Southern Alumnus

January, 1964
THE MAIL BAG

Editor's Note—On the cover of the first issue of the SIU Alumnus back in June of 1951, when the present magazine format replaced the tabloid-type publication, appeared the picture of seven-month-old Harry Reinert III, whose father was graduating that month. In response to a request for a recent picture of the lad, his father sent a photograph and a report on the Reinert family since it left campus 12 years ago. Here are the pictures of Harry III—in 1951 and in 1963—and the letter—

Harry Reinert III in 1951
I am enclosing a picture taken of Harry III last spring. He is now 13 years old, is in the eighth grade, and was accepted this year into the UICSM math program which is used for a few honors classes in this school district. So, his ties with Illinois are not completely severed.

In the time since that cover, when I was on my way to Emory University, I received my M.A. from Emory, then came to the University of Washington on a fellowship. After taking courses—but no degrees—at UW for six years, I got my teaching credentials, and I am now in my sixth year as a teacher in Edmonds High School. I am presently teaching Latin, German, and philosophy. For two years I also taught senior English. I have written my own beginning Latin text, which I have been using for several years.

My wife and I now have four sons, all of whom are equally handsome, we feel. Harry III's younger brothers include Tommy, seven, Teddy, six, and Andy—whom we call Tiger—10 months. My wife (Rosalie Nulty Reinert, ex '50) is presently taking courses at Everett Junior College near here and hopes eventually to complete her degree work, which she began at SIU.

We have followed with great interest and even awe the growth of SIU during the past decade.

Thank you for your note, and for remembering.

Harry F. Reinert '51
6612 Penny Lane
Lynnwood, Wash.

January, 1964

Turn Back The Pages . . . .

Names and events that appeared in the campus news during the fall of 1958, 1953, 1938, and 1913.

Five Years Ago

A $30,000 electron microscope is being assembled by RCA engineers in the Life Science Building to be available for use by all departments. It will be able to magnify objects as much as 100,000 times . . . Eight girls were capped and gave the Nightingale pledge in the first such ceremony of the new Department of Nursing. The cap was designed by Susan Denker Goodman, a recipient.

Marie Holifield, Brookport junior, reigned as Homecoming Queen . . . The Saluki football team, led by Capt. Cecil Hart, Hillsboro fullback, tied for second place in the IIAC with Central Michigan with a 4-2 record.

Ten Years Ago

More than 18,000 cubic yards of earth have been excavated for the basement of the University Library. The brick building, to be completed in 700 calendar days, will serve 1,200 readers at a time and contain 350,000 volumes . . . Twenty-five students from 12 different foreign countries are on campus this fall, 13 doing graduate work and four as freshmen . . .

First Roscoe Pulliam Memorial Alumni Scholarships are awarded to Gordon A. Fore, Mt. Vernon; Dorothy Marie Osborn, Pana; Lois Harris, Carlyle; and Edwin H. Krutsinger, Louisville . . . Students voted 801 to 231 to raise student activity fees one dollar to go into a Student Union fund for a proposed permanent student union building . . . Homecoming Queen is Jo Rushing, Chester.

Twenty-five Years Ago

Dedication of the new SINU Stadium at Homecoming was witnessed by some 6,000 people. Guinna Cotter, "The Duchess," was Homecoming Queen . . . Fall enrollment is 1,879. Biennial appropriation for the University is $864,720 . . . Charles Mayfield is president of the Student Council and for the first time the council has been invited to send a representative to the Council of Administration, chief governing body of SINU. Anna Margaret Wham was chosen.

The Southern Knights, underclassman honorary activity fraternity, has been organized to serve the University and to develop and preserve worthy school traditions . . . Class presidents are Winston McAdoo, St. Louis, seniors; Donald Bryant, Harvey, juniors; Morris Paul Moseley, Metropolis, sophomores; and Cecil Hollis, Greenview, freshmen . . . Chinese checker fad hits the campus.

Fifty Years Ago

On September 16 Anthony Hall was dedicated—a brick residence for coeds built at a cost of $75,000. Of Renaissance architecture, it is the "pride of Southern Illinois" . . . Officers of the senior class are President Herbert G. Ningler, Ellis Grove; Secretary Martha L. Davis, Carbondale; and Treasurer Charles A. Harper, East St. Louis . . .

New football coach is William McAndrew who in his first season racked up a 4-2-1 record . . . The University Band, organized this fall to furnish music at the football games and to promote school spirit, was so successful that it will continue through the winter term . . . The University Orchestra, consisting of five first and four second violins, cello, bass, two clarinets, flute, two cornets, horn, trombone, and percussion instruments, is fast becoming an organization of creditable note.
While SIU-TV, Channel 8, has been on the air since November 1, 1961, and classroom instruction given for elementary and high school classes throughout southern Illinois as members of the Southern Illinois Instructional Television Association for almost that long, closed circuit television in the University classrooms has gotten off to a slow start.

Last spring two pilot courses were given as a trial run of closed circuit television in SIU classrooms. Masterpieces of Literature, taught by James Benziger, professor of English, and Healthful Living, conducted by Andrew E. Vaughan, assistant professor in the Department of Health Education, both required freshman-level programs in the General Studies curriculum, were presented via the TV screen on an experimental basis.

Last fall courses in geography and speech were added to that in health education for the General Studies program on closed circuit television. During the winter and spring quarters Masterpieces of Literature will be repeated.

Each department involved conducts its TV presentations a bit differently. The literature course has three 25-minute TV presentations, each followed by a 25-minute discussion period. The geography course is presented in two full 50-minute TV lectures and one full period of discussion. The speech course has one TV tape lecture for the full period and then two classes for discussion and student participation.

How does the student accept closed circuit television in the classroom? Prof. John W. Voigt, executive officer of General Studies, believes there is a very slight margin in favor of the use of TV over the large lecture groups that would be necessary for General Studies courses. He anticipates future use of this method in teaching courses in art, mathematics, and foreign languages.

Many departments would like to participate in closed circuit television but limited facilities prevent more courses from being offered in this manner. WSIU-TV has only three taping machines—one is used by SIITA for the elementary and high school instruction, one by the TV staff for its own programming, and one by the closed circuit program.

Many instructors were skeptical at first about the use of TV in the classroom. Those who participated have become greatly enthusiastic and spend long hours in taping their courses.

About a mile of cable was laid in existing telephone ductwork from the TV studios in the Home Economics Building to 22 classrooms in Old Main and in Home Ec. During the Christmas holidays four more were added to the system. Marshall Allen, of the WSIU-TV staff, is supervisor of closed circuit television operations.

New buildings on campus all are being planned to include closed circuit television equipment—Wham Education Building which now is completely occupied by the College of Education; the General Classrooms Building, which is just being started and which will have a central audio-visual projection and closed circuit TV control center; and the Communications Building. William J. McKeefery, dean of academic affairs, envisions a time when students will take courses via TV in their own residence halls.

During New Student Week two programs were shown to entering freshmen and transfer students on closed circuit TV. Professor Voigt, in presenting the General Studies Program, introduced five professors who spoke on the fields of science, social studies, humanities, organization and communication of ideas, and health and physical education.

The Student Personnel Office presented an orientation program introducing Southern to the new students. This tape was then used at a session for new faculty members.
WANTED: More Coeds

While more girls are going to college today, the proportion to total enrollment is decreasing and Dean Henry Dan Piper, College of Liberal Arts and Sciences, is trying to do something about the situation. He has appointed a permanent committee of women faculty members to help further the education of women.

Eloise Snyder, associate professor of sociology, is chairman. Assisting her are Imogene Beckemeyer '51, M.S. '52, mathematics instructor; Margaret Kaeiser, associate professor of botany; and Mrs. Elizabeth Eames, philosophy lecturer.

Primary purpose of the group is to study the twin problems of attracting outstanding women students and keeping them in college. In 1920 girls made up 47 per cent of the college population. Today they comprise less than 35 per cent. SIU is an exception to the trend, however. Its female enrollment has increased three per cent in the last five years. Dean Piper wants to keep that trend going up until it levels off at around 50 per cent in the next 10 years.

The committee will consult with leaders in women's education at other schools as well as with SIU students and prominent alumnae, concerning ways in which the academic program here can meet the needs of women.

Missile Apparatus Given

A $250,000 missile launch simulator system has been given to the University by the US Air Force for use in technological research and instruction. Manufactured by Martin-Marietta Corporation of Denver and used at Lowery AFB, Colo., it includes instruments for training missilemen in all phases of launching, from blast-off to destruction of a missile in case of malfunction.

While the School of Technology does not intend to use the system for such training, it will be valuable in various phases of missile research. Many of the components also will be helpful in research in other areas now underway or planned.

The system consists of eight console instrument units with multiple electronic control panels, "umbilical cord" cables such as those connecting controls to a missile on the pad ready for firing, and related connecting units. Console instrument units include a flight control system programmer, autopilot and actuator controls, flight control gyro system, and a re-entry vehicle control system.

African Scholarship Program

Enrolled at Southern are five of the 265 African students from 21 countries attending 215 participant colleges this year under the African Scholarship Program of American Universities. They are Kasaato Firemon Kagwga and Dani Kireju of Uganda, Olairivan Lotasarauli Mollel of Tanganyika, John Ikome Musenja of Cameroon, and Winfield M. Ndovi of Nyasaland. They spent a month with American families in Collinsville, Monticello, Lombard, Bement, and St. Louis before coming to the campus last fall.

These five joined six African students who came to SIU last year under the same program—from Tanganyika, Nyasaland, Kenya, Southern Rhodesia, Madagascar, and Nigeria. All 11 are in General Studies. In addition are five other students from Africa. Two are working on doctorates—Germa Amare, dean of students at Addis Ababa College in Ethiopia, and Thomas Quaynor of Gwana.

Marketing and Processing Publications

Two new publications have been issued by the School of Agriculture and can be obtained by writing to the
school. Both summarize results of research financed by the Illinois State Department of Agriculture from a special appropriation for research on marketing the state's agricultural products.

Publication No. 16, "Agricultural Processing Facilities in Southern Illinois—Factors Affecting Location and Expansion," is by Walter J. Wills, chairman of the Department of Agricultural Industries. The 24-page report is a two-part report, the first dealing with general factors for consideration in locating a processing plant in any area and the second with special considerations required in developing facilities for specific products, such as dairy processing, fruit and vegetable packaging or processing, livestock markets, and poultry and egg facilities.

Publication No. 17, "Marketing Southern Illinois Fruits and Vegetables—Attitudes of the Produce Trade and Recent Trends," is by Cecil N. Smith, University of Florida agricultural economist who was a visiting professor in the Department of Agricultural Industries to conduct the study.

The report serves a two-fold purpose: to show recent trends in marketing and producing fruits and vegetables and to report the attitudes of the wholesale and retail trade toward fruits and vegetables produced and marketed from this region. Area producers face the problem of countering an "unfavorable image" built up in the minds of the trade by past performance, Professor Smith states.

**Fulbright Lecturer Down Under**

Richard C. Franklin, director of the Community Development Institute, is lecturing in Australia on a Fulbright grant the first five months of 1964. He and his family left December 1, stopping at principal cities in Europe and Asia before arriving in Australia December 30. He will be senior lecturer in community development at the University of New England at Armidale and will visit the Universities of Sidney, Queensland, Adelaide and Western Australia as a consultant.

Professor Franklin has been invited to address the regional seminar in Sidney in January on the roles of schools and universities in adult education and will be a staff member at the international seminar on the role of community development today at the University of New England in February. He is traveling under a post-doctoral study grant from Carnegie Corporation.

**Faculty and Staff Appointments**

New chairman of the Department of Anthropology is Philip J. C. Dark, who was named acting chairman July 1. He replaces Walter W. Taylor, who came to Southern as chairman in 1958. Professor Taylor is dividing his time between teaching on campus and doing research in New Mexico. Professor Dark, who has master and doctoral degrees from Yale University, came to Southern in 1960 from University College, London, England. He also has been with the West African Institute of Social and Economic Research at University College in Nigeria.

Wilbur N. Moulton, acting assistant dean of the College of Liberal Arts and Sciences and assistant professor of chemistry, has been named assistant dean of the college. He has been on campus since 1956 and during 1961-62 taught at the University of Baghdad in Iraq.

Director of Libraries Ralph W. McCoy has been named a special assistant to Vice President Charles D. Tenney until September 30. His assignment is in the area of problems dealing with the libraries—long-range planning, the two-campus organization, and prospective doctoral program accreditation visit of the North Central Association. He continues as libraries director for both campuses.

At the Edwardsville Campus William T. Going, dean of instruction and professor in the Humanities Division, is now dean of academic affairs. He came to Southern in 1957 as professor of English at the Alton Residence Center and was named dean the following year. Dean Going, a former assistant professor of education at Howard College, taught English at the University of Alabama from 1939 to 1957, advancing from instructor to associate professor.

Assistant dean of academic affairs is Laurence R. McAneny, associate professor in the Science and Technology Division and member of the faculty since 1957. His field
is physics and he has a master's degree from the University of California and a Ph.D. from the University of Kansas. He taught at Park College before coming to SIU.

Several members of the faculty have been assigned acting positions to replace members on leave or who have been reassigned. Troy W. Edwards '38, M.S. '47, professor of secondary education, is acting dean of the College of Education. He succeeds Arthur E. Lean, who has returned to teaching. Professor Edwards previously has served as acting assistant dean and acting dean of the college. He has been on the faculty since 1947.

While Charles J. Kelley devotes more time to research this year, Melvin Fowler, assistant professor of anthropology, is acting director of the SIU Museum. Jacob O. Bach, professor of administration and supervision and head of the Educational Research Bureau, is acting chairman of his department, replacing George Bracewell, who has returned to teaching.

Irving Howards, associate professor of government, is acting administrative officer and associate director of the Public Affairs Research Bureau while the director, William O. Winter, is visiting professor of political science and acting director of the Bureau of Governmental Research and Services at the University of Colorado.

Ferris Randall is acting librarian while Ralph E. McCoy is assisting Vice President Tenney. Elizabeth Opal Stone has been named associate librarian. Neil Hosley, professor and chairman of the Department of Forestry, has resigned the chairmanship because of his health.

James A. Austin is acting head of the Humanities Division while Nicholas Joost is lecturing at the University of Nijmegan in Holland under a Fulbright award. Professor Austin, chairman of English at Yankton College before coming to SIU in 1960, has been commissioned to write three books on three 19th century American humorists.

By the Numbers

To convert to the use of social security numbers instead of the present assigned student identification numbers, the University has started the process by asking seventh through 12th grade students in University school to get social security numbers for use as permanent record numbers for their educational files. University School is operated by the College of Education.

Effective with the 1964 Summer Session, students seeking admission to Southern must have social security numbers for identification purposes. Dean Isbell '47, coordinator of systems and procedures, said use of the social security number will provide the student with a permanent means of identification from his initial contact with the University. This will make it possible for many more student records to be handled by electronic equipment in the Data Processing and Computing Center.

News of the Campus

Use of the social security number will make it easier to identify students with similar names in pre-enrollment contacts as well as keep track of women students who change their names through marriage. And the social security number will make it easy for alumni to obtain transcripts or other information after they leave campus.

Fore-edge Painting in Rare Books

Two volumes of French fabliaux, old French tales abridged from French manuscripts by Pierre Jean Baptiste Le Grande Aussy, have been donated to the Library and now repose in the Rare Book Room.

Published in London in 1815, they are bound in full green morocco and each has a beautiful fore-edge painting, one of Notre Dame Cathedral and the other of Versailles. The water color paintings on the fore-edges of the pages are placed in such a way that they cannot be seen when the book is fully open or fully closed but only when the pages are fanned open.

According to Ralph Bushee, Rare Book librarian, fore-edge painting dates back to the 16th century but it was not until a couple of centuries later that landscapes were used.

The books are a gift of members of the 1962 class on the History of Books (IM 530)—Katherine Wasson, Harrisburg Junior College librarian; Mrs. Willadene F. Brown '61, M.S. '63, Murphysboro; John R. Stafford, Jr., Webster Grove, Mo.; Mrs. Laura Wieman, M.A. '60, wife of Visiting Professor Henry N. Wieman; and Anna Carol Fults, professor and chairman of the Department of Home Economics Education.

The fore-edge painting of Notre Dame Cathedral on one of the two old books presented to the University Library and now in the Rare Book Room can be seen only when the pages are fanned out.
Construction at Southern

Past Present and Future

The construction program of the SIU campuses is only one phase of the changing scene at an ever-growing university but it provides a very tangible evidence of that growth.

While Old Main, Allyn Building and Wheeler and Altgeld halls stand as sentries of the original part of Old Normal, barracks and frame houses used as offices and laboratories are disappearing to make way for new buildings. While construction moves ahead on Morris Library, the Arena, and University Park, plans on the drawing boards look ahead 10-20 years toward the need for more classrooms, more residence halls, more laboratories and offices.

New Home for Education

Although 16 classrooms in the east section of Wham Education Building were used during the fall quarter and offices were gradually occupied, the College of Education took over the entire building early last month. The three-story $2,767,000 structure is located on Grand Avenue and connected with Pulliam Hall (University School) by a covered passageway. It includes 26 classrooms, five seminar rooms, 89 offices, 13 testing centers, three laboratories, and Davis Auditorium which seats 310.

The College of Education with its numerous departments and its clinical services finally has its own building after years of barrack and makeshift occupancy.

Morris Library, which is getting up in the world, now has three complete floors and a tower of four stories. The $3,000,000 addition of five floors is about 75 per cent complete with most of the exterior work finished. The third floor is complete and now being occupied by the Social Studies Library. Finishing of the second floor has been started. Tower stories will be used as storage until the next stage of construction when they will be completed.

No Rained-Out Graduation

In case of inclement weather, June commencement will be held in the SIU Arena, according to the University Architect's Office.

Colored panels are now being placed in "skinning" the exterior walls. Concrete for the playing floor level
was poured last month. Concrete work for the 2,000 permanent seat area on two sides of the arena has been completed. Painters sat atop hydraulic lifts to paint the 70-foot-high roof of the 300-foot-diameter arena.

The connecting building, which contains offices, classrooms, locker and training rooms, is at the interior painting stage and will be ready before the arena. Nearly two miles of sidewalks and a 700-car parking lot are included in the $3,500,000 arena project.

Footings and foundations have been poured for the $10,500,000 University Park in the Dowdell barracks area. It includes a 17-story women's residence hall and three triads of four-story units for men, plus a two-story Commons building containing kitchen, recreation area, snack bar, and game room. The dining area will seat 900 students at a time.

The 17-story Park Tower will be of reinforced concrete exterior with brick paneling. The triads in Park Center will have brick exteriors with precast concrete paneling. The Commons will be of masonry construction. The project is financed by self-liquidating bonds, half purchased by the Federal Housing and Home Finance Agency and half by private investors.

**Baseball Replaced by Communications**

First phase of the $3,250,000 Communications Building project is underway with excavation completed and pouring of basement floors and walls in progress. It is located west of the Life Science Building, occupying part of the old baseball field and Chautauqua Housing area.

The building will include a 575-seat theater, replacing the present Southern Playhouse, as well as 25 classrooms and radio, television, and closed circuit TV studios. Mainly, the building will be two stories high, with an exterior treatment of buffed brick and pre-cast concrete “fins” along the east facade. A fly gallery behind the theater stage—for props and equipment—will rise 82 feet.

Phase One includes space for the departments of speech, speech correction, theater, and radio-television, also a working theater and radio-television studios. Second phase will be a “wrap-around” wing containing the departments of journalism, printing and photography, film production services, and possibly offices of the Daily Egyptian, student newspaper. Phase Three will be a 5,000-seat auditorium.

Sollitt Construction Company, South Bend, Ind., holds the general construction contract of $2,011,279 for Phase One.

**Classroom Space Coming Up**

With the clearance of several residences along West Grand, South Lake, and Chautauqua streets, work was started December 2 on the General Classrooms Building. The $3,250,000 brick building has been designed to seat more than 2,700 students.

It will be in two parts—a two-story section containing lecture halls and a three-story section with classrooms, offices, and research facilities. The 24 classrooms will seat 1,080 students, the four lecture auditoriums 300 each, the six conference classrooms 80 each. There will be 86 offices for 130 faculty members.

The lecture halls, ramped like movie theaters, will radiate out from a central audio-visual projection and closed circuit TV program control center. Also receiving audio-visual fare from the central control room will be the conference classrooms. The three-story wing will adjoin the lecture hall complex.

The bid for general construction of the building was awarded to Joseph J. Duffy Company, Chicago, for $2,106,732.

**Technology Group Construction**

Bids will be taken shortly for a School of Technology Group of buildings and work started as soon after that as possible. The complex, located on the east side of the Lake-on-the-Campus, will consist of a four-story classroom and lecture hall on the north and three two-story buildings for laboratories and engineering research.

Designed for utility in construction and flexibility in design, the structures will have building frames of pre-cast concrete panels, floors of long, hollow slabs of concrete to carry utility pipes and wires. The classroom building will be partly cantilevered over a central quadrangle. Buildings will be interconnected.

Versatility will be built into the group in the form of spaces that can be enlarged or changed to meet demands of the times.

Preliminary planning already is underway for the second phase of University Park, a duplication of the one now under construction and located to the north of it. Two more boilers will have to be added at the power plant to take care of all these new buildings. Right now steam capacity is 12 times more than it was two years ago.

**Acquisition Approved**

The SIU Board of Trustees has approved the purchase of the Wagner Electric Corporation plant in Edwardsville to provide space for university services and storage at the Edwardsville Campus. Comprising nine buildings on a seven-acre plot, the plant has not been used by Wagner since December, 1957.

The property would be used for storage and for offices and services. A Nickel Plate Railroad spur is an important feature of the facility.
 Cosmic Ray Research
High in the Sky

Hitch-hiking payloads on high altitude balloon flights are giving University physicists an economical way to gather information about one of the little understood entities of the space age, the cosmic ray.

By sending up special photographic emulsion plates to be exposed to heavy cosmic ray bombardment at heights of 100,000 feet or more, the researchers get “tracks” of the rays as they strike. The plates are then developed and studied under powerful microscopes.

In a low-ceilinged, concrete-walled basement laboratory on the Carbondale Campus, physicists measure the “tracks” and compute to such infinitesimal periods as one one-hundredth of a millionth of a second the time the rays were in contact with the plates.

Their work is part of an International Geophysical Year-related project headed by Prof. Otis B. Young, director of Atomic and Capacitor Research. He has been engaged in the cosmic ray project 10 years.

Although the study has been supported by almost $90,000 in government and other outside research grants, every effort is made to keep it as economical as possible. Costs are pared by using available flights sponsored by government agencies and other universities.

The SIU researchers seldom are present at balloon launchings. Flight packets are sent to agencies which are sponsoring flights with room for additional loads. Plates have been sent into the atmosphere in more than 50 balloon trips from points all over the world.

The plates, imported from England, are four by six inches in size and similar in appearance to ordinary photographic film. Five or six plates are sent on each flight, packed in lucite and styrofoam to protect them and keep them afloat if they land in water. After a flight, the packets are returned intact to SIU.

Processing the plates after exposure is a critical phase of the research. It takes several days and plates must be watched around the clock to avoid damage in case of power failure or changes in temperature or humidity.

Once a plate is properly processed, microscopic study begins. Study of a single plate can take up to a year and fill a half-dozen notebooks with technical information.

Under the microscope physicists can trace the path of a cosmic ray as it strikes the plates, then skids along for an almost immeasurable fraction of a second before changing into energy or other form of matter. Plates show frequent “stars” where rays have struck atoms directly and shattered.

Much of the researchers’ work is done on electronic machines in the Data Processing and Computing Center. Computation on a single “track” may fill 75 feet of nine-inch-wide computer tape with figures.

SIU research has led to a number of significant reports in scientific journals. In the past year Professor Young has received more than 100 requests from all over the world for reprints. Of 206 articles on cosmic ray study listed in the current U.S. International Geophysical Year Bibliography published by the National Academy of Sciences, five are by Professor Young and his associates.

Professor Young has been a member of the Department of Physics since 1929.
Edwardsville Alumni Award

First Alumni Scholarship Award from the Edwardsville Campus was presented last fall to Robert J. Owca, East St. Louis, senior major in secondary education. The award was for $125. A four-point scholar, he operates the language laboratory at the East St. Louis Center. Summers he works as an assistant butcher.

Mr. Owca is a graduate of Assumption High School in East St. Louis, where he played varsity football and basketball two years, was active in student government, became state champion in speech in his junior year, and graduated 24th in a class of 128.

Mr. Owca plans to become a teacher. He is married.

Second annual SIU Foundation award for service to the University was given to Robert R. Spackman, Jr., assistant professor in the Department of Physical Education and head trainer for the athletic teams. John Rush, talented gymnast who wears a Saluki Dog costume to entertain football crowds and who received the first Foundation award last year, made the presentation in McAndrew Stadium at the last football game of the season.

New Foundation Board Members

Two new members of the board of directors of the SIU Foundation were elected last fall to fill unexpired terms. Judge A. Ray Cagle, ex '31, Marion, was named to succeed Arthur Swanson, M.S. '60, former SIU coordinator of Financial Assistance who has moved to New York. Dr. Leon F. Striegel, ex '48, Carbondale veterinarian, will complete the term of the late Jack L. Stroman '16-2, Itasca.
There was no bonfire at the pep rally and there were no parachutists landing in McAndrew Stadium before the game—the first cancelled out because of tinderbox conditions in the area and the second because of an FAA ruling. But that didn't slow down Homecoming festivities one bit as thousands of alumni poured into Carbondale the weekend of October 19.

King Menes crowned Marcia Rae Willock, Pekin junior in elementary education, Homecoming Queen. She and 14,000 other spectators watched the Salukis roll over Northern Michigan 27–0. A packed Shryock Auditorium applauded the antics of Ford and Hines and of the Smothers Brothers at two stage shows.

George Walker, chairman of the piano department at Smith College, appeared with the Southern Illinois Symphony, the Southern Players opened their season with "Teahouse of the August Moon," and Les Elgart's orchestra played music for dancers in the University Center Ballroom and Don Lemaster's orchestra for those in the Roman Room.

Thirty-five high school bands added to the color and clamor of the spectacular parade. Alumni boarded an express train and rode in the parade waving pennants of alumni clubs from around the nation. Department, house, and organization reunions were held all over campus.
A shirt-sleeve crowd at the ball game.

 Theta Xi's "Babes in Toyland" (above) captured a first-place trophy. Below, Johnson Hall's "Wild Cats Sing the Blues" house decorations.

 Riding the alumni train are J. Thomas Sill '57, M.S. '58, Carbondale; Dennis A. Ritzel '59, Waterloo, president of the Monroe County Alumni Club, and Andrew H. Marcec '56, Normal, vice president of the Bloomington Area Club, in the group at left, and Dave Delany '29, '41, M.S. '59, Greenville, president of the Bond-Clinton Counties Club, and Mrs. W. H. Tate (Rose M. LeMaster '32), West Frankfort, president of the Franklin County Club, at right.

 To the Student Christian Foundation Alumni Coffee came Mr. and Mrs. Thomas W. Floyd '49, M.S. '50 (Margaret E. Powell '45), Normal, at left, and Mr. and Mrs. Melvin W. Milgate '51 (Ruth E. Halterman '51), Danville, all former foundation officers.

 Mrs. Minnie Mae Pitkin (left), secretary to President D. W. Morris, chats with Mr. and Mrs. James A. Hook '30, Tucson, Ariz.

 A Lineup of Alumni—at left, Mr. and Mrs. William H. Berry '36 (Granddalf W. Berry, ex '36), and son Kenneth, Granite City, and next to them another son and his wife, Jr. and Mrs. William H. Berry, Jr. '60, Dyess AFB, Tex. Vincent V. Huffman, ex '48, Christopher, Philip A. Eigenmann '56, who brought his school band from Marion for the Homecoming parade; and Charles W. Taylor '57, M.A. '58, Benton. At center, Mr. and Mrs. James L. Richter, ex '60 (Suzanne Dorothy Richter '51), Belleville, and Mr. and Mrs. Clarence LeVere Breden '33, Flora Vista, Mo.—this was Mr. Breden's first trip to campus since he left in 1949.
Sports at Southern

By Fred Huff

Hartzell, Overland, Mo., 191; and Larry Kristoff, Carbondale, heavyweight.

Three others, Larry Lain, Chicago, Bob Herkert, Niles, and Terry Appleton, Evanston, reached the semi-finals before being eliminated in the opening meet of the season.

Kristoff, present National AAU champion who this fall gained an international title as well when he won competition at Tokyo, Japan, gained the heavyweight award by pinning his opponent in just 43 seconds with a special hold which he "made up for the occasion."

"It doesn't actually have a name," Wilkinson said, "but it's something like a double-arm hook."

Although Indiana's fabulous swimmers dominated the SIU Open meet, several of Coach Ralph Casey's squad came through in fine fashion. Freshman Don Shaffer, St. Louis, and sophomore Thomson McAneney, Miami, Fla., both claimed a pair of blue ribbons and Darrell Green, Hinsdale, was a single event winner.

Shaffer, regarded by Casey as one of the finest prospects here in several years, set a new pool record of 3:01 in the 300-yard freestyle event and also won the 400-yard race in 4:21.5. McAneney won the 500-yard freestyle in 5:00.8 and the 1,650-yard marathon event in 18:42.7. Green was the victor in the 100-yard freestyle in :49 seconds flat.

All three teams will be particularly active in January. The gymnasts meet the U. of I. (Chicago Branch), Iowa State and Mankato State, while the wrestlers go against Miami, Ohio, Parsons College, Bloomsburg State and Oklahoma State and the swimmers will be competing in the Michigan State relays as well as meeting North Central College, Cincinnati, Nebraska, and Evansville in dual meets.

Pitted against four of the nation's top teams in their first four games of the season, Coach Jack Hartman's Saluki cagers got off on the wrong foot, but hope to right themselves during January.

The Salukis are slated to make their first home appearance January 6 when Tennessee State's A. & I. Tigers invade and a victory could well be enough to set the stage for what could be a most profitable month's action.

Joe Ramsey, a junior from Sandoval, and Duane Warning, a Frankfort junior, were the club's early leading scorers with 11-point averages.

However, Paul Henry, Indianapolis senior, is being heavily counted on to perk up Southern's attack. Others who have been seeing considerable action are David Lee,
McLeansboro; Ed Searcy, Indianapolis; George McNeill, St. Louis; Eddie Blythe, Carbondale; and Eldon Bigham, Pinckneyville.

Jim Hart, Morton Grove sophomore, and Larry Wagner, a senior from St. Louis, were selected as Southern's most valuable back and lineman of the season by members of the 1963 football team which won four of their nine games.

Hart, a quarterback, established numerous SIU records as he passed for 14 touchdowns and 1,041 yards while Wagner was a defensive leader throughout the season for Coach Carmen Piccone's club.

Piccone, although not particularly satisfied with all aspects of the past season, was generally well pleased with the performance turned in by many members of his young group. The veteran Piccone can count graduation losses on his fingers and is optimistic about next season when 45 squad members will be returning.

Also helpful will be several members of Southern's unbeaten freshman team. The Saluki yearlings, under the guidance of rookie coach Frank Sovich, won all four of their starts and boasted top personnel at several positions when varsity weaknesses may appear next season.

**Lettermen's Club Officers**

George Nyle Huffman '22-2, Carbondale, was elected president of the SIU Lettermen's Club at the annual meeting on Homecoming Day. Other officers are Roger E. Spear '48, Carbondale, vice president, and Glenn W. Storme '29-2, Carbondale, secretary-treasurer.

Frank Eovaldi, ex '31, Murphysboro, and Walker A. Schwartz, ex '11, Carbondale, were elected to the board of directors.
In Education at Home and Abroad

Similarities Outweigh Differences

by Maurice P. Clark '38, M.S. '53
Superintendent of Schools, Western Springs

Last February and March I was privileged to observe schools on every level in England, Scotland, and Norway. Twenty educators from 20 states made the trip as Fulbright scholars to study comparative education in these countries.

While visiting representative schools, I was able to form some overall impressions. I sat in on classes, talked with students, mingled with teachers, principals, and other school officials, conferred with officials of the teachers association in each country, talked with school board members, and even had tea with the president of Trinity College in Oxford. Incidentally, I confess all of this has not made me an "expert" in comparative education.

The one thing I believe should be stressed is that the process of education is much the same in all countries, and, consequently, there are many more similarities among the educational systems involved than there are differences.

What are some of the similarities? The most important is that the United States, England, Scotland, and Norway share the same educational philosophy in that all believe in educating each child according to his ability.

Next is the fact that children are children and basically they learn in the same way no matter what the pattern of organization or teaching methods may be.

Also, teachers are teachers, and they have about the same problems in all countries. I found, for instance, primary teachers in England concerned because their pupils were having difficulty learning to read; secondary teachers in Scotland who feared their students were not doing enough homework; university professors in Norway convinced that the students of today are not as good as those of 20 years ago.

Yes, classrooms in all countries are more alike than different; furthermore, it is heartening to note that generally classroom instruction is good and is improving. This is encouraging, for what happens in the classroom determines the quality of education.

Similarities are likewise evident in organization and structure. Boards of education govern school districts and superintendents "superintend" in each country. Principals are in charge of individual schools and have about the same duties in all three countries. Terminology is different, but functions are about the same. A principal is a headmaster in England and a rektor in Norway.

Differences, of course, exist. The most important one is that all three countries are very selective in respect to admission to academic high schools and universities. The usual pattern is for only 10–15 per cent of the elementary pupils in England to be admitted (through elimination by the dreaded 11+ examinations) to academic high school (grammar school) each year.

It should be noted that several school districts, notably London, have dropped the 11+ examination. University admission is even more restrictive. Only one of three students who pass their examinations at the end of their high school years is admitted to a university. Norway is not quite as selective but in one school area near Trondheim, only 30 out of 150 elementary pupils would be admitted to junior high school this year.

Another significant difference is that local school districts have far less control over their schools than in the United States. In each country the central governing agency (Ministry of Education in England) has a far greater amount of control over the entire educational process than is true in any of our 50 states.

In England a local district cannot build a new school merely by getting the approval of the citizens. The central government has a master plan for the entire country and a school district must "get in line" for a new school. This kind of control is also true of curriculum, teachers' salaries (all are on a single salary schedule in each of the countries) and teaching supplies.

Still another difference is that English, Norwegian, and Scottish students do not graduate from a high school as in our country; instead they take a series of examinations prescribed by an agency outside the local school district. This may have some good effects, but it is disturbing to see classes spending so much time studying examinations of past years.

There is also far less guidance at every level than in the United States and such guidance as does exist is

(Continued on Page 24)
1889

Seventy-fifth Reunion
June 13, 1964

Deepest sympathies are extended to Mrs. Sarah Curtis Moss, 2, whose husband, Frank L. Moss, died in Paris August 21. Mrs. Moss, who celebrated her 94th birthday July 1, now is living at the Burnside Nursing Home in Marshall. She is class representative on the Alumni Legislative Council.

1893

Deepest sympathies are extended to Mrs. Frank L. Moss, 2, whose husband, Frank L. Moss, died in Paris August 21. Mrs. Moss, who celebrated her 94th birthday July 1, now is living at the Burnside Nursing Home in Marshall. She is class representative on the Alumni Legislative Council.

1897

Deepest sympathies are extended to James T. Kirk, 2, Champaign, on the death of his son, James Kirk III, in Champaign on July 29. James Kirk III, sales manager for Michael Todd and Company of Omaha, Neb., was the first descendant of Prof. James Kirk to pass away. Professor Kirk, superintendent of the SINU Training School from 1905 until his sudden death in 1911, had five children, all of whom graduated from Southern—James T., retired high school principal, superintendent of schools, and college professor; Mary E., retired teacher, and Vida G., retired teacher and assistant bank cashier, both ’02-2 and residents of Kankakee; and twins, attorney Bonum L., Champaign, and accountant Donald D., Chicago, both ’06-2.

James Kirk III is also survived by his wife, five children, and two brothers.

1899

Sixty-fifth Reunion
June 13, 1964

1902

A rare visit to the campus was paid last spring by Frank R. Howell, ex, of Chicago. Born on a farm near Blairsville, he has lived upstate for more than 50 years. He taught at the old West Beaver Pond school near Cambria for two years after leaving Southern, then decided $30 a month was just not enough on which to marry and support a family. He attended Gem City Business College before moving to Chicago. For 42 years he was an accountant for Swift and Company. Six of his eight children are living.

1904

Sixtieth Reunion
June 13, 1964

1909

Fifty-fifth Reunion
June 13, 1964

1912

Deepest sympathies are extended to Ruth McInturff Gross, 2, on the death of her husband, Theodore H. Gross, September 17 in Carlyle. He was 71. Mr. Gross, who had retired in 1959 as operator of a clothing store, had served as mayor of Carlyle from 1927 to 1949. Mr. and Mrs. Gross had attended Alumni Day last June. A daughter also survives.

1913

From Ames, Ia., Mrs. Roy Walker (Helen Waite Casper, 2) came to the Golden Reunion last June. In reporting for the “Fifty Years in Retrospect” sketches, she wrote, “In retrospect my life has not been too different from others of my generation. I taught school for a short time, then served with the YMCA in World War I, returning to Anna in time to teach the second semester at high school. There I met Roy Walker, a fellow teacher, and we were married in August. The next 43 years have been busy, happy and fruitful years, some ups and downs as in most families . . .

“Our three daughters brought into our family three fine men, by profession, veterinary medicine, civil engineer, and architectural engineering. Perhaps the greatest joy of our lives lies in the satisfaction we have in good marriages and happy families and our eight grandchildren.

“(Son) Bob is an Episcopal priest in New York City—assistant to the rector at St. Stephens Church and working on a doctorate in philosophy at Columbia. (He spent the month of June in Europe.)

“My husband suffered a severe heart attack six years ago, forcing retirement. Our big interest is our garden where Roy raises beautiful roses and dahlias and I assist.”

1914

GOLDEN REUNION
June 13, 1964

A nephew of Mrs. Albert W. Ford (Araminta McCracken, ex), Carbondale, is the seventh-ranked middleweight boxer in the world. He is Wilbert McClure, Toledo, Ohio, who won the Olympic light middleweight championship in 1960. Mrs. Ford is a retired teacher who for many years lived in Chicago.

1915

Friends made a return trip to India.
possible for the Rev. and Mrs. Julian W. Nave, ex, (Eleanor Bramlet, ex) missionaries to India for 40 years. They attended the centennial of the organization of the North India Conference October 20–23, the first Methodist Conference to be organized in that Far Eastern country. They are remaining for six months, spending most of their time at Lodhipur Institute at Shahjahanpur, U.P., where they began a major rehabilitation program in 1948. They retired in 1961 and returned to the States, where they make their home in Daytona Beach, Fla. Their son, Robert, and his wife now are directors of the institute. The new J. W. Nave Technical Building houses a machine shop, classrooms, offices and library at Lodhipur.

Mrs. Hugh H. Mace of Belleville is the former Else Grossart, 2. She has two children, David R, and Elizabeth Ann. Mrs. Mace was unable to attend the class reunion in 1960 when she spent the summer in Europe.

1916

After 20 years with the U.S. Internal Revenue Service, Finnis A. Hunsaker, ex, retired last fall as an officer in the Herrin office. He now has an office in Cobden, where he lives, to assist in income tax return preparation. Mrs. Hunsaker (Bertie Lence Hunsaker '49) has taught at Wolf Lake and in Madison.

Mr. and Mrs. Roy D. Farthing, 2 (Grace Douglas, ex '11) live in Brighton, Colo. They have two daughters, Jean and Gail. Mr. Farthing entered the educational field after World War I and has served as superintendent of schools at Eads, Colo., and elementary school principal in Brighton. His sister is Ethel M. Farthing '28-2, '52, Salem.

1917

Arlie O. Boswell, Sr., 2, and Arlie O. Boswell, Jr., ex '46, have formed the firm of Boswell and Boswell for the general practice of law, with offices in the Harrisburg National Bank Building, Harrisburg. Mr. Boswell was captain of the 1916 football team. And it was he, his brother, the late Fred W. Boswell, 2, and Claude E. Vick, 2, Springfield, who started the student publication, The Egyptian, in 1916 with the lordly sum of $10.

Mr. Vick attended Homecoming last fall with the aid of a cane. Last spring he went to the Springfield Area Alumni Club meeting on crutches after slipping on ice during the winter and breaking a leg. He is on leave from his job as director of professional and public relations with the Illinois Education Association.

1918

Florence E. Malotte, 2, St. Louis, has never returned to campus since she graduated in 1918 but she hopes to come back for the 50th Reunion in 1968. She wrote last spring, “I retired this year after 41 years of teaching. I taught my first year at Medora . . . there was so much that wasn’t in the book that I should have known that first year. I had seventh and eighth grades—all in one room. Medora was then a little village of about 400. Then I was in Madison for four years. As you can figure, that leaves 36 for Venice. I had fifth grade for awhile and then came down to third grade which was my ‘love.’ I may teach in St. Louis. Here you can teach till you are 70—if I last that long.”

Callie D. Heatherly, ex, Elkville, assistant division superintendent for Truax-Traer Coal Company with which he has been associated since 1937, is on sick leave from Consolidated Coal Company, parent firm of Truax-Traer. Mrs. Heatherly (Mary M. Heatherly '45) teaches in the Elkville schools.

1919

Fortieth Reunion
June 13, 1964

Grace Marie Boyd, 2, Riverside, is reading consultant for the elementary grades of School District 99 in Cicero. During her many years with the Cicero schools, she has been an elementary school principal, academic counselor, and curriculum coordinator.

Leroy Benton Randle, 2, East St. Louis, does substitute teaching since his retirement as Caseville grade school superintendent. He has two sons.

1921

Last summer Mrs. Raymond M. Cook (Ruth Graham, 2, '40) sent her Alumni Association membership dues from Germany, while taking an extended vacation in Europe and the British Isles with Mr. Cook. She wrote, “We are having a delightful time seeing interesting places again and exploring new areas. It is all very wonderful—however, we have a deep appreciation of our ‘native land.’” Mrs. Cook, a teacher in the Chicago schools, was second vice president of the Chicago Area Alumni Chapter in 1945–46.

1922

G. Nyle Huffman, 2, director of the Huffman Funeral Home in Carbondale, was elected president of the SIU Lettermen’s Club at Homecoming last fall. His son, William N. '47, M.S. '48, is associated with him in the funeral home. Mrs. Huffman is the former Gwendolyn Hamilton, ex '23; they also have a daughter, Imogene.

Deneen A. Watson, 2, Evanston, has law offices at 135 South LaSalle Street, Chicago.

1923

Deepest sympathies are extended to Mrs. Edith Morgan Walsh, 2, Troy, whose husband, John B. Walsh, died last summer while vacationing in Ireland. He was former chief engineer for the New York City Department of Buildings.

Mrs. Bernhardt J. Meyer (Helen Rendleman, 2, M.S. '61) is the new dean of girls at Anna-Jonesboro Community High School. She has been guidance director. Mr. Meyer is vice president of the Anna State Bank.

Emma Snook, 2, lives in Cutler and teaches home economics at Steelville High School. She attended the class reunion on Alumni Day last June.

1924

Fortieth Reunion
June 13, 1964

Maj. Julia M. Mikals, 2, retired October 31 as a physical therapist with the U.S. Air Force after 20 years in the military service. She recently returned to the States after a three-year tour of duty in Japan. Future plans include residence in the East and travel in Europe.

Also on the retired list is Mrs. Herman A. Sparr (Jessie A. Stewart '17-2), who retired last spring as principal of the Staunton Elementary School. Her teaching career began in 1913 in the rural schools of Williamson County. Since then she has been high school principal and teacher at Dongola, teacher at Tamms and Bunker Hill, and grade school superintendent and assistant superintendent at Staunton. In 1924 she married a teacher, Herman A. Sparr '20-2, '23, who died in 1934. She has been active in church and service groups in her community and in professional organizations, and she has served on the Alumni Association board of directors and as an officer of the Macoupin County Alumni Club.

1925

Grace Boyd, 2, '42, Chicago, retired Evanston elementary teacher, and Mrs. Bessie Simpson '50, M.S. '54, Carbondale, joined a group of retired teachers who...
sailed aboard the Queen Mary from New York last fall for a 50-day tour of six European countries—England, Holland, Germany, Switzerland, Italy and France. Miss Boyd has been a member of the Alumni Association 14 years.

Mrs. W. W. Beacham (Beatrice Sitter Sergent, 2, '58), Du Quoin, teaches in the Du Quoin elementary schools. Her son, Robert C. Sergent '53, teaches in the junior high school at Villa Grove.

Mrs. Henry Fixman (Rebecca Bowker Roby, 2) is co-owner of the Fair Store in Metropolis.

### 1926

Catherine Howells, 2, '42, M.S. '54, teaches the first grade at John B. Ward School in Du Quoin. In 1962 she ran for the office of Perry County superintendent of schools, the first woman to run for that office. She is a former president of the Du Quoin Business and Professional Women.

Another teacher is Mrs. C. J. Beggs (Mary E. Fitzgerald, 2, '62) who teaches kindergarten in the Harrisburg city schools. Her son, Donald L. '63, is in Graduate School at Southern.

Mrs. O. G. Burton (Mable Gramley, 2), associate professor in the SIU Department of Nursing, has been elected to the board of directors of the Illinois League for Nursing. She also is a member of the board of directors of the Southern Illinois League for Nursing.

### 1927

Harry L. Hicks, 2, a corrective therapist, recently transferred from the Veterans' Administration Hospital at Downey to the VA Hospital at Tucson, Ariz. He and his wife Dorothy have a son David.

Albert C. Welge, Lynn, Ind., is track coach and vocational agriculture teacher at the Community High School at Spartanburg, Ind.

### 1928

A walnut and bronze plaque in memory of the late Dr. William Troy Felts II '27-2 was dedicated at Holden Hospital, Carbondale, last fall. Dr. Felts, son of the late Mr. and Mrs. William Troy Felts '94-2, '11 (Jennie Hodge '94-2) died in Carbondale August 22, 1962, at the age of 55. He was a leading doctor in the University community.

Carl Lee '26-2 is principal of Douglas School in Murphysboro.

In Peoria Mrs. Ralph Casper (Beulah Brewer, 2) is a cashier for the YWCA. Her husband, Ralph Casper, died in 1956. They had two children.

### 1929

Thirty-fifth Reunion June 13, 1964

J. Cary Davis, SIU professor of romance languages and member of the faculty since 1930, is on sabbatical leave during 1963-64. Last summer he was in Guatemala for a National Defense Education Act Institute. Now he is traveling and studying in South America, Europe, and the Orient.

Mrs. Hoyt M. Dodson (Vera Reynolds, 2, M.S. '63), East Alton, has retired from teaching kindergarten in Washington School, Wood River. Mr. Dodson, M.S. '63, teaches in the Ferguson, Mo., schools. They have two children.

Another retired teacher is Mrs. Anna Brummet, 2, '43, McLeansboro, who formerly taught at Knight's Prairie Consolidated School.

### 1930

Mrs. James A. Sanders (Jessie Schanhoff, 2), Chicago, is supervisor of the primary department at James Giles School in District 80. Her husband is James A. Sanders, ex '23.

Another teacher in the Chicago area is Mrs. J. Ralph Power (Lois M. Lindsey, 2), of La Grange, who teaches kindergarten at Westchester. She has two children, Joel and Lynn Carole.
A third teacher is Mrs. Joseph M. Williams (Bernadette O'Brien, '2), who is an elementary teacher at Longfellow School, District 189, East St. Louis. She has three children, including twins, Mary and Joseph.

1931

Don M. Haegé, 2, is owner of the Squire Shop, Ltd., men's clothing store which opened in the Murdale Shopping Center in Carbondale last fall. For a number of years Mr. Haegé has been a manufacturers' agent for men's clothing in the Midwest and for a time lived in St. Louis and Kansas City. He is assisted in the men's store by his son Tom.

Vinton C. Fishel '28-2, who has been with the U.S. Geological Survey since 1929, is engineer in charge for Kansas for the survey, with offices in Lawrence, Kan. He has not returned to the Carbondale Campus since he left it in 1931. He has two children, Charles and Vinita Mae.

Emilie Huck '23-2 teaches geography at Centralia Township Junior College.

Harry L. Anderson, 2, '48, is a teacher in School District 80, Mt. Vernon. He is married and has two children.

1932

Mr. and Mrs. J. K. White '25-2 (Helen Lafferty '26-2) live in Morton. Their son, John Keith, is a senior at Southern. Mr. White has been a teacher, school administrator, district manager for Marshall Field Enterprises, and now pursues his hobby as a photographer for All-States Photo Company, Chicago. He is immediate past president of the Peoria Alumni Club. Mrs. White teaches at Morton Junior High School.

Mrs. Jobie Bonds (Rosa Belle Carter, 2, '54) lives in Gates, Tenn., and teaches the seventh grade in the school at Henning, Tenn. She has been teaching in Tennessee since she received her diploma at Southern. Her daughter, Mrs. Margaret Jackson Bonds '38, teaches in Chicago.

1934

Thirtieth Reunion
June 13, 1964

Mr. and Mrs. G. Harold Felty (Christine Johnson Felty '58) and their three sons, Dennis, Bob, and Mike, live in Champaign, where Mr. Felty is a history teacher and counselor at the senior high school and Mrs. Felty is a first grade teacher in the Unit Four schools.

Dr. John B. Taylor, ex, is a physician and administrator on the staff of the Carbondale Clinic and Southern Illinois Hospital Corporation.

Mrs. George Hays (Lillian Dickey, ex) lives in Miami, Fla., and has a son.

1935

The Rev. Noel M. Taylor '33-2, executive secretary of the Illinois Baptist Association, Carbondale, was one of the religious leaders who met with President John F. Kennedy in Washington last spring to discuss the civil rights issue. Mr. Taylor has served in his association post 17 years.

Benita Birkla Sykes, 2, is the wife of Joe Sykes, Ford dealer in Dongola. Late last summer Mr. and Mrs. Sykes went to Hawaii, winning the trip in a sales contest sponsored by the Ford Motor Company.

Harold E. Wolfe is manager of the East St. Louis office of Newhard Cook and Company. He formerly was manager of the Illinois division of the Automobile Club of Missouri. Mr. Wolfe, who is a plant hybridizer and horticulturist specializing in tree peonies and known as one of the country's experts in that field, served as president of the American Peony Society in 1956. He is a member of the Missouri Botanical Gardens Horticultural Council and the Royal Horticultural Society of England.

1937

Mr. and Mrs. Raymond W. Treimer (Winfred Nooner), Hollywood, Calif., took a trip around the world last spring, spending Easter in Jerusalem, sailing on the River Nile, seeing the mosques of Istanbul, the Acropolis in Greece, and the Taj Mahal in India, visiting their cousins, Lt. Col. and Mrs. Paul W. Sheffer, ex '40 (Hattie E. Koos '45) in Teheran, Iran, and touring Hawaii, Japan, Thailand, Hong Kong, and Singapore. They visited 17 countries, returning to the States via the North Pole. Mrs. Treimer is an executive on the staff of Television City, CBS; she has been with CBS since 1948, first in the radio program department and later the TV editing department. Her husband is a security analyst and investment adviser. Mrs. Treimer is the daughter of Mrs. Chloé Nooner Wahrenberg '32-3, Los Angeles.

K. Neil Thurmond, ex, is mayor of Johnston City, president of the Southern Illinois Mayors Association, secretary of the Johnston City Chamber of Commerce, member of the state Commission to Survey and Study the Problems Pertaining to Counties, and owner of the Thurmond Electric Company. He and his wife Helen have two children.

1938

Lt. Col. Paul R. McDonald '35-2, M.S. '62, has been transferred from SIU, where he was director of education with the AF ROTC unit, to Ft. Wayne, Ind., where he is AF adviser to the 320th AR Reservists in northern Indiana. A former teacher, he has been in the military service since 1943 and has served in the Far East and in Europe. He now is enrolled in graduate work at Indiana University.

Mrs. Willard M. Gersbacher (Eva Oxford '35-2), Carbondale, teaches biology and serves as guidance director at Sesser High School. For the past four summers she has had grants for summer study.

J. F. Vaughn, Zeigler, science teacher in the Zeigler-Royalton Unit schools, attended an eight-week National Science Foundation Summer Science Institute at Murray State College, Murray, Ky., last summer.

Mrs. Joseph Melvin (Mary Belle Cra- ver), Murphysboro, is librarian at SIU University School. She formerly was an English and history teacher at Murphysboro and librarian at Marshall Township High School. The Melvins have two children.

1939

SILVER REUNION
June 13, 1964

Mr. and Mrs. Robert L. Davis, M.S. '52 (Harriet Lyons, ex '35) live in West Frankfort, where he is a science teacher in the community unit schools. They have two sons, Larry and Robert.

Mr. and Mrs. James J. Finley (Beulah E. Sheppard, ex) live in Grand Island, N.Y. They have two sons and two daughters. Mr. Finley is a research chemist with Union Carbide Metals Company.

Dr. John D. Kieffer, ex, has a general
practice in orthopedics in Mountain Home, Idaho. He and his wife Fern have four daughters and two sons.

Mr. and Mrs. Robert S. Kerr, M.S. '49 (Nell Todd Kerr '28-2, '34), Tamms, have retired, he after 40 years of teaching and she after 45 years. Mr. Kerr had been principal of the Tamms Elementary School.

Herman J. Easterly is an operating supervisor in research with Sinclair Petroleum Company in Baytown, Texas. At one time he was a chemist with du Pont de Nemours and Company. He has a daughter, Claudia Rae.

### 1940

Curtis William Smith, Berkeley, Calif., recently was appointed director of industrial chemical research and development at Shell Development Company's research center at Emeryville, Calif. The development company is the research and development organization for Shell Oil and Shell Chemical Companies. Mr. Smith joined Shell as a research chemist in 1943, became a research supervisor in 1952, department head in 1959 and for the past two years has been director of exploratory research. He has published several papers and monographs in scientific literature and was editor of a book, Acrolein, published last year by John Wiley and Sons.

Mr. and Mrs. Alonzo V. Grim '31-2 (Doddridge Taylor '29-2, '54) live in Carbondale, where he is a casework supervisor with the Illinois Public Aid Commission in Jackson County.

Mrs. Vernon Kupel (Claudia Wisely) lives in Murphysboro and has two daughters, Jane, a freshman at Southern, and Margie, 15.

Frederick S. Boucher, Jackson, Mich., is a salesman with C. E. Hamlin Company. He has been a member of the Alumni Association 11 years.

### 1943

Because the San Diego, Calif., schools did not end their year until June 15, Mrs. David E. Findlay (Ethel May Layman) could not attend the class reunion. A teacher since graduation from Southern, she is head of the home economics department of Montgomery Junior High School. She writes, "... one of the most interesting assignments which started several years ago is being sent student teachers in home economics from San Diego State College for training." She and Mr. Findlay, ex '42, in plant engineering with Consolidated Aircraft, have been in California 13 years. They enjoy golfing, swimming, camping trips to the mountains or along the coast—and their first grandchild!

Eugene F. Quinn, secretary of church music for the Kentucky Baptist Association for the last seven years and the first to hold that post, last spring received a doctorate in church music administration from Southern Baptist Seminary, Louisville, Ky. He is the second person to receive this degree from any seminary. Mr. Quinn for nine years was secretary of church music for the Illinois Baptist Association and professor of choral music at the College of the Bible in Carbondale. He and his wife and four children live in Lyndon, Ky.

Flora (Peggy) Alma Carey is a teacher in the Mt. Vernon city schools, District 80. Her home is in McLeansboro.

### 1944

**Twentieth Reunion June 13, 1964**

Charles Foehner, Jr., North Little Rock, Ark., is a traffic engineer with Southwestern Bell Telephone Company. He is married and has a son Charles.

Clyde E. Croslin is enrolled in Graduate School at SIU, working on a master's degree in art education. He had operated a hobby shop in Carbondale and now works in commercial and fine arts. Mr. Croslin is a Baptist minister.

### 1945

Mrs. Joseph Earl Dungan (Nadine Whitesides Dungan, M.S. '54) is on leave of absence as biology teacher at East Alton-Wood River High School to serve as assistant supervisor of the National Defense Education Act Program on the staff of the Illinois state superintendent of public instruction. She is a science consultant and NDEA program supervisor for the Alton-Wood River area. She, her husband, ex '53, and two sons live in East Alton.

The Rev. Edward L. Hoffman, former SIU all-conference tackle, has returned to the Carbondale community to become pastor of the First Methodist Church. He had been pastor of the Quinsigamond Methodist Church in Worcester, Mass., for the past six years while studying for a doctorate in psychology and counseling at Boston University. He has completed work and requirements for the degree. He also holds a bachelor of divinity from Drew University and master of sacred theology from Temple University.

Harold W. Taylor is accounting supervisor for Marsh, Inc., Muncie, Ind.

**BORN:** To Mr. and Mrs. Hewey E. Tweedy (Helen B. Craine '50), Dupe, a son, September 8. Mr. Tweedy is principal of Dupe High School.

### 1947

Leroy J. Ducksworth, teacher at Monroe Grade School and member of the East St. Louis school system 43 years, last fall was appointed assistant principal of East St. Louis Senior High School. He is married to the former Henrietta E. Dosier, ex '36.

Mrs. Elmer Wagner (Emilie Wagner, ex), Edwardsville, no longer teaches but does some private tutoring. She has been a member of the Alumni Association nine years.

Dr. and Mrs. Charles R. Burroughs, (Naomi Hancock '49) live in Knoxville, Ia., where he has a medical practice. They have three children, Stephen, Marilyn, and Gary.

In Alton John R. Hunter, ex, operates the Hunter Insurance Agency. He and his wife Norma have three children.

Mr. and Mrs. Oscar E. Araujo (Betty Duncan), Gainesville, Fla., have adopted a daughter, Linda Kay, born September 9, 1963.

**MARRIED:** Iona Ruth Grant Card, M.S. '51, to Clyde R. Mitchell, February 15, 1963, Alton. He is foreman of the shipping department at Olin Mathieson, Inc. and she is a primary teacher in the Alton schools.

### 1949

**Fifteenth Reunion June 13, 1964**

Mrs. Louis W. Knucha (Rue M. Sowers), Vergennes, teaches junior high school in the Elverado Community Unit School District.

Another teacher is Mrs. Dallas S. Silveria (Verna Pulley Silveria, M.S. '52), Carbondale, who is a fifth grade instructor at Winkler School in Carbondale District 95. She has two children.

In Kankakee Lloyd D. Higgerson is conductor of the Senior High School and East Junior High School bands and supervisor of the entire music program for School District 111. He has been at Kankakee since 1957 after teaching music and conducting at Oakland, Hinsdale, and Vandalia. Music is also his avocation—he plays with the Eldon Baron band and during the summer with the Kankakee Municipal Band. He is married to Ada Marie Cover, ex '47; they have three children.

Walter E. Stone, who has been with Sears Roebuck and Company for over 10 years, is a store controller for the firm. He lives in Ferguson, Mo., is married and has two children.

William C. Dean, since 1961 Midwest regional manager for the ABC appliance
division of the Kelvinator division of American Motors Corporation in Memphis, Tenn., last fall was promoted to sales manager of the Kelvinator ABC line. He and his wife and two sons now live in Birmingham, Mich. Mr. Dean, who served in the Navy during World War II, has been in the appliance field since 1949.

Henry Don Sullins, Jr. is principal of Jefferson School in Marion Community Unit School District Two.

1952

Last fall Milton E. Weissbecker, M.S. '54, joined the faculty of Illinois State University, Normal, as associate professor of health and physical education for men, head golf coach and assistant football coach. He previously had been an assistant professor and assistant football coach at San Fernando Valley State College, Northridge, Calif. Before going to the West Coast after receiving a doctorate at Syracuse University, in New York, he had taught and coached in Villa Park, Elmhurst, and Wheaton. He and his wife Joan have a daughter, Leslie Lynn.

Ralph J. Melton, M.S. '53, has joined the faculty of Mill Shoal Grade School. He formerly taught at Grayville and Tower Hill.

Mr. and Mrs. J. Phillip Cole, M.A. '62 (Lotella Wesley '54, M.S. '62) have moved from Clinton to Kankakee, where he is teaching social studies in the Bradley-Bourbonnais High School.

Kenneth Croslin, former librarian at George Peabody College and later a specialist in library development for the U.S. Operations Mission in Korea, now is head librarian at Troy State College, Troy, Ala.

MARRIED: Carole F. Hoover to Bill D. Allen, July 13, Hillsboro. They are living in Norman, Okla., where he is completing work on a Ph.D. in geology. He served with the Army Signal Corps in Japan and Korea and from 1957 to 1960 was an exploration geologist in Venezuela for Creole Petroleum, subsidiary of Standard Oil of New Jersey.

BORN: To Mr. and Mrs. Philip Y. Coleman (Wyona Smith '54), Champaign, a daughter, Sidney Elizabeth, September 14. Mr. Coleman is a teacher of English literature and assistant track coach at the University of Illinois.

1954

Tenth Reunion
June 13, 1964

George T. Harrell, E. St. Louis, is an air traffic controller with the Federal Avi-

Alumni Reuniers

Several months ago John M. Reich '61 returned to his position as internal revenue agent with the Internal Revenue Service in Champaign after a six-month stint in the Army. He sent a list of other alumni with the revenue service and it includes Louis Powenski '58 and Charles F. Christman '53 at Herrin, James D. Myers '60 at Oliny, Adam Suchomski '59 and Teddy R. Kern '58 at Danville, Robert Norfleet '61 at East St. Louis, and Stanley Allen '61 at Champaign.

William E. Williams '48 is assistant district director of internal revenue at Buffalo, N.Y.

In Carbondale Leonard O. Bening, ex, is owner of the Bening Real Estate and Construction Company. He and his wife (Clara Lou Stephens, ex '50) have three children.

Last spring when the Southern Alumnus was reporting that James E. Bieser was transferred by International Business Machines from Poughkeepsie, N.Y., to Cleveland as data processing manager, he already had been transferred to Chicago, where he is midwestern regional industry manager—manufacturing. He and his family are living in Arlington Heights.

Mrs. Pearl Henry (Selma Reynolds Henry) teaches second grade in the Mt. Vernon city schools.

1956

Stanley A. Meadows, VTI, Mulkeytown, is a mechanic at Oriente Mine No. Three, Freeman Coal Corporation. He is married and has a daughter, Diana Lee. He has been a member of the Alumni Association eight years.

Capt. Joe E. Johnson, navigator with the Military Air Transport Service, was graduated last spring from the AF Squadron Officer School at the Air University, Maxwell AFB, Ala., and assigned to Dover AFB, Del.

New principal of Hurst-Bush Community High School is James H. Coffel, M.S. '62, former Christopher Junior High School instructor.

MARRIED: Mrs. Beulah Flexter to John Wesley Smith, last summer, Collinsville. Mrs. Smith teaches third grade at Stallings School in Granite City. Her husband is an agent for Christian Universal Insurance Company of Salem.

BORN: To Mr. and Mrs. Roland Schoenborn (Veronica F. Elder), La Miranda, Calif., a daughter, Renee, March 29. The Schoenborns also have twins, Robin and Tracy, born October 17, 1960.

1958

Carroll J. Schwartz, M.A. '59, has joined the faculty of the SIU Edwardsville Campus as an instructor in the Department of Geography at the East St. Louis Center. He has been a doctoral student at Michigan State University.

1959

Fifth Reunion
June 13, 1964

Mr. and Mrs. James A. Gruner, VTI (Judith Ann Cox, VTI) and their two-year-old son Jeffrey are living in Versailles, Ky., where Mr. Gruner is a pressman at the new Rand McNally plant.

Thomas W. Haney, who has a law practice in the law office of his father in Herrin, is city attorney for Johnston City and assistant state's attorney for Williamson County. He is a law graduate of DePaul University in Chicago, is married, and has twins.

Mrs. Martha M. Smith is on the faculty of Joiner Grade School in Benton. She has two sons, Dennis and Kermit.

MARRIED: Patricia Lee Askew, VTI-1, to Don Holland, April 6, 1963, Marion. They are living in Marion, where he is an electric plater at the Supreme Transformer Company and she is a beautician.

Wanda E. Dolan to Hector Avila, August 31, Carbondale. They are living in Chicago, where she is a high school English teacher and he is a doctoral candidate at the University of Chicago. When Mr. Avila receives his degree, he will become professor of economics at the University of Tucumcan in Argentina, his native country.

BORN: To Lt. and Mrs. Royal Kent Dillinger (Julianne Frem Dillinger '62), Roswell, N.M., a son, Scott Randall, August 23. Lt. Dillinger is a navigator in the Air Force and his wife is a teacher in the Roswell public schools.

To Mr. and Mrs. Gilbert H. Kroening, M.S. '60 (Jean Engel Kroening '60), Ithaca, N.Y., a daughter, Debra Jean, June 20. Mr. Kroening is a graduate student in animal nutrition at Cornell University.

SOUTHERN ALUMNUS
1963. Mr. Pinkerton is a senior planner Peoria, a son, Scott Harper, April 26, 1963. Mr. Pinkerton is a senior planner with the Tri-County Regional Planning Commission.

To Mr. and Mrs. J. W. Sanders, M.S., '60, Highland Park, a daughter, Catherine Louise, October 20. He is a coach and teacher at Highland Park High School.

1960
Marcia Ball is teaching sixth grade for the U.S. Air Force in Wiesbaden, Germany.

James H. Harris, Flora, is assistant county supervisor for the Farmers Home Administration in the U.S. Department of Agriculture. He and his wife Joann have three children.

Lt. (j.g.) Robert P. Schulhof, Chicago, is serving aboard the USS Monrovia. Before entering service he was a systems engineer and field representative for IBM.

MARRIED: Kathleen Bellamy, M.S., to R. M. Bahn, October 6, Carbondale. They are living in Carbondale, where she is supervising nurse and he is a sanitary for the Jackson County Health Department.

Jerrie I. Dean to Wilbert R. Ruck, August 31, Peoria. They are living in Peoria, where she is a music teacher in the public schools and he is in the industrial sales division of Keystone Steel and Wire Company.

Carolynn O'Connor to Gary L. Stoltz, July 27, Oak Park, where they are residing. He is a claims authority with the Social Security Administration.

Billie Wasson to Charles B. Womack, September 20, Harrisburg, where they are living. He is a mathematics teacher at Thompsonville High School.

BORN: To Mr. and Mrs. Thomas Scott Abney (Norma Sue Rogers '62), Des Moines, Ia., a son, Douglas Scott, April 13, 1963. Mr. Abney is a graduate student in plant pathology at Iowa State University working on a Ph.D., and his wife is a dietitian at the Iowa Methodist Hospital.

To Mr. and Mrs. David E. Frazier (Wilma Eddings), Kankakee, a son, October 12.

1961
From Oak Forest Myrna Jean West writes, "After two years of flying, I am now teaching French in Midlothian. It is truly a small world! During my flying career, I met Southern graduates in New York, San Francisco, Rome, Paris, practically everywhere but Moscow. There must be some there too, for they seem to be traveling the globe. It would be interesting to know just how many are outside the United States." Miss West formerly was a United Air Line stewardess. (In October there were 141 alumni with APO and FPO addresses, plus 194 with foreign addresses.)

Ensign Warren H. Dick has an FPO address—he is flying for the Navy at Barbers Point, Hawaii.

Elmer F. Schrage, former teacher at Aviston, now is teaching chemistry, physics, and mathematics at Nashville Community High School. He also is working on a master's degree at the SIU East St. Louis Center. Mrs. Schrage is the former Frances E. Wetherell, VTI '59. They have a year-old son, Scott Allen.

Cheng Shiang Kuo, M.A., is an art teacher at Aetna Elementary School in Gary, Ind.

MARRIED: Joyce Y. Beckmann to Ellsworth E. Evans, June 15, Jacob. He is a student at VTI and an employee of Parrish Construction Company. She formerly taught in Cabokia.

Joann Priest to Lonnie G. Cordell, August 17, Harrisburg. They are living in Wheeling. She teaches mathematics at Arlington Heights and he teaches speech and English at Mt. Prospect High School.

Mrs. Cordell, who taught at Mt. Vernon, has a master's degree from Ohio State University.

Shirley K. Hediger to Tommy J. Thomas, October 6, Salem. They are living in Maplewood, Mo. He is an industrial engineer with McDonnell Aircraft Corporation, St. Louis.

BORN: To Mr. and Mrs. Philip B. Rodman, ex, Farmer City, a son, James Philip, February 7, 1963. Mr. Rodman is a farm manager for Lloyd C. Rodman.

1962
Mr. and Mrs. Richard C. Pooley (Doris E. Musgrave '61) and son Ted are living in Reseda, Calif. He is a design engineer at Rocketdyne, division of North American Aviation, performing design investigations on advanced liquid rocket engine systems and giving written and graphical reports on his findings.

Frances C. Chausse completed her dietetic internship last fall at Hines V.A. Hospital and now is a dietitian at Decatur and Macon County Hospital in Decatur.

After he was commissioned an ensign in the U.S. Navy at Newport, R.I., last spring, Joy M. Kennedy was assigned to the Naval Justice School at Newport, then reported for permanent duty station aboard the USS Midway (CVA 41) in Alameda, Calif., in July.

MARRIED: Irma Jean Ankenbrand to John E. Keller '54, M.S., '63, August 22, Mt. Carmel. They are living in St. Louis.

TO AND FROM THE SOUTH POLE—Lt. Lowell G. Lee '62 (left), Du Quoin, has been a member of the Air Force task force assisting in Deep Freeze '64, annual re-supply operation for scientific stations on Antarctica. The team provided support for C-120 transports making the 4,600-mile, 22-hour round-trip missions through the world's worst flying weather. Lt. Lee is a motion picture project officer with Military Air Transport Service at Orlando AFB, Fla. Returning from a year at Byrd Station at Antarctica is Thomas I. Brown '62 (right), physicist with the U.S. Weather Bureau's Polar Operations Project sponsored by the National Science Foundation. He reported that the first scientific symposium was held at Byrd in August.
where he is teaching in the public schools.

Carole Fanizzo to Bruce C. Mackey, August 17, Chicago. They are living in West Frankfort, where she is teaching mathematics and English. He is a graduate assistant in the SIU Department of History.

Nancy K. Smith to Allan J. Janonis, August 10, Chicago. They are living in Shawano, Wis., where he is a sales representative for Parke Davis Pharmaceutical Company.

BORN: To Mr. and Mrs. Carl J. Kunz, Alton, a son, Clifford Roger, April 20, 1963. Mr. Kunz is an accountant for Union Electric Company.

To Mr. and Mrs. George D. Lybarger (Maryann Waldron), Mt. Vernon, a son, David Rexford, May 8. Mr. Lybarger is a field claim representative with State Farm Insurance Company.

To Mr. and Mrs. Robert F. Sittig, Ph.D., Lincoln, Neb., third daughter, Ann, June 4. Mr. Sittig is an instructor in government at the University of Nebraska.

1963

First Reunion
June 13, 1964

Richard F. Winters, Murphysboro, has a 21-month scholarship for graduate work in Asian Studies at the University of Hawaii and in Thailand. The grant is from the University of Hawaii's East-West Center, which was established by Congress in 1960, and covers all expenses, including travel, plus a small personal allowance. The scholarship provides for a field trip to northeast Thailand, where Mr. Winters will complete research for a thesis. He is working on a master's degree in comparative government in Hawaii, specializing in the study of counterguerrilla warfare.

Mrs. Herbert H. Pontow (Janet Harris Pontow) is teaching home economics at Civic Memorial High School in Bethalto. James Thomas McNamara is No. Two man on the sports desk of the Champaign-Urbana News-Gazette. He is a former sports editor and summer editor of the Egyptian.

Mrs. Boris Musulin (Shelba Jean Musulin) is taking graduate work in the School of Education at the University of Wisconsin while her husband is visiting associate professor in the Theoretical Chemistry Institute there. He is on leave from the SIU Department of Chemistry.

Carol Gay Cook, Madison, is teaching English and social studies at Granite City Junior High School.

Similarities Outweigh Differences—Continued from Page 16

almost always the responsibility of the classroom teacher. I did find a great interest in our guidance system. After a speech I made to a group of English educators I was questioned for two hours about guidance.

As you would expect, the foreign language program of Norwegian schools is different from ours. Since Norway has more visitors per year than she has citizens and she depends heavily on foreign trade, she must teach foreign language for very practical reasons. Every Norwegian child starts English at the fifth grade, German at the seventh grade, and French shortly thereafter. When I asked the foreign language expert of the Royal Ministry of Church and Education what one foreign language, in his opinion, should be taught in the United States, his immediate answer was, "Spanish, of course."

Another significant difference is that religion must, by law, be taught in English, Scottish, and Norwegian schools. Furthermore, church schools in England may, by submitting to governmental control, be supported by the state.

Primary teachers in England and Norway are generally not as well trained as they are in this country, since most primary teachers have only two or three years of training in a school analogous to our normal schools of 30 years ago. But secondary teachers are very well educated and equal or exceed that quality of their counterparts in the U.S. Secondary teachers in all three countries must be university graduates and since university graduates are generally drawn from the top three to seven per cent of the population, this insures a high level of basic quality.

It is interesting to note that the course for a lawyer and an academic high school teacher each requires about the same amount of time in Norway—about six years.

Yes, there are differences in the educational systems of the various countries but I insist that the similarities are greater than the differences. It was amazing and heartening to be able to sit down with teachers, principals, and superintendents in any one of the three countries and talk about problems common to all.

Organization did not matter then; the only thing that did matter was that children need to be educated and it was our job to do it. Around this problem we met on a common ground.

Raymond E. Dye, M.S., is on the staff of the University College of Buffalo, Buffalo, N.Y., as assistant dean of students in the residence hall program.

Last fall William A. Spencer went to Bolivia in South America for three years of missionary service for the Methodist Church. He is doing educational work in a mission school. Mr. Spencer, of Salem, attended an orientation session at DePauw University in Indiana and a training course at Stony Point, N.Y., before leaving for South America. On campus he was a member of Phi Eta Sigma, Wesley Foundation and the college band. During the summer of 1962 he participated in a work camp and travel seminar for Methodist students in South America.

MARRIED: Ellen Anne Bennett to Larry A. Drake '62, August 11, Carbondale. He is teaching at Lincoln Junior High School and she at Lakeland School in Carbondale.

Carol I. Dohanich to Lester W. Schneider '57, B.S. '62, August 17, Belleville. They are living in Columbia, where she is a teacher in the Community Unit School District. He is with the Pet Milk Company in St. Louis.

Carolyn A. Tillock to Marvin K. Kaiser, June 15, New Athens. They are living in Albuquerque, N.M., where he is an accountant with Ernst and Ernst and she is teaching physical education in the Albuquerque High School.
Maurice S. (Shorty) Meyer, De Soto, foreman of the garage of the University Transportation Service the last 10 years, died October 29 at the age of 61.

Robert W. English, associate professor of industrial education from 1940 to 1951, died October 26 in Winnetka. Since 1951 he had been director of education for the American Institute of Baking in Chicago. He was active in Rotary International and was past president of the Illinois Training Directors Association.

1914

Maj. Gen. John Reed Hodge, ex-U.S. Army Retired, died November 12 at Walter Reed Army Hospital, Washington, D.C., at the age of 70. His home was in Fayetteville, N.C. Native of Golconda, he entered the service in 1917, was commissioned and rose through the grades to general in 1952. He retired the following year. General Hodge was a combat veteran of both world wars. At various times he was commanding general of the American Division, XXIV Corps, U.S. Forces in Korea, V Corps, Third Army, and Army Field Forces. He was honored by the U.S. Army, Navy and Air Force for dynamic command at Guadalcanal, New Georgia, Leyte and Okinawa. He held the Legion of Merit, Distinguished Service Medal with two Oak Leaf Clusters, Purple Heart, Air Medal, Navy Distinguished Service Medal, Legion of Honor (Commander) from France, and Legion of Honor (Commander) from the Philippine Islands. He was internationally known as military governor of South Korea. In 1959 he was given an SIU Alumni Achievement Award for his exceptionally distinguished service career.

1916

Jack L. Stroman, 2, Itasca, retired vice president of the Stroman Furnace and Engineering Company, died June 8. He moved to the Chicago area in 1918 from Carbondale. He had served as class representative on the SIU Alumni Legislative Council and on the board of directors of the Chicago Alumni Club. Mrs. Stroman (Eleanor Burlison '28) and a daughter survive.

1920

Lillian F. Genre, 2, Maywood, died September 27 at the age of 67. She was born in Madison County and formerly lived in Carbondale. A sister, Edith '20-2', '24, survives.

1922

Mrs. Virginia Caldwell McAndrew, 2, widow of William McAndrew, chairman of the SIU Department of Physical Education and athletic director for whom the stadium is named, died November 6 in Carbondale at the age of 63. She was a native of Carbondale.

1928

Nellie K. Doty, 2, '44, grade school teacher in Downers Grove for 21 years, died August 5 while vacationing in San Francisco. She was on a National Education Association tour and had just returned from Hawaii. She was a native of Ewing, where she had taught 14 years before moving to the Chicago area. She leaves five brothers and sisters, including Alice Elizabeth, '29-2', '37, Another sister, Clara Caviness '26-2', '31, died in 1955.

1929

Robert L. Allen, professor of mechanical engineering at Georgia Institute of Technology, Atlanta, Ga., and member of the faculty since 1937, died in Atlanta October 12 at the age of 58. Native of Carbondale, he held bachelor and master degrees from Georgia Tech. He had made major contributions to the mechanical design of large radar antennas, gear reduction systems and to the development of fuel systems for internal combustion engines. He had written articles for engineering publications and held several patents, including one on a fuel injection system. Surviving are his wife (Carmen Stone '29); a daughter; a sister, Marion A. '34; and a brother.

1933

Clifford C. Jeremiah, Chester, named southern Illinois regional director of the Illinois Department of Public Aid at Carbondale this year, died in Chester October 19 at the age of 51. He was a native of Sparta. He and Mrs. Jeremiah had attended his class reunion Alumni Day last June. Besides his widow, he is survived by three sons, William H., Clifford J., ex '60, student at St. Louis University Medical School, and Michael C., a student at Southern.

1941

Mrs. Clara Williams, Jacksonville, died last summer at the age of 67. She had retired in June of 1961 after 39 years of teaching in Randolph, Perry, and Morgan counties, the last 20 years in kindergarten and primary work in Jacksonville.

1957

Mrs. Mary Meehan Wilson, M.S., '60, first grade teacher at Brush School, Carbondale, for the last five years, died in Carbondale October 21 at the age of 40. Native of Holyoke, Mass., she was a member of Delta Kappa Gamma sorority and treasurer of the SIU Jackson County Alumni Club. Surviving are her mother, Mrs. Elizabeth C. Meehan '38, assistant professor at University School, and two brothers, including William F. '51.

1961

Frederick H. Detjen, ex-Springfield, Peace Corps leader in Colombia, S.A., died October 5 in Bogota from injuries suffered in a jeep accident two days before. He arrived in Colombia in May, 1962, one of 45 Peace Corps workers and became leader a year later. He had studied three years at the U.S. Military Academy and had graduated in engineering from the University of Illinois. He had majored in sociology at Southern before joining the Peace Corps.

1963

Pape Lukk, M.S., former manager for the SIU University Center, was killed October 3 when struck by a falling tree while working for a Delaware tree surgery firm near Kennett Square, Pa. He was 24, a graduate of the University of Delaware, where he played varsity football and was an outstanding baseball catcher. One summer he was under contract to the Detroit Tigers, playing at Jamestown in the New York-Penn League. Native of Estonia, he spent the war years in refugee camps across Europe before coming to this country in 1951. He was working for the tree firm while waiting to report to Ft. Benning, Ga., November 4 as a second lieutenant. A Pape Lukk Memorial Loan Fund has been established to build up a special revolving loan fund for graduate students majoring in college student personnel work. When Mr. Lukk's son, who was two months old when his father died, is of college age, the principal and interest of the fund will be turned over to him. Contributions can be sent to Dennis Trueblood at SIU.
Students, faculty and staff joined the nation in mourning the brutal and untimely death of President Kennedy. Classes were suspended, offices closed and memorial services held on campus the day of his funeral. The international students held a silent march to express their sympathy and grief. The AF ROTC had a military memorial program in McAndrew Stadium. The SIU-North Texas State football game of November 23 in Denton, Tex., was cancelled and the team, airborne at the time of the assassination, returned home after staying overnight in Texas.

In Dallas, Robert F. Walker, ex ’54, news director and director of public affairs for WFAA-TV, covered events in that city practically the entire weekend and was seen on ABC hookup a number of times. Capt. Roger K. Parrish, ex ’55, of Seymour Johnson AFB, N.C., was one of 50 Air Force and Navy pilots participating in the fly-over during burial services in Arlington National Cemetery.

An assistant professor of accounting in the School of Business received the second highest grade in the Illinois certified public accountant examination given last May. Richard Franklin Page ’56, M. S. ’60, was awarded the Silver Medal of the Illinois Society of Public Accountants for his achievements at an awards dinner in Chicago last fall. He also received an Elijah Watt Sells certificate of honorable mention for achieving a high mark on the national level. Mr. Page, former Shell Oil Company accountant in St. Louis and insurance agent in Mt. Vernon, is married to the former Kay Bays, ex ’55. They have three daughters.

Some Library Notes

Circulation of Morris Library for 1962–63 passed the one-million mark. A total of 1,048,819 books were charged out, an increase of 13.4 per cent over 1961–62. Just 10 years ago, the library’s circulation totaled 66,300—which has been multiplied 15 times over. The library last June totaled 672,271 volumes, including 566,892 on the Carbondale Campus and 105,379 at the Edwardsville Campus. Acquisitions for the year totaled 77,725 volumes, with 55,802 being added at Carbondale and 21,923 at Edwardsville. Morris Library receives 4,550 periodicals, Edwardsville Library 1,502... The Edwardsville Library’s collection of books from Germany and Poland is more than 300 volumes since last fall when 17 volumes were given from the German Research Union in Bad Godesberg. The gift, arranged by Prof. Stanley B. Kimball of the Social Sciences Division, includes Weymar’s authorized biography of Konrad Adenauer, a four-volume collection of German documents from 1933 to 1952, a collection of Nazi documents, and Meinecke’s study of the German Katastrophe.

Beginning with the winter quarter graduate students no longer receive textbooks as part of the rental system. Now they purchase such books as are required for class use. This change was recommended by evaluators from the North Central Association.
