SPORTS

14% cut in men's program

SIUC President Albert Somit has spelled out details of a trimmed down athletics program for the school next year that includes fewer football scholarships, cuts in all men's sports except basketball, "modest gains" for women's athletics, and renegotiation of two road football games that includes fewer football scholarships, SIUC's full-time students pay $30 each semester to support the school's intercollegiate athletic programs.

income from the fee represents about 47 percent of the athletics budget.

The board is scheduled to act in April on continuing the fee increase. Trustees first approved it for one year with the condition that SIUC study the entire scope of its intercollegiate athletics programs and determine what directions they should take in the '80s.

A special commission organized by former SIUC President Hiram H. Lesar undertook the study and turned in its report late last year. A basic recommendation was that SIUC should "limit itself to an intercollegiate athletics program which it can afford," while assuring that women athletes receive equal opportunity and that minor men's programs aren't destroyed.

Joe Gottfried reign ends
Coach quits after worst year

Southern Illinois University at Carbondale launched a search for a new basketball coach early in March after the season-ending resignation of Joe Gottfried.

The 40-year-old Gottfried, Saluki basketball boltman for three years, quit amid the wreckage of a 17-game losing streak and the prospect of the school's worst-ever season.

Announcement of the resignation came at a March 3 press conference, three days after the Salukis' regular season finale, a 72-67 loss to Drake in the SIU Arena. The Salukis went on to play Wichita—and suffer their 18th straight loss—in the Midwest Valley Conference post-season tournament the night of March 3. Gottfried did not make the trip; assistant coach Rob Spivery coached in the tourney.

By the time this edition of the Alumnus hits the press, a new coach may have been named. Athletic director Larry Scott said he wanted a replacement no later than April 1 in order to give the newcomer some time to pound the recruiting pavement before April 14, national letter-of-intent day for prep players.

The search narrowed down to three finalists March 24. In the field were Joe Ramsey, Millikin coach and former SIUC star; Jack Margenthaler, Pincnheynville native and head coach at Western Illinois; and Allen Van Winkle of Jackson (Mich.) Community College.

George Mace, vice-president for University relations, said the search group would be looking most closely at coaches with "potential" from prep, junior college, college division and Division 1 assistant ranks. "We simply don't have the resources to go after a successful Division 1 coach, with the high salaries and attendant fringe benefits such coaches command," he said.

In the resignation announcement, Gottfried said his move was "in the best interests of the players, the program and my own career expectations." Sayers said he wasn't surprised, but that Gottfried's "experience this year has been one that none of us could have foreseen."

For the first time in nearly 30 years, there won’t be a Kappa Karnival at SIUC this spring. The Kappas themselves have kicked off the campus.

University officials dealt the Kappas Alpha Psi fraternity a five-year campus suspension early in February after two fraternity officials allegedly admitted that the group had broken rules for recognized organizations. Among University community trustees was dismissed late in February.

A mid-February fire touched off by a blowtorch ignited the 43-year-old Varsity Theater in downtown Carbondale. The fire, which broke out near noontime when sparks from a construction worker’s torch traveled through metal conduit and ignited seats stacked up in the main auditorium. Work on a new addition to the theater was under way at the time.

The theater was under way at the time.

Frat dropped for five years

Overdue bills, other violations are cited

**Mrs. Morris to win DSA**

**Honor to be awarded at May commencement**

The “First Lady” of SIUC during the tenure of one of the most prominent presidents will receive the University’s Distinctive Service Award during commencement ceremonies May 16 at the Southern Illinois University-Carbondale.

Dorothy Mayo Morris will be recognized for “devoted and exemplary” service during the 22-year (1948–1970) presidency of her husband, Delyte W. Morris, and her achievements in this decade. The award cites Mrs. Morris’ long involvement in SIU life, including her role as official hostess and figurative matriarch of a family that included thousands of students and faculty members as well as her own husband and sons.

Out with the old: Davies job a gym dandy

By Gene Charleton

Botanists at Southern Illinois University believe they've transplanted from the Caribbean Sea to culture jars in their land-locked Illinois laboratories will turn out to be a potent poison.

The scientists won't settle for just any poison—they hope the microscopic organism will prove to be the source of a high-powered neurotoxin called ciguatoxin.

Ciguatotoxin can be found in many varieties of reef-dwelling food fish, such as yellowtail, red snapper, salmon, and hamaca, a member of the group family, caught in the Caribbean and other warm waters. The organisms being studied at the SIUC laboratories are related to those responsible for the recent outbreak of so-called red tides in the South Pacific. Ciguatotoxin poisoning, which causes the “red tide” phenomenon, occurs when dinoflagellate algae bloom and begin to produce ciguatoxin. The bloom of these algae results in fish eating smaller food fish known to contain the toxin. The smaller fish then become contaminated with ciguatoxin, which is transferred to larger and even larger fish that eat them.

The ciguatoxin comes from the dinoflagellate algae and causes symptoms of ciguatera poisoning range from nausea to mental disorientation, paralysis and, in some cases, death. There’s no cure for the disease once it strikes, and physicians currently simply treat its symptoms to keep the patient comfortable while the disease runs its course.

Tindall says the only way to avoid ciguatera poisoning seems to be not to eat fish from waters infected with ciguatoxin, even though people now eat only a relatively small proportion of fish in an “infected” region probably carry dangerous amounts of the toxin.

The precaution works, Tindall said. “It works reasonably well, but occasionally people still get poisoned by fish from historically ‘clean’ areas.”

Working out of laboratories at SIUC and a field station at Virgin Gorda in the British Virgin Islands established several years ago by Norman Doorenbos, dean of SIUC’s College of Science, the scientists have been collecting and isolating potentially toxic organisms for the past year. They’ve been working closely with a research team from the College of the Virgin Islands in St. Thomas headed by J. P. McMillan. The CVI research team has been working on the ciguatera problem for some time.

Scientists at SIUC have tracked down a dinoflagellate (above) they suspect may be the source of a deadly toxin that plagues the rich Caribbean fishing grounds. The tiny organism is greatly enlarged in scanning electron microscope image.

By Gene Charleton

With contractors brush on the last coat of paint sometime in 1982 to wrap up the $3.5 million reconstruction of Southern Illinois University-Carbondale’s 55-year-old Davies Gymnasium, the venerable structure will be something old, but mostly new.

The brick athletics facility, which housed SIUC’s men’s intercollegiate athletics programs before the 35,000-seat arena went into operation in 1964. Since then, Davies has been home for the University’s women’s intercollegiate athletics and physical education programs.

It also had become something of a swimming pool. The roof leaked and gym floors buckled from moisture, electrical and plumbing systems functioned erratically. Administrators and teachers complained about not enough air conditioning in the summer and not enough heat in the winter.

State fire officials declared fire exits inadequate.

All that is going to change, Haake says.

The catalog of scheduled improvements reads like this:

—new floors and acoustical tiling in the building’s two gymnasia;
—new 3,000-seat bleachers in the main gym;
—new offices for physical education teachers and women’s athletics administrators;
—new training facilities and locker rooms;
—new exercise and dance studios.

In addition, three new staircases will be built between the building’s ground and second floor to serve as access and fire exits. One stairwell will include an elevator to give handicapped persons access to the upper floor.

Other less visible items included in the renovation include new electrical and plumbing systems, a new energy-efficient heating and air-conditioning system, additional roof and wall insulation, new storm sashes on windows and a newly-waterproofed roof.

Haake said the heating system will use hot air exhausted from locker rooms to pre-heat incoming air during winter months. This heat recovery system should save energy, he said.

Contractors began gutting the building in mid-January and the project is scheduled to be completed a year from this June.

Put Chicago on your summer agenda

Cubs, Alexander exhibit on tap for alumni

The Chicago Area SIUC Alumni Club will sponsor an SIUC Day at Wrigley Field July 18 when the Cubs entertain the Atlanta Braves. SIUC section tickets, located behind home plate, are $5 each and may be ordered from George Loukas, at the Cubby Bear Lounge, 1009 Addison, Chicago 60613.

The exhibit, to be shown only at four locations in the United States, includes approximately 100 rare objects. It is considered to be the most important assemblage of artifacts to leave Greece and features items dating to the 4th century B.C., related to the life of Alexander the Great and his father, King Philip II.

No specific date for the lecture-tour has been set. Those interested should get in touch with the SIUC Alumni Office.

Three Class of '80 grads at alumni council

The Class of 1980 has elected three of its graduates as representatives to the Alumni Association Legislative Council. They are: David L. Mees of Bloomington, class representative; Charles A. Marx Jr. of Lombard, first alternate; and John T. Eileen of Carbondale, second alternate.

Mees, a Carbondale native, was graduated with a bachelor's degree in mathematics. He won the Glenn (Abe) Martin award in 1979 as the outstanding student in the College of Education and was the "Outstanding Senior in Mathematics" in 1979-80. He was president of Pi Lambda Theta and national student vice-president of Phi Mu Epsilon. He is a member of Phi Kappa Phi.

A native of Virden, Marx was a University scholar and a member of the Phi Kappa Phi fraternity. He's now a medical student at SIUC.

Eileen was graduated with a bachelor's degree in accounting. A Downers Grove native, he won the College of Business Administration Student Leader Award in 1979. He is a member of Beta Gamma Sigma and Beta Alpha Psi.

The Alumni Legislative Council is the basic governing body of the SIUC Alumni Association. It is composed of representatives of all graduating classes, geographic area clubs and the constituent societies.

Jim Brady, Reagan press aide, attended SIUC

President Ronald Reagan's new press secretary is a former SIUC student.

James Brady, a Centralia native, attended SIUC for three terms in 1965 while pursuing a master's degree in political science.

The only son of a railroad yardmaster, Brady was graduated from Centralia High School in 1959 and attended the University of Illinois in Champaign, where he received a degree in communications and political science in 1962.

Achievement, teacher awards nominations due

Nominations for the 56th annual Alumni Achievement Awards should be sent to the SIUC Alumni Office no later than June 30.

The awards are presented in two categories: (1) outstanding professional achievement and (2) outstanding service to the University and/or to the SIUC Alumni Association.

Any graduate or former student is eligible except the current Alumni Association president, members of the University and/or the SIUC Alumni Association.

The deadline for the Great Teacher ballots is Aug. 1.

Send the Great Teacher ballots and the Alumni Achievement Awards ballots to the SIUC Alumni Office, 517 Alumnique, Carbondale, Ill., 62901.
The name may be genuine Midwestern USA, but at SIUC the outlook is definitely international—and has been for almost 35 years.

Ever since SIUC enrolled its first student from another country (officially think it was a woman named Chang Nuk Whan, from Korea) in 1946, teaching, research and service on an international scale have been a part of life at the University. It's an idea which has taken SIUC teachers and technical experts to such places as Afghanistan, Brazil, Mali, Viet Nam and points between. It's also brought thousands of students from most of the nations of the world—more than 1,600 in 1980 alone—to study at SIUC.

It didn't happen overnight. In 1951, some 16 students from 14 nations were in class at SIUC. In 1952, the departments of geography and anthropology offered the University's first international language training programs for that country's service; to Mali to help upgrade elementary and secondary school teaching; to Afghanistan to help set up a nationwide program of vocational-technical training.

In 1966, University experts went to Nepal to set up a national vocational training center which would supply "practical education" in agriculture, trades, secretarial skills, home economics, mathematics, sciences. In 1969, it was a UN Food and Agricultural Organization-sponsored effort by SIUC's School of Agriculture to help Brazil's Federal University of Santa Maria with a variety of agricultural programs, and another FAO-sponsored effort in Thailand.

Current international activities on SIUC's agenda range from a four-year $2.2 million Agency for International Development-backed effort to set up a nationwide radio-linked teacher training system in Nepal to a $500,000 multinational program aimed at helping developing nations improve their food-production skills.

Nearly 20 cooperative agreements also are bringing faculty members from universities in countries such as Thailand, Iraq, Egypt, Japan, Poland, Romania and Nepal to study at SIUC and sending SIUC professors to those countries to lecture and do research.

University faculty scholars continue to participate in the Fulbright scholarship program, which will send at least four SIUC faculty members abroad for study and research this year.

### Equipment firm executive named Outstanding Alum in agriculture

The vice-president of a major farm equipment firm has been named 1981 Outstanding Alumnus of the SIUC School of Agriculture.

Cecil J. Stralow, vice-president and assistant general manager of AVCO New Idea Farm Equipment Inc., accepted the annual award on April 27 at the SIUC Student Center.

Stralow, who's frequently cited as an aggressive and innovative agricultural marketer, moved up to his present position in the Coldwater, Ohio, firm earlier this year. He joined the firm in 1979 as vice-president of worldwide marketing. AVCO is a division of the Paul Revere Corp.

Earlier he worked for the Case Tractor Co., in charge of sales in the Caribbean area, and for the Caterpillar Tractor Co., in the firm's European sales office.

A native of Morrison, Stralow earned a bachelor of science in agricultural industries in 1970.

The award was presented by SIUC School of Agriculture Dean Gilbert Kroeving.

William A. Doer, assistant dean for instruction at the School of Agriculture, was chosen by the School's alumni for the Faculty Service Award.

The annual award recognizes faculty members who make "a lasting impression on alumni" through teaching, research and service.

Doer joined the SIUC faculty in 1965 as a supervisor of the University Farm. He has served as director of international programs for the School and was coordinator of a long-term education project in Brazil in the 1970s.

Sports

Spring, baseball Salukis arrive

Speed, strong defensive play in the infield, good contact hitters, inexperienced pitching staff and outfield.

Prior to the scouting report on coach Richard (Itchy) Jones’ baseball Salukis, who are slated to open their 1981 home schedule March 25 against Greenville College at Abe Martin Field.

Jones, who carries the third best winning percentage (.776) among active collegiate coaches into the current campaign, expressed early-season pleasure with the progress of his charges after five games of their 11-game Florida trip.

Senior Bobby Doerr will anchor a值班 infield. The speedy second baseman hit .296 last season and stole 16 bases. Doerr turns the double play well and has been consistent in the outfield twice in 34 career attempts. He played for Kelasi in the Alaska league last summer.

At first base, Jones will go with junior college transfer Kurt Reid, a top-notch defensive player who hit 14 home runs at Menomonie Community College in St. Louis last season.

Another jucr transfer, Mike Mesh, will move into the starting shortstop slot. He’s been touted as one of the best defensive shortstops to play for Jones — no small recommendation. Mesh played at Long view JC in Missouri last season.

Joe Richardson, who played both outfield and catcher for SIIIC last season, will take over third base from Bill Lyonse, who is now with the Milwaukee Brewers organization. Richardson, a sophomore, hit .286 last year. He has a good arm and can hit for power.

Sophomore Paul Schranz is expected to see action in a reserve role behind Doerr and Mesh. A .259 hitter last season, Schranz also can play the outfield, and is likely to get the starting nod in right field most of the season. He is injury recovered from the blood clot in his shoulder that sidelined him during the Missouri Valley Conference Tournament last season.

Center field will be occupied by speedy junior Corey Zawadzki, a transfer from Broward Community College in Fort Lauderdale, Fla. A ninth-round draftee of the California Angels in 1979, Zawadzki stole 45 bases in his first season, his first jucr career under former SIIIC standout Larry Calufetti.

Jones compares Zawadzki to former Saluki outfielder Kevin House, now playing wide receiver for the Tampa Bay Buccaneers. Speed-wise the two compare favorably. Zawadzki appears to have a bigger arm than House and may be a better hitter.

Left field belongs to Addieville native Eric Blumhorst and he’ll have his hands full making SIUC fans forget the Salukis’ 1980 outfield trio of Paul Onito, Jim Adduci and Gerry Miller, all professionals now. They combined for 36 homers and 142 RBIs last season, while batting .306.

Senior Gary Kempton, who has been drafted three times this year (Cincinnati twice and St. Louis once) will handle most of the catching chores. A Triton College transfer who hit .322 for the Salukis last season, Kempton is an outstanding defensive catcher with a strong arm.

Jones looks for more offensive fireworks from Kempton this season.

He’ll have his hands full with a youthful pitching staff. The Salukis lost their top hurler, Bob Schroeck, to the pro baseball draft (Milwaukee).

Returnees include starter-turned-reliever Paul Evans, whose 1980 statistics were a big disappointment (4-2, 4.74 ERA) after a sensational sophomore season (7-0, 0.84 ERA).

Also back are lefty Bob Clark, who posted a 4-2 record in 10 starts for SIUC last season; Harold Brown (5-3, 3.52 ERA); Jerry Halstead (4-2, 4.15 ERA); and lefthander Rick Wysocki (1-2, 3.51 ERA).

Second baseman Bobby Doerr legs out a bunt single.

SIIIC’s women’s gymnastics team, fresh off a first-place finish in the Illinois AIAW meet (March 15) at Urbana, was turning up for the Midwest AIAW Regional Championships March 26-29 in East Lansing, Mich., and a possible shot at the nationals.

The Salukis gave coach Herb Vogel his 18th consecutive winning season by taking three of five dual meets to close out the regular season.

In meets March 6-8, SIIIC defeated Illinois 134-2-132 at Urbana, lost to Chicago Circle 138-45-138.6 in Chicago and defeated Iowa 138.5-131.7, while losing to Missouri 140.55-136.8 in a double dual at Columbia.

Sophomore Lori Erickson and junior Val Painton paced the Salukis with consistent all-around performances in each of the meets.

Painton and Pam Turner finished 1-2 in individual events at the state meet, and were joined by Erickson on the Illinois all-state team.

The Salukis shaded Illinois-Chicago 140-4-138.2 for the meet championship. SIIIC was ranked 13th nationally entering the Midwest regional.
The 2008-81 basketball season proved a long one for Saluki fans. An 18-game losing streak—the longest in school history, as well as the longest Division I loss streak in the nation this season—ended in February in Carbondale. Immediate elimination in the conference post-season tournament. And, finally, resignation of head coach Joe Gottfried, whose three-year efforts failed to produce the winner SIUC fans had grown used to.

Season's results

• Valparaiso 59, SIU 50
• Tennessee 99, SIU 50
• Indiana State 97, SIU 89
• SIU 88, Drake 77
• New Mexico State 71, SIU 70
• Drake 77, SIU 69

The Salukis got their outdoor season off to a good start by capturing Northeast Missouri Conference indoor championships Feb. 27-Aug. 1 in Bloomington's Horton Field House.

Lee's first-place finishes (60-yard hurdles, intermediate hurdles, long jump and triple jump) helped power Salukis to a runaway 162-04 victory over runner-up Illinois State. Indiana State and Drake tied for third with 66 points, and West Texas State (48), Bradley (39) and Wichita State (31) trailed. Tulas failed to advance.

The victory extended coach Lew Hartung's domination of Valley Track. The Salukis have captured every Valley outdoor title since joining conference competition in 1976, with the exception of the 1979 indoor crown that eluded them when they were prevented from competing by a Carbondale blizzard that made air travel impossible.

Host Illinois State was expected to give SIU a stiff challenge, but the Salukis bettered ISU competitors in several of the Redbirds' strongest events, including the 440-yard dash, 1000-meter run, high jump and mile.

Strong SIU performances in those events "took the hearts out of Illinois State," according to Hartung. He said he got "100 percent effort from 98 percent of the people we took up there".

And most impressive were the efforts of Lee, defending NCAA intermediate hurdles champion who won two events—the long jump and triple jump—despite the fact he seldom practices these events because of fear of injuring himself and his chances of a repeat NCAA hurdles crown.

Steven Wray, SIUC's second high jumper, soared 7-2¾ for first place and a Valley record. Other outstanding performances were contributed by Jack Guglielmo (second in the 440); Lance Peeler (third in the 440); Karsten Schults (third in the 1000 meters and second in the 5000); John Sayre, Jim Sullivan and Andy Geiger (first and third in the triple jump); and John Smith and Ron Marks (second and fourth in the shot).

Hartung took Lee, Wray, Sayre and Schults to Detroit March 13-14 for the NCAA Indoor Championships. Though none of the four scored, Hartung wasn't disappointed with their showings on the boards.

Cagers finish season on low

The Salukis' men's basketball team finished the season with a disappointing 9-18 record.

The eight-year head coach job at the University of Illinois at Chicago ended this season for coach Fred Zinn.

A long and lean, Zinn was a native of Carbondale and a graduate of Southern Illinois University in 1967.

The SIUAA $100,000 OFFER...

In case you missed it, read this...

Accident coverage with benefits up to a maximum of $2,500 is available. If you and your family are hospitalized as the result of a serious accident you will be reimbursed up to $25,000 for the cost of your hospital and other related expenses.

HOSPITAL INCOME PLAN

This program provides that important "extra" income needed when you or your family are hospitalized as the result of a serious illness or accident. Benefits from $25 to $100 are paid daily to you from the FIRST DAY of hospitalization.

You decide how best to use the funds...to help pay the deductible in your "regular" hospital insurance or even to cover the daily expenses like food and transportation that continue despite your confinement.

GROUP TERM LIFE INSURANCE

Southern Illinois alumni may elect from $10,000 to $100,000 per plan. Your group can receive $10,000 to $50,000 and your children can receive $2,500 each. This coverage protects you 24 hours a day, anywhere in the world.

The benefits and

Championships in two events (the 400-meter intermediates and 110-meter high hurdles) despite running into a 13-mile-per-hour wind and battling a head cold.

Recently the Southern Illinois University Alumni Association mailed information on its group term life insurance coverage. If you didn't receive it, let us know and we'll send you a copy.

Life insurance is only one of the special plans available to SIU alumni. The size of our alumni body has enabled us to provide these two additional plans. They include competitively priced Hospital Supplement coverage and Personal Accident coverage with benefits up to a quarter of a million dollars. The Southern Illinois University Alumni Association can help with your present insurance needs. The following information highlights the advantages of these programs which have been designed specifically for our graduates.

YOU decide how best to use the funds...to help pay the deductible in your "regular" hospital insurance or even to cover the daily expenses like food and transportation that continue despite your confinement.

Accidental death & dismemberment...

$25,000 to $250,000 protects you and your family when the unexpected happens. The tragedy of a serious accident or accidental death is only heightened when you're financially unprepared to handle the costs. Considering the alarming frequency of serious injury and death from accidents, this is a surprisingly valuable asset to your financial planning.

For more information about the available programs, please write or call;

Chairman of the U.S. Collegiate Sports Gymnastics Federation, and collegiate coaches Rosty Mitchell, New Mexico; Bill Balles- ter, Oregon; Chuck Erlich, Northern Illi- nois; Steve Shepard, Bell State; and Hatch Dvorak, Houston Baptist.

Meade and his wife, the former Joann Martin, have two children: Bill M., a lieu- tenant in the Marine Corps, and Patricia, an eighth-grader.

All former gymnasts are encouraged to attend the June celebration. Details are available from Dave Rice or Coach Meade at the SIUC men's athletics department (618-653-3511).

New law building nears finish

A two-month delay in the delivery of bookcases for the new law library is likely to set back moving day for Southern Illinois University. Carbondale's School of Law by about two weeks, university officials say. But SIUC architects don't expect the delays to cause any major problems in occupying the school's new $7 million home sometime in July.

SIUC physical plant architect Allen Haake said the two-story, 95,750-square-foot building was about 98 percent complete as of Feb. 15, and meeting the original July 9 completion date should not have been easy.

"Some of our contractors thought they'd be finished in late March," Haake said. "They could have come pretty close, I think." He said some systems, such as the heating and air conditioning, are "98 percent complete" and in operation.

The apparent snag popped up when the New Jersey firm which will supply the bookcases for the 220,000-volume law library reported it wasn't going to be able to meet the original late-March deadline now looks more reasonable.

Haake said the building has been calculated to use about half the campus energy in heating and cooling costs per square foot of floor space. Energy conservation measures built into the structure include thicker-than-usual wall and ceiling insulation, fewer outside windows, a special heat-reflecting surface on outside glass and keeping lighting at minimum acceptable levels.

Electricity-saving lights include individually-lit bookstacks in the library. Each set of lights is timed to go off automatically 15 minutes after being turned on.

Haake said that with the exception of the library bookstacks, everything else connected with the building construction seems to be proceeding on schedule. He said the remaining hangup could come from a wet spring, which could delay completion of landscaping and pouring sidewalks.

University officials are studying the feasibility of converting the existing School of Law quarters—once "Greek Row" buildings—into residence halls for law students.

Former botany chairman

Walter Welch dead at 78

Funeral services were held in Carbondale Dec. 30 for Walter B. Welch Sr., former chairman of the Southern Illinois University Carbondale botany department, who died Friday, Dec. 26, at Manatee Memorial Hospital in Bradenton, Fla.

Mr. Welch, 78, was a resident of Bradenton's Courtyard Retirement Center at the time of his death. He had been retired from the SIUC faculty since 1969.

A native of Inwood, Ind., Mr. Welch joined the SIUC botany department as an assistant professor in 1930, was promoted to associate professor in 1944 and was named chairman in 1946, a position he held until his retirement was promoted to full professor in 1949.

He was married to the former Catherine Hooper, who died in 1971. Among survivors are a son, Walter Welch Jr., two step-sons, and two great-grandchildren.

The family has asked that memorial donations be new to the Walter Welch Endowment, in care of the SIUC Foundation, or to the American Cancer Society.

Student Center at student rates.

CAMPUS BENEFITS

- Permits book checkout privileges at Morris Library and use of Law Library
- Provides reduced rates on football and basketball season tickets as well as the University Theater
- Allows use of campus beach facilities
- Lets you use Student Center bowling, billiards, and Arts & Crafts Center at Student Center at student rates
- Permits use of outside tennis courts and baseball courts.

Your membership:

- Provides six bimonthly issues of the Alumni Association publication each year
- Helps update records of over 85,000 graduates and former students
- Assists in job placement opportunities for alumni and students
- Qualifies for automatic membership in your geographic area alumni club
- Provides automatic membership in chartered school-college department professional organizations and their activities and publications
- Qualifies you for group travel programs at discounted rates
- Gives a 20% discount on all books published by SIUC Press and University Graphics ordered through the Alumni Office
- Provides annual Homecoming and Reunion activities
- Makes possible low cost group term life insurance, hospital indemnity insurance, and accident death and dismemberment insurance at attractive rates
- Provides special programs such as Job Search Workshops
- Assists support for student scholarships, loans, and awards programs
- Sponsors a Student Alumni Board to work with student service programs to increase involvement and support in SIUC
- Qualifies you for participation in the alumni family vacation camping program
- Provides an annual vote for Alumni Great Teacher

CAMPUS BENEFITS

- Let's you use the Student Recreation Center facilities with daily, semester, or annual fee

Salukis under the dome

The current session of the Illinois Legislature is graced by the presence of 12 SIUC alumni.

Ex-Salukis on the House of Representatives' roster are: David N. Barkhausen (R), 76 District; E.J. M.A. (R), 58th District; Glen L. Boyer (R), 71 of Effingham, 9th District; and Jack D. Davis (R), '56, of Beecher, 8th District.

The senators are: Kenneth V. Buzbee (D), '71, of Tinley Park, 9th District; and Dwight P. Friedrich (R), ex-District; Jack D. Davis (R), '56, of Beecher, 8th District; and Robert C. Pechous (D), '63, of Centralia, 59th District.

The campus is offering not one, but two summer vacation packages that are inflammation sufferers' dreams.

The Association in cooperation with the staff of SIUC Touch of Nature is reactivating the popular Alumni Family Camp at Little Grassy Lake for two weeks in July.

And for the first time ever, the Association has made arrangements with Indiana University to use its alumni camp facilities at Camp Brosius on the shore of Elkhart Lake in the heart of Wisconsin resort area, 55 miles north of Milwaukee, for one week in June.

"We are very excited about this opportunity for our alumni, especially for the more than 15,000 SIUC alumni living in Chicago," said Robert Odaniell, executive director of the Association. "Camp Brosius is less than one tank of gas away from the Windy City."

The camping sessions at Little Grassy will be held July 5-11 and July 12-18.

Two camping programs are being offered. Plan One provides a cabin, 17 meals and recreational activities. The program is for campers ages 15 and above and is $130 per week. For those aged three through 12, the tab is $115 per week, for infants two and under, $77 per week. (3) Category II: Adults and teenagers, $195 per week; children three to 12, $145 per week; and infants two and under, $115 per week; and infants and two and under $77 per week. (3) Category II: Adults and teenagers, $195 per week; children three to 12, $145 per week; and infants two and under $77 per week.

The prices for the three categories are: (1) Cottages: Adults and teenagers, $213 each per week; children ages three to 12, $161 per week; and infants age two and under, $86 per week. (2) Category I: Adults and teenagers, $195 per week; children three to 12, $145 per week; and infants two and under $77 per week. (3) Category II: Adults and teenagers, $161 per week; children ages three to 12, $115 per week; and infants two and under $77 per week.

Recreational services.

The diversity of organizations, art objects and books are common. The advantage to the donor, said Garavalia, is that it permits him to deduct the fair market value from taxable income. Gifts-in-kind, one of the many types of donations received by the SIU Foundation, have approached the $4 million mark in a six-year period.

In addition, there will be faculty members in residence to present seminars in their areas of specialty.

Reservations for both camps are on a first-come, first-served basis and must be accompanied by $50 per person to confirm. Final payment for the Little Grassy camp is due June 15. All reservations for Camp Brosius must be made prior to April 30 with final payment due May 15. Make checks payable to the SIUC Alumni Association.

All members of the SIUC Alumni Association and their families are eligible to participate. Remember, anyone who attends, whether a member or not, is eligible to belong. If your membership is not current, include $10 for individual annual membership and $15 for family membership with your deposit.

The camps offer something special for everyone—except pets. They must stay at home or in a friendly kennel.

For complete details or to make reservations, call the University Alumni Office, Student Center, SIUC, Carbondale, Ill., 62901. (Phone 618-453-2408)

Arab horses Saluki puppies balafons and such

"Don't look a gift horse in the mouth," is usually the motto of the Southern Illinois University Foundation when gifts-in-kind are involved. Even though some bequests to the University are as strange or bizarre, the Foundation can use them for appreciative purposes.

"Rarely do we turn gifts down," said J.C. Garavalia, SIUC development director. "Sometimes gifts that appear to have little or no value turn out to be extremely valuable to someone who depends on who's on the receiving end."

A few of the more unusual items bequeathed to the University within the last year: 24 prize Arabian horses; two rare Egyptian balafons; three African balafons (primitive multi-instrumented lyre); and an assortment of wood molding from the Carbondale home of former SIUC president D.B. Parkinson (1897-1913).

Donations received by the Foundation come from all over the world. Often the donor has no apparent connections to the University. Motives for making donations vary from tax purposes to sincere philanthropy, Garavalia said.

"Corporate funds will frequently donate outdated machinery, laboratory facilities, or equipment that no longer has value in the commercial market, but may serve well as an educational tool. Contributions in the form of real estate, mineral interests and royalties, furniture and furnishings, specimens for scientific study, art objects and books are common. The advantage to the donor, said Garavalia, is that it permits him to deduct the fair market value from taxable income. Gifts-in-kind, one of the many types of donations received by the SIU Foundation, have approached the $4 million mark in a six-year period. Where do all the donations end up? "The diversity of organizations, departments and interests at the University make a case for using these gifts rather easy," said Garavalia.

The Arabian horses, for instance, were accepted by the Foundation last spring with the stipulation that all would be sold. At Camp Brosius, families may take sight-seeing tours, go to a Milwaukee Brewers game (perhaps to see former Saluki Ricky Reardon play), visit a brewery or tour the Milwaukee Zoo. At Little Grassy, alumni may visit the campus, shop at the University Mall, tour the Recreational Center or the Student Center, and renew acquaintances with old ranchers.

The two Saluki pups have found a permanent nestling home with Alpha Phi Omegas, a campus service fraternity that helps train and care for the school's mustangs. The Egyptian hunting hounds are usually on display at SIUC football and basketball games.

The African balafons were donated by an SIUC anthropology professor. The xylophone-like instruments were given to the University Museum.

Garavalia said the antique wood molding acquired from the Parkinson home may be used in a wing on the "old campus"—where D.B. Parkinson spent 16 influential years as president.
land and Hutsonville. Murray also served six years as an administrator at Army and Air Force schools in Japan, Italy and Germany. The couple has three children, two grandchildren and two great-grandchildren.

32

Robert Lewis Taylor, ex, of Kent, Conn., has now written 14 books. His most recent ones are "A Roaring in the Wind: A History of Aldo Leopold and His Great and Shameful Days" and "Niagara."

35

Fidelia Doolin taught multiple high schools in Illinois, including the Illinois State Teachers College Boarding School. She founded it in 1894 and served as its principal for many years. She has continued to live there since her husband's death in 1909. She says she is "the girl who taught polio." She added, "I have a polio-withered stump thigh."

36

James Troy Robinson was honored for 68 years of service to the state's public school instruction and the university in his role as an educator. He was the head of the Department of Education and was a member of the faculty of the University of Northern Illinois. He lived in Owenboro, Ky.

40

Wendell Lauton has been in Spain for more than a year as a distance student from the University of Illinois. He studied the history of art and architecture and the sociological paintings were exhibited recently at the University of Illinois in Seville, Spain. He lives in Torremolinos, Spain.

43

E. L. (Doc) Benci, ex, won plaudits and praise in Murphysboro when the high school football team was named the state champions. He was also a prominent local historian.

44

William H. South, ex, won election as a judge in the First Judicial Circuit Division of the November election. He defeated another SIUC alumnus, Howard L. Hood, '62, in the primary and is a graduate of Jackson County South. In 1962, he was a private practice in Carbondale.

47

Deltic Edward Low, ex, taught at the Waukegan branch of the State University of New York, a part-time position he held for 25 years. He was later appointed to a full-time position as a research specialist with the U.S. Department of Agriculture.

48

Col. Wayne L. Burkett of Abilene, Texas, represented SIUC Aug. 30 in the 75th anniversary of Abilene State Teachers College. He retired as an Air Force chaplain and is currently serving as the director of the Office of Religious Affairs at the University Methodist Church in Tuscola, Texas.

50

Harold Kuehn of Duquoin has been honored as the "Friend of Agriculture Award" presented annually by the Illinois Agricultural Education Foundation. He is a farmer and agricultural leader and is the former president of the American Soybean Association. He was a member of the 1972 United States mission to the Soviet Union to promote soybeans and in 1973 he was a consultant to the SIUC School of Agriculture's Alumni's Year. He is a member of the American Association's board of directors.

51

James R. Pearl is the owner of J.J. Pearl, ex, of Pekin, Ill., a company engaged in the manufacture and distribution of car tires. He lives in Carbondale.

53

Dan S. Rainey, M.S., '50, associate professor of special education, retired from SIUC in August after 30 years of service to the University. He was a specialist in educational psychology.

54

John Samuel Goin, ex, is a dentist in Champaign.

55

Amy Paschag is a home economics teacher at Civic Memorial High School. She was president of the Illinois Vocational Home Economics Association in 1976.

57

Richard Lynn Cole is an executive vice-president with Pettie, Stephens and associates, Scottsdale, Ariz. His firm sells real estate. Until 1978, Cole was the director of promotions for the St. Louis Post-Dispatch. His wife, Sally Joan Cole, is a partner in the firm, and his son, Charles, '49, M.S.'50, lives in Basel, Switzerland.

58

Robert E. Crim of Carbondale has been elected to a two-year term on the board of directors of the American Home Economics Association. He is a retired Air Force captain and is the director of research and evaluation at the University of Illinois at Urbana-Champaign. He was a member of the SIUC Alumni Association and the SIUC Extension Advisors Association.

JAMES, '57

Richard Lynn Cole is an executive vice-president with Pettie, Stephens and associates, Scottsdale, Ariz. His firm sells real estate. Until 1978, Cole was the director of promotions for the St. Louis Post-Dispatch. His wife, Sally Joan Cole, is a partner in the firm, and his son, Charles, '49, M.S.'50, lives in Basel, Switzerland.
Howard John (Jack) Andree recently was promoted to colonel in the U.S. Air Force, Col. Andree, who was named a fellow on the international military staff, Supreme Headquarters, Allied Powers, Europe, stationed in Caen, Belgium.

Roger Buyan is a seventh and eighth grade basketball coach at Carbondale's Lincoln Junior High School, where he has spent 14 years. Buyan's teams have only two games in the last two colleges and universities. He is a life member of the Illinois Speech and Hearing Association and a member of the Association.

Ann L. Carey, M.S., Ph.D., '69, of Fairview Heights has been named to the faculty of the School of Speech-Language-Hearing Associa-
tion.

A former assistant professor of the 50th district, he sponsored a bill in the Illinois House of Representatives that appropriates $20,000 for initial SIUC research efforts into chemical research.

Benjamin D. Connor is employed by the Olin Corp. He and his wife, Mary S., were married in 1957, live in Murphyboro. She is a teacher for the Murphyboro school system.

James L. Hall of Dallas, Texas, was elected a Fellow of the American

Dwayne Knowland, Ph.D., is retired, but still manages to write a weekly newspaper column and do some consulting for a newspaper in Casville, Mo. After years as an editor and publisher in Missouri, he was turned into teaching journalism at SIUC in 1976. Knowland was one of the first Ph.D. graduates of the program. After graduation, he chaired the journalism department at Texas Christian University and, supported by a Fulbright grant, established a School of Journalism at the University of Texas. He later returned to the University of Texas and then went to Drake University as a dean. Six years later, he placed himself on disability leave. He's still here to work for his old students at SIUC's Friends. His address is Rm. 3, Casville, Mo., 68025.

Robert C. Warthen, M.S., '82, is the district development geologist for the Illinois Department of Natural Resources. He is a native of Marion, Ill., and has spent several years in Chicago as a house painter and a barber. He was elected a fellow on the international military staff, Supreme Headquarters, Allied Powers, Europe, stationed in Caen, Belgium.

Connie Ham Duncanson, M.A., '65, Ph.D., '67, is an associate professor at Northern Michigan University. She is married to the former Daniel Gleason, M.A., '68, of Crandon, Wis. They have three children in Marquette, Mich.

William Abernathy, M.S., is an assistant professor of recreation at SIUC. In his spare time, he and his wife, Judy, have been involved in the Des Moines, Iowa, "buffalo" tv for private parties, for the University of Bridgeport, Conn. In 1968, he started the Office of Special Education and Training.

Robert D. Steinmann is the owner of Hancock Insurance Agency in Marion. •

Larry B. Guttler, M.S., '64, is a sales manager at Central Illinois Public Service Co. in Carbondale. He is a member of the management's systems development department. He joined CIPS in 1961 as a lighting engineer in the Marion office.

Robert L. Howard was recently promoted to director of public relations of Growmark Inc. He and his wife, Carolyn A. Pohlman, '62, live in Bloomington.

Ronald E. Matteson lives in Aurora.

Paul John Mees, M.SED, '83, is a teacher in the structured development at Northwestern Missouri State University. He and his wife, Dr. Rollie Mees, '70, have three children in Maryville, Mo.

Ignatius Peng Yao, M.S., is a professor at the University of Chicago, International, and the vice-president of the Central Daily News. He lives in Taipei, Taiwan.

William Abernathy, M.S., is an assistant professor of recreation at SIUC. In his spare time, he and his wife, Judy, have been involved in the Des Moines, Iowa, "buffalo" tv for private parties, for the University of Bridgeport, Conn. In 1968, he started the Office of Special Education and Training.

Robert D. Steinmann is the owner of Hancock Insurance Agency in Marion. •

Connie Ham Duncanson, M.A., '65, Ph.D., '67, is an associate professor at Northern Michigan University. She is married to the former Daniel Gleason, M.A., '68, of Crandon, Wis. They have three children in Marquette, Mich.

L. Eudora Pettigrew, Ph.D., '66, is the associate provost for instruction at SIUC. She is a native of Illinois and has worked in the fields of development and communications.

Willie Abernathy, M.S., is the associate provost for instruction at SIUC. She is a native of Illinois and has worked in the fields of development and communications.

William Abernathy, M.S., is an assistant professor of recreation at SIUC. In his spare time, he and his wife, Judy, have been involved in the Des Moines, Iowa, "buffalo" tv for private parties, for the University of Bridgeport, Conn. In 1968, he started the Office of Special Education and Training.

Robert D. Steinmann is the owner of Hancock Insurance Agency in Marion. •

KURPIUS, '69

William L. KURPIUS, '69, is a research scientist at the University of Illinois, where he lives with his wife and son.

The questionnaire, printed originally in two in 1979, was mailed to more than 70,000 alumni, bringing in returns of more than 4,000,000.

The mailings will be to alumni homes and will include self-addressed envelopes for any questions they may have.

We're not interested in singling out individual alumni, because we are interested in building a profile of the entire alumni group. Previously, we have not aimed to find out which alumni want to be involved in alumni activities, according to bow, assistant director of Development and Services.

The questionnaire, printed originally in two in 1979 on Alumni issues, brought in returns of more than 4,000,000.

ATHLETICS

From page 1

Somit told the board that increases in the "magnitude" of SIUC's athletics program will be offered to a student referendum this fall. Results will not be binding, he said, but will be a "significant factor" in his ultimate judgments on SIUC's athletics future.

In the meantime, Somit said, SIUC's proposed athletics budget for next year will provide modest gains for women's programs and maintain men's sports at reduced levels.

It provides:
- Expenditures of $1.7 million for men, a drop of $81,800 from 1981-82 allocations. Among major cuts: twenty fewer football scholarships and a $52,000 cut in football expenses. $57,000 from budgeted items for championships and guarantees. $10,400 from publicity; $12,000 from training; $5,000 from student wages. Tennis, wrestling and gymnastics will operate with combined decreases totaling $14,500.
- The overall salary base in men's athletics is scheduled to be increased only $2,000 (to $282,000 for all sources). The single sport projected for a budget increase is basketball—from $106,300 to $110,000. $89,200 for women, a $109,000 increase. Scholarship support would go from $100,000 to $140,000 and funding for salaries would be increased by $70,000. Nearly $23,000 would be lopped from budget lines that covered championships and contingencies. Most women's sports are slated for increases. Track, badminton and volleyball are in for small cuts. Sports publicity is to be reduced by nearly 25 percent, to $15,000.

In drafting the budget, Somit said, SIUC had to consider effects that more serious cuts would have on existing contract responsibilities, the stability of the Missouri Valley Conference, obligations ("mercal, if not legal") to athletes under scholarship, and required lead time for schedule changes. Considerations also included "a desire to avoid the termination of personnel without adequate notice," he said.

For the future, said Somit, SIUC "can't afford the Missouri Valley Conference as it is now structured, and can't afford Division I football." He said SIUC is actively discussing possibilities for resigning the MVC to provide closer-to-home divisional play.

Somit said a structured MVC—or a new conference affiliation—would help SIU towards an athletics program "whose costs are reasonable and definable."

GOTTFRIED

From page 1

Fans turned out in fewer and fewer numbers as the perplexing season wore on, and turnout of 2,000 for conference history. Most women's sports are slated for increases. Track, badminton and volleyball are in for small cuts. Sports publicity is to be reduced by nearly 25 percent, to $15,000.

In drafting the budget, Somit said, SIUC had to consider effects that more serious cuts would have on existing contract responsibilities, the stability of the Missouri Valley Conference, obligations ("mercal, if not legal") to athletes under scholarship, and required lead time for schedule changes. Considerations also included "a desire to avoid the termination of personnel without adequate notice," he said.

For the future, said Somit, SIUC "can't afford the Missouri Valley Conference as it is now structured, and can't afford Division I football." He said SIUC is actively discussing possibilities for resigning the MVC to provide closer-to-home divisional play.

Somit said a structured MVC—or a new conference affiliation—would help SIU towards an athletics program "whose costs are reasonable and definable."

SOMIT

From page 1

board members agreed that Thompson is being "extremely generous" to higher education in view of economic distress warnings and compared to his modest five percent funding increase recommendations for other state agencies.

But the 5.8 percent budget boost put forward by Thompson still falls "far short" of meeting SIU's needs, said Chancellor Kenneth A. Shaw.

What it will mean for SIUC, said President Albert Somit, includes program cutbacks, partially-deferred raises for employees, boxtailed maintenance schedules and the loss (in the form of non-replacements) of perhaps a dozen faculty members.

In drafting the budget, Somit said, new faculty hiring will be "almost exclusively at the junior level," there will be fewer courses in such basics as English and mathematics, student laboratory sections will be cut back, enrollment caps will be screwed on some programs (law, engineering) and virtually all campus units will have to get by next year with fewer dollars for travel, phoens, supplies and services.

The IBHE recommended extra state money to pay salary increases averaging 10 percent at state schools, but Thompson cut that to 8 percent, with a two percent supplement to be paid next January.
