From some of the most musical announcements that have been received from the Munhall, and it is hoped that the first performance by the Munhall students is a concert that has been expected for some time. The announcement came in a group of songs that have been sung by students of the University of California and that are expected to be heard tomorrow night.

Perhaps that information might be correct, but the fact is that the song, "Roll, Roll, Roll," is the new official song of the I. N. U. Safety Council.

There are also at least 10 other performances scheduled for this week in addition to the one mentioned above.

May we suggest that the students familiarize themselves with this song in connection with the next performance recommended for us, and that they be aware of the opportunity for using it at any time.
