Student Workers--Working & Learning
Yesterday & Today
Southern Illinois University President Warren W. Brandt (center) accepts the official flag from Illinois Bicentennial Commission Executive Director Michael Linerman (right) after SIU won designation as a Bicentennial University. SIU was recognized for a variety of campus-based programs scheduled during the year which are keyed to Bicentennial themes. At left is Rex Karnes, director of Area Services at the University and chairman of the campus Bicentennial Committee.
Lucy K. Woody, at left, and Ginny Britton have served the women of SIU, in different ways, in different times but, hopefully, with the same results—giving the students a more wholesome, happier outlook. Miss Woody and her service as dean of women is legend. Ms. Britton, coordinator of women's programs is making a name for herself now. For a look at what's happening in Ginny Britton's office in Woody Hall, see page 2.

Having served Southern Illinois University in the coordination of student work programs for a combined total of 37 years, Frank Adams and Raymond Dejarnett can prepare for their early 1977 retirement with the confidence that they have aided well over 100,000 students in financing their college educations. These men and their efforts can rightfully take a large part of the credit for the fact that SIU today stands as a model and inspiration to other institutions providing on-campus work opportunities to students. The article on the men, their work and the student workers they helped yesterday and today begins on page 4. (Photos taken by Jerry Strain)

Women's Intercollegiate Athletics at SIU have greatly developed through the years. A strong 11 sport program has been built on a lot of desire, ability, dedication and sacrifice by the staff and the athletes. Sports Publicist Carol Van Dyke tells the story which begins on page 10.

Dean of Women vs. Coordinator of Women’s Programs

Different People, Different Methods—Same Results?

Fifty years ago, the position of dean of women was created at SIU. Lucy K. Woody was named to that position and thus had the responsibility of keeping complete records on every girl enrolled in the college. This record reportedly included each woman student’s grades, activities, address and other information. The record would go to the individual’s sponsor at each registration. Miss Woody’s office was also in charge of scheduling campus activities.

She served in a variety of capacities. According to a 1936 Obelisk, “Miss Woody renders an invaluable service to women students. By her efforts, girls who come and remain here under a handicap leave with a wholesome, happy outlook. Dean Woody has enabled many to stay in school who could not otherwise have done so.”

In some ways things haven’t changed much at SIU. Though no door bears the title “Dean of Women,” there remains an office where girls with complex and not so complex problems can exit, hopefully with a more wholesome, happier—more realistic outlook.

Ginny Britton, ’70, MSED ’73, coordinator of women’s programs is the main occupant of this bright, active office located in a building named after that first dean of women, Woody Hall.

It’s fairly safe to assume that though Miss Woody and Ms. Britton were striving to be a help to students, that the help and the problems are as different as the women.

The very role of the University has changed since the days of Dean Woody. Parental duties of colleges and universities have long ago been lifted. Schools now promise to provide students with educational opportunities, not with around-the-clock supervision. Rules are still set down and enforced but students don’t sign in and out of dorms and they are no longer “grounded” in supervised housing for curfew violations.

“It’s not our role to keep women in line and we couldn’t even if we wanted to,” Ms. Britton continued, “That was a service of the dean of women of years gone by and that’s not to say that such regulations weren’t good for the times, but things have changed.”

She describes the three-year-old program’s objectives as “Assisting women in realizing their full academic and professional potential and consequently seeing more qualified women candidates placed in a variety of ‘non-traditional’ professions.”

Ms. Britton is confronted daily with questions such as: What’s a woman to do about career decisions, choosing family life and a profession, pioneering in a previously all-male occupation, staying in school for a master’s or doctoral degree? How does she determine what course of action is in her own best interests? How does she combat bias and stereotyping in employment opportunities?

According to Ms. Britton, women’s programs, an arm of SIU’s specialized student services office, provides women with the encouragement, support, counseling and information they need to make educational, career and personal decisions. “It’s a special office where women students can get professional assistance in determining their own futures.”

Ways of making all this happen take the form of seminars, workshops and an active lecture program aimed at dispersing a wealth of information to acquaint both men and women with the need for human sexual equality in
In an effort to demonstrate the value of risk taking, not only in physical situations but also in taking chances in making personal decisions, Ginny Britton organized a Leadership Self Development Lab for Women. The lab was a week-long course with this exercise being only one of 10 or 15 activities.

The lab focused on educational and employment opportunities. "We're trying to create the proper climate for additional personal and professional growth," Ms. Britton emphasized.

Women's programs, which sees about 200 students each week, works with undergraduate and graduate students as well as women who are returning to college and holding down jobs or taking care of families. The programs, Ms. Britton admitted, are not for everyone. They are, she said, "Aimed at the woman who is questioning her present role or who feels the need to expand and explore career alternatives."

"We deal with about 30 per cent of the women student body population, a percentage much increased over the last two years. I've spoken with women forestry and agricultural majors who say their parents can't understand where they went wrong. Some of these parents can't accept their daughters' career choices and the students are then forced to choose between the 'traditional' and 'non-traditional' majors."

In handling these and the many other types of questions, Ms. Britton is quick to define the office's function, "We aren't striving to tell anyone what to do but to make them fully think through what their problem is and what options are open to them."

"Through the years, women have not been taught, in many cases, to make decisions." She added, "Many of us were not taught that one day we would be out on our own and would have to be responsible for ourselves."

For this reason, Ms. Britton has initiated reach out programs where women gain expertise in such areas as problem solving, assertiveness training, leadership and career planning.

Not pretending to have all the answers, Ms. Britton credits many campus offices with helping the inquiring students. "We get a lot of really complex problems and then the student needs to see more than one office. In such instances we serve in a referral capacity."

"Offices on campus have been fabulous. The participation I've been getting far exceeds what I originally anticipated and it is still growing. . . . They seem eager to help in any way possible."

Response to the seminars and workshops during recent months has increased as more and more University people realize the need for promoting opportunities for women, Ms. Britton said.

Workshops range from physical and mental health concerns and career alternatives to assertiveness training and how women can prepare themselves for new roles. The emphasis is not on destroying family life but rather on expanding opportunities for women in other fields.

In terms of the program's future Ms. Britton said, "I'd like to see more activity on the part of the various departments, to see them taking an even more responsive role in meeting the needs of women."

"Eventually my goal is to work myself out of a job. I'd like to see women having more self confidence, confidently taking their futures into their own hands and eagerly making intelligent personal and educational and career decisions. I'd like them to know that if they stumble, many campus offices are open to them where they can seek further information with the awareness that they will be fairly treated."
SIU's Student Work Office...

helping students 'earn and learn' for over four decades

With over four decades of experience in the coordination of student work programs, Southern Illinois University today stands as a model and inspiration to other institutions providing on-campus work opportunities to students.

Earliest recollections show that the student work program has grown from 12 part-time student employees in 1934 to a monthly payroll of some 3,100 student workers in early 1976. Much of the credit for this growth can be taken by Frank C. Adams '51 MSED, '62 PhD, director of Student Work and Financial Assistance and Raymond P. Dejarnett '36, '51 MSED, '64 PhD, associate director. These men have been helping students earn and learn for a combined total of 37 years.

Their work and devotion to the students and the program have resulted in the fact that more than 7,000 students a year are now earning a portion of their financial support through the student work program which consists of more than 200 different types of on-campus jobs. Approximately 5,000 students receive the Illinois State Scholarship Commission Monetary Award for tuition and fees.

Some of the motivation behind the programs of Financial Aid and Student Work on the part of these two men can perhaps be explained as being more than administrative pride in their area. Both Adams and Dejarnett held student work positions during undergraduate days, in fact Dejarnett was one of the 12 students working in 1934.

The office has come a long way since those days and these men are in part responsible for the important role it plays in the low interest educational loans reportedly totaling almost $4 million in student financial support which are distributed each year in loans, grants and employment programs.

Due to retire simultaneously on March 1 of 1977, Adams and Dejarnett will be able to leave the office and the University with the awareness of having contributed to the development of the program and thus the lives of the students it employs. Little more than half a year prior to the completion of their SIU careers, the Alumnus believes the time is appropriate to examine the program, giving credit to the men who have worked so hard.

"It is a policy of the administration to allocate as much of the work of the School as can practically be undertaken by full-time students employed on a part-time basis." According to Adams, "The principle stems from the philosophy of the School that academically capable and financially needy high school graduates should have an opportunity to develop their potentialities in institutions of higher learning, in the best interests of the students and also in the enrichment of our democratic society."

In keeping with the University's philosophy and policies, the student work program serves three major purposes. First, it provides work experience, which is educationally worthwhile for any student, contributing to his maturity and to his development into a productive citizen. Such work experience is, whenever possible, related to the academic program of the student. Second, it provides part-time employment on a priority basis for students with great financial need who are academically
capable of working and attending college. The on-campus program is so designed that students with extreme financial need can, although they are not advised to do so, finance their entire college education through employment with the University. Third, to be effective as an educational and financial aid program for the participating students, the work program must also operationally serve the University.

A professional staff is responsible for carrying out policies, procedures, coordinating supervision and providing student counseling. The priority given to guidance and counseling as a functional service is possibly unique in college personnel work. The need for such service, according to Adams, stems primarily from four sources: the special problems and pressures which arise from financial circumstances in the cases of needy students; the need of youth to develop skills, understanding and attitudes toward work in our economic society; the possibility that part-time work will enrich the student’s experience and contribute to his overall education and the concern that part-time work may jeopardize the student’s academic progress, thus defeating his primary purpose in attending college.

Realizing this, the Student Work and Financial Assistance Office periodically makes research studies for evaluation purposes and for future development, promotion and growth of the program.

“The University has,” Adams emphasized, “made a number of studies concerning working students and their academic achievements. In all studies conducted, it was found that working students, as a group, achieved as well or better than did the non-working students.”

According to Adams, it’s important for the student to maintain a proper balance between the academic class load and the part-time employment assignment. “To make certain that student work does not interfere with academic progress, counselors study the weight of the work and the academic loads, and, if necessary, the office may restrict both.”

The program employs students as switchboard operators, receptionists, truck drivers . . . cashiers and bookkeepers.

Among its other duties, the office reportedly conducts or sponsors student training programs for the various departments as an aid to supervisors in employing new students and as an orientation to work situations for the students.

“In fairness to this job, I believe our student workers are as reliable and dependable as faculty and staff. They learn by example and will work up to our highest expectations if we, as supervisors, do our jobs well and keep aware of our roles as teachers.

“We have the opportunity to make their jobs educa-
tionally valuable experiences. There is the chance for the students to get to know professors, administrators, civil service employees—all kinds of people of all ages and ‘be part of the team’, . . . rubbing elbows with a vast cross-section of full-time workers,” Adams said.

There is also diversity in the types of work in which students are employed. Work assignments range from unskilled entry jobs to those requiring advanced college training. They exist in virtually every academic, administrative and service division of the University.

Thus, the student work program employs students as switchboard operators, receptionists, truck drivers, ambulance drivers, maintenance personnel, cashiers and bookkeepers. They do everything from cataloging books in Morris Library to gathering eggs and feeding hogs on the University Farms.

Many of these part-time jobs are academically related, giving the students some practical experience in their field of study.

In addition to these on-campus job opportunities, SIU students also have the option of working part-time in industry through the Co-operative Education Program (Co-op). This program, under the direction of S. Lee Wohlwend MS '72, to gain career experience with employers like Caterpillar Tractor Co., in Peoria; Granite City Steel; Emerson Electric at St. Louis, Mo.; Deere and Company in Moline; Turn-Style of Chicago; General Services Administration of Chicago and the Energy Research Development Administration in Tennessee.

“Our program,” Wohlwend explained, “enables the students to either go to school and work at the same time or alternate semesters between school and work at various businesses, agencies and industries that have agreed to join SIU in the project.”

According to Wohlwend, this program differs from the “work-study” projects. In those, the main objective is to hold down a job to earn money for school. In Co-op, however, the idea is reportedly to gain experience in a field related to an academic study area, and thus be better equipped to obtain preferred employment after graduation.

“These students participating in the program have an even better potential gain when you consider the ‘cash in hand’ they will earn as payroll employees.

“We’re only in our third year of operation here on the SIU campus and are constantly striving to further

---

“Not that the present is so dim, 30 Co-op students are working this summer and according to Wohlwend, many more are interested. “The students don’t expect a free ride,” Adams said, quoting James G. Ohara, chairman of the special subcommittee on education in the House of Representatives, “And let me say this for the often criticized students: the student witnesses before our subcommittee were themselves the most out-spoken supporters of the idea that student support should be earned through student work in preference to being awarded as grants or offered as loans.”

Southern Illinois University believes that the diversity of the student work program swings wide the college doors to those students who are academically capable and willing to exert mind and muscle for the sake of earning a coveted degree.
Russia Bound Ag Grad

Selected to spend June, July and August in Russia under the first agricultural exchange program between the United States and the Soviet Union is Ruth T. Fleck '75, a graduate student in agricultural industries.

Fleck was one of 15 persons from 11 states chosen for the study-work program under auspices of the American 4-H Foundation International Programs. The group left in June for Moscow, is spending four weeks in study at the Byelorussia Agricul­tural Academy near Minsk, then they’ll work on state and collective farms in Russia and travel in western USSR before gathering in Moscow for windup consultation.

News of the Campus

Service Awards Given

Sixteen SIU faculty members with a combined 415 years of experience at the University were recognized with service awards at spring commencement exercises in May.

Lynn C. Holder, Saluki golf coach and former head basketball coach; Frank Klingberg, professor of political science and Alice P. Rector, Career Planning and Placement Center counselor, each received recognition for 30 years of service.

Those honored for 25 years of service are:

Jacob O. Bach, educational administration and foundations; Imogene C. Beckemeyer, mathematics; Isaac P. Brackett, speech pathology and audiology; Jack W. Graham, higher education; Scott W. Hinnors, animal industries; David T. Kenney, political science and Herman R. Lantz of sociology.

Dan O. McClary, microbiology; James B. Mowry, plant and soil science; J. Robert Odaniell, Alumni Service; Charles M. Pulley of interior design; William E. Shelton, educational administration and foundations and Robert W. Stokes of University Photographic Service also received awards for 25 years of service to the University.

Gold Medal Building

SIU’s new humanities and social sciences building has won a gold medal architectural award from the American Institute of Architects.

The design of Faner Hall, which houses most of the SIU College of Liberal Arts, University Museum and other academic and administrative units, netted a gold medal for the architectural firm of Geddes Brecher Qualls Cummingham, of Princeton, N.J., and Philadelphia, Pa., from the Philadelphia chapter of the AIA.

Have Show Will Travel

A modern-day equivalent of the medieval caravan of arts and crafts will be traveling throughout southern Illinois during the next several months.

The caravan, designed to bring the arts to the everyday life of the region, will include five trailers: a show wagon for productions of a play based upon southern Illinois folklore and four others for demonstrations of such crafts as glass blowing, pottery, weaving and metal smithing.

Part of the Southern Illinois Art Resources Cooperative, the project was made possible by grants from the SIU President’s Academic Excellence Fund and from federal manpower program sources.

Project Director George J. Mavigliano, assistant professor of art at SIU, said the idea behind the caravan is to “try to make the communities understand how art can be a part of their everyday lives.”

To do that, he said, the caravan hopes to build its audiences from persons such as prisoners and elderly persons who are physically unable to get to cultural events.

Crafts will be used to attract persons who aren’t interested in art. According to Mavigliano, performing arts also will be related to everyday life.

Mavigliano said his long-range goal is to stimulate interest in the arts so that permanent art centers will spring up in the communities to be served by the caravan.

Flora residents and visitors will be able to enjoy the caravan on July 2-5; Bluford will host the show on July 10–11; Du Quoin, July 12-24; Cairo, July 24-25; Ridgway, September 11; Murphysboro, September 16-18; Du Quoin, October 1–3; Marion (federal prison), October 9 and Chester (Menard prison), October 23.

Male Cheerleaders?

The “Rah-Rah” may have gone out of cheerleading but, at SIU anyway, the boys are back. Two SIU males were selected as part of the six person cheering squad for the 1976-1977 sports season.

Brad Barnes, who will begin his senior year as an engineering major this fall, and George Burns, a sophomore in Developmental Skills, are the forerunners in this return to old-time cheering.

Barnes reportedly was unable to try out for the wrestling or gymnastic team because of scheduling problems and yet wanted to do something “athletically affiliated with the University,” so he went to workshops and became a cheerleader.

During one workshop, according to Barnes, “Four guys came to the gym and they saw us working out. We were kidded about our cheerleading and told them to join in—that it was fun. They did and though it started out with them goofing around, they got interested in it.
“Three of them returned for the next workshop. One of those guys was George Burns and he made the squad.”

Barnes admitted he hadn’t realized how hard cheerleading could be. “It takes a lot of hard work and skills in acrobatics to be good.”

Implementing Title IX

Operating under the philosophy that the purpose of affirmative action is to assure equal opportunity through unbiased recruitment, employment and promotion systems, are Mary Helen Gasser ’58, M.S. ’71, Ph.D. ’75, and Richard C. Hayes ’68.

Gasser, University affirmative action officer, and Associate University Affirmative Action Officer Hayes, both appointed in mid-1975, have been working to coordinate the University’s effort to carry out its responsibilities as designated under Title IX of the Education Amendments of 1972. Title IX, according to Gasser, mandates that no person, on the basis of sex, shall be excluded from, or denied, the benefits of any education program or activity.

Inquiries concerning the application of Title IX Regulations should be directed to Gasser or Hayes, Anthony Hall, Room 104, on the SIU-Carbondale campus, 62901.

'Arty Inheritance'

The first fruits of a former Waterloo woman’s will, a harvest that yielded $23,000 in awards this year, have been awarded to two graduating seniors in the University’s School of Art.

The money represents the interest generated so far from SIU’s share of the estate of Marguerite L. Rickert, daughter of a one-time Monroe County judge and school teacher. Upon her death in 1971, Miss Rickert left one-third of her estate to SIU and stipulated that it be used to “reward the accomplishments of undergraduate senior art students” at the University.

Steve Bishop of Miami Lakes, Fla., and John Deom of Springerton were selected from among 40 senior art students and thus each received $11,500 for excellence in artistic achievement.

According to terms of the will, awards winners can use the money as they wish to “develop their artistic abilities”—whether in graduate work, museum tours abroad, purchase of materials or whatever.

A panel of SIU School of Art faculty members selected awards recipients out of the total field of eligibles in the May and August graduating classes. Robert Paulson, assistant professor of art and coordinator of the Rickert Awards, said students were graded on a point basis and a standard mathematical formula was used to determine the number of seniors who would share equally in the $23,000 gift.

The SIU Foundation said the amount of awards from the trust fund will vary each year, depending on interest gained. This is the first year the awards have been made.

Women's Athletics—
Bigger and Better
With Each Passing Year

By Carol Van Dyke
Sports Publicist

When a women's basketball team from Southern Illinois University took the court against an opponent in 1940, a program was beginning that would bring national recognition to the University. At that game, there were no cheerleaders, pep band or media personnel. As for spectators, they numbered less than the teams and officials.

From this unpretentious beginning, women's intercollegiate athletics has evolved into a modern program serving the needs of talented, well-trained and competitive women athletes.

Today this program, one of the best in the nation, includes 11 intercollegiate sports which encompass three separate sports seasons.

Any alumni, who hasn't returned to the campus recently, would hardly recognize it as it now exists.

Its operation requires the talents and abilities of a variety of people. The program is directed by Charlotte West, women's athletic director for 15 years. The entire athletic staff includes an assistant athletic director, ten part-time coaches, an athletic trainer, part-time business manager, part-time publicist, coaching assistants and a secretarial staff. Services of the entire staff are needed in order to keep the 11 sport program running.

Basketball remains a part of the program as does softball which was also played as early as 1940. But badminton, cross country, field hockey, golf, gymnastics, swimming, tennis, track and field and volleyball have also been added.

The accomplishments of the women's athletic program have been outstanding. Despite a very limited budget which severely restricts travel and selection of opponents, SIU has found its place in the record books.

The women's golf team elevated SIU to the ranks of National Champions in 1969 when it won the National AIAW Championships. Another team to claim the title of National Champion was the women's gymnastics team. The gymnastics team won its National AIAW Championship in 1970, 1974 and 1975. The 1976 gymnastics team, despite illness and untimely injuries, finished fourth at the national meet, with three of its members being named All-American—Denise Didier, Diane Grayson and Pat Hanlon. These three women are added to the list of 31 women gymnasts who have received All-American honors during their tenure at SIU. Enroute to the national meet, the 1976 gymnastics team won the State and Region 5 Titles.

This year's swim team brought the State Title to SIU along with a second place finish at the Region 5 meet. Candy Miller, an SIU swimmer, received All-American honors as she placed 12th in the nation in the 100-yard backstroke. The basketball team won the State Title for three consecutive years, 1969–1971, and has been runner up in 1975 and 1976. The cross country team captured the 1973 Central AAU Title and at the first State Tennis Tournament, held in 1975, SIU's women's tennis team placed second.

During this past year, approximately 200 women participated in the women's intercollegiate athletic programs. Several athletes participated in more than one sport as the 11 sports are divided into three separate seasons. During the fall season, volleyball, golf, tennis, cross country and field hockey teams engage in intercollegiate competition. During the winter season, the basketball, badminton, swim and gymnastics
teams strive to excel. The spring season completes the year as the softball, track and field, tennis and golf teams face intercollegiate opponents.

If desire, ability, dedication and sacrifice by the staff and the athletes were the only necessary ingredients needed for a successful program, then the women's athletic program at SIU would be assured of a very bright and prestigious future.

Unfortunately another ingredient is also needed for a successful program. And that illusive necessity is money.

A restrictive budget hampers a team by limiting its travel and the quality of competition it can meet. In many sports, the University tries to seek out-of-state and out-of-region competition. Unfortunately, long distance travel is not economically feasible for women's teams. In fact, until recently, over-night trips were rarely scheduled due to the strict women's athletic budget. The “Thrill of Victory” is somewhat dimmed when one faces a five or six hour drive back to campus. “The Agony of Defeat” is deepened when one must ride five hours home in a van. Plane trips have increased over the years, but they are still the rare exception rather than the practical solution. Nonetheless, quality competition is a necessity if Southern's women's athletic program is to continue to excel.

A new aspect entered women's athletics when women athletes began receiving scholarships. Women who excel in one, two and sometimes three sports can now receive more encouragement and support than the traditional end-of-the-year banquet.

The women's athletic program would like to increase this support and encouragement for its athletes. According to the scholarship rules of the Association for Intercollegiate Athletics for Women (AIAW), schools are allowed 12 scholarships per year for individual sports—tennis, golf, etc. This year the University was able to award 26 scholarships to incoming freshmen and renew 48 scholarships for returning athletes. To avoid confusion, it must be noted that a scholarship from the women's athletic program does not mean a scholarship which covers all expenses. In fact, a full paying scholarship is rarely given because of the cost.

Scholarship and travel budgets are just two aspects of the program, which if they were increased, could make a tremendous difference in the quality of SIU’s women’s program.

In response to the need for additional money, the women's athletic program has instituted a Development Fund. The Development Fund is an effort to supplement the University's budget for women's athletics with private donations and contributions.

Three separate divisions have been set up within the Development Fund to which the reader can contribute. Contributions can be made to a specific sport, in support of an athletic scholarship for a deserving athlete; or to aid the overall athletic program. Alumni are strongly urged to become a part of the women's intercollegiate athletic program as a “starter” by contributing $1 to $10 or an “all-star,” contributing $11 to $99, or a “most valuable player,” by contributing $100 or more.

Contributors will be placed on a special mailing list and they will receive schedules of all women's athletic events, promotional brochures and a periodic newsletter which will keep them up on the program's successes and accomplishments.

The staff and athletes of the women's athletic program would like to thank the alumni, who have in the past, supported the program by their attendance at athletic events and by their contributions. They would also like to encourage more alumni to become part of the women's athletic program by contributing to the Development Fund. Additional support is needed in the coming years if the women's athletic program is to continue to compete successfully at the state, regional and national levels.

---

Yes, I would like to contribute to the SIU Women's Intercollegiate Athletic Program. Count me in as:

- [ ] Starter $-$10
- [ ] All Star $11-$99
- [ ] Most Valuable Player $100 or more

Make checks payable to WIA Development Fund and mail to: SIU Foundation, Southern Illinois University, Carbondale, IL IL 62901.

Contributions are Tax Deductable
Trustees Recommendations Requested

From time to time the Alumni Association has invited you to submit suggestions for possible nominees to the SIU Board of Trustees. A new committee has been appointed to receive your additional suggestions for updating our previous recommendations to the Governor. This committee will submit nominations to the Governor for his consideration when filling any future appointments or vacancies that may occur.

Trustees are appointed to six year terms by the Governor, with advice and consent of the State Senate. Your suggestions need not be limited to alumni. Any Illinois citizen is eligible. We would assume that, given the responsibilities of the office, only those with sufficient background, interest in education and availability for service will be seriously considered. Please provide as much background material as possible with names you offer. This is another opportunity for you to be of service to your University.

The Alumni Trustee Recommendations Committee is chaired by Albert J. Shafter ’48, ’49. Other committee members are David Elder ’50, ’51; John G. Gilbert ’33; Jack Murphy ’54, ’57, ’71 and Ted Taylor ’44.

Mail your suggestions to Alumni Services, SIU, Carbondale, Ill. 62901, prior to August 31.

In behalf of the Williamson County Alumni Club, Stan Narusis ’49, at left, vice president of the alumni club, presents Judge John H. Clayton ’41, with a plaque, honoring him as their 1976 Outstanding Alumnus.

The Alumni Association

The paintings of Wendell C. Lanton ’36-2, ’40, were recently exhibited in a one-man art show at the Montclair Kimberley Academy in Montclair, N.J. At left, Lanton presents SIU Alumni Association Executive Director J. Robert Odaniell with Anansi—the Web of Life. This large acrylic painting was presented to the University in memory of Douglas E. Lawson, the first Alumni Great Teacher and former dean of the School of Education whom the artist studied under at SIU. The two men had kept in touch until Lawson’s untimely death several years ago. The commemorative work portrays some of the African originated folklore of Aunt Nancy which has since become webbed into the stories of Jamaican-West Indies cultures. Like Lawson, Lanton has spent many years in the field of education. Recently retired from a psychology professorship at Jersey City State College, Lanton is now able to devote an even greater portion of his time to two of his great loves—painting and drawing.

Ed Wardzala, former Saluki trackster, received the SIU Alumni Association Scholar Athlete Award for 1976 from W. Kent Brandon, Association board member. Wardzala, a physical education major with a 3.76 average, out of a possible 4.00, graduated at May commencement.
SIU Alumni Book Club

A 20% discount on the books listed here and all books published by the Southern Illinois University Press is allowed to alumni members placing orders through the Alumni Office. Non-members of the Alumni Association may purchase these books through the Association at regular price.

TRACK TEAM IS HARTZOG'S BEST. The collegiate outdoor track season is over and Southern Illinois senior triple jumper Phil Robins is still undefeated. That means the Olympic hopeful from Nassau, Bahamas became national champion last week with an NCAA championship performance of 54-8 1/2 wind-aided.

Not only did Robins remain undefeated through the grueling regular season, but he led the Salukis to a 17th place finish at the NCAA championships. And, he earned an NCAA meet record in the preliminaries with a jump of 54-10 3/4.

"Robins has just been tremendous throughout his career," praised Saluki coach Lew Hartzog, who's guided three world record holders in his career. "Robins is a super athlete, however, he's not the whole team. All of our kids, many of them freshman and sophomores, proved they're the best track team ever to run for Southern Illinois."

Both Robins and long jumper Rick Rock of Canada will represent their homelands in the Olympic Games while sprinter Mike Kee, pole vaulter Gary Hunter, javelin thrower Robert Roggy and hurdler George Hailey may make the U.S. team.

DIAMONDMEN MAKE NCAA APPEARANCE. Southern Illinois' baseball team made their ninth NCAA post-season tournament appearance in 11 years to highlight another successful season under Coach Richard "Itchy" Jones.

Although the Salukis went into the Midwest regional tournament ranked fourth nationally with the country's second-best hitting average at .360, they were twice upset, 5-2 by Illinois State and 2-0 by Michigan.

"All season long, our hitting carried us through," said Jones. "However, it was the pitching that prevailed during the tournament while the hitters went into a slump. Illinois State beat us on an infield hit while Michigan scored two unearned runs on one of the very few mistakes we made. Both situations cost us the tournament."

At season's end, the 39-14-1 Salukis remained second-ranked in hitting with a .355 average led by senior catcher Frank Hunsaker at .406 and sophomore third baseman Rick Murray at .398.

Murray led the squad with 76 hits, seven triples and 50 runs-batted-in and was named to the independent all-America team announced by college sports information directors of non-conference affiliated universities.

THE TENNIS TEAM FINISHED 26TH behind the rackets of Mel Ampon and Jeff Lubner. Saluki coach Dick LeFevre said it was a satisfying season finishing 16-8 and second place in the Missouri Valley Conference with five freshmen and one junior.

GLENN NAMED ALL-AMERICAN. Southern Illinois' sharpshooting guard was presented a plaque as an academic all-American by the College Sports Information Directors of America. Glenn, who teaches basketball to deaf children in his hometown of Rome, Ga., passed an opportunity to try for the Olympic team to work on his studies. He owns a 3.46 overall grade point average in mathematics.

Swimmers Dave Swenson and Dave Boyd and polevaulter Gary Hunter were named to the all-state at-large academic team for athletes other than football, basketball, baseball, or soccer.

DEMPSEY HOLDS KEY TO FOOTBALL FORTUNES. Southern Illinois' new head football coach Rey Dempsey isn't promising an instant winner, but says Saluki football fortunes are on the rise.
Dempsey, who took over as SIU football mentor in December, succeeding Doug Weaver, was pleased following the team's spring workouts which concluded with the spring game, May 8. "We'll not suddenly become a big world beater," Dempsey cautioned. "But, we are gradually improving and some young players will certainly have room to help."

Dempsey, who coached last season with the National Football League Detroit Lions as a specialty assistant, has changed the offensive formation to the optional Pro I. The Salukis employed the run-oriented wishbone during the 1975 campaign.

Dempsey has provided himself with a number of choices for quarterback which apparently is up for grabs between returning junior Tim Cruz of Decatur, juco transfer Jim Kelly of Houston, Texas, and several prep signed-callers with fine credentials.

Kelly reported to spring drills as the number-one quarterback, but suffered a broken leg during the first scrimmage. Although Kelly is expected back in top form by the fall, Cruz ran the first unit through the spring with veteran confidence and should contend. "We've recruited some skilled offensive junior college players to help run the offense," Dempsey said. "We like the formation because it leaves room for options and adjustments."

Although the Salukis could be led by senior tailback Andre Herrera, who gained 117 yards on 17 carries, Dempsey praised the development of the entire offensive unit. Defensively, some player personnel switches including the move of former starting fullback Wash Henry to the secondary should allow for improvement over last season's performance.

"We shouldn't have any standouts because of the team-style of play we stress," said Dempsey, "We've moved a number of players around to get the best athletes in the starting lineup."

The Salukis open the season Sept. 11 at McNeese State, travel to Drake Sept. 18, host West Texas State Sept. 25, Lamar Sept. 2 for Parent's Day, travel to East Carolina Oct. 9 host Arkansas State Oct. 16 and Northern Illinois Oct. 23 which is Homecoming. They play at Indiana State Oct. 30, host Illinois State Nov. 6, travel to Bowling Green Nov. 13 and finally to Marshall at Huntington, W. Va. Nov. 20.

THE SALUKI WOMEN'S TRACK AND FIELD TEAM won the State Track and Field Title for 1976. Southern took up honors while setting two new state records. Mary Shirk established a new mark in the 400 meter hurdles and the mile relay team of Grace Lloyd, Brenda Bruckner, Carol Anderson, and Mary Shirk lowered the mile time. The whole season was a success for the track and field team as it also won the Illinois State Invitational, placed second at the Saluki Invitational, took third place at a Western Illinois Invitational and placed fifth at the Ohio State Invitational.

Southern was represented by five tracksters at the AIAW National Track and Field Championship. Mary Shirk, Peggy Evans, June Winston, Ann Stribling, and Sue Viscanage attended the National Meet. Mary Shirk was the only Saluki to advance to the semi-finals. Shirk was eliminated before the finals.

The women's Tennis Team ended its season with a surprising fifth place finish at the Regional Tennis Tournament. Only two SIU players, Sue Briggs and Sue Csapkay attended the nineteen-team tournament. Southern's Sue Briggs who was unseeded at the beginning of the tournament, played five rounds of strong consistent tennis to win the singles title. Briggs lost only one of the eleven sets she played. Briggs, whose record is 22-5 for the year, will attend the AIAW National Tennis Championship later this summer. Based on her regional win, Briggs might be seeded in the National Tournament. The Tennis Team ended its regular season with a 5-2 record.

The Softball Team finished third at the State Tournament although SIU was seeded fifth. The State Tournament was the conclusion of a 9-7 season. The junior varsity Softball Squad closed out a 5-4 season prior to the State Tournament.

The women's Golf Team played only four matches this Spring but were victorious in two of them. The Southern golfers won an Invitational at Notre Dame and a dual match with Southwest Missouri State. The golfers closed out their season with a seventh place finish at the University of Illinois Invitation and an eighth place finish at an Invitational at Marshall University.
1915  Orbus I. Leach, —2, is a supervisor for Shaklee Products in Kinmundy where he resides with his wife, Fernande.

1923  Lloyd Hiller, —2, is a pharmacist for Doctors Memorial Hospital in Carbondale.

1936  Edward W. Reed is the senior vice president and economist for the U.S. National Bank of Oregon. He and his wife Anna reside in Beaverton, Ore.

1941  Mrs. Julius L. Siskey (Margaret James), 1933—2, is retired from the Baltimore County School System after 20 years of teaching.

Alumni, here, there...

1943  Mr. and Mrs. Meryl T. Schroeder (Patricia Lill '43) reside in Mascoutah where she serves as president of the Memorial Hospital Auxiliary, an organization which raises money for the hospital and whose members have contributed over 900,000 hours of volunteer time. A firm believer in the gift of service being a person's most valuable contribution, Mrs. Schroeder also serves Southern Illinois University and the SIU Alumni Association as a member of the Association's National Board of Directors. A woman who admits she enjoys being busy, Mrs. Schroeder said, "I can buzz through my housework when I know it means having time to do what I really want to do."

1945  Robert J. Hastings, editor of the Illinois Baptist, a weekly newspaper, published by the Illinois Baptist State Association, has authored a new book about the Baptist life in Illinois from 1907 to 1976. He interviewed 20 Illinoisans, ages 11 to 91 for the book which is believed to be the first oral history of Baptists.

1947  Ken Medley is responsible for the final editing of Principles of Association Management, a book for the person who is seriously interested in having a part in shaping the future of the nation. In brief, it is "a textbook on the modern-day association, and how to manage an association successfully. Jointly published by the American Society of Association Executives and the Chamber of Commerce of the United States, it outlines and explains proven methods and techniques in all phases of managing an association.

1950  Robert C. Child, M.A. '52, has been appointed to a commission staff that will assist in a program that is examining areawide wastewater and water quality management planning. He and his wife, Frances Ann Andrew '51, reside in Carbondale.

1951  Donald Cross, MSED '58, has been named offensive line coach for Western Illinois University. In the past, Cross has held coaching positions at Illinois State and Southern Illinois. He is married to Susan Ludene Cross, ex '43.

Robert G. Stevens has been elected director, chairman and president of the BancOhio Corp., in Columbus, Ohio. Stevens is also a frequent writer and lecturer in the fields of banking and finance. He and his wife Susan A. Krejci '55, have three sons.

1952  James B. Campbell is director of marketing services for Blue Cross Hospital Service of Missouri. He and his wife Jane reside in Florissant, Mo.

1953  James W. Druby is president of Tel-Aid of St. Louis, Inc. He resides in St. Louis, Mo., with his wife Jane E. Barco, ex '53.

John D. French is practicing law in the metropolitan St. Louis area after graduating from law school in 1967. He and his wife Dolores McClintock French '52, make Bridgeton, Mo., their home.

1954  William L. Fisher has been nominated to be assistant secretary of the interior for energy and minerals. He will be responsible for the Bureau of Mines, U.S. Geological Survey and several other energy-related federal agencies. Fisher has been with the Department of Interior since 1975. He and his wife, the former Marilee Booth, ex '58, reside in Reston, Va.

1955  Mrs. Dixie Fortis (Dixie Lee Buyan) has been named Chicago's "Advertising Woman of the Year." She is vice president and associate creative art director of McCann-Erickson's Chicago office. She and her husband Jerry make Chicago their home.

1956  Mrs. Alma Hicks, M.S. '55, is a home economics teacher at Murphysboro Township High School. She recently supervised sessions of the Illinois Vocational Association's 47th State Convention in Chicago. She and her husband Herbert reside in Murphysboro.

Edmund D. Keiser Jr., M.S. '61, is an associate professor of biology at the University of Southwestern Louisiana. Keiser, who has been teaching for the past 19 years, is also a Zoological consultant for Lafayette Natural History Museum, a director for the U.S. Fish and Wildlife Service Survey, and a curator of over 27,000 specimens of reptiles and amphibians. He also has a large number of publications in his fields of study. He lives with his wife Patsy Oswalt, ex '60, and their two children Mark and Julie in Lafayette, La.

Lt. Col. Milton D. Moake has received his second award of the Meritorious Service Medal. He is serving as commander of the Organizational Maintenance Squadron of the 416th Bombardment Wing at Griffiss AFB, N.Y. His wife is the former Carolyn Harris, ex '55.

Robert Streuter has been elected president of the Illinois Bankers Association Consumer Credit Division. He is vice president of City National Bank in Murphysboro where he has been employed since 1970. He and his wife Corrine reside in Murphysboro.

1957  Lt. Col. Richard E. Fred has been decorated with the Department of Defense Joint Service Commendation Medal. He serves at Ft. Lee Air Force Station, Va., as assistant director of communications and electronics.

1959  Howard R. Rowland taught mass communications courses during spring quarter in Aalborg, Denmark at St. Cloud State University's study center there. Rowland is director of information services at St. Cloud State in Minn.

Donald F. Shotts, M.S. '60, has been named vice president of Owens-Illinois Inc.'s Glass Container Division. Shotts joined Owens-Illinois in 1960 as an industrial engineer. He was manager of manufacturing administration and support operations before being named to his present position. He lives in Sylvania, Oh.,
with his wife Marilyn K. Donatt, ex '59, and their three children.

1960 John C. Carlisle is a member of the English department at Purdue University's Calumet Campus in Hammond, Ind. He and his wife Patricia reside in Merrillville, Ind.

R. J. "Jerry" Maxwell has been named manager of retail stations in Ashland Petroleum Company's branded marketing department. He has been with the company since 1961.

Robert Stefl '63, M.S. '65, has been elected officer in the Illinois Art Education Association. Stefl is an assistant chairman of the art department at Illinois State University. He and his wife, Linda Disney Stefl '64, make Normal their home.

1961 Thomas E. Norris has been promoted to lieutenant colonel in the U.S. Air Force. He is a pilot at the Air Force Instrument Flight Center at Randolph AFB, Tex. He was commissioned at Southern Illinois University through the Reserve Officers Training Corps program and holds an M.S. degree in systems management from St. Mary's University in San Antonio, Tex. Col. Norris is married to the former Linda Matte.

1962 Joseph B. Halbiq is an associate professor at Hilo College in Hilo, Hawaii.

Howard L. Hood is the state's attorney for Jackson County. He and his wife Kathleen live in Carbondale with their two children, Christopher and Molly.

Maj. Billy J. Miller has graduated from Armed Forces Staff College at Norfolk, Va. This five-month Department of Defense school provides students with intensive education related to national and international security. He will be a logistics plans and programs staff officer. He and his wife Vicenta reside in Fairfax, Va.

In addition to his degree from SIU, Maj. Miller has his M.A. degree from Ball State University.

1964 Bernard Lee Allen, M.A., has been appointed dean of arts and sciences at Parkersburg Community College. He will also serve as the acting dean of occupational-technical programs there. He and his wife, Forrest, reside in Parkersburg with their two children.

1965 Capt. Jerry D. Drennan has graduated from the U.S. Air Force Instrument Pilot Instructor school at Randolph AFB, Tex. During the six-week course, he received advanced training in navigational aids and instrument flying techniques to prepare him for duty as a flight examiner and instructor for both jet and turboprop aircraft pilots. He has been assigned for duty with a unit of the Air Force Systems Command at Edwards AFB, Calif.

John A. Hotz Jr. has been promoted to manager of strategic planning and marketing research for TRW Mission Mfg. Co. He and his wife Sandra make Houston, Tex., their home.

Attha Hunt has been appointed assistant professor in Chicago State University's College of Business and Administration.

Bill W. Stacy, M.S., Ph.D., '68, has assumed the position of dean of graduate studies at Southeast Missouri State University. Stacy has been serving there as professor of speech and as part-time assistant to the president. He has been with the university since 1967.
1966  J. K. BHATTACHARJEE, Ph.D., served as a member of a delegation of U.S. scientists at a conference of the US-USSR Scientific Cooperation in Microbiology and Molecular Biology in Leningrad, USSR, last November. He is a professor of Microbiology at Miami University. Bhattacharjee has authored many research publications. He and his wife Tripti make Oxford, Oh., their home.

KENNETH R. FRIESS and his wife Christina own and manage Carbondale Bowl, Inc. They have two children, Debra and Kenneth.

JOSEPH C. GAUSS, M.S., is a project geologist with the Amco Production Co., in Chicago.

LARRY HUGHES has been elected 1976 president of the Greater Marion Area Chamber of Commerce. Hughes works at the Mitchell Funeral Home. He and his wife, DIANE CRONIN '66, reside in Marion.

TIMOTHY J. KILLOREN has been promoted to comptroller of the DuPage County Health Dept. He and his wife Valerie reside in Lisle.

WILLIAM LOHMAN, MSED '67, is a media specialist for the Illinois Office of Education. He and his wife, CLAUDIA G. LOHMAN '69 live in Springfield.

EDWARD J. TIMMERMANN works for IBM Headquarters in New Jersey. He and his wife June reside in Ramsey.

1957  JON CARLSON, M.S. '68, has accepted a post as director of a new guidance and counseling program at the University of Hawaii. Carlson will work with the university and the State Department of Education on six islands, training personnel in more effective techniques in counseling and teaching children. He is the author of four books and will be working on a fifth while in Hawaii. He and his wife Laura have two children.

CHARLES I. CARTER has been appointed sales manager in the Metropolitan Life Insurance Co., Carbondale office. Carter has been with the company since January, 1975. He lives in Carbondale with his wife, EDWINA P. CARTER, '68, MSED '75.

THOMAS L. ISBELL, M.A. '68, Ph.D. '75, is co-author of an essay that appeared in *Studies in Interpretation*. In the essay the authors discuss language theory, attempting to fill a gap existing in articles and texts concerned with the oral interpretation of literature. The volume, which contains 21 essays by college educators from around the nation, is now available. Isbell is presently an assistant professor of speech at the University of Southwestern Louisiana. He and his wife, the former JOAN SIMMER-MACHER '68, M.A. '75, reside in Lafayette, La.

JEROME SELIGER, M.S., has been appointed director of an accelerated B.A. degree program in community services/mental health at Immaculate Heart College. The program is designed for people who work in schools, health or social service and provides supervised field work on the job training. Seliger is also a management training consultant to businesses, and public and private organizations. He was formerly coordinator of special programs at UCLA extension. He and his wife Carol reside in Los Angeles, Calif.

KARL J. SHERMAN, M.S., is on the faculty of Lake Superior State College, where he teaches accounting. He and his wife Sally have three children.

CAPT. JEROLD W. WILEY is an AFROTC instructor at the University of Wisconsin in Madison. He is married to BARBARA ANN HILL WILEY '67, M.S. '69.

1968  WILLIAM R. ADAMS has been

**The Colonel**--an Active Alumnus in Taiwan

All alumni clubs would do well to match the enthusiasm and dedication of the Taiwan club. Deep in the heart of the Republic of China, some 30 Salukis are headed by Colonel CHU CHEN-HUA, MA '67.

"People call me 'the Salesman for SIU' because I always mention SIU whenever I talk on higher education and development of university in the States," he said. "I am so proud of so doing, too."

A retired Lt. Colonel, Chu is very dedicated to his work as president of the Taiwan SIU alumni club. As a charter member of the club and in his present capacity, he has welcomed many SIU friends, one of the last of which was WILLMORE B. HASTINGS, MA '61, who visited "the Colonel" in late 1975.

One of the very few authorities in mass communications in the Republic of China, Col. Chu is also recognized as a columnist, humorist and free-lance translator for the *Reader's Digest*. In addition, he is known as a writer, linguist, radio-TV commentator and public relations expert.

In 1973, he became chairman of the journalism department at Political Warfare College in Peitou.

Presently, as a college professor and chairman and formerly in his position with the Republic of China Army, Colonel Chu has engaged in a great deal of travel. Therefore, he fully understands the meaning of hospitality and in behalf of the Taiwan club extends an open invitation to Saluki travelers.
promoted to national field engineering manager for the control systems division of Powers Regulator Company in Shokie. He and his wife Adele make their home in Arlington Heights.

William A. Johnson has been appointed head of the livestock management technology program at Blackhawk Technical Institute in Jonesville, Wis.

Donald E. Kirkland is a cashier at Chirnney State Bank in Chirnney, Ind. He, his wife Donna and their two children reside in Rockport, Ind.

Martin W. O'Neil is deputy audit manager of the northern area audit group of the United States Environmental Protection Agency in Chicago. He is also treasurer of the Chicago chapter of the Association of government accountants and serves as state treasurer of the Illinois division of the Izaak Walton League of America. O'Neil and his wife, Lynda, make their home in Matteson.

1969 Terry W. Finley, M.S., J.D. '75, is one of the first graduates of SIU's law school. While Finley was working on his degree here, his wife Janet was living in Moline and teaching first grade. The couple drove an estimated 50,000 miles between Carbondale and Moline in order to spend weekends and breaks together during the five semesters that he was in school. "I don't think of it as any great feat," Finley said, "just a lot of work." Finley hopes to practice law in the Quad Cities area.

James R. Harrington, M.S., has been awarded the American Society of Interior Designers educators' grant. This will enable him to attend the 1976 British Attingham's Summer School where he will study historic English country house architecture, interiors, and furnishings. Harrington is an assistant professor at the University of Georgia.

Gary G. Hartlieb, MSED '71, teaches English at Murphysboro Township High School. His wife, Karen A. Twitty, ex '68, is working on a degree in governmental public relations. The Hartliebs and their two children reside in Carbondale.

Richard W. Kehlenbach Jr., M.S., is area geologist with the Amoco Production Company in New Orleans, La. He and his wife Joan have two children, Kirsten and a new baby, Katie, born in October.

Merrett Lynn Litherland is an insurance agent for Country Companies Insurance in Benton. His wife, Nancy Jo Litherland '72, is substitute teaching in the West Frankfort elementary schools. They reside in West Frankfort with their two daughters.

Richard Moncton is working on coal and oil shale development for Cameron Engineers, Inc. He lives in Aurora, Colo.

Silas P. Singh, M.S., Ph.D. '72, has been named director of Illinois activities for the White House Conference on Handicapped Individuals. Singh is currently the director of the Governor's Committee on the Handicapped. He was formerly an assistant professor and assistant to the dean of student services at SIU. He, his wife Joanne Singh, ex '72, and their two-year-old daughter make Springfield their home.

William C. Walker is an operations officer for the Northern Trust International Banking Corp., in New York. He and his wife Anamaria reside in Scotch Plains, N.J.

Mrs. Audrey Wattler is an assistant professor of home economics at Morehead State University. She and her husband John J. Wattler '65, M.S. '68, have one daughter, Lara.

Gary R. Wheeler is a teacher in the Harrisburg school system. He and his wife, Patricia J. Rawson Wheeler '69, MSED '74, and their son, Matthew reside in Carterville.

1970 James E. Davis is branch manager of the Atlanta office of National Homes Acceptance Corp. He and his wife, Kathy R. Nobbe '70, will make Tucker, Ga., their home.

Capt. Steven M. Henman is an aircraft commander in the U.S. Air Force. He and his wife Linda G. Whiteside '70 reside in Charleston, S.C.

Arthur Kaliski is an established flower photographer. Four of his flower photographs were displayed in Cartier's window in New York City. Kaliski lives in Northport, N.Y.

Thomas E. Leidenheimer is a medical technologist at Wadsworth Veterans Hospital in Los Angeles, Calif. He, his wife Sandra Clark Leidenheimer '69, and their two-year-old daughter reside in Culver City, Calif.

Kathryn Papellis is a real estate salesperson for J. R. Parrish in Carbondale.

Emmet D. Roth is manager of retail and landscape divisions of Wolf Creek Garden Centers, Inc., in Trotwood, Oh. He and his wife Debbie reside in Centerville, Ohio.

Walter E. Saal is a manufacturing supervisor for Caterpillar Tractor Company in Davenport, Ia.

1971 William P. Asa has been promoted to sergeant in the U.S. Air Force. He is an electronic-mechanical communications and cryptographic equipment systems repairman with the Air Force. He is married to the former Marlene Sanders and they have a daughter Angela Dawn.

William W. Caraway, STC, is the vice president of Caraway Auto Supply, Inc., in Murphysboro. He lives in Murphysboro with wife Janet and their son Jason.

Louis G. Ceci, MSED '72, teaches speech and English at Benton Consolidated High School. He has been a member of the faculty there for four years. He coaches readers' theater, debate and drama at the high school.

David K. Lawson has been appointed parts and service merchandising manager for International Harvester in southern Illinois. He and his wife Robin have one son, two-year-old Scott.

Gerald L. Myers is an accountant for Central Illinois Light Co., in Peoria. He and his wife Janet reside in Morton.

Michael Schmelenberger is a probation counselor for Montgomery County Juvenile Court. He and his wife, Barbara Schmelenberger '71, reside in Montgomery, Ala.

Caryn Schmidt is vice president for Keele Interiors in Santa Monica, Calif. Schmidt was formerly with Creative Designs Ltd., in Chicago. She has extensive experience in decorating model homes, private residences, offices, building lobbies, and reception areas.

William T. Schram is senior staff advisor for Morton Norwich Products. He and his wife Elizabeth reside in Oak Park.

1973 Steven L. Mishler, STC, is a mechanic for the Woodstock School District 200. He and his new bride, Kim, were married on May 17 of 1975, in
Crystal Lake, and now make their home in Woodstock.

LYNNE THOMPSON is an acting student at the Circle in the Square Theatre in New York, N.Y.

JAMES RICHARD YORK is the chief of police for the Village of Norris City, where he and his wife, June, reside.

H. DAN ZWICKER makes his home in Bloomingdale where he is the assistant director of commodity programs, information, and education for the Illinois Agricultural Association.

1974 MARCIA N. DUMAS is working as a job developer for the south region of Illinois Migrant Council. She is responsible for referring migrants to full-time jobs in the counties of Vermilion, Ford, Iroquois and Champaign.

MARGARET K. GOODMAN is a graphics specialist for AT & T Long Lines in Chicago. She makes her home in Danville.

MARCUS JACKSON is staff engineer for the Kansas City Power & Light Co. He and his wife, the former BRITT ANN JOHNSON '74, make their home in Harvey.

JOHN P. JENNETTEN Ph.D., is director of the office of student work and financial assistance at SIU-Edwardsville. He and his wife, Judi, and their two sons make their home in Edwardsville.

W. KEITH KRAUS Ph.D., is assistant chairperson for the department of English, Shippensburg State College in Shippensburg, Pa. He was selected as one of the 21 state college faculty members to be awarded cash stipends by the Pennsylvania department of Education in recognition of distinguished teaching and academic service. Kraus was given the Distinguished Teaching Award for his unique method of instructing literary research. Kraus and his family reside in Shippensburg, Pa.

PATRICK J. RYAN has been nominated for a Pulitzer Prize in photography by his newspaper, Pacific Daily News, for a portfolio entitled "New Life," a pictorial essay he compiled on Vietnamese refugees stationed at Guam before their relocation in the U.S.

HEIDI ANN SCHNEIDER is an Eastern Airlines flight attendant. Before working for Eastern, she was a cosmetic coordinator for Charles Weise Company, Rockford.

1975 RICHARD W. HONKE M.D., is a pediatric intern at Brooke Army Medical Center in San Antonio, Tex. He plans to take up family practice in the Dakotas later on.

MRS. TRUDY HUBBELL, MSED, was named Young Career Woman by the Christopher Business and Professional Women's Club. A teacher at Christopher Elementary School, she was chosen because of her significant achievement in her career area and her outstanding contribution to the community.

Master Sergeant CLUNY MACPHERSON is a C-141 Starlifter flight engineer at Charleston AFB, S.C. He graduated from the Military Airlift Command Noncommissioned Officer Academy at Norton AFB, Calif., with the Honor Graduate Award for overall outstanding performance and received advanced military leadership and management training.

LARRY A. PATCHETT is a field engineer for General Electric Technical Service Co., in the company's overseas program.

Tom Porter is an instructor in photography at Virginia Western Community College, in Roanoke, Va. One of his photographs was published in the December issue of the Professional Photographer. He has received numerous awards and merits for his photography.

AL SHAPIRO lives in Nye, Mont., where he is working as a geologist in platinum for Johns Manville Corp.

Deaths

1931 Miss JULIA BULMER, -2, died March 12, in Union Hospital in West Frankfort. She was a retired teacher who taught for 44 years at Edwards School in West Frankfort. Survivors include a brother and a sister.

Mr. RAIMAN W. DAMRON, 23-2, died February 13. He was superintendent of schools in several southern Illinois communities and retired eight years ago from a position as division manager and a vice president of Field Enterprises in Chicago. He is survived by his wife, Helen, and one daughter.
1. Have your coveted SIU degree(s) reproduced on a handsome silver satin finish metal plate mounted on an 8 x 10 walnut base. Just send your diploma(s), other certificate, document or license with a check or money order, and your plaque and unharmed document(s) will be returned to you postpaid. Please allow two weeks for reproduction. Satisfaction guaranteed. Mail diploma with $24.95 check and your name and address direct to: Associates Engraving Company, Inc., 2731 N. 31st St., Box 3606, Springfield, Ill. 62708.

2. A 7½ oz. set of eight SIU glasses with chip resistant rims, weighted bottoms, and baked on crest and lettering. Cost of $8.00 includes handling charges, packaging, postage and tax.

3. SIU Sweatshirts. These long-sleeved easy-to-care-for cotton and polyester sweatshirts may be machine washed and tumble dried. Available in children’s (C) sizes M, L ($5.50) and adult’s (A) S, M, L, X-L ($5.95). Be sure to state maroon with white letters or white with maroon letters. Price includes postage and tax.

4. A walnut-framed shadow box wall plaque, 6½” x 7½”. It has a Saluki maroon velour background with a white metal silver finish, deeply etched with raised letters. An ideal gift for yourself, spouse, friend or relative, $23.90 including tax and shipping. If both husband and wife are alumni, the second name and year(s) may be added for $1.00. Allow two weeks for production. Send to: SIU Alumni Office, Southern Illinois University, Carbondale, Ill. 62901.

5. SIU Playing Cards. Featuring the finest patented Redi Slip plasticized finish which resists wear and can be wiped clean with a damp cloth, SIU playing cards are the perfect gift. One deck backed in white and gold, the other in maroon, white and gold—both with the SIU seal in gold. With an extra joker for canasta in each deck, they’re packed in a twin-tuck gold carton and mailing case. Only $3 a set, Illinois residents add 5% sales tax.

6. Custom designed rings for SIU alumni are available in gold and in Siladium. Siladium is the result of a three-year development program to produce a better than gold ring at a lower than gold price. It looks just like white gold but is stronger and will not tarnish. Rings available: Traditional Oval Ring—Style: LC $83.00 (Gold) $117.50; Modern Ladies’ Ring (5-point diamond $22.00 extra)—Style: CSXH-338 $55.00 (Gold) $69.00; Elegant Dinner Ring with graduation year and degree on sides—Style: FSCB-675 $60.50 (Gold) $77.50. (All sales add 5% tax.) All rings available in any stone. No deposit required, ring will be shipped to you C.O.D. Prices are subject to slight change without notice. Greek letters and SIU inlay available. Be sure to include finger size, grad year, degree, initials, inlay instructions (if desired), style, stone selection and whether you want it smooth or faceted. Also indicate whether you want a gold or a Siladium ring.

7. SIU Glasses. A 12½ oz. set of eight glasses with chip resistant rims, weighted bottoms and baked on crest and lettering costs only $8.00. This price includes handling charges, packaging, postage and tax.

8. SIU T-Shirts. These cotton knits in the SIU colors with SIU imprint are available in children’s (C) sizes M, L and adult’s (A) sizes S, M, L, X-L. The choice of colors and styles includes: maroon with white letters @ $3.00, white with maroon letters @ $3.00, maroon with white letters and edging @ $3.25 and white with maroon letters and edging @ $3.25. These prices include tax, postage and handling.

9. SIU Mugs. A 17 oz. set of four glass mugs that have chip resistant rims, weighted bottoms and baked on crest and lettering is priced at only $8.50. Price includes postage and tax.

10. License Plate Frames. Custom-made plate frames are now available for you. These sturdy frames are beautifully styled, tool and die cast, triple chrome plated and finished in brilliant SIU colors. Only $5 a pair. This price includes handling charges, packaging, postage and tax.

Those listed above completed life memberships in the SIU Alumni Association during the past two months before deadline time. If you are a member of the Association or qualify for membership, perhaps now is the time for you to consider joining the more than 2500 alumni who already have life memberships or are working toward them. Cost is $125 (minimum annual installment payment $25 over five years) or $150 (minimum annual installment payment $15 over ten years) for a single life membership. Family life memberships (if both husband and wife are alumni) are $150 (minimum annual installment $30 over five years) or $175 (minimum annual installment $17.50 over ten years). Benefits begin immediately. Life membership payments go into a permanent endowment, the interest supporting alumni activities in perpetuity.
