University makes plans in case funds fall short

Tuition increases, subsidy cuts seen

Peter Morris (right) son of Delyle W. Morris, president of the Fredrica Brilliant statue of his late father, eighth president of SIU (1948-1970), in Morris Library’s Hall of Presidents, as Dorothy Morris, widow of the president, and Peter’s wife, Sharon, and sons, Brett and Trevor, look on. Patricia Hunsaker, "57, M.S. ’60, SIUC Alumni Association president, praised Morris’ concern for SIU students: “Morris referred to us as men and women. And for the first time in our lives, that’s what we were. We were no longer students, but ambassadors of SIU.” (Southern Illinoisan staff photo) Story on page two.

"Any time you have a large graduating class, you have to work extra hard to fill the gap left behind. Of course, we always work hard to recruit new students, but, with the numbers graduating this year, it’ll take an extra effort.” U.S. Rep. Paul Simon (D-Makanda), who has represented the 24th Congressional District since 1974, will receive an honorary Doctor of Laws degree.

He was recommended for the honor by Chancellor Kenneth A. Shaw, who described Simon as “a true believer in the importance of education.”

Shaw said the University will honor Simon “for his many years of dedicated service to Southern Illinois and the nation, and for his longstanding support of higher education.”

To accommodate the Class of 1983, commencement exercises will be divided into three ceremonies.

The arrangement will allow each undergraduate more recognition. Each student will be called by name to the stage of the Arena, receive a handshake from the appropriate dean and be presented a diploma cover. Actual diplomas will be mailed to the students.

This will give the student’s family an opportunity to record the event photographically.

Previously, undergraduates only stood in a group by college.

(Continued on page six)
The Oklahoma City native is a graduate of DePauw University and Phi Delta Theta. He has been a member of the SIUC faculty since Aug. 15. A professor of marketing, King came to SIUC in 1967 after serving as president of both Kansas State University of Pennsylvania and Miami and from Indiana University.

SIUC honors 1,600 students

The Steins made it a family affair. Mom and dad (Jan and Ron Stein of O’Fallon), sister Leslie and her children, mother Mrs. Don White and Mrs. Edith Stein, all showed up to see Leann Stein accept the 1986 Glenn Award (two scholarships) during Honors Day ceremonies March 27.

Miss Stein was one of 1,600 SIUC students from 24 states and 48 military bases (participants in SIUC’s Programs for the Military) recognized for outstanding academic achievements at campus ceremonies.

U.S. Rep. Paul Simon (D-Makanda) and SIU Chancellor Kenneth A. Shaw were two of the speakers during Honors Day ceremonies.

Simon spoke to students, parents and faculty attending College of Communications and Fine Arts ceremonies, and Shaw attended the General Academic Programs audience.

Undergraduates with 3.5 grade-point averages (on a 4.0 scale) were recognized, and a number of scholarships and special honors were handed out during ceremonies in SIUC’s 10 colleges and schools.

The day was capped by a special reception for students and their parents in the Student Center. There, students had a chance to meet faculty and administrators, including Shaw, SIUC President Albert Somit, deans and department heads.

Alumni

The Association of Alumni and Former Students of Southern Illinois University at Carbondale

 presidente del Consejo de Educación. La mentira se desarrolló en un pasaje de lo que se sabe, un propagandista para el clero y para el pueblo. La opinión que se expresa es que se puede cambiar.

Ley de Min.

SIUC computing director named

Ley O Min, Director de Computación, anunció los servicios de la Facultad de la Universidad de Michigan en 1978.

El 50-año de Min es la decisión más importante de la Universidad, dijo el presidente de la Universidad, William R. Norwood, en el mes de junio.

"(The statue) is a symbol of a symbol," said Norwood. "A university president becomes a visionary, a person who instills a spirit. He left us the vision of a University."
SIUC files suit against administrators

SIUC has filed a civil suit seeking over $464,700 in actual damages and $900,000 in punitive damages against a group that includes three former SIUC administrators in the Office of Computing Affairs, one of whom is the unit's former executive director.

The suit, filed in Circuit Court in Jackson County, alleges fraud, conspiracy and breach of contract related to computer equipment and software dealings at SIUC between 1976-1981.

Irregularities in computer purchasing during the late 1970s were first unsealed by SIUC authorities in 1982 internal audit. Results of the audit have been turned over to federal investigators.

Nine individuals and three companies are listed as defendants by the SIU Board of Trustees.

Also named as defendants in the suit are Benny B. Barnes, computed by SIUC as a lecturer in the Department of Chemical, Biochemistry and Bioengineering; Gerald N. Pitts, both employed by SIUC as visiting son County, alleges fraud, conspiracy and between 1976 and 1981.

Academic, non-academic Task forces make recommendations

Campus committees charged with evaluating SIUC academic and non-academic programs with an eye to the future have reported their findings.

First up was the Committee on Non-Academic Programs Priorities. The committee, composed of representatives from all colleges and schools, was asked by President Albert Somit to develop a list of criteria to be used in establishing institutional priorities; to review priorities proposed by the vice presidents in light of the criteria; and to develop an overall non-academic program statement.

Overall goal of the committee was reallocation of resources.

Committee chairman James Sorka, associate professor of political science, suggested several efficiency-boosting measures for the offices of the president and vice presidents and gave a department-by-department list of recommendations for all non-academic programs.

The list included recommendations for elimination, reduction, combination, maintenance or enhancement of those departments or offices.

The committee recommended elimination of those units in the following offices:

- Vice President for Regional Research and Services
- Assistant Treasurer
- Library
- Office of Student Work and Financial Assistance

The Committee on Academic Priorities, headed by Marvin D. Kleinu, professor of speech communication, recommended programs for elimination, maintenance, and enhancement.

Recommended for elimination were associate degree programs in Correctional Services and Law Enforcement (SAC), bachelor's-degree programs in Religious Studies and Latin American Studies; and master's-degree programs in Community Development, International Law. The committee recommended, as well, that the University develop an overall priorities statement for all non-academic programs.

Bucky Fuller granted patent

Former SIUC professor R. Buckminster Fuller, the widely known inventor of the geodesic dome, was granted a patent in March for an indoor approachable storage unit that can be hung from the ceiling.

The hanging storage shelf unit is approachable from all sides, unlike book cases and shelves attached to walls. Prototypes of the storage unit have been built but it is not yet in production. The was Fuller's 25th United States patent and his 146th internationally.

- The was Fuller's 25th United States patent and his 146th internationally.

Darnall Jones: Everybody's favorite

Darnall Jones, a senior from Olney, won every major award at this year's SIUC basketball banquet. Jones was awarded the Paul Lambert Memorial Award as the team's Most Valuable Player by vote of his coaches and teammates. He also won the Most Inspirational Player Award by vote of the media.

"He proved a lot of people wrong," Basketball Coach Allen Van Winkle told the media. "He was undecided which team he wanted to go to, but was undecided which team he wanted to go to, but was undecided which team he wanted to go to, but was undecided which team he wanted to go to, but was undecided which team he wanted to go to.

Jones, a forward at 6-5, is small for the position in the Valley. He sometimes played against cagers three or four inches taller, and averaged 11.3 points and 5.1 rebounds this season for the Salukis, who finished 12-13.

Not only did Jones play, he played in every single game of his collegiate career, establishing a school record with 147 consecutive appearances.

Forcado of the year, Jones was presented a special award by Seymour Broyson, who played in all 104 games of his career. He was also named to the Atlantic Falcons basketball fan Bob Danby.

Jones also was presented plaques for being one of the eight senior cagers and co-captain along with fellow senior Jim Copeland. The other senior players were Mark Smiley and Jeff Ward.

Atlanta Falcons draft John Harper

Saluki lineman John Harper was selected by the Atlanta Falcons in the fourth round of the National Football League draft.

Among the most outstanding is the 6-3, 250-pound Memphis, Tenn., native was a letter winner in an intercollegiate event established by his coach at the conclusion of the season.

His latest accomplishment was breaking an SIUC record in the all-around competition April 17 as he tied for the number one spot with Nebraska's Joe Johnson for the Eastern Empire Cup in Eugene, Oregon.

The 1981 champion in the event, before a knee injury halted his career for one year, Bobac set the new SIUC record mark scoring 58.80 (66 points). He is a two-time letter winner in both basketball and parallel bars. 98 in rings and high bar and 9.7 in both floor exercise and parallel bars.

"It was outstanding," SIUC's gymnastics coach Bill Meade said.

Last year, Harper set the school record in the all-around competition scoring 61.4 (400 meter dash) four consecutive years. In all-around competition he has scored 48.2 points in his senior year and paced Hanus High to a 19-9 record and the state quarterfinals. A three-time basketball letter winner, Sanders averaged 15.7 points and 11 rebounds during 80 contests.

A Rochester native, Daniel W. Jeffers is a member of the track and field team majoring in recreation. And an athlete who has received the award, "the Heisman Trophy of Gymnastics." The award is presented annually to the top senior men's gymnast in the nation.

The last Saluki to win the award was Gary Moevo, who was honored posthumously in 1970.

Tin Linder also won the award in 1972. The award, which is voted on by the nation's coaches and judges, has been presented since 1969.

A pro football player and a male athlete—male or female—to win an event at the season's end. Babcock's name surely will be mentioned.

Babcock's latest accomplishment was breaking an SIUC record in the all-around competition April 17 as he tied for the number one spot with Nebraska's Joe Johnson for the Eastern Empire Cup in Eugene, Oregon.

Five women represent SIUC at NSF

Five SIUC women athletes will participate in the National Sports Festival June 20 to July 1 in Colorado Springs, Colo., and will take part in the festival. The SIUC athletes will meet the same standard as the SIUC athletes in 2002, who finished fifth in the overall standings.

Cozta, a distance freestyler from Newburgh, Ind., will be competing in her third festival. Last year in Indianapolis, she swam in three individual events as well as a relay, placing fifth in the 800-meter freestyle. In the 2003 season, she broke her own school record in three events and earned a personal mark in another. She was an NCAA Division I National finalist in two events—50- and 100-yard freestyle—and earned All-America accolades in each.

Ratliff, of Carbondale and Martin of Missouri, was an All-American in two events in 2002 and will participate in both events this year, as will Cozta. Ratliff, of Westfall of Vincennes, Ind., a freshman making her NSF debut.

Amanda Martin, of Carbondale, is the first SIUC American in four events who was recently chosen as the SIUC Female Athlete of the Year, will compete in both events.

Liam and Pam Ratliff will represent the United States in the World University Games in Edmonton, Canada, July 1–11. The SIAC standouts were among only 21 individuals selected nationally for the 1983 U.S. team. Halfway across the country in another NBA city—Kansas City—J.C. Meroweather was completing one of his best seasons ever, with several double-digit scoring performances.

Switching hurriedly to the National Football League—SIUC's most Six-time player of the Game hired Des Moines native with the St. Louis Cardinals and is fast becoming one of the most durable players in history. Meanwhile, down south, a freshman at SIUC during Hart's senior season, has been promoted to offensive line coach with the New Orleans Saints.

And, at still another level... congratulations to David Lee for directing his Mead公安 High School basketball team to a third-place finish in the Illinois Class A state finals. The Mead公安 basketball story is a neat one: Lee, Jerry Sloan, Curt Reed and Mauch were all basketball and football teammates there in the early 1960s. Lee and Mauch enrolled at SIUC and had great athletic careers while Reed spent one year here before transferring to Mcendred College. Sloan, after leaving the University of Illinois early in his college career, spent a few days on campus here before departing for Evanston and becoming one of the Area's all-time greats. The point is that all—Lee, Sloan and Reed—had some playing the three leading roles on Dave's team this year. And, incidentally, Reed's son (also named Curt), has signed football letter of intent with the Salukis as a defensive back.

Mauch, by the way, wrote recently to pass on praises to SIUC's John Harper for his splendid play in the Blue-Gray football game. "He definitely upgraded his chances in the NFL," Mauch said, and is the fourth rated linebacker on our board as a result." Carl said he enjoyed his first season of NFL coaching after a long career as one of the finest centers in the league. He had comments on SIUC's Bill O'Brien's vision and progress, May 2006, writing in the pro ranks.

And, just to complete the professional circuit, Walt Frazier of New York Knicks fame, was recently named to the all-time National Invitational Tournament team for his stellag season at the 1967 meet, where he led the Salukis to their most cherished championship in history. Frazier was the man in all four NCAA victories over St. Peter's, Duke, Rutgers, and Marquette, walking away with MVP honors. The win over Rutgers was perhaps the toughest of the four, as the Salukis had to overcome a 10-point halftime deficit and Frazier had picked up his third midway in the opening period.

Another prominent player in the game was Rutgers' Jim Valvano, who had opened the game by hitting 8 conservative shots and was nine for 10 in the first half. He was shut down in the second half by you-know-whom. You probably are wondering if he's the same Jim Valvano who recently coached North Carolina State to one of the biggest championship upsets in NCAA basketball history. He is, small world, isn't it?

Modern-day Salukis are claiming their share of the headlines also. Chris Bynum, presently a transfer student from Illinois, is already making his mark at SIUC. He was a member of the 1983 baseb team, which won a Gold Medal in the World University Games in Edmonton, Canada, July 1–11. The Saluki standouts were among only 21 individuals selected nationally for the 1983 U.S. team.
Diplomas must be handset; long, laborious task

SIUC radio-TV students and graduates have been highly successful in securing broadcasting jobs in the Southern Illinois area.

Some of those seen and heard in the Southern Illinois electronic media are:

- WICL-AM, Carbondale: Chuck Day, '80, production manager; Matt McCann, '81, AM program director; Edward Plemmons, '79, news director; Tony Waitkus, '77, program director; Dennis Lyle, '73, sales manager; Pete Hackenius, '81, salesperson; Andy DeWitt, '82, salesperson; Mike Trude, '81, sports announcer and disc jockey; Mike Reis, '78, sports announcer; Mike Chlewasky, '76, salesperson and disc jockey; Greg Gorham, production assistant and disc jockey; Terry Deckworth, disc jockey; Tom Thomas, news announcer; Sharon Dennis, news announcer; Dave Stricklin, news and sports announcer; Jane Tyler, news announcer; Carl Young, disc jockey; Charles Stank, disc jockey; Gerald Bryant, disc jockey; Bruce Warren, disc jockey; Chris Carpenter, disc jockey; Virginia Geramani, news announcer; Dave Hacker, disc jockey; Tammy Thompson, disc jockey; Todd Manley, disc jockey and Kevin Treese, copywriter.

- WERQ-AM, Mount Carmel: Steve Latshaw, disc jockey and Kevin Treese, copywriter.

- WOIL-AM, Marion: Dave Hacker, disc jockey; Mark Swan, news director.

- WTSK-AM, Carterville: Greg Badgley, sales manager and account executive; Doris Dinhlaz, disc jockey; Jim Kendall, disc jockey and students; Dave Breeden, Tracy Brennan, Dave Gasior, Roy Gregorey.

- WKKX-AM, Hadiia: Bob Haney, director; Joel Ceeley, '81; Robert Lanie, '82, Bob Pollock, '81; news photographers; and student Mike Schub, weekend newscaster.

According to Norman Swan, chairperson of the department, there are more SIUC students majoring in broadcasting and communications than ever before. With the combined theoretical and practical approach of the department, SIUC's radio-television graduates and its top-notch broadcasting program have attracted more SIUC students to the field.

The high placement rate of graduates is due to the booming telecommunications industry, coupled with the University's high placement rate of its radio-television graduates and its top-notch broadcasting program.
The first woman SIUC graduate to win a Pulitzer Prize has been named the 1983 Journalism Alumna of the Year.

Deborah Singer, a 1975 SIUC graduate, was honored April 29 during the SIUC School of Journalism's annual Journalism Banquet.

A general assignment reporter for the Kansas City Star since January, 1981, Ma. Singer was a part of a Star-Kansas City Times investigative team that won the 1981 Hyatt Regency Hotel disaster in Kansas City.

Similarly, SIUC alumna, she is a former Daily Egyptian staffer. She covered general news and wrote music, drama, and film reviews during her two-semester stint with the campus newspaper.

Singer, who prefers her maiden name in her byline, is married to Mark R. Petersen, a 1979 SIUC journalism graduate and former Daily Egyptian editor-in-chief. He is a reporter-editor for the Associated Press bureau in Kansas City.

Both are graduates of the public affairs reporting master's degree program at Sangamon State University in Springfield, where they met.

The first SIUC alumna to win the Pulitzer Prize was Robert Lewis Taylor, '39, for his novel, *The Travels of Jamie McPheeters*, a book he wrote in 1958. A prolific author of more than 14 books, Carlisle native Taylor also earned the SIUC Alumni Achievement Award for professional accomplishment in 1980.

### Five selected for first Morris Fellowships

Two SIUC alumni are among five students selected as the recipients of SIUC's first Delyte and Dorothy Morris Doctoral Fellowships announced April 9.

The fellowship went to an SIUC graduate who has achieved success in the management field.

The 40-year-old Doretti, a 1966 graduate of Emory University, was selected as the recipient of the Morris Fellowship.

He is a reporter-editor for the Associated Press bureau in Kansas City.

Doretti has headed Wang's domestic sales operations since 1980. He joined the company in 1967 and moved to Wang as a district manager three years later. He was promoted to eastern area director in 1972, and became vice president for eastern operations in 1976. His division was responsible for more than $1 billion in sales during 1982.

The following is a list of journalism, radio and television graduates for whom the Alumni Association has no current address. If you can assist the Association with a current address, please use the "Something's Changed" form.

Lucy Phillips Stewart, M.S., '64, is a freelance writer and editor of the novel "Burnings of Passion," which was released in February by Dell Publishing Co. The other historical romances all were published in the '60s, but she never quite dealt with the modern period. A career that began as a job and then, finally a hobby is nevertheless something Mrs. Stewart takes seriously. Before she returned from her first child's design at Augustana, she and her husband were teaching at SIU, live at St. B., Murphysboro.

William H. Cook is a judge in the U.S. Court of Military Appeals in Washington, D.C.

Helen J. Blackmore reports she is enjoying her retirement in a sunny climate. Mrs. Blackmore enjoys her walks in New York City while she is there. She lives at 203 W. Schumier St., Pittsburgh, PA, 15203.

Clara Dixey is a teacher in the St. Louis school system and she lives at 6594 Atchur St., St. Louis.

Phyllis Hays and her twin sister, Ann, have been in the teaching profession for 30 years and retire this June. Both are kindergarten teachers at Denning School in West Frankfort. Known affectionately as "Miss Phyllis" and "Tall Al," they began their educational careers at the age of 19 after completing the necessary courses that were required then. Phyllis began at Union School near Ewing from rural school, east of West Frankfort, where she received $85 a month for eight hours work. Altogether first and second grades at the old Lincoln School before West Frankfort kindergarten classes. She was hired as a teacher's helper at $50 a month, but soon had her own classroom. The sisters who have always dressed alike, still live in the same house they were born in, plan to travel more. Phyllis, who is 68, has more time to church work after their retirement.

Lloyd B. Davis has worked for McDonnell Douglas Corp. for the past 36 years. His current assignment is in St. Louis. He is the training consultant to the Directorate of Air Training, Royal Saudi Air Force (RSAF) Headquarters in Riyadh. He advises aircraft training programs in the Kingdom.

Georgia George and her twin sister, Georgia George, were teaching in Cardiiff-by-the-Sea, Calif., as a married couple, teaching and child rearing when she woke up one morning and decided he was a burned-out teacher. He retired after being in education and counseling for 32 years. Being a geographer and map maker, with a little globe-streting under his belt, he had formed himself a new occupation—owner and vice presi- dent of Sav-On Travel Corporation in San Diego, Calif. The Sav-On Travel is the umbrella company for four-di visions: retail travel agency, leisure educational tours, military ticketing service and the American College of Travel. He still has his connections with Carbondale and SIUC at the Northern Illinois Alumni has followed him everywhere since he left Carbondale. A high school reunion season will soon bring him back to Carbondale.

The center, located in St. Louis, provides supplies, charting and geodetic support for the U.S. Department of Defense.

Betty Cole Prest is a business teacher at Carbondale High.

Katherine Kimmel Rossiter, M.S.'59, is a teacher who lives in Murphysboro.

Edward (Ted) Holmes, com- manding officer of the 181st Resource Management Squadron, and deputy command-er of the 181st Resources Man-agement Wing, Illinois National Guard, has been promoted to lieutenant colonel. An R.O.T.C. graduate, Holmes served in the reg-ular Air Force for three years and three years in the Illinois National Guard. In his civilian role, he works for the Wash-ington Post Corp. in Evansville, Ind., as an information systems supervisor. Originally from the Southern Illinois area, Holmes has kept his regionals relation-ship with the Air Force Region office in Evansville, Ind.

David C. Baumgartner lives in Haslett, Mich.

William B. Davis has worked for McDonnell Douglas Corp. for the past 36 years. His current assignment is in St. Louis. He is the training consultant to the Directorate of Air Training, Royal Saudi Air Force (RSAF) Headquarters in Riyadh. He advises aircraft training programs in the Kingdom.

George R. Denison was billed away as a dedicated school teacher last year when he left Carbondale in Cardiiff-by-the-Sea, Calif., as a married couple, teaching and child rearing when he woke up one morning and decided he was a burned-out teacher. He retired after being in education and counseling for 32 years. Being a geographer and map maker, with a little globe strolling under his belt, he had formed himself a new occupation—owner and vice presi- dent of Sav-On Travel Corporation in San Diego, Calif. The Sav-On Travel is the umbrella company for four-di visions: retail travel agency, leisure educational tours, military ticketing service and the American College of Travel. Georgia George and her twin sister, Georgia George, were teaching in Cardiiff-by-the-Sea, Calif., as a married couple, teaching and child rearing when she woke up one morning and decided he was a burned-out teacher. He retired after being in education and counseling for 32 years. Being a geographer and map maker, with a little globe strolling under his belt, he had formed himself a new occupation—owner and vice presi- dent of Sav-On Travel Corporation in San Diego, Calif. The Sav-On Travel is the umbrella company for four-di visions: retail travel agency, leisure educational tours, military ticketing service and the American College of Travel. He still has his connections with Carbondale and SIUC at the Northern Illinois Alumni has followed him everywhere since he left Carbondale. A high school reunion season will soon bring him back to Carbondale.
Gene Tutsky is the president of the E. F. Tutsky Co. He and his wife, Suzanne Weber, '68, live in West Linn, Ore.

Ronald L. Hagaman is the director of the Office of Management and Research at Saint Mary University. He and his wife, Diana, live in Pocatello, Idaho.

Charles Dewey Tenney, former SIUC vice president and professor of English and philosophy, died Monday, April 8, 1983, in the Styrant Nursing Home in Carbondale at the age of 76. He had been ill for three years.

Dr. Tenney was an SIU faculty member and administrator for a total of 42 years, from 1931 to his retirement in 1973.

"Dr. Tenney served Southern Illinois University vigorously and well over a period of more than four decades," said SIUC President Albert Somit. "He was a teacher, a scholar and leader and he brought counsel and fellowship to hundreds of students and colleagues. He will be missed by the entire University community."

Dr. Tenney’s 27 years of administrative work coincided with the period of the University’s greatest growth. His titles included acting chairman of the philosophy department (which he founded), executive assistant in the President’s office, chief officer of instruction, vice president for instruction (1963-64) and vice president for planning and research (1964-70).

In 1950 he was named chairman of the University’s Computing Service, the Rehabilitation Center, which he helped to establish the University School of Social Work, the Southern Illinois Public Broadcasting Station, the University Press and a visiting professor program. He also organized the University’s centennial celebration.

In 1969, Dr. Tenney was awarded the prestigious title of University Professor and in 1980 he was given the University’s Distinguished Service Award.

Among his accomplishments, Dr. Tenney later was named professor in the University’s Distinguished Service Award.

He was born in Helena, Mont., on Sept. 19, 1906. He studied at Gooding College in Idaho (where his father was president), receiving his bachelor’s degree there in 1927. He earned a master’s degree from the University of Oregon in 1929. He received a Ph.D. from Oregon in 1931, the same year in which he joined the faculty of what was then Southern Illinois Normal University as an assistant professor.

A specialist in esthetics and in the works of post-novelist George Meredith, Dr. Tenney later was named professor in both the philosophy and English departments in 1944.

Of his administrative work, he once said, "My pet theory is that a good administrator should be as invisible as possible."

A great reader, he once had to bring carpenters into his home to shore up the floor of his personal library, which was sagging from the weight of his books.

"Excellence is everywhere," he once wrote, "...and always as unique as it is elusive."

"Dr. Tenney’s ceaseless dedication to excellence, his enormous creative energy, his ability to get the job done, were an important part of the growing years of Southern Illinois University," said a statement issued when he received the Distinguished Service Award. "Dr. Tenney played an integral part in developing SIUC into the excellent institution which it now is."

Dr. Tenney is survived by his wife, the former Maude Beamer, and by two daughters, Ruth Kerwath of Troy, Mich., and Helen Naumer of Da Quoin.

Charles D. Tenney in 1970

He was born in Helena, Mont., on Sept. 19, 1906. He studied at Gooding College in Idaho (where his father was president), receiving his bachelor’s degree there in 1927. He earned a master’s degree from the University of Oregon in 1929. He received a Ph.D. from Oregon in 1931, the same year in which he joined the faculty of what was then Southern Illinois Normal University as an assistant professor.
