Roman social, economic, and political life. Pardee.

Hist. 310 (23). The Middle Ages. This is an examination of Europe from the Ancient World to approximately 1300. Feudalism is emphasized but a treatment of the religious and intellectual life of Europe is included. Prerequisite, 105. Cramer.

Hist. 315 (35). Renaissance and Reformation. Prerequisite, 305. This is a treatment of the Renaissance of culture and humanism and of the tremendous social and political influence growing out of the Reformation. Prerequisite, 105. Beyer.

Hist. 320 (24). The French Revolution. Prerequisite, 105. This course occupies a middle ground between the old and the new order—the final extinction of the remnants of the feudal system. Beginning with the Old Regime the study is carried through the revolutionary cycle concluding with the fall of the Napoleonic Empire. Prerequisite, 105. Lentz.

Hist. 322. English History to 1603. A study of England from ancient times to the death of Elizabeth, the course emphasizing the evolution of the various phases of institutional life of the State. Lentz.

Hist. 323. English History, 1603-1815. A careful tracing of Stuart and Hanoverian England to the end of the Napoleonic Wars. Attention will be devoted to the beginnings of imperialism, the development and collapse of absolutism, and the progress of constitutional government. Lentz.

Hist. 324. English History, 1815-1930. An investigation of the Era of Reform, the building of the second British Empire, pre- and post-war Britain. A study will be made of recent British problems and the Commonwealth of Nations. Lentz.

Hist. 325. American Colonial History. This is an advanced course dealing with the transplanting of European institutions to North America but emphasizing those developments which were most important in determining the establishment and development of the English colonies. A close study is made of the British colonial system and of the growth of the movement for independence. Prerequisite, 105. Beyer.

Hist. 330. Middle Period of American History, 1815-1860. A study of those conflicting sectional and nationalistic forces which characterized this period. Those economic and sectional forces leading to the Civil War are properly stressed. Prerequisite, 110. Baker.

Hist. 335 (27). Recent American History, 1865-1930. This is intended to be an intensive study of reconstruction, of all those financial and political problems growing out of the Civil War, and of the factors which have brought the United States into the position of a world power. Prerequisites, 110 and 111. Baker, Cramer.

Hist. 340 (42). History of American Diplomacy. This is an historical treatment of the political relationship between the Government of the United States and the governments of those nations with which we have come into contact from 1774 to 1932. Prerequisites, 110 and 111. Cramer.

Hist. 342. History of the West. An intensive study of the influence of the frontier on the main trends in American History. Prerequisites, Hist. 110 and Hist. 111. Beyer.

Hist. 344. European History, 1815-1870. This is an advanced course dealing with the main features of European civilization from the conservative reaction which followed the Napoleonic Wars to the intense period of nationalism marked by the unification of Germany in 1870. Prerequisites, 105 and 106. Cramer.

Hist. 345 (25). Contemporary European History. In this course a study is made of the most important social, economic, and political developments in European History from 1870 to the present time. Prerequisites, 105 and 106. Beyer.

Hist. 350. World War and Reconstruction. A study of the fundamental and immediate causes of the World War, the peace settlements, the Succession States, the League of Nations, the Communist experiment in Russia and other post-war problems. Prerequisites, 105 and 106. Cramer.

Hist. 352. History of Latin-America. A study of the major tendencies in the development of South America, Mexico, and the West Indies with particular emphasis on the evolution thereof in the nineteenth and twentieth centuries. A careful investigation will be made of a few major Latin-American countries and a rapid survey of the remainder of the field. Prerequisite, 110.

Hist. 355. Historiography. This course is to acquaint the advanced student and prospective teacher in history with the major tendencies in historical scholarship. Emphasis will be placed upon the schools and masters of craftsmanship in history. Open only to juniors and seniors who are majoring in history. The entire department will collaborate in the teaching of this course.

HOUSEHOLD ARTS.

LUCY K. WOODY.

MARY LOUISE BARNES.

Students who intend to major in Household Arts should have as prerequisites a year of chemistry and Art 110 and 115.

Household Arts 105 (5a), 106 (6a), 107 (7a). Foods and Cookery. No prerequisites. A year's work divided into three units for Freshmen and unclassified students who wish to elect a general course in foods and cookery. Text: Rose's Feeding the Family.

Household Arts 205 (5), 206 (6), 207 (7). Foods and Cookery. Prerequisites: One year of inorganic chemistry, general botany or zoology. A year's course in the study of production, marketing, relative costs, nutritive values and preparation of food.

Course 205. A consideration of heat, fuels, apparatus, food preservation, fruits, vegetables, starches and sugar.

Course 206. Beverages, dairy products, eggs, meat, fish, poultry, meat substitutes, fats.

Course 207. Flour mixtures salads, desserts, meal planning and service, buying, pure food laws.

Text: Food Products, Sherman; References.

Household Arts 120 (11c). Elementary Nutrition and Cookery. No prerequisites. A term of elementary nutrition combined with fundamental cookery problems especially designed for the first course in foods for nurses. It includes work in diet in disease. Open to nurses of Holden Hospital, freshmen, and unclassified students. Text: Rose's Foundations of Nutrition.

Household Arts 335. Meal planning and Table Service. Designed especially for upper classmen. This is a course involving the elementary science of nutrition and its application to meal planning. Whole or half credit.

Household Arts 125 (2). Garment Making. This course embraces both hand and machine work. Stress is laid upon the suitability of material and trimmings and upon economical purchasing. The work involves the use and alteration of commercial patterns, some drafting and the various methods of trimming. A study of textiles is a part of the work.

Household Arts 130 (3). Dress Making. Prerequisites. Household Arts 125 or equivalent. This course involves the making of two summer dresses, a study of materials, color combinations and line in dress, some drafting of patterns and elaboration of plain patterns. In textiles the work includes the study of the important fibers in relation to careful buying.

Household Arts 320 (11) Nutrition and Dietetics. Prerequisites: Foods and Cookery, 205, 206, 207; General Botany, 101, or Zoology, 101; Physiology, 201; two terms of Organic Chemistry. A study of food and its relation to the body, planning dietaries for infants, children and adults.

Text: The Chemistry of Food and Nutrition, Sherman; Laboratory Manual for Dietetics.

Household Arts 325. Organization and Management of the Household. A study of family incomes, household equipment and activities with special emphasis on the economic aspects of managing at home. No prerequisite.

Household Arts 326. Art in the Home. A course without prerequisite in fine arts, planned for students who desire to know the art principles in their application to the house. One-half credit.

Household Arts 330 (19). Costume Design and Draping. Prerequisites: H. A. 130 and Art 115 and 110.

In this course dresses are constructed in inexpensive materials. These are planned from the standpoint of becomingness to the individual. A study of historic costume accompanies the work.

Household Arts 360 (14). Advanced Dressmaking. Prerequisites: H. A. 330 and H. A. 130.

This course involves the handling of silk and wool in tailoring, draping and the use of commercial patterns. A term paper is required following investigation and discussion.

Household Arts 375. Senior College Sewing. No prerequisite except senior college standing. A survey course in clothing planned for students who desire to learn the fundamentals of selection and making of clothing from the economic and artistic standpoints.

INDUSTRIAL ARTS.

LOUIS C. PETERSEN.

201 (1). Primary Handwork. For teachers of the lower grades. Method in paper cutting and construction, booklet making, applied design, knotting, braiding, weaving, raphia work, simple basketry; representation of tribal camps and Colonial villages. Organization and presentation of subject matter.

Text: Paper Craft Problems, Hammond. One-half credit.

202 (1a). Upper Grade Handwork. Method of designing and weaving reed baskets, light-wood construction, toy-making, lettering, drawing, working out instruction sheets, organization of material of instruction, class management in industrial arts. One-half credit.

101 (11). Mechanical Drawing. This is a course for beginners and includes the use of instruments, applied geometry, lettering, orthographic projection, developed surfaces, intersections of solids, working drawings. Text: Engineering Drawing, French. One credit.

102 (12). Architectural Drawing. Prerequisite: Industrial Arts 101. This course includes architectural lettering, conventions, plans and elevations, study of building materials, specifications, computation of strength of beams, pillars, stairways. Text: Architectural Drawing, Svensen. One credit.

103 (13). Machine Drawing. Prerequisite: Industrial Arts 101. In this course the characteristics of metals and machine parts are studied. Typical machine elements are worked out in drawings such as different forms of screw threads, cams, gears, kinematics as applied to machinery. Tracing and blueprinting. Text: Engineering Drawing, French. One credit.

104. *Advanced Architectural Drawing*. Prerequisite: Industrial Arts 102. Study of the Classic Orders, mechanical perspective, shades and shadows, rendering. Complex architectural problems are worked out. Text: *Architectural Drawing*, Field. One credit.

105. *Advanced Machine Drawing*. Prerequisite. Industrial Arts 103. Study of machine design, properties of metals and alloys, working out tables for proportional machine parts, designing of tools and simple machines. Text: *Design of Machine Elements*, Mease and Nordenbolt. One credit.

212. *Woodturning*. Prerequisite: Industrial Arts 101. Practice in the tool processes used by skilled woodturners, care of powerdriven machines and tools, working out designs in wood as applied in furniture construction and pattern making. Text: *Problems in Artistic Wood Turning*, Ensinger. One credit.

213. *Furniture Construction*. Prerequisite: Industrial Arts 212. Study of the principles of design and period furniture. Practice in designing and construction of furniture that can be made in school shops. Machine woodworking, care of shop equipment. One credit.

214 (6a). *Pattern Making*. Prerequisite: Industrial Arts 212. Study of draft, shrinkage, finish, core prints and core boxes. Practice in moulding and core making, casting soft metal, making patterns for small machine parts. Text: *Wood Pattern Making*, McCaslin. One credit.

221 (8). *Art Metal Craft*. This course is for beginners in metal work and embodies in the design and construction of useful articles such processes as forming curves, stretching and raising, punching, drilling, riveting, sawing, filing, annealing, hardening, soldering, etching and coloring by heat and chemicals. Text: *101 Metalworking Projects*. Petersen. One credit.

222 (9). *Machine Metal Work*. Study of the engine lathe and drill press, proper cutting speeds and feeds, shaping and grinding cutting tools, straight and taper turning between centers, filing and polishing, thread-cutting, figuring change gears, chuck work, facing, boring, and reaming. Forging and tempering tools. Text: *Machine Tool Operation*, Burghart. One credit.

223 (10). *Machine Shop Practice*. Prerequisite: Industrial Arts 222. Practice in fastening work on planer platen and in taking cuts at different angles to produce flat surfaces. Work in scraping and testing true surfaces and in fitting machine parts. One credit.

MATHEMATICS.

W. T. FELTS.

ALICE KELSEY WRIGHT.

J. R. PURDY.

The Department of Mathematics offers fifteen full two-and-one-half hour courses, and three half-credit or one-and-one-quarter hour courses with a view of meeting three types of needs of students:

(1) The mathematical requirement for graduation from Junior College; (2) A minimum of necessary college mathematics to meet the

requirements for a special certificate to teach mathematics in two and three year high schools; (3) To meet the requirements of a minimum of twenty-two and a half hours college mathematics for a major in the subject in completing the work for a degree.

Freshman.

Math. 101 (91). College Algebra I. A course in the algebraic topics usually found in the third semester of high school algebra treated more extensively than in high school. It is a non-credit course for those offering a year and a half of Algebra from a credited high school and who wish to review the course before taking College Algebra II. This course does not transfer to the University unless followed by Math. 102, College Algebra II. Prerequisite: One year of high school Algebra.

Math. 102 (19a). College Algebra II. A course such as is usually offered as College Algebra in colleges. Prerequisite: College Algebra I or one and a half years of high school algebra.

Math. 105 (25). Trigonometry. The work usually covered in a two and one-half hour course in plane trigonometry. Prerequisite: College Alg. I or one and one half years of high school algebra, and one year of Plane Geometry.

Math. 110 (30). Method Arithmetic. A course in the pedagogy and psychology of arithmetic for those who are planning to teach arithmetic in the elementary grades. Problem solving in this course is illustrative and supplementary.

Math. 201 (27). Analytics I. Cartesian Coordinates, curve and equation, straight line, circle, polar coordinates, functions and graphs, transformation of coordinates. Prerequisites: Trigonometry and College Algebra II.

Math. 202 (28). Analytics II. A special study of conic sections, asymptotes, transcendental curves and equations. Prerequisite: Analytics I.

Math. 205 (36). Descriptive Geometry. A short course in the elements of descriptive geometry to prepare for further work in engineering or mechanical courses and to enlarge and enrich the student's space concepts. Prerequisite: Analytics II.

Math. 230. Solid Analytics. A two and a half hour course in such topics as are usually found in such course. Prerequisite: Analytics II.

Math. 300. College Geometry. This is a course in synthetic geometry. It continues and expands the study of the basic topics of plane geometry, such as the locus, the triangle, transversals, poles and polars, proportion, inversion, etc. Its aim is to strengthen the teacher of high school geometry. Prerequisite: $7\frac{1}{2}$ hours of college mathematics.

Math. 301 (44). Calculus I. The elements of differential calculus with applications. Prerequisite: Analytics II.

Math. 302 (45). Calculus II. The elements of integral calculus with applications and occasional advance forms of differentiation. Prerequisite: Calculus I.

Math. 303 (45a). Calculus III. An extension of Calculus I and II. Multiple differentiations and integrations in connection with special applications.

Math. 304 (45b). Calculus IV. A half-credit course extending the work of Calculus III, Summation, mass, mean, density, moments, centroids singular points, etc. Offered only during First Summer Term. Prerequisite: Calculus III.

Math. 305. Differential Equations. A full credit course covering the topics usually found in a two and a half hour course. Prerequisite: Math. 310.

Math. 310. (1st Half of Math. 46.) The Teaching of High School Algebra. A half credit course—one and three quarter hours—in the methods of teaching high school algebra. Prerequisite: Col. Alg. II.

Math. 311. (2nd Half of Math. 46.) The Teaching of Plane Geometry. A half credit course in methods of teaching high school geometry.

Math. 320. Theory of Equations. Prerequisite: Calculus II.

MUSIC.

DAVID S. MC INTOSH.

JULIA D. CHASTAINE.

HELEN E. MATTHES.

WENDELL MARGRAVE.

Music 105 (Music I). Sight Singing and Theory. This course is offered to those students who have not had elementary training in music. It consists mainly of sight-reading simple songs and exercises; but also includes drill in pitch, rhythm, and theory.

Music 107. Song Leading and Community Singing. The social aspects of music. Daily practice in the simpler phases of conducting, stressing song leading. Elementary instruction on simple instruments for camps and playgrounds. Organizing of musical activities for the student body. Aims to prepare students as teachers and citizens to broaden the appeal of music. Open to students with slight musical training for $\frac{1}{2}$ credit.

Music 110 (Music II). Study of Primary Music Materials. This course is designed to meet the music requirements demanded of the primary grade teacher. The work covers the following topics: the child voice, rhythm development, note singing, sight singing, music appreciation. Prerequisite: Music 105, or previous training equivalent to that course.

Music 215 (Music 2). Study of Intermediate Music Materials. This course is designed to meet the music requirements demanded of the Intermediate Grade Teacher. The work covers the following topics: two-part singing, sight reading, three part singing, practice use of the minor mode, music appreciation. Prerequisite: Music 105, or previous training equivalent to that course.

Music 125 (Music 5). Harmony. The work covers the formation of major and minor scales, a thorough study of intervals, the common chord, and harmonic progressions. Prerequisites: Music 1 or equivalent.

Music 230 (Music 6). Harmony. A continuation of Music 5. The course covers harmonic progressions, the chord of the sixth and the six-four, the dominant seventh and its inversions, and natural modulations.

Music 231. Harmony. A continuation of Music 230. A study of the dominant seventh and its inversions, diminished sevenths, secondary chords of the seventh, altered chords, mixed chords and modulation.

Music 235 (Music 10). History of Music. A general course covering the important movements of the following periods: uncivilized and ancient music, medieval music, the nineteenth century, the seventeenth century, the eighteenth and early nineteenth century.

Music 305 (Music 8). Junior High and Senior High School Music Materials. The problems of vocal music and instrumental music relating to the Junior High School and Senior High School are studied. Practical instruction in conducting is given. Prerequisite: Music 105 or equivalent.

Music 310 (Music 9). Technic of School Orchestras and Bands. This course offers a study of all the orchestral instruments, the common band instruments, and scoring for the orchestra. The entire course is outlined and conducted in terms of the grade school and high school band and orchestra. Prerequisite: Music 125.

Music 312. Musical Form and Harmonic Analysis. Analysis of compositions is made the basis of the study and classification of the various types of musical form, including the sonata form. Prerequisite: Music 230.

Music 320 (Music 12). Harmony. A continuation of Music 315 Chromatically altered chords, suspensions, ornamental tones, and modulations. Text: *Modern Harmony*, by Foote and Spaulding.

Music 325. Counterpoint. Melody writing, two-part counterpoint including simple modulations. Motive development, imitation, the small invention, three-part harmony, melody harmonization with primary chords. Text: *Elementary Counterpoint* by Goetschius.

Applied Music.

Class instruction in piano, violin, and other orchestral instruments is elective. Classes recite three days each week, one credit being given for three terms' work.

Music 150-151-152 (Music 21, 22, 23). Violin, First Year. The subject matter of the text used is correlated with the singing lesson wherever possible. Emphasis is placed upon the mechanics of the instrument by employing: (1) short and easily memorized exercises in rhythmic form for the development of the bow, hand and arm; and (2) technical exercises suitable for young beginners designed for the purpose of training the left hand. Text: Max Fischel's *Graded Course*, Book 1 and Book 2.

Music 160-161-162 (Music 24, 25, 26). Violin, Second Year. The work of the second year provides for the presentation and the development of the third position, the more difficult keys, rhythms, bowings, and the easier harmonies; during the later part of the year the seven positions in scale form are used. Text: *Elementary Violin Lessons* by Eugene Gruenberg and Max Fischel's Book 3.

Music 170-171-172 (Music 40, 41, 42). Piano, First Year. Teaching of the rudiments of piano playing from one of the most approved methods for beginners. Careful attention is given to hand culture, touch, music notation, rhythm and ear training. Text: Standard Graded Course of Studies by W. S. B. Mathews.

Music 180-181-182 (Music 43, 44, 45). Piano, Second Year. The W. S. B. Mathews Standard Graded Course continued.

Music 190. Applied Music. Elementary voice training. This work is done in class and is open to all students.

The University maintains a band, orchestra, and a chorus. Students who are especially interested in music are urged to apply for membership in at least one of these organizations. Students who qualify for either Orchestra or Band will have their tuition refunded.

PHYSICAL EDUCATION FOR MEN.

WM. MC ANDREW.

LELAND LINGLE.

VINCENT DI GIOVANNA.

Physical Education 151 (7). Fall Term. Marching tactics, calisthenics, group games, individual combative contests.

Physical Education 152 (8). Winter term. Boxing, wrestling, tumbling, apparatus work, and group games.

Physical Education 153 (9). Spring term. Track, baseball, and group games.

All freshmen are required to take physical education throughout the year, three times per week. Unless a student is a member of one of the team squads he will be required to take the above three courses.

Illinois law requires 144 forty-minute periods of physical education for graduation from normal schools.

Physical Education 170 (11). The school supports a foot ball team during the fall term. Physical training credit is given to the men who remain on the squad. Students are not dropped from the squad because they have no chance of making the team. They are encouraged to work for the physical benefits and to learn the game.

Physical Education 171 (12). A basket ball team represents the school during the winter term. The statement above concerning the foot ball team holds true for basket ball.

Physical Education 172 (14). Track. The same facts hold for this branch of sport as for courses 170 and 171.

Physical Education 173 (15). The men who made the tennis squad are given credit.

Physical Education 154. Foot ball. Theory and practice on the field. Each student is given individual instruction and practice in all the fundamentals for linemen and backs. Team play is emphasized in the latter part of the course. Students participate in actual scrimmage. Texts: Foot ball, by K. K. Rockne; Foot ball Technique and Tactics by R. C. Zuppke.

Three hours per day, five days per week, one term, one credit.

Physical Education 155. Basket ball. Theory and practice on the floor. The basic fundamentals of the game are studied and practiced. The first part of the course is devoted to the learning of the fundamentals and the latter part of the course gives attention to the analysis of offensive and defensive systems and team work. Text: Basket ball by Veenker.

Three hours per day, five days per week, one term, one credit.

Physical Education 156. Track and Field. Instruction and practice in all individual track events and the separate field events. Actual performance in all events required of the student. How to organize and conduct track and field meets is a part of the course. Text: Track and Field by Tom Jones.

Three hours per day, five days per week, one term, one credit.

Physical Education 201. Boxing. The theory and practice of the art of self defense with special emphasis on fundamentals. Attention will be given to conditioning and training procedures and to the management of tournaments and exhibitions. Text: Boxing by Jack O'Brien and S. E. Billik.

One hour per day, four days per week, one term, one-half credit.

Physical Education 202. Wrestling. Modern and scientific methods of offensive and defensive tactics in wrestling with special emphasis on mat generalship. Text: Wrestling by Paul Prehn.

One hour per day, four days per week, one term, one-half credit.

Physical Education 203. Gymnasium Activities 1. This course aims principally to develop individual technique in the activities listed. The materials covered are as follows: first, the practice of single line marching maneuvers; second, the practice of calisthenics; third, the practice of simple stunts, selftesting activities, on the more popular pieces of heavy apparatus and the tumbling mats; fourth, games, contests, and relays adapted to the interests, needs and capacities of the group.

Two hours per day, four days per week, one term, one credit.

Physical Education 250. Materials and Methods for Teaching Physical Education in the Elementary Schools. This course is a study, demonstration, and practice of the physical education activities of children from six to fourteen years of age. It includes first, a presentation and study of graded lists of activities adapted to the age periods of the child and second, the organization, management, and methods in the leadership of the activities. Text: Physical Education for Elementary Schools by Neilson & Van Hagen.

One hour per day, four days per week, one term, one credit.

Physical Education 301. Gymnasium Activities 2. A progressive continuation of gymnasium activities 1, which, in addition to the practice for development of individual technique, includes the theory and pedagogy involved in the activities. Prerequisite: Physical Education 203. Texts: Calisthenics by S. C. Staley; Marching Tactics by S. C. Staley; Exercises on the Apparatus, Tumbling and Stunts, by W. J. Wittich and H. C. Reuter; Games, Contests, and Relays by S. C. Staley.

Two hours per day, four days per week, one term, one credit.

Physical Education 302. Materials and Methods for Teaching Physical Education Activities in Junior and Senior High Schools. A study, demonstration, and practice of the "total-body" activities adapted to the age needs, interests, and capacities of junior and senior high school boys. Emphasis is placed on the principles of leadership in an organized schedule of outdoor and indoor development activities which will necessitate a thorough knowledge of the purpose, aims, the remote and immediate objectives of physical education, and the changing factors which are involved in building a school program. Texts: *School Program in Physical Education* by C. W. Hetherington; *Education by Plays and Games* by G. E. Johnson; *The Practice of Organized Play* by W. Bowen.

One hour per day, four days per week, one term, one credit.

Physical Education 303. Kinesiology. This course deals with the mechanical analysis of physical education activities through the study of joint and muscle action. Text: *The Action of Muscles* by W. C. Mackenzie. Prerequisites: One term each of Anatomy and Physiology.

One hour per day, four days per week, one term, one credit.

PHYSICAL EDUCATION FOR WOMEN.

FRANCES ETHERIDGE.

DOROTHY MUZZEY.

AILEEN CARPENTER.

Practical Courses:

101 (1). *Physical Education.* General course required of freshmen. Fall term. Three days a week. (3/9) credit.

102 (2). *Physical Education.* Continuation of 101. Winter term. Three days a week. (3/9) credit.

103 (3). *Physical Education.* Continuation of 102. Spring term. Three days a week. (3/9) credit.

101A. *Physical Education.* Individual course for such students as are unable to take regular physical education work. Fall term. Three days a week. (3/9) credit.

102A. *Physical Education.* Continuation of 101A. Winter term. Three days a week. (3/9) credit.

103A. *Physical Education.* Continuation of 102A. Spring term. Three days a week. (3/9) credit.

201A. *Physical Education.* Individual course for sophomores unable to take regular physical education work. Fall term. Two days a week. (2/9) credit.

202A. *Physical Education.* Continuation of 201A. Winter term. Two days a week. (2/9) credit.

203A. *Physical Education.* Continuation of 202A. Spring term. Two days a week. (2/9) credit.

210. *Soccer and Volley Ball.* Fall term. Two days a week. (2/9) credit.

211. *Hockey.* Fall term. Two days a week. (2/9) credit.

212. *Basketball*. Winter term. Two days a week. (2/9) credit
213. *Basketball*. Spring term. Two days a week. (2/9) credit.
214. *Archery*. Fall, Winter and Spring terms. Two days a week. (2/9) credit.
216. *Tennis*. Fall and Spring terms. Two days a week. (2/9) credit.
220. *Gymnastics and Stunts*. Fall term. Two days a week (2/9) credit.
221. *Gymnastics and Stunts*. Continuation of 220. Winter term (2/9) credit.
222. *Gymnastics and Stunts*. Continuation of 221. Spring term (2/9) credit.
226. *Track and field athletics*. Spring term. Two days a week. (2/9) credit.
230. *Folk dancing*. Fall term. Two days a week. (2/9) credit.
231. *Folk dancing*. Winter term. Two days a week. (2/9) credit.
232. *Folk dancing*. Spring term. Two days a week. (2/9) credit.
233. *Interpretative dancing*. Fall term. Two days a week. (2/9) credit.
234. *Interpretative dancing*. Winter term. Two days a week. (2/9) credit.
235. *Interpretative dancing*. Spring term. Two days a week. (2/9) credit.
236. *Clog and Character dancing*. Fall, Winter or Spring terms. Two days a week. (2/9) credit.
237. *Advanced Clog and Character dancing*. Fall, Winter or Spring terms. Two days a week. (2/9) credit.
240. *Group games*. Fall term. Two days a week. (2/9) credit.
241. *Group games*. Continuation of 240. Winter term. (2/9) credit.
242. *Singing and Playground Games*. Spring term. Two days a week. (2/9) credit.
223. *Corrective gymnastic and First Aid*. Application of posture examination procedure to schoolroom conditions. Exercises which tend to counteract and prevent faulty postural conditions. Elementary study of first aid. Winter term. One credit.
- 245 (6). *Playground*. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the play movement is studied in connection with the practice of games and playground activities. Spring term. Four periods a week. One credit.
- Prerequisite: Two terms of physical education work or consent of instructor.
- 305 (205). *Physical Education Method I*. Principles, aims, and objectives of physical education. Adaptation of activities according to the age interests of elementary school children. Principles and technique of teaching and officiating hockey and soccer. Fall term, 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite: Sophomore standing.

306 (206). *Physical Education Method II*. Principles and theory of selecting and teaching gymnastic material. Elementary rhythm work and dramatic play for small children. Practice in folk and national dances, clog, and character dances. Principles and technique of teaching and officiating volley ball and basket ball. Winter term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite Method I, or equivalent.

307 (207). *Physical Education Method III*. Methods of selecting and adapting material to the building of a physical education curriculum. Principles of teaching elementary tumbling and stunts. Organization and contact of festivals, meets, and demonstrations. Principles and technique of teaching and officiating baseball and track. Spring term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite Method II or equivalent.

308 (208). *Kinesiology*. Analysis of the joint and muscular mechanism of various movements involved in gymnastic games and dancing. Study of the movements of everyday life in relation to the problem of bodily development and efficiency. Fall term. One credit. Prerequisite: College physiology.

(15/9) credit in practical courses is required for graduation.

PHYSICS AND ASTRONOMY.

S. E. BOOMER.

CHARLOTTE ZIMMERSCHIED.

O. B. YOUNG.

The department is provided with excellent equipment for its work. Two distinct courses of one year in general physics are offered,—one for those who have had no previous training in the subject and one for those who have had one year of high school physics. Beyond these there are eight one term courses, any six of which may be added to 206, 207, 208, to complete a major. Those who have not had high school physics but who desire to take more than one year in college should begin with 206 rather than with 201. Those who plan to major in physics should take the following courses in mathematics as early as practicable, either preceding the courses in physics or simultaneous with them: Numbers 101, 105, 201, 202, 301, 302.

Physics 201 (2), Mechanics and Sound; 202 (3), Magnetism and Electricity; 203 (4), Heat and Light constitute a year's work for those who have had no previous preparation. No mathematics is necessary beyond high school. Spinney is the text.

Physics 206, Mechanics and Sound; 207 (7), Magnetism and Electricity; 208 (8), Heat and Light constitute the years' work for those who have had high school physics. Mathematics 100 and 105 are desirable preceding or accompanying these courses but they are not necessary. Spinney's text and Taylor, Watson, and Howe's manual are used.

Mathematics 101 and 105 should precede the following courses:
Physics 301 (13), Mechanics. Jameson's Elementary Mechanics is the text.

Physics 301A, Analytical Mechanics for Engineers. Seely and Ensign's text. This course is patterned after the first semester's work of the corresponding course offered at the University of Illinois. No student should take both 301 and 301A. Prerequisite: Calculus or registration therein.

Mathematics 201, 202, 301, and 302 should precede the following courses:

Physics 303 (14), Heat, Draper's text.

Physics 305 (15), Magnetism and Electricity. Starling's Elements of Electricity and Magnetism is the text.

Physics 306, Magnetic and Electrical Measurements. Smith's manual.

Physics 308 (17), Sound. Wood's Sound is the text.

Physics 310 (16), Light. Robertson's Physical Optics.

Physics 312 (18, formerly half credit.) Radio, Loomis' Radio Theory and Operating.

Physics 314 (19, formerly half credit), Introduction to Modern Physics. Richtmeyer's text.

Astronomy 201 (1) and Astronomy 202 (2) constitute a two term course. Duncan's text. Four recitations per week, together with frequent evening observations with and without the telescope, constitute the work. As the students go on in their study from the earth to the moon, the sun, the planets, the stars, and the nebulae, their vision is broadened perhaps as rapidly in this ennobling science as it can be in any subject. The varying phases of the moon and the inferior planets, the vast distances to the stars, their great magnitude and high velocities, their constitution, temperature, and brilliance appeal especially to those who enjoy thinking along these lines. Those who take the course will find it helpful in presenting the difficult problems of mathematical geography and in vitalizing their nature study work.

Astronomy 301 and 302. A heavier course, similar to above, for senior college students. Text, Baker.

PHYSIOLOGY AND HEALTH EDUCATION.

DELIA CALDWELL.

FLORENCE DENNY.

P. & H. 201 (Biology 4a), College Physiology. This course covers a study of the development of the human body and of the anatomy, physiology and hygiene of the great systems which carry on its work. Besides giving to teachers the necessary knowledge of the human mechanism, it will form the basis for the more extended study of Human Anatomy and Physiology for students taking the professional courses of Medicine and Dentistry. Lectures, recitations and laboratory work. Prerequisites: One term of either Freshman Botany or Freshman Zoology. Fall term.

P. & H. 301 (Biology 24), Bacteriology and Sanitation. An introduction to the study of sanitary science, including a study of the morphology and physiology of microorganisms and their relationship to human interests. The following phases of the subject are consid-

ered: sterilization and disinfection; preparation and use of culture media; microscopic examination of microorganisms; bacteriology of soil, milk and water, and the pathogenic organisms and their relations to the production of communicable diseases. Lectures, recitations and laboratory work. Prerequisites: Freshman Botany or Freshman Zoology or College Physiology. Winter term.

P. & H. 202 (Biology 43). Health Education. This course will teach the meaning of health, its value to the individual and to the community; how it may be attained and how preserved. Special attention will be given to the hygiene of the mouth and teeth and to the organs of special sense. The principles of the prevention of communicable diseases will be taught and their application to the individual and to the community clearly demonstrated. This teaching will be adapted to the needs of the students themselves, for the improvement of their own health and detailed instructions will be given for the application of this work to the teaching of health in all of the grades of public schools. Lectures and recitations. Offered at every term.

POLITICAL SCIENCE.

WILLIS G. SWARTZ.

Pol. Sci. 210 (44). Principles of Government. An introductory survey of the basic features of modern governmental organization.

Pol. Sci. 220 (360). European Governments. This course is a comparative study of the principal governments of Europe, emphasizing those constitutional developments which took place after the World War. History 106 is especially recommended as a background.

Pol. Sci. 230 (365). American National Government. A survey of the structure, functions, and principles of the government of the United States. The development of the federal constitution; the president and his powers; national administration; congressional organization and procedure; the federal judicial system. History 110, 111 form a particularly helpful basis for this course.

Pol. Sci. 366. State Government. A study of the leading problems of government and administration in the American state, with particular attention to the central executive, legislature, and judiciary as well as problems such as taxation, public health, education, commerce and industry. Pol. Sci. 230; History 110, 111 are especially recommended as preparatory courses.

Pol. Sci. 367. Municipal Government. A study of the evolution of city government in the United States; the various types of city government; municipal elections, charters, etc. Pol. Sci. 230, 366; History, 110, 111 afford a helpful background.

Pol. Sci. 368. City Administration. This course deals with the increasing administrative functions and activities of the modern city, and their relationship to the individual citizens.

Pol. Sci. 369. County and Township Government. This is a study of probably the least known yet a highly important phase of local government. Attention is given to the important aspects of county

and township government and administration: taxation, education, charities, etc.

Pol. Sci. 370. International Relations. A study of the leading problems in world politics. Special consideration is given to such topics as modern imperialism, present-day colonial systems, and post-war problems.

Pol. Sci. 372. International Government. A study of the organization and development of international governmental and administrative systems; the machinery of international intercourse; the problem of war.

Pol. Sci. 375. International Law. A study of the legal rules and practices governing the nations in their relations in peace and war. Careful attention will be given to those legal decisions which are recognized as important precedents in international law.

Pol. Sci. 380. Political Parties. The development of political parties in the United States; the fundamental principles underlying party organization and functions; the party platform, nominating systems, campaign methods, civil service reform, etc. *Pol. Sci. 230*; *History 110, 111* are recommended as basic preparation.

Pol. Sci. 385. European Political Thought. An advanced survey of European political theories, from the ancient Greeks to the present, together with the influence and application of these theories in modern governments. *History 105, 106, 305, 310* afford a desirable historical background for the course.

Pol. Sci. 387. American Political Thought. An advanced study of the political ideas of leading American statesmen and publicists, together with their resulting influence upon our governmental system. *Pol. Sci. 230*; *History 110, 111* offer a helpful historical background basis for the course.

Pol. Sci. 395. Advanced American Government. A study of the American national government, designed especially for juniors and seniors who have not had *Pol. Sci. 230*. Particular attention is given to the U. S. constitutional system and the federal judiciary.

ZOOLOGY.

MARY M. STEAGALL.

HILDA A. STEIN.

The Zoology Courses are planned primarily to give general information of the principles that govern all animal life, and further for the benefit of those majoring in Zoology or using it as a basis for professional training.

Zool. 101 (1a). General Vertebrate Zoology. It deals with the salient facts of Vertebrate Zoology, taking note of evolutionary development. One form of each Chordate class will be studied, with especial emphasis on the Amphibian type. Open to all Junior College students. Text: Hegner's College Zoology.

Zool. 105 (2). Invertebrate Morphology. The complex cell will be studied, its specialization into various types, the rise of tissues, organs and systems characteristic of the various groups of Invertebrates. Text and requirements as above.

Zool. 110 (12). Field Zoology. This course consists of the study of local fauna, its taxonomy and distribution. Prerequisites: Zoology 101 and 105, or their equivalents. No text required.

Zool. 115 (6a). Economic Zoology. Library reading and lecture course in the study of relations of animals to man. Field trips are to include visits to Zoological Gardens, and such industries as orchard spraying, fisheries, furriers, meat markets, etc. Prerequisites: Zoology 101 and 105, or equivalents.

Zool. 200 (3). Comparative Vertebrate Anatomy I. Here studies of comparative skeletal and muscular structures are made from a phylogenetic and evolutionary view point. Prerequisite: Zoology, 101, or its equivalent. Text: Walter's, *Biology of the Vertebrates*. Manual: Myman's, *Vertebrate Anatomy*.

Zool. 201 (3a). Comparative Vertebrate Anatomy II. A continuation of the above, taking up a phylogenetic comparison of the organs and systems of Vertebrates. Prerequisite: Zoology 101. Text and Manual as above.

Zool. 210 (5). Ornithology—Objects. To recognize the local birds, and to study the calls, feeding, nesting and migratory habits and their relation to human welfare. Prerequisite: Zoology 101, or its equivalent. Texts: Reed's *Land Birds East of the Rockies*. Chapman's *Birds of the Eastern United States*.

Zool. 215 (6). Entomology. Identification of the local insects, the study of the critical points in the life histories of insects and their relation to human health and wealth. Prerequisite: Zoology 105, or its equivalent. Text: *An Introduction to Entomology*, Comstock.

Zool. 250. Development and Heredity. A general course in the study of the facts and theories of the development of the plant and animal kingdoms, and heredity in plants and animals. Lectures, reading and recitation. Prerequisites: Botany 102 and Zoology 105.

Zool. 300 (8). Vertebrate Embryology. Chick and pig embryos are used as types. Emphasis is placed on the ontogeny of the individual in its relation to Vertebrate phylogeny. Prerequisite: Zoology 101, or its equivalent. Text: Arey's *Development Anatomy of Vertebrates*. Manual: Lillie and Moore.

Zool. 301. Skeletal Morphology. An advanced study of the evolution of the vertebrate skeleton with special reference to the structure and developmental changes that take place in the different Vertebrate groups. Prerequisite: Zoology 200. Text: Kingsley, *The Vertebral Skeleton*.

Zool. 305 (2a). Comparative Anatomy of Invertebrates. The comparative study of the development of tissues, organs, and systems; and their tendencies in the invertebrates. Library readings and lectures. Prerequisites: Zoology 101 and 105, or their equivalent.

Zool. 310 (13). Animal Ecology. Animals in their habitats, relations, formations and associations. Prerequisite, one year of Zoology including Zoology 110. Text: Pearse's or Shelford's *Ecology*.

Zool. 311 (13a). Advanced Animal Ecology. A continuation of Zoology 310 with stress on some particular phases of animal relationship, or on some environmental factor.

Zool. 315 (14). Genetics. An elementary course, with experimental work along the lines of breeding, strains, etc., involving the principles of evolution and genetics. Text: Castle's *Eugenics and Genetics*.

Zool. 320 (9). History of Organs. Microscopic study of organs, and tissues, with their origin and development. Prerequisite: One year of Zoology. Texts: Hill's *Organography*; or Dahlgren and Kepner, *Principles of Animal Histology*.

Zool. 321 (9a). Histological Technique. The latest methods of preparing histological material in Biology. The development of a certain amount of technique is required. Prerequisite: Junior College Zoology. Texts: Guyer's *Animal Micrology*, Chamberlain's *Methods in Plant Histology*.

Zool. 322 (9b). Advanced Histology. Serial slide making, and the working out of special problems in technique. Prerequisite: Zoology 321, and special permission from the Department.

Zool. 330. History of Zoology. A short historical development of the science of Zoology from the time of the early Greek philosophers until the present time. This involves a study of the various theories and their influence upon the rise of Physiology, Embryology, Comparative Anatomy, Genetics and Ecology. Prerequisite: One year of Zoology. Text: Nordenskiöld, *The History of Biology*.

Zool. 340. Advanced Ornithology. The study, not in nesting season, of bird species both native and introduced. Much time is devoted to the ecological problems of habitat, association, overlapping of northern and southern species and to those structures adapting birds to aerial and arboreal conditions. Lectures are based on Chapman's "Land Birds East of the Rockies," new edition, and on library reading. Laboratory consists of four week-end trips to various lake and wooded places among the Ozark Hills. Prerequisite: Zool. 210.

THE TRAINING SCHOOLS.

The Training Schools include the following branches:

1. The University High School, which provides the practice teaching required for Senior College graduation, is located on the campus.
2. The Allyn Training School, which gives elementary school practice for Junior College graduation, is located on the campus.
3. The Brush Training School, which gives elementary school practice and training for grade principalships, is located in the city. The practice is for Junior College graduation.
4. The Rural Practice Schools, which give practice for Junior College Graduation, include five rural schools, located in near-by districts.

GENERAL INFORMATION.

Past experience in teaching will receive no practice credit.

Three units of practice work are required for Junior College graduation. This work will usually be done in the elementary grades.

Three units of actual practice work are required for Senior College graduation. This work will usually be done in the University High School, and one unit must be done in the student's major subjects.

Application for practice work must be made at the beginning of the term preceding the term in which the practice teaching is desired. Assignments in practice teaching will be made on the basis of the student's scholastic attainment and demonstrated ability.

The University High School.

A senior high school department with an enrollment limited to 55 in each year except the fourth, is maintained on the campus. Here a well trained faculty offers a program of studies typical of the best Southern Illinois High Schools. This school provides training facilities for the senior college practice teaching. Each quarter about 60 college students are enabled to do senior college training work. It also provides an opportunity for those who have met all the college entrance requirements to make up their deficiencies. The requirements for graduation are the same as for college entrance given on page 28.

The following Senior high school courses are offered:

Sophomore Year

English II
Geometry
Agriculture
Biology
Latin II
French
World History
Manual Training I
Home Economics
Commercial Arithmetic
Bookkeeping
Music
Art

Junior Year

English III
Solid Geometry
Advanced Algebra
Chemistry
Latin III
French II
U. S. History
Manual Training II
Home Economics
Commercial Law
Commercial Geography
Typewriting I
Shorthand I

Senior Year

English IV
Physics
Sociology
Economics
Civics
Latin IV
Typewriting II
Shorthand II

The Allyn Training School.

Organization.—The Allyn Training School consists of the elementary grades, one to six, inclusive, and the junior high school grades, seven to nine, inclusive. In the first six grades there is a supervising teacher for all activities except the special lines of work. In the junior high school there are three supervising teachers directing departmental lines of work—English, the Social Sciences, Mathematics and Science. The special lines of work—music, art, physical training, and the manual arts in each department are supervised by teachers in these college departments.

The Training School is organized as nearly as possible like our best public schools. The curriculum, the socializing agencies employed, the testing program, the library and other facilities for carrying out the program are typical of our most progressive city schools.

Practice Teaching.—All sophomores, in the Junior College course, must have three terms of teaching under close supervision. Practice opportunities in mid-spring and summer terms are reserved for teachers in service who attend these terms only, in completing the course.

The practice teacher is gradually introduced to his various activities. Those requiring least preparation and experience are given first; those requiring a higher degree of thinking are introduced second; and those involving the higher conceptions of planning and teaching are introduced last.

The supervisor's main function is to guide the practice teacher in the development and use of principles. These principles are found to be inherent in the aims of education, the nature and function to different lines of work, the stage of mental development of the pupils taught, the laws of learning, the various types of lesson procedures, and the planning of units of subject-matter to guide pupil activities from day to day. Through these principles the practice teacher will get experience in supervising study, in planning for individual differences, in carrying out a testing program, and in planning and directing extra-curricular activities.

The Brush Practice School.

The purpose of the Brush Practice School is to give Junior College students an opportunity to practice under typical graded school conditions. The school is located in the best residential portion of the city and it is a little over half mile from the normal campus. It is housed in a good substantial building, which is well lighted and decorated, and fairly well equipped as an educational work shop. The enrollment is just a little under 400. The school includes grades one to seven each in charge of a regular teacher or critic.

Students spend half of each day at the Brush and receive two credits for the term. They plan their work under guidance of the critic and teach only after such plans have been corrected or approved by the critic. Directed observation is carried on twice each week during the entire term. Such observation is made after study of reading references assigned and discussion of points to be observed.

Close conferences on subject matter and methods of presentation are held as often as deemed best by the critic. These may become fewer in number as the student shows proficiency in his work. Sets of pedagogical points and teaching concepts are presented regularly by the critics so that the student may become acquainted with the commonly accepted teaching procedures. Weekly or bi-weekly teachers' meetings are held throughout the term which serve as a clearing house for harmonizing the work of the school and for the presentation of discussions of general interest.

Students are supervised closely at all times, and especially during the beginning of the term. Gradually more responsibility is given them until they are allowed to take full charge of the room for stated periods. They work in a typical situation and when they go out to teach they feel at home in the school room.

Last year over one hundred forty students took their practice teaching work at the Brush Training School.

Rural Practice Schools.

The purpose of the rural practice schools is to give junior college students actual experience under supervision as preparation for teaching in the country or in small villages. The rural practice division includes five rural schools located on the hard road not over six miles from the campus. The buildings are all good substantial buildings, well decorated and well equipped to carry on the work of this nature.

In the rural practice students spend half of each day at the rural school and receive two credits for the term's work. The rural practice department is under the direction of a full-time superintendent and one full-time critic for each building. Slightly over two hundred pupils are provided for. The following five schools will be included for the year 1932-33:

The Wagner, District No. 136, Jackson County.

The Buncombe School, District No. 139, Jackson County.

The Rock Springs, District No. 135, Jackson County.

The Buckles, District No. 98, Jackson County.

The Pleasant Hill, District No. 94, Jackson County.

The course in rural practice will include:

(a) Attention to the purely physical phases of rural or small village schools; such as, the proper heating, lighting and ventilating of rooms; cleanliness in all its aspects; water supply; blackboards; maps; globes, libraries; toilets, etc.

(b) The beautifying of school premises, clean-up days, patrons days; parent-teacher associations, club work for boys and girls.

(c) Rural health problems, play and playground activities with a touch of rural sociology.

GENERAL SUMMARY COLLEGE AND ACADEMIC DEPARTMENTS.

	<i>Total</i>	<i>College</i>	<i>Unclas- sified</i>	<i>High School</i>	<i>Extension</i>
First Summer Session.....1931	1,558	1,354	69	135	...
Second Summer Session.....1931	808	696	34	78	...
Fall Term	1,778	1,351	21	120	286
Winter Term	1,521	1,295	20	110	96
Spring Term	1,563	1,431	32	100	...
Total	7,228	6,127	176	543	382
Names counted more than once..	3,953	3,508	67	317	61
