SIU's "Behind-the-Scenes" Workers
Letters to the Editor

Recruiting Students

The staff of the School/College Relations Division, within the Office of Admissions and Records, would like you to help attract prospective students to SIU at Carbondale. We believe the University's best recruiters could be its students and its alumni.

We are making every effort possible to personalize the recruitment process. You, as an alum, can become involved in our activities and personalize our approach even more. Just think what would happen to our enrollment if each alum recruited one student. Within your community, social contacts, daily work activities, etc., you could surely find one prospective student seeking higher education and expose him/her to what SIU has to offer.

How can we work together? If after locating a prospective student, you need additional information or materials (general literature, catalog, departmental information, housing or financial aid information, etc.), just let us know and we will either forward the information to you or to the prospective student. If the prospective student has specific needs and/or problems, let us know and we will investigate and respond with a personal letter. It's simple—if we would just work together.

We hope this letter is not taken as a desperate plea for students. We just want to do a better job of assisting and attracting students to SIU and give interested alumni an opportunity to become involved in our efforts. For your information, as of June 1, 1974, our application volume for the fall term was 458 ahead of this time last year and admissions were up 377.

Why not help us spread the good word about SIU. If you want to recruit your one student for SIU and need our assistance, please ask. You can count on our utmost cooperation. School/College Relations Division, Office of Admissions and Records, SIU-C, Carbondale, Illinois 62901 Phone (618) 453-4381. Or contact Mike Fenton at our Chicago Information Office, 625 North Michigan Avenue, Chicago, Illinois Phone (312) 337-0158.

Tom McGinnis '69
SIU Office of Admissions and Records

We welcome your comments on the University, the Association, alumni publications, etc. Please address your letters to: Alumni Publications Editor, "Letters to the Editor," SIU Alumni Office, Carbondale, Ill. 62901. Be sure to sign your name, address and grad year—letters without this information will not be published. Also, we must receive letters by the fifth of the month before date of publication (in other words, a letter printed in the September magazine must be received August 5, one in the November magazine must be received by October 5, etc.). We look forward to hearing from you.
The need for changeover to the metric system of weights and measures is discussed in the article written by Dr. Richard Watson on pages 2–3. After Great Britain’s announcement in 1965 of the beginning of a 10-year program to convert to the metric system, the United States and Canada were the only major countries in the world that had not taken such action.

Close to 2,000 people are classified as staff employees at Southern Illinois University. Most of them do the type of “background” work necessary to make the University run but they don’t receive much public recognition for it. The article beginning on page 4 gives a sampling of these “very important people.”

The 100th anniversary of the beginning of classes at Southern Illinois University is celebrated in July and we’ve brought back some nostalgia from the 1870’s to show you how it was “way back when.” See page 7.

Why Switch to the Metric System?

A short discussion of the growing recognition of the need for metric education of the American people

A bill to provide for a planned 10-year conversion to metric measurement in the United States was introduced in the U.S. House of Representatives on May 7, but was rejected because of a dispute over federal subsidies to help small businesses and tool-using workmen meet the cost of metric conversion. The bill would set up a National Metric Conversion Board, to be appointed by the President, without enforcement powers but with the task of devising a plan to coordinate metric conversion among business and industrial groups and to promote metric education in the schools.

Sponsors of the bill, in order to avoid amendments providing subsidies and extending the conversion period to 15 years, were required to accept a special rule requiring a two-thirds majority for passage. Supporters believe that their bill was rejected because of dissatisfac-

Richard Watson, a physics professor in the department of physics and astronomy, wrote this article for Alumnus.
tion with the no-amendment ground rules.

Metric conversion has been debated since 1821, when John Quincy Adams prepared the nation's first metric system study. Today, the United States is the only major industrial nation not on the metric standard and still uncommitted to moving toward conversion. Actually, though, economic factors may force conversion to the system.

Great Britain switched in 1965 to facilitate its participation in the European Common Market. British experience has been that metric retraining of the public is not the great obstacle once feared, that most machines can be easily converted for metricated production and that the rationalizing of sizes is convenient for setting up standards in construction and packaging, for example. There may be some inconvenience in conversion of certain items, such as floor tiles, which are manufactured to full inch sizes; other items that have only nominal dimensions, such as the “two-by-four” (inches), which converts to metric “five-by-ten” (centimeters), are well within the round-off tolerance and merely involve a matter of relabeling. The small business dependent upon suppliers to maintain stocks of both metric items and non-metric items may run into troubles.

Following the lead of British industry, U.S.-based companies with overseas branches have been quietly converting to the metric system without waiting for U.S. commitment. General Motors went metric early in 1973. Others committing new products to metric designs include Ford Motor Co., I.B.M., Caterpillar, Timken and International Harvester. Hewlett-Packard, which has a substantial fraction of its sales overseas, has just recently decided to pursue metrication without waiting for the government. A spokesman explained that the European Economic Community “is taking a harder look at U.S. products that do not conform to metric standards.”

The House bill, drafted by the House Science and Astronautics Committee and sponsored by Olin E. Teague (D-Tex.) and Charles A. Mosher (R-Ohio), calls for the establishment of a national policy that would encourage all sectors of the economy to convert voluntarily to the International System of units (SI system) in ten years. After the ten-year period, metric units would be predominantly, but not exclusively, used in measurements in the U.S. The bill follows the British plan in not providing subsidies for workers and businesses faced with high re-tooling costs, but rather in letting costs “lie where they fall.”

For scientific and technical work, as well as in the schoolroom, the metric system offers two basic advantages: (1) Units of the same quantity have a decimal relationship. For example, conversion from centimeters to kilometers merely requires moving the decimal point five places to the left while conversion from inches to miles calls for long division. (2) Units for many different quantities are related simply rather than through complicated conversion factors.

The four base units on which the SI system is built are the meter, the kilogram, the second and the ampere. All other units are derived from the four base units. To these base units were added three others—the kelvin, the candela and the mole. The choice of unit size as a positive or negative power of ten times the base unit, expressed by a prefix, is a very convenient feature of the system for scientific work.

Donald Marlow, a former president of the American Society of Mechanical Engineers—a group which would be greatly affected by the conversion, told a House committee 1 that the engineers support a coordinated conversion to the metric system and that continuation with customary units would act as a trade barrier which would contribute to inconvenience and inefficiency.

Costs for switching to the metric system in the U.S. have been estimated at as much as ten billion dollars. Advocates argue that for the U.S. to continue as an inch-pounder while the rest of the world trades metric will result in less exports and unfavorable trade balances. In the face of greatly increased foreign competition, there is high probability of an early adoption of a metric conversion plan with or without subsidies.

There are more than 4,600 people employed at SIU and of that number 1,874 are identified as staff. They do everything from secretarial work to purchasing supplies for the University to making out the payroll to cataloging books at the library. Very simply stated, the University could not operate without them. Following are stories on four key personnel typical of the 1,874 who provide behind-the-scenes support.

**The Mover:**
**T. C. Dotson**

"We're moving somebody someplace practically every day of the year," said T. C. Dotson as he supervised the unloading of furniture into the School of Medicine's new office location on the Carbondale campus.

He and his men were transferring the School from Doctor's Hospital and Life Science I into a University-owned house at 1002 Whitney Street.

His 20 men, down from 40 two years ago when the first effects of "budget adjustment" were being felt, maintain the roads, move furniture, repair parking lots and perform numerous other jobs that require strong backs.

A member of the SIU staff for 13 years, Dotson, who is officially classified as an automotive foreman, supervises nine drivers and 11 laborers on an average moving day. That number may vary with each job depending on just how many men he needs to get the work done.

Up until three months ago, Dotson said, his crew did all the moving of offices and departments on campus. In April, though, the University contracted a trucking firm to move some of its offices out of converted dormitories no longer being leased. Dotson said the University just didn't have the manpower to do all the moving itself. And to his knowledge, it was the first time SIU has ever contracted out a moving job.
One of the hardest jobs Dotson could recall was moving into the Technology Building. "There was a lot of heavy machinery that had to go through doors that aren't wide enough. So we had to take off the doors to move the machinery in and you better believe it's heavy!"

The Caretaker: 
Richard Stewart

It is not uncommon to hear people comment that SIU has one of the most beautiful university campuses they've seen. This is due partly to a natural woods left in the center and on the fringes of the campus and to careful maintenance of the grounds.

Richard Stewart, who has been with the University 12 years, is one of the grounds foremen who takes care of the turf and trees around SIU.

Supervisor of 8–14 people, he said that "first and foremost my job is maintenance of the grounds. That includes mowing the grass, grading and re-seeding the lawn, transplanting trees and shrubs, maintaining the sod farm, collecting leaves, etc."

Besides all of this, he also provides men to unload shipments for general stores and central receiving, for moving and to assist the craftsmen (carpenters, plumbers, etc.).

Stewart does not do the landscaping, but merely follows a plan laid out by the engineering department at the physical plant. "Up until a year and a half ago, the campus planner, John Lonergan, decided the landscape plan, but not any more since the budget cutbacks."

Maple, sweet gum and oak are the major native hardwood trees planted on Southern's campus and dogwood and redbud are the most-used flowering trees. "We try to use plants native to the area and of course those that will do well in this soil and climate," said Stewart. "We don't plant any flowers," he added. "The people in botany handle that."

Stewart said that things have had to change since the budget cutbacks minimum of maintenance in Thompson Woods. "We take out dead and dangerous limbs, fix bridges and walks and spray for cotton aphid," said Stewart.

Questioned about the harsh effect of this past winter on some of the trees, Stewart stated that some magnolias and evergreens had succumbed to the weather. "However, some of those that look sickly right now," he said, "may be all right depending on the kind of summer we have. If there is enough rain and not too many hot, drying winds, they should make it."

The Cook:  
Marlene Ellis

As a food production manager for the dormitories at Thompson Point, Marlene Ellis has her hands full.

Besides supervising 47 full and part-time people, she is responsible for ordering TP's food, making out the weekly menus, hiring student workers, supervising the production of breakfast and lunch and making sure things run smoothly in the dish room.

One of the students’ favorite meals is hamburgers and when they have them it takes 1,700 patties to serve the 1,000+ students who eat lunch at Lentz Hall. Only about half that number show up for breakfast—probably because they'd rather sleep in. "We get extra funds for steaks for dinner occasionally from money not spent on breakfast," Mrs. Ellis chuckled.

She said the number of people they employ was not affected by budget cutbacks. "We operate out of the money students pay to the University for their board. Actually the rise in food prices has affected us the most. When tuition wasn't raised at SIU, we had to cut out seconds on meat at night and substitute casseroles to compensate for higher
someone to control things up in the sound room. And that someone is usually Don Ballance.

A five-year employee of SIU, he's in charge of all sound equipment, all movie, slide and overhead projectors and all electronic machinery for the Student Center. He used to handle all that equipment for the Arena, Shryock Auditorium and the Center. But another man was hired and now Ballance works mainly out of the Center.

besides performing the specific services requested by a group, one of his prime responsibilities is keeping all the equipment in working order. He said he tries to do "preventative maintenance" so they don't eventually have to pay for more expensive repair work. He also handles the lighting and does some spotlight work.

Ballance supervises four student workers who operate the equipment only if it's a student-sponsored event. If one of the University departments or someone outside the University needs slides shown or an overhead projector utilized, Ballance handles it.

He works the normal 40-hour week, but his hours are erratic depending on who needs his services when. He may work from 4–12 P.M. one day and 7:30 A.M. to 4:30 P.M. the next day.

The equipment he uses is expensive and must be given some tender loving care. The Center recently purchased ten new microphones, which would retail at about $185 each. Putting them out on bid though, he said, probably makes them less expensive.

Some of the equipment Ballance is responsible for includes: 640 overhead speakers throughout the Center used mostly for background music (they recently had to put 1,500 bolts in the speakers to keep them from being stolen); 18 100-watt amplifiers; 22 good microphones and several not so good; 6 movie projectors; 4 slide projectors; 2 color televisions; and 6 tape recorders.

"The biggest set-up I have," said Ballance, "is for the Board of Trustees meetings. They have to be taped, and this involves 15–20 microphones and two tape machines. "We try not to erase anything," he deadpanned.
July Marks Centennial of Beginning of Classes at Southern Illinois

Construction on the elaborately Gothic first Old Main Building (which was unfortunately destroyed by fire in 1882) began in 1870 and the cornerstone ceremony was held on May 17 of that year. This event was unprecedented in Southern Illinois history, attracting a crowd of nearly 20,000 curious citizens. Optimistic hopes placed the completion of the building in 1871, but fate would have it otherwise. A falling timber struck the contractor with a fatal blow and construction stopped completely until a new contractor could be appointed by the trustees.

With all the problems finally surmounted, the Main Building was finished and Southern Illinois Normal University shifted into first gear. The presidency was filled by Dr. Robert Allyn, former president of McKendree College at Lebanon. An early student of SINU described him as "near six feet three, be-whiskered, keen eyed, just a bit stooped and had a voice roughened like a medium file. He wore a Prince Albert suit, white shirt, string tie and spectacles." Such was the man selected to lead SINU through its formative years.

With Dr. Allyn at the helm of the new educational vessel, the hopes of the new Normal looked promising even in the stormiest waters. The new president brought with him a myriad of experiences in many educational fields. Dr. Allyn was a close associate of the educational giant, Horace Mann, and had headed two academies in the East. Before his days at McKendree and SINU, he taught at Ohio University and Wesleyan Academy and served in the state legislature.

This diverse background was a definite asset to Dr. Allyn in his attempts to mold a college of high scholastic standards from young, poorly trained students who graced the halls of the Main. The key seemed to be an endless drill in the common subjects by his experienced faculty.

The faculty chosen by the trustees to serve under "Principal Allyn" (he preferred the title of principal in keeping with his modest character) was small but nonetheless mighty. All had public school or administrative backgrounds, with three college presidents and three clergymen on the roster. Curriculum for the first terms aptly illustrates what the nineteenth century educators thought "essential:"

Robert Allyn—Mental Science, Ethics, Pedagogy
Cyrus Thomas—Natural History, Physiology
Charles Jerome—Language, Literature
Enoch Gastman—Mathematics
Daniel Parkinson—Natural Philosophy, Chemistry
James Brownlee—Reading, Elocution, Phonics
Granville Foster—History, Geography
Alden Hillman—Principal of High School
Martha Buck—Grammar, Etymology
Julia Mason—Principal of Model School, Drawing, Calisthenics
A. D. Duff—Dean, Law Department

July 2, 1874, was an historic and busy day for Southern Illinois Normal University, for it marked the first day of classes for the new-born institution. The small enrollment of only 53 students for this four-week summer session was rather disappointing to the enthusiastic believers in the Normal, but the regular fall term beginning Sept. 6, rejuvenated their faith with an enrollment of 143 eager students. By the end of the first year, the numbers had increased to 396, including two Negro students. Five students received the first SINU diplomas in the first graduation ceremonies in 1876.
Good Teaching Awards

The leader of SIU’s popular Marching Salukis band and a classics scholar who teaches Latin are among nine Good Teaching Award winners at SIU for the 1973-74 academic year.

The nine—chosen by votes of students and colleagues in SIU’s various schools and colleges—will receive $300 cash awards from the Amoco Foundation, Inc. (formerly Standard Oil of Indiana Foundation).

News of the Campus

Michael Hanes, Marching Salukis director, was top vote-getter in the College of Communications and Fine Arts and Charles Speck, assistant professor of foreign languages, was the balloting favorite in the College of Liberal Arts.

Other winners: Donald Lybeker, School of Agriculture; Terrence Roberts, College of Human Resources (social welfare); Charles Woelfel, College of Business and Administration (accountancy); Arthur Workun, School of Technical Careers (oral and written communications); Dale Besterfield, School of Engineering and Technology (industrial technology); William Hood, College of Science (geology); and William O’Brien, College of Education (recreation).

Recruiting for SIU

An instructional aid program intended to recruit new students by guaranteeing them on-campus work related to their major field will be inaugurated in the fall at SIU.

Raymond DeJarnett, assistant director of Student Work and Financial Assistance, said his office is in the process of sending out commitments to approximately 50 students who have been screened and selected for the program. The students will be able to earn an amount almost equal to their room and board, he said.

For some time, John Barnes of the Student Work Office and representatives of Admissions and Housing offices have been working as a team in visiting junior colleges throughout the state to interest outstanding spring and summer graduates in coming to SIU under the new program to complete their final two years of academic work. Those accepted will be placed in campus jobs through special arrangement with the vice president for academic affairs and the deans and chairmen of various Schools and Colleges, DeJarnett said.

The program will cost about $50,000 to $60,000 the first year, DeJarnett said. He added that planning is now underway to offer academic credit in the future to students engaged in the instructional aid program.

Testing at Prisons

Most students come to SIU for pre-admission and proficiency testing, but SIU also takes its testing to residents at the area penitentiaries.

The GED, or high school equivalency program, is administered at Menard State Penitentiary. Harley Bradshaw, from the Career Planning and Placement Testing division, has administered the test to Menard inmates for the last seven years.

“These people are serious about getting a degree, highly motivated and not a bad group to test,” Bradshaw said. The test is offered each fall and spring and usually draws about 80 men, called the college gang by other prisoners, to complete the diploma requirement.

Bradshaw and graduate assistants administered the GED test to 56 prisoners in late April. Forty-six of the 56 men passed. This is 86 percent passing for the men who took the test, and the usual national passing average is 50 percent, said Nancy Pfaff, of the CPPC Testing division.

Dan Vanover, the instructor at the prison, teaches classes six hours daily to his students and usually has a group ready to take the test every six months.

CPPC personnel administer the test to the prisoners and are not involved.

“This way they go into the test on their own merit and it is strictly their knowledge being tested,” Bradshaw stressed.

Tenured Faculty Jobs

President Hiram Lesar said in late May that satisfactory arrangements had been worked out to provide other jobs at Southern for most of the tenured faculty among the 104 terminated teachers.

The positions were terminated at SIU last December for reasons of financial exigency and were effective July 1. Twenty-eight of the 104 faculty members who received termination notices were on tenure.

Lesar said that the tenured teachers were rehired in new positions and their previous jobs will remain terminated.

Keith Leasure, vice president for academic affairs and provost, said all fired tenured faculty retained at SIU, either in their departments or in other capacities, will hold tenure in the department in which it was granted. “Retaining tenure with reappointment is normal procedure,” he explained. Leasure also said he had completed settlements with all faculty on continuing assignment. These settlements were offered to about 28 teachers on continuing assignment in place of one year’s notice of job termination. Cash settlements were negotiated individually.
A LIVING ENDOWMENT

... for the present and the future

Dr. Delyte W. Morris, former president of Southern Illinois University will head a nation-wide SIU Foundation “Living Endowment” drive for the Carbondale campus. As eighth president of SIU, Dr. Morris presided from 1948 to 1970 over the astonishing growth of the University from an obscure Southern Illinois teachers' college to a comprehensive university with national and international reputation by 1970. “My continuing faith and belief in the University is the basis for my reason to want to continue to assist it,” Morris said. “I feel that accepting this responsibility is one way I can do so.”

Simply stated, the Living Endowment is designed to set up an annual gift program for the University and to encourage yearly giving. You may designate your gift to any aspect of the University’s operation from athletics to scholarships, from alumni programs to research — anywhere at all within the University.

The Living Endowment program is especially important now. Southern Illinois University is no longer a “tax supported” institution—we are a “tax assisted” institution because a diminishing percentage of our budget comes from state appropriated dollars. So you can see that your help is needed.

In a couple of months you’ll be receiving information in the mail about this new fund raising plan. Please do give some thought to a contribution when you receive the Living Endowment materials. Any gift is tax deductible and will be gratefully appreciated.
Association Names New Officers

Albert Shafter '48, M.A. '49, Harrisburg, was installed on Alumni Day as the new president of the SIU Alumni Association. He succeeds Larry Jacober, '62, M.S. '65, Carbondale.

Other new Association officers are Paul Schoen '67, Carbondale, president-elect; Jack Murphy '54, M.S. '57, Ph.D. '71, Herrin, vice president; and Jo Ann Cunningham Jungers '52, Alton, secretary. Continuing in previously held positions are Pat Lill Schroeder '43, Mascoutah, vice president and Roger Gray '64, Cobden, treasurer.

Two alumni were appointed to their first terms on the Association's Board of Directors. They are Fred Meyer '40, Park Forest and Bill O'Brien '47, Carbondale.

Alumni retiring from the Board were Jo Rushing Koeneman '54, Chester, and Andrew Marcec '56, Carbondale.

Three members whose terms were renewable and who were re-elected to the Board are the Rev. Jack Adams '53, St. Louis; Keith Sanders '61, M.S. '62, Carbondale; and Shafter.

Shafter has served the past year as president-elect of the Association. He is the superintendent at A. L. Bowen Children’s Center in Harrisburg and a past president of the Saline County Alumni Club. He and his wife, Lynette, ex '46, have three children.

Schoen, who was first named to the Board in 1971, is an attorney in Carbondale.

Had you thought of renewing your alumni dues early?

It will save billing expenses that can be put to work for you and SIU!

'73 Graduates

Now that your year of complimentary membership in the Alumni Association is coming to a close, we hope you’ll join other alumni who are renewing their memberships in the Association and thereby their support of SIU. May we continue to serve you?

Members of the Jackson County Alumni Club met May 3 and presented “Service to Southern Illinois Awards” to the authors of the book, Land Between the Rivers, a publication about the region. From left are authors John Voigt and C. William Horrell '42; Association Board of Directors member Keith Sanders '61, '62, who presented the awards; author H. Dan Piper; and Alumni Association President for 1973-74, Larry Jacober '62, '65.
SIU Alumni Association Achievement Award winners for 1974 were, from left, Walter B. Young, Jr. ex '47, Carmi; Fred Basolo '40, Evanston; and Clarence Stephens '33, '42, '55, Carbondale.

New life members completing annual installments who were present on Alumni Day were, from left: Front Row: Winifred K. King, Mary B. Walker, Harold Kramer, Nalown L. Shelton. Second Row: the Rev. Herbert Stemler, Larry Jordan, Donna H. Jordan, Faye Oelheim, Reggie Shand, Mary V. Wright, Loren Jung, Gordon Berry, Mary N. Berry.

Alumni Association President for 1973–74, Larry Jacober presented the Great Teacher Award of a plaque and $1,000 to Dr. Orville Alexander, a professor in the department of political science.

Vice President for Development and Services, T. Richard Mager gave 50-year certificates to the Class of 1924. He also presented a personal check for $50 in honor of the class.

SIU President Hiram Lesar (left) talks with the Alumni Association's 1971 Great Teacher, Raymond Rainbow, following the Alumni Day Banquet. Lesar delivered a "State of the University" address at the banquet.
Do You Know Any of These Alumni?

The graduates listed on these two pages are lost—at least to the Alumni Office! We have no current address and little or no information on them.

If you know any of these alumni, please take just a minute to drop us a note with some information about them, hopefully an address if you have it. They are listed by years of graduation and the women are recorded by the name under which they graduated—you may know them now by a married name or you may know only the maiden name. We truly appreciate your help in locating these alumni. Please address information to:

A 20% discount on the books listed here and all books published by the Southern Illinois University Press is allowed to alumni members placing orders through the Alumni Office. Non-members of the Alumni Association may purchase these books through the Association at regular price.

**Land Between the Rivers**
By C. William Horrell, Henry Dan Piper, John Voigt

In black and white, as well as color photographs, and in text, this book portrays Southern Illinois' physical features, its history, its people, life and customs. This is the second printing of a popular book.

(cloth) Regular $18.95  
Member $15.16 + .76 tax
SIU Press (to be mailed in August)

**Folk Songs and Singing Games of the Illinois Ozarks**
By David McIntosh

The heritage of a special section of the country has been preserved in this rollicking collection of songs, dances, games and rhymes—many with words and music, together with commentary on them—from the legendary Illinois Ozarks.

(cloth) Regular $8.95  
Member $7.16 + .36 tax
SIU Press (to be mailed in August)

**The Illinois Fact Book and Historical Almanac, 1673-1968**
By John Clayton

This book, thoroughly indexed, is the first publication to bring statistical facts, general information and history together in one book, concisely and authoritatively.

(paper) Regular $3.25  
Member $2.60 + .13 tax
SIU Press  
(cloth) Regular $12.50  
Member $10.00 + .50 tax
SIU Press

**It Happened in Southern Illinois**
By John W. Allen

Included in this book are sketches of the early pioneering days, when wolves were literally chased from the door, stories about the many Indian artifacts discovered among the rolling hills and valleys of the area and articles pertaining to the historic strategic role this region played during the Civil War.

(cloth) Regular $6.00  
Member $4.80 + .24 tax
University Graphics

**Legends and Lore of Southern Illinois**
By John W. Allen

Against the cultural and historical backdrop of Southern Illinois, Allen has written sketches of the people of the region—of their folkways and beliefs, their endeavors, successes, failures and tragedies, and of the land to which they came.

(cloth) Regular $6.00

Carbondale, Illinois 62901
THE SOUTHERN ILLINOIS BASEBALL TEAM took their 50-12 season record to a third place finish in the 1974 NCAA College World Series in Omaha, Neb., their second trip to the series since Itchy Jones took the helm in 1970.

In the 62-game trek to the third spot in the nation, Southern Illinois won their fourth District Four Championship in the past seven years. After losing the opening game to tournament host Minnesota, the Salukis fought through four straight victories in the double elimination tournament to beat the Gophers, 10-2, and 4-3, in the championship round and gain a trip to the World Series.

Southern California, winner of the World Series the past five years, was the only team to defeat the Salukis in the series, with Southern Illinois finding wins over Seton Hall, 5-1, Northern Colorado, 5-3, and Miami, 4-3. Miami then drew a bye into the championship game and the Salukis fell, 7-2, to Southern California.

"I believe that you could have tossed a coin to find the best team among USC, Miami and us," Jones said. "All of our losses in the tournament were to each other. Our main problem in the series is that we failed to hit well with men on base.

"Overall, it has been a great season," says Jones. "There were some games we won that we could have lost. And then, we lost a few that we could have won. Our young players gained valuable experience and did a good job for us when we needed it and we had some outstanding performances throughout the entire season."

Jones recalls one of the most exciting moments for him this season was in the Salukis first confrontation with Southern Cal in the College World Series. The Salukis scored three runs in the second inning on a series of sacrifice bunts and an infield hit to take an early lead on the Trojans. However, Southern Cal slowly peeled the margin away to win, 5-3, and hand Southern Illinois their first loss of the tourney.

"That was a great inning the kids put together," praises Jones. "They showed that fundamentals and heads-up base running are the key factors to winning any ballgame. Southern California is just a tough team to beat."

The Salukis' fifty victories this season sets a new Southern Illinois record for the most wins in a season, nullifying the old mark of 43 set by the 1971 team. There were also many other records set this year which go hand in hand with the winning style of baseball Jones carries with him.

Team records include Southern Illinois' longest winning streak ever at 24 consecutive victories along with most hits (575), most runs (408), most doubles (93) and
most runs batted in (334).

Individual record setters this season are John Hoscheidt, most hits with 84, and Scott Waltemate, most career wins with 28 victories over four years. Other individuals tied records for base hits in a single game, most runs in a single game, stolen bases in a single season and walks in a single season.

"Actually we didn't do much this season," adds Jones. "We ran a little, hit a little, pitched a little and played a little defense. There's not much more you can do in baseball."

A TRIO OF SOPHOMORES, Bert Newman, John Hoscheidt and Steve Shartzer, reaped most of the post season awards from Southern Illinois' baseball team.

Newman was the only Saluki named to the College World Series all-tournament team. A sophomore from Arlington, Newman hit .348 with a double and a triple as the Salukis' leadoff hitter and designated hitter.

Newman, the younger brother of Saluki assistant coach Mark Newman, also was the only unanimous selection to the district four all-tournament team. A sophomore from Arlington, Newman hit .348 with a double and a triple as the Salukis' leadoff hitter and designated hitter.

Newman, the younger brother of Saluki assistant coach Mark Newman, also was the only unanimous selection to the district four all-tournament team. A sophomore from Arlington, Newman hit .348 with a double and a triple as the Salukis' leadoff hitter and designated hitter.

Hoscheidt was named to the district four all-star team which included all of the 35 teams in the district which encompasses the Big Ten and Mid-America Conferences. Hoscheidt, the centerfielder from Henry, was also selected second team all-American.

While the underclassmen picked up the honors, some of the older Salukis signed professional contracts. Wilbins signed with the San Francisco Giants and was assigned to Decatur of the Midwest League. Scott Waltemate, the Steeleville right-hander who set a Saluki career victory mark, signed with Montreal and was sent to the Carolina League. Rob Klass, Claude Crockett and Stan Mann are negotiating with the Red Sox; Cardinals and Indiana, respectively.

ABOUT TWO WEEKS before the final game of Southern Illinois' 1974 baseball season, Saluki coach Itchy Jones was already making plans for next year.

"Next season is just around the corner," says Jones who begins practice sessions during the fall. "We can take advantage of this extra time and work together a little longer as a team."

The Salukis return their first four batters, five of their eight pitchers and all but six members of the '74 squad.

"We have a good number of returnees with some underclassmen who will be able to lend a hand with some improvement," says Jones. "Being our team this year was made up primarily of sophomores and juniors, the backbone on our team will be returning."

Jones must replace senior Stan Mann, the Salukis' regular shortstop for the past four years. Mann who has a wide range and a strong arm was drafted in the fourth round by Cleveland.

Senior pitchers Scott Waltemate, Rob Klass and Jim Bokelmann will also be lost to graduation. Klass who was drafted by Boston in the sixth round, won his first eight outings for the Salukis, including a no-hitter against St. Louis. However, he lost his last two decisions of the regular season and was ineffective during post-season play.

Jones also figures on losing Claude Crockett who was drafted by the Cardinals in the fifth round after hitting .310 for the season.

Key returnees for the Salukis in 1975 include pitchers Ron Hodges (10-1), Robin Derry (6-1) and youngsters Dewey Robinson, Bill Dunning and Ray Huelsman, who combined for a 7-2 record this year.

The Salukis top four hitters John Hoscheidt (.385), Steve Shartzer (.362), Bert Newman (.360) and Jim Locascio (.306) were sophomores.

Jones is confident that with these returnees, next year's squad could be
better than ever.

"We will definitely be helped next season by the new starting date of school when we can start fall practice a month earlier," says Jones. "Everyone of our players except for one will be playing summer ball so we will all be in good shape and ready to go."

Jones, who realizes that scheduling plays an important role in his team's progress toward post-season play, has already scheduled the Salukis' spring trip on the West Coast.

"There we will face many teams who have compiled fine post-season records in the past, with the hope of gaining valuable experience for the remainder of our regular season," Jones adds.

A YOUNG, BUT TALENTED Southern Illinois track team may have had some disappointments at the NCAA championships, but the Salukis more than made up for it during the regular season.

Coach Lew Hartzog's charges were unbeaten in dual meets, had the only unbeaten 880-yard relay in the United States and won their fifth Illinois Intercollegiate championship in six tries.

"All in all it was a good year," Hartzog said. "Sure, we had some disappointments at the nationals, but that happens. Look at Oregon. They have as much track tradition as any school in the country and they had only one man place at the NCAA.

"Competition in American college track and field has reached a point where the NCAA meet is second only to the Olympics in quality," Hartzog said.

The highlight of the spring was the 85½-59½ drubbing of Illinois at Champaign. The Salukis outscored the Illini, 37-0, in the sprints and relays.

The Salukis returned to Champaign a month later, minus sprinter Mike Monroe and multi-event specialist Lonnie Brown to defend the Illinois Intercollegiate championship which draws every college and university in the state which competes in track.

Illinois led throughout the meet and figured to salt the title away in the three-mile run with its heralded freshman Craig Virgin. The Salukis entered Dave Hill, who was doubling after a second place finish in the mile, and six-miler Gerry Craig.

All the Salukis did was take 1-3 around a second place finish by Virgin as Hill ran off and left Virgin who was running his first race of the day.

Those 16 points in the three-mile, coupled with easy victories by the Salukis in the mile relay and by Bill Hancock in the high jump gave Southern Illinois a two-point lead.

The championship was a satisfying one for Hartzog who left Monroe at home to nurse a sore leg and Brown because of some personal problems. "It was gratifying," Hartzog said.

The Salukis' 880 relay won championships at Florida, Kansas and Drake Relays and had a best time of 1:23.0. The big victory came at Drake where the Salukis surprised previously unbeaten Texas Southern which had the nation's fastest time.

Drake was also the scene as Phil Robins rode a big wind to a lifetime best of 53-10 for second place in the triple jump. He came back to win the Southern Cup championships at Memphis later in May with his best-ever non-windy jump of 52-2.

While Erickson, who ran on every relay, will be hard to replace, Hartzog has a strong nucleus returning for next year and is in the midst of the best recruiting year ever.

The Salukis have signed George Haley, the national junior college record-holder in the intermediate hurdles, and Wilbur Haney, the junior college indoor 300-yard dash champ, from Lincoln Land JC; Peter Richardson, the Canadian junior 880 champ; Earl Bigalow, the Canadian junior 220 champ and 440 runner-up; Bill Brittan, the top Canadian junior cross country runner; Andy Roberts, state runner-up in the high hurdles from Springfield Southeast; 16-2 pole vaulter Gary Hunter of Fort Wayne, Ind.; and Illinois state half-mile champ Dennis Kern of Chicago Lane Tech.

TERRY ERICKSON, SIU's senior quartermiler from Morton West, has been named to the NCAA's outdoor track all-America team after
placing fourth in the 440-yard dash at the NCAA championships.

Erickson, who set school, personal and track records with a 46.0 timing in winning the Saluki-Illinois State dual in May, earned all-American honors for the third consecutive year. He was the NCAA indoor 440-yard dash champion in 1973.

WHEN IVORY CORCKETT broke the world record in the 100-yard dash recently, it caught all but a few friends off guard.

Among those who were expecting Crockett to eclipse the world sprint barrier were his friends, former coach and teammates at Southern Illinois University.

Crockett's 0:9.0 timing for 100 yards made the two-time AAU sprint champ the third past or present Saluki athlete to enter the world record book. George Woods, the NCAA indoor shot put champion at SIU in 1966, broke the world record with a 72 foot, 2 3/4-inch effort Feb. 9, 1974. And Bill Hancock, a Saluki junior from Glasford, set the world record in the decathlon high jump at seven foot, one inch in the 1973 Kansas Relays.

"The world record caught a lot of people off guard," said Crockett, who works for International Business Machines at Peoria. "I was ready for it. My wife was ready for it. My coach was ready for it. But the media wasn't ready for it."

On a rainy May 11th at Knoxville, Tenn., Crockett turned in his world record mark, a full-two tenths of a second better than the existing standard of 0:9.2 set first by Bob Hayes and equalled by five others.

"I knew the little guy could do it," said Saluki track coach Lew Hartzog who recruited Crockett out of Webster Groves, Mo., in 1968. "He has worked so hard. When he ran for us he was an unselfish team man."

A RUGGED, BUT ATTRACTIVE 12-game home schedule awaits Southern Illinois basketball fans next season as coach Paul Lambert's Salukis attempt to improve on this winter's 19-7 mark.

Highlighting the schedule is an appearance Wednesday, Dec. 11 by Michigan's Big Ten champions. The Wolverines return most of their squad which lost to national runner-up Marquette in the NCAA Mid-East regional finals.

Also visiting the SIU Arena are Illinois State, West Texas State, Stetson, Oral Roberts, Detroit, St. Louis, Evansville, Creighton, Missouri Wester, St. Mary's (Tex.) and Samford.

The Salukis will play road games at Creighton, West Texas State, Illinois State, Evansville, St. Louis, Louisiana Tech, Oral Roberts, Centenary, Stetson and Detroit.

In addition, SIU will participate in a pair of holiday basketball tournaments. The Vanderbilt Classic at Nashville, Tenn., has drawn a field of Austin Peay, the Ohio Valley champ the past two seasons, Vanderbilt, the Southeastern champ last year, Virginia Tech, the 1973 NIT champ, and SIU.

Indiana State will host a tournament, the first Indiana State Classic which has Mississippi State and Santa Clara entered along with Indiana State and SIU.

"This is a rugged schedule," said Lambert, "but I think it is an attractive one. We made this schedule with our fans and students in mind. We will play only one home game when classes are not in session.

"We're following a plan to bring the best possible teams to the Arena, but at the same time, keep playing our traditional rivalries," Lambert said. "We play all but four of our games against major college competition, and two of those four games are against Evansville which is college division in name only.

"This is probably the toughest overall schedule an SIU team has ever played. Only six of the games are against teams which didn't have a winning record last year."

While Lambert's crew faces a difficult schedule, there are plenty of pluses to keep in mind. Returning are four starters and nine lettermen from the '74 club whose record (19-7) was not only the best of any major college in Illinois, but the tops by the Salukis since joining the NCAA's top division in 1968.
in Mt. Vernon.

MRS. John H. King (WINIFRED KUGLER KING, 2, '49) is retired and resides in Riverside, Calif.

MRS. Paul Mercer (ERMIA WHITE, 2) is retired and makes Boynton Beach, Fla., her home.

Mr. and MRS. Francis F. Morris (NANCY SHEPPARD MORRIS, 2, '56) reside in Herrin, where she is retired from teaching school.

1924 Mr. and MRS. Willard Cunningham, 2, have four children and reside in Flint, Mich. He is retired after having taught school for 14 years.

Alice Louise Grant, 2, is an English instructor at Southeast Missouri State University in Cape Girardeau, where she resides.

Mr. and MRS. William B. Headen (VERA MADELINE ADAMS) have one daughter and make Sacramento, Calif., their home. MRS. Headen is retired from high school counseling and teaching.

Dowe S. Holmes, 2, is a retired grade school principal and his wife, Lela Holmes '24-2, is a retired school teacher of 28 years. They have three daughters and make their home in Herrin.

Mrs. Harry O. Jones (ZELMA ESTA DEMPSAY) has four children and lives in Nashville, Ill., where she is retired from teaching elementary school.

Clara Elizabeth Kramer, 2, is retired from teaching school in the Chicago area. She makes Miami her home.

Carl O. Smith, 2, '25, is a professor of political science at Wayne State University in Detroit, Mich., where he and his wife, Jean, make their home.

Medrith Elizabeth Smith is retired from 35 years of teaching in elementary schools. She lives in Sparta.

Ruth Lucile Walters, 2, '58, is retired from teaching and makes her home in St. Louis.

1927 Mrs. Grace Baldwin (GRACE L. MAY, 2, '33) is retired and lives in Union, Mo.

1930 Mr. and MRS. Donald S. Cook (BLANCHE LORENE MOYE) reside in Omaha. Mrs. Cook is retired from teaching high school English and music.

Mr. and MRS. Carl Ingram, 2, (ELLEN M. FURLOW '37) have five children and reside in Ewing, where he is a farmer. MRS. Ingram is a grade school teacher in Thompsonville.

1931 Mr. and MRS. Clyde Wesley Anderson have two sons and make Chatham their home. He retired in May as principal and head teacher of the two elementary schools of the Pleasant Plains school district.

Mr. and MRS. Marion J. Badgley (GLENNA MAE CONANT, 2, '34) live on a farm in Grand Chain. She is retired after 30 years of teaching school.

1932 Mr. and MRS. Marion C. Moore (AILEEN M. BAUMAN) are retired and reside in Tolono. They have two children.

1933 Eleanor Hodge, 2, '41, retired this year from teaching first grade at Mann School in Mt. Vernon. She resides in Waltonville.

Mr. and MRS. Julius L. Siskey (MARGARET JAMES, 2, '41) have three children and live in Baltimore, where Mrs. Siskey is a school teacher.

Mr. and MRS. Harold Eugene Wachtel (EDNA N. NICHOLS WACHTEL '32-2) make Marion their home. He is a retired insurance agent with Metropolitan Life and she does substitute teaching in the elementary schools.

1934 Mr. and MRS. Vernon James Marr (VELMA ALICE HARVEY) make Benton their home. MRS. Marr is retired from teaching English at Central Union High School in El Centro, Calif.

Mr. and MRS. Glenn W. Miller (CORNelia LOUISE YAEGER MILLER '34) reside in Wichita, Kan. He is an economics professor at Wichita State University.

1935 MRS. Frances Crane (FRANCES Verna Noel) is a supervisory writer and editor in the U.S. Information Agency with the Africa Branch of the International Press Service. She has one daughter, and makes Arlington, Va., her home.

MRS. Nina Gardner Sutherland, 2, lives in Long Beach, Calif., where she is an associate broker with Alexander Realty.

1939 Mr. and MRS. William F. Curry have four children and make Baton Rouge, La., their home. He is assistant director of the Nuclear Science Center at Louisiana State University.

Rolla Revelle Ross is manager of
management information systems with the Condec Corp. He and his wife, Eloise, have three sons and make their home in Cos Cob, Conn.

1940 Mr. and Mrs. William Harvey McKittrick have two children and make Tallahassee, Fla., their home. He is a territory manager with Glidden-Durkee.

Mr. and Mrs. Gifford A. Young (Winifred Evelyn Fites) have one daughter and make Falls Church, Va., their home.

1941 Mabel Penry Howell is associate executive director of The Jewish Hospital of St. Louis.

1942 John Ellis Austin is superintendent of the Carrier Mills school system. He, his wife, Leanna, and their son, Steven, make their home in Carrier Mills.

Evelyn Marie Patterson ’44, ’49, lives in Marion where she is a foreign language teacher at Marion Senior High.

1944 Mr. and Mrs. Floyd E. Harris (Phyllis Cox Harris ’44) live in Ignacio, Colo., where he is superintendent of schools.

Bernard M. Williams is mayor of the City of Hannibal, Mo., where his wife, the former Mary Elizabeth Martin ’45, is a teacher in the public school system. The Williamses have four sons.

1945 Mrs. James R. McSmith (Patricia Ann Greathouse) has five children and resides in St. Petersburg Beach, Fla. She is employed at Dixie Hollins Senior High School.

1946 James Clarence Greer is retired as a Baptist minister and makes Mt. Carmel his home.

1947 Leland L. Scott is a professor of mathematics at the University of Louisville. He and his wife have three children, and make Louisville, Ky., their home.

Mr. and Mrs. F. Eugene Vaughn ’61, (Ruby Guymon ’47) and their two children, Ronnie and JoEllen, live in Marion. He has been promoted to an associate professor at SIU’s School of Technical Careers.

1948 Albert Jene Shafter ’49, is superintendent of the A. L. Bowen Children’s Center in Harrisburg. Vice-president of the American Association on Mental Deficiency, Shafter also is editor of the column “In The News” published in Mental Retardation. He was installed as president of the SIU Alumni Association during the Alumni Day Banquet on campus in June. Shafter and his wife, the former Lynnette R. Peek, ex ’46, have three children and reside in Harrisburg.

1949 Eugene Wallis Aikman is maintenance supervisor with Coates Steel Products Co. in Greenville where he, his wife, Nina Mildred Crawford Aikman ’48, and their two daughters, Patricia and Regina, reside.

Edgar H. Alms is manager of the Great River Gas Co. in Hannibal, Mo., where he, his wife, Hazel, and their two children, Trudy and Gary, make their home.

Mr. and Mrs. Dan Cox have three children, Dan, Jr., Jean and Brian, and make their home in Springfield, Va. He is an education officer with the Agency for International Development’s Africa division.

Elmer E. Crocker is employed with the Western Electric Co. He and his wife, Elizabeth, reside in Oklahoma City.

Mr. and Mrs. Clifton P. Faull (Eva E. Sanders Faull) make their home in Herrin. Mrs. Faull is a retired school teacher.

Mr. and Mrs. Leslie B. Galloway (Helen M. Green Galloway ’66) live in Carbondale. Mrs. Galloway is director of guidance at Johnston City High School.

Archie N. Griffin, ’53, is business manager of the Student Center at SIU. His wife, the former Alice Albon, ex ’43, is assistant secretary to SIU’s Board of Trustees. The Griffins live in Carbondale.

Mr. and Mrs. Wayne William Hal-

SIU PLAYING CARDS
Handsome SIU playing cards feature the finest patented Redi Slip plasticized finish which resists wear and can be wiped clean with a damp cloth. One deck backed in white and gold, the other in maroon, white and gold—both with the SIU seal in gold. With an extra joker for canasta in each deck, they’re packed in a twin-tuck gold carton and mailing case. The perfect gift and only $3 a set. Illinois residents add 5% sales tax.

LICENSE PLATE FRAMES
All new, custom-made license plate frames are now available for you. These sturdy frames are beautifully styled, tool and die cast, triple chrome plated and finished in brilliant SIU colors. Now instead of carrying a free plug for some auto dealer, you can show you’re an SIU constituent and Saluki backer and promote Southern Illinois as well! The price of only $5 a pair includes handling charges, packaging, postage and tax.

SIU SWEATSHIRTS
Adults and children alike will love these easy-going cotton knits in the SIU colors with SIU imprint—and you’ll love the price. Available in children’s (C) sizes S, M, L and adult’s (A) sizes S, M, L, X-L. Maroon with white letters @ $2.75 White with maroon letters @ $2.75 Maroon with white letters, edging @ $2.95 Price includes tax, postage and handling.

LARGE SIU GLASSES
Here’s a conversation piece with practicality that’s exclusively ours! A 12½ oz. set of eight glasses with chip resistant rims, weighted bottoms and baked on crest and lettering. Safe for use in automatic dishwashers. Packed for safe shipping in cartons of eight. The price of only $6 includes handling charges, packaging, postage and tax.

SIU MUGS
Another new item available through the Association—a 17 oz. set of four glass mugs. These too have the chip resistant rims, weighted bottoms and baked on crest and lettering. Safe for use in automatic dishwashers. Packed for safe shipping in cartons of four. The price of only $6.95 includes handling charges, packaging, postage and tax.

SMALL SIU GLASSES
Here’s a new item also available only through the Alumni Association—small drinking glasses. A 7½ oz. set of eight glasses with chip resistant rims, weighted bottoms and baked on crest and lettering. Safe for use in automatic dishwashers. Packed for safe shipping in cartons of eight. The price of only $6 again includes handling charges, packaging, postage and tax.

SIU T-SHIRTS
Adults and children alike will love these easy-going cotton knits in the SIU colors with SIU imprint—and you’ll love the price. Available in children’s (C) sizes S, M, L and adult’s (A) sizes S, M, L, X-L. Maroon with white letters @ $2.75 White with maroon letters @ $2.75 Maroon with white letters, edging @ $2.95 Price includes tax, postage and handling.

SIU SWEATSHIRTS
Now you can also purchase sweatshirts with SIU imprint and colors through your Alumni Association. These long-sleeved easy-to-care-for cotton and polyester sweats may be machine washed and tumble dried. Available in children’s (C) sizes S, M, L ($4.95) and adult’s (A) sizes S, M, L, X-L ($5.50). Be sure to state maroon with white letters or white with maroon letters. Price includes handling charges, packaging, postage and tax.

TOTAL
Join SIU and ISU for a Fabulous New Year’s Cruise Through the Caribbean!

The perfect Caribbean... the perfect sun... the perfect islands... the week you’ll love. Come sailing.

Members of the SIU Alumni Association and Illinois State University are headed for a fantastic 8-day and 7-night cruise aboard the fun ship, Mardi Gras. You’ll have more fun, more service and more downright luxury than any other trip could possibly deliver. She’s a spacious floating country club with three swimming pools, sports decks, promenades galore, duty-free shops, clubby little night spots, a theater, grand ballroom, four bands, all star shows—and a festive atmosphere. There’s something happening every minute of every day, even at six in the morning if you’re up that early—or that late... This is the perfect Christmas present to yourself—spend New Year’s on board the Mardi Gras and attend a fabulous, gala New Year’s Eve party.

The Carnival Cruise is scheduled for December 28–January 4. And here’s what’s included in the price:

1) round-trip jet flight from St. Louis or Chicago to Miami
2) complimentary meals and beverages served aloft
3) transfers and baggage handling to and from the Miami airport
4) a cruise on the fastest ship in the Caribbean—the fully stabilized, 27,250-ton Mardi Gras
5) captain’s “welcome aboard” cocktail party
6) four meals a day on ship, including midnight buffet
7) an air-conditioned cabin of your choice, all on the main deck
8) stops at three ports of call—San Juan, St. Thomas and Nassau
9) all port taxes
10) optional shore excursions available
11) musical entertainment every night
12) personal tour escort

All of this is available for the following prices per person based on double occupancy:

$559—outside cabin on main deck with two lower beds and shower
$509—inside cabin on main deck with two lower beds and compact shower
$469—inside cabin on main deck with double bed upper bunk and compact shower

We do hope you’ll join us for this week of fun. Don't wait too long—there are limited reservations. The trip is limited to members of the SIU Alumni Association and their immediate families. (Modern Air Convair 990 jet, 149 passenger, air cost—$118, cruise cost—$441, $391, $351 depending on accommodations)
