SIU'S FINE ARTS FESTIVAL — January 31-February 19

Southern Alumnus

January, 1960
Reflections in Far East

Greetings from the “Land of the Rising Sun.” Once again it is time to renew my membership in the Alumni Association and to take time to reflect back to the days at Southern. This is always pleasant to do.

Here in the Far East I am constantly meeting other alumni and must say “it is a small world.” Would enjoy hearing from other “old ’57ers.”

Teachers of Deaf Needed

Am married; have one daughter, Heather Rose; teach sixth grade at Maryland School for the Deaf. Recently assumed position of scoutmaster of the school troop. Last spring I wrote, directed, and produced a three-act psychological drama for the school’s literary society. Wish I’d studied drama at SIU—would have been easier for me.

There is a crying need for teachers of the deaf at the primary and elementary levels. Can’t SIU turn out more? Pay and other benefits are excellent.

William R. Barrett, Jr. ’57

Frederick, Maryland

Thomsons in Germany

We are now located in Frankfurt, Germany. My husband is in security work with the Army and I will be doing substitute teaching this year in the American Schools for Armed Service Dependents. We have a son, David, who is eight months old.

Our new address is Mr. and Mrs. Charles William Thomson, RA 17511492, Co. A, Hq. and Sv. Bn, USASAE, APO 757, New York, N.Y.

We would enjoy hearing from any SIU alumni, faculty, or students who might be in our area. Our address is Am Industriehof Strasse 17, Frankfurt, Hausen, Germany.

Mr. and Mrs. Charles W. Thomson, ex ’56
(Mary Lou Lundeen ’58)

Keeping Up With Southern

It certainly is wonderful to be able to keep up with the activities at Southern and yet be so very far away. I am beginning my second year of teaching here in Baltimore City at Eastern High School, which is an all-girl institution of approximately 3,000. This year I am teaching stenography and typewriting. I never thought that I would ever be one of such a large department (22 in the Business Department) and in a school so much larger than any high school with which I have been associated. It is most enjoyable.

I am looking forward to the next editions of Southern Alumnus and the Bulletin. I have located some alumni on the east coast as a result of seeing their names and addresses in the Alumnus.

From a Senator’s Secretary

I have been reading in the Southern Alumnus about the tremendous building progress we have had at Southern Illinois University. Each time I have returned to the campus, it seems as though a new part of its face has been lifted. I feel certain that in the not-too-distant future it will be one of the most beautiful, modernistic campuses in the United States.

Although the Senate has adjourned for this year, I find my vacation plans will not allow me to return to SIU for the Homecoming. I thought perhaps through the pages of this magazine I could let my friends know what I am doing and where I could be reached in case anyone from SIU had occasion to come to Washington.

I am presently personal (appointment) secretary to Senator Vance Hartke (Dem., Ind.) and can be located in his office in the Old Senate Office Building. It would please me very much to have anyone from SIU call or drop by when passing through this area.

Mrs. Mary White Ruff ’57

Nostalgia and Pride

Seeing Southern’s campus at Homecoming, even after the short period of two and a half years, was a stimulating experience. It is difficult to believe that Southern has progressed so extensively during the past few years. Of course, as in the case of most alumni, I experienced a feeling of nostalgia for things as they “used to be.” However, this was greatly overshadowed with the pride I felt in being associated with such an expanding, improving organization.

Southern Alumnus
On the Cover

The circle appearing at the center left of the cover illustration is the symbol of the fifth annual Fine Arts Festival of Southern Illinois University. It and the festival program were designed by Verdon Lipe and Dave Miles, both '59 and now graduate assistants in the Design Department.

Also on the cover are pictures of a member of the Merce Cunningham Dance Company (which performs February 3), a ring from the crafts exhibit, French Hornist Joseph Eger, whose chamber music ensemble will give a concert February 17, and "Animal," a bronze work of sculpture by Sidney Geist, sculptor, critic, and visiting professor at Southern.

The festival opens at 3 p.m. Sunday, January 31, with an address by President Delyte W. Morris and a concert by the famed Eastman String Quartet in Shryock Auditorium.

In the program of the Fine Arts Festival, Burnett H. Shryock, dean of the School of Fine Arts, extends this invitation,

"For the fifth consecutive year, the School of Fine Arts of Southern Illinois University is presenting a festival of fine arts. Contemporary development in the arts of the United States is this year's motif. This should give a variety to the many events associated with paintings, crafts, design, music, dance, films, and drama. There will be many distinguished guest artists and lecturers who will participate in the festival program. As usual, the faculty and students of Southern Illinois University will be included. It is hoped that you will enjoy it and that the festival may further broaden your understanding of the important relationships in all the arts. The general public, the faculty of the University, and the student body are cordially invited to attend."

The Southern Alumnus cover was designed by Richard L. Holladay, VTI '58, of the Art Department of SIU's Printing Service.

Published monthly except August by the Southern Illinois University Office of Alumni Services, Carbondale, Illinois. Member of the American Alumni Council.
Payment of membership dues of $4.00 annually or $100 for lifetime membership entitles an association member to all alumni publications. Subscription to the Alumnus is by membership only. Entered as second class matter December 1, 1939, at the Post Office at Carbondale, Illinois, under the Act of August 24, 1912.
All information concerning alumni or special feature material should be addressed to the editor or the director of Alumni Services. Address changes should be sent to the Alumni Office. Please allow four weeks for changes.
Fifth annual Fine Arts Festival at SIU, which opens January 31 for a three-week run, is centered around the theme, "Contemporary American Arts." Artists from all parts of the country will appear. All festival attractions will be free to the public except for the concert on February 18 by the New Orleans Philharmonic Symphony Orchestra presented as part of the Carbondale Community Concert series.

Chairman of the festival is Steven Barwick, professor of music, graduate of Eastman School of Music and Harvard University, and concert pianist who has appeared in this country and in Europe. He has arranged a program that ranges from a composers' symposium to a jazz concert. Members of his committee include Elsa Kula, Bruce Breland, and Lula Roach, who have arranged exhibits in American painting, sculpture, and crafts.

Many Attractions

Among the attractions will be the Eastman String Quartet, Merce Cunningham Dance Group, Eger Players, chamber music ensemble group, Oxford String Quartet, and a special Illinois Composers Symposium with Ingolf Dahl, University of Southern California composer, as special guest. Mr. Dahl will be pianist for the presentation of his "Sonata Seria" by the University Concert Band and Orchestra February 14.

A jazz group has been scheduled for the festival. The J. J. Johnson Quintet will play a concert at 8 p.m. February 15 in Shryock Auditorium. Johnson is one of the leading modern jazz trombonists and his group is ranked among the top eastern units attempting to extend the range of jazz in experimental forms.

Sculptor Sidney Geist and Painter Paul Burlin will be on hand during exhibits of their works. They will join Warren Brandt, chairman of the SIU Art Department, in a symposium February 2 in Woody Hall Formal Lounge, discussing "Where Will Amateurism Lead Us." Paul Burlin, leading abstract painter of this day, is a visiting professor of art at the Chicago Art Institute. Mr. Geist is on the SIU campus as a visiting artist.

Public lectures also will be given by William Oliver, playwright and director, February 8; Francis Thompson, visual designer and film experimenter, February 10; John Beaufort, drama critic of the Christian Science Monitor, February 11.

The SIU Choir and Southern Illinois Symphony will perform new works by SIU Composers Robert Mueller and Will Gay Bottje, both of the music faculty. The festival will close with a Fine Arts Ball staged by SIU design students February 19 in Lentz Hall.

SIU's Fifth Annual

Fine Arts Festival

SIU student groups will join the distinguished artists who are to appear at a number of concerts during the Fine Arts Festival. This choral group is rehearsing under the direction of Robert Hines, in charge of choral work.
New Post for SIU Operations—

Grinnell Named Vice President, Chief Executive Assistant

On February 1 John Erle Grinnell will shed the academic robes of the deanship of the SIU College of Education, close his desk in the old stone and frame house on Grand Avenue, and move around the corner to the President's Office.

There he will don the garments of vice president of the Carbondale campus and chief executive assistant to President Delyte W. Morris.

It will be his job to take charge of day-to-day operations on the main campus, thus allowing the President's Office more time and attention to devote to planning for the future and for the constant review of existing programs on all the campuses.

In presenting the plan to the SIU Board of Trustees, University officials opined that "The result should be more effective educational planning for the use of the resources of the University and more efficiency at the operational level." To adopt the plan it will be necessary for the board to amend the University statutes to provide for the new arrangement.

Two vice presidencies now are on the Carbondale campus. Charles Tenney is vice president for instruction. George H. Hand had been vice president for business affairs until he resigned to become head of the new Department of Higher Education. John Rendleman, assistant to the president and SIU legal counsel, has been filling in at the latter vice presidency.

Executive Vice President Harold W. See holds a position on the Southwestern Illinois campus at Edwardsville similar to Dean Grinnell's new assignment.

Approval of the new setup will necessitate "a re-examination of the entire program of the University and the establishment of new working relationships on and between its various campuses" University administrators stated. These campuses include those at Edwardsville and Carbondale, the Vocational-Technical Institute at Southern Acres, and an SIU camp and outdoor education program at Little Grassy Lake.

Dean Grinnell has been with SIU since 1955, serving as dean of the College of Education during all that time. He has had a long and distinguished career as an educator and administrator both in this country and abroad. He is especially noted for his work and writings in educational public relations. Editor of a 1955 anthology on "School and the Community," he also is author of the book, "Interpreting the Public School."

Before entering college administration work, he was principal of a number of North Dakota and Minnesota high schools. He served as dean of the North Dakota School of Forestry three years and director of Liberal Arts and Education at Stout Institute six years.

From 1938 until 1955, Dean Grinnell was dean of instruction at Indiana State Teachers College. He was chief of the Liberal Arts section at the American University in Biarritz, France, until it was discontinued and later carried out an assignment from the U.S. State Department and the Institute of Inter-American Affairs as director of rural education and teacher training programs in Panama.

During summer sessions the dean has taught at the University of Colorado, University of Texas, and John Hopkins University. He has traveled and studied extensively in Scandinavia, Switzerland, France, and England. Author of more than 50 articles for scholarly journals, he has served on numerous committees of educational organizations.

January, 1960
The search is on—at Southern Illinois University as well as at colleges and universities throughout the country—the search for talent. At SIU this search is specifically focused on the talented student who should be in college but who considers it a luxury he can't afford.

Vitally interested in this search is the Financial Assistance Center, Ronald K. Green, M.A. '58, co-ordinator. Mr. Green is looking for worthy and talented students. For these students the University Scholarships and Loan Committee has scholarships, awards, loans—and the cooperation of the Student Employment Office in finding jobs for them.

Mr. Green maintains that lack of finances should not prevent a young man or woman from completing his academic education—provided that young man or woman has the talent and the ambition. With a loan, a scholarship or grant, summer employment, a student job, and perhaps a little savings, he or she can go through college, albeit the hard way.

Never before have so many opportunities in the way of financial assistance been offered. Never has this assistance been offered on such a wide scale.

Why this intensive search for talent? No one can ignore the necessity of an education today. Aside from intellectual and cultural aspects, the hard facts of monetary value are greatly evident. It is estimated that the person with a bachelor's degree earns an additional $100,000 in his lifetime.

The Loan Program

There are a number of ways a student can finance his education, partially or completely. SIU tries to help him in every possible way.

For the first time Southern can offer a long-term loan program, the National Defense Student Loan Fund, established here in March of '59. Full time undergraduate and graduate students in good standing and in need are eligible to apply for these loans. First emphasis is given to students of the sciences or mathematics but needy students in any field may receive loan assistance under the program.

Special consideration is given to those with a “superior academic background who express a desire to teach in the elementary or secondary schools and to students whose academic background indicates a superior capacity or preparation in science, mathematics, engineering, or a modern foreign language.”

Need determines who is to receive a loan and how much that loan will be. The SIU Scholarships and Loan Committee reviews and takes final action on each application. Educational expenses and related expenses must justify the loan, otherwise it is rejected.

A graduating high school senior may apply his last semester if he has been admitted to a university. A student may receive up to $1,000 a year but no more than $5,000 during his total educational program. At Southern the normal maximum amount is $600 a year, thus allowing more students to benefit.

From March to July of 1959 SIU loaned about $25,000 under the new loan program. To date about $100,000 has been loaned. For the year 1959–60 $171,000 has been allotted to Southern and is expected to provide loans for from 500 to 600 students. These loans range from $100 to $600 for the year, averaging about $400 each.

The National Defense Loan Fund operates under a matching fund arrangement. Federal allotments provide 90 per cent of a loan and SIU arranges for the remaining 10 per cent. Bursar Thomas J. Watson '53 is SIU representative for the program.

Repayment of the loan, plus three per cent interest per year, is made at the rate of 10 per cent a year, beginning one year after completion of, or withdrawal from, the educational program.

For those who become full-time teachers in a public
elementary or secondary school, the loan and interest is cancelled at the rate of 10 per cent for each academic year of teaching, up to a maximum of 50 per cent of the total loan.

A short-term loan fund also is in operation at SIU, the Henry Strong Educational Foundation Loan fund, a national fund for juniors, seniors, or graduate students under 25. Up to $600 can be borrowed under this program and is repayable at three per cent interest. SIU's short-term loan funds total $17,000, and about $50,000 has been loaned under these arrangements.

During 1958–59 $75,000 was loaned from federal and short-term funds for the entire fiscal year. During 1959–60 the amount is expected to reach $250,000.

Although loans have been in effect for a good long while at Southern, relatively few students have taken advantage of them. Perhaps this is due to the fact that SIU is a regional school and that the coal mining economy of southern Illinois and the several depressions suffered by the area have discouraged the idea of borrowing money—for anything.

Today people borrow a couple thousand dollars to finance a car and many more thousands to buy a home. Is it not wise, then, to borrow for an education that will repay the loan many times over? Loans are necessary for needy students since scholarships amount to only 10 to 15 per cent of total education costs.

One aspect of the loan program is gratifying—and that is the fact that less than one per cent of loan funds is written off as bad debt.

Scholarships and Awards

 Probably the oldest and best known method of financial assistance is by way of scholarships and awards. In the past they were more or less the reward for superior intellect. Now that theory is giving way to one of giving grants because of talent and need.

At Southern scholarships include state scholarships, SIU scholarships and SIU Foundation funds.

There are four state scholarships—1. Illinois State Scholarships (covering everything but not applying to summer quarter) 2. Teacher Education Scholarships (tuition and activity fee) 3. Illinois Military Scholarships (tuition and activity fee) 4. Illinois General Assembly Scholarships (each senator and each representative in the Illinois legislature has one scholarship for the University of Illinois and one for any one of the other five state-supported schools).

There are 350 SIU scholarship and activity awards created by the SIU Board of Trustees, granting tuition for one year. This is the only type of scholarship freshmen and transfer students can apply for.

The SIU Foundation has three funds—1. Leah M. Reef Memorial Scholarship (an unrestricted fund), 2. Thelma Louise Kellogg Scholarship in English, and 3. Francis Marion Hewitt Senior Scholarship in Art.

For scholarships a B average (4.) is required and for awards a C average (3.) is necessary. Applications for scholarships and awards for 1960–61 are due between January 1 and March 15. Cash scholarships and awards usually are designated for juniors and seniors because of limited funds. As these grants increase and grow, more students will receive more benefits.

During 1958–59 at Southern 64 funds were available, including unrestricted funds, SIU Foundation Funds, funds from private donors and firms, and the Roscoe Pulliam Memorial Alumni Scholarship Fund. There were 258 recipients for $41,000, excluding the SIU scholarships.

During 1957–58 there were 51 funds, 178 recipients getting $25,000. And during 1956–57 there were 57 funds, 127 recipients getting $17,000.

The national average award amounts to $250. At Southern the average award for 1956–57 was $136, in 1957–58, $144, and in 1958–59, $159. Gradually Southern is approaching the national average amount for scholarships.

Where do these funds come from, other than government sources? Civic organizations, service and church groups, P-TA groups, and more and more private industrial organizations are becoming interested in the scholarship and award programs. Many specify restricted grants.

Need for Assistance Funds

 Since the flash of Sputnik across the sky, the American public has reawakened to the plight of its educational system. It has viewed the shortcomings of that system in greater degree and surely with more interest.

Today the public is more demanding, more inquisitive, more aware—and more willing to participate in the upbuilding of the system. How best to participate? One way is the establishing of loans and scholarships for the talented and needy students—those who should be in college and are not. There is a great need—and a growing need—for unrestricted funds and scholarships.

There also is the need for making high school and college students aware of the financial assistance program. SIU through its Visitation Program (University officials visiting high schools and interested groups) and in its sending of the loan program information to area high schools conducts its search for the talented and the needy students. A booklet is issued by the Illinois Office of Public Instruction listing financial aids.

Students and parents interested in financial assistance for education can get full and detailed information from Ronald Green, Student Financial Assistance, SIU, Carbondale. Apply as early as possible for such assistance.
Solving The Car Problem

Students driving cars—with a few necessary exceptions—will be a thing of the past at Southern in the 1960-61 school year.

The rule of "no student cars," adopted in 1956 when freshmen were told they couldn't bring their motor vehicles to SIU, was necessitated, officials said, by a pressing national problem: no space.

A survey just taken of eight major colleges and universities revealed 51,500 cars registered among 70,122 students. Parking spaces were available for only 28,759 cars.

Consequently, some universities—such as SIU, whose enrollment jumped from some 900 during World War II to more than 11,000 this year—are solving the problem the only way they can—by eliminating the car.

It is not only a college or university problem; it also is a community problem in those towns and cities where student cars use expensive streets for off-campus parking and create traffic control difficulties.

I. Clark Davis '39, dean of men and director of Student Affairs, says the student often feels that a car "improves his social prestige. He fancies ownership places him in a distinctive upper class of a stratified campus order. And he rationalizes, claiming that the housing shortage, now quite common, makes it necessary to find living quarters remote from the campus. He overlooks the fact that buses and taxis are cheaper forms of transportation and the use of a bicycle is still less expensive (it is estimated there are more than 500 bikes on the SIU campus this year)."

Dean Davis also says the student car creates a problem on weekends when "the use of the car... takes him away from campus activities as well as from study.

"Let's face it. The car contributes nothing to sound scholarship. Gas consumption is a poor substitute for the midnight oil of the scholar. A university has more important educational responsibilities than to spin its wheels on motor vehicle problems."

In 1956 the SIU Board of Trustees decided that, beginning in 1957, freshmen would not be permitted to use autos and that each successive year the restriction would extend to the next advanced class until (in 1960-61) it applies to all students enrolled in the University, with the exception of physically handicapped, married students, those needing cars for their jobs, and daily commuters.

Today SIU, with 5,500 spaces in 22 parking lots, notices a "slight lessening" of the parking problem, according to Thomas Leffler, SIU security officer and former Illinois State Highway patrol sergeant. "I've no doubt there are some students here who don't like the idea of no student cars, but at least they understand why it's necessary. We have surveys to prove they do," Mr. Leffler said.

SIU's regulations are strict and they are enforced. Twenty-five to 30 tickets are issued daily by 13 Civil Service patrolmen. During the period from the beginning of school to December 1, 1,045 automobile violation tickets were issued—334 to faculty members and the rest to students and visitors. One member of the parking section in the Office of Student Affairs said this total ran slightly below the same time last year.

For illegal possession or use of a car the assessment is $50—second offense, suspension from school. For falsification of registration records, $25 assessment and disciplinary action. For lesser violations, $5 assessment and possible revocation of privileges.

SIU officials believe the no student car rule will become increasingly necessary throughout the nation. Commented Mr. Leffler, "Transportation has progressed... but space hasn't."

Three members of the 1914 basketball team, the first basketball team at SINU, got together when the Lettermen's Club held a reunion at Homecoming at the Elks Lodge. From left are Troy Hawkins '18-2, Mt. Vernon; Cyrus W. Etherton, ex '15, Carbondale; and Sidney Parker '16-2, Texico.
For Travel and Learning—

SIU Studies At Home and Abroad

Openings,” will be offered as a summer course for graduate credit.

The tour will be conducted by Prof. Adeline M. Hoffman, chairman of the Clothing and Textiles Department of the School of Home Economics. It will last six weeks and will provide eight quarter-hours of credit. Though chiefly for graduate students in home economics, it is possible that students in other fields may apply the credit as an elective toward an advanced degree.

The tour will include visits to eight countries, including France, Italy, England, Ireland, and Switzerland.

Cost of the trip will be $1,295 from New York and return, plus University fees.

Women’s P. E. Grants

Applications for graduate assistantships and fellowships in physical education for women are now being accepted for the 1960–61 school year.

Qualifications for assistants, who will receive $180 per month for the academic year, include an over-all undergraduate average of B and an indication of professional promise. Candidates for graduate fellowships, getting $120 per month, must have maintained a B average.

Assistants will be given half-time assignments in the department and allowed to carry an academic load of 12 quarter hours, while fellows will be required to work 10 hours a week in the department and allowed to carry a full academic load.

Interested students should apply to Prof. Dorothy R. Davies, Chairman, Women’s Physical Education, SIU. Deadline is April 15.

Biology and Math Institutes

National Science Foundation has awarded Southern grants totaling $103,000 to support two eight-week summer institutes for high school biology and mathematics teachers.

I. L. Shechmeister, associate professor of microbiology, will direct the biology institute for 45 high school teachers. A grant of $54,000 is the second of its kind approved at SIU by NSF.

Prof. W. C. McDaniel, chairman of the Mathematics Department, will direct the mathematics program, the first time it will be conducted here. Forty teachers will be accepted. A grant of $49,800 is being allowed.

The 85 high school teachers selected for these two institutes will receive $75 per week, plus $15 per week for each of the first four dependents. They can also receive a moderate travel allowance.

Selected visiting specialists from other institutions as well as SIU’s own faculties will staff the programs.

New Course of Study

A new course of study has been developed by the College of Liberal Arts and Sciences to allow students to draw from the entire range of biological sciences.

Designed principally for students planning to teach, the new program gives majors a concentrated dose of all biological sciences such as zoology, botany, physiology, and microbiology. Formerly, students wishing to concentrate in the biological sciences were limited to one or two such subjects as a study specialty.

The new curriculum has been drawn from courses already offered, allowing students to cut across departmental lines in choosing their range of studies.

Similar interdepartmental programs were approved earlier for the College of Education.

Jan., 1960
Three new faculty in the School of Applied Science are, from left, Peter Anderson, Nicholas Nigro, and R. P. Hoelscher. They are discussing engineering drawing. Mr. Hoelscher is distinguished visiting professor.

SIU's New School of Applied Science

On July 1 the Department of Industrial Education and Applied Science became the School of Applied Science. With the addition of new faculty members, more laboratory equipment, and new courses, SIU's newest school has taken on stature.

Chairman of the school is Ralph O. Gallington, who previously headed the department and has been a member of the SIU faculty since 1955. He was professor of industrial arts education at Pennsylvania State University before coming here and had attended Indiana State Teachers College, Columbia University, and George Washington University.

Foremost on the list of faculty additions last fall was R. P. Hoelscher, emeritus head of the University of Illinois General Engineering Department. He holds the rank here of distinguished visiting professor. Author of several textbooks in the field of engineering, he has held many official positions in engineering and technical organizations. He has been the leader of American, British, and Canadian conferences on the unification of drawing standards and has held office in the American Society of Civil Engineers. At SIU he is teaching courses in engineering drawing, descriptive geometry, mechanics, and other similar applied science courses.

Second newcomer is Nicholas Nigro, Virginia, Minn., who has a master's degree in civil engineering from Iowa State College, Ames. His areas of specialization are surveying, structural analysis, structural design, advanced drafting for civil engineers, strength of materials, soil mechanics, and analytical mechanics.

Third new staff member is Peter Anderson, La Crosse, Wis., who received his master's degree in mechanical engineering from Kansas State College, Manhattan, last year. He has taught at Kansas State, Purdue and University of Detroit. His specialties are thermodynamics, engineering graphics, machine drawing, descriptive geometry, and steam and gas power.

Addition of these three brings to 10 the number teaching full time in the applied science program. Nine have graduate degrees in engineering.

On the school's faculty are Herbert Crosby, Randall T. D'Bois, E. Leon Dunning, George Glenn, Mark Klopp, John Miles, and C. Merrill Moeller, and Virgil Mueller, who is a half-time assistant.

The applied science program includes a group of elective technical courses which not only provide for students interested in engineering but also for capable students in other fields where applied science knowledge is valuable.

The school recently finished installing equipment in a mechanics laboratory and now is working on a laboratory in fluid mechanics. Electric power and materials testing laboratories were activated last year. The four will complete the school's laboratory developments in basic engineering, electrical power, and mechanics.
Winter sports made their debut the first week in December and outstanding performances by the Salukis, defending Interstate Conference champions in three of four sports, turned the openings into hits.

Coach Harry Gallatin's scampering cagers were off and running with a 79-74 win over Quincy, but the tall Tigers from Tennessee A & I, defending NAIA titlists, outran the Salukis at Nashville 85-67, to give SIU a 1-1 record going into the All-America City Tournament at Owensboro, Ky., December 18-19.

Two 32-point performances by Charlie Vaughn brought Southern second place in the tourney field of Kentucky Wesleyan, Middle Tennessee and VMI. In the first game Vaughn sparked the Salukis to a come-from-behind 78-69 win over Middle Tennessee to gain the finals against Kentucky Wesleyan's big Panthers.

Vaughn again hit for 32 but the combination of Martin Holland, the tourney's MVP, and Kelly Coleman were too much as Wesleyan won 100-85. For his outstanding showing Vaughn was named to the all-tourney team and presented with the individual sportsmanship award. He was the second SIU player to win the award, following Seymour Bryson, who received the trophy two years ago.

Before tackling Youngstown in the opening round of the Quincy Holiday Tourney December 28-30, Southern swamped the visiting California Aggies from Davis, Calif., 76-37, before some 2,300 fans in Marion. The Salukis opened at home January 4 against Kentucky Wesleyan.

New Swimming Star

Coach Ralph Casey's powerful swimmers launched their defense of the IIAC crown with two wins and a loss in the opening week. The Salukis were scuttled by Indiana 57-38, but came back strong to score a thumping triumph at Loyola University Relays.

SIU swimmers won five of seven events, setting records in each to finish with 85 points, well ahead of North Central 63, Loyola 46, Western Michigan 32, Notre Dame 26, and Northwestern 26. The Salukis followed with a 57-34 win over Central Michigan.

Freshman Ray Padovan, North Miami, Fla., was top swimmer in the opener, setting four school records in his first collegiate appearances. An All-America performer for North Miami High School last year, he set records in the 50- and 100-yard freestyle events in both dual meets.

New record breaker for SIU swimmers is freshman Ray Padovan, North Miami, Fla. An All-American high school team member last year, he set records in the 50- (:23.1) and 100-yard (:51.2) freestyle events in the Salukis' first two dual meets this year.

Against Indiana he lowered the 50 to :23.2 (from :23.8) and the 100 to :52.7 (from :53.5) breaking the marks set last year by fellow Miamian Clyde Epperson. Padovan then cut these times against Central Michigan to :23.1 for the 50 and :51.2 for the 100.

Before defending their IIAC title at Western March 4-5, the Salukis tackle the Big Ten Relays, Kansas, St. Louis, Chicago, Loyola, North Central, and Illinois State.

Gymnasts Start Strong

Coach Bill Meade's IIAC champion gymnasts started their year with an impressive showing at the Midwest Opening Championships in Chicago. The Salukis, eighth at the meet last year, moved up to fourth as they qualified a man in every event.

Southern, with 45 points, finished behind Illinois 90, Michigan State 52½, and Michigan 49, but ahead of Iowa 29½, Minnesota 17, and Indiana four. All the Big Ten rivals are on the SIU dual schedule this season.

The Southern varsity also was hard-pressed by the tough Saluki freshman team. The freshmen, paced by Fred Orlofsky, North Bergen, N.J., and Bruno Klaus, New York, were fifth in the Midwest with 40 points. Orlofsky earned two championships (parallel bars and rings) and a third (all-around) for the best SIU individual performance.

The Salukis opened their dual season with an 80-32 win over Central Michigan as they swept two events and finished one-two in three others. Len Kalakian, Fresno, Calif., sophomore, and Co-Captain John Taylor, West Palm Beach, Fla., junior, led SIU with two wins each.

Coach Meade and his team spent
the holidays in Florida at the National Gymnastics at Sarasota before returning to action January 9 at Indiana.

**Wrestlers Continue Dual Wins**

Coach Jim Wilkinson’s wrestlers stretched their dual win string to 23 straight with a 25-9 victory over Central Michigan. The Salukis, who haven’t been defeated in dual competition since the last half of the ’56-57 season, captured seven out of 10 bouts for the win.

Southern also won the unofficial Illinois Invitational title as Frank Coniglio, Oak Lawn; Rich Irvin, Carbondale; Dick Frankenberger, St. Louis; and Jack Crider, St. Louis, won individual championships.

The Salukis will find tough sledding January 16 at Stillwater, Okla., when they try for their 24th straight against the rugged and ready Oklahoma State Cowboys, NCAA champions last year.

In addition to defending their IIAC crown, the Salukis will face Northwestern, Northern Illinois, and Wheaton Invitational tourney.

Guard Willie Brown, ’59 football captain, topped off an outstanding year by being named co-captain and guard on the Little All-America Academic football team. He has maintained a 4.6 average during his career at Southern in addition to earning four letters in football.

Willie, Memphis, Tenn., senior, also was named this year to NAIA District 20 (Illinois) all-star team, co-captain and guard on Peoria Journal State All-Illinois team, All-IIAC team, and he was elected most valuable by his teammates.

Tom Bruna, junior fullback from Thayer, will captain the 1960 football team. Bruna, number three rusher for the Salukis this fall, won honorable mention on the All-IIAC team and the Peoria Journal State All-Illinois team.
Located on Grand Avenue between University and Illinois Avenues is the $2,200,000 Home Economics Building, which was opened in September.

Ever since the doors of the new Home Economics Building were opened first day of classes in September, students, alumni, and friends have visited, inspected, and used this newest of Southern's structures. It has brought comments and questions, interest and pride.

The new home for SIU homemakers is a far cry from the first home of the Department of Household Arts in the Main Building. Established in 1909, the department had three rooms, a gas range, and an ice box—no electricity, no sewing machines (until a year later when five treadle machines were obtained) and one teacher, Grace Elizabeth Jones, who was to guide the department for 20 years.

Today students, faculty, and staff meet, work, and study in fluorescent-lighted rooms, well-equipped and specialized laboratories, comfortable and attractive offices. The $2,200,000 building is in three sections—an L-shaped one-story wing housing classrooms, administrative offices, a family-living center, and Department of Home Economics Education; a four-story wing devoted to specialized laboratories, classrooms, and research areas; and a lecture-demonstration hall for multiple-section classes, demonstrations, TV, and meetings.

Located on Grand Avenue between Illinois and University Avenues, the Home Ec Building is a natural stone and brick structure with many windows. Interior color scheme is brown, turquoise, and rust, with accents of orange and chartreuse.

From the corner of University and Grand one can see the L-shaped one-story wing and the four-story wing of the modern and imposing stone and brick building.
The School of Home Economics has four departments—Clothing and Textiles, Food and Nutrition, Home and Family, and Home Economics Education. The new Clothing Laboratory is large with work tables with built-in sewing machines, storage space for small equipment, and an exhibit case for displays. Food and Nutrition is delighted with its seminar room, two food preparation laboratories, and staff and student locker room. Up-to-the-minute electrical appliances make the lot of students and faculty easier and fascinating.

Home and Family is located in the four-story wing, where a Child Development area has a spacious laboratory used for two groups of preschool children. Classes watch the tots from an observation room overlooking the children's area. An infant laboratory and a play therapy room also are included. An outside play area will be completed in the spring.

(Continued on page 14)

Four new members of the Home Economics School include the first men to join its faculty—from left, John Joel Moss, Home and Family; Lois R. Schulz, director, Child Development Laboratory; Herbert Theiss, Clothing and Textiles; and Abraham Blum, Child Development.

Above left. "Fashions of Belles of Southern, 1929-1939," by Helen Evans, Clothing and Textiles, was the first display in the front exhibit window. Displays, changed monthly, now are done by Herbert Theiss, new faculty member.

At left. In the Home Economics Education All-Purpose Laboratory Student Judy Sudheimer, Carbondale, and Prof. Anna Marie Fults, chairman of the department, examine a cabinet in one of the kitchen units.

In the Food Laboratory two visiting foreign teachers, Perviz Fardunji Jassula, of Zanzibar, left, and Eu Oh Lan, of Penang, Malaya, compare their own particular recipes for curry chicken.

For six weeks eight girls in Home Management live in an apartment on top of the Home Economics Building. There they apply the theories they have learned in various courses. From left are Resident Director Hazel Crain and Students Mina Jo Plott, Dongola; Joyce Terry, Carbondale; Ellie Harland, Sesser; Betty Galeski, St. Mary's, Mo.; and Gylene Chicon, Metropolis.

In the Family Living Center located in the L-shaped wing, next to the offices of the School of Home Economics, the center, with window-doors leading out to a stone patio, is used for conferences, meetings, and social functions.
The Home Management Apartment is atop the four-story building and affords a fine view of campus and town. Eight girls and Supervisor Hazel Crain live here for six-week periods. On the large terrace a fireplace offers an opportunity to practice outdoor cookery. The combination kitchen-laundry features the latest in equipment and has built-in surface units, wall oven, wall refrigerator, dishwasher, garbage disposer, washer, dryer.

One of the outstanding features of Home Economics Education Department is the All-Purpose Laboratory. It serves all purposes in the teaching of future home ec teachers and also as a demonstration laboratory for high school teachers and administrators wishing to build or remodel their home ec facilities.

The room, with windows on three sides, has all cabinets and equipment installed below window level so that light floods every part of the working area. Included are two kitchen units, dining unit, laundry unit, bedroom unit, child development area, living room unit, sewing unit, utility or workroom unit, and an FHA area.

The Family Living Center has attracted the most attention—with ceiling-to-floor white drapes, huge window-doors which open onto a stone patio, wall-to-wall carpeting. The foyer has gaily striped aqua, yellow, and white on brown tile. The center is used for conferences, meetings, and social functions for students and faculty of the school as well as for area groups.

Dean Eileen Quigley, in her annual newsletter to school alumnae, wrote of their new home, "It is, both in concept and in actuality, the fulfillment of our dreams for a beautiful and truly functional building exemplifying Home Economics at its best. Clean and simple lines prevail in both the exterior and the interior, with gay but harmonious colors, beautiful woods, and expanses of glass contributing to the modern feeling. Furnishings are handsome but not ornate, and livable rather than elegant. Laboratories are bright with many windows, and are spacious and well equipped, and wonderful to relate, each department will be provided with laboratory, research and classroom areas!"

She continues, "...the building is not an end in itself. While it is gratifying to have pleasant, spacious, attractive quarters in which to study and work, unless we utilize the improved facilities to do a better job—to offer a higher quality training for our undergraduate, to expand our graduate program, to intensify our research activities, and to broaden our service to the home economists and to other kindred groups in southern Illinois—we shall have failed in our responsibilities."

Last fall the school's faculty launched a curriculum revision program. Rena Hodgen, for 22 years chief of Home Economics Education for the Illinois Board of Vocational Education, was the first of a number of distinguished professors to be called upon as consultants.

Research has received a fresh impetus with the improved and adequate facilities. Nine research projects are being carried on by the faculty. Four new faculty members have joined the school, three in the Department of Family and Home (and for the first time men are on the home ec faculty)—John Joel Moss, research professor who teaches a graduate seminar; Abraham Blum, associate professor in child development laboratory; Lois R. Schulz, professor and director of child development laboratory; and Herbert Frederick Theiss, professional interior decorator, teaching in the Department of Clothing and Textiles.

Twenty-eight graduate students are working toward advanced degrees, four of them holding research assistantships and three graduate assistantships.

Dean Eileen E. Quigley, of the School of Home Economics (at left), with three of her four department chairmen. From left, Professors Marion Agnes Wharton, Food and Nutrition; Betty Johnston, Home and Family; and Adeline M. Hoffman, Clothing and Textiles. Missing is Prof. Anna Carol Fults, of Home Economics Education. The picture was taken at the school's Christmas party.
1898

Mrs. James W. Barrow (Lucy Patten, 2), Carbondale, last spring concluded nine years of service on the SIU Foundation board of directors. At that time she was honored with a special merit award. She was one of three women on the board. Mrs. Barrow and her husband, Dr. James W. Barrow, 2, are among the most active and loyal alumni of Southern and members of the University community.

In 1958 Dr. Barrow was one of the four men to receive Alumni Achievement Awards for service to the University Association and the University. One of the few surviving members of the first Alumni Association and the University. One of the few

1909

J. Marshall Peer, 2, 8320 West 126th Street, Palos Park, retired several years ago after 44 years of teaching. He had been a science teacher at Hyde Park High School in Chicago.

Mrs. C. F. Anderson (Ruth McCreery), Mt. Vernon, who has been keeper of the 1909 class flag for half a century, comes from a fine SIU family. She is the daughter of the late Mr. and Mrs. Morton G. McCreery, ex '85 (Carrie L. Loomis '86), Thompsonville. Her aunt was Ida M. McCreery '79, who died soon after graduation. Her sisters include Mrs. Sadie M. Stull, ex, Fresno, Calif.; Mrs. Florence Plasters '12-2, Thompsonville; and Mrs. H. B. Pascoe (Eloise McCreery, ex '15), Long Beach, Calif. Another sister, Mrs. E. E. Roberts, (Anna Mary McCreery), Thompsonville, is a graduate of the University High School. Mrs. Anderson's husband is Clarence F. Anderson '08.

1916

Mr. and Mrs. Jesse H. Feller, 2 (Ozella Rogers, ex '09) live at 4317 East Fourth Street in Long Beach, Calif. Some time ago Mr. Feller wrote, "I marvel at the growth of SIU, especially in the last decade or so. Is it possible that America is at last waking up to the fact that an education is almost a must even to hold an ordinary job? It was my privilege to attend SIU back in the teenage years—1913-14-15-16. My family consists of a wife, two sons, two grandsons, and two granddaughters." E. D. Griffin, ex, is vice president of Allied Mills, Inc., with offices at 110 North Wacker Drive in Chicago. He lives in Wilmette and has a family which includes six sons and one daughter.

1918

Many honors have come to Mrs. R. E. Luebbers (Lita E. Hindman, 2), of Albion, Mich. Most recent were her appointments to the chairmanship of the Albion Senior Citizens Committee by the mayor of Albion and to the advisory committee of the Michigan Commission on Problems of the Aging by the governor of Michigan. She also has been designated as Albion's representative at the White House Conference on Aging in Washington, D. C., in 1961. Mrs. Luebbers is a nationally known home economics authority, the author of many articles in her field, and a busy club woman. She has traveled throughout the U.S. and in Alaska and is a popular speaker.

1919

Mrs. E. D. Wallace (Margaret Mary Hempler), Louisville, Ky., attended the 40th Reunion of her class last spring, the first time she had returned to the campus since her graduation. The night she got home from her visit she wrote these lines: I stood again, after forty years In the self-same spot today; Changes there were, but I only saw That my youth had passed away. Melancholia and nostalgia Overcame me for a while, Then pride took over, and joy crept in To replace my tears with smiles. Proud new structures stood all about, Imposing but somewhat cold; I admired them briefly, then unconsciously Turned slowly to the old.

There I sought places, and remembered faces, Heard voices, long since stilled; I was walking back through time again With youth still unfulfilled.

Mrs. Wallace continued, "I could hear Mr. Shryock when he spoke of Robert Burns, that 'untutored genius,' as he referred to him. Mr. Wham with his dignified manner, addressing his students in the rare art of human understanding. Mr. Boomer with his kind constructive criticism of anything not quite up to his standard. Mr. Black with his passion for good

1922

John I. Wright, 2, SIU associate professor of history, stepped down last spring as mayor of the city of Carbondale after 12 years in that post. He entered city politics in 1943 when he was elected to the city council and became finance commissioner. He set up Carbondale's first budget. In 1947 he was elected mayor and
has been the only mayor to be elected to three consecutive terms. Professor Wright is known as an avid hunter, fisherman, and a colorful raconteur.

1924

In Evansville, Ind., George L. Hall, ex, industrial engineer, is chief engineer for Burch Plow Works. His wife is Goldie Mae Hall, ex '22.

Alice Grant, 2, English instructor at West Frankfort Community High School, is president of the Southern Division of the Illinois Education Association. A national education assistant and travel consultant, she has traveled in 47 of the 50 United States, Canada, Mexico, and the West Indies.

Graduation address at the seventh annual school for junior bank executives held by the Illinois Bankers Association at SIU last fall was made by Melvin C. Lockard, ex. Mr. Lockard, secretary of the SIU Board of Trustees, is president of the National Bank of Mattoon, former president of the First National Bank of Cobden, and past president of the IBA.

1925

Since 1928 Mrs. George P. Bunting (Edith Mears '23-2) has been a teacher in the Chicago Public Schools. She now is a science instructor at Kelvyn Park High School.

Mrs. A. S. Terpinitz (Lucille Leird, 2), Los Angeles, is a housewife and mother of a son and daughter, Patricia and Don. Pearl White Sistler, 2, also is a housewife, married to Robert Sistler '26-2, '27, Berwyn.

1926

James B. White, 2, Aledo, has joined the staff of State Superintendent of Schools George T. Wilkins '29-2, '37, as a northern district supervisor. He formerly was superintendent of Unit School District 201, Aledo. His wife is Gladys J. White '29-2.

A reception was held in honor of Joe Hickey '25-2 on the occasion of his 25th anniversary as principal of the Glen Ellyn Junior High School. Four generations of Hickes were present, including his mother, Mrs. J. W. Hickey, Ava, his daughter and granddaughter. Mrs. Joe Hickey is the former Blanche Herman '24-2, '28.

Kenneth W. Richey, 2, Johnston City, is assistant personnel director for Sangamo Electric Company, Orwell. He is married to Eula Avery, ex '33, and they have three children—Jane, James, and John.

1929

Maynard U. Vick, ex, is a chaplain at Fitzsimons Army Hospital in Denver, Colo. He is married and has two children.

Carbondale District 95 Superintendent Clyde V. Winkler has been named to a statewide commission to study changes in the system of accounting and bookkeeping for Illinois schools. He is one of two school superintendents and the only southern Illinois representative in the group.

Principal of Bismarck High School is Andrew Jackson, 2. He is married and has four daughters and a son.

Mary Elizabeth Jordan is librarian of the West Branch Library in Evansville, Ind.

A member of the editorial staff of the new publication of the Illinois Council for Mentally Retarded Children is Virginia Marmaduke, ex, Chicago radio and TV personality. She appears on NBC's "Coffee with the Duchess" program. For 16 years Miss Marmaduke was on the staff of the Chicago Sun-Times.

Fern Henry '27-2 teaches English, physics, and Latin at Summer High School.

1930

Mrs. Dwight F. Parkinson (Esther Merkelbach, 2) teaches social studies at Mayo Junior High School in Paris. She has a son, John.

In Urbana Mrs. Orville D. Keen (Elvera Wise) is chief clerk in the agronomy department of the University of Illinois' College of Agriculture. She resides in Champaign.

Dr. and Mrs. Robert L. Hudgens, ex (Mary W. Bainbridge, ex '37) live in Marion where he has a dental practice and she is a housewife and mother of two daughters, Sherry and Pamela.

1931

On October 1 Mildred Whiteside Pfahl, '29-2 became director of social service with the Institute of Physical Medicine and Rehabilitation in Peoria.

Harold F. Menke, 2, is principal of McClellan Elementary School, Mt. Vernon. He is married and has two children, Mary Jane and John.

1932

When Oliver Heck was transferred to Arizona last year to set up an experimental laboratory for McCulloch Motors, his wife (Marie Gummersheimer, 2) closed their home in Inglewood, Calif., and they took up living in a trailer in the Arizona desert. Their son Don entered college last fall.

New member of the faculty of McKendree College, Lebanon, is Mary Evelyn Donham, 2, who is teaching business and serving as a counselor in a girls' dormitory. Since 1945 she had been teaching business education at the community high school in Normal. In 1953-54 she studied in Alaska under a Ford Foundation fellowship. Last summer she was a dormitory hostess for four student tour groups visiting the University of Alaska at Fairbanks.

Dethert A. Waller, 2, '48, M.S. '50, El dorado, is principal of Cave-in-Rock Community High School.

1933

Everett L. Edmondson, ex, is chairman of the Division of Education and director of the Evening Division at Little Rock University in Arkansas.

1934

Mead Johnson and Company Research Laboratories, Evansville, Ind., has appointed Richard T. Arnold to the newly created position of director of research. He will be responsible for the creating and execution of the company's chemical, biochemical, and biological research programs, encompassing both the nutritional and pharmaceutical fields. Mr. Arnold since 1955 has been administrator of the basic science program for the Alfred P. Sloan Foundation in New York. Before that he was with the University of Minnesota 18 years, becoming professor and head of the Chemistry Department. He studied in Switzerland and at the University of California in 1948-49 on a Guggenheim Fellowship and during 1952-53 served as science attaché in the U.S. Embassy in Bonn, Germany. In 1949 Mr. Arnold received the American Chemical Society's award in pure chemistry. For many years
he was on the editorial board of the publication, Organic Syntheses, and in 1952 was editor-in-chief. A native of Indiana, he is married, and has two children.

Another alumnus in the Hoosier State is R. Lovell Hicks, science instructor at Broad Ripple High School in Indianapolis. He lives in Franklin, Ind., with his wife Mabel and two daughters, Sharon and Linda.

William M. Pearce, ex, Litchfield, is an assistant manager for Metropolitan Life Insurance Company.

In Van Nuys, Calif., Mrs. Andrew J. Williamson (Josephine M. Krill, 2) is engaged in child care in a day nursery.

Ralph B. Thompson, Hinsdale, is a chemist for University Oil Products Company. He and Margaret Edmonds Thompson, ex '35, have two sons, Clifford and Randolph.

1935
When Lt. Col. Emmett E. Cockrum '31-2 left the SIU campus last fall after serving as director of education and then immediately before his departure as commander of the AF ROTC unit at Southern, he went to Denver, Colo., to become base group executive officer at Lowry AFB. He had been at SIU since 1956. His wife is Virginia F. Council, ex '36 and they have four children, including Lt. Carol C. Walker '58, first Women's AF ROTC graduate at the University.

Victor R. Randolph is a professor of elementary education at Southern. His wife is Doris Howard '34 and they have two children.

1936
New chief of the Education Services Section, Personnel Services Division at U.S. Air Force headquarters in Washington, D.C., is James Troy Robison. He transferred to that department from the office of the Assistant Chief of Staff for Intelligence, USAF, where he had been serving as an intelligence research specialist since 1951. Of his new post Mr. Robison writes, “My office has the administrative responsibility for the Education Services Program of the AF on a worldwide basis. We, here, work directly through the 17 major commands. As of 30 June we had over 400 education centers, 215 civilian (high level) education specialists, and several hundred military personnel and civilian clerk-typists. This is exclusive of the dependent schools and libraries program.” Mr. Robison taught school in Illinois 12 years before service in the Coast Guard during World War II. He also has taught at Millsaps College and Memphis State University. He is married, has three children, and lives in Cheverly, Md.

After 16 years, on the faculty of Mt. Vernon Township High School, Alberta Hamilton joined the Belleville Township High School and Junior College last fall as chairman of the Girls' Physical Education Department.

1937
Last month at a nation-wide Training Union Convention in Atlanta, Ga., Philip B. Harris '32-2 was introduced as new secretary of the Training Union Department, Baptist Sunday School Board, Nashville, Tenn. Mr. Harris, teacher and athletic coach in Marion public schools from 1933 to 1938, served as secretary of the Sunday School and Training Union Department of the Illinois Baptist State Convention from 1939 to 1943 and as superintendent of Young People's Sunday School Work of the Baptist Sunday School Board from 1943 to 1949. In 1954 he traveled in Central and South America and in 1957 visited Europe in the interest of religious education.

Carl Buckner is superintendent of schools at McHenry in northern Illinois. His wife is the former Ruth Motzing '34-2 and they have a daughter, Nancy Ann.

In Athens, Tenn., Roger L. Ohms, ex, is a sub-distributor for Kirby Company of Knoxville, Tenn. He is married and has four children.

1938
WANTED: One 1938 Obelisk. Anyone having one he wishes to dispose of, please write the SIU Alumni Office, Carbondale.

Mrs. Elizabeth Meehan, fourth grade teacher at University School at SIU, has been honored by Pope John XXIII for outstanding services to the Catholic Church. She received the Pontifical Medal “Pro Ecclesia et Pontifice” and was one of six members of the Belleville diocese to be honored during the visit to Rome of the Most Rev. Albert R. Zunoweste, Bishop of Belleville. Mrs. Meehan has been adult adviser of the SIU Newman Club since it was started more than 20 years ago. She has conducted classes in religion for the children of St. Francis Xavier Parish in Carbondale and serves as organist and choir director for the church. A son, William '51, is a lawyer in Cairo and a daughter, Mrs. Mary Wilson '57, teaches at Brush School.

Robyn M. James is in operations research with the Armour Pharmaceutical Company at Kankakee. He is married and has three children.

Principal of J. Sterling Morton High School (East) and Junior College is Evan Hugh Kelley, Berwyn. He and his wife (Ruth Ann Gunn, ex '36) have five children.

W. R. Lowry, ex, Effingham, is assistant superintendent of schools of Effingham County.

1939
Mrs. Charles Jungers (Irene Lind) writes that she is teaching English and typing at Webster Groves, Mo., High School. Her husband, ex '31, is warehouse superintendent for General Grocer, a wholesale food company which uses “Topmost” as a brand name. The Jungers have two children, Steve and Pat.

In Tulsa, Okla., Richard C. Eaton, ex, is lead communications operator for American Airlines.

Río Grande Road, Brazil, Ind., is the address of Mr. and Mrs. Leo U. Brannan (Rita Stephens, ex). “We have a country home on 80 acres and are "weekend" farmers. The boys have saddle horses and we enjoy riding, hunting, and life in the wide open spaces in general.” Mr. Brannan works for the Treasury Department in the audit division of the Internal Revenue Service at Terre Haute. The “boys” are three sons—Jim, student at Indiana State Teachers College; Bob, who graduated from high school last spring and was drum major of the high school band; and Dan, who started school last fall.

1940
At commencement last summer at Middle Tennessee State College, Murfreesboro, Tenn., Mrs. Paul Ogles (Martha Stallings) received a master of arts degree with a major in education. Her home is in McMinnville, Tenn.

Cecil R. Hollis, ex, is chief and management planner with the Hughes Aircraft Corporation, Fullerton, Calif. He formerly was vice president of Hollis and Eckerle Corporation in Long Beach, Calif, production manager of Harrington-King Perforating Company, Dundee, and an industrial engineer in Chicago. He and Virginia Taggart Hollis, ex, have two children.

Russell Rendleman, Jonesboro, who retired last spring after 23 years as Union County school superintendent, has joined the staff of Illinois Superintendent of Pub-
lic Instruction George T. Wilkins '29-2, '37, as a northern district supervisor.

Myrtle Frueh is an English teacher in the Collinsville High School. Her home is in Greenville.

1941

One of the 25 teachers honored at a Teachers' Day luncheon at the Michigan State Fair last fall as the outstanding teachers in Michigan was Cornelius Brewer, M.S. '51, member of the faculty at Fellrath Junior High School in Inkster. He was recognized for his work with the Inkster Federation of Teachers and the Michigan Federation as well as for his many hours devoted to the Boy Scouts. After teaching 10 years in Illinois, most of that time in Harrisburg, Mr. Brewer went to Michigan. He teaches seventh grade mathematics and science at Fellrath. In 1947 he was named "The Best Teacher in the United States" by the Quiz at Pinckneyville High School. A new, modern school, the division into junior and senior high schools, Regents exams and centralization are some of the major differences. His husband has done very nearly all of the work on a new split-level home for our family. In comparison my help is much too minor to mention. But I did find myself on the roof one afternoon helping place shingles while he hammered away. I hadn't figured on going to this height to help."

1943

In Quincy Troy L. Mallory, ex, is on the staff of Gray, Hunter, Stenn and Company, CPA firm.

Mrs. Maurice Dry (Helen Jeannette Pyatt, M.S. '58) is a commercial teacher at Pinckneyville High School.

Anthony Gallo is a Ford dealer in Chicago. He is married, has two children, and is a graduate of the John Marshall Law School in Chicago.

1944

For 22 years Bettye Mae Jack has devoted her life to building up the rural schools in Mississippi. She has helped consolidate 41 schools into three senior high school and five grammar schools, has 60 teachers under her jurisdiction, and reaches 2,200 students. A graduate of the famous Piney Woods School in Mississippi, she received her master's degree from the University of Chicago. She is with the Scott County Schools in Mississippi.

Mrs. John Corrigan (Marilyn Thomas) is a homemaker teacher at the Chula Vista, Calif., High School.

1946

After a year in the northern part of the state, Clarence (Babe) Pierce, M.S. '55, has returned to southern Illinois as city superintendent of grade schools in Christopher. Mr. Pierce had been a resident of Christopher for 40 years while he taught in grade school over 10 years, served as principal of Washington School two and a half years, before joining the faculty of the high school in 1944 to be athletic director, track coach, assistant basketball coach, and as basketball and football coach at various times. He left there in 1956 to become superintendent of the Mounds school system.

Troy C. Dorris, M.S. '47, is assistant professor in the Department of Zoology at Oklahoma State University in Stillwater. His wife is Marie Bell '42.

At the Manteno State Hospital Jerry E. Pharis, ex, is assistant institutional fire chief. He and Martha Jane Casper Pharis, ex '50, have a son, Jeffrey Lynn.

In Springfield William H. South, ex, is an assistant in the office of the Attorney General of Illinois. He received his law degree from the Lincoln College of Law, Springfield. Mrs. South is the former Margaret McIntire, ex '44, and they have two sons, Stephen Alan and Richard William, and a daughter, Sharon Rae, born July 10, 1958.

Mrs. S. H. Frazier (Gloria Barger) lives in Tenafly, N. J. She has four children—Elise, Alan, Rosalie, and Stephen.

1947

A teaching career of 49 years came to a close last spring for Mrs. Josie Rowlett, ex, principal of Garrison School in Cairo since 1939. She began in the Bruce Elementary School as a teacher, became its principal and later principal of Dunbar School. She introduced many innovations and was known as an able administrator. Civic and religious activities also have been important in the busy life of this fine educator.

"Starting our thirteenth school year in Rantoul, Linda, an active Girl Scout and swimmer, is a seventh grader; Roger, a fisherman, a third grader; Angela, 16 months old."—Mr. and Mrs. Gerald L. Obrecht (Bernice Fritz '46). Mr. Obrecht is principal of Eastern Junior High School in Rantoul.

Francis R. Paule, M.S. '48, is regional child welfare supervisor in the East St. Louis office of the Illinois Department of Public Welfare. He lives in Belleville with his wife (Rebecca J. Williams, ex) and their four children—Eric, Deborah, David, and Michael.

Van Howard Dillow, ex, Dongola, is a trooper with the Illinois State Police Department.

Martha McLanahan, M.S. '53, has joined the Decatur school system and is teaching the first grade at Enterprise School. She had been with the Marion schools since graduation.

In Chicago Walter W. Whitlock is a sales engineer with Texaco, Inc. He lives in Harvey, is married to the former Lois Williams, ex '41, and has three children. (Continued on page 19)
Teaching to Preach at Kentucky School

President D. M. Aldridge '41 of the Clear Creek Baptist School, Pineville, Ky., stands in front of the new Student Industries Building, which is shown in its entirety below.

In the southeastern corner of Kentucky, high in the soft-coal region of the Appalachians, is located a unique institution—the Clear Creek Baptist School—near Pineville. President is the Rev. Dennis Merrill Aldridge '41, native of Illinois and a former civil engineering student.

Early in November alumni and friends of the school gathered to help dedicate a new school building to replace one which had burned three years ago. The event helped to bring attention to Clear Creek Baptist School, which has been supplying the remote southern countryside with preachers since its founding in 1926. A story appeared in the November 9 Newsweek magazine.

"Louisville (Southern Baptist Theological) Seminary turns out ministers for the big churches in the big towns of America, but we produce them for the little churches that few Baptists ever see," Mr. Aldridge said of the school which he has headed since 1954. It was started as a small summer school for mountain preachers.

The founder sought to set up a student industry that would use local materials (oak trees primarily) and benefit students as well as churches. But it wasn't until 1949 that the factory was established to manufacture church furniture. Half of the 125 students earn their tuition and keep during their three-year Bible course. Half of the school's budget of $100,000 is subsidized by the General Association of Baptists in Kentucky and half is supposed to come from the factory earnings. Students get a dollar an hour and put in about four hours a day at the factory, working either the morning or afternoon shift.

Classes are devoted to the New Testament, church history, religious education, and English. Evenings are spent in study. Sunday finds most of the students preaching in churches and chapels in the hills, some as far as a hundred miles away. Fifty cottages on the campus are available for families.

Most of the graduates serve churches in the hills of Kentucky, Tennessee, Virginia, and South Carolina. The rest are scattered in 27 other states.

Mr. Aldridge, a graduate of the Louisville Seminary, served as president of Magoffin Baptist Institute in Mountain Valley, Ky., four years before his appointment as president of the Clear Creek School. He also has been a missionary and pastor at Harrisburg and at Tracy City, Tenn.

He and his wife Kathleen have three sons—Billy and nine-year-old twins, John and David.

1948

New office manager at Quincy for Universal CIT Credit Corporation is Robert R. Curtis. He joined the firm in 1955 in Cairo as an adjuster and in 1956 was transferred as collection manager to the Decatur branch.

After 11 years as director of the Illinois Division of Vocational Rehabilitation office in Carbondale, Louis Vieceli has joined the SIU faculty as lecturer and acting coordinator of the placement counselor training program for the blind in the University's Rehabilitation Institute. His wife is Jewell Marie Deniston, ex '47, and they have one child.

Alva Hardin, ex, is teaching the eighth grade in the Tulare, Calif., schools.

In Evansville, Ind., Charles Mathieu, M.S. '52, is a physics instructor at Bosse High School.

Last fall Neal J. Schmelzel left Alton
Senior High School, where he had been on the faculty several years, to become counselor at Willowbrook High School in Villa Park. He now lives at 294 East Crescent, Elmhurst. Mr. Schmelzel has a master's degree from Washington University in St. Louis.

William Benninger resigned as superintendent of the Kemmerer Home for Children. Assumption, a post he had held since June of 1957, to enter Louisville Presbyterian Theological Seminary, a graduate school preparing men for the gospel ministry in Louisville, Ky. In addition to his seminary work Mr. Benninger will fill the pulpit of the Kingston Presbyterian Church near Greensburg, Ind. His wife and three sons will live in Greensburg. Mr. Benninger had taught in Pana High School eight years and had worked for P. R. Mallory Company, Inc., Pana, for one year before going to the children's home.

1949

Thomas William Floyd, M.A. '50, assistant professor at Illinois State Normal University, is on leave of absence to complete his course work for a doctorate degree at the University of Illinois. His wife (Margaret E. Powell '45) is a school social worker for the Bloomington Public Schools. They have two daughters, Edith Ann and Ruth.

The year of 1959 will remain a memorable one for Guy C. More, of Greensburg, Kan. He went around the world as Kiowa County's Ambassador of Good Will on a tour with Private Enterprise, Inc., of Wichita, Kan. Kiowa County raised $2,000 for the trip as well as living expenses for the More family while Mr. More was gone. He has been on the faculty of Greensburg High School nine years and teaches English, constitution and history. He was selected from 10 candidates to make the trip and accompanied three business men from Minnesota on the good will mission.

After teaching home economics since 1949, Mrs. Elmer Maurer (B. Leone McClennen) writes that she is spending her first year being just a homemaker. She has a year-old son Michael Scott.

Dr. Dallas L. York is with the Creston Medical Clinic in Creston, la. He is married and has two children.

James C. Martin, M.S. '52, mathematics instructor at Elgin High School and Elgin Community College, is one of 50 teachers awarded National Science Foundation stipends for a year of advanced study at the University of Illinois starting last fall. Farm adviser for Edgar County is Donald Lee Doerr, Paris.

Mrs. Robert Browning (Lucille Gunn) lives at 52 East Imboden Drive, Decatur.

1950

New superintendent of the Abilene, Tex., State School is Charles C. Cleland, M.S. '51, formerly of Murphysboro. The school is one of five schools for mentally retarded in Texas. It is one of the diagnostic and receiving centers, with a population of 1,700 patients. Mr. Cleland has been assistant director of the Brown Schools for Exceptional Children, chief psychologist for the Austin State School in Austin, Tex., supervising psychologist at Lincoln State School, for the last two years director of education and psychology at the Austin State School. He has been a lecturer in personnel and industrial management at Illinois Wesleyan University and an adviser in graduate studies at McKmurray College. He is the author of several publications in the field of mental retardation and general management. Mrs. Cleland is Betty W. Johns, ex '51.

David E. Elder, M.A. '51, Canton, has been named a research assistant with the Illinois Education Association.

Mr. and Mrs. Frank Brusher (Grace Wegner '46) live in Belleville. He is a revenue officer with the Internal Revenue Department in East St. Louis and she is the French and Spanish teacher at Mascoutah Community High School.

Mrs. Lillie Richardson Bierbaum, ex, teaches the third and fourth grades in the Tamms elementary schools.

Commerce teacher at Dupo High School is Mrs. Helen Craine Tweedy. Her husband is Hewey E. Tweedy '45.

George Carmack, new president of the SIU St. Clair County Alumni Club, is manager of the research department of the Hussmann Refrigerator Company in St. Louis. He lives in East Carondelet, on the Illinois side of the Mississippi.

Donald C. Lence, ex, Glen Ellyn, is a salesman for the Virco Manufacturing Corporation of Los Angeles.

Principal of the Knoxville Junior and Senior High School is Dean W. Kessler.

1951

Edward T. Harn, M.S. '56, music supervisor at Bloomington High School, was one of 14 northern Illinois teachers who took a music study tour of European countries last summer. The group studied music and teaching methods of European countries, as compared to American classroom methods, in France, Germany, Switzerland and even went behind the Iron Curtain to Moscow. Mr. Harn was director of music at Murphysboro from 1947 until he went to Bloomington in 1954. His wife is Frances E. Harn '55 and they have two children.

After four and a half years as minister of the First Baptist Church of Dongola, the Rev. Harry Steele resigned to become pastor of the Chase Street Baptist Church in Gary, Ind. He has four children, the oldest being Donald, sophomore at SIU.

Director of Wesley Foundation at Kansas State Teachers College, Emporia, Kan., is Julia Jean Tucker, M.S. '54.

Capt. Thomas A. Dubois, ex, SIU AF ROTC instructor from 1952 to 1954 and now a pilot at Pease AFB in New Hampshire, was credited along with his crew for the "miracle" of returning a $1,900,000 six-engine B-47 jet bomber to home base after one of the engines exploded over eastern Labrador. A ruptured fuel line had caused an explosion in the bomb bay area which hurled metal into the plane's wing. Captain Dubois has been in service since 1942. He is married and has three children.

From Mrs. Robert N. Bellinger (Patty Lou Hooppaw), Los Angeles—"No news—no time for any with being a homemaker, keeping up with church work, trying to turn a two-year-old into a lady, and answering a four-year-old son's questions about dinosaurs and anatomy (bones and muscles)."

1952

Superintendent of Schools at Bunker Hill is Carl V. Summers, M.S. '56. He is married and has two children.

At the annual meeting of the Illinois News Broadcasters Association held in Springfield last fall, William E. Spangler, Herrin, was elected vice president of the group. He has served as a board member. Mr. Spangler is with West Frankfort radio station WFRX. His wife is the former Melba Brown '50, M.S. '53.

Mrs. Kathryn Munkin Frederenger, Ridge Farm, is an English teacher and librarian at Chrisman High School.

Paul W. Dempsey, Effingham, is a representative of Investors Diversified Services, Inc. He and Doris Ivy Dempsey have two children, Steven and Deborah.

Mary Boston Walker, wife of James E. Walker, Carbondale, is an administrative assistant for the American Board of Examiners in Professional Psychology on the SIU campus.
In the Twin Cities of Minneapolis-St. Paul, Minn., the Rev. Warren Littleford is a Baptist pastor and city missionary. He is married to Anda B. Littleford '51 and they have two children.

1953

Mrs. Maude Rich Jones, 2, native of Cobden, died in Chula Vista, Calif., September 12. She had been a teacher in Carbondale, Anna, and Harrisburg schools.

1916

Mrs. Francis McAfferty (Julia Anna Stearns, 2) died August 22 in Portland, Ore., at the age of 66. She was born in Pomona and had been a teacher at Brush School in Carbondale and with the accounting office of the Illinois Central Railroad before moving to the west coast three years ago to make her home.

1925

Harry E. Putney '24-2, former White County superintendent of schools, died August 10 in Carmi. He had received a master's degree from New York University in 1951. His 800-volume library, including books on a large variety of subjects, has been presented to the SIU Library.

1929

Paul C. Doris, ex, business consultant in Arlington, Va., since he moved there six months before his death, died July 1 in Arlington, at the age of 51. Born in Carterville, he had been active in southern Illinois promotional work and politics. He was a member of the board of directors of Southern Illinois, Inc., during 1952-58, and in 1955 was appointed by Governor Stratton to a 15-man advisory board to the Illinois Division of Industrial Planning and Development. During World War II and the Korean War he served in the Navy. He is survived by his wife (Geraldine Ross '31-2) and a sister, Mrs. Wynema Yewell, ex '49.

1930

John W. Collins '25-2, who was to have become principal of Goreville High School last fall, died in Thompsonville September 11 at the age of 61. Born in Kearsburg, he had taught school in Franklin County during the 1920s, served as principal of Tamaroa High School and of Buda Township High School, and for 11 years was superintendent of schools at New Baden. He also had taught at Maxton, N. C., Presbyterian College.

1954

Joseph A. Barbush, former teacher at Collinsville, St. Elmo, and Bunker Hill, died in St. Louis September 26 as a result of head injuries incurred during Army service in World War II. Native of Benld, he had worked for the Chicago and North Western Railroad before he entered military service in 1942. He served in Europe, where he was injured, and was released with the rank of captain in 1947. He was 40 at the time of his death.

1959

Ronald A. Bishop, Carmi, formerly of Bridgeport, was killed in an automobile accident October 8 near Carmi. He was 25 and a logging engineer with the McCullough Tool Company of Carmi. A geology major, he was on the '52 football squad.

January, 1960
With the start of a new year SIU’s FM radio station changed its call letters to WSIU. It has been known as WSRV-FM since it was activated in September 1958. The Federal Communications Commission also has given the University permission to call its proposed educational television station WSIU-TV. The 22,000-watt radio station has a student staff of 34 and is an activity of the Division of Area Services, serving as an area radio station as well as a university training center. . . .

January 1 also was the distribution date for the first issue of the new quarterly magazine, “Grassroots Editor,” official organ of the International Conference of Weekly Newspaper Editors which meets each summer at SIU. The magazine, edited by Howard R. Long, chairman of Southern’s Department of Journalism, and published on the campus, is directed at the men and women who have editorial responsibility for weekly newspapers in this country and abroad. . . .

The housing shortage at SIU prompted a Carbondale poultryman to convert his hatchery into a dormitory—remodeling, re-equipping, and renaming it the Suburban Dormitory. It is located south of the city limits and houses 25 men.

Teaching and Studying Abroad

Two members and a former member of the SIU faculty are teaching or studying abroad during the 1959-60 school year. Prof. Robert D. Faner of the English Department is teaching in France under a Fulbright lectureship, the first semester at the University of Aix-Marseille and the second at the University of Grenoble. He is teaching American literature. Charles H. Lange, associate professor of anthropology, will begin a nine-month study in March on anthropological research in West Germany under a NATO fellowship. Moishe Smith, Art Department instructor, resigned to study in Italy under a Fulbright fellowship. . . .

The 300 members of Local 1374 of the Textile Workers Union of America, the AFL-CIO union representing Allen Industries of Herrin, have set up a $1,000 scholarship for one year for a son or daughter of a member. The award, to be made for the 1960-61 school year, is the first of its kind received by the SIU Foundation. It is hoped that the scholarship can become a permanent one. The SIU Scholarship Committee will screen all petitions from candidates. . . .

Hundreds of people were turned away when the Obernkirchen Choir from Germany appeared on the campus for a Community Concert. The world-famous children singers easily won the audience with their talent and their charm.

Second SIU Research Professor

Richard W. Poston, director of SIU’s Community Development Department since it was organized in 1953, has been named a research professor in order to devote full time to research and consultation work. He is the second research professor at Southern, R. Buckminster Fuller, international designer-engineer-architect, having been named SIU’s first research professor shortly before that. Mr. Poston is author of “Small Town Renaissance” and “Democracy Is You.” He has been succeeded by Robert E. Knittel, his assistant director for two years, as director of the department.

Queen for a Ball

Next month the AF ROTC will vote for their 1960 queen to be crowned at the Military Ball February 6. Five finalists in the contest are Bonnie Meirink, Belle- ville; Barry Jo Wood, Granite City; Phyllis McGill, Mt. Vernon; Connie McGinnis, Pittsfield; and Rochelle Ger- lach, Sparta. The Bobby Christian Orchestra will play for the dance at the Carbondale Armory. . . .

David Hammler, New Athens, received the Borden Freshman Prize for maintaining the highest scholastic grade point average throughout his first year. A math major, he had a 4.981 average. . . Charles Nagreski, sophomore from Macedonia, has been elected president of the newly organized Agriculture Council which will co-ordinate student activities in that school.

This ad appeared recently in the Egyptian, student newspaper—“After an intensive, exhaustive, and exasperating search for two compatible, quick-witted, sparkling, and alluring young ladies, two clever and discerning young men are placing this advertisement as a desperate culmination of their search. If you meet the desired qualifications and are also dissatisfied with your present acquaintances of the opposite sex, please call Ext. 5-2347 for a personal interview.”
