Harvest Moon Shines on the Campus Lake

Southern Alumnus

November, 1963
Editor's Note—Clifford Fore '33, former assistant water engineer for the Illinois Commerce Commission, went to Liberia in northwest Africa last summer as management consultant to the Monrovian Water Department for the J. G. White Engineering Corporation, New York. Here is an account of his first impressions.

...We got here on August 31 and I do believe that Mrs. Fore would have left me in Dakar if there had been a plane going. From experience I can say I was about of the same opinion the first of July when I came over.

The scene changed considerably by the time we landed here, for there is some pretty nice vegetation—palms, ferns, a few flowers, to make it appear there is some life nearby. This is an experience that is very much different from life in the U.S., especially when it comes to drinking water and its many other uses. The system is very much undersize for the demand, and as a result, the treating facilities cannot do the job intended and the water is not chemically clarified before it reaches the filters. Therefore, we get water that is turbid and colored. The only thing we can do is to boil it and then filter it in our homes. This is a daily task unless one wants an upset stomach. I am looking forward to the day it will be properly treated, filtered, chlorinated and safe to drink.

Of course, safe and adequate water is not the only problem. There must be proper plumbing to prevent back siphonage into the system, which could be a source of contamination to any safe supply. Water means waste disposal and here again is a great task ahead to install proper sewers and waste treating facilities.

Installation of sewers in the hard rock is a slow and expensive task. Water mains can be put over the rocks because there is no danger of freezing. Aside from the high point on which the Ducar Hotel is built, most of the area around Monrovia is level sandy or laterite material tapering out to sea or toward the Messerado River or swamp areas. The coastline is mostly of sand and a few safe beaches are patronized by all who enjoy a swim.

The principal exports are rubber, iron ore,
palm oil and some lumber. There is a program being sponsored by those who hope to train the natives to develop truck crops. They do grow very nice cucumbers here, some citrus fruit, pineapple, and typical tropical fruits.

The natives weave baskets and mats, carve masks, and a very few take up ivory carving. There are a good many who migrate here from adjoining countries and go about as "charlies," selling carvings, spreads, beads, bracelets, etc.

There is a group here from Cornell University, helping with the university program to increase the curriculum. So far as I know, there is no compulsory educational program.

During the last few years there has been a lot of migration into Monrovia from the "bush" area and this has added to the problem of maintaining sanitary conditions. Rent is very high and those who come in must live in and under whatever they can find. It is not uncommon to see people living under construction scaffolding or in other meager quarters hoping they can find better places to live.

Like any other city, Monrovia has its "low housing" areas where conditions are not good from a health viewpoint. The mortality rate is very high among babies.

Roads and highways are being improved and most of the streets are "blacktop." Traffic is heavy and is outgrowing the highway system. The large airport about 50 miles west has a good road all the way but it is maintained in the rubber area or plantations by Firestone.

Fishing is improving but still far below the demand. Inland conservation and fisheries are being studied with the hope of increasing the protein badly needed. There is no local milk but we get very good frozen milk from Denmark—35¢ a quart. The new supermarkets are springing up and have started stocking many of the standard products from the U.S. Most of the meats and dairy products come from Holland and Sweden.

There are many new buildings going up—a new executive mansion costing $25 million, a new courts building costing some $15 million. So you can see, there is money being spent here.

The greatest problem as I see it now is to educate the children, and three-four generations from now there is considerable hope. They believe in President Tubman and he seems to be a leader they need because he hears all their petty grievances and often sits as a judge in their county courts. His decision is usually accepted.

Clifford Fore '33

NOVEMBER, 1963
New Expansion at Data Processing and Computing Center

The Data Processing and Computing Center is a beehive of activity at most any time, day or night. But of late it has been busier than usual, what with members of the staff commuting to Chicago to check out programs, new equipment being installed, the Carbondale and Edwardsville units being linked via telephone lines, and services being expanded all the time.

To prepare for the installation of the IBM 7040 computer late next year, staff members have been traveling to the IBM Data Center in Chicago to test, or debug, programs. The $1.8 million system, built around the 7040, will be leased under a special education plan from IBM at less than half the commercial rental cost. The lease agreement includes 62 hours of check-out time before installation on this campus.

Check-out time is being used in small segments, with test programs arranged in advance here on the campus. All the work possible is done on a program before it is taken to Chicago to run on the new computer, where it may take as little as 15 minutes of the total allowed time.

The planned installation includes ten magnetic tape units, two random access storage units, and remote inquiry units which will allow requests for information to be fed to the computer from other campus offices.

John W. Hamblen, director of the SIU Data Processing and Computing Center, said the new system will have so much greater capacity, speed and flexibility than the one presently in use that "it defies a comparison."

The new system will serve research, instructional and administrative needs of both the Carbondale and Edwardsville campuses. Computing equipment at the two campuses, which are 115 miles apart, has direct telephone line connections which were installed late in the summer. Now communication between the two computer systems is almost instantaneous.

Another exciting feature of the newly installed equipment is the remote inquiry unit, believed to be the first ordered by any college or university. A relatively new development in computing equipment, it will allow key administrative personnel to get information from the computer in a matter of seconds.

The 7040 computer is a rapid binary machine which will have 32,000 "words" of internal storage. Programs to be run on it will be punched on cards, random access units, or internal storage. The program then becomes the "brain" of the computer, telling it what to do with the information or data available in the storage units.

The random access units will allow for storage of computer-coded information totaling up to 112 million characters. In a fraction of a second, an operator can select fiscal records, enrollment figures, student records or other information from the file ready for use on the computer. The computer equipment is used to assemble and maintain records on admissions, registration, grades, personnel, payrolls, curricula, budget and account figures, alumni and placement lists, and many other administrative records as well as for research and instruction.

Mr. Hamblen, who has been at Southern since 1961 and who has set up electronic data processing centers at the University of Kentucky and Oklahoma State University, thinks the system at SIU, which has been built step by step, will rank among the most advanced in U.S. schools, once the installation is complete.

Arthur E. Oldehoeft is manager of the 7040 programming research and development and Thomas Purcell '53, M.A. '60, Hadley Thompson '63, and Arthur Oldehoeft. Mr. Thompson has since joined the Baylor University Medical Center at Houston, Tex.

Staff members of the SIU Data Processing and Computing Center check out programs on the IBM 7040 computer at the IBM Data Center in Chicago—from left, Thomas Purcell '53, M.A. '60, Hadley Thompson '63, and Arthur Oldehoeft. Mr. Thompson has since joined the Baylor University Medical Center at Houston, Tex.
New Chair Created

A new Chair of Southern Illinois History has been created and an all-University screening committee will seek an outstanding person to man it. The position was designated "to increase our contributions and interest in our regional history." With the death of Norman Caldwell and the retirement of John Allen, work in this area has been somewhat restricted.

SIU Vietnam Teachers Stranded

Because of the political unrest in South Vietnam, five members of the SIU educational teams due to leave for that country in September still were stranded in this country last month. They had already separated themselves from campus jobs and were ready to depart for Saigon when the U.S. State Department halted entry of Americans into Vietnam.

Four of the men are scheduled to make their first trip to Southeast Asia, under a 1963-65 contract between SIU and the Agency for International Development. Harold L. DeWeese, assistant principal of University School, is slated to be chief of elementary advisers, replacing Willis Malone '40, who has returned after two years in Saigon to become assistant coordinator in charge of the University's project in South Vietnam.

He, Harold Perkins '50, M.S. '55, who worked last year in educational television at Southern, and Irwin Suloway, of Chicago Teachers College, are on the elementary training team. Arthur Greer of New York University is with the vocational training group.

The fifth man had been in Vietnam two years and was home on leave in Carbondale for the summer. He is John Griswold, member of the faculty at the Vocational-Technical Institute, who cannot get back to his post because of the present restrictions.

Ten members of the SIU teams already in Vietnam are: elementary training group—Elmer Ellis, acting chief of the party; Richard LeFevre, health educator and tennis coach who left campus for Saigon in June; Donald Darnell '54, M.S. '56, who has been teaching at the University of Massachusetts; Fred Armistead '30-2, '38, Harrisburg, who returned there this summer for two more years after spending a month in Illinois; and Harold Richardson.

Vocational training group—Keith Humble, director of Vocational-Technical Institute; Alfred E. DiPietro '58, M.S. '61, of Texas; Paul Paulsen, Battle Creek, Mich.; Lewis Runkle, Peoria; and Christ Kardas, LaGrange.

Report to Congress

L. V. Olah, professor of botany, and Alan G. Underbrink, M.S. '61, graduate assistant and doctoral degree candidate in that department, were at The Hague, Netherlands, last month, attending the 11th International Congress of Genetics. Both are reading papers on tumor-producing plant tissue research conducted during the last four years.

Among other things, Professor Olah has shown that plant tissue tumors may result from sterols precipitated by introduction of an agent to stimulate cell division. His studies indicate that sterols, solid higher alcohols widely distributed in both plant and animal tissues, play an important role in regulating cell division systems. He will continue to try identifying that role.

The two men also prepared a display for the congress exhibit hall, using light and electron micrographs, microscopic slides and other demonstration material. The congress, held every five years, traditionally draws some 2,000 delegates from all over the world.

Professor Olah appeared once before at the congress, when he reported on a rare parasitic plant found only in...
News of the Campus

Java. Before coming to SIU four years ago, he was director of the Treab Laboratory of the world-famous Java Botanic Gardens where Indonesian President Sukarno makes his home.

Retiring Faculty Members

Five members of the faculty whose years of teaching at Southern total 177 years retired September 1.

Frances M. Barbour, associate professor of English, member of the faculty since 1925, is remaining on campus awhile to teach half time. She received bachelor's and master's degrees from Washington University, St. Louis, and has done graduate work at the University of Wisconsin, Radcliffe College, University of London, and University of Texas. Miss Barbour has served as president of the Beta Association (Illinois) of Phi Beta Kappa and of the Illinois Folklore Society.

Susie E. Ogden '30, associate professor of accounting, had taught at Southern 31 years. She holds a master's degree from the University of Illinois and is a member of the American Accounting Association, American Economics Association, Academy of Political and Social Science, National Association of Business Education, and Delta Kappa Gamma. Miss Ogden has been faculty adviser for Pi Omega Pi and the Commerce Club.

Gladys L. Smith '22-26, assistant professor in the University School and social studies supervisor since 1938, had been on the faculty since 1931. She has a master of arts degree from Columbia Teachers College. She taught in Vienna, Herrin, and Johnson and Jackson schools before joining the faculty at Southern. In 1957 she received a Valley Forge Freedom Foundation Award when she participated in a pilgrimage to Valley Forge for teaching citizenship in a unit in American history.

Hilda Stein '22-25, associate professor of zoology, has been a Southern teacher 38 years. Known for her fondness of field trips, she has become an authority on botany, entomology, and ornithology. Organizer of the first sorority on the SINU campus, she has served as national first vice president of Delta Sigma Epsilon, which later became Alpha Gamma Delta. She received the Arc of Epsilon Pi, highest award of Alpha Gamma Delta. Miss Stein also served as state president of American Association of University Women, the only one to serve two terms in that post. She is a member of the board of directors of the SIU Alumni Association.

Lone male in the quintet of retirees is John I. Wright '22-2, associate professor of history and member of the faculty 38 years. In addition to his teaching, he was superintendent of grounds and buildings, member of the 1938 faculty committee to raise funds for McAndrew Stadium, active supporter for the state bill which gave Southern full university status in 1943, and faculty adviser to numerous groups. He was mayor of Carbondale three terms after serving as city commissioner. He recently was named to the Carbondale City Commission. Professor Wright has a reputation as a hunter, fisherman and colorful raconteur.

Special Program for Slow Learners

A five-year experimental education program aimed at cutting down the present high school drop-out rate went into effect this fall at Quincy. A federal grant of $135,641 covers the first two years.

Teachers and staff members involved in the project worked all summer on the problem of better methods of educating slow learners. Sponsoring the program are SIU's Center for the Study of Crime, Delinquency and Corrections at the Edwardsville Campus, the Quincy school board, Office of the Illinois Superintendent of Public Instruction, and the U.S. Office of Education.

A course outline for the project is aimed at giving the slow learner better vocational preparation, keeping him in school until graduation, and helping him develop adequate personal and emotional traits. The goal of the program is creation of a curriculum better suited to the needs of slow learners who make up a major block of the drop-outs. Nationwide, about 33 per cent of those entering junior high school never make it through the 12th grade.

The program, which involves about 250 students, calls for book study and part-time work to help develop good job attitudes and a sense of responsibility. Area businesses and trade unions in Quincy have indicated willingness to help train the students.

Prof. Charles V. Matthews, director of Southern's Delinquency Study project at Edwardsville, helped design the new program.
Southern Players Open Season

The Southern Players opened their 1963-64 season Homecoming weekend with the Pulitzer Prize-winning "Teahouse of the August Moon" by John Patrick. It was directed by Archibald McLeod, chairman of the Department of Theater.

The second play, produced the last week in November, will be Molière's farce, "The Would-Be Gentleman," which will tour 30 Illinois communities in addition to the campus production. Charles Zoekler will direct.

Max Gorelik, research professor in theater, will direct the third play, "The Good Woman of Setzuan," by Bertolt Brecht, February 7-9, and 11-15. Professor Gorelik, well-known scene designer and theater historian, is the foremost American interpreter of Brecht's plays.

"The Birthday Party," an example of the new Absurdist school of drama, will be directed by Jim Bob Stephenson, visiting professor in theater next spring. Written by the English playwright, Harold Pinter, the play represents a new movement in theater. It will be given April 10-12 and 14-18.

The season will close with an anniversary performance of Shakespeare's "Richard II," directed by Christian Moe. The play, running May 15-17 and 19-23, will celebrate the 400th anniversary of the dramatist's birth.

New Course in Mortuary Science

A new two-year course of study in mortuary science was activated this fall at the Vocational-Technical Institute.

Students successfully completing the eight terms of college work required in the course will qualify for positions as apprentice embalmers or funeral director trainees in Illinois. After one year as an apprentice embalmer or two years as a funeral director trainee, the student may qualify for Illinois licenses as an embalmer or a funeral director.

The VTI curriculum has been developed in cooperation with the Illinois Funeral Directors Association's education committee headed by William Froelich, Jr., Gridley, and more than meets state requirements for such training. The course of study will fill an urgent need of the profession as there currently is only one privately-operated mortuary school in the state and that in Chicago.

In addition to regular University general studies courses in English, psychology, sociology, economics, government, speech, and chemistry, the mortuary science program includes specialized courses in funeral history and customs; psychology of the funeral service; embalming theory, chemistry and practices; anatomy, pathology and microbiology for morticians; the restorative art in mortuary science; first aid; public health and mortuary laws and regulations; mortuary management, and business courses related to funeral directing.

Pigs Putting Him Through College

Seven hundred guinea pigs are putting 20-year-old Charles Yates through Southern. The Fine Arts student from West Frankfort says his stable of pigs not only pays his college expenses but also supports his wife and two-year-old son.

A senior in art education, he raises the pigs on an uncle's farm near West Frankfort. Starting out five years ago on a very modest scale (a relative moved to Chicago and gave him four guinea pigs). Mr. Yates has worked his business up to 700 breeding pigs and sends out large shipments.

He is a member of a local organization of breeders who sell most of their pigs to a broker who in turn distributes them to laboratories. Some come to the University.

Pigs ordered for shipment are about two weeks old, albinos preferred, and bring from 90 cents to $1.35 each.

Sales usually run about 400 a month from Mr. Yates' stock. One month the breeders' organization sold as many as 12,000, but this is unusual.

The 15-acre farm where the animals are raised is planted in the summer with clover and lettuce to be fed to the stock. During the winter head lettuce is bought from produce sources. The pigs also get a regular diet of prepared food pellets in the winter. The building is heated by a large coal stove.

There is lot of work and care to raising guinea pigs. They must be watered three times a day and disease is a big problem. This work, plus commuting 60 miles a day, studying and attending classes, make for a long full day for Charles Yates.
Hoping to duplicate last year’s superb 20–10 record which included several wins over major opponents, Southern’s Saluki cagers will have ample opportunity to impress national basketball experts early this season as they are slated to face Indiana, Oklahoma State, Toledo, and Ohio University in their first four starts.

Coach Jack Hartman, looking forward to his second season at SIU after guiding the Salukis to a fourth-place finish in the NCAA college division tournament last year, will be without the services of four starters, however, and will have to rely heavily on underclassmen.

Nevertheless, the former Oklahoma State star athlete is expecting fine things of this year’s club which will be formed around returning lettermen Joe Ramsey, Sandoval; Paul Henry, Indianapolis; Eldon Bigham, Pinckneyville; Rod Linder, Centralia; Duane Warning, Frankfort; Eddie Blythe, Carbondale; and Thurman Brooks, Memphis, Tenn.

Also expected to provide help are sophomores Boyd O’Neal, Philadelphia; George McNeill, St. Louis; Lloyd Stovall, Memphis, Tenn.; Dave Lee, McLeansboro; Randy Goin, Rankin; Clem Quillman, Percy, and Charles Gore, Elgin, as well as transfers Dan Hull and Ed Searcy.

Tennessee A. & I., a perennial favorite with Carbondale fans, will provide the opposition for the Salukis in their first home game January 6 while Rolla School of Mines, Chicago Teachers, Fort Campbell, Culver Stockton College, MacMurray, Ohio Central State, Southwest Missouri State, and Kentucky Wesleyan will also appear here.

In addition to opening against the four major clubs, the Salukis will meet Louisville, a member of the Missouri Valley Conference, and college division powerhouse Evansville on the road. Coach Hartman’s outfit will also play in the Missouri Intercollegiate Invitational Tournament December 19–21.

The complete schedule follows:

**November**
- 19–21 at Missouri Intercollegiate Invitational Tournament, Springfield, Mo.

**December**
- 3 at Oklahoma State
- 7 at Toledo
- 9 at Ohio State

**January**
- 6 Tennessee A. & I.
- 10 Rolla School of Mines
- 13 at Kentucky Wesleyan
- 16 at Rolla School of Mines
- 18 Chicago Teachers
- 24 Fort Campbell
- 29 Culver Stockton
- 31 MacMurray College

**February**
- 3 at Tennessee A. & I.
- 7 Ohio Central State
- 8 at Evansville College
- 11 Southwest Missouri State
- 15 at Louisville
- 21 at Southwest Missouri State
- 22 at Central Missouri State
- 24 Kentucky Wesleyan

The Peruvian national all-star team is scheduled to meet the Saluki basketball team in a special exhibition game at Carbondale late in January, one of 10 to 12 games the South Americans will play while touring the U.S. The Peru team will represent their country in the 1964 Olympic games in Tokyo.

Activity is also well underway in the three other winter sports, wrestling, swimming and gymnastics. Coaches Jim Wilkinson, Ralph Casey and Bill Meade are all anticipating fine seasons with enough experienced performers returning to provide solid backing.

Larry Kristoff, current National AAU heavyweight champion who represented the United States in Japan’s pre-Olympic trials last month, will be the key member of Wilkinson’s squad while Jack Schiltz, Ted Petras, Darrell Green and John Robbins will be top point winners for Casey’s swimmers.

Meade, after three straight second-place finishes in NCAA competition, is still hopeful of moving up one notch and will have Rusty Mitchell, Dennis Wolf, Steve Pastorak, Bill Hladik and Tom Geocaris returning.

Meanwhile, four games, including three against major foes, remain on Southern’s football schedule and Coach Carmen Piccone is shooting for an upset over at least one of the toughies.

After playing at Tulsa November 2, the Salukis close out their home season November 9 against North Dakota State and wind up the following two Saturdays against Toledo and North Texas State.

Injuries in key positions and mistakes caused by inexperienced personnel proved costly to Southern early in the season and resulted in several early shakeups. Recent improvement, however, has given Piccone and his aides hopes of a strong finish.

**Results:**
- Evansville 15, Southern 14
- Bowling Green 31, Southern 6
- Southern 13, Louisville 7
- Southern 47, Lincoln 8
- The 100-man Marching Band, which adds color, glamor and excitement to every home game, is slated to accompany the football team to the University of Tulsa November 2.
SIU Arena Ready Next Spring

The SIU Arena is slated for completion in May of 1964. Renamed the Arena because Physical Education-Military Training Building was a mouth-filler, it will be a multi-purpose structure for all phases of campus life.

Sports-wise it will house physical education classes for thousands of students, a varied and intensive program of intramural sports, an adequate and well-appointed arena for intercollegiate athletics. For the AF ROTC unit it will provide drill area, classrooms and offices. In addition the SIU Arena will provide a large enough area for such events as commencement, student convocations, concerts, and shows.

New Honors for Former Coach

Lingle in Helms Hall of Fame

The dean of Southern's coaching staff now is a member of the Helms Hall of Fame in Los Angeles. Leland P. (Doc) Lingle '21-2, '27, track coach for 33 years, was notified of this singular honor last summer. The Helms Foundation honors top coaches in all collegiate sports.

Doc retired from coaching in 1960 but has continued as a teacher in physical education, counselor for P. E. majors and minors, and an advisory coach. He was the first and only track coach until three years ago when ill health forced him to retire from active coaching.

During his 33 years as track coach his teams won 129 dual meets, lost 43 and tied one. Honors included 11 Illinois State College Championships and two Interstate Conference crowns—in 1938 and in 1946.

Two of his athletes have appeared in the Olympics—Ken Cole in 1936 as a hop-step-and jump specialist in Berlin and Philip Coleman in 1956 as a steeple-chaser in Australia. Doc made the trip to Australia to see Phil participate when alumni and friends raised a fund to send him. In 1952 he was honored at the all-sports banquet on his 25th coaching anniversary.

This may or may not be Southern's first basketball team. In any event, it is one of the earliest. Coached by Hans Ballin, German and physical training instructor from 1894 to 1896, the team played in the wooden frame building in the background, the temporary building which had housed the University between the fire of 1883 and completion of Old Main in 1887. Mr. Ballin stands behind his stalwart players who are, from left, Robert Munger, Orville Karraker, (unidentified), Arthur J. Cross, Logan Kimsey, William Gordon Murphy, James W. Barrow, Prof. Samuel B. Whitington (coach), John P. Gilbert, Walter W. Williams, (unidentified), J. P. Kirk, J. Frank Daniel, Charles Webkemeyer, Harry J. Alvis, John Barrow, and Etherton. When Old Science, now Altgeld Hall, was occupied in 1896, the gymnasium was moved into it and the physical training department had better equipped quarters for the next 30 years prior to getting its own gymnasium building.

NOVEMBER, 1963
Sessions of the workshop were held in Muckelroy Auditorium.

At the speakers' table, from left, Donald Boydstun, chairman of the athletic department; John Anderson, coordinator of Research and Projects, Alumni Secretary Elizabeth Harris Lewis, Alumni President William Bracy, Field Representative Jay King, and Executive Director Robert Odaniell.

Mrs. Susan Crews Sill, VTI '58, of the Alumni Office staff, greets Mr. and Mrs. Elmer H. Trost (Opal Morgan Smith '29-2, '49, M.S. '58) of Columbia. At right, Mrs. Idene E. Stockton '59 and Mrs. Michael Rusiewski (Mary Wepiewski '63) of Tamara register early.

Below—Mr. and Mrs. Willis E. Coatney '55 (Thelma Millikin '56), Normal, and Roger Spear '48, Carbondale, study the number and variety of Alumni Association activities.

Coffee break found Mrs. Richard A. Hunsaker (Patricia Cook '57, M.S. '60) and Mr. Hunsaker '58, Belleville; Field Representative Warren Stookey '50, Wood River; Joe Smoltz, Jr. '56, Edwardsville; and Patrick H. Mudd '55, M.S. '59, Dupo, comparing notes.
Club Officer's Workshop

Twenty-two of the 47 clubs on the Alumni Association alumni club roster were represented at the seventh annual Alumni Club Officers Workshop on the Carbondale Campus September 28. Switching to the fall season to avoid the ice and snow which accompanied previous workshops held during the winter, the workshop had a full-day schedule.

Starting with registration at 9:30 Saturday morning, the program included reports on research and project activities of the University by the department's coordinator, John Anderson, and of the athletic situation by Donald Boydston, chairman of the athletic department.

Alumni executive director Robert Odaniell spoke on the telephone campaigns of the Jackson and Madison county clubs and of the forthcoming lecture series for clubs by University or local people. Field Representative Jay King, who planned and arranged the workshop, covered club operation in his talk.

A barbecue chicken luncheon, prepared and served by College of Agriculture personnel, was held on the lawn of the Agriculture Building. President D. W. Morris appeared to welcome the club officers and speak briefly on the University—its programs, construction, plans, and future.

The club officers then divided into groups for discussions pertinent to club activities before taking a bus tour of the Arena and Wham Education Building. That evening they attended the SIU-Bowling Green football game, ending the workshop on a not-so-successful note.
Richard Browne '19-2, executive director of the Illinois State Board of Higher Education and adviser to the SIU Bloomington Area Alumni Club, congratulates Patricia Barth, Normal, as winner of a scholarship from the club.

Bloomington Club Gives Scholarship

The Bloomington Area Alumni Club presented its second $50 scholarship to Patricia Barth, Normal, at its annual fall picnic September 8 at Funk Research Acres. Miss Barth, a sophomore in the College of Liberal Arts and Sciences, held the highest grade average of McLean County freshmen at Southern last year.

William Bracy, Herrin, president of the SIU Alumni Association, and Jay King, association field representative, joined 47 members of the club and their guests at the picnic.

On October 25 the Bloomington club was to hold a square dance and Dutch auction to raise funds for its 1964 scholarship.

Willis E. Coatey '55, Normal, is president of the group.

SIU Professor Meets Benelux Club

Prof. Walter J. Wills, chairman of the Department of Agricultural Industries, and Mrs. Wills were guests of the Benelux Alumni Chapter at dinner May 17 at the Ecu de France restaurant in Brussels. Later the group went to the home of Camille Albert Becker, M.S. '57, where Professor Wills showed slides of the SIU campus and reported on University activities.

Present at the meeting were Philippe Leurquin, M.S. '60, who came from Charleroi, where he is in the economics department of the Providence Steelworks; Mr. and Mrs. Michel A. Friedlich '61, M.S. '62 (Olga Berler Friedlich '61, M.S. '62)—he is with Ford International and she is working on a Ph.D. in psychology at the University of Brussels; Guy Stuckens, M.S. '62, with the Belgian Navy and who was shortly to leave for a Mediterranean tour; and Mr. Becker.

Those who could not attend included Jean Henaux, M.S. '58, who was in Luxembourg; Andre Kahn, M.A. '59, in London; Mrs. Kahn (Eva Sinreich, M.A. '59), in Vienna; Warren Taylor, ex '36, in South Africa; Fernand Criel, M.A. '61, in Canada; and Mr. and Mrs. Lorenzo Stampa, M.A. '61 (Christianne, ex '61).

Professor Wills was on a three-month tour, studying agriculture cooperatives, marketing, farm credit and agriculture education in England, Scotland, Denmark, Belgium, the Netherlands, Switzerland, and Italy. Mr. Becker, who is a member of the staff of the secretariat of the Council of Ministers of the Common Market in Brussels, served as guide to the Willses during their visit in Brussels. He now is attending the Woodrow Wilson School of International Affairs at Princeton University on a fellowship.

The Benelux Club extends an invitation to all SIU faculty, alumni and students to call on them when visiting Belgium.

This is the 1963-64 slate of officers of the Peoria Alumni Club. Front row, from left, Harvard Keefe, Jr. '57, board member; J. K. White '25-2, '32, board member and retiring president; Robert Steele '62, vice president; Loren H. Allen '37, president; and Mrs. Darrell E. Bell (Norma A. Zacheis '58), secretary. Back row, John M. Brooks '38, treasurer; George A. Franklin '38 and Marion Newman '50, board members.
During the spring of 1963, the SIU Department of Theater selected 12 outstanding students and graduates of 10 universities from over 30 applications to participate in the Summer Theater Workshop. These students were to begin eight exhausting weeks of study and practical work.

The actors worked in five plays differing in dramatic mode and national origin from the commedia dell'arte of Goldoni to the modern tragedy of Ibsen and the expressionism of O'Neill. Their efforts were under the able guidance of five directors: Archibald McLeod, chairman of the Department of Theater; Sherwin Abrams; Charles Zoeckler; and guest directors Clifford Haislip and Roy Weshinskey.

All sets were designed and their construction supervised by Darwin Payne.

With five plays to be produced within the extremely short space of only seven weeks, the students found their days crowded with activity.

After mid-morning coffee break, work was resumed on rehearsals for the following week's play. Set construction and costuming dominated their afternoons. Later, that evening, the current production marked the conclusion of a very busy day.

Story and photographs by students Sherman Sharp, Frank Salmo, and Robert Golding
Not all of the actors' time is spent inside the theater. Lowell Scribner, above, Phillips University, Oklahoma, and Barbara Eberhards, Denison University, Ohio, and William Lindstrom, SIU, below, study their lines prior to a final dress rehearsal.

Above—Special lighting effects for "Great God Brown" require close attention from James Symons, Illinois College. Below—Darwin Payne designed and supervised the building of each set.

Summer theater students have a chance to engage in all phases of technical direction. Susan Schulman paints a flat for one of the five different sets.

Because of the short time between plays in SIU's summer theater, actors must memorize many of their lines during "walk through" rehearsals.

Director Archibald McLeod, left, and technical director Charles Zoeckler.
The heavy make up used in the theater is evident as Charles Fischer, Northwestern State College, Oklahoma, readies himself for “Rashomon.”

Susan Schulman, above, Hofstra College, New York, and Richard Spiegel, below, Rutgers University, New Jersey, add final touches to their costumes.
Director Roy Weshinskey makes a final check of the actors before the opening performance of "A Servant of Two Masters." Below, Lowell Scribner and Richard Spiegel in the Goldoni comedy.

Carol Plonkey, above, SIU, and Barbara Eberhardt in Ibsen's social drama, "Rosmersholm," and, below, a scene from Eugene O'Neill's expressionistic play, "Great God Brown," directed by Sherwin Abrams and starring Lowell Scribner and Gary Moore, San Francisco State College, California.
Tailor-Made Furniture
by the Taylors

Back in the 1920's Evansville, Ind., was a thriving furniture center. Now only a few of the factories remain. But one small shop in that city continues the reputation for fine furniture—Taylor's Custom Furniture, owned and operated by Mr. and Mrs. Walter I. Taylor, Jr. (Veda Pauline Kieser, ex '46).

Located at 7 Washington Avenue, the shop specializes in upholstered furniture, especially living room furniture. They design and make new furniture as well as reupholster, redesign and restyle old furniture.

The Taylors have lived in Evansville 15 years. Mr. Taylor, who is from Mill Shoals, worked for a furniture company and as a sideline made custom furniture. Nine years ago he decided to go into business for himself and made a workshop in his garage. Seven years ago he and Mrs. Taylor moved their living quarters up on the second floor of their home and made a showroom on the first floor. Now they have a home away from the shop and are expanding the workshop and showroom to take care of the increasing business. They are adding home furnishings and accessories for complete interior decoration service.

Mrs. Taylor, who is from Burnt Prairie, studied to be a teacher and did teach in the rural schools in that area two years before she was married. She takes care of the decorating line and color schemes of the business which covers not only the Evansville area but southern Illinois and parts of Kentucky. They have two full-time and three part-time workers.

Quality of materials and workmanship and fine service have been the foundation for the Taylors' successful enterprise.
Remember Lake Ridgway? That’s the gymnasium in right background.

1880

Medical recipes for cancer, warts, removal of tattoo marks, and treating colic in horses are among the clippings in a scrapbook collected during a practice of almost seven decades by Dr. John Jacob Rendleman, ex, Cairo surgeon who died in 1952. The scrapbook was presented recently by Dr. Rendleman’s daughter, Mrs. Adelaide R. Grieve, who makes her home almost seven decades by Dr.

John Jacob Rendleman, born in Makanda in 1863, completed his doctor of medicine degree at the University of Tennessee in 1885 and graduated in surgery from Jefferson Medical College, Philadelphia, in 1886. He established his practice in Cairo in 1889 and during his early medical career he made his calls on horseback, carrying his supplies in saddlebags.

He was a member of the staff at St. Mary’s Hospital in Cairo and the Missouri Pacific Hospital in St. Louis, also serving as surgeon for the New York Central, GM & O, and Missouri Pacific railroads. During the Spanish-American War he held the rank of major.

Dr. Rendleman was a grandson of Jacob Rendleman, Sr., original settler who founded the southern Illinois branch of the Rendleman family, coming from North Carolina where his forebears had settled in the 16th century.

1907

On August 11 Mr. and Mrs. J. Lee Rauch (Mabel Thompson, ex) celebrated their golden wedding anniversary at their home in Hollywood, Calif. Natives of southern Illinois (he from Anna and she born in a house that was located on what now is the SIU campus), they have lived on the West Coast for many years. Mr. Rauch is a retired movie executive and Mrs. Rauch continues her writing about “Little Egypt.” She is working on her third historical novel concerning southern Illinois.

1913

One of the members of the class who attended the Golden Reunion on Alumni Day in June was LaCene Black, 2, of Clinton, Mo. Native of Fairfield, she had lived in Coulterville, where her father was superintendent of schools, until 1902, when they moved to Carbondale and he joined the SINU faculty. All of her school days from the fourth grade through graduation in 1913 were spent on the Southern campus. She taught in Carbondale schools three years, then in 1918 became associated with the First National Bank in Carbondale for 35 years, serving as assistant cashier and for a long time as secretary to the president. In 1949 she moved to Missouri. She concludes, “...there has been rain and sunshine in my life, but much more sweet than bitter.”

Unable to attend the reunion was Mary Gall Leach, 2, Los Angeles. Before retiring several years ago, she was on the staff of homes for the aged at Claremont and Hollywood, Calif. Her brother, Roscoe R. Leach ’14-2, lives in Toledo, O., and her sister, Glyde ’16-2 (Mrs. Frank Hill) in Victoria, Vancouver Island, B.C., Canada.

1914

Tina Mary Goodwin, 2, ’28, Carbondale, retired first grade supervisor at University School, was one of 20 school teachers and administrators honored last spring by the Educational Council of 100 for outstanding records over a period of years. She retired in 1961 with the rank of assistant professor.

1918

Ina Brown, 2, ’33, art teacher at Carbondale Community and Attucks High Schools, resigned at the end of the 1962-63 school year. Native of Pinckneyville, she started teaching in Johnston City in 1919. She joined the Carbondale Community faculty in 1957. Miss Brown attended the 45th class reunion on Alumni Day.

Hill Warren, 2, mathematics instructor
Retires from Eastern

Business manager of Eastern Illinois University, Charleston, since September, 1934, Raymond R. Gregg '17-2 has retired this year. After receiving his diploma from SINU, he served in the U.S. Navy from 1917 to 1919, then spent the next two years teaching mathematics at West Frankfort High School. He quit teaching to attend the University of Chicago, where he received a bachelor of philosophy in 1922 and a master of arts in 1923.

Mr. Gregg taught bookkeeping for five years at Waukegan Township High School before he went to Dakota Wesleyan University, where he was business manager and head of the economics department from 1930 to 1934, when he joined the staff at Eastern Illinois.

at Largo, Fla., High School, was unable to attend the reunion because his school year ended June 11. But he hopes to come back for the '68 reunion. Mr. Warren retired from the Illinois schools three years ago, moved to Florida, and two months later was back in teaching. Since he started teaching in 1913, he decided to retire last spring for good. From Dunedin, where he resides, he wrote, "We are always glad to see southern Illinois friends, and Dunedin has the best climate in the world."

1922

Mrs. Virgil Kinder (Maude Rhodes, ex) lives in Jonesboro, where her husband is a carpenter and builder. She has done substitute teaching. Two children attended Southern—Harold R., ex '47, Orange, Calif., and Mrs. Robert J. Cowley (Virginia Carol, VTI '50), Chicago.

1923

Mrs. Dwight L. McCormack (Mary L. Van Sickle, 2), Dallas, Tex., had planned to attend the 40th Reunion of the class in June but the date conflicted with a European tour. Since the death of Judge McCormack four years ago, she has been teaching at Highland Park High School in Dallas and this year is chairman of social sciences. The school has been rated eighth in the nation and has had four national merit scholarships, ranking third next to New York City and Detroit.

Clarence E. Wright, 2, Carbondale, was elected chief judge of the First Judicial Circuit in July and will serve until January 1, when the new Illinois judicial article becomes effective and a permanent chief judge is elected. He supervises over two other circuit judges, nine county court judges in the circuit, all city judges, justices of the peace, and police magistrates.

1924

Mrs. J. H. Berkbigler (Esther Blackwood, 2, '47, M.S. '53), Murphysboro, is a teacher for the physically handicapped in Community Unity District 186.

Ruth L. Walters, 2, '58, who resigned in 1960 because of ill health after teaching since 1925 in the Centralia schools, now lives in St. Louis, where she works part time as a church secretary.

1925

Nora Marie Hall, 2, resigned as first grade teacher at Carterville Grade School last summer to teach in the Ottawa schools.

Mrs. George E. Dodd (Gertrude A. Dodd '22-2), formerly of Mt. Vernon, has been a resident of Phoenix, Ariz., for more than 10 years. She has two sons, Halbert and Everett.

Emily L. McGuire, 2, Cicero, formerly of Makanda, has retired from teaching. She served as secretary of the Chicago Area Alumni Club in 1950-51. Miss McGuire has been a member of the Alumni Association 15 years.

1926

Leon Grant, 2, '40, Marion, is a claims deputy with the Illinois State Department of Labor.

Margaret Mae Curtis, 2, has taught in the Oak Park schools for over 15 years. She has a master's degree from DePaul University in Chicago.

Gertrude E. Munger is retired from teaching and lives in East Prairie, Mo.

1927

Deepest sympathies are extended to Mrs. Myrtle Allen McKinnie, 2, '61, whose husband, Cato McKinnie, died in Murphysboro July 29 at the age of 72. He was an interior decorator and contractor. Also surviving are five children, including Mrs. Milton G. Dunham (Marion Christine McKinnie '52, M.S. '54) and Mrs. Gerald West (Blondel McKinnie '57, M.S. '59), two brothers and two sisters, including Mrs. Hattie M. Woodson '28-2.

Walter M. Troutman, 2, '42, machine shop instructor and teacher of trade and industrial classes at Herrin High School for 20 years, retired last spring after 37 years of teaching.

After 38 years of teaching, Fred H. Milker '24-2 retired and moved from Normal, where he was on the faculty of Normal Community High School, to Florida, where he is doing substitute teaching. He lives in Clearwater and would like to meet alumni in that area.

1928

Enroute to a board meeting of the National Baptist Convention, Inc., last summer, William H. Pryor, 2, '41, visited in Carbondale and spoke at the Rockhill Baptist Church. He is executive secretary of the National Baptist Laymen. Professor Pryor lives in San Francisco and is a specialist in reading in the Oakland public schools. He was principal of Lovejoy School at Mound City and Lincoln School at Centralia before serving in the Army during World War II. He was stationed in Germany, where he participated in the Berlin airlift after the war. Professor Pryor has a master's degree from San Francisco State College and a Ph.D. from the University of California. He and Mrs. Pryor became the parents of a daughter born August 26 in San Francisco.

Mrs. Robert Eadie (Nellie Horrell, 2) lives in Decatur, where her husband is principal of Brown's Business College.

1929

William H. Bundy '27-2, member of the Marion High School faculty since 1932 and principal since 1953, has been promoted to assistant Marion Unit Two superintendent. He taught three years at Crab Orchard High School before going to
Marion, where he has been biology teacher, assistant coach, coach, assistant principal, and finally principal before his recent appointment.

Luciva F. Ward, 2, '49, is a fifth grade teacher in the Herrin city schools.

1930

In the June Reader's Digest appeared the article, "Here's a New Kind of Summer School," concerning the very successful Mark Twain Summer Institute at Clayton, Mo., in its fifth year last summer. Director of the institute is Robert F. Lemen, husband of the former Dorothy Putnam, 2. Enrolled in the institute were some 420 gifted students from 101 public, private, and parochial schools of the St. Louis area. Although given grades for their work but no credit, these students study science, music, foreign language, art, history, mathematics. The program is financed by the Spirit of St. Louis Fund and local contributions. Mr. Lemen is a principal and Mrs. Lemen is a kindergarten teacher in the Overland, Mo., schools.

Willett S. B. Dean '25-2, Carterville, is director of the science department of Marion High School. He is a former principal of Freeburg Community High School and Carterville Community High School. Mrs. Dean is the former Edith Barrow, ex '27; they have three children, including the Rev. Willet R. Dean '51, East St. Louis.

1931

Arthur Nobles has been on the faculty of Calumet, Mich., High School since 1939. He teaches history and government. He and his wife Leona live in Laurium, Mich., and have two daughters, Jo Ann and Mary Jane. Mr. Nobles has been a member of the Alumni Association 14 years.

Judge A. Ray Cagle, ex, Marion city judge and former Williamson County judge, has been named to the executive committee of the Illinois Council of Juvenile Court Judges. The council, formed last spring and composed of 16 juvenile and family court judges, seeks to improve standards, practices, and effectiveness of juvenile courts in protecting and promoting rights and interests of delinquent and dependent children. It is affiliated with the National Council of Juvenile Court Judges.

1933

"The Travels of Jaimie McPheeters," Pulitzer prize novel by Robert Lewis Taylor, ex, has been made into a TV series which was premiered in September on ABC. Dan O'Herrilby stars as Doc in this humorous western tale of Jaimie and his father who travel by wagon train from Kentucky to California during the gold rush.

From North Reading, Mass., Mrs. Chandler Eaton (Mary C. Hood) sent her regrets at being unable to attend the class reunion in June. She is a mathematics teacher at Reading Memorial High School. After graduation she went East to teach, married a Harvard graduate who was with the safety and health department of Lever Brothers for many years, then returned to Harvard to join its University Health Services. They have two children—Chandler, Jr., a graduate of Lowell Technological Institute and now in electronics with Western Electric at Andover, Mass., and Virginia, a junior at Marietta College in Ohio, majoring in mathematics.

1934

Robert William Finley is an associate professor of geography at the University of Wisconsin, Madison, Wis. He and his wife Charlotte have two children.

The new position, director of extended school services, has been established by Township High School District 214, Arlington Heights, to start this fall and William L. (Pat) Randle, M.S. '47, is the first to occupy it. Mr. Randle went to Arlington Heights High School in 1959 as vocational guidance counselor and last year served as director of its Evening Adult Education program. He had been at SIU since 1945 and in 1956 was named supervisor of adult education. In his new post he is directing both night school and summer school and acting as district public relations director.

1935

Almalee Greenlee is a counselor at Downers Grove High School. After receiving a master's degree from the University of Illinois in 1941, she taught four summer sessions attending the universities of Colorado, Hawaii, Wisconsin, and Denver before receiving certification in guidance and counseling in 1961.

Lowell Flener is a mathematics teacher at Oakwood Township High School. He and his wife, Dorothea Leah, live in Fithian with their two children, Thomas and Mary.

In East St. Louis School District 189, Mrs. Herbert Abegg (Irene Sumner) is on the faculty of Webster School. She lives in Caseyville and has two children.

1936

Mrs. Charles F. Koopman (Harriet L. Schimpe) is a teacher in the Robinson schools. She has a son.

Robert Dintelman, East Wenatchee, Wash., is superintendent of Eastmont School District 206. Before moving west, he was superintendent of Carmi grade schools and principal of Wright School in Clayton, Mo.

Herman D. Yehling, Du Quoin, is an account executive with E. F. MacDonald Stamp Company. He formerly was advertising manager of the Du Quoin Evening Call. He is married and has three children.

In State Office

Roy Clark

First assistant to the Illinois state superintendent of public instruction in Springfield is Roy Clark '26-2, '33. This is the second time Mr. Clark has served in that office, having been assistant superintendent and supervisor of elementary and high schools for the 40 northern counties during the 1940's.

He has over 35 years of experience as a teacher, principal, and superintendent and prior to joining the staff of the state superintendent last January was superintendent of schools for the Oak Lawn-Hometown District 123 in Oak Lawn for three years.

Mr. Clark has been coordinator of a Ford Foundation Educational Study for the Fourteen Large Cities in America and has taught philosophy and school administration at Chicago Teachers College and during summer session at DePaul University.

November, 1963
1937

Jay Friedline has moved from Rockport, Mass., to San Francisco, where he is doing interior design work. He formerly had an antique and interior decorating business in Gloucester, Mass.—the Jay Chapman Beaupert Gallery—and at one time was head of the art department at Stoneleigh College, Rye Beach, N.H. He also has studied pipe organ at St. Thomas Church in New York City.

Also in California is Wilburn E. King, of Bellflower, who is principal of the Downey Unified School District. He is married and has three daughters and a son.

Robert W. McMillan has been promoted to the rank of professor at Grinnell College, Grinnell, Ia. He is chairman of the art department and a member of the faculty since 1960.

Lowell D. Samuel, ex, heads the Samuel Music Company of Effingham, Mattoon, and Vincennes, Ind. He lives in Effingham, is married, and has three children.

1938

Unable to attend the class reunion in June, Cmdr. Francis J. Grisko, USN, operations and plans officer on the staff of the commander of U.S. Naval Activities at Port Lyautey, wrote, “My duties here at the Naval Air Station, Port Lyautey, Morocco in North Africa and the distance involved make such a trip impossible at this time. I have been stationed here for six months and find it very enjoyable. Climatwise, it is probably the best in the world. We conducted an Area Commanders Conference for the Naval Commanders in the Central and Western Mediterranean areas last week. One of the attendees was Capt. Grayston H. Weber, Commander of Naval Activities, Rota, Spain who is also a member of our class.”

Fred J. Armistead ’30-2, assistant superintendent of Harrisburg schools on leave for two years to serve as associate professor with the SIU educational mission to South Viet-Nam, has returned to Saigon for another two-year assignment after a summer visit to Illinois.

1940

After one year as principal research officer with the National Institute for Personnel Research in Johannesburg, South Africa (also lion hunting with camera), Wilfred A. Pemberton has returned to his position as clinical psychologist and director of counseling services in the Office of Student Affairs at the University of Delaware. He and his wife Carol and four children live in Newark, Del.

James K. O’Brien, M.S. ’51, former superintendent of Shawnee unit schools, recently was hired to fill the new position as head of the industrial training program at Anna State Hospital. He is expanding the manual arts therapy program. Mr. O’Brien has taught in the Anna and Dongola schools. He is married to the former Merna R. Kanady ’41.

Last spring Halbert E. Gully visited the campus to talk at a meeting of the residence counselors at Southern concerning the educational challenges of growing universities. Mr. Gully is professor of speech, specialist in oral communications, acting head of the Division of General Studies, and director of the Experimental Research Center in Public Address and Discussion at the University of Illinois. He was invited to SIU by Dean of Students I. Clark Davis ’39.

1941

New principal of Marion High School is Albert C. Storme, coach and teacher there since 1946. Before service during World War II, he had taught and coached at Pittsburg and Ridgway. In 1954 he was head basketball coach at Marion High. Mr. Storme is a former director of the Marion city recreation system.

Another member of the Marion High School faculty is Margaret McNeile, who is director of the language and arts department.

After 44 years in education, the last 18 as superintendent of the St. Francisville schools, Claude H. Simpson retired in June. He had spent 26 years in the Franklin County schools, including 15 years as principal of the Zeigler schools, before going to Lawrence County in 1945. He lives in Lawrenceville.

James D. Brewer, ex, owns and operates the College Inn in Carbondale. He is married and has four children.

Kenneth McIntyre, ex, Franklin, O., is a company pilot for Armco Steel Corporation.

1942

One of the coauthors of New Geography of Texas, recently published by Noble and Noble, is John W. Lewis, member of the geography department of East Texas State College, Commerce, Tex. The 328-page book is designed for the study of Texas geography in the seventh grade. Mrs. Lewis is the former Dorothy Doty ’41.

Mr. and Mrs. Paul R. Emerson (Lenora Mae Carr ’45) live in Decatur, where both teach in the public schools. During the summer Mr. Emerson is an adjuster for Country Mutual Insurance Company.

Frederick E. Gray owns and operates Gray’s Market in Carbondale. He is married and has two daughters.

1943

Robert V. Allen, USSR area specialist in the Slavic and Central European Division of the Library of Congress in Washington, is assistant editor of Basic Russian Publications, a selected and annotated bibliography on Russia and the Soviet Union. Containing about 1,600 entries, it is described as the first up-to-date and authoritative bibliography in its field. Thirty-two distinguished specialists have contributed to this selective bibliography of the most essential Russian language books and periodicals of Czarist Russia and the Soviet Union.

Mrs. Mary Jane Rauhach Box, ex, is continuity writer and director for Radio Station WUEQ in Phoenix, Ariz. She has lived in Arizona since 1956 and has two sons.

Mrs. Paul Burkitt (Ruth Eileen Simpson) is a physical education teacher at Fairfield School District 112.

1944

The Rev. Edgar B. Purdy is minister of the Methodist Church in Flora. He and his wife Ferne have four children.

Sophia Ninos is a reading teacher in the Waukegan city schools.

Dorothy J. Cox, M.S. ’51, is a librarian in the Granite City schools.

1945

Dr. Raymond A. Alexander has practiced medicine in Mt. Vernon since 1951. He served in the Navy after receiving his medical degree from the University of Illinois College of Medicine and then had a residency in surgery in Dubuque, Ia. He is married and has five children. Dr. Alexander has been a member of the SIU Alumni Association 13 years.

Lester S. Gill, M.S. ’62, Galatia, is assistant principal and biology instructor at Galatia Community High School.
Mrs. Carroll Anderson (Eunice Johnson), Elmhurst, is a part-time instructor at LaSalle Extension University in Chicago. She has two children.

1946

Maj. Bruce B. Church is a communications-electronics officer at Wurtsmith AFB, Mich. He is married to the former Virginia Henderson, ex '41, and their son Bruce is a student at Southern.

From Phoenix, Ariz., where he was advertising manager of the Arizona Labor Journal, Bob McDowell, ex, has moved to Melbourne, Fla., to become classified advertising manager of the Melbourne Daily and Sunday Times.

Richard C. Powers, ex, Murphysboro, former office manager and assistant secretary of the Illinois Electric and Gas Company, now is superintendent of the newly-formed Murphysboro group operation of the Central Illinois Public Service Company.

1947

Earl D. Patton, M.A. '52, assistant superintendent of Unit Four schools in Champaign since 1959, on July 1 became superintendent of the Culver City Unified City School District in Los Angeles County, Calif. He is in charge of eight elementary schools, one junior high school and one high school, with a total enrollment of 7,156 students. Before going to the Champaign post, he was associate director of the Illinois Curriculum Program, co-sponsored by the University of Illinois College of Education and the Office of the Illinois State Superintendent of Public Instruction.

The Pattons (Catherine G. Dent, ex '49) have two sons.

Joseph C. Telford is president of Telford Store Fixtures, San Antonio, Tex. He and his wife Virginia have two children, Penelope Ann (Penny) and Joseph Charles III (Chip).

BORN: To Mr. and Mrs. John S. Rendleman, ex, Carbondale, a daughter, August 3.

1948

Lorraine Smith, M.S. '51, Mt. Vernon, has retired from teaching. She has been a member of the SIU Alumni Association 14 years.

Peggy Lou Browning, M.S. '55, teaches in the Tenafly, N.J., schools and lives in Bergenfield, N.J. Before moving east several years ago, she taught in Roxana and Arlington Heights and also in the demonstration school at Highlands University in Las Vegas, N.M.

New athletic director of the Champaign

Vice President at Tulane

A former director of the SIU Museum and zoology instructor now is vice president and coordinator of all research activities of Tulane University in New Orleans.

Fred R. Cagle '37 was appointed to the post in January. He assists Tulane faculty members in planning their research programs, including help in identifying areas where research is needed and assisting them in obtaining financial support for their suggested research programs.

Tulane will spend $10 million in research activities this year supported financially by outside sources. This is 10 times the amount spent for such purposes 10 years ago.

Dr. Cagle went to Tulane in 1946 as a lecturer in zoology. He became chairman of the zoology department in 1955 and coordinator of research in 1958. He holds graduate degrees from the University of Michigan. From 1943 to 1946 he was a captain in the Army Air Force, serving as an aviation physiologist and operations officer. He did research problems on high altitude problems, instruction, and mission planning.

In 1958 he visited the Soviet Union, where he conferred with Soviet biologists as the representative of the American Institute of Biological Sciences. He visited the Soviet Union and Asian countries in 1959 and 1960 to help improve the exchange of scientific information between them and the United States.

In April, 1960, Dr. Cagle was appointed to an international relations committee of noted American biologists to create a network of scientist-to-scientist information freeways. The committee is sponsored by the American Institute of Biological Sciences. Last year he visited Indonesia, Philippines, Taiwan, and India to discuss biological research administration.

He is a member of the board of governors of the American Institute of Biological Sciences, executive secretary of the Conference of Biological Editors, and member of the U.S. National Commission for UNESCO. He is a fellow of the American Association for the Advancement of Science.

Dr. Cagle has been editor of Copeia, research publication of the American Society of Ichthyologists and Herpetologists, and sectional editor of Biological Abstracts. He is associate editor of the American Midland Naturalist. He has published more than 40 scholarly articles in the fields of zoology, education, and communications.

Mrs. Cagle is the former Josephine Alexander, ex '44; they have a son.
1950

Jack D. Simmons, M.S. '55, superintendent of schools at Rosiclare, is vice president of the southern division of the Illinois Education Association. He has been in the Rosiclare schools since graduation, first as a teacher, then as grade school principal, and finally as superintendent of schools.

Mrs. J. C. Brown (Hazel Miller Taylor) lives in Cleveland, Miss., and teaches at Hayes Cooper School in Merigold, Miss. After 17 years of teaching in Carbondale schools, Mrs. Bev Simpson Warren, M.S. '54, retired last spring. She taught three years in Carrier Mills before teaching at Attucks Grade School from 1946 to 1955, when she transferred to Thomas School. In June she was appointed to the Carbondale Park District board of Commissioners. She is a member of the Carbondale Human Relations Commission and an adviser in the Girl Scout program.

Mrs. Lester Mathis of Monticello is the former Jeanne Gorden. She has five children.

1951

Louise Bryant is a typist with Best and Company in New York City.

Mrs. Kenneth Fenn (Emily Kaleta, ex) is a teacher in the West Frankfort schools. She lives in Benton and has an 11-year-old son.

After four years on the faculty at Belleville High School and Junior College, Perry M. Procter, M.A. '52, has joined the faculty of Illinois State Normal University as assistant professor of English. He is married to the former Mary Anita Johnston '50.

Mrs. William C. Pundsack (Nayadean Gum) lives in San Diego, Calif., where she is a substitute teacher in the San Diego school district.

In Marion Thomas E. Regenhardt is president and plant manager of the Southern Illinois Stone Company. He and his wife Phyllis have two daughters.

BORN: To Mr. and Mrs. Bernell B. Franklin (Virginia M. Fox), Lansing, Mich., a daughter Melissa, February 24. Their son Randall will be five in February.

1952

Mary J. Holderby teaches the first grade at Jefferson School in Carmi. She has been a member of the Alumni Association 12 years.

Dwight D. Bean, Benton, is agency manager of Franklin County for the Country Mutual Insurance Company. He and Lavina Phelps Bean '51 have a daughter, Kay Linda, three.

Mrs. Grace Cruse Odum, M.S. '57, teacher in the Anna schools, is 1963-64 president of the southern division of the Illinois Education Association.

Leon E. Luber is vocational agriculture instructor at Aviston Community High School. He and his wife Imogene have three children.

MARRIED: Sharon Lee German to John L. Russell, M.S. '61, July 13, West Frankfort, where they now reside. He is an English teacher at Central Junior High School.

1953

On July 1 Charles H. Wildy, M.S. '56, became dean of men at the University of South Florida in Tampa. For the past three years he had been assistant dean of students at Kansas State University, Manhattan, Kan. He is married to the former Helen Collins '57; both did graduate work at Indiana University, he receiving a doctorate in education and she a master of arts for teachers. They have a son, Charles H. III.

Mrs. Gilbert R. Baker (Charlotte Fox), Murphysboro, is a junior high school teacher at the Elverado Community Unit School District. She has three children.

John David Shields, who coached the Mt. Vernon Junior College basketball team last year, has dropped coaching and now is concentrating on guidance work.

Nessim Arditi-Palombo, M.S., is with the Economic Commission for Latin America of the United Nations in Santiago, Chile, serving as chief of the Technical Assistance Coordinating Unit for Latin America. He is married and has three children.

Mrs. Russell Mifflin (Alehia M. Mifflin, M.S. '59) continues to teach Spanish at Carruthers Junior High School in Murphysboro and has not retired as previously reported. She spent four weeks last summer in Saltillo, Mexico, studying Spanish.

1954

Charles W. Hoppesch, M.A. '59, Murphysboro, suffered injuries to his right hand, arm, and ear in an explosion at the Unidynamics Division plant of Universal Match Corporation at Ordill last spring.
