This Article is brought to you for free and open access by the SIU Alumni Association at OpenSIUC. It has been accepted for inclusion in SIU Alumni Magazine by an authorized administrator of OpenSIUC. For more information, please contact opensiuc@lib.siu.edu.
EDITOR'S NOTE: This will be the first of a series of Alumnus articles about Illinois funding of higher education. See Page 3 for a related article.

Three SIU administrators urge acceptance of the Illinois Board of Higher Education funding proposal for a $145 million increase for next year.

This is a saga of a university's battle with inflation and a balanced budget while struggling to maintain quality education.

It is a true story of salary raises and employment freezes, of expenditure reductions, of budget callbacks and of priority-ranking task forces.

SIUC financial woes began when the Illinois legislature appropriated only $390 million in general revenue funds for the 1982-83 fiscal year, stripping $6 million off the University budget.

Then Illinois Governor James Thompson ordered freezes, of expenditure reductions, of budget callbacks and priority-ranking task forces.

Baker said.

His actions were taken as part of an overall state budgetary plan, which included increasing state revenue and reducing state expenditures.

He said that SIUC was able to struggle through Thompson's first-round budget cutbacks because of a $1.8 million reserve fund set up by the administration.

Pay raises postponed

However, anticipating possible further cutbacks, the SIU Board of Trustees postponed implementation of projected three percent pay raises pending notification from Thompson regarding the severity of the state's financial situation. Thompson has indicated state revenue shortfalls could total $300 million or more and might necessitate cuts in state budgets he already approved.

The board outlined three alternatives that are being considered for implementing the University's pay-raise plan in March:

—Granting a retroactive increase (to January or thereafter) with the raise first appearing on April paychecks, which would include lump-sum payments to compensate for pay periods missed.

—Giving no pay increase at all (if major cuts in University budget are needed).

Civil Service laid off

Further belt-tightening steps were taken Jan. 24 to deal with state cutbacks. Five Civil Service employees in the SIUC's physical plant were laid off indefinitely.

SIUC officials also announced a campus-wide hiring freeze, barring further hiring between Jan. 24 and the end of the current fiscal year.

Clarence G. Dougherty, SIUC's vice president for campus services, said the layoffs are needed to give the University enough money to meet payroll between now and the end of the fiscal year.

He said the affected employees were notified Jan. 21 that the layoffs take effect Feb. 14.

Campus jobs frozen

The hiring freeze covers vacancies in all faculty, administrative and civil service positions, according to John Baker, special assistant to SIUC President Albert Somit. Baker said the freeze will last until the end of the fiscal year on June 30 or "until our position with respect to the state's revenue crisis indicates that it no longer is necessary."

Baker said.

He said that SIUC officials also announced a campus-wide hiring freeze, barring further hiring between Jan. 24 and the end of the current fiscal year.

Deans make more budget cuts

Preparing for possible further state cuts, John Guyon, vice president for academic affairs, Jan. 25 asked deans of various colleges and schools within SIUC to cut an additional $507,000 out of their budgets.

The preparations are essentially to save people's jobs in the event the request for more cuts comes near the end of the fiscal year, he said.

Affected areas and projected budget withholdings are:

Academic Affairs, $350,000; the President's Office and Computer Affairs, $22,000; Student Affairs, $23,000; University Relations, $7,000; Campus Services, $95,000; Financial Affairs, $54,000; and the School of Medicine in Springfield, $11,000.

Ranking academic, non-academic priorities

Looking at possible long-range budget cuts, Somit has set up two committees to rank University academic and non-academic priorities.

University officials say it is a potentially disruptive situation, but it is almost impossible to continue allocating funds without some type of priority system to determine which SIUC programs should receive what funding.

So far, the chairpersons of both committees have complete cooperation from all parties concerned.

"Most people would rather be involved in the process of analyzing their livelihoods, if they have a choice," according to Marvin Kleinau.

Kleinau headed a task force setting up guidelines for the academic ranking process. The report was published Dec. 15, 1981.

Then in April 1982, using those guidelines, President Somit formed the academic-ranking committee with Kleinau as chairperson.

The 20-member committee includes 13 faculty members, two students, constituent-group representatives and Vice President Guyon.

Currently, the committee has evaluated two-thirds of approximately 90 degree-granting campus programs. Final evaluation will be completed in February, Kleinau said. The programs are being locked at in terms of 12 criteria for ranking each program's importance.

Each member will recommend one of four fates for the program—elimination, reduction, maintenance or improvement. The results will be given to President Somit, who will make final recommendations to the SIU Board:

Not all the faculty agree with the ranking process. Officers of the Carbondale chapters of the American Association of University Professors and the American Federation of Teachers placed an advertisement in the campus newspaper criticizing the evaluative procedure.

The faculty organizations said in the ad that they feel the ranking criteria are unscientific, the voting committees are not a representative faculty sample, and the categories are unsatisfactory and the evaluation period should be spread over several years.

Kleinau says programs and faculty have been evaluated both internally and externally for years and this is just an extension of the process with faculty more involved.

"At least in this process, all of the departments have input. Everyone will have his or her say before the decisions are made," he said. "The alternatives could be another '104'—where tenured faculty members were just fired."

The non-academic priority-ranking committee is headed by James H. Seroka, an associate professor of political science. The committee with 12 representatives from all campus constituencies, will review 117 non-degree granting programs.

Seroka said a survey of all the programs is being conducted. Data will be compiled and then committee members will vote and rank programs in the same four categories as the academic priority-setting committee.

A report to the president is due April 1, he said.
University House name changed

SIUC will name the official residence of its president for the Chicago couple whose 1909 gift of $1 million in insurance company stock paid for its construction.

The SIU Board of Trustees ratified SIUC plans last fall to name the residence and meeting center for W. Clement and Jessie Stave University House.

The Staves' gift of $1 million in Combined Insurance Company of America stock to the SIU Foundation paid for the construction of the building and advanced the foundation to buy it from the University.

The building's $900,000-plus cost caused controversy while it was under construction in the late 1900s.

Born in Chicago in 1902, Stave is a living testament to the Horatio Alger philosophy of hard work and self-reliance, he employs through books and lectures on PMA—Positive Mental Attitude.

Left fatherless at the age of two, Stave was hawking the old Chicago Examiner on city streets by the time he was six. He began selling insurance when he was 16, and used $100 in savings to set up his own insurance company when he was 20. By 1979, his Combined Insurance Co. group had assets worth more than $1.5 billion.

Stave is well known for his civic activities and philanthropy. He is chairman of both the Chicago Boys Club and Chicago's Gage Park Hearts and Hands organization and is a member of the Menninger Foundation, World Organization for Mental Health, and World University's New York campus.

He also is board chairman of the Interlochen (Mich.) Arts Academy and the International Council for Education of Teachers.

He received the SIUC College of Business Administration's Lifetime International Leadership Award for Business Entrepreneurship in 1980.

Briefly . . . .

Arthur J. Cox, formerly chairman and associate professor at Eastern Tennessee State University's Department of Social Work, named director of SIUC's Division of Social and Community Services, and named chief of a new social work studies unit.

Revenue-bond fee going up by 60.60 a semester for full-time students. University officials say without increase, students would face hikes in housing charges and the Student Life. Free campus facilities such as residence halls and the Student Center, which were built with proceeds from bond issues issued by SIUC... Ward M. Morton, professor emeritus in the political science department, named winner of the Willis Moore Fellowship.

The skills they learned would fill a gap of what college graduate from the Asian nation of Malaysia . . . .

In addition to technical subjects, most students learn English and gain working experience at native factories through this province. They learned what they'll need to know to teach others to build a nation, and now are on the way home to get to work at their new jobs in the capital.
SIU administration

Students, professors and administrators across the front pages of the Daily Egyptian enrolled him in the Book of the Screwdriver, and another anonymous spectacled figure quips his way enough to earn several Ph.D. degrees, but sometimes he misses.

"And sometimes we can look back the next day and see that we picked the wrong one. But not often."

"Somebody once mailed him a package without containing anything but a two-foot-long screwdriver, and another anonymous acerbic enredil him in the Daily Egyptian newsroom by a group of faceless, hornrim-glassed figures."

"No one seems to know for sure where the name came from," said Harmon. Clayton apparently appropriated it from graffiti scrawled on campus walls during the early 1960s. "It was like 'Kilroy was here,' but the name was Gus Bode," Harmon said.

After several years having his say on the newspaper's editorial page, Harmon says the move seems to have been simply to make room for something else Clayton thought needed to be in the editorial space. The faceless, hornrim-glassed figure was added later.

"He began to base his quips on the day's news in the early 1970s. 'He's skeptical,' Harmon said. 'Not cynical.'"

"Official foolishness is his favorite target, and there is enough of that to provide him with stuff to comment on."

Harmon says Gus tries to reflect the viewpoint of the "average" student at SIUC. Sometimes he makes his point; sometimes he misses.

"He's the perennial sophomore," Harmon said. "He's not always effective. Sometimes he's contrived, but what's wrong with that.

"He usually takes the student's point of view on things that affect students. After all, he's been a student a long time."

"We have reached a time when we—our state, its leader and its citizens—must evaluate our expectations of higher education and the role it is to play in the economic recovery of our state," Shaw said. The IBHE budget proposal is a $142 million increase in state appropriations.

"If Illinois is to retain bright young talent to the state will depend in large measure on its willingness to make substantial investment in higher education. A substanial investment in higher education—and SIU in particular—will be needed to carry out its part in the state's education." The Illinois Higher Education Appropriations Bill is set for April 9 as a tribute to the late Deluye W. Morris, former president of SIU, on the first anniversary of his death.

"SIUC President Albert Somit has named Stanley R. McAnulty, vice president for University Relations and Development, to head a committee that will coordinate these events.

"A bronze statue of Morris by Freda Brilliant will be unveiled and dedicated from 10:00 to 11:00 a.m. at a luncheon at the Student Center. There will be an Open House at the W. Clement and Jessie V. Stone House (formerly the University House) and all University departments from 1:00 to 3:30 p.m. A memorial concert will be held from 3:30 to 4:30 p.m. at Shryock Auditorium. A distinguished guest speaker (to be announced) will deliver the memorial address. Details of the tribute will be announced in the March Alumnus. Interested persons may call Jack Dyer, executive director of University Relations (681) 452-5306.

All alumni, former Morris colleagues, faculty, students, friends of the University and the general public are encouraged to participate."

"He's the perennial sophomore," Harmon said. "He's not always effective. Sometimes he's contrived, but what's wrong with that?"

"Gus has a distinctive flavor, a distinctive touch, to the Daily Egyptian that 90 percent of students thought Bode should keep up his comments, and 63 percent thought he "frequently expressed their feelings". Harmon says sometimes Gus gets tired after almost 27 years as a student, but the faceless figure is enjoying too much to quit.

"He's added a distinctive flavor, a distinctive touch, to the Daily Egyptian front page. Things always come along for Gus to have some fun with."

"SIU is to retain bright young talent to its state, its leader and its citizens—must evaluate our expectations of higher education and the role it is to play in the economic recovery of our state," Shaw said. The IBHE budget proposal is a $142 million increase in state appropriations.

"If Illinois is to retain bright young talent to the state will depend in large measure on its willingness to make substantial investment in higher education. A substanial investment in higher education—and SIU in particular—will be needed to carry out its part in the state's education."

"The state of higher education is but a slice of a more general public dis­ ease—human service across the board has suffered severely," he said. "We must con­ vince the taxpayers of Illinois that more money is needed to feed, clothe and shel­ ter the stricken, and to provide the educa­ tional opportunities essential to a sane, decent future—not to mention a prosper­ ous one."

Three-point play makes MVC debut

Sports Scoop
Sam Hancock, United Press International bureau chief at Marion, interviewed John Harper during Media Day session before the football season at McAndrew Stadium.

Three-point play makes MVC debut

The three-point play made its debut in the Missouri Valley Conference this basketball season, and early reactions are mostly unfavorable.

While West Texas State coach Ken Edwards has been an outspoken advocate of the new rule (which gives a team three points for a basket scored 19 feet 9 inches from the basket), the Missouri Valley Conference this baseball season before the football season at McAndrew Stadium.

Homecoming 1983 will be the occasion when members of the 1959 football team will be invited back as special guests. Houston Antwine, Willie Brown, Jr., Dick Carpenter, Tom Brun, Rich Dawson, Cecil Hart, Shawn Hawkinson, Rex Jester, Jim Marano, Dan Miller, Dick Nelson, Bill Norwood, Nick Re, Carver Shannon, Charles Stephoe and Dave Wohler will be among the Valley teams to return for the second time as they were all on the 1957 team invited in 1982. Invited to return for his final season will be Doc Bates, Paul Brostrum, Arno Bullocks, Gerald Eakoff, Frank Harrington, Jan Jancos, Lene Jenkins, Clyde Ross and Bill Schilling.

While we're thinking of the 1983-84 school year, the basketball Salukis will be playing in two attractive tournaments on the road in December. They'd be at Lafayette, La., Dec. 15-16 competing in the Bayou Classic along with the host Southwestern Louisiana club, California-Santa Barbara and one other team yet to be selected. The following week, Dec. 22-23, they'll be in Las Vegas along with host Nevada-Las Vegas, Oklahoma and Southern Methodist. Both would make grand trips. Lafayette is within easy driving distance of New Orleans. There's a four-team tournament in store for next season and it's being arranged for the SIU Arena. Details may be available by next month.

Might as well go through the entire school year, since we've gone this far. Former Saluki star—well, if you want to think about being fired. He'll be standing mid-May attract at McAndrew Stadium.

It'll be the Missouri Valley Conference meet, which has been awarded the MVC for the second time in four years in order for Athletic Director/Track Coach Lew Hartzog to observe his final season in 1984 as track coach in glorious fashion. He'll be his big swing and never has there been more a fitting occasion for a record turn-out at home. The meet is set for May 18-19, 1984.

Also look for record crowds, at least for early-season games when coach Biggs Jones' Saluki baseball team opens at home March 8 against Missouri State. Missouri State will open the season March 12 at W. Texas St. in a 1984 conference 28-27 against Memphis State. The attraction? A first look at freshman standout Bob Jones, who turned down a near-$90,000 bonus to attend SIU, study communications and learn more about the basics of baseball under one of the finest college coaches in the nation.

Gymnastics fans won't have to wait quite long for a standout event, however. Men's coach Bill Meade and women's coach Herb Vogel will be staging a combined meet the first Friday in February. There'll be the SIU Arena with the University of Illinois' teams providing the competition. It'll be one of the several winter athletic events being shown over various cable TV stations throughout the state.

Many thanks to all those who have inquired about my mother, Mary Huff. She passed away Nov. 30, 1982.

Defensive end

All-American John Harper grabs numerous honors

Despite a severely injured ankle, senior defensive end/linebacker John (Scooby) Harper prospered enough honors to brighten a 40-6 Saluki football season. He was named to the Associated Press' 2nd team Division I All-American as a defensive end.

Earlier, Harper was tagged in the National Collegiate Athletic Association's Defensive Player of the Year. He had 110 tackles this season, second only to his academic, junior linebacker Granville Butler, a Markham native. He also had seven sacks and two fumble recoveries this year to his already impressive stateline.

Fully recovered from his badly sprained ankle, Harper impressed professional football scouts in two post-season all-star appearances, the Blue-Gray game in Montgomery, Ala., on Christmas Day, and the Senior Bowl Jan. 22 in Mobile, Ala.

Wide receiver Kevin House, now of the Tampa Bay Buccaneers of the National Football League, was the last Saluki to play in a post-season all-star game—the Blue-Gray Game three years ago.

The NFL is planning to hold its pro draft sometime in February. Dempsey expects Harper to be selected in the top three round.

Harper was chosen Jan. 4 in the third round of the United States Football League draft by the Denver Gold, one of five teams to turn in a bid. The SIU team opens its first season in March.

Additionally, Harper and two of his teammates were named to the all-MVC first team. The others were Butler and Terry Taylor, a defensive back from Youngstown, Ohio. Three other Salukis were selected to the second all-MVC team. They were: wide receiver Marvin Hinton, a senior from Memphis, Tenn.; offensive tackle Brand Pilgard, a junior from Woodstock, and defensive back Greg Ship, a senior from Memphis, Tenn.

A 1979 graduate of Kingsbury High School in Memphis, Harper made the Tennessee All-State football team. He earned three letters in football and track and two in basketball. He finished fourth in Tennessee in the shot put and discus and once scored 30 points in a high school cage contest.

1982-83 Men's Basketball Schedule

Feb. 3 INDIANA STAR
Feb. 5 Bradley
Feb. 7 TULSA
Feb. 19 CREIGHTON, 1:35 p.m.
Feb. 17 W. Texas St.
Feb. 19 TULSA
Feb. 21 INDIANA State
Mar. 6 W. Texas St.
Mar. 8-10, 12, MVC Tournament Home games (in caps) start at 7:30 p.m.

George Vukovich traded to Cleveland Indians

Former SIUC outfielder George Vukovich was traded to the Cleveland Indians.

Vukovich was part of a five-person deal his former employer, the Philadelphia Phillies, set up to obtain the Indians' outfielder Von Hayes. This past season Vukovich hit .272 for the Phillies with six homers and 40 RBIs, six of which were game-winners. The right fielder committed only four errors in 123 games. Even though he didn't play with the Phillies in the 1980 World Series, Vukovich was the first Saluki ever to be on a Series team.

An Arlington Heights native, Vukovich played varsity baseball from 1978 to 1980, when he signed with Philadelphia. He was named to The Sporting News All-American team in 1977 as he led the Salukis to a third-place finish in the College World Series.

Vukovich's accomplishment came in the 1980 National League playoffs when he hit a three-run homer in one game to beat Montreal.
Mark Hemphill dead at 23

Mark Hemphill, former SIUC football player, was found dead Sunday night near Nov. 27 in the parking lot of the St. Louis, Mo., apartment complex where he lived. An autopsy determined that the 23-year-old Hemphill died of myocarditis, a heart infection caused by a virus. According to St. Louis officials, Hemphill's death was not related to injuries he suffered while playing football at SIUC.

Hemphill was paralyzed in a freak accident due to injuries he suffered diving for a fumble Oct. 6, 1981, in a football game against Illinois State University in McAndrew Stadium.

There had been some speculation Hemphill's death may have been related to his physical condition because of his paralysis or that he had died of exposure. The chairlift on his van was jumping for joy.

The key as far as Johnson and Shipp are concerned is that the rule was made retroactive to apply to anyone on the roster.

Freshmen were allowed to be "red-shirted." The eligibility granted another year eligibility to help them and to play

The Salukis lost only to Oregon State (65-61 in the season opener), Western Kentucky (68-65) and the University of Illinois (66-65).

Wine has been poured over Vanderbilt (72-69), Murray State (76-60), Illinois Central (84-69), University of Illinois-Chicago Circle (70-58), Loyola (76-58), Florida A & M (80-56), McNeese State (66-56), Central Florida (94-65), Indiana State (63-60), Western Illinois, DePaul and Wichita State.

The winner of the GCAC Conference games are upcoming. The Salukis joined the GCAC in early July. The conference, a national leader in fieldgoal percentages, a nemesis in early season, have not been a problem lately. The Salukis have been hitting at a .645 pace from the stripe.

The Salukis return home to play Green Mountain for Appointment in October (Photo by Greg Drezd-zon)

Louis, who where he had been a track and football star. He was an SIUC sophomore when he was injured.

At the time of his death Hemphill had been attending a community college in the St. Louis, Mo., area where he was studying computer programming.

He is survived by his parents, Mr. and Mrs. Omer Hemphill of St. Louis and a daughter, Tiffany, of California.

Connie Price
Out-of-state contenders are Drake, Northern Iowa, Indiana State, Wichita State and Southwest Missouri.

In February the cages wind up regular season play at Illinois State (Feb. 15); Southwest Missouri (Feb. 4); St. Louis (Feb. 7); Louisville (Feb. 11); Tennessee-Martin (Feb. 12); Indiana State (Feb. 14); Drake (Feb. 18); at Creighton (Feb. 19); Eastern Illinois (Feb. 21); at Missouri (Feb. 23); at Murray State (Feb. 26).

The winner of GCAC tournament competition, March 3-4, will automatically gain a berth in the NCAA Regionals, March 17-20.
**Alumni loans help students**

Nearly 500 SIUC students borrowed $65,784 from the Alumni Association student loan funds during the 1981-82 fiscal year.

Three student loan funds are supported by alumni contributions given annually in the local or national telefunds.

For the first portion of the 1982-83 fiscal year, 306 students already have borrowed $37,475. Of this total, 240 students borrowed $38,150 in short term loans; 59 students made emergency loans of $7,425 and seven medical students borrowed $3,900.

To help raise money for student loan funds and other SIUC projects, seven local telefunds have been planned for March and April.

Details will be published in the March Alumnique. Last year's telefunds raised over $40,000.

**Alumni named in publication**

The name of alumna Robert G. Stevens is among those listed in a new publication listing the heads of the nation's top corporations.

Stevens, a 1961 graduate of SIUC, is cited in a publication titled Alumni of State Universities and Land-Grant Colleges Who Are Leaders of the Nation's Top Corporations.

Stevens was chairman of the BancOhio Corp., based in Columbus, Ohio, at the time the publication was compiled. He left that position in July to become president of Financial General Bankshares in Washington, D.C.

**Eulogy**

**Orville Alexander**

It is an outstanding classmate of 1931 that I bear tribute. With other members of the class in silence, we wish to offer our condolences to the family, relatives and other friends who are not members of the class.

Orville, a man who was willing to help any one at any place or time in need of his help, is now in silence to us but no doubt he will be of help in eternity. As you whisper a word of prayer for the repose of his soul, I am sure he is praying for you.

I hope Southern Illinois University will find someone equally as qualified to fill his place.

At this time, I wish to share my sympathy with all of Orville's acquaintances.

I am yours and his classmate, Julia M. Timko

**Law graduate elected '82 class representative**

A law graduate has been selected as the Class of 1982 representative to the Alumni Association's Legislative Council. Lisa K. Franke of Edwardsville will speak for all 1982 SIUC graduates at the Legislative Council meeting held annually at Homecoming.

Franke was president and former secretary of the Student Bar Association, and was a second alternate. She received a bachelor's degree in thermal and environmental engineering. She was president of the Society of Women Engineers, a senator in the Undergraduate Student Organization, and corresponding secretary and vice president of the Engineering Club.

Kenneth D. Maschhoff of Carlyle, an animal industries graduate, was elected second alternate. He was voted outstanding senior in the School of Agriculture. He was vice president of Alpha Gamma Rho, a senator in the Undergraduate Student Organization, "Scholar of the Year" and recipient of the Service to Alpha Gamma Rho Award for 1982.

The various colleges nominate students annually to represent each graduating class and the members of that class elect their representative following graduation.

---

**I. Alumnique**

**Association Recognition**

Robert Puliam, past president of the Alumni Association, poses with Neva Isbell (left), wife of the late R. Dean Isbell, board treasurer and system capital affairs officer, and Dorothy Morris (right), wife of the late Delcy W. Morris, former president of SIU. The Association presented the two women resolutions commending the work and dedication of their late husbands to the University. They were presented at Homecoming.

**Law graduate elected '82 class representative**

A law graduate has been selected as the Class of 1982 representative to the Alumni Association's Legislative Council. Lisa K. Franke of Edwardsville will speak for all 1982 SIUC graduates at the Legislative Council meeting held annually at Homecoming. The council is made up of members from every SIUC graduating class, SIUC alumni clubs, constituent societies and the association's board of directors.

Ms. Franke was president and former secretary of the Student Bar Association, served as chairman of the Orientation Committee and was a head resident at Baldwin Hall, Thompson dormitory.

Candis Chillemi of Benton was elected first alternate. She received a bachelor's degree in thermal and environmental engineering. She was president of the Society of Women Engineers, a senator in the Undergraduate Student Organization, and corresponding secretary and vice president of the Engineering Club.

Kenneth D. Maschhoff of Carlyle, an animal industries graduate, was elected second alternate. He was voted outstanding senior in the School of Agriculture. He was vice president of Alpha Gamma Rho, a senator in the Undergraduate Student Organization, "Scholar of the Year" and recipient of the Service to Alpha Gamma Rho Award for 1982.

The various colleges nominate students annually to represent each graduating class and the members of that class elect their representative following graduation.

---

**Voluntary support**

In order to provide SIU with additional funds for scholarships and loans, library improvements, and other SIUC projects, seven local telefunds have been planned for March and April.

Details will be published in the March Alumnique. Last year's telefunds raised over $40,000.

**Q. Which is the most important...annual gifts, capital gifts, deferred gifts?**

**A. Which is the most important leg of a 3-legged stool?**

Of course, all of these ways to give are important. But if you would like to make your gift even more meaningful...consider a gift that is UNRESTRICTED to its use. Why?

Because unrestricted gifts are used where the need is greatest. They allow SUIC to provide additional funds for student scholarships and loans, library improvements, and research programs of special importance.

Make a commitment this year to help your alma mater in one of these areas. All gifts should be directed to the SUIC Foundation.
D. McHenry comments strongly; favors lasting Mid-east peace

Donald P. McHenry, SIUC alumnus and former U.S. Ambassador to the United Nations, has come out strongly in favor of “a lasting and just peace in the Middle East” in an interview published in the Fall, 1985 issue of a new journal, American Arab Affairs. McHenry expressed his view that the Camp David peace process is “dead in terms of the West Bank, though I recognize the need to act as if it is still alive so that things can be pushed forward and the parties will remain committed to the negotiations.”

The former ambassador also identified himself with the view that Palestinian statelessness is the “underlying problem” in the Arab-Israeli conflict and that President Reagan’s “Fresh Start” initiative is flawed because “it recognizes the legitimate right of the Palestinians but it goes on to make it very clear that those rights do not include self-determination.”

Ambassador McHenry received his Master of Science degree in Speech and Political Science from SIUC in 1969, and served as United States Ambassador to the United Nations from 1979 to 1983. He is currently University Research Professor of Diplomacy and International Affairs at Georgetown University.

Manuel Justiz named education director by President Reagan

Manuel J. Justiz, has been appointed director of the National Program of Education in Washington, D.C., by President Ronald Reagan. Justiz served on the president’s planning committee for the visit of former Mexican President Jose Lopez-Portillo, most recently served as director of Latin American Programs in Education at the University of New Mexico, where he is assistant professor in the Department of Educational Administration of the College of Education. He has also served on the Inter-Governmental Advisory Council on Education, which advises the President and the secretary of education on educational issues. For several years, he served as a program officer with the Lilly Endowment Higher Education Program. He was also director of the Title III program at Haskell Indian Junior College in Lawrence, Kan.

He received his Ph.D. from SIUC in 1976.

Campus Visit

Yayahia Ibrahim (right), federal inspector of schools with the Malaysian Federal Ministry of Education, recently returned to his alma mater to visit with SIUC President Albert Sercret, Alcy, he talked to some of the 900 Malaysians studying at the University and to John Guyon, vice president for Academic Affairs and Research, and Bruce Swinburne, vice president for Student Affairs. Ibrahim received a master’s degree in 1976 and a Ph.D. in 1979.

Scholarship set up for J.J. Patterson

An agricultural mechanization scholarship fund has been established at SIUC in memory of the late associate professoremeritus John J. (J.J.) Patterson. The Patterson, a long-time faculty member of the SIUC School of Agriculture, died Sept. 7. He was widely known for his inventive nature and developed a national reputation for his work in developing research machinery for forage harvesting. He was also a founder and, for nearly 20 years, coordinator of the widely-attended South ern Illinois Farm Markets Handling Show.

Robert Wolff, professor of agricultural mechanization at SIUC, said the scholarship will be awarded annually to an outstanding junior or senior mechanization student whose personal qualities best commensurate the dedicated service of Mr. Patterson. Wolff said the fund was established through the SIUC Foundation, to which tax-deductible contributions to the scholarship fund may be made.

Travel, study, earn credit with Continuing Education programs

This summer you can learn, travel, have fun and get college credit, too. The Extension Division of Continuing Education has put together eight travel-study programs for faculty, alumni and students.

The programs include:

- JAPAN: Two programs are planned. One is for persons interested in the latest developments in communication technology. A tour of Japanese media led by SIUC’s Charles Shipley, a professor in radio-television, will begin June 16 and end in early July. The cost is $2,900. The second program, studying Japanese techniques of special education for two to three weeks, is being set up by Takashi Hashimoto, professor in special education. Cost is about $2,200. Dates have not been set.

- HAITI: A one-month program has been developed by Davis J. Pratt, a lecturer in comprehensive planning and design. Individuals can use their expertise to assist a community project. Price is about $1,100. Set for July.

- BELGIUM, ENGLAND AND FRANCE: This is for persons who are interested in interior design, fashion retailing or fashion design. Cost about $3,200. Set for May 17 to June 28, it will be led by Dennis M. Hays and Kay Griege, both assistant professors in comprehensive planning and design. Participants will visit the houses of fashion in Paris and London.

- JAMAICA: This interdisciplinary program emphasizes black American studies, political science and the Jamaican culture. It is directed by Locksley Edmondson, coordinator of the Institute for Caribbean Studies, political science and psychology.

Continuing Education programs have put together eight travel-study programs for faculty, alumni and students.

- HYDERABAD: A two-week program for persons interested in the latest developments in communication technology will be led by Dr. H. Srinivasan.

- HAITI: A two-week program for persons interested in the latest developments in communication technology.

- MEXICO: This, the oldest travel-study program, was first accredited in 1951. A cultural immersion, two-month residential program, allows the student to improve Spanish-speaking skills while living with a Mexican family. Cost is about $1,350. Arnold Usher, assistant professor of foreign languages and literature, will make all the family placements.

- ITALY: Art students will study painting and drawing at the University of Salerno in Paestum, Italy, for six weeks, then visit Rome and Florence for one week each. The cost will be $2,500 to $3,000. Sherwood A. Fehrn Jr., assistant professor of art, will make arrangements.

- SOUTHWESTERN UNITED STATES: In a six-week study in some seven states, students will study desert and other ecological points of interest. Cost is about $1,000. The tour will be led by Bruce Peterson, assistant professor of zoology.

- All tours are subject to change. Make reservations early to take advantage of lower air fares.

- Scholarship recipients and service award will be presented. Call Helen Banacky (618) 985-2687.

- HAITI: A one-month program has been developed by Davis J. Pratt, a lecturer in comprehensive planning and design. Individuals can use their expertise to assist a community project. Price is about $1,100. Set for July.

- BELGIUM, ENGLAND AND FRANCE: This is for persons who are interested in interior design, fashion retailing or fashion design. Cost about $3,200. July 3-8—ALUMNI FAMILY CAMPING at Camp Brosius, Wis. Write the SIUC Alumni Office, Student Center, Carbondale, Ill., (62901) for complete details and reservations.

August

Aug. 6—SUMMER COMMENCEMENT.

Aug. 22—FALL SEMESTER BEGINS.
The Classes

22
Albert Alvin Becker, '22, is retired and lives in Johnston City with his wife, Eliza. They celebrated their 56th wedding anniversary in September.

Monroe J. Myers, '22, and his wife, Genevieve, '20-21, live in Carbondale.

29
Joseph W. Galbreath has written a book called, Drumsbeat, a collection of essays about nature, history and farm life arranged according to the months of the year. He began teaching in 1925 and spent most of his life in the East St. Louis system teaching biology. He and his wife, Thelma, moved to Centralia following his retirement. Galbreath is known to Illinois conservationists for his efforts to save the prairie chicken from extinction. In 1950 he organized the Prairie Chicken Foundation of Illinois. He wrote another book of reminiscences, called Echoes of My Life. Both books are available from the author by writing 11104 Cadigan Ln., St. Louis, Mo. 63138. Arbeiter met his wife, Dora, in 1951 and they have three children and live in Pekin, Ill.

30
Aurelia Davis Harris, '22, is a housewife and lives in Marion with her husband, Ray, '23, who has been on the Central Illinois Public Service Co. for the past 34 years.

32
Ruby G. Meredith is a retired social studies teacher. She and her husband, Don, live in Pury, Tenn. They have two sons, Jim, '81, and Tom, '80.

35
Freemont Arbeiter has donated an autographed copy of a book he has written entitled I Washed the Dead. This book is an autobiography of an albino Palestinian donkey who describes the great events of biblical history from his point of view. Copies can be purchased at $5.00 each from the author at 11104 Cadigan Ln., St. Louis, Mo. 63138. Arbeiter met his future wife on the trucker-church auditorium tour and the couple celebrated their 60th wedding anniversary in December.

36
Charles Bertram Ebbs is retired and lives in Carbondale. Both his children, Sundra and Stephen, are SIUC graduates.

37
J. Kenneth Craver has donated to the SIUC Alumni Library a book he edited, AgainstPolymer Science. Craver, of Glenwood, Ind., was an Alumni Achievement Award recipient in 1978.

38
Evangeline Krull Gremmels, '22, is a retired second grade teacher. Her husband, Leonard, died in 1977. She lives in Sparta.

39
Lowell D. Samuel is the president and owner of MIDC0 International and Samuel Music Co. of Effingham. He and his wife, Lucille, live in Effingham and have three grown children.

40
Frederick S. Boucher is retired and lives in Harrisburg.

41
Wanda Gustine is retired and lives in Marion.

42
Charles H. Holliday, Jr., is the director of Kiefer Healthwise Systems Inc. He and his wife, Fern, live in Montana, Idaho. The couple have seven children.

43
Moseley Odell and his wife, Edith, are both retired and live in Alto Pass.

44
William H. South, ex, is a judge in the First Circuit Court of Illinois. His wife, Margaret L. McIntire, ex, '56, is a retired secretary of Senior Citizens Estate in Carbondale.

45
Mehry M. Schmelzel is a principal in the Old University School.

46
Halleck F. Rease is a self-employed accountant. He lives in Horseshoe Bend, Ark.

47
Two 1947 SIUC graduates contributed to a history of Marygrove, Illinois (1845-1960), written by Woodrow W. Flabick. The foreward is written by David Kenney, '47.

Lived Beevee Inman, '47, of Avis, died Dec. 13, 1982, in St. Joseph Memorial Hospital in Murphysboro. He was a member of the Bondville Women's Club and the Bondville Community High School District. He was a member of the Bondville Community High School District. During his career, he was a school teacher and contributed to his community by teaching education classes in school for over 30 years.

Sibyl Corrine Garnett, '30, of Decatur, died March 17, 1982, in Marion Memorial Hospital. She had retired from teaching after 45 years of teaching in the Decatur school system. Survivors include two sons, a niece and several other relatives.

Georgia Lockwood Sloan, '30, of McLeansboro, died Dec. 17, 1982, in Hamleton Memorial Hospital in McLeansboro. She had retired after having taught 40 years in the Hamilton County elementary schools. She is survived by a sister, a niece and several other relatives.

Jerry V. Harrelson, '31, of Decatur, died Dec. 17, 1982, in his home. He was a retired school teacher. Survivors include two daughters, three sisters and five grandchildren.

H. Frank Evans, '34, of North Fork, Md., killed in a self-inflicted gun shot wound. He wrote a column, entitled "Up the North Fork," for 11 years for the Hungry Horse News. He taught at North Park Elementary School in North Park, near Coeur d'Alene and later became head of the journalism department. He wrote from 1918 in 1936. He worked for the U.S. Forest Service and National Park Service before becoming a journalist and naturalist. In addition, he operated the Black Bear Inn, often taking tourists on float trips and hiking trips through Glacier Park. He is survived by his three children.

Charles T. Crow, '52, of Carbondale, died Dec. 13, 1982, in Memo- rial Hospital in Mount Vernon. He had taught English one year at St. Luke's Vocational Technical Institute, and also taught English in the elementary schools for many years. Survivors include his wife, Norma; two sons, a daughter, two sisters and two brothers.

Mary Jane Schneider, '59, of Mount Vernon, died Dec. 13, 1982, at Good Samaritan Hospital in Mount Vernon. She was a teacher in the Mount Vernon school district and was a member of the Mount Vernon Women's Club. She is survived by her husband, John, and her two daughters, a granddaughter and a great-grandson.
Woodcarver

When "Fred E. Myers: Woodcarver" rolled off the presses two years ago, authors George Mavigliano (left) and Richard Lawson knew they hadn't closed the book on the rural West Frankfort woodcarver. Since then the SIUC faculty members have received letters and calls from people who knew Koo and his 30-year-old wife, Soonhwan, and two children live at Southern Illinois in Carbondale.

SIUC Scientists want to solve problems

Scientists at SIUC's College of Engineering and Technology are looking for some people with problems or interesting ideas.

The faculty engineers would like to use their expertise to help companies in solving problems ranging from computer utilization and heat-loss reduction to materials handling technology or in conducting research and development projects.

The best part of the deal may be that both partners in the deal come out ahead.

Martin pointed out that although the SIUC engineers aren't trying to compete with regular engineering consulting firms, the faculty scientists often can tackle problems other consultants won't touch, because they're not trying to make a profit.

Representatives of several companies have visited the SIUC campus to look over its engineering research laboratories and talk with faculty scientists.

Federal grants range from one-year, $50,000 grants to study the feasibility of new high-technology processes to $500,000 awards for product development.

He said recent changes in the tax laws also make firms that donate equipment to institutions such as SIUC eligible for "substantial" tax benefits.

More information is available from Martin at the SIUC College of Engineering and Technology, (618) 453-3328 or associate dean Rehlof (Bud) Cook, (618) 453-6321.

U. Rugby shirt, maroon and white stripes, S.M.L.XL, $29.50.
V. Child's Letter Sweater, white maroon, Size 2, 4, 6, $14.95 (not shown).
W. Sweater, maroon with grey white, S.M.L.XL, $18.
X. Scarf, white with maroon or maroon with white, $12.50.

All prices include tax and postage.

Blind Korean student learns English at SIUC's CESL

Like many other international students at SIUC, he has a language problem. It's a problem he is determined to overcome, though.

Unlike most of his peers, however, Doe- huy Koo of Taegu, South Korea, has another barrier: he's blind.

The 40-year-old Koo, who enrolled in August in SIUC's Center for English as a Second Language (CESL), is one of only a few blind international students to attend SIUC within the past decade. He hopes to earn a master's degree in rehabilitation counseling.

Koo came to SIUC at the recommendation of fellow countryman Yongseh Cho, a Ph.D. graduate of SIUC who teaches at a university in Taegu. The fact that SIUC's Rehabilitation Institute offers both master's and doctoral degrees sealed the decision, he said.

In Korea, Koo taught high school and was a part-time college instructor in Taegu. He earned a master's degree in special education for visually handicapped children at Taegu University in 1984.

Koo also attended Tokyo Acupuncture Research Institute in Japan from 1986 to 1971. For the past 10 years, he was a practicing acupuncturist in Korea. Koo also has a practicing license in massage.

"I hope that I can practice my medical knowledge here in the United States as a part-time job," Koo said.

Koo and his 30-year-old wife, Soonhwan, and two children live at Southern Illinois in Carbondale.

Alumni staff position open

The position of assistant director, vacant for the past two years in the SIUC Alumni Service Office, is being activated and the application deadline is Feb. 28, 1983.

The person employed will be responsible for organizing and reorganizing alumni chapters on a state and national level; coordinating professional academic societies, colleges and departments, and other special events.

Applicants should hold a bachelor's degree (preferably from SIUC), possess excellent speaking and writing skills, be creative and "self-starting," be able to work with volunteers and have at least two years of related experience.

Interested persons should submit a comprehensive resume, references and salary requirements to Robert Odaniell, Director, Alumni Services, Southern Illinois University at Carbondale, Carbondale, IL 62901. SIUC is an equal opportunity, affirmative action employer.
