### **Discover Domestication Exhibit at Museum National D'Histoire Naturelle, Paris**

**By Miriam Kritzer Van Zant**

Museum National D'Histoire Naturelle, Paris, has a wonderful new exhibit entitled, "Discover domestication" in La grande galerie de L'evolution. Of particular interest to economic and ethnobotanists is the section on corn and one called, "Transformation of the landscape." The museum's webpage features all of this and more and is available in English and French.
