Honorable & Mentionable...

Homecoming, 1966, has come and gone. We hope many of you were able to return to campus—either Carbondale or Edwardsville—to visit with your friends and former classmates, talk to your favorite teachers, renew old acquaintances, and recall days gone by.

To those of you who did, we're glad you could come; return again, often. To those who couldn't make it, perhaps there is no better time than now for us to renew the invitation. Come any time!

If you haven't re-visited the University for a while, you may be surprised at the changes you find. Yet many things are much the same. The cannon in front of Old Main still gets several coats of paint every year, library study areas are filled late into the night, and students still complain about term papers and examinations.

One thing which we think you'll find has remained constant is the spirit of Southern Illinois University. It's still a spirit of excitement, of great things happening today and still greater things to happen tomorrow.

But don't take our word for it; come and see for yourself. And while you're here, stop by the Alumni Office and say hello. And, one final word. Perhaps it's timeworn and a bit trite, but so far as we're concerned it still applies: If you can't come, write!

(Please turn to inside back cover.)
The Cover  November is a transitional month, forerunner of winter, marked by the falling of leaves and the chill of frosty mornings. Photographer Larry Turner captured the essence of the season in the striking cover scene, a deserted campus bench surrendered by students to November's rapid advance.

Recruiting  Dr. Donald N. Boydston, SIU athletics director, outlines the intricacies of college student-athlete recruiting and the rules by which such activity must be guided. His article, directed primarily at alumni and friends of the University who might wish to help shoulder part of this responsibility, begins on page 2.

Communications  One of the most striking structures on the Carbondale campus is the newly-opened Communications Building. Behind its attractive facade lies a remarkable array of special facilities, as revealed in a short picture-story on pages 12 and 13.

In past years, alumni have done comparatively little to aid in recruiting superior student-athletes for Southern Illinois University. There probably are two basic reasons; we haven't actively enlisted your aid, and we haven't informed you about the rather complex rules and regulations concerning entrance requirements, NCAA rules, and standards of eligibility.

Now that Southern has achieved the status of a major university and most of our athletic teams are competing against other major universities, however, we need the active support and participation of our alumni.

In most large universities in this country, alumni have been extremely important in the recruitment process. They have been well organized for such activities, have kept abreast of the rules, and have known the approaches that should be used in recruiting student-athletes.

Because we need and want your help, perhaps we can help you better understand proper recruiting procedures so that you in turn may give us active aid wherever possible.

To provide some background and give you a frame of reference, we must describe present conditions. A recent report by the Counseling and Testing Services shows there has been a constant improvement in the quality of SIU students. New and demanding entrance requirements and a comprehensive two-year General Studies program for all make it imperative that we recruit athletes who also are capable of meeting these academic demands. Our attempts to bring in capable students have been increasingly successful. Statistics for the spring quarter showed that the over-all undergraduate male student grade point average was somewhat below that of the 45 lettermen athletes competing in spring sports.

When alumni provide us with information about a
Facilities such as the Arena have helped Southern attract major competition in intercollegiate sports, with most Saluki athletic teams now meeting some of the top teams in the nation both at home and away.

prospective student-athlete, we will follow up in every case. Coaches may visit the community, and after receiving proper permission from school authorities and parents, talk with the prospect. In some cases, alumni will be asked to bring students to the campus and expenses may be paid when the Athletic Department issues the invitation.

First however, alumni should understand University entrance requirements.

Under current SIU entrance rules, fall quarter first term freshman enrollment is limited to Illinois high school graduates who ranked in the upper half of their class or who achieved high scores on the American College Testing (ACT) examination, and out-of-state students in the upper 40 per cent of their graduating classes.

In the winter quarter, Illinois residents ranking in the upper two-thirds of their graduating classes or who show high scores on the ACT test will be admitted.

In the spring quarter, all Illinois high school graduates making adequate scores on the ACT test are eligible for admission as new freshmen to SIU. Those ranking in the lower one-third of their graduating classes will be placed on scholastic warning, however. The 40 per cent rule still applies to out-of-state students.

Summer quarter enrollment of new freshmen again is open to all Illinois high school graduates making adequate ACT scores. Conditional admission is granted to lower one-third ranking students who also scored low on the ACT. This requires the student to carry at least eight quarters of credit and maintain a “C” average. Students failing to meet these requirements are not allowed to continue in the fall quarter. Out-of-state students in the lower 60 per cent of their classes with high scores on the ACT are admitted conditionally for summer.

Transfer students in good standing at their former institutions are eligible for admission any quarter.

To be specific, here’s what the alumnus can do.

First, check with a responsible school administrator to see if the student can qualify academically. If he can, write or call the office of the Director of Athletics. It is important that information on promising athletes be reported early, even in the sophomore or junior year. Newspaper clippings, statistics, or other factual material about the student should be sent. Such information will be carefully evaluated and returned.

If possible, meet with the parents of such athletes and discuss with them the advantages of attending Southern Illinois University. Explain to both the parents and the athlete that you have no authority to offer any financial aid, and that scholarships and awards can be conferred.

Dr. Donald N. Boydston, an ex-Marine and former newspaper man, is Director of Athletics and chairman of health education at SIU. He came to Southern in 1955 from the University of Mississippi, and the following year was one of six educators chosen to direct the National Conference on Health Education at Washington, D.C. He is co-author of two books and has written numerous articles concerning health and physical education. His leadership in athletics has led to such prominent positions as president of the U.S. Gymnastics Federation.
only by the Scholarship and Loans Committee upon recommendation from the Athletic Department.

Alumni may bring students to visit the campus, but should have permission of parents (and coach if it is in the season of his sport). Before bringing such visitors, arrangements should be made with the appropriate head coach at Southern at least ten days ahead of time, so that he or members of his staff can meet and talk with the prospective student.

Reasonable entertainment for the prospective student may be provided by alumni only in the home town area or when he visits the SIU campus. It is a violation of NCAA rules to pay any expenses at any other time or place.

The question most often asked about the athletic program at Southern concerns the type of aid offered prospective students. A limited number of NCAA scholarships are available for superior student-athletes. These awards fully defray on-campus educational expenses, cover costs of room, board, tuition, and regular fees including books, and pay $15 a month for laundry and dry cleaning expenses. Special or supplemental fees are not covered. The awards are for one year and may be renewed if the student meets institutional and conference requirements, is recommended by the head coach of his sport, and receives final approval by the Scholarship and Loans Committee.

In addition, each sport is assigned a specific number of jobs on the student work program which will cover costs of on-campus room and board. Tuition and/or fee awards also are available in each sport. These awards are allocated on the basis of recommendations by the head coaches of the respective sports and must receive final approval from the Scholarship and Loans Committee. They also are for one academic year only, but may be renewed in the same manner as NCAA scholarships. Student-athletes also may receive awards which are unrelated to their abilities as athletes.

The recent NCAA 1.600 rule which went into effect January 1 is another factor which must be taken into consideration when athletic awards are being made. The rank in class and the ACT composite score are incorporated into a formula to predict the grade-point average which may be expected of the student-athlete. It is possible for a student to rank in the upper half of his high school graduating class but score low on the ACT and thereby render himself ineligible for any type of aid under this rule.

For this reason, it is quite important that students take the ACT test early in their senior year. For purposes of scholarship awards, the class rank of the student at the end of his sixth semester in high school can be used in ascertaining his eligibility for aid.

When a student indicates that he intends to accept a scholarship or award at Southern, a form describing type of the award being given and the rules which must be observed in order to maintain the award is signed by the student, his parent or guardian, the head coach and the Director of Athletics. This form is signed with the understanding that the student will, at the time of his graduation, be qualified for entrance into SIU and can meet the requirements of the NCAA 1.600 rule.

An additional consideration is the National Letter of Intent. This is a working agreement among the major conferences and athletic independents of the nation. It guarantees that representatives of the cooperating institutions will respect a signing to attend one of them, and the student cannot break this contract without severe penalties. This past year, the Letter of Intent could not be signed by the student before 8 A.M., May 20. In 1967, the date will be approximately the same.

There are additional rules concerning campus visits and entertainment of which alumni should be aware.

SIU may finance only one trip of an invited prospective athlete to the campus. This visit may not exceed 48 hours on campus. Round-trip transportation costs between the student's home and the campus may be assumed. SIU is not allowed to finance the transportation of relatives or friends of a prospective athlete on a visit to the campus.

A student may at his own expense visit the campus at any time he wishes. A friend or alumnus of the University may at his own expense transport or pay the transportation of the prospective athlete to visit the campus, provided that he accompanies the student-athlete on his visit.

Finally, and most important, if a coach or member of the Athletic Department requests an alumnus or other friend of the University to help recruit, or if the staff member has knowledge that the alumnus or friend is helping to recruit, then the friend or alumnus becomes a "representative of the athletic interests" of Southern Illinois University. Under this definition, the University becomes responsible for his actions in recruiting student-athletes. Therefore, the rules of recruitment which have been listed earlier must be strictly observed. If at any time a question arises concerning such recruitment, please seek clarification from the office of the Director of Athletics.
Autumn Comes to the Campus
Students Rate SIU

Although wishing a somewhat greater voice in administrative decisions, an overwhelming majority of SIU students rate their school highly.

These are indications of answers to a questionnaire administered to more than 13,000 Carbondale and Edwardsville campus students by an SIU student-faculty commission hoping to learn more about student views.

The 100-question questionnaire was administered by the Commission to Study the Role of the University in Society and of the Student in the University. A report by the commission now under study by the University administration was based in part upon the results.

Slightly more than 50 per cent of the students rated the overall quality of educational opportunities at SIU as "very good" or "excellent," and

News of the Campus

an additional 44 per cent as "satisfactory." Only 3.9 per cent answered "poor."

More than 90 per cent of the students rated the quality of SIU instruction from "satisfactory" to "excellent," 87 per cent rating degree and course offerings the same way. Academic standards were judged "satisfactory" or higher by 88 per cent.

Greatest area of discontent shown by the students was on a section of the questionnaire devoted to "Student Rights and Responsibilities." Sixty-two per cent felt that the extent to which student opinion influences University policy is insufficient.

The student body was divided, however, as to whether the policy of in loco parentis, making the University responsible for the student when he leaves parental shelter, is wise. Forty-six per cent felt it an unwise policy, 37 per cent supported it, and 15 per cent expressed no opinion.

Students on both campuses felt that informal student-faculty contact outside the classroom was insufficient, although a majority on both campuses said teachers are readily available for consultation.

Student services and facilities in general were rated well, one exception being parking. On the Edwardsville campus, with primarily a commuter population, 61 per cent rated parking facilities as inadequate. At Carbondale, where most students are not permitted to bring automobiles to campus, 75 per cent found parking inadequate.

Students on both campuses voiced strong support for the University's practice of renting rather than selling textbooks to undergraduates, and most rated library facilities as "satisfactory" to "excellent."

Claude Coleman, Carbondale campus English professor and commission chairman, said before the questionnaire was administered that it was designed to give the commission a clearer picture of actual student interests and areas of potential discontent.

Aviation Technology

Enrollment in Aviation Technology, newest of 27 programs in Southern's Vocational-Technical Institute, jumped from 20 students last year to 95 this fall.

One of only eight university-connected aviation technical schools in the nation, the program is located in its own 240- by 160-foot building at the Southern Illinois Airport north of Route 13 between Carbondale and Murphysboro.

Students enrolled in Aviation Technology receive training as main-
tenance personnel for airlines, general aviation, repair stations, and corporate aircraft. Graduates receive the Associate in Technology degree and are prepared for the Federal Aviation Agency airframe and power plant license.

Internship Program

Through its Rehabilitation Institute, Southern has set up an internship program with five other universities and research agencies for students in behavior modification, a new development in behavioral science and rehabilitation involving practical application of laboratory research principles to human problems such as mental disorders.

Under the agreement, students can be exchanged among the participating institutions for periods of specialized research. Participating, in addition to SIU, are the University of Kansas, the University of Illinois, the University of California at Los Angeles, the Institute for Behavioral Research at Silver Springs, Md., and the Behavior Research Laboratory, Anna State Hospital.

Edward Sulzer, head of the behavior modification program of the Rehabilitation Institute, said Harvard University also will be involved on an informal basis. Facilities utilized by Harvard, which probably will become part of the internship arrangement, Sulzer said, are Massachusetts General Hospital and the Fernald State School.

Instructional TV

Entering its sixth year of operation this fall, the SIU-based Southern Illinois Instructional Television Association now serves 135 school districts with 35,000 students, an increase of 20 districts and more than 5,000 students since last spring.

Participating schools receive televised instruction from 8:40 A.M. to 3:10 P.M. Mondays through Thursdays, beamed into the classroom by WSIU-TV, the University television affiliate. Classes are used by elementary, junior high school, and high school districts.

Five instructional series have been prepared by SIU, with other filmed courses provided by national educational groups. Instruction is offered in geography, art, science, language arts, social studies, French, music, health, and remedial reading, in addition to a series on the United States Constitution.

Participating schools have received financial assistance in purchasing equipment and instruction manuals for classroom use in conjunction with the televised classes through Title I of the federal Elementary and Secondary Education Act.

Instructional programming will be provided to an even broader area with completion of a new University television station near Olney, which is expected to be in operation in about a year.

All-American Award

For the fifth time since 1960, the SIU yearbook, the Obelisk, has been awarded the All-American rating by the Associated Collegiate Press.

The All-American award, highest given, has been won by SIU for the past three consecutive years. It also was received by the Obelisk in 1960 and 1961, when Southern competed with other schools in the 7,000 to 10,000 enrollment classification.

Editor of the latest winner—the 1966 book distributed last spring—was Jeanne Baker of Belleville. Now married to Larry Woody, she is teaching in Indianapolis.

Other staff members were Ken Wilkening, business manager, and Laura Chovanec, Terry Myers, Rose Astorino, and Deanna Schlemmer, associate editors. W. Manion Rice of the journalism faculty department is fiscal sponsor.

Space Well Used

Because of a “happy marriage of convenience and necessity,” SIU classrooms and laboratories are operating on a six-day, 61-hour week.

President Delyte W. Morris said the heavy schedule resulted from the need for classes meeting the “convenience of students whose college attendance depends upon establishing blocks of hours in which to work, and the necessity to gain maximum use of facilities for a maximum number of students.”

Southern’s average classroom use of 39.92 hours per week places the University in the top one per cent of the nation’s public degree-granting institutions, according to a national report. It ranks at the top of public institutions in Illinois, where the State Board of Higher Education suggests a standard of 30 hours per week.
Yeast Bank Cited

An SIU research laboratory has been cited by UNESCO's International Cell Research Organization as the only agency furnishing yeast cultures to laboratory scientists anywhere in the world free of charge.

Southern's "bank" of yeast cultures, propagated by Carl C. Lindegren, professor emeritus of microbiology, now totals approximately 80,000 different mutants (altered strains). Since Lindegren began his genetic studies of yeast more than 25 years ago, he has furnished "starter" cultures to hundreds of laboratories throughout the United States, Europe, and Asia.

A new two-year grant of $42,000 from the National Science Foundation will be used to maintain and continue work of the yeast bank, especially in further research on mutants produced by drugs.

Lindegren retired to half-time in 1964. He continues to work at his laboratory at SIU but spends the other half of his time at the University of Puerto Rico, where he also directs yeast research.

Experimental College

A new "experimental college" has been started by SIU in East St. Louis for 100 high school graduates from low income families who probably wouldn't be able to make the grade in the traditional college program.

In addition to classroom teaching with specially designed instructional programs, each student will get work-study experience and will receive $120 a month for working 20 hours a week in the school system, the local Community Action Program, and health and welfare agencies.

In groups of 10, the students will work closely with "teacher-counselors" from similar socio-economic backgrounds who have a thorough understanding of the particular problems and interests of such students.

Use of the new "teacher-counselor" concept was made possible by funds from the Office of Economic Opportunity, while the money students earn will come from work-study grants under the Higher Education Act.

Hyman F. Frankel, professor of sociology and special assistant to Vice President Robert W. MacVicar, will head the experimental program. It will have a faculty of four for instructional advisement in the fields of English language skills, humanities, quantitative subjects (such as algebra and geometry), and science.

It is expected that students in the program, who will study year-round instead of the traditional nine months, will be equipped to enter SIU or other colleges at the junior level after two years of study.

Frankel emphasized that the entire instructional program will be geared to the community. Science classes, for example, will take up air pollution and local health problems, and history may be studied in terms of East St. Louis' transportation industry or its comparison with other river cities.

Little Grassy Zoo

Two baby deer, survivors of painful run-ins with civilization, are sentimental attractions of a new zoo at the SIU Little Grassy facilities.

The fawns—"Bambi" and "Scamper"—are part of a family of white-tails now in residence at a children's menagerie established for school children and handicapped youngsters who attend camping sessions at Little Grassy each summer.

"Scamper," barely a month old, is one of three deer donated by Giant City State Park. Her mother died during the transition and she has a gimp leg suffered in the move. Her father and a sister are doing well in their new home.

"Bambi," three months, had a near-fatal encounter with a mowing machine at Crab Orchard National Wildlife Refuge. Don Autry, SIU graduate student in zoology working at the Refuge, nursed the fawn back to health after a 40-stitch operation closed the wound in its side.

Other animals in the zoo are four tame mallard ducks, a pair of Muscovy ducks, and a peacock, all from Ft. Massac State Park. To be added are swans, a tom turkey, rabbits, a goat, a peahen, and a new companion for the widowed buck.

The animals are kept in a special enclosure near the Little Grassy stables, although "Scamper" initially was placed in his own pen behind the home of James Lipe, grounds supervisor for the entire Little Grassy camp complex. There he was bottle-fed by Mrs. Lipe and the three Lipe children.
Scope is International

An image of Southern Illinois University as an institution deeply involved in international affairs emerged at this year's annual Club Officers Workshop in the University Center at Carbondale, attended by 86 club representatives, board members, and spouses.

William J. McKeefery, dean of academic affairs, told the group the opportunity for international participation was "never richer" than it is now. Speaking during the morning workshop session, Dean McKeefery said the University, its faculty members, and its students are taking advantage of this opportunity.

"The SIU catalog has pages of courses dealing with matters of international dimensions," he said, "including more than 100 in nine foreign languages." He said there are 600 foreign students enrolled at the University, representing 76 nations.

Photo display in ballroom lounge of University Center holds interest of Van Mountain, board member from Montgomery-Macoupin Counties Club, and Mrs. Mountain.
The SIU faculty includes 29 persons who have received Fulbright awards for international teaching and study, Dean McKeefery said a figure which places the University among the foremost in the nation in this respect. More than 350 members of the faculty have been to Europe, he added, more than 200 to South America, more than 200 to Canada or Mexico, some 100 to the Near East, 70 to the Far East, and 45 to Africa.

Dean McKeefery described SIU-operated or related educational programs in progress in Viet Nam, Afghanistan, Nepal, Mali, Nigeria, and Senegal. He also outlined proposals for research programs which would result in even greater international involvement on the part of the University.

Later in the morning session, Admissions Director Leslie J. Chamberlin outlined programs honoring academically outstanding students in local high schools which Alumni Clubs could sponsor. He said the Alumni Association could provide speakers for such programs, as well as printed certificates to be presented to honor students.

Separate programs would not be essential, Chamberlin said, and the students could be honored at regular school assemblies or at commencement exercises.

“Competition for the academically talented student is increasing every day,” Chamberlin said, and if SIU is to continue to get its share it needs “some help in the field.”

Representing Saline County Club were, from left, Mrs. J. W. Barnes, board member; Mrs. Charles Greer; Mr. Greer, board member; Dr. James A. Barker, president, and Mrs. Barker.

Jerre Pfaff ’61, M.A. ’64, head of the Admissions Office’s articulation program, said SIU representatives not only met with high school officials and students throughout the state last year, but also conducted a series of meetings for the junior colleges. They talked with prospective students, he explained, outlined the University’s entrance requirements, and provided needed information on application and registration procedures.

Remainder of the day’s program included discussion of the Alumni Association program and operation of alumni clubs, a noon luncheon at which Ellis Rainsberger, new head football coach, was introduced, and a tour of the new Communications Building directed by Dean C. Horton Talley. Workshop participants went as a group to the SIU-University of Louisville football game in McAndrew Stadium in the evening.

Clubs represented at the workshop ranged from the Kansas City Area Club to the Washington, D.C. Area Club. The Rev. Allan Watson ’42, board member from the latter club, was cited for having traveled the greatest distance to attend the meeting.
Leland Bergfeld, Randolph County Club board member, and Mrs. Bergfeld register for annual workshop (above). At right are Odell Mosley, secretary-treasurer of the Champaign Area Club, Dr. Claude Vick, Springfield Area Club board member, and Mrs. Vick.

Discussing the planned workshop program before the morning session commenced were the Kansas City Area Club representatives, from the left, John F. MacDonald, president; Mrs. Louise MacDonald; Mrs. Helen Whitlock, vice president, and John E. Whitlock.
Communications Facilities Open

Although its vertical-lined face makes the new Communications Building one of the most imposing structures on the SIU campus at Carbondale appearance-wise, its most impressive quality actually lies in the array of special facilities housed inside.

The $4-million structure, to be formally opened with a two-day program November 18 and 19, houses the departments of speech, speech correction, theatre, and radio-television, as well as offices of Dean C. Horton Talley and the School of Communications.

To be added in later development are the departments of journalism and printing and photography.

The building also houses one of the nation's newest and most modern theatres—a 588-seat, multi-colored auditorium—and a completely separate laboratory theatre designed for almost unrestricted experiments in staging, lighting, and seating arrangements.

Special features of the new Communications Building include 588-seat theatre, above right, with continental type seating near the stage and conventional seating arrangement in the rear. Below is exterior view of theatre wing. Above, St. Louis coed Camille Malpocker tries sound-proof, no-echo chamber used for audition and speech perception tests in speech pathology and audiology.
It has latest laboratory facilities for studies in speech pathology and audiology, and a self-instruction laboratory with taped lectures, film presentations, teaching machines, and other audio-visual aids for students in courses such as foreign languages, biology, physics, English, and mathematics, among others.

Although only the first stage of the building is thus far complete, it already has replaced more than 15 old barracks buildings, former residences, and other made-over quarters scattered around the campus.

Authorities in six areas of communications will be brought to SIU for the building's formal opening program.

They include Paul F. Lazarsfeld, chairman of the Columbia University sociology department and widely recognized scholar of mass communications; Franklin S. Haiman, chairman of the department of public address and group communication, Northwestern University; John Howard Lawson, playwright, film writer and authority on dramatic writing; Lee Edward Travis, dean, Graduate School of Psychology, Fuller Theological Seminary; Henry H. Smith, professor of photography, Indiana University; Harrison Summers, professor emeritus, Radio-Television Division, Ohio State University, and Paul Fisher, chairman of the Freedom of Information Center, University of Missouri.

Dr. Michael S. Hoshiko of the speech correction department works with special laboratory equipment housed in new Communications Building.
Coach Bill Meade, left, accepts trophy representing NCAA gymnastics championship, one of two won by SIU in past three years. Below, wrestling coach Jim Wilkinson reflects tension of close match.

By FRED HUFF

A year ago Southern's basketball team won 22 of 29 games and placed second in the NCAA college-division tournament; its gymnastics team extended a consecutive dual meet win streak to 50 prior to claiming the NCAA championship; its swimming team lost only to powerful Indiana, and its wrestlers posted an impressive 14-3-2 record for their best showing in a number of years.

Yet, the men in charge feel this season, which is just around the corner, may be equally outstanding.

Jack Hartman, the Saluki basketball boss who has steered SIU into national prominence in recent years, is forecasting "an interesting year, one which should see us improve tremendously as the season progresses."

Bill Meade, the ever-optimistic gymnastics leader, claims he'll be "disappointed if we don't win our third national championship."

Jim Wilkinson, despite continued unexpected personnel losses, reports his wrestling squad will "be a little thin in the center of the lineup, but both ends should be strong enough to give us another good season."

Coaches see Successful Season

as a sophomore two years ago. Frazier, an Atlanta, Ga., product who led the team in rebounding (221), hit .456 from the floor, and averaged 17.1 points per game with a 410-point total, appears set for an even finer campaign.

Sophomores, too, will play an important role in the development of Hartman's club. Top candidates are Eldo Garrett, Centralia; Willie Griffin, Detroit, and Creston Whitaker, Jacksonville.

In gymnastics, the tragic death of Frank Schmitz, probably the outstanding collegiate gymnast in the country—will doubtlessly be a factor this season. Meade still feels his squad can successfully defend its NCAA title, however.

Returning from last year are 11 lettermen, including Mike Boegler, Rochester, Mich.; Fred Dennis, Waukegan; Bob Dvorak, Westchester; Dale Hardt, Skokie; Ron Harstad, Arlington Heights; Jack Hultz, Beaver Falls, Pa.; Larry Lindauer, Los Angeles; Paul Mayer, El Centro, Calif.; Joe Polizzano, New York; Rick Tucker, Covington, La., and Steve Whitlock, Harvey.

Meade's biggest problem may be in deciding which three to enter in each event. In addition to the veterans, top sophomore standouts Pete Hemmerling, Wayne Borowski, and James Gibson, all of Chicago, have joined the squad, along with Larry Schneider of Villa Park. Joe DaPree, a transfer student from Iowa State, also will contend for a starting role among trampolinists.

Top Saluki wrestlers this year are expected to be Terry Magoon, a 115-pounder from Erie, Pa.; Larry Baron, a 130-pounder from Melrose Park, and Joe Domko, a 167-pounder from Roselle.

Others who are being counted on are Steve Sarossy, Maywood; Wayne Lenhares, San Leandro, Calif.; Aaron and Al Bulow, Chicago; Buck Deadrich, San Leandro, and Bob Roop, East Lansing, Mich.

Swimming leaders are former national place-winners Gerald Pearson, Rockford; Kimo Miles, Honolulu, Hawaii, and Ed Mossotti, St. Louis. All own records, Pearson the 200-yard breaststroke in 2:15.1, Miles, the 200-yard butterfly in 1:55.6, and Mossotti the 100-yard freestyle in 47.9.

Successful Season

And, now swim coach Ray Esick, who has replaced the genial Ralph Casey, wasted little time in announcing that "this year's team could be the finest in Southern's history, barring injuries and sickness."

Each can support his case well.

Super backliners Dave Lee and George McNeil have departed, along with Boyd O'Neal, Randy Goin, Bill Lacy, and Lloyd Stowell, but the basketball picture is not all bad. Returning from last year's squad are lettermen Clarence Smith, Zion; Ralph Johnson, Trenton; Roger Bechtold and Jay Westcott, Belleville, and Ed Zastrow, Morton Grove.

Smith and Johnson are almost certain to compose two-thirds of Southern's front line, while Bechtold displayed poise late last season and will no doubt be given an opportunity to fill a starting position.

Most encouraging to Saluki fans, however, is the return of Walt Frazier, a second-team Little All-American

as a sophomore two years ago. Frazier, an Atlanta, Ga., product who led the team in rebounding (221), hit .456 from the floor, and averaged 17.1 points per game with a 410-point total, appears set for an even finer campaign.

Sophomores, too, will play an important role in the development of Hartman's club. Top candidates are Eldo Garrett, Centralia; Willie Griffin, Detroit, and Creston Whitaker, Jacksonville.

Super backliners Dave Lee and George McNeil have departed, along with Boyd O'Neal, Randy Goin, Bill Lacy, and Lloyd Stowell, but the basketball picture is not all bad. Returning from last year's squad are lettermen Clarence Smith, Zion; Ralph Johnson, Trenton; Roger Bechtold and Jay Westcott, Belleville, and Ed Zastrow, Morton Grove.

Smith and Johnson are almost certain to compose two-thirds of Southern's front line, while Bechtold displayed poise late last season and will no doubt be given an opportunity to fill a starting position.

Most encouraging to Saluki fans, however, is the return of Walt Frazier, a second-team Little All-American

as a sophomore two years ago. Frazier, an Atlanta, Ga., product who led the team in rebounding (221), hit .456 from the floor, and averaged 17.1 points per game with a 410-point total, appears set for an even finer campaign.

Sophomores, too, will play an important role in the development of Hartman's club. Top candidates are Eldo Garrett, Centralia; Willie Griffin, Detroit, and Creston Whitaker, Jacksonville.

In gymnastics, the tragic death of Frank Schmitz—probably the outstanding collegiate gymnast in the country—will doubtlessly be a factor this season. Meade still feels his squad can successfully defend its NCAA title, however.

Returning from last year are 11 lettermen, including Mike Boegler, Rochester, Mich.; Fred Dennis, Waukegan; Bob Dvorak, Westchester; Dale Hardt, Skokie; Ron Harstad, Arlington Heights; Jack Hultz, Beaver Falls, Pa.; Larry Lindauer, Los Angeles; Paul Mayer, El Centro, Calif.; Joe Polizzano, New York; Rick Tucker, Covington, La., and Steve Whitlock, Harvey.

Meade's biggest problem may be in deciding which three to enter in each event. In addition to the veterans, top sophomore standouts Pete Hemmerling, Wayne Borowski, and James Gibson, all of Chicago, have joined the squad, along with Larry Schneider of Villa Park. Joe DaPree, a transfer student from Iowa State, also will contend for a starting role among trampolinists.

Top Saluki wrestlers this year are expected to be Terry Magoon, a 115-pounder from Erie, Pa.; Larry Baron, a 130-pounder from Melrose Park, and Joe Domko, a 167-pounder from Roselle.

Others who are being counted on are Steve Sarossy, Maywood; Wayne Lenhares, San Leandro, Calif.; Aaron and Al Bulow, Chicago; Buck Deadrich, San Leandro, and Bob Roop, East Lansing, Mich.

Swimming leaders are former national place-winners Gerald Pearson, Rockford; Kimo Miles, Honolulu, Hawaii, and Ed Mossotti, St. Louis. All own records, Pearson the 200-yard breaststroke in 2:15.1, Miles, the 200-yard butterfly in 1:55.6, and Mossotti the 100-yard freestyle in 47.9.
Other returning lettermen include Jim Miles, Honolulu; Reinhard Westenrider, Ft. Sheridan; Marco Bonne, Redwood, Calif.; Rich Evert and Thomas Crowder, St. Louis; Don Shaffer, Florissant, Mo.; Eric Jones, Urbana, and Loren Walker, Dalton.

Leading rookies appear to be Scott Conkel, Pekin; Wayne Thomas, Buffalo, N.Y., and Shaun McNally, Pittsburgh, Pa., while Ron Coghill, Indianapolis, is now eligible after transferring from Cincinnati.

SIU fans also will be hearing of Coach Lew Hartzog's indoor track team during the winter months. While not expected to bid for national honors, a number of lettermen such as Robin Coventry, Melbourne, Australia; Ross MacKenzie, Manitoba, Canada; Oscar Moore, White Plains, N.Y.; Al Ackman, Mt. Vernon, Ind.; Jeff Duxbury, New South Wales, Australia; Rich Ellison, Berwyn; Mitch Livingston, Decatur; Ian Sharpe, Sidney, Australia, and John Vernon, Nottingham, England, are expected to compete well throughout a busy schedule.

New swim coach Ray Essick bases hope for successful season on return of such standouts as, from left, Gerald Pearson, Kimo Miles, and Ed Mosotti.
The Class of 1966

MRS. and MR. MICHAEL L. ADAMS (NANCY LOUISE ORR) will be living in Seattle, Wash., where she will teach elementary grades and he will do graduate work. . . . WILLIAM T. ALLABEN is attending SIU graduate school. . . . GERALD WAYNE ANDERSON is in the U.S. Army, stationed at Fort Knox, Ky. . . . RICHARD P. BIRGER is with the advertising and sales promotion department of Ralston Purina Company in St. Louis.

WILLIAM O. BIZZELL is a T.V. technician for Ross Furniture Company, Carbondale. . . . MR. and MRS. RAYMOND R. BOSECKER are in Columbus, Ohio, where he is a statistician for Statistical Reporting Service, USDA. . . . MARGARET ANN BOWEN is a teacher at Calumet High School. . . . JAMES D. BROWN is in sales at R. H. Donnelly in Berwyn. . . . EDWARD E. BUCHOLZ is teaching in Hazelwood, Mo.

LARRY S. BULLOCK is a teacher at DuQuoin High School. . . . DORIS A. BURNETT is a speech correctionist in East St. Louis. . . . MRS. SHARON ANN BURNS is teaching second grade in Caseyville. . . . WILLIAM GALE BURZYNSKI is teacher and coach in Christopher. . . . JOHN P. BURNE is a salesman for Best Foods in Carbondale. . . . ELEANOR CHILES is a case worker for the Illinois Department of Public Aid in Chicago.

TOM A. COLOMBO is an electrician for Brown and Colombo in Herrin. . . . TERRY G. COOK is attending optometry school in Memphis, Tenn. . . . GERALD A. EDWARDS is with the U.S. Air Force in Amarillo, Tex. . . . JAMES R. GEHRIS is a counselor for the Illinois Division of Vocational Rehabilitation in East St. Louis. . . . ALAN D. GEORGE is an adjuster for Universal CIT in Carbondale.

KATHERINE GERSICH is teaching Spanish at North Shore School in Sea Cliff, N.Y. . . . CHARLES E. GIDEON is activity program supervisor for the A. L. Bowen Children's Center in Harrisburg.

. . . SANDRA ANN GILL is an elementary teacher in Mt. Vernon. . . . LOIS GUBERT is teaching vocational home economics in Oneida. . . . DAVID L. GURLEY is head stockman for National Tea Co., in Melhvile, Mo.

JAMES R. GUTTERIDGE is a tool designer for Ammco Tool in North Chicago. . . . MRS. DELORES HEINZ HELM is teaching in the Alton Elementary School System. . . . MRS. JANE CAPEL HENSHAW is an elementary teacher in Harrisburg. . . . CHARLOTTE M. HENTZ is teaching third grade at Laraway School in Joliet. . . . MARIO HERBELLO is a petroleum engineer in Fairmont, W. Va. . . . JOHN R. HARRINGTON is a social worker in Normal.

JUDITH A. HICKS is an English teacher and librarian at Elverado High School, Elkhart. . . . JOHN F. JOHNSON is a government teacher in Anna. . . . BRENDA J. JONES is a fifth grade teacher in Ridgway. . . . EDGAR L. JONES, JR., is a civil engineer for the Illinois Division of Highways in Carbondale. . . . MRS. MARION MCGUIRE is teaching mentally retarded in Hurst. . . . JOHN L. KNAUB is a television artist in American Samoa.

CAROLYN SUE MERLO is a secretary for the Illinois State Real Estate Association in Springfield. . . . CHARLOTTE SUE MUSKOFF is a sixth grade teacher at Millstadt Consolidated Grade School. . . . MR. and MRS. MELVIN DEAN PATTON are living in Cahokia, where both are teachers. . . . KAREN L. PETERSON is teaching general science in Chicago.

Alumni, here, there . . .
Three of the four 1966 SIU Woodrow Wilson Fellowship recipients got together with Milton T. Edelman, associate dean of the Graduate School, before leaving this fall to do graduate study elsewhere. From the left are Edelman; John S. Strawn, studying history at the University of Wisconsin; Joseph G. Bohlen, studying physical anthropology at Wisconsin, and Mrs. Elsie Jo Miller, who entered Bryn Mawr College of study English. The fourth Wilson Fellowship recipient, Winston C. Zоеckler, already had left for New York, where he is doing graduate work in philosophy at Columbia University.
ern Electric Company. Mr. Karraker received his M.A. and Ph.D. degrees from the University of Illinois in 1937 and 1940.

Mrs. Eloise Wright Martin is on the Board of Education in Kenilworth. She and her husband, Harold, have been married 25 years and have two daughters.

Recently, Dr. D. P. Sinha, Ph.D., wrote to say: "On my graduation in
Dr. Alfred Richardson '40, winner of an Alumni Achievement Award in 1964, has returned to Carbondale as professor of physiology and head of a new SIU Biophysics and Physiology Research Laboratory.

Previously on the faculty of the St. Louis University School of Medicine, he has been credited with a significant number of developments and inventions in the fields of medicine and biophysics. His electromagnetic blood flow meter won for him a coveted Gold Medal of the Congress of Physical Medicine in 1949, while his more recent electromagnetic heart pump has been hailed as an important advancement in heart-lung surgical equipment.

Involved in space work continuously since 1946, Dr. Richardson is a medical physics and biophysics advisor and consultant to the National Aeronautics and Space Administration and other space-related agencies. Much of his research during the last 14 years has been supported by the Office of Naval Research.

"I've always wanted to come back to Southern Illinois and to teach at SIU," the Herrin native said of his appointment. "I hope I'm here 'til I die!"

1964, I had an opportunity to teach at the Syracuse University as visiting assistant professor and then to take a trip around the world along with Purnima (PURNIMA SINA, M.S. '63). We visited several European and Asian countries, and, of course, stopped in India. We spent the 1964-65 academic year at the East West Centre in Honolulu, Hawaii, doing research and writing at the Institute of Advanced Projects. A book entitled The Indian Sub-Continent-Socio-Cultural Dimensions of South Asia, edited by both of us, will appear shortly from the University of California Press. In the fall of 1965 we moved to the Australian National University, Canberra, under whose auspices we are at the moment carrying out field work in the Central Indian Hills. You will be pleased to note that on September 25, 1965, we had our first child, Kalpana, a daughter. Purnima and I send our greetings to you and our friends in the Association."

1965 Mr. Leonard Bertagnolli is employed by the Systems Science Corporation. He and his wife, Janet, were married in February. They live in Benld.

Ensign John L. Bettger, VTI '63, was recently transferred from the Navy Submarine Service to the Navy Explosive Ordnance Disposal Unit Two, a "frogman" unit.

Pfc. William J. Pittman is an auditor in the comptroller's office in Saigon, Viet Nam. ENS. Bettger
He entered the army in August, 1965.

Benjamin D. Rosofsky is a management trainee for the Sinclair Oil Company. He and his wife, Elaine, live in Chicago.
To Mr. and Mrs. Alan Lynn Hanson, M.S. '65, Los Angeles, Calif., a son, Mark Alan, born July 7.

To Mr. and Mrs. Matthew G. Jordana '65, Joliet, a daughter, Michelle, born April 6.

To Mr. and Mrs. Milton L. Jung '61 (Lorraine E. Kuja '65), Wolf Lake, a son, Kevin, born June 7.

To Mr. and Mrs. Lawrence Hengehold '62, Carbondale, a daughter, born July 22.

To Mr. and Mrs. Tsou Hwa Lee '65 (Leman Lee '66), Carbondale, a daughter, born August 26.

To Mr. and Mrs. Melvin Lynn '65, Marion, a son, born July 26.

To Mr. and Mrs. Gerald L. Marchildon '60, M.S. '62, Athens, Ohio, a son, Gregory, born September 9.

To Mr. and Mrs. Willis E. McCravy '48, M.A. '50, Washington, D.C., a daughter, Sara Ann, born July 16.

To Mr. and Mrs. Ernest W. Nance '62 (Kathryn Campbell Nance '61), Libertyville, a son, David Scott, born May 28.

To Mr. and Mrs. Donald E. Nash (Patricia Nash '62), Arnold, Mo., a son, Mark Andrew, adopted May 27.

To Mr. and Mrs. James M. O'Reilly '63, Brentwood, Mo., a son, James Michael O'Reilly, Jr., born May 13.

To Mr. and Mrs. Quinn D. Parker (Mary Eugenia Parker '65), Cape Girardeau, Mo., a son, James David, born May 23.

To Mr. and Mrs. Donald L. Pollack (Bernice E. Levy '61, M.S. '62), Cincinnati, Ohio, a son, Richard Alan, born August 2.

To Mr. and Mrs. Gerald J. Santini '65, Chicago, a daughter, Gail, born June 24.

To Capt. and Mrs. John R. Shepard '58, Ft. McClellan, Ala., a son, John Douglas, born May 27.

To Mr. and Mrs. John Steckenrider (Mariana Ella Heacock Steckenrider '63), Murphysboro, a son born August 24.

To Mr. and Mrs. Jack L. Thatcher '57, Peoria Heights, a son, Jay Patrick, born August 27.

To Mr. and Mrs. G. Leroy Weidendorf, Jr., '60, Aurora, a son, Steven Edward, born June 18.

To Mr. and Mrs. Raymond W. Westerhold '63, Columbus, Ohio, a daughter, Heidi Kristine, born April 20.

To Mr. and Mrs. James H. Wright, M.F.A. '65, Madison, S.D., a daughter, Sara, born August 1.

Russell D. Mitchell '64, M.S. Ed. '66, this fall became head gymnastics coach at the University of New Mexico at Albuquerque. At Southern has was a two-time NCAA tumbling champion and swept the national title in free exercise in 1964. He also was a member of the United States gymnastics team in the 1964 Olympics. He had served two years as an assistant coach at SIU.

Births

To Mr. and Mrs. David G. Ball, VTI '65, Fort Wayne, Ind., a son, Jeffrey Wayne, born April 20.

To Mr. and Mrs. Larry D. Bauersachs (Linda Hubler '60), Cahokia, a son, David Allen, born May 13.

To Mr. and Mrs. Harold Lee Beasley '65, Scottsdale, Ariz., a daughter, Melissa Kay, born April 9.

To Mr. and Mrs. James L. Carr '64, South Beloit, a daughter, Julie Leanne, born July 31.

To Mr. and Mrs. William Joseph Dill '61, Chicago, a son, Kevin Joseph, born July 5.

To Mr. and Mrs. James L. Ducharme '63 (Margaret A. Ducharme '65), East St. Louis, a daughter, Catherine Marie, born May 13.

To Mr. and Mrs. Jerry Genteman (Darlene Genebacher Genteman, VTI '65), Highland, a daughter, Michelle, born April 9.

Marriages

Nancy Gail Bovinette '66, East St. Louis, to Gilbert Armstrong '66, East St. Louis, June 11.

Penelope Sout '60, Racine, Wis., to Theodore Baldukas, July 1 in Racine.

Pamela Elizabeth Greenshields '65, Wood River, to Kenneth Bartolucci '65, Wheaton, August 13.

Brenda G. Dawdy '63, Alton, to Fred E. Baumgartner, Carrollton, June 6.

Lorraine Dlugas '66, Collinsville, to William James Bollman '65, Collinsville, April 16.

Rita Owens '65, Alton, to Paul S. Czerwinski, April 2.

Janet Kay Walker '63, M.S. '64, Cobden, to John M. Daiber '63, M.S. '65, Manilus, August 20.

Judith Ann Reisinger '64, Rockwood, to Jack Hinds Deatley '65, Champaign, August 13.

Glenda Gilliam '65, Benton, to Lloyd Downs, July 30 in West Frankfort.

Cynthia Ann McWhirter '66, Marion, to Gary Eugene Fouke '66, Rockford, in July.

Patricia Ann Cross, Bethalto, to Stanley Friemann '60, Wood River, August 6.

Judith Daab to David L. Fruean '65, Wilmette, April 23 in Glenview.

Janice June Wifong, Cottage Hills, to James Odell George '66, Cottage Hills, September 10.

Joan Kay Williams '66, Madison, to Gerald Joseph Graklanoff '65, Granite City, in July.

Mary Ann Honaker, St. Louis, to John F. Grodicki, Jr., '60, Troy, July 16 in St. Louis.

Diane Reichert '65, Skokie, to Robert C. Hansen, June 19.

Sandra Kay Pyle '65, Bunker Hill, to John A. Hoehn, April 2.

Charlene Frehe, Harwood Heights, to Wallace C. Hunt '61, Rockford, April 16.

Andra Lee Gasparovic, Granite City, to Richard Judd '66, Granite City, August 6.

Linda Marie Wardlow '66, Granite
Deaths

1912 Miss Lois Farley, 2, Carbondale, died September 11. She was a former music teacher and cosmetics firm representative.

1913 Mr. Everett Lewis, ex, died August 2. He received an LL.B. degree from the University of Illinois and was a Franklin County judge. He leaves his wife, Lillie, and their four children.

1924 Mrs. Ada B. Morris (Ada Heaton Blake, 2) died June 25 in Benton. She was a retired teacher with 32 years experience.

1926 Abraham K. Patrick '21-2, Steeleville, died July 19. He was an occupational therapist in the Security Hospital in Chester. Mr. Patrick leaves his wife, Ruth, and two sons.

1928 Miss Lydia M. Krauss, 2, died June 20. She had been a Home Economics teacher and lived in Carthage.

1929 Leland R. Cox, 2, Fairfield, died October 5 after suffering an apparent heart attack while driving near Albion. A realtor and former restaurant owner, he is survived by his wife, Vera, and three children, two of whom are SIU graduates.

1932 Elvis W. Tolley, ex, of McLeansboro. Mr. Tolley was a minister. He leaves his wife Madeline.

1934 Orville Wade Weaver died August 16. He had been a representative for Metropolitan Life Insurance Co. and lived in Alton.

1936 Mr. H. G. Maynor, ex, died July 21 in Hardin County Hospital. He was a Golconda resident.

1940 Jesse Theophilus Miller, ex. He lived in Chickawaw, Ala., and was a chemist technician at Alabama Power Company. He earned his B.S. degree from Alabama Polytechnic Institute. Mr. Miller leaves his wife Margaret and a daughter.

1943 Mrs. Golda Nebughr, ex, Cobden, died August 22.

1948 Charles E. Crouch, M.S. '51, Carbondale, died October 7 in a St. Louis hospital. A former SIU football player who had coached and taught at Sparta and McLeansboro before joining the faculty of Carbondale Community High School in 1964 as guidance counselor, he had undergone a kidney transplant nearly two years ago. He had been hospitalized three weeks at the time of his death. Survivors include his wife, Betty Adams Crouch '48, a daughter, two sons, his parents, and a sister, Helen Crouch Puleo, ex.

1952 Nathan R. Austin, M.S., Tarkio, Mo., died May 24 during open heart surgery. He received his A.B. from McKendree College in 1951 and was with the Biology Department at Tarkio College. He leaves his wife, Helen, and their four children.

1954 Frances E. Welch, former principal of Norris City Schools, died September 10. He and his wife, Jennie, had one child.

1962 Stephen George Slack, VTI, died July 12. He was assistant manager for House of Loros Clothiers in Waukegan.

1963 Mr. and Mrs. Herbert Paul Oetjen, Jacob, were killed in an auto accident October 9. She was the former Fay Fedderke. Mr. Oetjen was employed by Central Illinois Public Service Company and was a farmer.

The Alumni Office also has been notified of the following deaths:

1898 Mrs. James Giles (Mary Hodge, ex), Natchez, Miss.

1924 Edgar Booker, 2, Flora.

1931 Ed J. Holt, Hoopston.

1947 Mrs. Helen Carter Bateau, Elkville.

Mary Rawlinson, Crossville.

Hollie R. Sitter, ex, Cobden.
Honorable & Mentionable...

Original manuscripts, working notes and corrected galley proofs of two of her novels have been presented to the Southern Illinois University Libraries by Mabel Thompson Rauch, nationally acclaimed California writer who lived as a child on what now is part of the campus at Carbondale.

The books, *Vinnie and the Flag-Tree* and *The Little Hellion*, carry a Southern Illinois flavor which has characterized much of Mrs. Rauch's writing. Many of her short stories have regional settings.

University Archivist Kenneth W. Duckett said the material would be a highly valued addition to a collection of manuscripts relating to the region which the University is building.

"I hope you will not be disappointed that there are not more working papers with the manuscripts," Mrs. Rauch wrote when making her gift to the University.

"When I began to write our little daughter was only 11 and our son 15, and being a wife, mother, and housekeeper left me little time for it. I early trained myself to have everything ready in my mind so that when I sat down I could use the time putting it right on paper."

Mrs. Rauch's regional stories of Southern Illinois have been published in England, Canada, South Africa, and Australia, as well as in the United States.

"When I began writing," she explains, "New York editors didn't seem to believe there was such a region in Illinois! I worked very hard and took publication of my 'Egypt' stories where I could get it, which was often abroad."

One of Mrs. Rauch's earliest short stories, *In the Rue Des Magnolias*, originally was written for an English class taught by Henry Shryock, later to become the fifth president of SIU. First published in 1934, it was re-published eight times, both in the U.S. and abroad.

Mrs. Rauch attended classes at then Southern Illinois Normal University from 1893 to 1908, entering the first grade in the Model School (later called University School) and spending almost her entire school life on the campus. Six months away from graduation with a bachelor's degree in education, however, she transferred to Belmont College in Nashville, Tenn., to study music. She later was to be featured in *Who's She of Ward Belmont*, along with such women as Mary Martin, Grace Moore, and Mrs. Douglas MacArthur.

"But I always felt I belonged to old S.I.N.U.," she once wrote, "for it was there that Prof. Shryock, in his English courses, gave me my love of writing and encouraged me to be a writer some day."

Mrs. Rauch was born Thanksgiving Day, 1888, on a farm which included what are now the campus areas of Thompson Woods and the Thompson Point residence halls. The entire Thompson farm, in fact, is now part of the SIU campus.

"Our garden is filled with beautiful blooming flowers now," Mrs. Rauch wrote earlier this year, "but there is never a spring comes 'round that I don't wonder if the spring beauties still make white a certain little slope in the grove (Thompson Woods it is called today), where I played all during my childhood in the nineties."
Available just in time for Christmas giving! Southern Illinois University playing cards, sponsored by your Alumni Association, feature Brown & Bigelow's patented Redi Slip plasticized finish which resists wear and can be wiped clean with a damp cloth. An extra joker in each deck. Packed in twin-tuck gold carton and mailing case, $2.60 a set, tax included. Mail your order today to the SIU Alumni Office, Carbondale. Make checks payable to SIU Alumni Association.
