Many Attend Teachers' Meeting

The teachers' meeting which was held at Carbondale last week was the largest gathering ever held in Southern Illinois, having an enrollment of 100 teachers more than ever before.

The following officers were elected to head the Association for the ensuing year:

W. O. Brown, Carbondale, president.
Harry Wilson, Pinckneyville, first vice president.
L. E. Evers, Metropolis, second vice president.
Kate Hartline, Cairo, recording secretary.
Otto F. Aken, Murphysboro, financial secretary.
J. F. Karber, Ridgeway, treasurer.
Harry Taylor, Harrisburg, legislative committee.
J. E. Sutton, Vienna, member of executive committee.--Herrin Journal.

TEACHERS' MEETING

Y. W. C. A. ENTERTAINS WITH POPULAR SONG PROLIFIC

The Y. W. held a Frolic in the basement of the Allyn Building Tuesday evening, April 4, under the supervision of Zoe Fullerton. The password was a name of a popular song, and the frolickers entered to rhythm of latest jazz.

A short program was given consisting of the following:

Reading, Gladys Bradley.
Stunt, The Evolution of the Proposal--Mary Strum and Hazel Aldridge.
Reading--Winifred Kugler.
Stunt--Zoe Fullerton.

The program was followed by a number of "get-acquainted games", carrying out the "popular song" idea.
We must admit that Marie McCarthy is the beat girl in the class. She taught penmanship here in Carbondale, Illinois, and the students are all charmed by her friendly manner.

After a few announcements by the acting president, Della Hall, the refreshments were served, or rather thrown.

S. O. P. H. Entertains Seniors

A very delightful tea was given at Anthony Hall recently by the S. O. P. H. honoring the Seniors. Miss Mary Van Sickles was chairman of the Social Committee, and the afternoon was carried off as a huge success. The seniors all reported a good time.

S. O. P. H. Backwards Party

On Wednesday night, March 1st, the S. O. P. H. girls assembled in their "club room", the cooking laboratory, for one of their good time parties.

This party was a "Backwards Party." Each girl was to come out with hair combed backwards, and her clothes on backwards. Another requirement of the evening was that all talking should be backwards. The girls entered the laboratory backwards, and what a sight! Some were so embarrassed to find a person of the opposite sex sitting in the chair of a Miss Jones, this presence was an accident, however, and the gentleman soon left.

Carrying out the "backwards" idea, refreshments of punch and sandwiches, butter, were served the first thing. After an evening of contests, games, and real live fun, the girls went to their homes tired, but maintaining a deep interest in the S. O. P. H.

WEDDING BELLS

Miss Ikey McAllister and Hugh Warwick Boos were married March 18 in Chicago by the Methodist minister of that city.

Mr. and Mrs. Boos were former students in S. I. N. U. They will make their home in Carbondale, where the groom has entered business.

In the class was 48. Over 39 received teachers' diplomas. Six received Palmer High School Diplomas. Out of the class eight received the American Penman diploma. I don't believe...
THE PASSING OF THE CHAPERON

Thomas Arkle Clark, for twenty years dean of men in the University of Illinois, makes some acute observations on the manners and tendencies of the youth of today, in an article in the April Atlantic Monthly entitled "The Passing of the Chaperon." For those of us who have played the role of the chaperon for the last fifteen years, more or less, (it's nobody's business how long), this article is of much interest, and it may prove to be slightly interesting to the chaperoned.

He relates that he and his wife endeavored to be in touch with the students and kept up reasonably well with changing fashions in dress and dancing, and were never so far behind the procession as to be considered "back numbers." As a consequence they were favored with frequent invitations to act as chaperons at the students' dances and other social gatherings. They were treated with consideration, and experienced a good deal of pleasure. The young people seemed to enjoy their presence, the cab that was to take them to the dance was always waiting at the door at the exact time, and some one prominent in the class or organization always called for them and accompanied them to the dance hall. There they were honored, picked to dance, were handed punch and treated as if they were royalty or being rushed by a sorority.

After an absence of a year or two, studying and traveling, the dean and his wife found on their return that things were not quite the same. As chaperons they received less courtesy, the men were a little cruder, the women less thoughtful, and not quite so punctilious. After a few such occasions it was borne in upon them that chaperons were going out of style, that the young people did not consider them essential features of their festivities. They began to realize that social conditions were not what they formerly were—that customs were changing, that new styles, such as their eyebrows and bobbed hair and highly colored complexion were being worn now; and the rumor was correct. They had heard too that the chaperon was not the respected citizen she used to be; that she often sat alone in a remote corner of the room, neglected and forgotten. "She was beloved by another generation, like the horse and table-cloth and pickle-caster."

Dean Clark does not, however, regard the passing of the chaperon as marking a distinct moral decline. He says young people have less reserve than they once had; they conceal less that is physical and mental than they once did. "They lay," he says, "quite bare, in fact, without batting an eyelash, what they are and thing and feel; but I cannot see that this has affected their morality in any way."

What he says further is also the result of close observation and probably expresses the thought of many observers: "It is not because the girl is unsafe, or because she is less modest, that I am sorry to see the passing of the chaperon; it is because she is a little less refined. Going to a dance now is like eating at a lunch counter, where the food may be as varied and as savory as at a well-ordered and carefully served dinner, but where there are lacking the little refinements of napery and cutlery, and the little touches and attentions which mean quite as much as the food itself. The modern girl lacks a certain graciousness, an appealing fineness and poise which characterized her older sister. She is not quite a lady, as we were once wont to define the term. She has gained something, perhaps, but at the same time she has lost something. And I am sorry."

This is at once a severe yet kindly criticism and is worth while for the girls he means to read and reflect upon it.

CALL FOR TRACK

A call for track has been issued by Coach Snider. All boys in the first four years are eligible to try out who are under twenty-five, who have had a year's course in practice and who have never played in any college or professional contest of any kind. All boys interested should see Snider at once.

U. H. is going to the Southern Illinois Track Meet at West Frankfort and expects to make a good showing despite the fact that we haven't had a team for five years.

Here are some of U. High's records:

Winner of Sparta Invitational Meet, 1916.

Winner of 100-yd. dash at Urbana (Nesbitt), 1916.

U. H. NEVER LOST BUT ONE DUAL TRACK MEET.

SUMMARY OF SCORES AND FOULS

Brooks—Field goals—99 points.
Free goals—8 points.
Technical fouls—15 points.
Personal fouls—9 points.

Chappell—Field goals—94 points.
Free goals—39 points.
Technical fouls—3 points.
Personal fouls—3 points.

Valentine—Field goals—198 points.
Free goals—6 points.
Technical fouls—11 points.
Personal fouls—11 points.

Allen—Field goals—22 points.
Technical fouls—5 points.
Personal fouls—17 points.

Carter—Field goals—10 points.
Personal fouls—1 point.

N. Huffman—Field goals—24 points.
Free goals—1 point.
Technical fouls—3 points.

O. Huffman—Field goals—12 points.
Free goals—2 points.
Technical fouls—3 points.
Personal fouls—2 points.

Lollar—Fields goals—8 points.
Free goals—1 point.
Technical fouls—1 point.
Personal fouls—1 point.

The Normal team of this year made a creditable showing by winning fourteen out of twenty games played. Two of the six games lost were dropped to the Herrin Elks: two to Cape Girardeau. One to McKendree. (Continued on Page Six)

This has been a perfectly horrible chemistry lesson to prepare. So we quite reluctantly (seemingly so, at least) departed and left the chemistry students to their peaceful pursuits.

However, all the way home I was thinking of Coleridge's

"Like one that on a lonely road
Doth walk in fear and dread;
And having once turned round
Walks on and turns no more his head,
Because he fears a frightful sight
Doth close behind him tread."

SPEAKERS!

It was 10:00 P. M. The moon was just coming up. We sat on the ground looking about us, hardly knowing whether to be afraid or not. On all sides of us were tombstones casting strange shadows in the pale moonlight. To myself I thought, "Would that I were home in bed." About I said, "What a perfectly glorious coming out. Isn't it lovely?"
But what was that noise? About twenty feet to the right stood a big dog—oh, no, it was only a large wreath on a new grave. But what is that just in front of us? A man—yes, a man. Oh, and he is dressed in white. But he isn't coming any closer. Listen to that cracking and groaning. Of course, it is only the wind in the trees. But there is that man (or is it really a ghost?) just where he was a minute ago. And what is that in the shadow of that large stone? I thought, "Why did I come?" And again I said about, "But, you just love to walk on pretty nights like this!" I'm not one bit tired, are you? Where is there a cemetery to score anyone?"
But that man was still there. Those strange noises could still be heard. All at once I remembered my chemistry lesson. Turning to my companion I said, "Really, I must be going home. Much as I am enjoying this I have a perfectly horrible chemistry lesson to prepare." So we quite reluctantly (seemingly so, at least) departed and left the chemistry students to their peaceful pursuits.

However, all the way home I was thinking of Coleridge's

"Like one that on a lonely road
Doth walk in fear and dread;
And having once turned round
Walks on and turns no more his head,
Because he fears a frightful sight
Doth close behind him tread."

Effect for victory, to fight almost harder than they can, for themselves, and yet; for, such is the law of our lives, and as it has done in innumerable instances before, we need the best example of what pep is, and what it does.

Let us give due credit to it, and thank Heaven that we are not yet so petrified that we have lost it.

1. The goal line ahead of us, or oftener than we, or when the other team is piling up baskets faster than we, is not a very valuable student. The world hates a quitter.

2. Mention has been made of the "states" of pep. If might properly be called a disease, or, since there connotes something unpleasant, an obsession. Its symptoms are these—it comes upon one unexpectedly, unawares. "States" of pep.

3. All at once I remembered my chemistry lesson. Turning to my companion I said, "Really, I must be going home. Much as I am enjoying this I have a perfectly horrible chemistry lesson to prepare." So we quite reluctantly (seemingly so, at least) departed and left the chemistry students to their peaceful pursuits.

However, all the way home I was thinking of Coleridge's

Doth close behind him tread."
WHATS IN A NAME?

The girl was AVE, the SMITHS daughter. She lived in a derelict "best." WOOD, and had to cross BROOKS over BRIDGES to get to THE STREET. She often cut REEDS with a GOLD-EN VAN SICKLE. One day said she, "I'll leave that WOODY home with nothing but ugly BROWN BOLES, and move to a HOUSE on the top of the HILL, where I'll live by myself in PEACE." She covered her HUNTING dress with WHITE WOOLY FUR. An old DURHAM cow chased her, and she CLEM a tree, but BENNETT. She screamed, for the cow gave a KEEN BAIL. She fell to the ground where she LAY until a GARDNER, who was WADDINGTON's found her. "Bye go, "GEPHORTH to your home." She walked sadly on saying, "Oh! How I MISS this day."

When the girls are in the kitchen and there's estables around.

And they're makin' all kinds of cookies and candy by the pound. There's no more reasons why we pass that way.

For our thoughts keep driftin' back there all the live long day.

When I get old and cramped and want pleasures all my own, I want an S. O. P. H. girl to rule my little home.

And I sometimes have a feeling that I want to settle down.

When the girls are in the kitchen and there's estables around.

-MADAME LA RANGE COLUMN-

My Dear Miss La Range: I would like very much to know why Mr. Bainum blushes when "Mac" mentions eating sweets to the basketball boys? Curiously,

IDA CLAIRE.

Miss Claire: You might ask Mr. Bainum who threw the crackerjacks on the train going to McKendree.

My Dear Miss La Range: I am especially anxious to attract attention from a certain young lady in school here. Would you advise the use of toilet water, powder or just plain perfume?

Yours for advice,

HERMAN SPARR.

Mr. Sparr: It would not be policy to recom-
Sports
(Continued from Page Three)
and one to the Flora Tigers. Of the six games one was lost by one point, one by three and one by five. The other three were dropped by comfortable margins. The Maroons lost only one game on the home floor and that to Cape by a one point margin in the last five seconds of play.

Capt. Brooks played his fourth year and did splendid work throughout the season. Clyde never has been noted as a high scorer, but there never has been a man on the Normal floor who fitted better into team work and, who covered more floor and kept up a whirlwind speed for the full forty minutes as has the Normal Captain. Carter and Allen are holding down the guard positions for the third period. Valentine came to us from Marion high and Chance happened in from Salem high. Pickett who subs at guard also hails from the burg Bill Bryan made famous. Lyle Huffman, substitute center, was playing his third year and hails from Carbondale. Carter, Allen, Valentine and Chance will be back next year. This will give a fire nucleus with which to start the year. With several of the scrub who will be back and some of the high school men expected in a good team for next year should be assured.

FOOTBALL SCHEDULE FOR 1922

Oct. 20—Charleston—there.
Oct. 27—Cape Girardeau—there.
Nov. 4—Shurtleff—there.
Nov. 10—Cape Girardeau—there.
No. 24—St. Louis U. freshmen—here.
Nov. 29—McKendree—there.

The present arrangement calls for only two games at home. There is a possibility that the Shurtleff game will be played in Carbondale. The contract with McKendree calls for a return game at Carbondale on Thanksgiving day 1923.

The team should have eight letter men around which to build next fall. Captain Hamilton and Goforth are the only back-field men left. For the line McIlrath, and Huffman will be back to fill the wing positions. Fishel will be here to play at left tackle and Cox and Willsbyough at the guards.

It took a humble Raven to put the Poe in poetry.

JOKES

When the door's ajar, can you use it for canning?
What kind of a key fits a lock of hair?

"Do you have a date tonight, Snookie?"
"Well, I have a chance."

Mary Mathis: "Do you know what they made kraut out of in Germany during the war?"
Katherine: "No, what?"
Mary: "Cabbage."

Why are blackberries green when they're red?

FOR GIRLS ONLY

(Read backwards)
Boys foolish You .It read you'd knew We

THE DINERS

The gambler should dine on steaks.
The policeman on beets.
The actors on ham—and duck eggs.
The woodsman on chops.
The critic on roast.
The jeweler on carrots.
The electrician on currents.
The wife on tongue.
The husband on pocket book rolls.
Sweethearts should dine on venison, because they are deer to each other.

Alice Edwards: "When I've graduated I must inform myself in psychology, biology, biology—"
Mother: "Stop! I have arranged for you a thorough course in roastology, bakeology, stichology, darnology, and general domestic honestology. Now get on your working clothesology."

PETTICOAT LANE

Catherine Wilson says: "Onions may be good for a girl's arteries, but they're rough on her friendships."

One Monday morning, early, quite early, the I. C. was on its way to Carbondale. One sleepy student, as the conductor yelled "Carbondale!" picked up her bag and got off the train. Abbie sleepily waited for the train to pull out, so she could cross the tracks and journey out toward Anthony Hall.

All at once, since the train had pulled out, she discovered that she was in the town of Cobden.
After waiting hours and taking a train to Anna, thence to Carbondale, she was only one day late for school.

Myrtle Hill to Glenn Fishel (football man): "Were you ever paralyzed for holding?"
Glenn: "Why-er-I had my face slapped once."

A WELL-BALANCED DIET
(Continued on Page Five)

market or by mixing a garden and
raising vegetables.

In purchasing food material, one
must not think only of the building
material and energy that the food will
give, but one must consider how much
calcium, phosphorus, iron, and vita-
mimc. These raw constituents are ex-
cellently useful in counteracting con-
stitutional and intestinal putrefaction.
Therefore fruits and vegetables have a
real place in the diet, as the
from the calcium, phosphorus, and iron value,
and at least as much money should be
spent for them as for meat and eggs.

In conclusion, let me say, that the
ideal meal is a simple one in which
the different types of food are har-
moniously represented, but not re-
peated; and where the foods are well
cooked and each contributes its own
characteristic flavor, texture, form
and color to the making of a well
blended whole.

CHRISTINE GOLDEN

"I know what you want and don't care
particularly what he gets. Arthur
Christoph walks up, throws down a
nickel and calls for the biggest five-
cent piece in the counter. Prof.
Murchroy doesn't care what kind of
candy he gets just so it is the small-
est piece we have. (He claims candy
is fattening.)"

"I know what he wants but is absolutely
sure that we haven't it, whatever it is.
We are indeed thankful that we
have but a few such customers.

The fellow who begins to,

The fellow who begins to

WHERE DO YOU BELONG?

Many kinds of people buy candy
and use many ways of doing their
purchasing. However, they may be
divided into about nine different
groups.

Class I. The fellow who
knows exactly what he wants.
Occasionally he refuses to buy any candy at all if
we have not his particular kind. For instance,
Prof. Felts must have Nickelalef Slate Valentine
calls for Oh Henry; Davis yells for chocolate
Nougat.

Class II. The fellow who doesn't
know what he wants and doesn't care
particularly what he gets. Arthur
Christoph walks up, throws down a
nickel and calls for the biggest five-
cent piece in the counter. Prof.
Murchroy doesn't care what kind of
candy he gets just so it is the small-
est piece we have. (He claims candy
is fattening.)

Class III. The fellow who doesn't
know what he wants but is absolutely
certain that we haven't it, whatever
it is. We are indeed thankful that we
have but a few such customers.

Class IV. The fellows with special
lady friends.

Section a. He brings his lady up to
the counter, being not in the least
embarrassed. (Watch the big old
senior boy who plays a six man de-
tense on the senior team. Oh yes,
and the little senior boy, too).

Section b. The most bold; these are
about like section a, except that they
are rather embarrassed.

Section c. The shy. These fellows
come and buy their two pieces of
and walk around the corner and
share up.

Class V. The loafers. These peo-
ple sit on the edge of the counter
and worry us all a great deal because
of the danger to the counter and to
the candy stored near it. The presi-
dent of this class is Othel Eaton.

Class VI. The fellow who always
purchases. This cuss of cus-
tomers is mighty good for the candy
counter trade but we sometimes feel
sorry for their pocketbook.

Class VII. The speeders and the
speedless. The speeders are those
who hurry up to the counter and push
ahead of the crowd regardless of how
many are waiting, or how long they
have been waiting. The speedless are
those who get there just as the candy
counter is locked and the saleslady
has started to class. Just watch
Maurice Pyatt do his buying this
way.

Class VIII. The hesitators.

Section a. Those who select a piece
of candy, decide they don't want that
kind, price the other ten kinds, and
at last decide to take the kind they
first selected.

Section b. The fellow who starts by
the counter determined he will
not buy any candy, succeeds in get-
ning half-way by, can't resist the
temptation longer, turns around and
comes to the counter and buys a pea-
nut bar. The best example of this
type is Carl Mason.

Class IX. The popular young lad-
es. These are the girls who some-
how manage to get from 5 to 10 treats
per day from 8 to 12 different boys.
Perhaps there should be a few more
groups added to this classification.
Perhaps your group isn't mentioned
here. But whatever your individual
method of purchasing candy may be,
you are always welcome, and the Y.
W. C. A. appreciates your patronage.

Money Talks

Jackson County Statistics

In the four years preceding the present County Superintendent's first term there was collected from teachers for examination, registration, and renewing of certificates and paid to the County Treasurer, $1,366.50.

In the present County Superintendent's term of seven years he has paid to the County Treasurer from the same fees collected, $3,355.00.
The State fund distributed for the four years prior to the County Superintendent's first term was $52,102.60.

During the present County Superintendent's term of seven years he has distributed to the School Treasurers of this County over $200,000.00.

The present County Superintendent has labored continuously for a large State Distributive Fund and you can see how ours has increased.

This year and next we will receive about $100,000.00 more, making a total of over $300,000.00 during his term.

He expects to labor to have this doubled the next four years. Give him a chance to do it by your vote April 11th.

The Sanitation Law stated that this Distributive Fund be withheld from the school districts that did not meet the requirements of that law.

LOOK at the amount that would have been withheld and left in banks if all the Directors had refused to comply with that law.

In 1914 there was one Standard School. Now there are 125.

In 1914 there were 216 teachers, 7,923 pupils, 229 of them in high school, with a total days' attendance of 824,410.

Teachers' salaries have increased 45 per cent since 1914.

To the Students of the Spring Term

We wish to call attention to our stock of wearing apparel for the Easter-tide—Dresses, Hats, Hosiery, etc. Also we carry a nice line of piece goods—for summer frocks.
