A Dean Speaks

Recently I had the occasion to take a very hurried trip to the Southern campus, and I was most gratified to see the many tangible signs of progress. It is certainly most heartening to see one’s Alma Mater gain new prominence in the activities of the state and region. Certainly the institution is to be congratulated upon its phenomenal success. Far more than that, I think the area deserves a hearty round of congratulations upon the support which it has given to Southern. There can be no substitute for regional pride in an institution of higher education.

Robert F. Etheridge ’48, M.S. ’49
Dean of Students
Miami University
Oxford, Ohio

Kudos for Salukis

On December 2 four of us alumni traveled 130 miles to see the Southern-Seton Hall University basketball game at South Orange, N.J. As you know, Southern lost the game 74–73.

During the game, time and again, fouls were called against the Southern players, and at no time did the coach, Mr. Gallatin, or any of the players violently protest a call (many of which were questionable).

We would like to commend the school, the coach, and the players for their admirable display of conduct. We feel that although the game was lost, the team won the admiration and respect of 3,500 partisan Seton Hall fans.

This splendid demonstration of sportsmanship gives the alumni reason to be extremely proud of their school. The University should take pride in having this fine group of young men representing it in competitive athletics.

Return to Germany

How time does fly! We left Germany five years ago, not thinking we would return so soon, but here we are living near our former home, Bad Nauheim. We arrived last November and plan to be here about six months, then back to California.

I loved Germany when we were here before and am very happy to be back. My German is coming back and it is a breeze adjusting to the German way of life as compared to when I first arrived in ’52. The country is now very prosperous—more cars, fewer bicycles, wonderful things to buy in the stores, and there are modern beautiful structures replacing the ruins we used to see.

Noeliniz Kutlu Olsun
Merhaba!

Seems it is time for another seasonal report of the actions and doings of the Jennings Family in far-away Turkey. We hope that your past year has been as eventful and “filling” as has ours. Time marches on and one sees and does so many things he has always dreamed of and never expected to do.

As an overall report I suppose the highlight of our year was the trip through the ancient ruins of Athens, Greece. We went in July and enjoyed every second of the time spent there. We saw the Acropolis, that much talked about and much studied rock upon which sits the ancient remains of the early days of our present day democracy and culture. The Parthenon is such an inspiring sight with its many columns and beautiful structures in marble. It is an architect’s dream. Close by, the Erechtheion with its beautiful Caryatides or statues of young maidens is indeed a work of art. We stood and looked and dreamed of the sculptor who was the master of all in those days. At night this place of splendor is lighted by huge lamps and can be seen for miles.

Athens itself is a beautiful city, very modern for this section of the universe. We ate in quaint and also modern sidewalk cafes—Zonar’s was our favorite. The shops are lovely and the Grecian souvenir shops are many. Yes, we did indulge—much to the regret of our Master’s pocketbook.

Darla continues to be the belle of the family and is “up to her ears” in school activities. She is on Student

On the Cover

About 152 students from Southern are doing their student teaching in 45 schools in 26 communities during the winter quarter.

Teacher training is a requirement for the bachelor's degree in education in Illinois schools. Under a "Professional Quarter" plan, adopted at SIU in the fall of 1959, students work for one school term in a regular classroom situation under the guidance of an accredited teacher and the University Department of Teacher Training.

The story of the Professional Quarter program is told in this issue in a picture story planned and executed by the Staff Photography class under the tutelage of C. William Horrell '42, assistant professor in the Department of Printing and Photography.

Cover picture is of Caralynn Johnston, Ottawa, assisting a third-grade student at Ward School in Du Quoin.

Other schools, teachers, and grades included in the picture story appearing on pages 12 through 17 are student teacher Patricia Easter, Grand Chain, with Mrs. Annis Williams Worthen '26-2, '52, Washington School third grade in Murphysboro; student teacher Annetta Piper, Shipman, with Mrs. Helen Carico McDowell '53, Logan School fourth grade in Murphysboro; student teacher Nina Nagel, Red Bud, with Mary Jelliffe, Harrisburg Junior High School English and library science classes;

Student teacher Patricia Lanthrum, Hillsboro, University School second grade; student teacher Linda Sunday, Clay City, McKinley School first grade at Du Quoin; student teacher Cora Farmer, speech correction in McKinley School at Du Quoin; and student teacher Paula Mackey, Herrin, with Amy Kathryn Rollo '31-2, '44, M.S. '49, at Herrin Southside School. Turn to page 11 for a picture of the Staff Photography class at work on the Professional Quarter story.

Today an idyllic countryside scene . . . . . tomorrow a teeming campus.
Campus at Edwardsville
Nearing Construction
Groundbreaking This Year.... Classes to Begin in 1964.... Natural Beauty of Site Retained in Planning....

by Mildred Arnold

At long last, plans for Southern Illinois University-Edwardsville are soon to be translated into something more permanent than a set of blueprints and architectural drawings. Days, weeks, months—even years—have resulted in a master plan reflecting ideas of some of the most eminent educational philosophers, designers, and architectural planners in the country. Framers of this master plan have looked far into the future to project a university campus at Edwardsville that will fulfill the educational needs of the area for years to come.

With $25 million realized from passage in November, 1960, of the Universities Bond Issue, the first stage of the plans will get underway. Groundbreaking for the initial phase is promised for 1962, with a target date for classes to begin in the fall of 1964.

To be built around a large central mall, the 290-acre academic core of the new campus will include a library, general office and service building, university center, and a communications building. Radiating from this will be two triplex instructional buildings, each connected with a faculty office unit. The first, located in the northeast instructional area, will be two general classroom units; the second, in the northwest instructional area, will be a science building. Each of these areas will have a central entrance, circulation, lounge core.

The library, scheduled to go under construction first, will cover 140,000 square feet of ground and have stack space for 400,000 volumes, plus study space for 1,650 students and 100 staff members: its cost—roughly $35 million. The science classroom and special laboratory building, to cover 100,000 square feet of space, will cost about $3.25 million; the classroom and faculty office buildings, covering 100,000 square feet, $2 million; the university center, 150,000 square feet, $1.5 million; and the physical plant, roughly $2 million.

Two of the main themes of the instructional units at SIU-Edwardsville will be flexibility and convertibility. By special planning of floor units and equipment, it will be possible to convert general education physical science laboratories to biological laboratories of varying sizes. Certain instructional spaces will be used for different purposes at different times. Another basic theme calls for integration of landscape architecture and educational facilities.

Funds for the university center will be provided by self-liquidating loans from the state and federal governments, plus receipts from student activity fees which include a special assessment each quarter for the building of a student center.

The center will incorporate a very large dining area and will use the scramble system of food service. Operating much like a supermarket, with three checkout counters, this method will enable 5,000 persons to be served within an hour through a cafeteria-like arrangement but without the cafeteria line.

At the EPEC (Environmental Planning, Edwardsville Campus) seminar held last June in downtown East St. Louis and sponsored by grants from the Kate Maremont Foundation and the Educational Facilities Branch of the Ford Foundation, participants were of one voice in urging that the natural beauty of the site be kept.

In order to do this, changes had to be made in the original plans for roads and parking areas. Revised plans, approved last November by the SIU Board of Trustees, call for an "informal" system of roads to the campus rather than one main entrance. No fixed entrance plans will be made until Madison County offers its own zoning plans regarding the campus environs.

Rather than the six or eight separate parking lots originally planned, there are to be two large ones—a 130-acre lot east of the main campus and a 45-acre lot west of it. The interloop road has been pulled closer to the academic core; a peripheral road about the site remains in the plans.

The far-sighted master planning team, headed by President Delyte W. Morris, was determined that this new campus of SIU should not follow the pattern of most of today's American university campuses which "just grew." By acquiring 2,600 acres at the outset, SIU will be able to expand at a relatively low cost and with a design conducive to academic excellence, teaching efficiency, and area service.

This large layout of land means space for future research and professional schools, for cooperative industrial park-type areas, large tracts for recreational facilities, and space for forestry-arboretum. It means space for a continuation center for adult education and conferences, a community center for expositions, community gatherings of all kinds, inside athletic events, and activities to broaden the cultural horizons. It means the possibility of future housing for faculty and students.

Representatives of all denominations of religious faith are working through the University Religious Council in planning a center for religious education and fellowship. While land for this center will be furnished by the state, a fund-raising campaign will be necessary to make this a reality.

Edwardsville Campus Plan for Zoning and Land Use

There are to be three functional reservoirs: a 90-acre utility reservoir available to the physical plant; an 80-acre utilities reserve and conservation reservoir, and...
40-acre conservation reservoir. This will preclude the necessity to construct an $800,000 cooling tower. It also means that air conditioning can be more economically provided by cooling the re-circulated water. The University will buy its electricity from the Illinois Power Company.

At the southwest corner of the site will be a 120-acre cooperative research area and a 380-acre agricultural research section. Another 180 acres are earmarked for physical education and recreation; 70 acres for a recreation and housing reserve; 70 acres for physical education and outdoor education west of the core; 105 acres for faculty housing north of the core between two of the reservoirs; an 85-acre “remote research” area on the north side of the site; a 125-acre native arboretum and 50-acre primitive arboretum on the north and northeast edges; a 135-acre recreation research and housing reserve inside the loop road to the east; and outside it, a community center, conservation research and reserve, and professional school area.

Determination of water supply rests until the city of Edwardsville can complete a study of water feasibilities, which it is doing with the help of consulting engineers. Under question is the cost of expanding the Poag water plant and furnishing water for the University. If this is found impractical, adequate water is available in the Cahokia Creek bed at the west edge of the site.

Study Commuting Problems

Ninety-five per cent of the students live within an hour's drive of their classes; this percentage is not expected to change perceptively—hence the need for parking space is important. From the outset traffic planners have worked with the architectural planners to be sure facilities of the campus would be serviced by roads to permit maximum accessibility by automobile. Provisions for parking space must be made for 13,000 automobiles when enrollment reaches 18,500 without sacrificing the site’s aesthetic charm.

Located between Edwardsville and the confluence of the Mississippi and Missouri rivers, the site includes terrain ranging from rolling wooded hills about the river bluffs to flat bottom lands.

The Edwardsville Campus will give special attention to the needs of this urban area of southern Illinois, just as the Carbondale Campus gives special attention to the needs and potentialities of rural Egypt.

More than $400,000 was contributed by industry, business firms, and individuals in the Madison-St. Clair counties area toward purchase of the Edwardsville Campus site.

It is safe to say that SIU’s new campus is nearing the launching pad.

New Alumni Club Abroad

On February 3 Fernand R. Criel, M.A. ’61, of Antwerp, and Mr. and Mrs. Andre M. Kahn, M.A. ’59 (Eva Sineich, M.A. ’59), Philippe Leurquin, M.S. ’60, Warren Taylor, ex ’36, and Camille Albert Becker, M.S. ’57, all of Brussels, Belgium, met in Brussels to plan the organization of an alumni club.

Mr. Becker arranged for the meeting at the Swiss House Restaurant. The evening was spent in reminiscing.

The next meeting will be held March 16 at the home of Mr. Taylor. Mr. Criel will show his collection of slides of SIU, Illinois, and his trip through the U.S.

Spring Calendar of Meetings

March 3—Bloomington Area. John Rendleman, ex ’47, SIU director of business affairs, will speak at a dinner meeting at the Illinois Hotel. Social hour begins at 6 p.m., with dinner at 6:30. Special guests will be members of the SIU gymnastic team who will be at Normal University that day for the IIAC championships.

March 20—Jefferson County. Dinner meeting at 6:30 p.m. at the L & N Cafe in Mt. Vernon.

April 7—Springfield Area
April 26—Randolph County
May 5—Chicago Area
May 10—Jackson County. John Rendleman will be guest speaker at a dinner to be held in the University Center on campus.

May 11—Kansas City, Mo. William Tudor, director of Area Services at SIU, will be guest speaker.
Despite Wintry Weather

Alumni Officers Attend Workshop

Early in the week of the Alumni Club Officers Workshop of January 20, Jay King, alumni field representative, smiled broadly as he viewed with satisfaction the 192 reservations made for the workshop. Along about the middle of the week Old Man Winter visited the Midwest with icy blasts and the King smile faltered a bit. Came the day of the workshop and Jay welcomed the 135 people who attended the fifth annual workshop. Eighteen clubs were represented.

After President D. W. Morris welcomed the guests to the campus, Vice President Clarence Stephens '33 reported on the Edwardsville Campus, John Rendleman, ex '47, director of business affairs, spoke about the Carbondale Campus, Prof. E. Claude Coleman discussed the Plan "A" Program and the new General Studies Program, and Athletic Director Donald Boydston talked about the sports program.

During the afternoon session panels of alumni club officers reported on successful projects and plans, David Kenney, member of the alumni board, discussed club activities, Wilbur Venerable, acting associate director of admissions, explained the admissions program, and Prof. Ralph Micken, chairman of the Department of Speech, discussed the role of the alumnus.

The entire workshop, including luncheon and dinner, was held in the University Center Ballroom. Windup of the day was the SIU-Eastern Michigan basketball game.

Round Table conference was held before the workshop by Walter B. Young, Jr., ex '47, chairman of the workshop committee of the board of directors; Alumni Association President John Lester Buford '24-'28; and Field Representative Jay King '51.

Arriving from West Frankfort were these Franklin County chapter officers—from left, President Georgia Sniderwin Griffin, ex '34, SecretaryRose Lemaster Tate '52, Dr. Guy W. Lambert '33, member of the Alumni board of directors, and Treasurer Madge Murphy Presley, ex '42. The cold weather did not affect their enthusiasm.

Starting off with a great big grin, a doughnut, and a cup of java were William Bach '58, M.S. '59, and his wife (Kay Ottesen '59). Bill is president of the Bloomington club which holds the highest membership in the association and is one of the youngest chapters.

Mr. and Mrs. George Hall, ex '24 (Goldie Mae Hall, ex '22), Evansville, Ind. (at left) compared notes with Bert Casper '25-'27, Cobden, member of the Alumni board, and J. K. White '25-'32, Morton.
Shooting for “Big Time”

Salukis Seek First NCAA Title
by Fred Huff

Southern shoots for its first “big-time” national sports championship later this month when Coach Bill Meade leads a comparatively small squad of Saluki gymnasts into the NCAA meet at Albuquerque, N.M.

The Salukis, who had little trouble in winning their first four dual meets of the season against Indiana, Minnesota, Illinois State Normal and Ball State, appear to be among the top contenders for this year’s championship, barring unexpected injuries to any one of their top performers.

A year ago Southern’s gymnasts scored what was generally regarded as the school’s greatest athletic achievement when they returned home from the national meet with the second-place trophy. This year they’re determined to move up just one notch.

Penn State capped the coveted title last year by collecting 88 1/2 points as compared to SIU’s 80 1/2, Southern California’s 78, and Michigan’s 69 1/2. Illinois and Michigan State tied for fifth with 38 1/2.

The championship was Penn State’s third in a row and fifth in the past five years. And the fact that its number one performer, Gregor Weiss, is returning assures Southern—or any other entry hopeful of going all the way—of a real battle.

However, Meade feels he has the material to get the job done although he admits that his ranks are thin. “We’ll probably be the smallest (in numbers) squad among the top 10 finishers,” Meade said, “but we’re counting heavily on several standout individuals.”

Southern’s bread-and-butter boys are three of the finest gymnasts in the country, Fred Orlofsky of North Bergen, N.J., Bruno Klaus, New York City; and Rusty Mitchell, West Covina, Calif.

Orlofsky, a member of the United States’ 1960 Olympic squad, is the best known of the three, but both Klaus and Mitchell have made rapid strides forward this season and will be battling each other—and Weiss—for the number one all-around honor. Weiss won it a year ago with 54.525 points as compared to Orlofsky’s 54.20. Klaus was fourth with 53.20.

Mitchell, sophomore ace who first attracted national attention with his tumbling ability, has developed this season into a strong all-around performer and actually has been Southern’s top point winner. In SIU’s first four dual meets, Mitchell claimed...
eight firsts, three seconds, and a pair of thirds.

Orlofsky was bothered during the early stages of the season with a shoulder injury, but now appears to be set for the national meet. Klaus also suffered several minor injuries early, but Meade feels these may be a good sign. "We hope we have already had all of our physical setbacks and will go into the nationals in tip-top condition," the genial coach said.

Another reason for controlled optimism in the SIU camp is the fact that the governing NCAA body decided to eliminate the swinging rings event from future national championship meets. In last year's affair Penn State scored 24 of its 88 1/2 points here while the Salukis (who do not compete in the event) were blanked.

In addition to the hotly-contested battles in each of the eight events, the national meet will provide Meade with an opportunity to accomplish one of his major goals as a coach. That is, to defeat his former college coach, Gene Wettstone, who is head man at Penn State.

Seek National Cage Honors

Also hopeful of gaining some national recognition in post-season competition is Southern's basketball squad. With Coach Harry Gallatin turning in another stellar job, the Salukis are aiming for their second straight season of 20 or more victories and may be able to reach it by faring well in tournament play.

After losing four members of last year's first five by graduation and the fifth, Charlie Vaughn, by grades, Gallatin molded a new lineup around team captain Jim Gualdoni, Herrin; Ed Spila, Chicago; Dave Henson, Dupo; Harold Hood, West Frankfort; Eldon Bigham, Pinckneyville, and Rod Linder, Centralia.

Claiming 14 victories in their first 18 games, the Salukis were, at this stage of the season, being led in scoring by Spila's 249 points. Henson had collected 227 points over the same span while Hood had 195, Linder and 6-3 reserve center Frank Lentfer 147 apiece, and Gualdoni and Bigham 100 each.

Themselves among the nation's top 10 small-college teams, the Salukis gained their biggest victory of the season in late January when they upset top-ranked Tennessee State 78-65.

On the other sports fronts around SIU both the swimming and wrestling squads have encountered trouble while facing several of the country's top teams.

Coach Ralph Casey's tankmen lost three in a row to Iowa State, Minnesota, and Indiana, while Coach Jim Wilkinson's charges were trimmed by defending national champion Oklahoma State and a rugged Michigan State club.

However, both SIU teams are favored to defend successfully their Interstate Conference championships to be held the first weekend in March. They also will be represented in NCAA championship meets later this month as swimmer Ray Padovan and wrestler Ken Houston hope to better third-place finishes gained there last season.

Southern has signed a contract to play in the Evansville, Ind., basketball tournament next Christmas. Fordham University also has signed as the third team in the four-team field.

SIU will open its 1962 football schedule by playing a Saturday night game against Texas A & I at Corpus Christi, Tex. The Texas school won the NAIA national championship bowl game two years ago and is considered one of the country's best small college teams.

Mail Bag . . . .

(Continued from front cover)

Council this year, a member of the National Honor Society, and very active in all school "doings," this past summer she spent a week in camp out in the country and rather enjoyed the primitive conditions. This was a Girl Scout venture and all of the girls "had a blast."

Master Phillip is growing by leaps and bounds and soon Mother Lorelei will be the short one in the family. He is still with the Cub Scouts and enjoyed the Minor League baseball season during the summer.

Warren has been busy getting the new school building ready and the old one redecorated. His "little charges" number almost 900 this year. Yes, he has headaches by the score, but seems to keep them under control in his usual calm manner. He has made numerous trips to Weisbaden and Munich, Germany, and also to Ankara, Turkey. He is getting quite a collection of slides and material to bend the ears of our friends and associates when we return.

I am the narrator and just as busy as usual with home and substitute teaching. Let me say in closing, Noeliniz Kutlu Olsun and Yeni Yiliniz Kutlu Olsun.

Mr., Mrs. Warren G. Jennings '41, M.S. '52 (Lorelei Baker '45)

Tuslog, Det. 20, Box 13
APO 224, New York, N.Y.

(Editor's Note: Mr. Jennings is principal of the U.S. Air Force Dependents School in Izmir. He went to Turkey in the fall of 1960 to take the post.)

Glenn (Abe) Martin '32, head baseball coach since 1947, will take his team to Arizona during the spring vacation for a seven-game series. The four-time IIAC baseball champions will open their drive for a fifth championship at Illinois State Normal University April 20-21.

MARCH, 1962
Winter Enrollment
Up 11 Per Cent

Winter term enrollment is up more than 11 per cent from the same quarter a year ago—14,182 resident students on the Carbondale and Edwardsville campuses.

At Carbondale enrollment is 10,202, only 109 fewer than the all-time record set at the beginning of school last fall. The one per cent drop between this quarter and last quarter compares to a customary five per cent loss in years before SIU initiated admission restrictions requiring high school graduates in the lower one third of their class to delay entrance until the winter quarter.

 Registrar Robert McGrath said 273 high school graduates and 214 transfer students have been admitted on probation this winter.

The winter term enrollment at Carbondale is an increase of 1,223 over the same period last year while the Edwardsville Campus figure, 3,980, is a 228-student increase.

Additional non-resident enrollments are 557 in extension courses and 2,923 adults registered from July 1 through December 31 in non-credit night classes.

SIU 26th in Nation

Southern now ranks 26th in the nation in full-time enrollment with its fall enrollment of 11,187 students taking 12 or more quarter hours of courses at the Carbondale and Edwardsville campuses.

The University ranked 32nd last year.

In total enrollment Southern was 36th last year, 41st in 1960, 45th in 1958, and 100th in 1953.

Ranking of U.S. institutions of higher learning is made by the annual Walters Report for the School and Society Magazine. The study of 1,047 accredited U.S. colleges and universities showed an enrollment of 2,257,921 full time students.

John E. Dornbach '48 is an aerospace technologist with the National Aeronautics and Space Administration's Manned Spacecraft Center at Langley AFB, Va.

Mapmaker for "Man on Moon" Project

For the last five years John E. Dornbach '48 has been project officer in the Aeronautical Chart Branch at the Air Force Aeronautics Chart and Information Center in St. Louis. Now he has moved into a higher orbit of space travel and is an aerospace technologist at the Manned Spacecraft Center of the National Aeronautics and Space Administration at Langley Air Force Base, Va.

At the St. Louis center, Mr. Dornbach was officer in charge of charts which the Air Force produced for Project Mercury, the country's first manned space flight program.

The NASA aerospace task project now is undergoing a transition from Project Mercury, an Air Force operation, to Project Apollo—for lunar and planetary studies.

As an aerospace technologist, Mr. Dornbach is responsible for cartographic activities associated with Project Mercury and Project Apollo. This includes charts which may be needed to plan a lunar flight, land the astronaut safely on the moon, and assist in his return to earth. Mr. Dornbach also works on charts necessary to record geophysical and other types of significant data gathered on a lunar surface, and he assists in determining geophysical constants to be used in mission planning and flight operations.

Project Apollo personnel eventually will be located at the $60,000,000 manned space flight center for NASA to be built in Houston, Tex.

Mr. and Mrs. Dornbach (Marie W. Dornbach, ex '48) and their two children now live in Hampton, Va. While in St. Louis, Mr. Dornbach received his master's degree at Washington University. He now is a doctoral candidate in geography at Clark University, Worcester, Mass.

100th Birthday
On the occasion of her 100th birthday December 7 a message of congratulation and best wishes was sent to Miss Matilda F. Salter in St. Louis from the Alumni Association. Miss Salter, who was on the SINU faculty from 1885 to 1917, was a teacher in the Department of Drawing and Penmanship. She began the development of a department of fine arts and served as head of the art department.

Class Does Story

For Southern Alumnus

One of the projects of Prof. C. William Horrell's class in Staff Photography this term was a picture story for the Southern Alumnus.

After some thought and discussion, the class decided on "The Professional Quarter," the story of the student teacher in a nearby community school. They visited seven schools in five communities, snapping pictures, interviewing student and supervising teachers.

Returning to campus they developed their pictures, then turned to the task of assembling them, writing captions and a text, and finally planning an effective layout for presenting the story.

The fruit of their labors appears on the following six pages.

Staff Photography is being taught this term for the first time.

Student Peace Union Chapter Holds Vigil

A 57-hour "peace vigil" was held late in January by the SIU chapter of the Student Peace Union. Carrying placards calling for disarmament talks and banning of nuclear atmospheric testing, members of the group paraded near Browne Hall during the day and moved to downtown Carbondale at night.

The SIU chapter, which numbers 30 members, held a vigil instead of a strike as had been done in other universities and other groups throughout the world. Students here attended class, conducting the vigil during their free time.

Philosopher Bertrand Russell of England, who advocated the "strike for peace," is a chief adviser to the Student Peace Union.

On the last day of the vigil on campus, several Carbondale women served lunch to the student group.

March, 1962
Contact with pupils outside the classroom gives more complete understanding of their problems.

To today's student in education, the Professional Quarter means taking part in live and realistic experiences in full-time teaching and observing in a typical classroom. Until two years ago, it was the usual practice for a student to devote only a small portion of his day to student teaching at University School or in a classroom in a neighboring community and then return to the college campus for his other classes. Prior to the new program, many student teachers spread their assignments over two or three quarters.

Student teaching at Southern has taken on a "new look." Today, 65 per cent of Southern's student teachers have off-campus assignments and one-half of these live in communities in which they teach. Ten years ago, only 15 students per term did their teaching outside of Carbondale, as compared to 160 who now have off-campus assignments each term. And the number is increasing rapidly. The year 1962-63 will see 210 student teachers going off campus each term.

To meet the demand for student teaching, the number of southern Illinois public schools in which students teach has been increased from 10 to 43 within the past 10 years. Cooperating schools extend from Anna to Salem.

Prof. Charles D. Neal, a veteran school man and director of teacher training, is largely responsible for the success of the new teacher training program at SIU.
Persistence and patience are required of student teachers.

A supervising teacher observes as her student teacher takes over the class.

Student teaching in specialized areas such as speech correction is available.
Student Teaching Is

Serious Business

Today's student teacher is treated as a mature adult and as a part of the staff of the school. This serious attitude is reflected in the activities and on the faces of both student teachers and supervising teachers.

When a student gets into the classroom, he can test his philosophy of education and find out if he is capable and sincerely interested in going into teaching as a career. Three full-time and 11 part-time coordinators of off-campus student teaching assist public school supervising teachers and student teachers with problems which might arise.

The Professional Quarter is enriching the student teaching program by giving SIU's future teachers an opportunity to experience the feeling of accomplishment and importance.
The quiet of the empty classroom provides time for the student teacher to attend to last minute details before her children return from lunch. Attention to detail is an important facet of student teaching.

The helping hand of the student teacher is there during the entire school day.

In the evening the student teacher may be found preparing for the next day's classroom work.

Adoration for the student teacher is one of the many rewards of the Professional Quarter.
NEWS of the CLASSES

Boat dock at Lake on the Campus

1887
Diamond Jubilee
June 9, 1962

Mrs. Robert P. Bates (Mary Lansden, 2), Chicago, on January 15 celebrated her 91st birthday. She recently moved into a nursing home in Chicago and has resigned as class representative on the SIU Alumni Legislative Council.

1890

1897

Sixty-fifth Reunion
June 9, 1962

Two members of the Class of '97 responded to the Christmas letter and notice of the 65th Reunion in June. Carl Burkhart, 2, Benton, inquired about the death of W. T. Marberry of St. Petersburg, Fla.

Arthur G. Cross, 2, Chicago, retired in 1946 as division superintendent for Illinois and Iowa for the Railway Mail Service (now called Postal Transportation Service) after 44 years of service.

1902
Sixtieth Reunion
June 9, 1962

From Los Angeles, Mrs. Ada Smith Mackey, 2, writes, “As of now I plan to come for our class reunion of 60 years next June. Will write other members concerning same. I have had no news of Edna Hester or Malcolm Graham since graduation.” Mrs. Mackey has been a member of the Alumni Association for the last 13 years.

1907
Fifty-fifth Reunion
June 9, 1962

From La Grange, Mrs. Horace M. Peach (Olinda Hacker, 2) writes, “I hope to get to the '17 reunion next year. Recently my traveling has been from La Grange, where my son lives, to Hollywood, Calif., where my daughter lives. It’s wonderful to spend most of the winter in California.” Before his death in 1954, her husband was superintendent of the Milwaukee Rescue Mission.

1911
New president of the First National Bank of Carbondale is Walker Schwartz, ex, who also continues as board chairman, a position he has held 15 years. Mr. Schwartz has been secretary of the Carbondale Loan and Improvement Association since 1928 and is a former high school board president. He was elected president of the Varsity Lettermen’s Club at Homecoming.

1912
GOLDEN REUNION
June 9, 1962

LeRoy Pickett, 2, principal of Havana Community High School, has a family of
teachers. His son, daughter, and son-in-law all are teachers. His wife (Myrtle Philippe, ex '28) is a former teacher. The Picketts have four grandchildren.

1925

Two honors have come to Hilda Stein '22-2, SIU associate professor of zoology, in recent months. Last fall at the first meeting of the Alpha Gamma Delta alumnas chapter, she was awarded the Arc, one of the highest awards for service given by the group. She was instrumental in the sorority movement at Southern, organizing the first sorority here in 1923, Epsilon Beta, which became Alpha Delta chapter of Delta Sigma Epsilon in 1928. The chapter remained on campus until 1956 and in 1957 became Beta Eta chapter of Alpha Gamma Delta. Miss Stein served as national first vice president of Delta Sigma Epsilon. For the last five years she has been scholarship adviser of the Alpha Gamma Delta chapter here.

At the annual Christmas dinner and fellowship meeting of the Carbondale branch of the American Association of University Women, Miss Stein was honored when the branch voted to name a state AAUW fellowship award for her. This is the first time the group has sponsored such a fellowship. A woman student from abroad will be brought to this country for graduate study. Miss Stein served as state president of AAUW during 1945-49, the only person who has served two terms in that office.

1926

Louis Beltz, 2, '45, assistant principal of Harrisburg Junior High School, is acting principal while Fred Armistead '30-2, '38, assistant superintendent of schools, is in South Viet Nam for two years with an SIU educational mission program.

In Chicago Orval D. McLain '26-2 is on the faculty of Morgan Park Military Academy.

1929

George Alpha Horsley, husband of the former Ruth Stearns, 2, was one of 11 miners killed in the explosion at Blue Blaze Coal Company's Mine No. 2 near Carterville in January. He was 55, a driller at the mine. The Horsleys live in Carbondale. Deepest sympathies are extended to Mrs. Horsley and her four children.

Mrs. H. A. Whitecotton (Velmia M. Lauder) teaches at the Sixth Street School in Mascoutah. She has a daughter, Judith Whitecotton Biekert '61.

John Logan Yeach, Jr., attorney at law, has offices in Houston and San Antonio, Tex. He lives in San Antonio with his wife Mary and daughter, Mary Ann.

1930

Mrs. C. B. Rippley (Mabel McMinn, 2), Alton teacher, writes of her twin sons that one is a freshman in pharmacy at Drake University and the other a freshman in law preparatory work at Westminster College.

Mrs. Lloyd R. DeWitt of Mt. Vernon is the former Mary B. Rogers, 2. Viola L. Poirot, 2, '44, M.S. '50, is a first grade teacher in Belleville School District 118.

Another teacher is Helen Dixon, 2, who teaches the sixth grade in the Rockford public schools.

1931

Mrs. Richard Copeland (Dorothy Lynch, 2, '54), Alton, is working on her master's degree at the SIU Alton Center. Last year she taught in the Roxana schools.

Syrupathies are extended to Katie May Kerstine Rushing on the death of her husband, Eldon M. Rushing, January 6 in Carbondale. Two daughters also survive. Mrs. Rushing is librarian at Lincoln School in Carbondale.

1932

Thirtieth Reunion
June 9, 1962

First academy certified social worker of the National Association of Social Workers in southern Illinois is Aileen Neely, regional social work supervisor for the Illinois Department of Mental Health in Carbondale the last 14 years. The association founded the academy in 1960 and Miss Neely served as first president of the area chapter of the association. She has been a social worker 27 years, all but four of them here in southern Illinois. In 1960 she served as a delegate to the White House Conference on Children.

Helen Wayman Bock, 2, '42, is the wife of Dr. Walter W. Bock, physician and surgeon in Boulder, Colo. They have two daughters.

MARRIED: Mrs. Mildred June Goodwin to Howard E. Greer '28-2, November 23, Mattoon. He is principal of the Hawthorne School in Mattoon.

BACK ON THE JOB

He just wouldn't stay retired!

Richard G. Browne '19-2, whose retirement after 33 years in higher education and 10 years as executive officer of the Teachers College Board was reported in the January Southern Alumnus, has acquired a new job.

He was chosen in January as chief executive officer for the new Illinois State Board of Higher Education established by the Illinois Legislature last spring. Mr. Browne's office will be in Springfield.

1937

### Paintings in Ford Times

Two watercolor paintings by Barbara Palmer Mayor, ex ’39, were used as illustrations for the article, “Out of the City by Canoe,” by Harold Adams in the October issue of Ford Times, pocket-size magazine of the Ford Motor Company. The story concerns a weekend paddling trip down the St. Croix River, just an hour from the Minnesota Twin Cities.

Mrs. Mayor has been a commercial artist nearly 20 years. She illustrates the monthly company magazine for Kumian Beauty Salons, Inc., a chain of beauty salons in large department stores.

She is the wife of John D. Mayor, ex ’38, manager of the merchandise division of the Minneapolis Better Business Bureau. They live in Hopkins, Minn., and have three children. Mrs. Mayor is the daughter of I. A. Palmer, former Herrin football coach and now with the legal services division in the Illinois Department of Public Instruction.

Seals is an electronics technician for the University of California at Los Alamos.

To Mr. and Mrs. Richard F. Berutti, Munster, Ind., a daughter, December 23. Mr. Berutti is in sales training with Swift and Company.

Dr. Barrow

T. Randall DuBois, member of the Department of Applied Science since 1957 and administrative assistant of the new School of Technology since September, died December 29 in Carbondale. He joined the faculty after retiring from General Motors Corporation, where he had been a production engineer from 1923 to 1957. He was instrumental in organizing the SIU Engineering Club and helped plan the development of the curriculum for the School of Technology.

1898

Dr. James W. Barrow, 2, one of the founders of Doctors Hospital in Carbondale, president of the SIU Alumni Association in 1913 and one of the University’s most loyal alumni, died December 20 in Carbondale at the age of 87. Native of Jackson County, he had taught for seven years and was principal of high schools in McLeansboro, Mt. Vernon, and Olney, before entering Washington University School of Medicine in St. Louis. He started practicing in Carbondale in 1910. With Dr. Roscoe Lewis he helped form and operate the Amy Lewis Hospital, which now is Holden Hospital. In 1937 Dr. Barrow was joined by his son-in-law, Dr. Leo Brown ’32, and two years later they moved to a clinic. Doctors Hospital was opened in 1950 and a new wing was dedicated to Dr. Barrow in 1954. During World War I he served in the Army Medical Corps. Last June he and Mrs. Barrow (Lucy Patt, 2) celebrated their 60th anniversary. A son James died in November. Another son, Dr. Jack Barrow ’49, and two daughters, Mrs. Brown and Mrs. C. A. Jackson (Alice ’24–25), also survive. Doctors Clinic of Carbondale has established a pre-medical scholarship at SIU in memory of Dr. Barrow.

T. Clinton Colvin, ex, Olney, former member of the board of directors of the Richland County Alumni Chapter and one of its most faithful members, passed away in Olney June 3. He was in his mid-80s. Mr. Colvin had homesteaded near the Ft. Berthold Indian Reservation in North Dakota and once was voted “Teacher of the Year” of the Sunday Schools in this country of the Disciples of Christ Church. He had served many years as city clerk of Olney and secretary of its board of education.

1917

I. Owen Foster, 2, associate professor of history at Indiana University and member of its School of Education since 1926, was killed May 11 near Elwood, Ind., when his car swerved and crashed into another car after he hit a cement block which had dropped from a truck. He had been to Ft. Wayne to teach a class. Before joining the Indiana faculty, he was director of extension and the summer session at Battle Creek College. During 1946–48 he was consultant in education for Indiana State Department of Education and at the time of his death was state director of curriculum development. He also had served as consultant for the U.S. Office of Education and for Coronet Instructional Films of Chicago.

J. Wesley Neville, 2, ’34, Du Quoin, school teacher for 23 years and Perry County superintendent of schools for eight years, died January 18 in Du Quoin at the age of 63. Native of Pinckneyville, he was a veteran of World War I and a past president of the Perry County Historical Society. After retirement from the school system, he operated the Neville Paint and Wallpaper Store in Du Quoin.

1921

Kate Schuler, 2, retired teacher, Memphis, Tenn., is reported deceased following a lengthy illness.

1925

Louis Ruppel, ex, owner of Dutch Boy Trailer Manufacturing Company, Carbondale, since 1951, died October 17 at the age of 54. His firm manufactured horse trailers. He was a native of Jackson County.

1934

Word has been received of the death of Chester W. Adams in November, 1958, in Sacramento, Calif. From Carmi, he had been a captain in the Air Force in Japan during the Korean War.

1949

The death of Mrs. Daisy Renfro Sykes has been reported to the Alumni Office. She had been a teacher in Carrier Mills and in Murphysboro.

1956

Leslie D. Voelkel, ex, Ashley, was killed December 10 in an automobile accident near Nashville. He was a machinist with Stanford Engineering Company in Salem and was 26 years old.

1960

Frederick J. Lampe, VTI, and his three-year-old daughter, Carla Sue, of East St. Louis, were killed in an automobile accident December 31 near Campbell Hill. Another daughter, three-year-old Lisa Mae, was seriously injured. Mr. Lampe, native of Campbell Hill, was a clerk in the National Stockyards Bank in East St. Louis. He was 27.

1961

Raymond Kingery, Carterville, accounting major, died August 3 at John Cockran Veterans Administration Hospital in St. Louis at the age of 47. He was from Carrier Mills.
About 10 per cent of the total undergraduate enrollment on the Carbondale Campus appeared on the Dean’s List by attaining 4.25 grade point average or higher while taking 12 or more hours of classwork during the fall term. Gited by their academic deans for high scholarship were 985 undergraduates. Of this total 145 made a perfect 5.0 average.

More than 200 national publications carried news about SIU during 1961, according to a survey made by the University Information Service. These publications ranged from Harper’s, Saturday Review, and Sports Illustrated to the New York Times Sunday Magazine, Mobile Home Journal, and American Farm Youth. Topics of articles by and about students and faculty ranged from the Peace Corps, the Olympics and taxonomy to the Department of Design, banking, and modern dance.

Research and Study Grants

A grant of $25,400 has been awarded John W. Crenshaw, Jr., assistant professor of zoology, by the U.S. Public Health Service for a three-year research study of x-ray induced mutations. In his work he is investigating the effect x-ray induced polygenic mutations have on reproductive fitness in the flour beetle. The study is based on pilot experiments carried out when Professor Crenshaw was a postdoctoral fellow in the University of California genetics department. He has been at SIU since 1960. . . .Philip J. Dark, professor of anthropology, has received a $12,700 National Science Foundation grant for a two-year study of the tribal art of Benin, ancient West African kingdom. He will complete studies in this field which he began six years ago while on the staff of University College in Ibadan, Nigeria.

Edwardsville Campus News

Among the variety of courses offered during the winter term are classes in the Industrial Management Program, Reading Improvement, Library Materials for Adolescents, Organization and Administration of Industrial Education, Illinois Labor Law, and five special education courses. . . . Mrs. Evelyn Buddemeyer, on the fine arts faculty at the Alton Center, has been elected a member of the council of the Illinois Art Education Association, representing the southwestern part of the state. . . .

Appearing on the Deans’ List for the fall term were the names of 190 students, or an increase of 24 per cent over the fall quarter of last year. . . .

Poems by two freshmen have been selected for the Annual Anthology of College Poetry—“Grandfather” by Joann M. Condellone, Collinsville, and “Youth’s Last Summer” by Patricia Lee Hinkle, East Alton.

Centralia Coed Military Queen

Mary Ann Werner, freshman in Liberal Arts and Sciences from Centralia, was crowned queen of the Military Ball last month in University Center Ballroom. In her court were Sharon Drake, Herrin; Melinda Federer, Springfield; Lynn Maschoff, Arlington Heights; and Rosemarie Garavalia, Harrisburg. . . .
