Southern Sketches

Parents, visitors, and friends of SIU are invited to tour the Carbondale campus any weekend during the spring and summer. Members of the Saluki Patrol, students who assist the campus police force, conduct the tours through classroom buildings, Morris Library, the SIU Museum, residence halls, around the Lake-on-the-Campus, and other areas. No appointment is necessary. The tour originates at the visitor's parking lot next to the President's Office at 10 A.M. and 2 P.M. on Saturdays and at 2 P.M. on Sundays May 7 through June 25, and at 10 A.M. on Saturdays and at 2 P.M. on Sundays July 1 through August 27.

To Teach in Summer School in Norway

Peter A. Munch, SIU professor of sociology and member of the faculty since 1957, has been invited to return to his native Norway to teach in the University of Oslo's famed International Summer School. He will leave New York June 21 with a group of American students, beginning work immediately with an orientation program aboard ship. At the university he will serve as professor of sociology and consultant for the entire social studies program. He also plans to do extensive research in the symbolic significance of the Norwegian language. Professor Munch holds three degrees from the University of Oslo . . .

During the spring term a husband-wife team are visiting professors in the SIU department and institute of community development. They are Curtis and Dorothy Mial, New York, experts in the field of community development and leadership. Mr. Mial is associate director of the National Training Laboratories of the National Education Association and Mrs. Mial is publication director. Along with their work on campus they are traveling throughout southern Illinois holding leadership workshops.

“Visionary Architecture” on Display

Last month an exhibit of “Visionary Architecture” was displayed in Morris Library through a $2,000 gift from the Kate Maremont Foundation and sponsored by Arnold Maremont, Chicago industrialist recently appointed to the SIU Board of Trustees. The vast panorama included 108 photographic panels and murals, some of them 14 feet high, depicting radical building and structural designs by 27 international architects, designs considered too revolutionary to build. Among the displays were the mile-high skyscraper by Frank Lloyd Wright and the plastic dome covering for Manhattan Island by R. Buckminster Fuller, SIU research professor of design . . .

SIU has received a grant of $50,000 from the Ford Foundation for educational planning of its Edwardsville campus. The grant will be used for an intensive study of the unusual problems of a commuting university. Studies will be made to determine highest practicable utilization of space on the new campus with maximum flexibility and convertibility, including transportable satellite classroom facilities around a central core.

Students to Washington Conference

Three students from Southern attended the National Conference on Youth Service Abroad in Washington, D.C., in March. William Morin, Kankakee, student body president, Marie Turnipseed, Newton, SIU National Student Association coordinator, and Richard Childers, West Frankfort, chairman of the International Relations Committee, participated in forums and workshops concerning President Kennedy’s Peace Corps program. Marsha Van Cleve ’60, Chicago, of World University Service, also attended.

Mrs. Mary Douglas, head designer of the clothing firm of L’Aiglon, was the speaker at the eighth annual Southern Illinois Women’s Day on campus April 27. She was presented the “Women’s Leader of the Year” award for her contributions to the field of design and her success in career, home, and community.

SIU’s First National Diving Champion

Joel Lenzi, perky blonde freshman from Ft. Lauderdale, Fla., won the three-meter and the one-meter lowboard diving championships last month in the national senior women’s AAU meet in Hialeah, Fla. She is the first SIU student to win a national diving title. She defeated the No. 1 woman diver of the 1960 U.S. Olympic team in the AAU contest. Miss Lenzi just missed becoming a member of the Olympic team, finishing third in the tryouts . . . Jerry Demuth, senior from Franklin Park, received a financial return from a feature writing course. He sold an article about Swedish movie producer Ingmar Bergmann to Gent Magazine for $250.
On the Cover

Pictured on the cover of this magazine are students at SIU in the various roles they play during their college careers.

SIU students are not unlike students in other universities as they go about their studies, their work, their play. They travel many of the same paths, aspire to the same ideals and goals, face pretty much the same problems.

A group of alumni editors, who form Editorial Projects for Education, looked long and hard at “The College Student”—and came up with an excellent picture of the College Student, America 1961. Pages five through 20 of this magazine are devoted to the study.

In previewing their report, the board had this to say—

“We decided that one big trouble with most reports about students, as published in the national press, has been their tendency to generalize: to pin labels on the entire student generation. Another trouble, we felt, was that many stories have purported to ‘tell all’ about the students . . . as if this could be done with a group so big, so changeable, so diverse.”

The report “is the voice of students themselves—students from a wide variety of institutions, a wide variety of backgrounds, and all sections of the U.S. . . . the picture that emerges is a picture of many young people, each different from all the rest, each moving in his own way, against his own background, in the ancient (yet ever-new) process of educating himself.

“Your readers will see themselves here, we think. They will recall some of the bitter-sweetness of their own student days. As a result, we believe they may gain a new understanding of what the educational process is all about—and why it merits their strong support.”

Published monthly except August by the Southern Illinois University Office of Alumni Services, Carbondale, Illinois. Member of the American Alumni Council.

Payment of membership dues of $4.00 annually or $100 for lifetime membership entitles an association member to all alumni publications. Subscription to the Alumnus is by membership only. Entered as second class matter December 1, 1939, at the Post Office at Carbondale, Illinois, under the Act of August 24, 1912.

All information concerning alumni or special feature material should be addressed to the editor or the director of Alumni Services. Address changes should be sent to the Alumni Office. Please allow four weeks for changes.

Printed by the SIU Printing Service at Carbondale.
Alumni Activities and Dedication Make

**Full Program for Alumni Day June 10**

Fifteen class reunions, annual meeting of the Alumni Association Legislative Council, tours of the campus, the Alumni Banquet, presentation of Alumni Achievement Awards and of the second annual "Great Teacher" Award all will take place Alumni Day June 10. Along with these traditional events will be the dedication of the $4.6 million University Center, where Alumni Day will be held for the first time. Gov. Otto Kerner will be among the guests at dedication ceremonies at 1:30 P.M.

Classes ending in one and six, plus the Class of '60, will hold reunions between 3 and 5 P.M. in the Center. Second letter to reunion classes will go out this month including full information about reunion activities.

The Legislative Council meets at 9 A.M. in Morris Library Auditorium. Even-numbered-year classes elected new representatives this spring to the council and these will take office July 1. Following the council meeting the Alumni Board of Directors will elect officers for 1961–62 and seat three new members elected by the council.

Campus tours by car will be provided by the Alumni Association between 10 A.M. and 5 P.M. originating at the University Center. Guided tours also will be conducted through the Center.

An Alumni Luncheon will be held at the old University Cafeteria between 11 A.M. and 1 P.M.

The Alumni Banquet in the air-conditioned University Center Ballroom will begin at 6:30 P.M. The program following the banquet also will take place in the ballroom.

The Alumni Association will salute its fourth group of distinguished alumni when Alumni Achievement Awards are given at the Alumni Banquet. These alumni who are to be honored have been nominated by members of the Alumni Association and selected by a special committee. Also highlighting the banquet will be the presentation of the second "Great Teacher Award." Teacher nominations also are made by association members as well as by the graduating class.

Ballots for the "Great Teacher" will be mailed this month for nominations. Faculty now teaching or emeriti members still identified with SIU are eligible for nomination. The award is in the form of a check for $1,000 (tax free) to be used in any way by the recipient. It is given in recognition of teaching excellence alone.

A special fund has been set up for the "Great Teacher Award." Anyone wishing to contribute can send a check (made payable to the SIU Alumni Association and earmarked for the award) to Great Teacher Award, SIU Alumni Office, Carbondale.

---

**Two New SIU Trustees Named**

Two new members have been named to the SIU Board of Trustees by Gov. Otto Kerner. Dr. Martin Van Brown '23-2, '25, Carbondale, immediate past president of the SIU Alumni Association, is the first to represent Carbondale and Jackson County on the board for a number of years.

Arnold Maremont, Chicago industrialist and president of Maremont Automotive Products, Inc., first became acquainted with this part of the state last year when he came to support the state's public welfare bond issue.

The two men succeed Mrs. Stella L. Collins, West Frankfort, and Martin F. Oehmke, East St. Louis.

Dr. Brown is the son of the late W. O. Brown, professor of education at SINU from 1914 to 1940, and brother of Dr. Leo J. Brown '32, a former president of the Board of Trustees. He is a dermatologist with the Carbondale Clinic and a retired U.S. Navy rear admiral, having served 24 years as a Navy medical officer before retiring in 1954. Mrs. Brown is the former Mary Elizabeth Weinberg '26-2.

Mr. Maremont, holder of two law degrees from the University of Chicago, is a director or trustee of 10 civic and art groups and a member of the economic committee of the Democratic Advisory Council. In February he served as chairman of the Southern Illinois Conference on Industrial Attraction, held at SIU at Governor Kerner's request.

The two new members will serve until 1967.
Proficiencies for Credit

In the fall of 1959 SIU adopted the policy of permitting academically talented students to take proficiency examinations for credit in their scholastic records. The program now is in operation with between 800 and 900 courses listed for proficiency exams.

The list already has a number of additions and deletions and it is expected that a new list will be published each term.

Students will not be allowed to gain more than 48 hours of credit through proficiencies. This includes credit through the High School Advance Placement Program. Credit derived in this manner is considered nonresident credit.

In applying to take a proficiency the student must show sufficient reason for taking the exam—that is, prove he already has the knowledge he would obtain by taking the course, having gotten it through experience or studies directly related to the particular course, formal course work in the subject, or competency by high rating in a scholastic aptitude test.

Credit obtained through proficiencies at another accredited college or university may be transferred to SIU if in keeping with SIU regulations.

The student must make a grade of A or B to get regular credit toward graduation, provided it doesn’t duplicate credit counted for admission to Southern and the course is acceptable in his curriculum. If he makes below a B, nothing is put on his record.

The grade of A or B received in a proficiency does not become part of the student’s over-all average. It is put on his record to show the name of the course, the amount of credit received, and the fact that credit was gained through proficiency.

As the Southern Alumnus goes to press, word has been received that Governor Otto Kerner on April 24 signed the legislative bill giving SIU the authority to grant engineering degrees.

The Senate had passed a bill 45-1 early last month introduced by Sen. Gordon Kerr, Republican from Brookport. The week before the House of Representatives had approved an identical bill 109-3 sponsored by Rep. Clyde Choate, Democrat from Anna.

Bills allowing Southern to give engineering degrees had been defeated in 1957 and again in 1959.

Dr. Charles Tenney, vice president for instruction, on hearing that Governor Kerner had signed the bill, commented, “This is a wonderful thing for the University and particularly for students living in southern Illinois.” The University is “in excellent shape to begin the program,” he said, pointing out that the School of Applied Science already has developed a fine engineering staff and some well-equipped laboratories.

It will be necessary to add some courses, Dr. Tenney stated, but “the transition will be made fairly easy and at a fairly low cost to the state.”

In speaking to the Southwestern Illinois Council for Higher Education at Edwardsville April 24, President D. W. Morris said that the awarding of engineering degrees might begin as early as this August.

The next step, he stated, would be to enter into a very careful study of the entire region as far as engineering needs are concerned to determine the nature of future planning for engineering. All future plans will be carefully reviewed with the Governor of Illinois and will be developed with the understanding and support of the General Assembly.
Final point standings of the 1961 NCAA gymnastics meet:
Penn State 88\(\frac{1}{2}\), SOUTHERN ILLINOIS 80\(\frac{1}{2}\), Southern California 78, Michigan 69\(\frac{1}{2}\), Illinois 38\(\frac{1}{2}\), Michigan State 38\(\frac{1}{2}\), Navy 32, California 22, UCLA 18\(\frac{1}{2}\).

It was an illustrious field, but one which Coach Bill Meade's Saluki gymnasts outclassed recently as SIU gained what was probably its most noteworthy athletic achievement in the school's history.

The drama that unfolded in George Huff Gymnasium on the University of Illinois campus April 8 is almost impossible to recapture, but it will long remain in the memory of Meade and seven battling SIU gymnasts—Fred Orlofsky, North Bergen, N.J.; Bruno Klaus, New York; Fred Tijerina, Elmhurst; Hugh Blaney, Park Ridge; Richard Phillips, Annapolis, Md.; Leonard Kalakian, Fresno, Calif.; and Jon Shidler, Elmhurst.

Perhaps the only thing which could erase the thrill of earning—and receiving—a national silver trophy would be the even greater excitement accompanying a first-place finish and a national gold award. And, that may not be too far out of reach.

Actually Meade and his talented gymnasts have already set their sights on the 1962 NCAA championship and their chances appear bright. All seven of this year's group are scheduled to return and the most outstanding, Orlofsky and Klaus, have even another year of eligibility remaining as they are just sophomores this season.

Orlofsky, nationally known since claiming the National AAU championships last spring and earning a berth on the U.S. Olympic team, captured the NCAA still rings title and was second in the meet's all-around division. Klaus, a tremendous competitor, scored a major upset in winning the horizontal bar event and was a superb fourth in all-around competition.

Tijerina gave SIU its third national individual champion by winning the parallel bars and was eighth in still rings. Klaus, in addition to his winning effort in the high bar, was fifth in still rings and seventh in parallel bars. Orlofsky, besides winning still rings, was sixth in parallel bars and seventh in side horse.

In tumbling Kalakian, runner-up in the 1960 meet, was forced to share in a four-way tie for fifth while Blaney was ninth in the event. Shidler scored by placing tenth in the trampoline.

All four spring sports—baseball, track, tennis and golf—are now in full swing at SIU with prospects bright in each.

Coach Glenn (Abe) Martin guided his diamond enthusiasts through an 8-3 trip down south and defeated Purdue and St. Louis University since returning home.

Coach Lew Hartzog's thinclads are competing in several of the nation's top meets and have been faring well in those already held. Early meets at which SIU was represented were Oklahoma State Relays, Texas Relays and Ohio Relays. The Salukis plan to enter the Kansas and Drake Relays later this season before hosting the IIAC meet here May 26-27.

Coach Dick LeFevre's netmen also are compiling an impressive record with successive wins over Illinois State, Kenyon College of Ohio, Ohio State and Ohio Wesleyan. Likewise the tennis team is anticipating rugged competition this spring as it opposes Kansas, Kansas State, Iowa, Vanderbilt, Bradley, Northwestern, and Notre Dame before defending its IIAC championship here the last weekend in May.

Coach Lynn Holder's golf team downed St. Louis University in its first match here to extend Southern's string of home victories to 33 over a period of four years. Success on SIU's home course will receive a stern test, however, when the Salukis entertain league foes here next month when they will be seeking their first IIAC title.

Times have changed.
Have America’s college students?

THE COLLEGE STUDENT,
they say, is a young person who will...
... use a car to get to a library two blocks away, knowing full well that the parking lot is three blocks on the other side.
... move heaven, earth, and the dean's office to enroll in a class already filled; then drop the course.
... complain bitterly about the quality of food served in the college dining halls—while putting down a third portion.
... declaim for four solid years that the girls at his institution or at the nearby college for women are unquestionably the least attractive females on the face of the earth; then marry one of them.

But there is a serious side. Today's students, many professors say, are more accomplished than the average of their predecessors. Perhaps this is because there is greater competition for college entrance, nowadays, and fewer doubtful candidates get in. Whatever the reason, the trend is important.

For civilization depends upon the transmission of knowledge to wave upon wave of young people—and on the way in which they receive it, master it, employ it, add to it. If the transmission process fails, we go back to the beginning and start over again. We are never more than a generation away from total ignorance.

Because for a time it provides the world's leaders, each generation has the power to change the course of history. The current wave is thus exactly as important as the one before it and the one that will come after it. Each is crucial in its own time.

What will the present student generation do? What are its hopes, its dreams, its principles? Will it build on our past, or reject it? Is it, as is so often claimed, a generation of timid organization people, born to be commanded? A patient band of revolutionaries, waiting for a breach? Or something in between?

No one—not even the students themselves—can be sure, of course. One can only search for clues, as we do in the fourteen pages that follow. Here we look at, and listen to, college students of 1961—the people whom higher education is all about.

What are today's students like?

STUDENT YEARS are exciting years. They are exciting for the participants, many of whom are on their own for the first time in their lives—and exciting for the onlooking adult.

But for both generations, these are frequently painful years, as well. The students’ competence, which is considerable, gets them in dutch with their elders as often as do their youthful blunders. That young people ignore the adults’ soundest, most heartfelt warnings is bad enough; that they so often get away with it sometimes seems unforgivable.

Being both intelligent and well schooled, as well as unfettered by the inhibitions instilled by experience, they readily identify the errors of their elders—and they are not inclined to be lenient, of course. (The one unforgivable sin is the one you yourself have never committed.) But, lacking experience, they are apt to commit many of the same mistakes. The wise adult understands this: that only in this way will they gain experience and learn tolerance—neither of which can be conferred.

“They say the student is an animal in transition. You have to wait until you get your degree, they say; then you turn the big corner and there you are. But being a student is a vocation, just like being a lawyer or an editor or a business man. This is what we are and where we are.”

“The college campus is an open market of ideas. I can walk around the campus, say what I please, and be a truly free person. This is our world for now. Let’s face it—we’ll never live in a more stimulating environment. Being a student is a wonderful and magnificent and free thing.”
A student's life, contrary to the memories that alumni and alumnae may have of "carefree" days, is often described by its partakers as "the mill." "You just get in the old mill," said one student panelist, "and your head spins, and you're trying to get ready for this test and that test, and you are going along so fast that you don't have time to find yourself."

The mill, for the student, grinds night and day—in classrooms, in libraries, in dining halls, in dormitories, and in scores of enterprises, organized and unorganized, classed vaguely as "extracurricular activities." Which of the activities—or what combination of activities—contributes most to a student's education? Each student must concoct the recipe for himself. "You have to get used to living in the mill and finding yourself," said another panelist. "You'll always be in the mill—all through your life."

"You go to college to learn, of course. But learning comes in many ways."

"I'd like to bring up something I think is a fault in our colleges: the great emphasis on grades."

"I think grades interfere with the real learning process. I've talked with people who made an A on an exam—but next day they couldn't remember half the material. They just memorized to get a good grade."

"You go to college to learn, of course. But learning comes in many ways—not just from classrooms and books, but from personal relations with people: holding office in student government, and that sort of thing."

"It's a favorite academic cliché, that not all learning comes from books. I think it's dangerous. I believe the greatest part of learning does come from books—just plain books."
"It's hard to conceive of this unless you've been through it... but the one thing that's done the most for me in college is baseball. I'd always been the guy with potential who never came through. The coach worked on me; I got my control and really started going places. The confidence I gained carried over into my studies. I say extracurricular activities are worthwhile. It's important to know you can do a good job at something, whatever it is."

"No! Maybe I'm too idealistic. But I think college is a place for the pursuit of knowledge. If we're here for knowledge, that’s what we should concentrate on."

"In your studies you can goof off for a while and still catch-up. But in athletics, the results come right on the spot. There's no catching up, after the play is over. This carries over into your school work. I think almost everyone on our football team improved his grades last fall."

"This is true for girls, too. The more you have to do, the more you seem to get done. You organize your time better."

"I can't see learning for any other purpose than to better yourself and the world. Learning for itself is of no value, except as a hobby—and I don't think we're in school to join book clubs."

"For some people, learning is an end in itself. It can be more than a hobby. I don't think we can afford to be too snobbish about what should and what shouldn't be an end in itself, and what can or what can't be a creative channel for different people."
"It seems to me you're saying that — honor works only when it's easy."

College is where many students meet the first great test of their personal integrity. There, where one's progress is measured at least partly by examinations and grades, the stress put upon one's sense of honor is heavy. For some, honor gains strength in the process. For others, the temptation to cheat is irresistible, and honor breaks under the strain.

Some institutions proctor all tests and examinations. An instructor, eagle-eyed, sits in the room. Others have honor systems, placing upon the students themselves the responsibility to maintain integrity in the student community and to report all violators.

How well either system works varies greatly. "When you come right down to it," said one member of our student panel, "honor must be inculcated in the years before college — in the home."

"Maybe you need a B in a test, or you don't get into medical school. And the guy ahead of you raises the average by cheating. That makes a real problem."
"It's not how we feel about issues—but whether we feel at all."

We are being criticized by other people all the time, and they're stamping down on us. "You're not doing anything," they say. I've noticed an attitude among students: Okay, just keep criticizing. But we're going to come back and react. In some ways we're going to be a little rebellious. We're going to show you what we can really do."

Today's college students are perhaps the most thoroughly analyzed generation in our history. And they are acutely aware of what is being written about them. The word that rasps their nerves most sorely is "apathy." This is a generation, say many critics, that plays it cool. It may be casually interested in many things, but it is excited by none.

Is the criticism deserved? Some college students and their professors think it is. Others blame the times—times without deprivation, times whose burning issues are too colossal, too impersonal, too remote—and say that the apparent student lassitude is simply society's lassitude in microcosm.

The quotation that heads this column is from one of the members of our student panel. At the right is what some of the others think.

"Our student legislature fought most of the year about taking stands. The majority rationalized, saying it wasn't our place; what good would it do? They were afraid people would check the college in future years and if they took an unpopular stand they wouldn't get security clearance or wouldn't get a job. I thought this was awful. But I see indications of an awakening of interest. It isn't how we feel about issues, but whether we feel at all."

"I'm sure it's practically the same everywhere. We have 5,500 full-time students, but only fifteen or twenty of us went on the sit-downs."

"I think there is a great deal of student opinion about public issues. It isn't always rational, and maybe we don't talk about it, but I think most of us have definite feelings about most things."

"I've felt the apathy at my school. The university is a sort of isolated little world. Students don't feel the big issues really concern them. The civil rights issue is close to home, but you'd have to chase a student down to get him to give his honest opinion."

"We're quick to criticize, slow to act."

"Do you think that just because students in America don't cause revolutions and riots and take active stands, this means...?"

"I'm not calling for revolution. I'm calling for interest, and I don't care what side the student takes, as long as he takes a side."

"But even when we went down to Woolworth's carrying a picket sign, what were some of the motives behind it? Was it just to get a day away from classes?"

"I attended a discussion where Negro students presented their views. I have never seen a group of more dynamic or dedicated or informed students."

"But they had a personal reason."

"That's just it. The only thing I can think of, where students took a stand on our campus, was when it was decided that it wasn't proper to have a brewery sponsor the basketball team on television. This caused a lot of student discussion, but it's the only instance I can remember."

"Why is there this unwillingness to take stands?"

"I think one big reason is that it's easier not to. It's much easier for a person just to go along."

"I've sensed the feeling that unless it really burns within you, unless there is something where you can see just what you have done, you might as well let the world roll on as it is rolling along. After all, people are going to act in the same old way, no matter what we try to do. Society is going to eventually come out in the same way, no matter what I, as an individual, try to do."

"A lot of us hang back, saying, 'Well, why have an idea now? It'll probably be different when I'm 45.'"

"And you ask yourself, Can I take time away from my studies? You ask yourself, Which is more important? Which is more urgent to me?"

"Another reason is fear of repercussions—fear of offending people. I went on some sit-downs and I didn't sit uneasy just because the manager of the store gave me a dirty scowl—but because my friends, my grandparents, were looking at me with an uneasy scowl."

"I'm sure it's practically the same everywhere. We have 5,500 full-time students, but only fifteen or twenty of us went on the sit-downs."

"I attended a discussion where Negro students presented their views. I have never seen a group of more dynamic or dedicated or informed students."

"But they had a personal reason."

"That's just it. The only thing I can think of, where students took a stand on our campus, was when it was decided that it wasn't proper to have a brewery sponsor the basketball team on television. This caused a lot of student discussion, but it's the only instance I can remember."

"Why is there this unwillingness to take stands?"

"I think one big reason is that it's easier not to. It's much easier for a person just to go along."

"I've sensed the feeling that unless it really burns within you, unless there is something where you can see just what you have done, you might as well let the world roll on as it is rolling along. "A lot of us hang back, saying, 'Well, why have an idea now? It'll probably be different when I'm 45.'"

"And you ask yourself, Can I take time away from my studies? You ask yourself, Which is more important? Which is more urgent to me?"

"Another reason is fear of repercussions—fear of offending people. I went on some sit-downs and I didn't sit uneasy just because the manager of the store gave me a dirty scowl—but because my friends, my grandparents, were looking at me with an uneasy scowl."
"We need a purpose other than security and an $18,000 job."

"Perhaps 'waiting' is the attitude of our age—in every generation."

"Then there comes the obvious question, With all this waiting, what are we waiting for? Are we waiting for some disaster that will make us do something? Or are we waiting for some 'national purpose' to come along, so we can jump on its bandwagon? So we are at a train station; what's coming?"

I guess one of the things that bother us is that there is no great issue we feel we can personally come to grips with.

The panel was discussing student purposes. "We need a purpose," one member said. "I mean a purpose other than a search for security, or getting that $18,000-a-year job and being content for the rest of your life."

"Isn't that the typical college student's idea of his purpose?"

"Yes, but that's not a purpose. The generation of the Thirties—let's say they had a purpose. Perhaps we'll get one, someday."

"They had to have a purpose. They were starving, almost."

"They were dying of starvation and we are dying of overweight. And yet we still should have a purpose—a real purpose, with some point to it other than selfish mediocrity. We do have a burning issue—just plain survival. You'd think that would be enough to make us react. We're not helpless. Let's do something."
Have students changed?
—Some professors’ opinions

"Oh, yes, indeed," a professor said recently, "I'd say students have changed greatly in the last ten years and—academically, at least—for the better. In fact, there's been such a change lately that we may have to revise our sophomore language course. What was new to students at that level three years ago is now old hat to most of them.

"But I have to say something negative, too," the professor went on. "I find students more neurotic, more insecure, than ever before. Most of them seem to have no goal. They're intellectually stimulated, but they don't know where they're going. I blame the world situation—the insecurity of everything today."

"I can't agree with people who see big changes in students," said another professor, at another school. "It seems to me they run about the same, year after year. We have the bright, hard-working ones, as we have always had, and we have the ones who are just coasting along, who don't know why they're in school—just as we've always had."

"They're certainly an odd mixture at that age—a combination of conservative and romantic," a third professor said. "They want the world to run in their way, without having any idea how the world actually runs. They don't understand the complexity of things; everything looks black or white to them. They say, "This is what ought to be done. Let's do it!'"

"If their parents could listen in on their children's bull sessions, I think they'd make an interesting discovery," said another faculty member. "The kids are talking and worrying about the same things their fathers and mothers used to talk and worry about when they were in college. The times have certainly changed, but the basic agony—the bitter-sweet agony of discovering its own truths, which every generation has to go through—is the same as it's always been.

"Don't worry about it. Don't try to spare the kids these pains, or tell them they'll see things differently when they're older. Let them work it out. This is the way we become educated—and maybe even civilized."

"I'd add only one thing," said a professor emeritus who estimates he has known 12,000 students over the years. "It never occurred to me to worry about students as a group or a class or a generation. I have worried about them as individuals. They're all different. By the way: when you learn that, you've made a pretty profound discovery."

“The College Student” The material on this and the preceding 15 pages is the product of a cooperative endeavor in which scores of schools, colleges, and universities are taking part. GOLDEN REUNION
June 10, 1961

Carney E. Chatten, 2, writes that he has moved back to Flora from St. Peters-
burg, Fla. His address is 451 East Fair Avenue, Flora. He had entered SINU
from there, later taught 27 years at Lind-
blom High School in Chicago before re-
tiring in 1950. He moved back to Flora
at that time to engage in farming. He
moved to Florida in 1958.

On January 31 Mrs. Wayne Otey (Liva
Karr, 2, '57) retired as kindergarten teach-
er at Logan and Bayliss schools in Har-
risburg. She had taught in Marion and
Harrisburg schools before her marriage,
then returned to the field in 1946 to help
during the post-war shortage. She taught
the first state-recognized kindergarten in
Harrisburg at Logan School, then divided
her time between the Logan and Bayliss
schools. She now plans to expand her
piano classes and extend her church work.

Mrs. Otey has served as state director of
primary Sunday School work in the South-
ern Baptist Association and has been ac-
tive in Vacation Bible School and mis-
sionary work of the First Baptist Church
in Harrisburg. She has two sons—Wayne,
of Champaign, real estate agent and book-
ing agent for dance bands; and Wendell
'35, professor of music at San Francisco
State College in California.

1916

Fifty-fifth Reunion
June 10, 1961

1921

Fortieth Reunion
June 10, 1961

Mr. and Mrs. George N. Wells, 2 (Lil-
lian Floyd '20-2) live in Bloomington,
where he is superintendent of schools. They
have two children, Betty and George. In
1955 Mr. Wells received the Bloomington-
Normal Junior Chamber of Commerce
Good Government Award.

Mrs. George R. Taylor (Gladys Free, 2)
and her husband recently moved from
Kansas City, Kan., to Okmulgee, Okla. He
is with the Phillips Petroleum Company.

In Carbondale Mrs. T. L. Bryant, Sr.
(Nella M. Monroe, 2) continues the real
estate business founded by her husband,
the late Tracy L. Bryant '17-2, '28. Mr.
Bryant had served on the SIU faculty 30
years and was head of its Commerce De-
partment when he retired in 1945. He then
devoted his time to a private real estate
firm and was very active in civic affairs.
They had five children.

1926

Thirty-fifth Reunion
June 10, 1961

From St. Petersburg, Fla., Frieda A.
Stoenneman, 2, writes, "It is always good to
hear from dear old Carbondale—although
I am sure I'd have to look to see the old
landmarks. I have been in St. Peters-
burg for 22 years—back to Illinois once—but I
have lots of memories of SINU. It was a
pleasure to get the list of '26 graduates
and look through it for names I remem-
bered. The best of everything to all of
you for the coming year. My alteration
shop I started when the soldier boys were
here 18 years ago keeps me busy."

In Newton David A. Turnipseed '22-2,
owns a music and appliance store. He
formerly was superintendent of schools at
Sidney. He has two daughters, the oldest
being Marie Turnipseed, an SIU student
who has served as secretary-treasurer of
the sophomore class and as SIU student
coordinator of the National Students As-
sociation. She was one of three SIU dele-
gates who attended the National Confer-
ence on Youth Abroad in Washington,
D.C., held in March to discuss President
Kennedy's Peace Corps program.

Mrs. Leota McCamish McFadin, ex, ex
'50, '59, is a third grade teacher in the
Ottawa elementary schools. She formerly
taught at Carterville. She has a son
Charles.

Another teacher is Mrs. Louis Gielow
(Eleonora Zinke, ex, ex '50, '60), who
has been on the faculty for 12 years of
St. Mark's Lutheran School in Steeleville.
She has a son Eugene.

1931

Thirtieth Reunion
June 10, 1961

From Lawrence, Kan., Vinton C. Fishel
writes, "I hope to get back June 10 for
the 30th anniversary of the 1931 class. It
will be my first time to return since I left
in 1931." Mr. Fishel is a hydraulic engi-
neer with the U.S. Geological Survey. He
has been with the survey since 1929.

Mrs. Amy McDonald Tate, 2, McLeans-
boro, is a caseworker with the Illinois
Public Aid Commission. She has two sons,
Keith '56 and Larry D.

In East St. Louis Mrs. Joseph W. Sharp
(Alice K. Coggins, 2) is an elementary
teacher in District 189. She has a son, Joseph William.

1936

SILVER REUNION
June 10, 1961

Last July Lloyd S. Henson, ex, became superintendent of Streator Township High School. Before that he had been superintendent of the Centralia High School and at one time served as assistant principal of Lakeview Community High School in Decatur.

Mrs. John Maclin (Nora Hall) has a dual role in her family. In addition to her housewife duties she works part time in the family's drug store, Maclin's West Side Drug Store in Du Quoin.

Dr. and Mrs. William L. Johnson, Jr. (Gladys Milo, ex '35) and their two children live in Hollywood, Fla. Dr. Johnson is a dentist.

Carl A. Wolfenbarger works for Johnson's Motors in Waukegan and lives at Powers Lake, Genoa City, Wis.

1941

Twentieth Reunion
June 10, 1961

At the annual meeting in February of the Council of Southern Mountains held at Gatlinburg, Tenn., the Rev. Dennis M. Aldridge was elected for a second term as president. He is president of Clear Creek Baptist Church at Pineville, Ky. Mr. Aldridge also is serving as president of the Association of Southern Baptist Bible Institutes. The Council of Southern Mountains, a national organization, is composed of people from many professions who have a special interest in helping the people in mountain areas. Theme of this year's meeting was "Getting the Most Out of Life in the Mountains."

Mrs. Norman Garrahan, Silver Spring, Md., is the former Hope Hamilton. She has a son, Kenneth Alan.

Mr. and Mrs. Walter E. Heinz (Vernice Ciriely) write from Roxana that they are "doing ok." He is a chemist with Shell Oil Company. They have two children.

Sarah Ellen Maynard, Zion, is a teacher and counselor at Zion-Benton Township High School. She formerly taught at Equality, Casey, and McLeansboro.

In Denver, Colo., Harry R. Holloway, ex, is a cartographer with the U.S. Geological Survey. He and his wife (Thelma P. Randolph '39) have a daughter Daphne.

Thomas McCabe, ex, El Paso, Tex., is district sales manager for the International Shoe Company of St. Louis. His wife is the former Mildred M. Eason '44 and they have six children, three boys and three girls.

MARRIED: Viola Ruth White to Steve Krisfalasy, February 23, Carmel, Calif. They are living in Sunnyvale, Calif. Mr. Krisfalasy since January 3 has been vice president and manager of the Osborne Mortgage Company of Menlo Park, Calif.

1946

Fifteenth Reunion
June 10, 1961

Dr. Cloman D. George is a dentist in Metropolis.

William H. South, ex, has returned to his hometown of Carbondale to join the law firm of Medlin and Zimmer. He formerly was an assistant in the office of the Illinois attorney general in Springfield. After receiving his law degree from Lincoln College of Law in Springfield and being admitted to the bar, he started practicing in Grayville. In 1952 he was elected White County state's attorney and in 1957 was appointed to the attorney general office. In Springfield he served as vice president of the alumni chapter and later as member of the board of directors.

From Elyria, O., Eugene M. Dietz, ex, wrote some time ago, "Drove over to Bowling Green and saw the game November 5. Tough luck and better luck in '61. Would appreciate schedule of games for next season. Also other activities. Possibly can arrange vacation for some of the functions. Thanks." Mr. Dietz is a shift supervisor for Trans World Airlines, Inc., at Hopkins Airport, Cleveland, O.

In Omaha, Neb., Gerald Engelbart, ex, is an engineer-estimator for Peter Kiewit Sons and Company.

Nina L. Theiss, M.A. '50, has moved to California, where she is on the faculty of the Santa Monica City College. She had been teaching in Kansas since 1950, first at Merriam and later at the Shawnee-Mission High School.

Mr. and Mrs. J. Eugene M. Wells, M.S. '51 (Betty Ruth Baker, ex '49, '60) and their two daughters, Catheryn and Janice, live in Mt. Vernon. He is vice president of Associated Management, Inc. A former teacher, he now is working on his Ph.D. in geography. Mrs. Wells is principal of Camp Ground School.

Residents of Marion are Mr. and Mrs. Richard D. Williamson, ex (Dolores Elaine Quigley '48) and their son, Paul Alan. Mr. Williamson is general superintendent for Bell and Zoller Coal Company.

1951

Tenth Reunion
June 10, 1961

Mrs. Bernell B. Franklin, Lansing, Mich., is the former Virginia M. Fox. An occupational therapist, she received her degree in that field from Washington University Medical School in St. Louis.

Larry D. Myers, Hazelwood, Mo., is a senior buyer for McDonnell Aircraft Corporation, St. Louis. Married, he has two sons, Michael and Larry. An infant daughter died in November.

At Wright-Patterson Air Force Base in Dayton, O., Harold L. Page has been a procurement analyst for the last nine years. He and his wife Helen have three children.

Assistant superintendent of schools for Jackson County is Artie L. Smith, M.S. '54, principal of the Elkhive Public School 11 years. He has taught in Jackson County 19 of his 22 years of teaching.

Bill G. Bullock, Wasateka, is a farm management supervisor.

Hans Schneider, Bronx, N.Y., is a foreman with the Ralston Corporation.

Dahl L. Mason is a sixth grade teacher in the Detroit, Mich., public schools. He holds a master of education degree from Wayne University in Detroit.

Assistant superintendent of schools for Massac County is Noah S. Neace, M.S. '56, Metropolis. He formerly was commerce teacher at Goreville High School, superintendent of city schools in Golconda, and principal of Unity School in Massac County. He is married and has two sons.

In Ablene, Kan., Silas M. Allen is manager of W. W. Smith and Sons, Inc., furniture and appliance store. He and his wife, Betty Lou, ex '50, have three children. They formerly lived in Highland, where he was credit manager for Firestone Tire and Rubber Company.

Robert F. Szwoboda, Centralia, has been in sales work eight years with the Ralston Purina Company, St. Louis. He has two children.

"I'm still serving as civilian education advisor at Cannon AFB, Clovis, N.M. In June 1960 I received an M.A. in education from Eastern New Mexico University" — William A. Chapman.

Mr. and Mrs. Forrest D. Taylor, ex (Mary June Moss '52) and their daughter, Debra June, live in Trenton, where Mr.
At the annual All-Agriculture dinner at SIU March 7, School of Agriculture alumni achievement awards were given to Leon A. Mayer '51 (center), Teutopolis High School vocational agriculture teacher, and to Andrew Marcec '56 (at right), assistant personnel director of the Illinois Agricultural Association at Bloomington. Making the presentation is Edward L. Voils (at left), Fillmore, senior and president of SIU Agriculture Student Advisory Council.

Taylor is band director at Wesclin School Unit. The Taylors both hold master degrees from Indiana State Teachers College.

1956

Fifth Reunion
June 10, 1961

New psychologist at the Southern Illinois Mental Health Clinic in Murphysboro is James W. Whisenhunt, M.A. '59. A doctoral student at SIU he served his internship at Anna State Hospital and has worked at the SIU Cooperative Clinic Service. He is married and has two sons.

Leland J. Bartley is elementary principal of Lake School in the Granite City Unit Nine schools.

Earlier this year the Rev. Robert H. Stuckey, ex '50, moved to Marion to become associate pastor and minister of education of the Marion Baptist Church. He had been pastor of the Cairo First Baptist Church. He is married to Suzanne Knight, ex '53, and they have three children.

From Mr. and Mrs. Farrell E. Wilson (June R. Weber '55), Belleville—"Our new address is 505 South 20th Street, Belleville. My husband received his M.S. degree last year at Arizona State University. That was made possible by a National Science Foundation grant. He is now teaching at Belleville High School and Junior College. Our first child, Randall Eugene, was born October 17, 1959, while we were living in Phoenix."

David T. McAfee, M.A. '60, Brighton, is teaching English at Jerseyville Community High School.

John V. Skeels last June was transferred from Springfield to Louisville, Ky., to become state representative of The National Foundation in western Kentucky. He had been representative in southern Illinois since 1958.

George H. McNeil, M.S. '58, Villa Ridge, is principal and fifth grade teacher at Bruce School in Cairo Unit District One. He and his wife Claudia have a son, Charles Thomas.

Director of supplies for the Amarillo, Tex., Public Schools is James E. Gillen. He and his wife Jeanne have a daughter.

After his release from the Army and service in Germany in 1959, Stanley L. Evans returned to New Athens Community Unit School to teach science.

"Thank you kindly for sending the class member list. From the list I was able to find the present address of some of my best friends who attended SIU with me. Also some of the class members wrote to me for information about California."—Ruth A. Rohr, VTl, Redwood, Calif. Mr. Rohr is a TV technician with Alfa Radio and TV. He is married and has a daughter, Virginia Rae.

Mr. and Mrs. Dexter R. Peak (Jo Ann Norwiche '55) both are teaching in the Colorado Springs, Colo., schools. They have a daughter.

In Chicago Razoukh H. Malik is president of Mediterranean Universal Commerce Corporation, an import-export business.

Lt. Donald A. Hartley, who is making a career in the Navy, graduated from OCS at Newport, R.I., in March 1957. He was assigned to the destroyer Jarvis until January of this year. Now he is executive officer and navigator on the minesweeper USS Firm on duty with the Seventh Fleet in the Middle East.

For the last year Jack A. Schneider has been an instrumentation engineer with McDonnell Aircraft Corporation, St. Louis. He had been a design engineer with the firm. He, his wife Mary Lou, and their two children live in Edwardsville.

In Salem, Ore., Frederick S. Berg, M.S., Ph.D. '60, is director of teacher training at Oregon State School for the Deaf. He has a young son Sven.

Harry A. Thieli, Jr., is a news reporter with the Kankakee Daily Journal. He formerly worked for the Alton Evening Telegraph.

Jeff T. Smith is a salesman for the Continental Casualty Company, St. Louis. He rejoined the firm after two years in the Army. The Smiths live in Alton, Mo.

Robert L. Fletcher, ex '50, Florham Park, N.J., is district sales manager for Johnson Motors, Waukegan. He and his wife Martha have three sons.

In New Britain, Conn., Connie M. Conatser, ex '54, M.S. '57, is an instructor in health and physical education at Central Connecticut State College. She has been on its faculty since 1957.

BORN: To Lt. and Mrs. Harry V. Boyd (Joyce Elaine Hastings, ex '57), second daughter, Deborah Ann, December 22, Landstuhl, Germany. The Boys have returned to the States after three years of duty with the Air Force at Kaiserslautern.

Lt. Boyd has been assigned to Military Air Transport Service at McGuire AFB, Trenton, N.J.

To Mr. and Mrs. Albert F. Boyles, Belleville, second son, Jeffrey Michael, January 10. Mr. Boyles is a mathematics teacher at Belleville Township High School.

To Mr. and Mrs. Jack R. Dillon, M.S. '60 (Sybil Cooper, ex '53), Fairfield, a daughter, Riechia Elaine, September 7. Mr. Dillon is head of the English Department.
at Fairfield Community High School.

To Mr. and Mrs. Peter C. Ponce (Gratena Ann Hill), Madison, a son, Timothy Hill, August 7. Mrs. Ponce has taught in the Venice Public Schools five years.

To Mr. and Mrs. William F. Wetherington, M.S., Golconda, a son, Charles Thomas, Thanksgiving Day. Bill, Marcia, and Jim are the other three children. Mr. Wetherington, former assistant principal and guidance counselor at Murphyboro Township High School, now is superintendent of Unit One of Pope County.

1960

1937
Orland L. Kelley, M.S. '50, principal of Christopher Community High School 10 years, died January 13 at the age of 46. Native of Marion, he had taught biology, chemistry, and general science at Christopher Community before becoming principal. Before service in World War II, he was principal of Dix High School. Mrs. Kelley (Hazel Bryant, ex '38) survives.

1940
Mrs. Mary Elizabeth Mattingly Moore, ex, died in East St. Louis December 6 after a long illness. She was 41. Native of Cairo, she is survived by her husband, Paul Robert Moore '47, M.S. '51, principal of Harding Grade School in East St. Louis, and a son.

1941
James C. Chandler, plant engineer for Convair Astro at Abilene, Tex., was killed April 3 when he fell 174 feet from an Atlas missile framework. He was 40 years of age. Mr. Chandler, construction engineer nine years with Convair, last fall had been transferred from Ft. Worth to Abilene to work on missile construction. During World War II he served with the weather service in the Aleutian Islands.

Surviving are his wife; two daughters; his father, Stewart Chandler, who before retirement was a consulting entomologist at SIU; his mother; two sisters, Mrs. Charles W. Mathews (Jean, ex '38) and Mrs. William S. Eckess (Helen Elizabeth, ex '50); and a brother, Charles '49, M.S. '50.

1948
Robert C. Ellis, ex, principal of Farring-ton Township Consolidated School in north-eastern Jefferson County, was killed in an automobile accident December 28 east of Mt. Vernon. He was 48 and lived near Bluford.

1950
Mrs. Jo Anne Connelly DeVore died August 30, 1957, in Hinsdale. She had been a junior librarian at the Indianapolis Public Library at one time. She leaves a daughter.

John P. Licos, Jr., ex, co-operator of the Gardens Restaurant near Carbondale, died December 22 at Carbondale at 31. A native of this community, he had served in the Air Force during the Korean War. His wife and three children survive.
With summer and vacations just around the corner, here's a mighty good suggestion for you and your family. Head for the SIU Alumni Vacation Camp at Little Grassy Lake in August and enjoy a relaxing time in the great outdoors. You can camp without roughing it... eat like a king... have recreation provided for every member of the family... and have a wonderful vacation on an economical family budget.

This year an "Adults Only" week has been added to the program—the week of August 27 through September 2.

This is the fourth annual Alumni Family Vacation Program. If you haven't participated yet (some of the campers have attended every year), be sure to plan to come to it this summer. Reservations on a first come first served basis must be made by Saturday, July 15. Only SIU Alumni Association members are permitted to attend.

1. For those who want to camp under the regular program—with everything furnished but linens—the rates remain the same as last year. For adults, $27.50; children 3 to 12, $22.50; children under 3, $12.50. All meals are included from Monday breakfast through Saturday breakfast. Cabins and aluminum-screened cabins are available.

   For the "do-it-yourself" camper who likes to rough it, more or less, and has all of his own gear, two plans with special rates are offered—

2. For those who want to bring their own gear but wish to take their meals in the dining hall, the rate is $35 per couple per week, plus $13.75 per week for each additional member of the family.

3. For those who want to provide and cook their own food and bring their own equipment, the rate is $5 a week for the entire family for a site and participation in the recreational activities.

Little Grassy Lake is just 10 miles and 15 minutes south-east of Carbondale—a lovely spot for playing and relaxing. In conjunction with the SIU Department of Recreation and Outdoor Education a recreational program to suit every member of the family is offered. You can swim, hike, go boating, play baseball, volleyball, or horseshoes, use the rifle range, go horseback riding, practice archery, fish, study nature, join in group singing, go on cookouts, try your hand at handicraft—all under supervision of a full complement of trained counselors. A nurse is on duty.
