From Arizona

Today the November issue of the Southern Alumnus arrived and, per usual, I was pleased to receive it and read about Southern.

Since Carbondale is my home town, it is with pride that I read about the advancement of Southern and the city itself.

In this issue there is a very interesting article about one of the members of the class of '98, namely, Mrs. J. W. Barrow. There are only a few of those left today, I'm sure.

My step-father, Mr. Solomon Crawshaw, is a member of that class. He lives on West Chautauqua, just at the end of Skyline Drive. The experimental farm now is what was his farm and where I lived when I attended Southern from 1939 to 1941 and in 1943.

Mitch (L. V. Mitchell, '42) and I with our two youngsters, are enjoying the Arizona sunshine, the like of which there is none elsewhere.

We have hopes of attending Alumni Day next June.

Our Mistake

Please change our address as given below.

I was interested to read the letter from Bill (Bauer) in the September issue. Also noted with interest the item in the births column saying that David was born in Germany and we were there with Bill. Much as I wish it were so, it just isn't. I'm teaching here in the Mount Vernon city schools—fifth grade at Horace Mann. We are looking forward to June when Bill will rejoin us here. Thank you.

Sadie Mohan Bauer, '54
2517 Herbert St.
Mount Vernon, Ill.

Proud Of Southern

There has been a mixup with the spelling of my name . . . It is Berrier—not Bennier.

For the past three years I have been teaching school at the Southside Grade School in Watseka. At present I am staying in Murphysboro with my parents. My husband, David Berrier, who attended Southern in 1953, is an ensign in the U. S. Navy and is serving on the U.S.S. Princeton.

One can't be more proud of SIU's growth than I. I take every opportunity to show prospective students the advantages they can have by going to Southern . . .

When I move soon to Long Beach, Calif., I will notify the office of my address change.

Thank you for your cooperation.

Mary Rose Butcher Berrier, '54
334 Murphy St.
Murphysboro, Illinois

Good Reputation Spreads

Yes, time surely does pass quickly, doesn't it! Another four classes of SIU alumni have passed since my graduation in 1953.

I was pleased to find the letter from the Alumni Association upon arriving home from an "extended European tour of duty" with the national services and a year of study at the University of Madrid. I will receive my M.A. in Spanish from Middlebury College next summer. I am teaching at the Morgan Park Military Academy in Chicago.

It is good to hear of all the progress that SIU has made in the last four years. We all certainly hope that the school will continue to grow and grow until it is as big or bigger than that other up-state university. While I was at Middlebury College in Vermont this summer, one of the students from the Ivy League was telling me about the phenomenal growth that Southern is making . . .

Evidently he was doing some study on state universities. What is the new Latin-area studies program being set up? Middlebury Spanish school faculty were talking about the opportunity there for a leader in the field of South American and Latin American relations.

I received a very pleasant letter from that fine gentleman, Dean I. Clark Davis, '39, while at Middlebury. He certainly devotes a great deal of his time to the welfare and the good of the student body and the school itself. As busy as he is, he always takes extra time for personal correspondence and the needs of former students . . .

Please find initial installment for a life membership enclosed.

Wedding In Hawaii

I enjoy receiving the Alumnus each and every time. When one is so far away it is good to hear of things happening back at SIU and of the other one-time students.

Just a little news about myself. On September 21, 1957, I became the wife of 1st Lt. John A. McLaren, originally from San Diego, Cal. At present we are both still in the Marine Corps but are planning to be released sometime in January when we are returning to the Mainland to make our home in southern California. The ceremony was the traditional military wedding and was in the chapel at Headquarters Fleet Marine Force Pacific in Hawaii.

Beginning in January, please send my Alumnus to my new address. Will send you my permanent one when we find a house, but meanwhile I don't want to miss any copies.

Jeannette Harris McLernon, '54
3745 Aliso St., National City, Cal.
A Hike at Little Grassy

In this spot is usually found a small reproduction of the cover photograph. A hiking scene at Little Grassy Lake may seem a little irrelevant but actually it isn’t.

This issue of the *Alumnus* features Little Grassy Lake, site of the Alumni Family Camping program being inaugurated next summer. Be sure to turn to pages three, four and five to learn how you can have a vacation for as little as $27.50. A chance to hike on the beautiful trails at Little Grassy is only one of the many features of this vacation plan. While all of the pictures shown in the story are not recent ones, they are typical.

**On the Cover**

is a photograph taken four years ago at a University School summer camp at Little Grassy. From a large number of photographs taken at the lake, several people have shown a great deal of interest in this one.

The boys are Roger Keeper (standing) and Wayne Zeschke. There has been quite a difference in opinion expressed in what they are doing. Perhaps you can tell us what is keeping them so preoccupied. We believe they are making a bow.

JANUARY, 1958
It's time to stop this nonsense

From every college in the nation comes the warning, "We're losing good professors faster than we can find them, yet our classrooms are growing more crowded each year. What will be the effect on our country, and on its citizens, if this trend continues?"

The warning has sound basis. Low salaries—characteristic in teaching—are driving gifted instructors and professors into other fields, and are discouraging promising young people from taking up academic careers. Classrooms and laboratories are overflowing now with students, and yet applications are expected to double in the next 10 years.

It's amazing that a nation such as ours, strengthened and enriched by our institutions of higher learning, should allow anything to threaten these wellsprings of our progress.

It's time to stop this nonsense.

In a very real sense, our personal and national well-being depends on the quality of learning nourished and transmitted by our colleges and universities. They need the help of all who love freedom, all who hope for our continued advancement in science, in statesmanship, in the better things of life. And they need it now!

If you want to know more about what the college crisis means to you, send for the free booklet "The Closing College Door" to: Box 36, Times Square Station, New York 36, N. Y.

Higher Education
KEEP IT BRIGHT
DO YOU HAVE THE ANSWER?

Excerpts from a series of five articles written by staff members for American Education Week. Here we learn how Southern is meeting her problems and preparing qualified and competent teachers for the area. In the final article the Dean of the College of Education sums up the rewards of a teaching career.

In recent years there has been a growing consciousness that education must be our major concern if we are to preserve and improve our free society and democratic way of life, says Dr. Francis H. Horn, Southern's distinguished visiting professor of higher education.

The problems facing the schools today are staggering in their complexity, says Dr. Horn. One major problem is sheer numbers: how to accommodate millions more children annually in schools for the most part already inadequate and overcrowded. Another is the difficulty of financing a sound education for all, especially in this time of rapidly rising costs.

An even greater problem, he continues, is to find enough qualified teachers to staff the schools. The National Education Association estimates that to fill the new positions created by the increasing number of children and to replace those who leave the teaching profession, the nation needs at least 125,000 new teachers each year.

In meeting these problems, school people, parents, and the general public must be aware of the constant need to improve the schools, to so conduct them that their products are increasingly better equipped to cope with the complex world in which they find themselves. Fortunately, help is available through many of our colleges and universities. Their major contribution to the schools, of course, is the preparation of teachers and administrators . . .

Communities located in the area served by SIU are especially fortunate in the professional assistance available to them. As a newcomer to the faculty, says Dr. Horn, I have been greatly impressed by the philosophy of service to the community that permeates Southern. In some state universities, lip service is paid to such a philosophy but the faculty still inhabits its ivory tower. At SIU, however, there is genuine appreciation of the University's role of service.

Many Stay In Southern Illinois Area

The preparation of qualified and competent teachers for the schools of Southern Illinois is the purpose of the College of Education at Southern, say Dr. Charles D. Neal, director of teacher training, Dr. Dan Cox, assistant director, and Dr. Herbert Smith, secondary student training supervisor.

To achieve this purpose, the Department of Teacher Training conducts a program of student teaching in University School and public schools in the area. It is felt that the students can learn to teach best within the traditions and customs of the region by working with the established teachers in the schools of Southern Illinois.

The extent to which this purpose is achieved can be determined in part by the number of graduates who accept teaching positions in the 31 counties which comprise the region served by Southern. Only 10 per cent of all requests for teachers received by the University come from these counties. In spite of this, two-thirds of the graduates who accept teaching positions go into the Southern Illinois schools. Moreover, some who accept positions elsewhere return to this area within a few years . . .

The salary paid in many Southern Illinois towns compares favorably with the national average, even though the latter figure reflects salaries paid in areas where the cost of living is much higher than it is here. The schools of the area are stable. The teacher does not have to face the disciplinary problems so common in areas where the population far exceeds the capacity of the schools. The typical school in Southern Illinois is in a village or town rather than in a large city. The relaxation and recreational opportunities offered in such a setting are in contrast with the tense and difficult teaching situations prevailing in many city schools . . .

The towns of Southern Illinois have neither an abnormally favorable nor an abnormally unfavorable place in the nationwide picture. As a matter of fact, because of the stability of the school systems, our teachers have more experience than the typical teacher and are as well qualified professionally.

Because of these well-prepared teachers and the desire of many of the school systems to contribute to the advancement of the teaching profession, the SIU Department of Teacher Training is able to place more than
400 student teachers in the University and public schools each year. As long as these conditions hold, the University can, to a great extent, meet the need for qualified teachers in the region it serves.

Do You Have The Answer?

The comprehensive public high school as we know it today is of relatively recent origin, says Dr. Clarence D. Samford, chairman of the Department of Secondary Education. Three centuries ago there was the Latin grammar school, where students were prepared for the ministry or teaching. Two centuries ago the academy movement was ushered in. Academies attempted to adopt Benjamin Franklin’s plan of teaching the “useful” subjects.

Now we are in the third period—the era of the public high school—which began with the establishment of “The English Classical High School” in Boston in 1821.

Southern Illinois has kept pace with the nation in providing suitable high school buildings and employing properly trained teachers. However, this area, like the rest of the nation, must answer a number of questions about high school programs and policies.

1. What shall we include as the real objectives of our high schools?
2. What subjects shall we teach?
3. Which are to be required for graduation?
4. What is to be the nature of the so-called extra-curricular program?
5. How much guidance and counseling shall we provide?
6. What emphasis shall we place on college preparatory work and vocational subjects?
7. Are science and mathematics properly emphasized and well taught?
8. How can interested citizens render effective and helpful service in an effort to improve their high schools?

We have done reasonably well in attempting to answer these questions, but we must be alert to opportunities for continued improvement.

Educational Research Opportunities In The Area

The more critical needs for educational research in Southern Illinois are in taxation, the organization of administrative units, and curriculum planning, says Dr. Douglas E. Lawson, professor of education.

Associated with the need for research concerned with administrative structure of our school system is the need for basic study of the offices and functions of the county and township, the mode of selecting board members, the use of competent lay advisory groups, and the system of tax assessment. In the field of curriculum research there is need for basic studies relating to provision for exceptional children.

There are in Southern Illinois many opportunities for educational research of an academic nature related to curriculum, teaching materials techniques, and the whole field of the learning process.

Too many of our basic research studies are attempted on university campuses without direct access to, or cooperation with, local schools, industries, and other organizations. Too little research is carried on within the local schools, where controlled experimental conditions can be established. The opportunities for a variety of types of significant educational research are peculiarly abundant in Southern Illinois.

What More Can One Ask?

A wise man once remarked that we never know how to live until we have lived. Then it is too late. Frequently young people have come to my office in deep anxiety about what to do with their lives, and I have talked to them quietly but eagerly of what I have known and felt. We are quoting from Dr. John E. Grinnell, Dean of the College of Education.

“Each person planning his vocation must be prepared to measure its rewards against what he wants in life,” says the Dean. “That is what I once did. It was after I was graduated from college, I was a little late making my decision to be a teacher, but the decision has given me exciting and happy adventures with thousands of young people.

“Do you wonder that I am willing to plead earnestly and often for young people of good ability to come into teaching? I know the rewards awaiting them. There is enough money, I tell them, and there is honor. But far better than these, there is the joy of seeing a young personality unfold; there is the pride of watching pupils to whom you have given your best go out of school and up and up to highly honored places in the world. There is the sweet comfort of seeing under your hands lonely, neglected or handicapped children grow into happy, useful people. There is the indescribable thrill of watching a young face take fire with an idea or an important understanding . . .

“No citizen, be he the richest or most powerful man in the city, earns half of the love or the warm remembrance for a lifetime that the good teacher earns. Yet teaching, too, can lead to bitterness. Even the ablest young people should not head toward teaching unless they are sure they love children and youth more than they do the art, the science or the math they want to teach.

“Happiness is not easily come by nor kept. Yet it is the natural reward of the talented teacher who has lost herself in the problems and victories, in the tears and laughter of her pupils. Such a teacher lives many lives in one and grows deeper and finer as the years go by. What more can one ask of a profession—or of life?”
Alumni Club News

Williamson County alumni met December 2 at Jefferson High School in Johnston City, with 55 in attendance. Musical entertainment was furnished by the "Flat Toppers" of SIU, a trio. Dr. Paul Hunsinger, associate professor of speech, revealed the "Confessions of an Ex-Santa Claus."

Special guests at the meeting were Dr. Guy Lambert, '33, past president of the Alumni Association, Bob Odaniell, '51, alumni director, and J. W. King, '51, field representative.

Perry County Alumni Club officers elected November 21 are shown above with Dr. Willis G. Swartz (1.), head of the SIU Graduate School, and Bob Odaniell (r.). They are Herman Yehling, '36, treasurer; O. D. McClure, '27, president; Clarence A. Reeder, '35, vice president, and Miss Maxine Heisler, '52, secretary. Dean Swartz was guest speaker.

You Can Have

A Vacation for Only $27.50

An opportunity to give the whole family a vacation at a nominal cost. See pictures on following pages.

You find that hard to believe? It's true. The small sum of $27.50 will cover a five-day vacation next summer at beautiful Little Grassy Lake located just ten miles southeast of Carbondale.

Take advantage of the Alumni Family Camping program being inaugurated by the Board of Directors of the Alumni Association in conjunction with the SIU Department of Recreation and Outdoor Education.

The dates are August 17 to September 13. You can stay one week or as long as four weeks. Reservations must be made by July 1 and must be accompanied by the price of one day's camping rate per person. Checks should be made payable to the SIU Alumni Association. Reservations will be handled on a first come first served basis. There will be both cabins and tent-cabins available, so if you have a choice, make your reservations early.

Available for Association members only, rates are $5.50 per day for persons over twelve years of age. The rate for those between the ages of three and twelve is $4.50 per day and for those under three, $2.50. Reservations will not be accepted for less than one five-day week. The week runs Monday through Friday. Breakfast will be furnished on Saturday morning.

Here is an opportunity to give the whole family a vacation at a nominal cost. And you will be able to get together with some of your alumni friends. Meals will be served from the camp dining hall; there will be no meals to prepare, no dishes to be washed.

You can have a real vacation and can take part in any or all of the many activities available or you can just relax. Some of the activities are pictured on the next two pages. While no formal program will be set up, you and your family can swim, hike, go boating, play baseball, volleyball, horseshoes, use the rifle range, go horseback riding, play badminton, shoot skeet, practice archery, fish, study nature, take part in group singing or go on cookouts. Health service and instruction will be provided. Equipment will be available for the sports. (If you have questions about the program, be sure to include them when making reservations.) Get your reservations in at once and be sure to bring the whole family.
You can fish...

Maybe you like to swim...

Maybe you're a shutter bug... there'll be many opportunities to snap scenic views...

...there is archery
a

rifle

range

A visit with other Alumni...

Little Grassy Shoreline
A Tisket a Tasket

Just one mile east of Ludington, Mich., on U.S. 31 and U.S. 10, you will find a basket factory. This factory is owned and operated by Gladys Fitch Herrick, '25, and her husband, Hiram. Perhaps you've been using some of their fruit and vegetable packages.

More than 30 years ago, in a floor space 200 square feet and with a hammer and a small table saw, the Herricks started this enterprise. Each year they bought more machines and increased their output until today the floor space covers more than 30,000 square feet.

Most of the time Mr. Herrick works with two or three men in blocking up logs, peeling and turning veneer on the lathe. Mrs. Herrick works with three women, sorting, piling, tying in bundles and assembling crate parts.

They have been buying logs from local farmers during the past few years but expect to have a contractor cut some of their standing timber this winter. The logs are cut by chain saws into various lengths for the bushel hoop blocks. In the summer they can veneer soft maple and elm without heating the blocks, but otherwise they must be heated in hot water tanks or steam boxes for about 18 to 24 hours. Basswood is an exception, and must be turned on veneer lathe at a temperature near freezing.

For the past two years most of their work has been on box shooks or parts of berry crates and climax baskets tied in bundles and delivered with their semi-truck to Benton Harbor, Mich., home of the largest fruit market in the world, where other manufacturers assemble the finished crate and climax baskets.

On chain feed machines the women make crate dividers, crate heads, climax basket and berry crate covers. They air-dry the dividers, slats, covers and hoops after they are piled on skids on long porches surrounding some of the factory buildings.

Mrs. Herrick thinks perhaps bushel basket making is most interesting. The veneer for the bushel is cut 2$\frac{3}{4}$ inches by 37$\frac{1}{4}$ inches in length and 1/18 inch thick. It is cut of elm, soft maple or beech. Then the women lay 16 pieces in a web and fasten with two nails. The bushel machine operator places an inside hoop on the form and stands the web upright in the machine, which closes and shapes the basket, and three hoops are sewed on the outside.

Another person puts a staple on the center and bottom hoops (laps) and then two wire handles and two loops on the top hoop (to fasten cover on). The operator makes 12 dozen bushels per hour. This takes two women to lay the webs for the machine. Then another person coils the inside hoops, puts the hoops in the dye tank to color and stocks the hoop box for the bushel operator. All bushels must be piled singly in rows (8 high) to dry for about one week.

The Herricks' home and factory buildings are on the front ten acres of their property and the remaining 30 acres are planted with thousands of pines which they have been selling for Christmas trees.

The work calls for family cooperation. Hiram, Jr., is (Continued on page 12)
Military Weapons During Lincoln's Regime

As we "race" with Russia on a missile program, John Allen, '22, takes us back almost a century to tell us about Lincoln's influence on the tools with which the Civil War was fought.

Another anniversary of Abraham Lincoln's birth will soon be here, and another year accordingly is added to the Lincoln legend.

Many books and other publications about Lincoln have appeared, and still others are in preparation. As the many-sided genius of the man is explored his greatness increases. It becomes easier to understand why more has been published concerning him than about any other man in history unless it be about the Apostle Paul.

One of the books published recently tells of the influence that Lincoln sought to exert in the selection of the actual tools with which the war was fought. While it reveals his rare insight into the problems of waging a successful war with improved devices and weapons, it also points to the apparent utter lack of imagination on the part of some of the principal men who directed military affairs.

It is not strange that Lincoln would be interested in the tools to be used. Several incidents in his earlier years may help to explain this interest. First, his father was a competent carpenter and cabinetmaker, and the boy helped him in this work. From his boyhood, Lincoln had been acquainted with the rifle and was skilled in its use. It was the ingenious manner in which he got his flatboat over the dam at New Salem that first brought him to the attention of the men there.

Then there are letters and accounts of other lawyers who rode the judicial circuits with Lincoln that tell of his custom, when opportunity came, of pausing to carefully and thoroughly inspect any new piece of machinery he found. He prepared and delivered a lecture entitled "Discoveries and Inventions." As an attorney he was interested in some patent cases.

Had Knowledge of Mechanics and Science

In 1849, Lincoln drew the plans, constructed the necessary model, and was granted a patent for an apparatus to float flatboats over shoals. Thus it can be seen that he came to the presidency with more than the average understanding of things mechanical and scientific. It was certainly well that he did.

When Lincoln began the duties of president he found a chaotic situation. Many of the more able military men were resigning their commissions to cast their lot with their native states. Others were hesitant concerning the course they would pursue, some permanently leaving the service rather than be partisan. This left a group, many of them older and somewhat stodgy-minded but definitely loyal. It was from this group that the President had to choose his trained military advisers.

In some of his selections from those available, Mr. Lincoln was indeed fortunate. One of his most competent, trusted and valuable aids was commander John A. Dahlgren, Chief Ordnance Officer at the Washington Naval Yard, then as now the place where naval cannons were made. It was this Dahlgren who designed the famous Dahlgren gun and for whom the Hamilton County, Illinois, village was named.

Armament Carried Weight

Another trusted and competent helper and adviser was Captain Stephen Vincent Benet at West Point, grandfather of the poet bearing the same name. The approval of either of these men concerning arms often secured more than casual attention of the "stodgy-minded" ones. Armament carried great weight with the President. On problems lying outside the fields mentioned, Lincoln most often turned to the noted scientist Dr. Henry, able director of the Smithsonian Institute. It was with him the President personally worked in testing flashing calcium lights for night signalling. Dr. Henry also advocated an "air force" of balloons for regular reconnaissance.

Not all the President's advisers were so helpful. Among those who hampered progress, often apparently on purpose, were Simon Cameron, Secretary of War, and Brigadier General James W. Ripley, Chief of Ordnance. Cameron's usefulness was also lessened by his incompetence and political maneuvering. Ripley's decisions sometimes appear to have been arrived at because of his petulance, slavery to precedent, jealousy or plain vindictiveness. His office gave him great power to help or hinder, as he chose.

New weapons, particularly rifles and carbines, were often personally tested by the President and some helper, perhaps a secretary, a private soldier, or even the inventor. It was a common sight to see the President and
one of his secretaries trudging toward some open space where a satisfactory range could be found. On one such occasion a corporal with a squad of soldiers came to enforce the ruling that firearms must not be discharged within the city, only to find that the violator was the President, stolidly firing away at a target set against a nearby woodpile. The squad quickly withdrew. Lincoln turned to his secretary, who was helping with the test, and dryly remarked, “They might have stayed and seen the shooting.”

 Sometimes tests and demonstrations were made before larger groups that might include the President, cabinet members, generals, senators, officers and important citizens. These were sometimes called “champagne experiments.” Before such groups they tested larger guns, rockets, incendiary shells, flame throwers, steam guns, centrifugal guns, the breech-loading machine gun to which Lincoln gave the name of “coffee-mill gun,” the breech-loading cannon, mortars and submarines.

 One “Submarine No. 12” is recorded as docking for repairs at the Mound City yard near Cairo in 1863.

 Through at least the first two years of the war, the President was constantly beset by those wishing to interest him in their favorite project. To most of these Mr. Lincoln listened patiently and considerately. Others were disposed of more promptly. One promoter of armored vests was invited to “put it on, go out there and let them shoot at you.” (Likewise credited to Wellington.)

 Perhaps the President was most disappointed at his failure to have the army equipped with breech-loading rifles and cannon. His advocacy of the breech-loading rifle was repeatedly justified. Particularly was this true at Gettysburg when one company equipped with these arms held General Sickles’ forces at bay forty minutes, just long enough to allow the Union forces to deploy to receive their attack. Perhaps this was the most critical forty minutes of the entire battle.

 Time has demonstrated that Mr. Lincoln was far in advance of his time in his thinking concerning the usefulness of military devices.

 Her Hobby is Gardening

 Mrs. Davis

 A “distinguished gardener,” Mrs. Lee C. Davis (Zilpha McKinney, ’20) says, “My first claim to distinction happened at Southern when I received two diplomas and a teaching position paying $2,000 a year. That gave me enough income to support a husband, according to President H. W. Shryock.”

 The hobby of landscaping to secure a succession of colorful bloom throughout the year began when she married and went west in 1926 to make her home. After the home was established, the study of landscaping, horticulture and flower arrangement began, using the trial and error method for demonstrating the book ideas.

 Her becoming a nationally qualified judge for flower shows came about through a series of courses at flower show schools offered by the Washington State Council of Garden Clubs under national rules.

 In 1954 Mrs. Davis received the “Most Distinguished Gardener Award” for her work in the Olympic District of the State of Washington Council of Garden Clubs. The project was planning and helping to execute a civic landscaping project in her own city, Port Townsend. The awards were state-wide and there was one for each of the nine districts in the state of Washington.

 In addition to landscaping three new homes, Mrs. Davis has helped on civic projects and served ten years on the City Park Board.

 Her address in Port Townsend is 536 Cass St.
Probably no other Southern alumnus has given as much of his time to his Alma Mater as Edward V. Miles, Jr., who on September 15 became assistant to President Delyte W. Morris.

Miles received a two-year degree from Southern in 1919 and in 1929 was granted the Ed.B. degree. He received his A.M. degree in 1934 from St. Louis University and has done advanced work at the University of Chicago.

He first became an employee of Southern in 1919 when he was named assistant business manager and instructor. He served in this capacity until January, 1926. Prior to that he had served for a time as a bank clerk in Murphysboro and as an accountant for the Illinois Central Railroad.

In 1926 he was made business manager, with the rank of assistant professor. He was made associate professor in 1935 and last year was advanced to a full professorship.

He has served on innumerable campus committees and is presently a member of the Budgetary Council, Campus Development Council, Legislative Committee, Illinois Council on Higher Education and is chairman of the University Procedures Committee. He is also chairman of the committee recommending policy regarding naming of University buildings; he has been chairman of the University Referrals Committee and is treasurer of the Student Union Building Fund. He was treasurer of the University Board of Trustees from 1949 to 1957. He helped establish the SIU Foundation in 1942 and has served as its treasurer continuously since that time.

As assistant to Southern’s President, Mr. Miles serves in a key position in land acquisition, ranging from negotiations with landowners to consultations with the President on dollar amounts and consultations with legal counsel John Rendleman, ex ’47, on the legal aspect.

He will study fringe benefits and aids for the staff, will review fiscal procedures to determine if they are the most efficient. He is to examine plans for housing for both staff and students; he will examine the total costs of our building program as related to other university and institution building throughout the country. He will serve as President Morris’ personal representative on planning committees for various buildings.

Miles is author of numerous articles on budgets and accounting systems and of a book entitled Manual of Teachers College Accounting.

In 1942–43 he was instructor and acting coordinator of the Teachers College Board and was also a consultant of the Budget Division of the Illinois State Department of Finance. In 1943 he was a consultant for the Army Air Force. During World War I he was a second lieutenant.

He is a member of the Educational Buyers’ Association, Association of University and College Business Officers, American Legion, Jackson Country Club, First Baptist Church, Elks Club and Phi Sigma Eta, commerce fraternity. He was a sponsor and charter member of Sigma Beta Mu, now Sigma Tau Gamma. He has held every office in the Southern Illinois Golf Association.

Mrs. Miles is the former Mary Ellen Hines who attended Southern from 1915 to 1919. They have a married daughter, Mary Elizabeth Betts (Mrs. Edward), ’47, a granddaughter and a grandson.

Miles took his first sabbatical in the summer of 1957 and during that time traveled extensively in Europe. He has also traveled in the United States, Mexico and Canada.

Alumni Achievement Award

An important reminder—March 15 is the deadline for sending in your recommendations for the Alumni Achievement Award.

Any alumnus or former student of Southern is eligible to nominate candidates. With the exception of members of the present faculty or Board of Trustees and the current president of the Alumni Association any alumnus or former student is eligible for nomination.

We want to stress, however, that with your recommendation must come clear and explicit reasons for your choice. Merely being recommended is not tantamount to being considered by the judging committee.

The form which appeared in the December Bulletin was just a suggested one. Those of you who submitted one of those to the Alumni Office, merely mentioning a name, are urged to write again, this time giving detailed reasons for your choice.

You can nominate an alumnus for “distinguished service to Alma Mater” and one for “outstanding achievement in business or profession.” Remember the deadline, March 15.
Young Writes for the Young

Arthur F. Lambert, '34-2, is superintendent of the East Maine Elementary School System in Des Plaines. At present there are four buildings, with a faculty of 55 and growing at the rate of ten teachers a year.

For the past six years Lambert has been assistant superintendent in Cook County. He also served as director of health and physical education.

Mr. Lambert is a member of a number of professional organizations and has been active in community work. He has served on the Boy Scouts Executive Board of Council, has been district chairman of the Scouts, has served as chairman of the local Community Chest and as a trustee of the Methodist Church. He was president of the Board of Education for three years.

A two-year graduate of Southern, he received both the B.S. and M.S. degrees from the University of Illinois and has done advanced study at Northwestern.

Mr. Lambert is proud of the fact that nine members of his family have attended Southern. His wife is the former Lena May Johnson, ex '34. His sister Amy, '32, and her husband, Herman McDonald, '33, are both Southerners. Their son Keith was graduated in 1956.

Other members of the family attending SIU include Alice Lambert Moss, '34, and her husband, John D., '35, and Mrs. Lambert's brother and wife, Eugene M. Johnson, '33, and Leona Odell Johnson, '33.

The Lamberts have two boys and two girls, ages 10 to 18. Their home is at 2906 Pearl St., Franklin Park, Ill.

Young Shakespeare for Young Actors is made up of forty-minute versions of some of the English bard's most famous plays, A Midsummer-Night's Dream, The Merchant of Venice, The Taming of The Shrew, As You Like It, Julius Caesar and The Tempest. They are especially designed for school study and production.

The book is edited, with introduction and comments, by Eleanor Patmore Young, who has stressed the fun and vitality in his works and by so doing has succeeded in making Shakespeare "a delight to young minds rather than a bugaboo, a puzzle or a bore."

"The traditional approach fails to meet the needs of twentieth-century high school pupils," says Mrs. Young. "When they attempt to read the plays, these pupils lose their directions in a wilderness of Elizabethan phrases and doctrines. Consequently, they remain indifferent, or become antagonistic, and wonder why Shakespeare is considered great.

"In making these adaptations, the author had as her primary purpose to give to junior high school pupils and elementary grade pupils an appealing introduction to Shakespeare, so that they will ask for and enjoy later study. The general thesis is that high school pupils may be brought to a love of Shakespeare, and of good literature in general, by acting in such adaptations rather than by studying a whole text which contains material essentially beyond them."

The book is published by Exposition Press, Inc., of New York. It is considered to be "a boon for English and dramatics teachers and an open sesame for the young actors into the magic world of the works of history's greatest dramatist."

William Talbot, Editor at Samuel French, commented: "You have 'improved' Shakespeare as Ben Jonson might well have wished."

Mrs. Young, teacher, writer, wife, mother and grandmother, has taught speech and English at Southern since 1947. She received her M.A. degree from SIU in 1951. Her husband is Dr. O. B. Young, professor of physics and director of atomic and capacitor research at Southern. Mrs. Young taught English and speech in Pennsylvania, Tennessee and Illinois and has written a group of hour-long plays for school and church. She is co-author of a prospective speech textbook for high school entitled Speech for Your World.
Inasmuch as his major at Southern was music, you would expect R. E. (Gene) Howey, '51, to be following a musical career. He is, but by way of the U.S. Naval Air Corps.

A full lieutenant, Howey is flight instructor and director of the Cadet Choir at Corry Field in Pensacola, Fla.

The choir participated in the lighting of the President’s Christmas tree on the White House lawn December 23. This singing group has appeared with Ed Sullivan, Perry Como, Tennessee Ernie Ford and Dave Gar Wayne. Last August, in conjunction with its trip to sing at the commissioning ceremonies of the U.S.S. Ranger, the group appeared with Fred Waring at his summer workshop. Howey and his choir have also performed on NBC’s Monitor, Jack Carson’s radio show and the Miss Universe Pageant.

An off-duty, voluntary organization, the choir is composed of students in the Naval Air Basic Training Command. Within a year after its inception in 1947, an invitation for an out-of-town appearance was received. By 1950, the choir was being utilized as a public relations unit which averaged a trip per month to locations all over the country.

The choir is unique in that members receive no special considerations for their contributions to the organization; they must maintain the same standards of excellence in both flight training and ground school.

The directors of the choir have all been assigned other primary duties so that the directorship, too, is a secondary job.

The choir performed at the crowning of Miss Universe last year and served as escorts for the contestants (Continued on page 12)

MUSIC IN THE HOWEY MANNER

(Continued from page 11)

at the coronation banquet and dance.

As an undergraduate at Southern, Howey played in the band and orchestra, sang in the choir and with the Madrigal Singers. He was student conductor of each organization at one time or another. He was a member of Sphinx Club, was charter president of Phi Mu Alpha and president of Kappa Delta Pi.

After graduation he went to Florida State University where he received his master's degree in music education.

This was followed immediately by Officer Candidate School and flight training. He served with a Navy patrol squadron from the east coast and Mediterranean area for a year, then was ordered back to Pensacola as choir director.

After completion of obligated service, he took a position on the faculty of Florida State University as director of the men's glee club and head of the summer music camp. Last February he returned to the Navy to make it a career.

Howey and his wife and two daughters, Jan and Jo, live in Warren- rington, Fla., at 110 Lakewood Dr. Next month they are expecting another daughter.

A TISKEt A TASKET

(Continued from page 6)

helping while awaiting his call into the Air Force. The only boy, he has six sisters.

Basket manufacturing keeps the Herricks busy. Mr. Herrick does his own machine repair, rebuilding them if necessary to take care of changing trends in fruit packaging. After the day in the factory, Mrs. Herrick has her housework and bookkeeping to do.

The Herricks invite alumni, particularly the 1925 vintage, to visit them and their factory.

SOUTHERN SPORTS

by Bill Hollada, '51

Defensive play was the big question mark of Southern's basketball team after it defeated Missouri School of Mines, 68-59, in the first home game December 14.

Southern got off to a heart-breaking start, losing a 62-60 thriller to the University of North Dakota and dropping a 60-58 decision to North Dakota State College.

Larry Whitlock, 6-5 forward from Mount Vernon, and Seymour Bryson, 6-4 forward from Quincy, were the big guns in the Salukis' opening games. In the Missouri Miners' tilt, Whitlock gathered in 14 rebounds and scored 22 points to lead the way.

SIU Coach Lynn Holder said that defensive play and rebounding must improve for this year's club to reach its full potential. He added that the team has enough offensive punch if the defense is tough enough.

Playing center for the Salukis is Marvin Jones, 6-3, East St. Louis, with Don McGee, 6-5, Chester, close behind.

Holder has a two-platoon system working at guards with Sammy Duane, 6-2, Galatia, and Jim Lazen- by, 5-11, Pinckneyville, usually starting at guards with Dick Ruggles, 5-10, Quincy, Mass., and Gene Sams, 5-10, Albion, coming in for relief duty in the late first half or at the start of the second half.

On December 30-31 SIU participated in the four-team All-American tournament at Owensboro, Ky. Other teams entered were Washington and Lee, Ohio University and the host school, Kentucky Wesleyan College. (Tournament manager was Gus Paris, Kentucky Wesleyan history professor and a 1948 graduate of Southern. He received his master's degree from SIU in 1949.)

January cage tills set for the Salukis are as follows:

Jan. 4—Illinois Wesleyan H
Jan. 10—Western Illinois T
Jan. 11—Illinois Normal T
Jan. 18—Fort Leonard Wood West Frankfort
Jan. 25—Austin Peay H
Jan. 31—Central Michigan T

Football Players Honored

Three Southern football players, Houston Antwine, freshman tackle from Memphis, Tenn.; John Abrome- vitch, center from Haverhill, Mass.; and captain Marion Rushing, end from Pinckneyville, were named to first-team positions on the Interstate Conference All-Star football team announced early last month.

Two other players, Willie Brown, guard from Memphis, Tenn., and Carver Shannon, Corinth, Miss., half- back, were given second-team births, with Bill Norwood, quarterback from Centralia, getting honorable mention.

Shannon and Abromovitch were named on the first team of the second annual Peoria Journal-Star All-Star team, which includes all colleges in Illinois except Illinois and Northwestern. Given second team positions on this team were Rushing and Brown, with Antwine and halfback Charles Hamilton, Herrin, receiving honorable mention.

Optimistic Prediction

"If we lose any meets, it will be due to poor coaching," was the optimistic prediction of Southern's new swimming coach, Ralph Casey, before the season opened in early December.

"We have the manpower to do the job," he added.

SIU, which swept to a 10-1 record last season, lived up to its name in its opening meet, disposing of the Uni-
University of Kansas, 48–38, in a meet at Carbondale.

Behind Casey’s optimism is a nucleus of 13 veterans, 10 of whom are lettermen. Some of the freshmen should provide additional help late in the season. Probable stars will be Roger Counsil, the IIAC diving champion; Joe Barry, a good sprinter; Captain Robert Montgomery, distance; Bob Campbell, breaststroke; and Bob Schulhof, sprints.

January schedule:
Jan. 11—Washington Univ. H
Jan. 17—University of Chicago T
Jan. 18—Beloit College T
Jan. 24—Western Illinois H

Gymnastics Improved

Southern’s gymnastic team is looking forward to one of its best seasons in history, as Coach Bill Meade predicted a very good season.

“We won’t win them all,” said Meade, “but we’ll be far improved over last year when we won only one meet. In fact, some of our returning lettermen will have trouble making the traveling squad this year.”

Chief returnees from last year’s team are co-captains Jerry Oettle and Gene Salmon, Roger Counsil, Bob Hauser, Jim Haas and Bill Ballester.

Southern’s gymnastic schedule is the most ambitious of the winter sports, including dual or triangular meets with four Big Ten teams: University of Illinois, Northwestern, Wisconsin and Indiana University. Chief attraction of SIU’s schedule will be a Monday, January 27, home meet against Illinois, currently rated as the nation’s best college gymnastic team. (There will be no admission charge for this meet, which will begin at 7:30 in the Men’s Gym at Southern.)

SIU ran away from the other teams in capturing the 10-team Indianapolis Invitational AAU meet at the Hoosier capital December 7, turning back such schools as Indiana University and Ohio State.

An added attraction on the SIU schedule will be an exhibition by the world-famous West German Olympic gymnastic team at the SIU gym Tuesday, January 21.

Rebuilding Wrestling Team

A big rebuilding process faces the 1957–58 wrestling team, which has won the Interstate Conference title the past two years. This year’s squad will be built around Lee Grubbs, captain, who captured the 137-pound title division at the Conference meet last year; Gary Burdick, 191-pound champion last season; and Herman Ayres, 167-pound champion at last year’s IIAC meet.

Missing from this year’s team are Ed Hayes, IIAC heavyweight champion last year; Bob Dunkel, last year’s captain who won the 177-pound IIAC division; John Orlando, 157-pound champion in 1957; and Roy Fowley, who won second in the 130-pound class. Fowley, however, is a graduate assistant and is helping Bob Franz, SIU head line coach in football, who is replacing Jim Wilkinson as head wrestling coach while Wilkinson is working on his doctorate at Indiana University.

Several football players, including such stars as Marion Rushing, Houston Antwine and Willie Brown, have turned out for the team and may develop into top contenders in the heavier classes.

President’s Report Available

The latest report of the President of Southern Illinois University, volume fifty-one, number two, is available upon request.

In his report, Dr. Morris says that development of SIU “seems almost inevitable.”

The 50-page booklet reviews Southern’s progress from September, 1954, to August, 1956.

Copies are obtainable by writing the President’s Office at Carbondale.

Scene at Richland County Alumni Meeting

Richland County Alumni met October 29 at the Litz Hotel in Olney. Winners of the door prizes look very pleased at their unexpected luck. Principal speaker at the meeting was Dr. William Horrell, ’42, director of Photographic Service at Southern.
Send your news items to the *Southern Alumnus* editor. We are especially interested in hearing from members of this year's reunion classes, those ending in "3" and "8".

Alumni Day is Saturday, June 14.

1898

Sixtieth Reunion, June 14

*Harry J. Alvis* has moved from McMinnville, Ore., to 15 Crescent Dr., East St. Louis.

*T. C. Colvin*, ex '98, a member of the Richland County Alumni Club's board of directors, has been a member of the Richland County Board of Education since 1931.

1900

*Mrs. Edward Affolter* ([*Mattie Robinson*]) has moved from Louisville, Colo., to 220 Dexter, Denver.

1903

Fifty-fifth Reunion, June 14

A former resident of River Forest, Ada Bothwell now resides at 352 Windsor Rd., Asheville, N.C., according to word received by the Alumni Office from the post office at River Forest.

1908

Fiftieth Reunion, June 14

Mrs. Benjamin Bills ([*Marguerite Hanford*]), formerly of Glencoe, now lives in Greenwood, Va.

1913

Forty-fifth Reunion, June 14

1917

*Bertha Movers* finds gardening in California on the coast 20 miles south of San Francisco "wonderful recreation." Miss Movers lives in Montara, where she can be addressed at P. O. Box 91.

1918

Fortieth Reunion, June 14

1921

*Mrs. Allan L. Bostwick* ([*Edna Alvis*]) has moved from Centralia to 1001 E. Monroe, Belleville.

1922

*James Bennett* is still auditor for Coca Cola Company at Du Quoin, a position he has held since 1948.

*Hallie Eubanks* still lives in Belleville at 300 E. Park Dr. During the summer of 1956 she spent eight weeks on a sight-seeing tour of Europe and visited 16 countries.

*Robert L. Morgan*, ex ’22, president of the Morgan Motor and Morgan Tractor Company of Murphysboro, is head of a special gift committee for the St. Joseph Memorial Hospital fund campaign in Murphysboro. The committee is one of several organized for the public solicitation of about $500,000 for the proposed $1,200,000 new hospital. Morgan has been a businessman in Murphysboro since 1927, when he purchased a Ford agency. He has the longest record of continuous service in the automotive sales field in that city.

1923

Thirty-fifth Reunion, June 14

*Mrs. Sada Bramlett* Vaughn, who received her two-year degree with this class and her four-year degree in 1951, is living at Barrett Dormitory, 510 University Avenue, Carbondale. She formerly lived in Eldorado.

*Lethia Weaver* is living at 313 S. Lincoln Ave., Clearwater, Fla. She formerly resided in Metropolis.

1924

Dr. William A. Keith, pastor of the First Congregational Church, Kalamazoo, Mich., had published last year some of his sermons. The volume, published by Sequoia Press, is entitled *The Quest for Faith*. The sermons were preached from the pulpit of the Kalamazoo church and published at the request of numerous individuals and sponsored by the Boards of Deacons and Deaconesses. There are five sermons. The first, "Writing Your Personal Creed," is taken from Luke 8:25. The second sermon is called "Only Big Ideas Are Great Enough." The third, "The Difficulty of Unbelief," is based on a text from the Book of Mark, 9:24. The fourth, "Your Jacob's Ladder," is taken from Genesis 23:12, 13, and the fifth sermon is "The Good Shepherd" from John 10:14.

The Alumni Office has been advised of the death of the husband of Mrs. Frank R. Morris ([*Ada Blake*]). Mr. Morris died last May 30. Mrs. Morris taught school 32 years, 16 years in Marion and 16 in Decatur. At the time of her retirement she was teaching at Mooseheart. She has two great-nephews, Larry and Fred, who are attending Southern. Mrs. Morris lives in Aurora at 425 Grand Ave.

SCHOOL NAMED FOR CARRUTHERS

A new junior high school, Murphysboro Unit School District 186, has been named for its superintendent, *William Carruthers*, ’29.

Carruthers was cited for "untiring efforts to help obtain the new $450,000 school and for similar efforts in establishing a unit district."

Mr. Carruthers, past president of the Illinois Education Association, is author of a number of articles which have appeared in school publications, particularly in the field of school law. He served one term as chairman of the legislative committee of the IEA, one of the most important posts of the state group.

Carruthers began his teaching career in Murphysboro in 1930, serving as principal at Lincoln Grade School. He served as principal of the Logan Junior High School in Murphysboro from 1931 to 1950 and from that time until organization of the unit district last year was Murphysboro city school superintendent.

He received his master's degree from the University of Illinois and has completed one year of work on his doctorate.
Frank Bridges, '29, assistant professor of health education at Southern, received the 1957 Illinois Recreation Association's "outstanding service" award. The presentation was made November 8 in Evanston.

Carbondale's recreation program was launched in 1939 by Mr. Bridges while he was athletic director at Carbondale Community High School. He directed the program seven years and has served on the Park Board since 1950. He served one year as president. Bridges is also a member of the High School Board of Education.

Director of civil defense work in the Southern Illinois area, in 1955 he was named "Man of the Year" by the local Kiwanis Club for his contributions to community recreation.

Mrs. Clyde Gates (Freda Moore) teaches home economics in Thompsonville and lives in Carbondale at 1128 Walkup.

According to information received in the Alumni Office, Margaret M. Curtis has moved from Forest Park to Oak Park, where her address is 130 Washington.

Viola Scannel, formerly of East St. Louis, now resides at 6920 West A in Belleville.

Formerly of Waco, Texas, Edna Gregg now resides at 120 Boyd, Johnson City, Tenn.

Mrs. O. K. Loomis (Kathryn Snyder) and a high school friend spent six weeks last summer touring Europe. They visited France, Monaco, Italy, Switzerland, Holland and England. Mrs. Loomis received her two-year degree from Southern in 1927, her B.S. in 1948 and her M.S. in 1956. Mrs. Loomis lives in Anna.

Thirtieth Reunion, June 14

E. French Gallagher, ex '28, for several years a resident of Olney and manager of the Frisina Theatres, has been transferred to Hannibal, Mo., where he can be addressed in care of the Tom Sawyer Theatre.

Mrs. John Halliday (Clara Finley) teaches second grade in Hazel Crest. A widow, Mrs. Halliday lives in Oak Lawn at 8846 Ryan Rd. She received her B.S. and M.S. degrees from the University of Illinois and received a two-year degree from Southern.

Mrs. Carl L. Hight (Earline Karraker) writes that she has moved from Metropolis to Apt. 4-B Cheffield Gardens, Fairfield.

Rev. Guy Roberts has been transferred from Grangerville, Idaho, to Clarkston, Wash., where he is pastor of the First Methodist Church.

Frona Barker, ex '29, lives in Broughton.

Mrs. Nova Young Ferguson writes that she is "enjoying doing historical research here in this country of my childhood. I am treasurer for Bowling Green branch of the American Association of University Women. The late Dr. Steagal invited me to become a member. We are now microfilming our early records." Mrs. Ferguson's address is 1310 1/2 Park St., Bowling Green, Ky.

Mrs. Arthur Herbert (Cleda Klotz, ex '29) teaches seventh grade at Grant School in East St. Louis. She and her husband and 16-year-old son Dennis live at 15 W. Gate Dr., Belleville.

Dr. Oliver W. Margrave's address is 216 Cornwell Rd., Fairfax, Va.

Kenneth Phillips, '27-2, is principal of Ashley Township High School. His wife, the former Opal Broyles, ex '36, also teaches in Ashley. The Phillips have a daughter who was graduated from SIU and their son is now attending Southern.

Lillian C. Smith of 11 Hillcrest Dr., Caseyville, is an elementary teacher.

Mrs. Raymond Britton (Gwendolyn Mathis) has moved from Ullin to 505 N. Division, Du Quoin.

Mr. and Mrs. George R. Christie (Margaret Sammons, ex '32) have moved from Panama City, Fla., to 206 Custer, Bainbridge, Ga.

John W. Collins has moved from Maxton, N.C., to Buda, Ill. Collins re-

As educational advisor to the base commander for training analysis and development at the Military Air Transport Service Air Force Base in Palm Beach, Fla., Dr. Steve Gale, '47, finds himself traveling to various parts of the world.

This is his third year at the Palm Beach base, which provides formal air transport and amphibious transition training as required by the USAF and TB-50 transition training as directed by headquarters MATS. Transition training is conducted on various types of transport aircrafts and Gale is responsible for evaluation directed to the improvement of the overall training program, testing methods used, monitoring and improvement of instructional methods, monitoring and improvement of training devices, curriculum planning and training materials.

Dr. Gale received his M.S. degree from the University of Illinois and his Ed.D. from Bradley University. In addition to his regular duties with the military, he is part-time instructor in the education department of the extension unit of Florida Southern College of Lakeland.

He is author of several published articles. Originally from Johnston City, Gale and his wife and children, Marianne Lee, 9, Marguerite Sue, 8, and Stephen Alan, 4, live in West Palm Beach at 355 Edmore Rd.
1931

Howard E. Bosley has moved from Salisbury, Md., to Towson, Md., where he lives at 513 onecrest. Bosley received a two-year degree from Southern in 1926.

Mary Hamilton, who received a two-year degree from Southern in 1927, teaches home economics in Grants, N.M. She lives at 118 N. Fifth St. Miss Hamilton formerly taught in Dallas, Tex.

Cecile Rentschler, ex '31, lives at 209 Louis Rd., Joliet.

1932

Mr. and Mrs. Frank Glenn (May) own drive-in theaters in Tamaroa and Mount Vernon.

Mr. and Mrs. Kenneth G. Hall (Naomi Grobe, '35) have moved from Effingham to 205 W. Elm, Fairfield.

Mrs. James A. LeCompte has moved from Imperial, Mo., to Barnhart, Mo., where her address is R. R. 1, Box 344. Mrs. LeCompte, the former Imogene Grose, received a two-year degree from Southern in 1926.

Mrs. Harold L. Ray (Rosemary Mills) and her husband, ex '33, have moved to 906 E. Illinois in Wheaton. They formerly lived in Marion. Mrs. Ray received a two-year degree from Southern in 1928.

Mrs. W. R. Stammeyer (Charlotte Romanus) does substitute teaching in Groton, Conn. Her husband is a captain in the U.S. Navy and is head of the dental department in medical research at New London, Conn. He has also helped train dentists for Antarctica. The Stammeyers have a 10-year-old daughter Nancy and they reside in Groton at 343 Tyler Ave.

Mrs. Howard G. Willmoth (Mildred Cox) is office secretary at Kingshighway Baptist Church in St. Louis. She and her husband and 11-year-old son, James Glenn, live at 5417 S. Kingshighway. Mrs. Willmoth received her master's degree from the University of Southern California.

1933

Twenty-fifth Reunion, June 14

Mrs. Walter Brusz (Margaret Eade), R. R. 2, Nashville, is a teacher.

Word from the post office at Silver Springs, Md., indicates that Robert R. Gardner is now living at 3229 Coral Paric Drive, Cincinnati, O.

Mrs. Opal Ragland Huck, ex '33, lives in Nashville. In addition to her duties as a housewife, she finds time to teach.

1934

Dr. Robert W. Finley is assistant professor of geography at the University of Wisconsin. He and his wife and two children, Jane, 8, and Mark, 5, live in Madison at 2018 Jefferson St. Finley received his Ph.D. from the University of Wisconsin in 1951.

Mrs. Lawrence Houghland (Helen Cunningham) teaches at Ashley Grade School. She and her husband live in Pinckneyville at 705 St. Louis.

Roland Keene and his wife (Evelyn Evitts, '35) of Pinckneyville enjoy "shooting" deer in Canada with a camera, taking both movies and stills. In a recent controversy over whether or not deer should be killed, the Keenes came up with this compromise and a picture appeared in the Southern Illinoisan newspaper of one of their catches. They say they enjoy all the thrills of stalking big game in Canada and yet the deer have remained "to grace the woods of the beautiful northland."

Oran A. Mitchell, ex '34, and his wife (Earlene, '38) reside at 21297 Champaign in Taylor City, Mich. They formerly lived in Mayfield, Ky.

1935

Formerly a resident of Harrisburg, Eleanor Etherton is now living at 547 S. Main in Madisonville, Ky.

Dr. Sylvan O. Greenlee is director of Greenlee Research Company. He and his wife and three daughters live in West Lafayette, Ind., at 343 Laurel Dr. Dr. Greenlee received his M.A. and Ph.D. degrees from the University of Illinois. His daughters are Nancy, 16, Sandra, 14, and Sharon, 12.

Major Michael E. Lenich has been transferred to Montgomery, Ala., where his address is 3621 Dalrado Pkwy. He formerly lived in Alexandria, Va.

1936

Loren Allen has moved from Olney to Peoria Heights where he is librarian in the city schools. For nine years he served as district librarian of the schools in the East Richland Community Unit District. Herman Fehling is head of the advertising department of the Du Quoin Evening Call.

Dr. and Mrs. Edward Reed (Anna Louise Isherwood, '35) have moved from Fort Smith to 407 E. Lafayette, Fayetteville, Ark.

Mr. and Mrs. Fred Shappard (Pauline, '30) have moved from White Hall to Decatur where their address is 98 Isabelle Dr. Mrs. Shappard received her two-year degree from Southern in 1928.

Mrs. Edward Zachers (Helen Osborn) of Oakdale teaches in Okawville Grade School. She and her husband have three children.
Alice Elizabeth Doty teaches fifth grade at Brasiaide School in Highland Park. She lives at 1520 Oakwood. Miss Doty received a two-year degree from Southern in 1929 and received her master's from Northwestern in 1944.

James E. Hargrave has moved from Alton to Bement where his address is 420 E. Bedman.

Elmer D. Murray is principal of Dependents School in Europe. His address is Hq. Setaf, APO 168, New York, N.Y. Murray received his two-year degree from Southern in 1928.

Alvina Schlaeter, who received her two-year degree in 1927, lives at Nashville and is a part-time bookkeeper.

1938

Twentieth Reunion, June 14

Robert Huntley has been teaching at the high school in Du Quoin since 1942. He received his master's degree in 1957.

Ralph McBride is owner of a fleet of trucks which provides freight service between St. Louis and Southern Illinois. He and his wife (Verniece Helm, ex '38) live near the Herrin "Wye." McBride's business address is 1104 N. Granite St., Marion.

Major Paul Roger McDonald's address is Hq. Sec., 3rd Bomb Wing, APO 994, c/o PM, San Francisco, Calif.

Formerly a resident of Clifton, Stanley Monteith now resides at 29 W. 34th Pl., Steger.

Early in October, L. Goebel Patton, West Frankfort school superintendent, spoke on a panel discussion at the University of Illinois. The panel was entitled "How Can We Better Identify and Serve Talented and Gifted Students."

Felix A. Williams is superintendent of Steeleville Community Unit District, a position he has held since July, 1951. Since the spring semester, 1955, he has been manager of Steeleville Residence Center and part-time instructor for McKendree College.

1939

Elsie Eaton has been teaching in the grade schools in Du Quoin since 1942. Harry B. Keller, ex '39, and his wife (Lois Lee Smith, '41) have moved from Berkeley, Calif., to 2010 Add Drive in Falls Church, Va. Rev. Walter A. Smith of Flora, superintendent of the Olney district of the Methodist Church of the Southern Illinois Conference, returned recently from a two-month trip to Japan where he assisted in missionary work.

1940

Mrs. Gilbert Reiman (Betty Chilton) teaches at Murphysboro Township High School. She and her husband live in Murphysboro at 308 S. 20th St.

Mrs. Horace M. Winn (Eugenia Muir) and her husband have moved to 213 N. Navajo Trail in Scottsdale, Ariz. Mrs. Winn is teaching third grade at Kyrene School, R. R., Tempe.

1941

Early in August, Ray Bjorklund and his wife entertained a group of Southern grads and their families at a patio steak fry at their Denver (Colo.) home. Out-of-town guests included Howard Hough, '42, and his wife, Dr. J. W. Schaffer, ex '41, and Mrs. Schaffer (Kate Bunting, '41). Denverites present were Wilbur R. Rice, '41, and Mrs. Rice (Edith Lloyd, '45). Mr. Bjorklund, formerly of Rockford, Ill., is personnel director for the Denver branch of the Sundstrand Machine Tool Company. The Bjorklunds have two sons, Buddy, 10, and Robby, 5. Dr. Schaffer is currently director of admissions and coordinator of student personnel at Wisconsin State College at Whitewater. The Schaffers have four daughters, Ruth, 12, Susan, 10, Ann, 8, and Nancy, 2½. Rice is regional research analyst for the Department of Health Education and Welfare. He and

his wife have two daughters, Suzanne, 15, and Linda, 10. The Houghs make their home in Springfield where Mr. Hough is director of the Illinois Health Department. They have two sons, Howard, 14, and John, 10.

Nat Mangold, ex '41, of Alton, Mo., is district engineer for General Electric Company. He and his wife (Peggy Hauner, '48) and children, Andrea, 7, Kevin, 4, and Kent, 2, live at 6912 General Sherman.

Mrs. Ben S. Bayha ( Mildred Irwin), 431 Kent Rd., Riverside, is a teacher. Mrs. Bayha received a two-year degree from Southern in 1928.

Irene Brock teaches art in the grade schools in Du Quoin.

Formerly of Mount Vernon, Homer C. Brush now lives at 4113 Durham in Royal Oak, Mich.

1942

William L. Akin is chief of Aircraft Ramp Service in Torrance, Calif., where he and his wife (Marsoen Moore, '39) and 13-year-old son, William Ralph, live at 19524 S. Flavian Ave.

Mrs. Lorain E. Cokley (Mary Alice Smith) has moved from Decatur to 125 N. Lincoln in Carpentersville.

Thomas L. Dickey, Jr., has moved to Fairfield. He resided at one time in Du Quoin.

Ann Figg teaches in the public schools of Tucson, Ariz., and lives at 2174 Granito Vista.

Anna Kay Hampton has moved from Coolidge, Ariz., to 144 E. Seventh Ave., Mesa, Ariz.

On October 18, Mrs. Otto Justl (Mary DeVoe) represented Southern at the inauguration of Eugene Ellsworth Dawson as president of Colorado Woman's College in Denver.

1943

Fifteenth Reunion, June 14

James W. Landis, Jr., ex '50, is field service engineer for Telecomputing Corporation. He is living in Huntsville, Ala., at 3311 Belcrest Dr. Landis is married and has a two-year-old daughter, Ellen Michelle.

Hubert J. Loftus, M.A., '51, Chicago attorney, writes that he and William F. Price, '48, M.A., '49, have opened a

Two members of the physics staff at SIU, Dr. O. B. Young and George Arnold, '39, and two students attended the science open house at the University of Chicago on November 23. Shown with Dr. Peter Meyer, assistant professor of physics at Chicago University, are Tso Pin Wang (partially obscured) and Paul Marchionda (right). Wang is a graduate assistant from Formosa and Marchionda is a junior from Altamont. They are looking at the full-scale model of the American satellite (which is scheduled to be launched in March), on display in the Enrico Fermi room at the Chicago school.

At this annual open house, nearly thirty demonstrations were given by some of the world's leading basic research scientists. This year's attendance was so much larger than anticipated that many people were turned away. Even some who attended by invitation were unable to see as many demonstrations as they wished. Another evidence of the awakening interest in science.
An American flag, gift of the Franklin County Alumni Club, being presented to Dr. D. W. Morris by Donald L. Bryant, '40, national president of the Alumni Association. Bob Odaniell, '51, alumni director, looks on. The flag was originally presented to the Alumni Office by R. Earl Doty, '28-2, '55, president of the Franklin County club, but formal presentation to the University was made during halftime ceremonies at the Homecoming game.

second law office in DuPage County at 400 E. Lake St., Addison. Price will concentrate on the Chicago office at 4008 W. Division St., while Loftus will spend most of the Illinois Guidance and Personnel Association at Bradley University. Miss Herrin, attended the Annual Conference of the Illinois Guidance and Personnel Association at Bradley University. Miss Herrin, attended the Annual Conference of the Illinois Guidance and Personnel Association at Bradley University. Miss Herrin, attended the Annual Conference of the Illinois Guidance and Personnel Association at Bradley University.

Robert E. Murphy is director of music at Tower Grove Baptist Church in St. Louis. He lives at 5249 Penrod St.

Antonio Romano, M.S., '57, is elementary principal at Cutler.

Early in October, Nellie Simmons, third grade teacher at North Side School in Herrin, attended the Annual Conference of the Illinois Guidance and Personnel Association at Bradley University. Miss Simmons has served as secretary of the Association for the past year. She has a master's degree from SIU.

Harold E. Womble, M.S., '57, teaches in the high school at Centralia. He and his family live at 1204 N. Maple. The family includes three children, Jean, 8, Susan, 5, and Mark, 3.

1951

Southern Sketches

This month Ernest J. Simon, dean of the Division of Technical and Adult Education, will leave for a 20-month assignment as technical consultant to the Burma government. Selected by the Ford Foundation, Simon is a widely recognized authority in the field of vocational and technical education. During his assignment he and Mrs. Simon (Mary Ellen Curd, '36) will live in private quarters at the government's new multi-million dollar Polytechnic Institute in Rangoon. As an advisory assistant to the government's Director of Technical Education, he will be responsible for the selection and training of teachers; planning surveys to determine training needs; the development of courses in the Burmese schools; setting up vocational guidance and public relations programs; beginning extension and night classes; expanding technical library services, and other duties. He will also serve on a committee set up by the Prime Minister to review Burma's entire educational system . . .

The November issue of the Journal of Educational Sociology was written entirely by members of the Department of Guidance. The theme was "Guidance in Operation: The Southern Illinois University Program." Dr. Eugene D. Fitzpatrick, chairman of the department, served as issue editor at the request of the editor-in-chief. Department members who contributed were Arthur Smith; Mrs. George Josse (Jane Ziebold, M.S., '56); Dr. W. A. Thalman; Dr. Ivan Russell, '49, '50; Dr. William Neal Phelps, '29; Clinton Meek, and Harvey Gardner . . .

According to Dr. Harold W. See, executive dean, SIU may have 3100 resident students and an estimated total of 5300 students in Madison and St. Clair County residence centers next fall. Biggest enrollment increases are expected in the fields of nursing education, in technical fields, liberal arts (with emphasis on science) and in an expanded graduate program. Final enrollment figures for this fall term showed 2874 students at the three centers, East St. Louis, Alton and Belleville . . .

Southern now has nine national social fraternities. The latest addition is Phi Sigma Kappa which was installed in ceremonies held November 22-24. Forerunner of the new group is Alpha Sigma Epsilon, for two years a local. Forty-one undergraduates, three staff members and two Carbondale residents were initiated.

A book by Dr. Harvey Gardiner, professor of history, has won an award in the annual Southern Books Competition. The book, Naval Power in the Conquest of Mexico, was published last year by the University of Texas Press. Gardiner will have another book published this year. Both book jackets were designed by the author . . .

The U. S. Office of Vocational Rehabilitation has granted SIU's Rehabilitation Institute $36,905 to begin a full scale program of service to the handicapped, the first of its kind in the Southern Illinois area. Grants to the Institute for this year now total $100,000. Earmarked for the extension and improvement of rehabilitation facilities at Southern, the money will enable the Institute to begin a long-planned program of service to students and non-students alike. It will combine counseling and therapy for the physically handicapped, establishment of a college program tailored to the special needs of severely crippled students, and actual on-campus work experience for student trainees in the field of rehabilitation. The grant, covering the next eight months of operation, is renewable for three more years. Dr. Guy Renzaglia is director of the Institute . . .

Southern is to have its own radio station this spring. The call letters will be WSRV. Construction on the transmitter tower has been completed. Work on the transmitting station itself will be underway soon. Students enrolled in courses in the radio-TV department will operate the station under the supervision of Buren C. Robbins, department chairman, and his staff. WSRV will operate on 91.9 megacycles as an FM station, with 23.4 kilowatts of power. The station will carry both instructional and entertainment programs and will be non-commercial . . .

Agnes Fenster Ridley (Mrs. Bryan) is the new national vice president of Kappa Omicron Phi, home economics honorary fraternity. Mrs. Ridley, instructor in the School of Home Economics, is a charter member of the SIU chapter and was first president of the Carbondale alumnae chapter. She joined the staff three years ago after teaching ten years in Union County schools. Mrs. Ridley received the B.S. degree in 1952, and the M.S. degree in 1954, both from SIU. She is now on leave while working on her doctorate at Oklahoma State University.
