Two SIUC vice presidential positions have been filled and a third will be vacated when George Mace, vice president for University Relations, leaves the campus June 15.

Mace requested a one-year leave to join the American Council on Education in Washington, D.C., as Executive Consultant. Mace said he will be consultant for a yet-to-be announced blue ribbon commission that will study major issues facing American higher education. ACE President Jack Petterson, former president for the University of Illinois, said the special panel will include representation from industry, higher education and the government's legislative branch.

SIUC President Albert Somit recommended to SIU's board of trustees that Mace be granted the leave and said he will appoint an acting vice president until a permanent replacement is named.

Warren Buffum, acting vice president for financial affairs, and John Guyon, acting vice president for academic affairs and research, have been recommended to permanent positions by Somit.

Buffum had held the acting position after Robert Gentry resigned in January. Somit selected him May 7 from a field of internal candidates recommended by a search committee.

The 49-year-old Guyon had been acting vice president for academic affairs and research since Frank E. Horton left last June to become chancellor of the University of Wisconsin-Milwaukee. He emerged as Somit's choice for the job after a grueling search that drew more than 70 applications.

The 46-year-old Mace, a vice president at SIUC since 1972, said the ACE commission is expected to examine and make recommendations on nationwide campus matters including federal cuts in student aid, renovation of libraries, tuition tax credits, reform of regulations that affect colleges and universities, and other programs to improve the quality of higher education in the United States.

"My experience at SIUC has been fulfilling, and extremely satisfying," Mace said, "and the prospect of not being with the friends I've made here in Southern Illinois leaves me somewhat wistful. At the same time, I'm excited at the prospect of being part of such an ambitious endeavor and look forward to the impact it may have on higher education."

A native of Pueblo, Colo., Mace joined SIU-Edwardsville's department of government and public affairs in 1963. He was made chairman of the department in 1969 and was named director of SIUC's advanced programs in urban fields in 1970.

He came to SIUC in 1971 as assistant to the president and was appointed dean of students and acting vice president for student affairs in 1972. In the next two years, he held two other vice presidencies and in 1975, then-President Warren W. Brandt appointed him vice president for University Relations.

Buffum, a 30-year veteran of SIUC's accounting and internal auditing staff, came to the University in 1960 as internal auditor. He was named chief accountant in 1962 and became University accounting officer for both SIU campuses in 1966. Also, he was acting director of fiscal affairs from 1969 to 1972.

In 1972, he was named director of the SIUC budget office and became SIUC's first associate vice president for financial affairs when the post was created in 1976.

A native of Seattle, Wash., Buffum is a 1947 graduate of the University of Washington with a bachelor's degree in accounting.

Guyon had been associate vice president and dean of the SIUC Graduate School for four years before replacing Horton. He came to the University in 1974 as dean of the College of Science.

Prior to that, Guyon had been chairman of the chemistry department at Memphis State University for two years. He joined the Memphis State faculty after a 10-year stay at the University of Missouri, where he served as chemistry department chairman from 1969 to 1971.

A native of Washington, Pa., Guyon has a bachelor's degree from Washington and Jefferson College, a master's degree from Toledo University and a Ph.D. degree from Purdue University.

He is the author of "Analytical Chemistry" and has co-authored or edited three other texts.

He is married to the former Elizabeth Smith of Anniston, Ala., and they have two children.

The appointments are subject to approval by the SIU board of trustees.
Soviet honors
SIUC geologist

Names new genus Utgaardiella

SIUC engineers get $225,000
Will improve coal mining techniques

SIUC designated as winner of 1981 NUCEA Excellence Award

Continuing Ed program cited

Paratore named VP assistant

Beggs named education dean

Two-degree SIUC alumnus takes charge

Paskin, a well-known Soviet scientist, discovered the previously undocumented fossilized specimen while doing field work in Podolia. He accorded Utgaardiella the honor of being named after him, he said, because of Utgaard's internationally recognized research on fossil bryozoans and his willingness to share that research with Paskin.

Paskin will travel to Moscow this month to receive the annual award of the Russian Paleontological Society.

Donald L. Beggs, 39-year-old associate dean of SIUC's college of Education, has been appointed dean of the College effective Aug. 15.

Jean Paratore has been appointed assistant vice president for student affairs at the University.

Jean Paratore, coordinator of intramural sports at SIUC, has been named assistant vice president for student affairs at the University.

Donald Beggs has been named dean of the College of Education at North Texas State University and Jon Silska, chairman of the Division of Education at Indiana University Northwest.

Beggs was the top choice in a field of three finalists for the position, which is subject to approval by the SIU board of trustees.

Beggs has been associate dean of the College of Education since 1975 and also has served as associate dean of the Graduate School (1970-71), assistant vice president for academic affairs and research (1975-76) and acting dean of University Programs (September, 1979).

The award was presented April 14 at NUCEA's annual national meeting in Colorado Springs, Colo.

More than 2,000 military men and women and civilian employees are enrolled in SIUC's Programs for the Military at 50 military bases in 20 states and the District of Columbia.

The SIUC program is the largest degree-granting program of its kind for the military in the United States. Degrees are offered by the SIUC departments of occupational education and industrial technology and the School of Technical Careers.

Evers and Eddingfield have studied experimental hydraulic mining techniques in western Washington coalfields.

The two will construct real and mathematical models and use high-speed photographic techniques to formulate design improvements aimed at increasing the efficiency of water jets used to fragment, crush and transport coal.

The potential for reducing environmental impact, improving safety and lowering costs, he said.

An uphill battle, an almost impossible task.

So says Allen Van Winkle, a SIUC head basketball coach, whose job now is to turn around an 18-game losing streak. The biggest single factor in such an uphill battle, coming from behind as we are, it’s a great challenge," he said.

The 35-year-old Van Winkle was hired March 30 by Men’s Athletic Director Gale Yount. He was chosen from a field of 59-68 and three conference championships.

"They’re a close-knit crew. Maybe that’s kids," Young said. "When one was out there competing, there were always 11.

The flying teams competed in seven air races, respectively.

The position opened up when Joe Gottfried resigned March 3 after a dismal season.

Yount said reports. Van Winkle receive will a three-year contract with a salary of about $35,000 a year. His performance will be evaluated at the end of his second year.

Van Winkle said Bob Spivey, a Gottfried assistant, will be first assistant and another assistant will be hired after June 30.

A native of Lafayette, Ind., Van Winkle was the head coach at Jackson (Mich.) Community College, where he compiled a three-year record of 88-14 and three consecutive NCAA rankings.

He’s also concerned with promoting an increased in the Salukis’ declining basketball attendance, but recognizes that the team will have to win for the situation to improve.

"I think the bottom line will be the kind of basketball we play. People want to see entertainment basketball, they want to see good basketball players and they want to see winning teams."

Van Winkle also intends to promote the basketball program at every opportunity.

"I hope that I’ll have a chance to speak to alumni, to students, to fraternity men, to sororities, and to organizations throughout Illinois," he said.

Van Winkle considers his coaching background to be a "well-rounded one." He was an assistant coach at West Texas State for two years (1977-78) under Ron Echols and a varsity assistant at California Poly at Pomona for five years before that. His Jackson teams have been ranked in the top 10 nationally during each of his three years there.

He is a 1971 graduate of Southwestern Louisiana University.

He said he has had excellent relationships with his players. "My teams have been good break teams, characterized by selflessness and the desire to play together to get the job done, whether that means scoring two points individually or 20," he said.

He said concern for his player’s academic progress is uppermost in his coaching philosophy. "I don’t want young men to come here and bounce a basketball for four years and then go home. We want student-athletes," Van Winkle said.

Van Winkle is married. He and his wife have three children.

Junior college transfers will figure prominently in new SIUC basketball coach Allen Van Winkle’s plans for next season. The former Jackson (Mich.) Community College coach has signed five juco players to letters of intent.

They are former Jackson players Ken Byrd and Allen Van Winkle’s new assistant, Lincoln Trail College star David Tucker, and Vincennes (Ind.) College player Dennis Goin.

Walker and Tucker are forwards. The other three are guards. Copeland untercut Jackson’s offense from the point guard position, and is expected to see plenty of action next season. He’s a product of Chicago’s DuSable High School.

Van Winkle calls Walker the best athlete in his Jackson program, despite the fact Walker sat the season out in an effort to improve his grades.

Byrd is a former Ohio all-state selection, who was voted Toledo’s player of the year after his senior season.

The 6-4 Tucker played under former Saluki Dennis Shidler at Lincoln Trail where he averaged 16 points, 12 rebounds and three assists a game.

Goin, a 5-11 playmaker from Rushville, Ind., scored 12 points and dished out seven assists a game for a 19-11 Vincennes team.

The SIU Press is celebrating its Silver Anniversary—25 years of publishing that has made it one of the top 12 university presses in the nation, according to authorities.

Formally organized in 1956 by the late Vernon Sternberg, its first director and editor, the SIU Press has come a long way since its humble beginnings in an old house on what is now the site of SIU’s Carbondale’s Student Center.

In those days, veteran Press people recall, books were hand-wrapped and stored in the kitchen of the house until they were carried to the Post Office for delivery. It wasn’t uncommon for Sternberg help unload delivery trucks.

Today the Press is housed in a two-level metal prefabricated building on the main SIUC campus and its distribution network stretches worldwide.

The SIU Press publishes 50 different books a year and prints (by outside contractors) 1,000 to 5,000 copies of each. An intricate screening process is used to determine which manuscripts will be published.

"First, we evaluate a manuscript to see if it should be considered for publication," says Kenney Withers, present director of the Press. "Then we have it reviewed by authorities on the subject to see if it is accurate and publishable.

"If the manuscript gets this far, the author is put under contract and the manuscript is tightened by copy editors. The author checks the tightened version and, if everything is satisfactory, we arrange to have the book printed."

Many manuscripts don’t survive the process, according to Withers. "We probably review 50 for every one we accept," he says.

As of March, the SIU Press has published 884 books. Libraries purchase many of them, but bookstores and individuals also figure in the Press’ somewhat discriminating market.

SIU Press publications generally fall into two categories: scholarly books—works that contribute to their subject field—or books of regional interest and importance. For the most part, they are books that "should be published," but usually aren’t accepted by commercial houses because of subject matter or limited sales potential,

The SIU Press is considered a Silver Anniversary—25 years of publishing that has made it one of the top 12 university presses in the nation, according to authorities.

The three-time NIFA national champion Flying Salukis made it four out of 50 by outpointing teams from other colleges and universities in the nationwide competition hosted by Northeast Tallahassee University.

Teams from the University of Illinois and Metropolitan State University of Denver, Colorado, finished second and third, respectively.

The flying teams competed in seven air races, respectively.

The Press is ranked among the top dozen presses in the marketing of Press publications.

"We have to become more aggressive in the acquisition of new manuscripts and works," says Kenney Withers, the Press’ executive editor. "We want to push improvement in two areas—the solicitation of manuscripts and the marketing of Press publications.

The Press is ranked among the top dozen presses in the marketing of Press publications. We want to push improvement in two areas—the solicitation of manuscripts and the marketing of Press publications. Admittedly it's the season for optimism, but SIUC's men's sports teams are looking forward to breakthroughs in 1981-82. Ten years from now it might even be looked back on as "the year of the comeback." Not every Saluki team, however, qualifies for a "comeback" role. Improving on this year's track and field team record would be difficult, as would upgrading the men's basketball program. Saluki swimmers also enjoyed a super season as did SIUC's baseball team.

The two—biggest—football and basketball—were definitely off the pace with respective 3-8 and 7-20 season records, and golf and wrestling struggled somewhat. The point, however, is that ALL head coaches are anticipating improved seasons in 1981-82. Ten years from now it might even be looked back on as "the year of the comeback."...
An 18-year veteran of SIUC, Mace has won the 1981 Service to Southern Award presented by the Jackson County Alumni Club. George R. Mace, vice president for University relations, received the award May 3 for outstanding contributions to Southern Illinois.

Mace accepted the award from Virginia Maramadukie of Pinckneyville, a former newspaper woman and the 1980 Service to Southern winner. SIUC President Albert Somit attended the Student Center ceremony as a special guest.

Since 1975, the 46-year-old Mace has served as a special guest. Mace has been a teacher and administrator at SIU since 1965 following a term as an instructor at Claremont University College (Calif.), where he received his Ph.D. in political science. He received his bachelor's degree in 1959 from Fresno State College (Calif.)

Mace first joined SIU as a faculty member in the department of government and public affairs at SIU-Edwardsville. In 1969 he was made chairman of the department, and in 1970 he was appointed director of SIUE's advanced programs in urban studies.

Then-President Robert G. Layer appointed Mace his assistant for student affairs at SIUC in 1971. He was named acting dean of students and acting vice president for student affairs in 1972. In 1974, following a brief teaching appointment, he was named vice president for administration and campus treasurer, a title later changed to vice president for fiscal affairs.

Mace became vice president for University relations in 1975 and held the two vice presidencies until a permanent appointment to the fiscal affairs position was made early in 1976.

Mace was a two-time "Outstanding Teacher" award winner at SIUE and was elected to the Phi Kappa Phi honor society at SIUC as a distinguished faculty member in 1973.

For Service
Vice President George Mace receives the Service to Southern Award presented by Virginia Maramadukie, last year's winner.

**Athletics moves to student affairs**

Administration of intercollegiate athletics at SIUC will be shifted in May from the office of the vice president for University relations to that of the vice president for student affairs.

SIUC President Albert Somit announced the move April 9 at the board of trustees meeting on the SIU-Edwardsville campus.

The transfer will put men's and women's sports programs under SIUC Vice President Bruce R. Swinburne, whose student affairs area also includes responsibility for intramural and recreational sports as well as a host of other student-related programs.

Men's athletics has been administered by the University relations sector (formerly development and services) since 1972. Before that, it was part of the College of Education. Women made the switch in 1974.

Somit's announcement came at the same time the trustees approved retention of a 20 percent semester increase in the fee SIUC students pay to support intercollegiate athletics. The increase, boosting the athletics fee to $30 per semester, was first approved late in 1979 with the condition that the entire athletics program be studied with a view toward possible changes to accommodate balance in men's and women's programs and the tight-budget pressures of the '80s.

Swinburne said the new assignment "is a challenge that I look forward to. I'm excited about the prospects of helping shape the future of intercollegiate athletics at SIUC in a time of difficult tests for higher education in general."

George R. Mace, vice president for University relations who has headed athletics programs since 1975, said, "I have deeply appreciated working with an outstanding group of people. They've done a superb job during a period of trying circumstances and straining resources. This change in the locus of administration seems in the best interest of the athletics programs and the University."

Gail Sayers, men's athletics director, praised Mace's fund-raising efforts in behalf of his programs. "We've been in a desperate need and he's spent many hours helping raise outside contributions. I hope Dr. Swinburne will be supportive."

"Vice President Mace has always been vigorous and steadfast in support of a strong athletics program at SIUC," said Charlotte West, women's athletics director. "Women's athletics has witnessed significant growth under his administration."

In a personal letter to Intercollegiate Athletics Advisory Committee members and the heads of campus constituency groups, Nottman said: "I thank Vice President Mace for the energetic leadership he has provided in recent years. The forward movement of the program, I am confident, will be continued under Vice President Swinburne."

**Seven students split art award**

Seven SIUC art students will split about $24,000 in cash this year as winners of the Rickert-Ziebold Award competition. Winners are: Brian Cast of Fairmount, sculpture; Matthew Dashi of Carbondale, watercolor; Ronald Dukel of Carbondale, mixed media of sculpture and drawings; and Dennis Jennings of Chicago, printing and painting.

Others include: David Nicholas, Carbondale, ceramics; James Pettit, Cordova, ceramics and Robert Swindergal, Murphysboro, glass.

The seven were selected from a field of 39 whose student affairs area also includes responsibility for intramural and recreational sports as well as a host of other student-related programs. The 39-year-old Holt was graduated from SIUC in 1963 with a bachelor's degree in corporate finance and economics. He joined Dun and Bradstreet subsidiary Reuben H. Donnelly's marketing division in 1964 and was elected senior vice president of Dun and Bradstreet in 1980. He's also been vice president of Donnelly's marketing division and was named president of the Donnelly Marketing operation in 1978.

**John Holt wins SAM honor**

A top executive of the Dun and Bradstreet Corp. has been honored by SIUC's student chapter of the Society for the Advancement of Management (SAM). John C. Holt, senior vice president of the Dun and Bradstreet Corp., received the National Manager of the Year award during the Student SAM chapter's annual banquet April 23 in Carbondale.

The 39-year-old Holt was graduated from SIUC in 1963 with a bachelor's degree in corporate finance and economics. He joined Dun and Bradstreet subsidiary Reuben H. Donnelly's marketing division in 1964 and was elected senior vice president of Dun and Bradstreet in 1980. He's also been vice president of Donnelly's marketing division and was named president of the Donnelly Marketing operation in 1978.

He, his wife and children live in Carrington, Conn.

26 competitors. Their work was judged by SIUC's 26-member art faculty.

The cash awards for senior art students result from a bequest to the University from Margarette L. Rickert, formerly of Waterloo. She died in 1971 in North Carolina and left one-third of her estate to SIUC to be used each year to reward outstanding senior art students.

Winners in the past have used their winnings to tour European art galleries, to study painting in Paris and even to set up specialized photography darkrooms.
Alumni Leaders

SIUC President Albert Somit met with newly elected officers of the Washington, D.C., SIUC Alumni Club April 4. They are (from left) Ed Roberts, '71, incoming president; Mary Jane Kolar, '63, incoming vice president; Somit; Pat Hardy Davis, '63, incoming secretary-treasurer; and Howard Hough, '42, outgoing president. The officers were elected at the annual spring dinner in Falls Church, Va. Some 50 area alumni attended. Somit was the guest speaker.

Calendar

June

June 4—SIUC MILITARY GRADUATION at Oakland NRMIC, Calif.
June 6—SIUC SCHOOL OF MEDICINE ALUMNI picnic, 2 p.m. at Lake
Springfield. D.
June 9—SIUC GYMNASIUMS ALUMNI PICNIC honoring Coach Bill Meade
for 25 years of coaching the Salukis. Contact Dave Schible or Coach Meade at
the men’s athletics department for details (618) 453-3331.
June 7—SIUC SCHOOL OF MEDICINE Class of 1981 GRADUATION, in
the new public affairs center, Sangamon State University, Springfield.
June 9—SIUC MILITARY GRADUATION (North Island NAS, Calif.), Mira-
mar NAS, Calif.; Camp Pendleton NRMIC, Calif. (at San Diego, Calif.
June 10—SIUC MILITARY GRADUATION (March AFB, El Toro MCAS,
Tustin MCAS, Long Beach NRCM and Camp Pendleton, Calif.), Camp
June 11—SIUC MILITARY GRADUATION at Norton AFB, Calif.
June 12—SIUC MILITARY GRADUATION at Port Hueneme NCB, Calif.
June 15—SUMMER SCHOOL BEGINS
June 20—SIUC MILITARY GRADUATION (Bethesda and Walter Reed
AMC, Washington, D.C.) at Bethesda, Md.
June 21—27—SIUC SOUTHERN CALIFORNIA CAMPING, Camp Brossius, Elkhart Lake,
Wis. See advertisement page 12.
June 23—SIUC MILITARY GRADUATION at Kirtland AFB, N.M.
June 24—SIUC MILITARY GRADUATION at Pope AFB, N.C.
June 30—ALUMNI ACHIEVEMENT AWARD nominations due at the
Alumni Office, Student Center, SIUC, Carbondale, Ill., 62901.

July

July 5—11—SIUC ALUMNI FAMILY CAMPING, SIUC Touch of Nature
Center at Little Grassy Lake. See advertisement, page 12.
July 9—SIUC MILITARY GRADUATION at McChord AFB, Wash.
July 11—ALUMNI ASSOCIATION BOARD OF DIRECTORS meeting at
SIUC Touch of Nature center.
July 12—18—SIUC ALUMNI FAMILY CAMPING, SIUC Touch of Nature
Center, Little Grassy Lake. See advertisement, page 12.
July 18—SIUC DAY AT WRIELEY FIELD, Chicago, sponsored by the SIUC
Chicago Area Alumni Club, Cubs vs. Atlanta. SIUC tickets, located behind home
plate, are $5 per person and may be ordered from George Loukas at the Cubby
Bear Lounge, 1009 Addison, Chicago, Ill., 60613. Orders should include a self-
addressed stamped return envelope with $5 per ticket. Door prizes include a subscription to SIUC Athletics. Make checks payable to Loukas. Deadline is June 30 and quantities are
limited. Alumni pre-game and post-game gatherings are scheduled at the Cubby
Bear Lounge, directly across from Wrigley Field, with proprietor Loukas, a former
Saluki football player, as host.

August

Aug. 1—ALUMNI GREAT TEACHERS' ballots due at the Alumni Office,
Student Center, SIUC, Carbondale, Ill., 62901.

Schools Calendar
### The Classes

#### 36

**Dallas M. Young** is a professor of labor relations at Case Western Reserve University in Cleveland, Ohio, where he has worked since 1967. Prior to that, he was an associate professor of economics at Case Western Reserve and professor of economics at Grinnell College (1946-49), visiting lecturer in economics at Northwestern University, and chairman of the sociology department at Jefferson (Mo.) Junior College (1941-42). He also served as a member of the National Defense Executive Reserve, U.S. Department of Labor, and has umpired labor disputes for the Cleveland Transit System and Amalgamated Transit Union. He was a member and chairman of the Cleveland Transit Board from 1969 to 1970. He is the author of the textbook, "Understanding Labor Problems," printed in 1969.

#### 40

**John E. Collard** has retired after spending 20 years in the U.S. Air Force and 18 years at the Milwaukee School of Engineering. He lives in Milwaukee, Wisconsin.

#### 41

**Elda M. Lucht** is a lay minister for the Zion Lutheran Church. She lives in St. Louis, Mo.

#### 44

**Mary Romano Barringer** is a retired teacher. She and her husband, B. Joe, live in Carbondale, Illinois, 62903. He'd like to hear from his old classmates.

#### 46

**Helen J. Blackburn** retired Dec. 31, 1979, after 31 years of teaching, 24 years in the mathematics department of the Pan American University, Edinburg, Texas. She says she doesn't need to move to a retirement area—she already lives in one. She looks forward to winter seasons, when her northern friends come to spend a few months in the "sunny south." She invited her old classmates to her home in Hurst, Texas.

#### 50

**Marilyn Provart Newby** is an associate professor of art at Illinois State University. Recently received a Ph.D. degree in art education from Pennsylvania State University. She has been a member of the faculty since 1965 and taught two years on the fine arts faculty at the University of Colorado at Boulder.

#### 52

**Albert G. Bean** is the guidance chairperson for Lockport Township High School. He lives in Lockport, Illinois.

Could you provide more information about the content of the document? Unfortunately, due to the nature of the text, it's difficult to extract meaningful information. It appears to be a list of people and their positions or accomplishments, but the context is unclear. The content includes names, positions, locations, and other details, but without a clear context or specific questions, it's hard to provide a coherent summary or analysis.
Deaths

Faculty

William Neal Phelps, former SIUC professor of guidance and education, died recently after a brief illness. A native of Golconda, Phelps was a member of the SIU faculty from 1942 to 1967. He joined the faculty as an assistant professor at the University of Illinois and served as director of the SIUC psychological building expansion for the SIUC.

A 1926 graduate of the then-Southern Illinois Normal University, Phelps earned a master's degree in 1935 from the University of Illinois and a Ph.D. from Colorado State College in Colorado. His contributions to the University community can be traced back to his days at Phillips' name at the SIUC Foundation Cardiac.

Early 1900s

Effie Risley Fisher,'09, of Stillwater Oka., died Jan. 23, 1981, while traveling in the University. She was the president of the Young Women's Association, president of the Sorority Satanic Literature and the Western women's basketball team. Following graduation, she taught school in Chicago and served as President of Physical Education and Expression. On May 10, 1912, she married Dr. Andrew L. Fisher and assisted him in his medical practice in New Haven until his death in 1959. She was a founding member of the Hoffman Foundation of the Clinton County Homemakers Extension Association and served twice as its president.

Marriages

Michael C. Bade to Mary L. Haberman, '57, July 8, 1980, in Lockport, N.Y.

Phil Furrer is a news/sports writer for WREX-TV in Rockford.

Gary Horn is a chief engineer for Midland Electronics. He lives in Glenview.

Todd R. Higgins, M.S., is a graduate assistant at the University of Adelaide, Australia. He is a research assistant at the University of Adelaide, Australia.

Steven R. Hulland is an air traffic control facility officer at the Marine Air Station in Yuma, Ariz.

Mary E. Jones is a student at St. John's Mercy Hospital Medical School of Technology in St. Louis, Mo. She lives in Baldwin, Mo.

Mark Kaufman is a design engineer for the Boeing Company. He lives in Canoga Park, Calif.

Kurt Adrian Kiser is the news director of WQNR in DePaul.

Bruce Kopp is a news reporter and on-air anchor for WQNR.

Gerald MacKenzie, '76, was killed in a plate crash that took the lives of six other forest rangers. He was survived by his parents, Mr. and Mrs. Frederick cosm of Canvilles.
Receives a deluge of replies
Late bloomer seeks female companionship

He wasn't a weirdo collecting women's telephone numbers just for kicks.
Nor was he trying to attract a deluge of female admirers to inflate his ego.
He was just a somewhat concerned 32-year-old, never-married bachelor searching for some companionship of the opposite sex.

His search method was, needless to say, unusual; but when you live in an energy-boom town with a 75 per cent male population in Colorado, 40 miles from the nearest town and 210 miles from a thriving metropolis, then the situation dictates drastic action.

Seeking a realistic solution, Tom Barminski, ex-80 of Craig, Colo., drove to Denver in early November, found a printer and paid $479 for 2,500 posters carrying a direct, but honest, letter with a color photograph of himself.

Only a year before, Barminski placed an advertisement in the Rocky Mountain News and received about 30 replies, but no serious prospects within driving distance of Craig.

This time his objective was to find someone closer to home to date so Barminski put up posters in Denver, Craig and Steamboat Springs, a resort area near his home.

However, Barminski, a Benton native, was ill-prepared for the results.

Within days, the first reply came not from a potential date, but a Denver Post reporter.

After the newspaper article appeared, every major news service in the country viewed on dozens of radio talk programs and the national limelight.

"Good Morning America," and was interviewed in a recent telephone interview that four of the candidates live in Craig.

His notoriety was not all favorable. His Craig neighbors thought he was some sort of a nut. What kind of man needs to advertise for a woman? And Barminski did get a Doberman Pinscher for security reasons.

Barminski's co-workers at Standard Oil, where he is a technical supervisor, were somewhat leary and skeptical of him, but they now appreciate that he vocalized a social problem common to others in Craig.

"Is he really looking for a wife?"

"While my intent now is to find companionship and companionship, any of these encounters could evolve into a life-long commitment, but it would require a long dating period since the divorce rate today is so high," he said.

Educated, free-spirited, respectable and from serious candidates who were well-educated, free-spirited, respectable and open-minded," said Barminski.

Once again distance was a factor as some of the best prospects had addresses in New Orleans, Buffalo, N.Y.; Illinois and Florida. But Barminski happily reported in a recent telephone interview that four of the candidates live in Craig.

In addition, he made appearances on local Denver television stations, ABC's "Good Morning America," and was interviewed on dozens of radio talk programs throughout the country.

"It was a mess in the beginning. My phone didn't stop ringing for weeks. Every 60 seconds or so, it would ring. I hung up and took the whole thing off the hook so I could sleep," said Barminski.

He received over 500 letters and phone calls along with a full array of women's photographs and still is receiving them.

His roommate, Terry Conci, ex-72, who is an electrician for Empire Energy in Craig, helped him screen the applicants and even met a woman from Craig one day when he answered the phone.

"Surprisingly most of the replies came from serious candidates who were well-educated, free-spirited, respectable and open-minded," said Barminski.

"About 70 per cent of them were college graduates and a large portion of them were school teachers and nurses."

If you are somewhat athletic, attractive, nonsmoking and think you could enjoy the company of a 32 year old never-married bachelor, the following may be of interest to you.

Summer Vacations for Inflation Fighters

Alumni Camp, Little Grassy Lake

July 5-11 or July 12-18

Due to the popularity of Alumni Family Camp, the Association is reactivating the camp for two weeks in July. Reserve a cabin or bring your own tent or trailer. Seventeen delicious meals provided. Babysitting for infants. Organized children's programs with counselors.

At Elkhart Lake, about 55 miles north of Milwaukee. Housing from rustic cabins to an inn or cottages with maid service. Varied and bountiful meals. Recreation programs geared to specific age groups. Babysitting for infants.

Camp Broquis, Elkhart Lake

June 21-27 One week only

For further information write SIUC Alumni Association, Student Center, Carbondale, Ill., 62901. Reservations limited, first come, first served. Membership in the Alumni Association required.
