YOU ARE INVITED

As Egyptian as Southern Illinois itself, Southern Illinois Normal University is the educational granary of the whole lower third of this great State. Here alone may the citizens of Egypt find educational opportunities near at home.

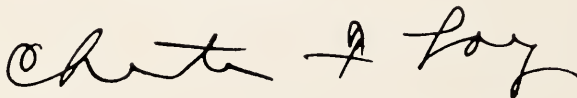

Southern is a regional university, closely attuned to the people it serves and alert to their changing, growing needs; yet it is a universal university too, pouring out the richness of cultural and liberal arts and sciences before its students. It continues the professional training for teachers, started nearly three quarters of a century ago; yet it has added a wide range of vocational and other professional fields.

Its graduate school, the only one in Southern Illinois, is placing advanced study and research within the grasp of men and women of this area who might never find it possible to travel far afield for graduate work.

An enlarged faculty of exceptional quality affords broad instruction of a high caliber, which you will find stimulating and enlightening.

So we at Southern bid you welcome and throw open our doors this summer for you. "Whosoever will may come."

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Chas. A. Loy".

President.

1946 SUMMER SESSION

SOUTHERN Illinois Normal University through its summer session offers opportunities to several groups of students: to the teacher, to take advanced professional training that will make him a more effective force in his school and his community; to the graduate student, to work toward an advanced degree right here at home in his own regional university; to the veteran, to make up educational "lost time"; to the regular undergraduate student, to accelerate his degree program.

Southern has developed a broad program of graduate work for teachers and school administrators, and has expanded its undergraduate offerings into three fields: the College of Education, the College of Liberal Arts and Sciences, and the College of Vocations and Professions.

In addition to its regular curricular offerings, the University will conduct a number of workshops, clinics, and conferences during the summer, which will be of interest to educators and other groups.

For those students who require additional credits beyond the normal Summer Session program, one special graduate course will be offered during August. Furthermore, students may earn additional credits by special examinations; reading, survey, conference, or seminar courses; special permission to take overloads; or by such other measures as their respective deans, the chairman of the Graduate Studies Committee, and the Registrar may devise.

RATING

In addition to being a member of the American Council on Education, Southern Illinois Normal University is accredited

- (1) by the American Association of Teachers Colleges.
- (2) by the North Central Association of Colleges and Secondary Schools,
 - (a) for undergraduate study.
 - (b) for graduate study leading to the Master's degree.
- (3) by the American Association of University Women.

WORKSHOPS

To supplement and enrich the summer session program, a number of workshops have been scheduled and others may be added by the time the term opens. These workshops afford students the opportunity to engage in stimulating participation-type study and research.

A Rural Education Workshop will be conducted by the College of Education during the summer session for the participation of rural and elementary teachers. It will be built around the actual teaching problems which the teacher faces in the classroom, with the objective of finding practical and useful solutions to these problems. Opportunity will be afforded for work in arts and crafts, natural science, social studies, and other areas. It is expected that one or more outstanding authorities in rural education will be obtained as consultants. Workshop participants will also have opportunity for observation of classes in the Allyn Training School. The course, which is numbered Education 390, will be directed by J. Ward Dillow and Dr. E. E. Hall of the University's Rural Education faculty.

A second Rural Education Workshop of three or four weeks' duration will be held off-campus, at Mt. Vernon, to serve emergency teachers or those who are unable to come to the University for the full summer session. The University will sponsor and staff this workshop, and will provide library and other workshop materials.

The Department of Physiology and Health Education plans to have a workshop in Public Health. Such a workshop is especially important at this time in the preparation of in-service teachers for required courses in the teaching of health as prescribed by the new Illinois State law. The content of the course includes such problems as communicable disease control in schools, mental and social hygiene, safety and first aid, healthful school living, nutrition, and the curricular content suitable for various grade levels with emphasis upon public health, and the facilities and methods available whereby teachers and other community leaders can promote the health of all in their community. This course also gives special training for students interested in the new fields of health education, such as consultant in health education.

CHILD GUIDANCE CLINIC

The Child Guidance Clinic is in continuous operation at Southern Illinois Normal University, working in close cooperation with all other child-welfare agencies, with the public schools and public health officials of Southern Illinois, and with the various teacher-training units of the University. Its personnel consists of well-trained faculty members from several departments, psychologists, social workers, doctors and nurses.

Each quarter a three-day demonstration service clinic is held on the campus under joint sponsorship of the Child Guidance Clinic and the Illinois Institute for Juvenile Research. The summer clinic will be held June 25, 26, and 27.

Special seminars and other courses are offered in this field. Schedules for these courses may be found under the offerings of the College of Education.

PARENT-TEACHER CONFERENCE

The Tenth Annual Summer Conference of the Parent-Teacher Association will be held for two days during the summer session. Efforts are being made to secure speakers outstanding in the work of the Association. Topics to be covered in the conference include plans of organization, program making, health projects, and improvement of school and home conditions. Students and others interested are urged to take advantage of this conference.

EDUCATIONAL BOOKS AND MATERIALS EXHIBIT

An Educational Exhibit of textbooks and reference materials, instructional devices, visual education materials, and general classroom equipment will be held July 9, 10, and 11. These materials and equipment will be sent here by outstanding companies in the various fields. It is hoped that city superintendents, high-school principals, teachers, and board members will plan to attend this exhibit.

LIBRARIES

The Wheeler Library contains approximately 44,000 volumes, exclusive of the several thousand in the libraries of the training schools. In addition, it has more than 5,000 public documents and 10,000 bound periodicals.

Of special interest for research scholars is the Clint Clay Tilton Library of Lincolniana and Americana. This special collection embraces some 2,000 volumes and 500 pamphlets presented to the University in October, 1944, by Mr. Clint Clay Tilton of Danville. To it has been added from other sources some 500 volumes of Illinois and regional history.

VETERANS SERVICE

A wide range of services for veterans has been developed at Southern. The Dean of Men, Dr. A. J. TerKeurst, and the Dean of Women, Miss Helen Shuman, serve as counselors for veterans on curriculum, housing, employment, and personal problems. A faculty committee is available for individual detailed counseling and service. It is composed of Dr. O. B. Young, chairman, Dr. Marie A. Hinrichs, Leland P. Lingle, Dr. Douglas E. Lawson, J. Henry Schroeder, Dr. R. A. Scott, Mrs. Helen E. Matthes, and Glenn J. McGowan. Liaison officers are available in the President's Office for special veterans' problems: Mr. McGowan for men, and Miss Mary A. Robertson for women.

Application for admission to the University should be addressed to the Office of the Registrar. Credit for training received while in military service may be given on the basis of the standards set by the American Council on Education. Credit may be earned by examination in almost every field, either for admission or for degree credit. Dr. Douglas E. Lawson is chairman of the Special Examinations Committee.

Veterans are admitted to Southern under (1) Public Law No. 346, The Servicemen's Readjustment Act, or the so-called "G.I." Bill; (2) Public Law No. 16, the Veterans Administration Vocational Rehabilitation Act, or (3) State Military Scholarships.

The G.I. Bill provides for the eligible veteran free training generally equivalent to one year plus the time of military service, provided the total does not exceed four years. It allows such essential

school expenses as tuition, books, and supplies, and in addition a subsistence allowance, if the applicant is without dependents, of \$65 a month; or, if he has dependents, of \$90 a month.

The Vocational Rehabilitation Bill provides free vocational training or re-training for veterans discharged with a vocational handicap. This training is for a specific period, depending on the vocational goal of the applicant after he has been given testing and counseling at the Veterans Administration Guidance Center.

State Military Scholarships covering tuition, matriculation charges, books, and activity fees are available to veterans who are residents of the State of Illinois and who have been honorably discharged from military service, provided such scholarships not exceed four years of gratuitous instruction or a maximum of \$320.

U. S. VETERANS ADMINISTRATION GUIDANCE CENTER

Southern has been chosen as the location for the Veterans Administration Guidance Center in Southern Illinois because of its excellent facilities in testing and its convenience to the thirty-nine counties involved. The purpose of the center is to offer vocational guidance to the veteran who is eligible for training under Public Law No. 16,

to assist him in planning his vocational rehabilitation. Veterans who are eligible for training under Public Law No. 346 may also obtain the services of this center. Four counselors from Southern's faculty supply testing and counseling services. Mr. W. A. Pinkerton of the U. S. Veterans Administration is in charge of the office.

VOCATIONAL REHABILITATION

A Field Office is maintained by the State Division of Vocational Rehabilitation at 219½ West Main Street in Carbondale, to render service to physically handicapped persons. Prospective students may consult with the local Field Agent by appointment. The telephone number is Carbondale 324.

The services of this office are also available to returning service men and women.

PLACEMENT SERVICE

Operating with a two-fold purpose, Southern's Placement Service undertakes to assist its alumni to find satisfactory positions, either as new graduates or as experienced professional men and women seeking better opportunities. At the same time it endeavors to aid schools

and employers, both industrial and private, who desire the services of adequately trained personnel. Applicants need not be graduates of Southern to obtain the services of this office.

EMPLOYMENT

Students who need part-time employment may obtain assistance in finding jobs at the Student Employment Service at the Dean of Men's Office. Hundreds of part-time positions on the campus are open to students, and applications are welcomed.

HOUSING

Women students may secure board and room at Anthony Hall, University dormitory, for \$8.00 per week. Applications should be sent to Miss J. Minette Barber, the director. A deposit of \$5.00 is required to reserve a room.

Assistance in finding housing accommodations may be obtained from Mrs. Mabel Pulliam, Housing Counselor, in the Dean of Women's Office.

Students may secure rooms in Carbondale with light housekeeping facilities at a cost of \$2.25 to \$3.00 per week per student, with two persons in a room, or may find room and board at proportionately low prices. Several of the organized houses, including fraternities, sororities, and cooperatives, will accommodate non-members during the summer.

Excellent meals may be obtained at the University Cafeteria, just across the highway from the campus.

RECREATION

A variety of recreational activities is available during the summer term. The University itself encourages recreation as an integral part of the student's program by providing games, concerts, exhibits, and other means of entertainment.

The departments of Physical Education regularly sponsor Play Nights and summer tournaments in baseball, tennis, ping pong, horse-shoe pitching, swimming, and other sports. Student interest will determine the emphases of the summer's sports program.

The Music and Art departments and the Entertainment Committee schedule concerts, lectures, exhibits, and such recreational courses as pottery, weaving, and sketching. Other departments occasionally arrange programs of interest to their students and to the University as a whole.

The University Museum not only displays its permanent collections during the summer term but also arranges special exhibits of Southern Illinois materials.

Within easy driving distance of the campus are two of the largest recreation areas in Southern Illinois: Giant City State Park, ten and one-half miles south, where the University will sponsor musical

week-ends; and Crab Orchard Lake, five and one-half miles east, where University swimming classes will be held and other water sports are available. Through the use of these facilities students may add variety and interest to their recreational activities at Southern.

Students are kept informed of the summer calendar of events through regular announcements and notices on the campus bulletin boards.

VOCATIONAL GUIDANCE

Students interested in taking vocational tests to ascertain their general ability, general interest patterns, and trade and vocational aptitudes, should call at the Dean of Men's Office.

SPECIAL-CREDIT EXAMINATIONS

Special-credit examinations may be taken by (a) discharged veterans, covering experience or training received while in the armed forces, or (b) students who have high scholastic records or who have completed training beyond the work required for high school graduation. Additional information concerning special-credit examinations may be obtained from members of the Special Examinations Committee: Dr. Douglas E. Lawson, chairman; Miss Marjorie Shank, Registrar; and Dr. A. J. TerKeurst, Dean of Men.

GRADUATE ASSISTANTSHIPS

In order to encourage graduate study and research, Southern offers graduate assistantships which are available to students of merit. These positions pay stipends up to \$75 per month.

ADMISSION REQUIREMENTS

Admission to the summer session is limited to graduates of accredited high schools and to mature persons whose experience entitles them to admission without high school graduation. The latter, however, will be admitted as unclassified students. Any student contemplating matriculation should have a transcript of his high-school record and such college credits as he may have, sent to the Registrar prior to his coming.

Veterans and all persons over 21 who have not graduated from high school may be admitted as regular college students provided they pass the General Educational Development Test. For further information about the nature of these tests, consult A. J. TerKeurst, Dean of Men.

REGISTRATION PROCEDURE

The first day of the term will be set aside for registration.

All new students and others who have not previously been assigned to counselors will report first to the Dean of Men or the Dean

of Women for assignment to individual counselors. These counselors will advise them in their selection of courses and approve the schedules when finally arranged. The tuition bills are also made out and paid at the same time.

All other old students will go to the Men's Gymnasium to register.

SUMMER TERM REGISTRATION SCHEDULE

MONDAY, JUNE 10

	Surname	Initials
8:00.....	F-H	inclusive
8:30.....	I-Mc	inclusive
9:00.....	M-P	inclusive
9:30.....	Q-S	inclusive
10:00.....	T-Z	inclusive
10:30.....	A-B	inclusive
11:00.....	C-E	inclusive

ACADEMIC LOAD, COURSE NUMBERS, AND CREDITS

While this announcement of courses for the 1946 summer term is tentative, most of the subjects will be given as scheduled. A supplement to this bulletin will be issued later announcing visiting faculty members and additional courses.

The normal student load for the eight-week session is ten to twelve quarter hours. Students with special needs, by permission of the Dean of the College or the Chairman of the Graduate Committee, may take additional hours.

The ten o'clock hour on Thursday will be reserved for general assembly. Each class period is fifty minutes in length. The schedule of periods for the summer follows:

1st hour....	8:00 - 8:50	4th hour....	11:00-11:50
2nd hour....	9:00 - 9:50	5th hour....	12:00-12:50
3rd hour....	10:00-10:50	6th hour....	1:00 - 1:50

Courses numbered 100-199 are primarily for freshmen; 200-299 for sophomores; 300-399, for juniors and seniors; 400-499, for seniors and graduates; and 500 and above, for graduates.

FEES

Fees for all freshmen and sophomores for the summer session total \$13.25, as itemized below, plus federal tax.

Registration Fee	\$7.50
Student Activity Fee.....	3.75
Book Rental Fee.....	2.00

Fees for juniors and seniors in the College of Education are the same as those for lowerclassmen. The registration fee for the upper-

classmen in the College of Liberal Arts and Sciences and in the College of Vocations and Professions is \$15.00, but the student activity and the book rental fees are the same as for the others, making a total of \$20.75 plus tax. Fees for graduate students total \$11.25. This includes the registration and activity fees, but not books. A matriculation fee of \$5.00 is charged in addition for those who are not graduates of Southern.

The student activity fee includes charges for limited medical service and hospitalization, library, and gymnasium and athletics. In addition to this each student is given at the time of registration a ticket to the entertainment course.

Scholarships given men and women honorably discharged from the Armed Forces of the United States in either World War excuse the holders from all fees in any college. Holders of Normal School Scholarships pay the regular fees, but all of these are refunded by the State of Illinois after the close of the term.

GRADUATE WORK

Southern Illinois Normal University is starting its third year of graduate work with over a hundred graduate students enrolled to date.

An increasing number of teachers and administrators in the area are taking advantage of the opportunity to equip themselves for the stronger competition for employment in the post-war period. At the same time, a large number of returning war veterans are using their "G.I. rights" to take work leading to the Master's degree.

Graduate students may take full-time residence work in the summer, and, if they wish, may supplement this with evening or Saturday classes during the fall, winter, and spring terms. Or by taking full-time residence work, the Master's degree may be obtained in one year.

The degree Master of Science in Education is obtainable in three major fields: Educational Administration, Elementary Education, and Secondary Education. A major in Secondary Education may be taken in the following academic fields: English, Foreign Languages, Biological Sciences, Mathematics, Physical Sciences, and Social Sciences.

RULES GOVERNING GRADUATE WORK

Admission. Students are admitted to the Graduate School only upon the approval of the Graduate Committee of the Graduate School. Graduates of Southern Illinois Normal University, and graduates of other educational institutions maintaining educational standards equal to those of this institution, are eligible for admission.

To be eligible for admission, a student should have a C average for all his undergraduate work. Admission to the Graduate School is not equivalent to admission to candidacy for the degree.

Transcript. Graduates of other educational institutions must present an official transcript of all high school, college, and university subjects previously taken. This transcript should be filed with the chairman of the Graduate Committee at least one month before matriculation.

Application. Written application for admission to the Graduate School should be made to the chairman of the Graduate Committee on blanks secured from his office or from the Registrar.

Tuition and Fees. Tuition and fees for graduate students for the summer session consist of \$11.25 plus a small federal tax, plus a matriculation fee of \$5.00 (for others than graduates of Southern Illinois Normal University), plus a graduation fee of \$10.00. Graduate students must purchase such textbooks as they may use in graduate courses.

Part-Time Enrollment. Opportunity is given to students in the Graduate School who are within easy reach of the University to enroll

in resident graduate classes on late afternoons and on Saturdays. However, at least one-half of the required graduate credit must be earned in full-time residence. Opportunity may also be given for a student to earn up to eight quarter hours of graduate credit in extension courses, provided that such courses maintain the same teaching, library, and laboratory standards as similar courses offered on the campus.

Additional Requirements. A student desiring to do work for which he has not an adequate foundation may be required to complete prerequisite undergraduate work.

Transfer of Credit. A maximum of sixteen quarter hours of acceptable graduate credit earned in another fully accredited institution may be transferred to apply toward the Master's degree. Transfer of credit is subject to the approval of the Graduate Committee, after consultation with representatives of the department or departments concerned. Under certain conditions the Graduate Committee may recommend that a student do specialized work in another school.

Seniors. Seniors who are in their last quarter of undergraduate study and who have fulfilled their residence requirements for the Bachelor's degree may register in the Graduate School for a number of hours determined by the formula, sixteen less whatever undergraduate hour load is needed for the Bachelor's degree. The difference represents the permissible graduate load.

Advisory Committees. The Graduate Committee appoints an advisory committee for each graduate student. Upon matriculation in the Graduate School the student may indicate his preference of persons to serve on this committee, but the Graduate Committee's judgment will prevail. The advisory committee will represent the major and minor fields of the student's work, and will include at least one member of the Graduate staff in the College of Education.

REQUIREMENTS FOR THE MASTER'S DEGREE IN EDUCATION

Residence. Candidates for the Master's degree are required to spend at least two quarters in residence.

Course Requirements. Forty-eight quarter hours of acceptable graduate work are required for the Master's degree. At least twenty-four of these must be in courses for graduates only. At least half of the graduate work to be counted for the degree must be obtained in full-time residence.

A grade average of B is required for the degree. Not more than four hours of C will be given graduate credit, and no grade below B will count toward the major.

Courses on the 400 level are open to seniors and graduate students. Occasionally juniors of superior scholarship may be admitted to these courses on recommendation of the adviser.

Dissertation or Thesis. No formal thesis of the traditional type is required; however, each candidate is required to present evidence of ability to do a satisfactory quality of research, and to submit it in a form that can be filed.

A maximum of four quarter hours of credit may be allowed for a special research project which is not prepared as part of a regular course.

Admission to Candidacy. Each student shall make personal application to the Graduate Committee for admission to candidacy not later than the last week of the term preceding the term in which the degree is to be granted.

Prior to admission to candidacy, each student must pass a preliminary, comprehensive examination covering the essentials of both his graduate and undergraduate study in the field of his major. The examination may be written or oral, or both.

Application for the Degree. Each candidate for the Master's degree must file written application for the degree with the chairman of the Graduate Committee, not later than one month before the date for granting the degree.

Final Examination. Each candidate must pass a final examination covering all work he has completed. Special emphasis will be given to individual studies and research work. This examination may be written or oral, or both, but it is required that in the course of his two examinations the candidate do at least a part orally and a part in writing.

REQUIREMENTS FOR THE BACHELOR'S DEGREE

All the work offered in the summer session carries regular university credit. A total of 192 quarter hours of credit is required for the degree. At least 64 hours must be in subjects numbered 300 and above. The following is a list of requirements which should be fulfilled by all students within the first two years of attendance:

Social Studies—20 quarter hours (work in 4 departments required)

Economics 205—5 hours

Geography 100—5 hours

Government 200—5 hours

History 110A, 105A—5 hours

Sociology 101—5 hours

Humanities—18 quarter hours

English 101, 102, 103—9 hours

English 205, 209, 211, 212—6 hours

Art 120 or Music 100—3 hours

Students are also advised to complete the foreign language requirement for the Bachelor's degree during the first two years (see next page).

Biological Sciences—9 quarter hours

Botany 101, 202, Zoology 101, 105—5 hours

P. & H. 202—4 hours

Mathematics and Physical Sciences—12 quarter hours

Chemistry, Mathematics, or Physics

(12 hours selected from two departments)

Practical Arts and Crafts—3 quarter hours

Agriculture, Commerce, Home Economics, Industrial Education 203 (not required if the student has had any of this work in high school, except where departments require such courses for the major)

Physical Education—6 quarter hours (See departmental requirements)

COLLEGE OF EDUCATION

The course of study in the College of Education leads to the degree of Bachelor of Science in Education.

All students in the College of Education are required to take American history and government. A reading knowledge of a foreign language is required. This ordinarily requires 9 hours of University study or its equivalent.

Students preparing for high-school teaching should take the following courses in addition to those listed above:

Education and psychology—20 hours: 206, 310, 315, 331, and 345 or 305 or 306

English 390 or 392 or speech—3 hours

Practice teaching—12 hours. At least 4 hours must be in the student's major and at least 8 hours on the high-school level. He must have a C average before he may be assigned practice teaching

A major of at least 36 hours and two minors, or a major of 48 hours and a minor of 24 hours in two separate fields of study. C averages are required in the major subjects.

The College of Education recognizes majors in any of the departments which offer as much as 36 hours of work. A student may obtain also a field major in biological sciences or in social studies. For an academic major the student should consult the chairman of the department. For one of the field majors a student should consult the chairman of the division or an individual designated by him.

The College recognizes also a Latin-American minor in social studies.

Students preparing for elementary teaching should take the following:

Art and music—15 hours (a total of 18)

Education and psychology—32 hours, including 206, 305 or 306 or 340, 311, 331, and 355

Mathematics—8 hours

Physical education methods—3 hours

Practice teaching—12 hours (8 on the elementary level)

Minors of 24 hours in language arts, social science, and natural science areas

The requirements for those preparing for kindergarten-primary teaching are almost the same as those for elementary. For details these students should see the Kindergarten-Primary Adviser.

48

FUNERAL HOME
AMBULANCE SERVICE

STUDENT TEACHING

EUGENE R. FAIR, Ph.D., Dean, College of Education

D. HALL, M.S., Acting Principal, University High School

TED RAGSDALE, Ph.D., Acting Principal, Allyn Training School

University High School: Louise Bach, A.M.; Frank Bridges, M.A.; Elbert Fulkerson, M.A.; Alberta Gibbons, A.M.; Dilla Hall, M.S.; Audrey Lindsey, M.S.; C. C. Logan, B.S.; Elsie P. McNeill, M.S.; Delmar Olson, M.S.; Charles Paterson, B.Ed.; W. Neal Phelps, Ed.D.; Shelby S. Shake, M.S.; Gladys L. Smith, M.A.; Zita Spradling, M.S.; Harley Teel, A.M.; Florence A. Wells, A.M.

Allyn Training School: Mary Entsminger, M.A.; Elizabeth Meehan, A.M.; Sina M. Mott, Ph.D.; Helen Narber, M.S.; Ora Rogers, A.M.; Madelyn Scott Treece, A.M.; Ruby Van Trump, A.M.

Rural Training School: Jean Fligor, M.A.; Mabel Lane, M.Ed.

Opportunities for student teaching will be available in four fields: high school, elementary, kindergarten-nursery school, and rural.

For the Limited High School Certificate, student teaching is done in the University High School for the entire eight weeks' session, each class meeting twice daily in order to cover one semester's work during this time. Several standard courses will be offered, and also some electives that are not usually given in the smaller schools. Four courses are being offered four hours daily in order to cover a full year's work for a complete unit of credit: namely, English IV, Algebra I, Physics, and American History. The usual load per student is one unit. The student may take one of the full-unit courses or two of the half-unit courses. The following courses will be offered:

Advanced Algebra ($\frac{1}{2}$ unit)
Algebra I (one unit)
American History (one unit)
Biology ($\frac{1}{2}$ unit)
Band (elementary and high-school)
Civics ($\frac{1}{2}$ unit)
Commercial Arithmetic ($\frac{1}{2}$ unit)
English IV (one unit)
Factory Machines ($\frac{1}{2}$ unit)

Junior Aeronautics ($\frac{1}{2}$ unit)
Mechanical Drawing ($\frac{1}{2}$ unit)
Music Appreciation ($\frac{1}{2}$ unit)
Physics (one unit)
Physical Education (boys) ($\frac{1}{4}$ unit)
Physical Education (girls) ($\frac{1}{4}$ unit)
Physiology ($\frac{1}{2}$ unit)
Trigonometry ($\frac{1}{2}$ unit)

The Allyn Training School, kindergarten through grade six, will be in session for six weeks beginning June 10.

One of the affiliated rural schools will probably also be open for observation and student teaching during the summer session.

COLLEGE OF LIBERAL ARTS AND SCIENCES

Graduates of any recognized four-year high school or academy with fifteen units of secondary work are eligible for admission.

The College of Liberal Arts and Sciences grants the degree of Bachelor of Arts. A student may receive the degree of Bachelor of Science upon approval of the Dean of the College and that of the Graduation Committee.

Each candidate for the Bachelor's degree must meet the following requirements:

192 quarter hours' credit in approved courses.

(64 quarter hours must be in courses numbered 300 and above, of which 48 must be in residence).

A grade average of C, and grades not lower than C in subjects aggregating at least three-fourths of the work. C average is required in the major subjects.

General education requirements as listed on page 20.

4 hours in psychology or philosophy.

A reading knowledge of a foreign language. This ordinarily requires 9 hours of university study or its equivalent.

A major of at least 42 hours and a minor of at least 24 hours in the following subjects (some departments require more):

Art	Foreign		Physiology and
Botany	Languages	Mathematics	Health Educa-
Chemistry	Geography	Music	tion
Economics	Government	Philosophy	Sociology
English	History	Physics	Zoology
	Home Economics		

COLLEGE OF VOCATIONS AND PROFESSIONS

The College of Vocations and Professions includes the following departments: Agriculture, Art, Business, Economics, Home Economics, Industrial Education, Journalism, and Music. The curricula in these departments are designed to develop initial competence in particular occupations and professions. They lead to vocational and professional competence in such fields as accountancy, business administration, secretarial science, institutional management, dietetics, dressmaking, homemaking, textile designing, weaving, fine arts, commercial art, drafting, mechanics, woodworking, farming, and music. While a student may choose his field in this College at any time during his college career, it is highly desirable to make the choice in the freshman or sophomore year.

The entrance requirements for the College of Vocations and Professions are the same as those for the other Colleges of the University. The four-year curriculum leads to the degree of Bachelor of Science and includes the general education requirements of the University. A foreign language is not required, nor are any professional teaching courses. The one- and two-year curricula do not lead to a degree and may be pursued by anyone who demonstrates the ability to pass the course, regardless of previous credit or school attendance. In addition to these shorter curricula, it is the aim of this College to make available greater vocational opportunities by permitting students to take such individual courses as they may choose, so long as they are able to perform the required work satisfactorily. Anyone interested in these special vocational courses is invited to inquire of Dr. Henry J. Rehn, Dean of the College of Vocations and Professions.

SUMMER SESSION, 1946

TENTATIVE SCHEDULE OF COURSES

AGRICULTURE

CONRAD WHITE, M.A.

103.	FORAGE CROPS.				
	Credit	Period	Days	Room	Instructor
