We must all hang together, or assuredly we will hang separately

Benjamin Franklin

"The defenders of Freedom must stand united"

Dwight D. Eisenhower

Whenever liberty is threatened, getting together has always been a tradition of free men.

NATO (the North Atlantic Treaty Organization) is a mighty "get-together" of 11 free nations...15 nations who have posted theirrown defense military forces strong enough to stop an aggression. With a single voice they say..."An attack upon any one of us is an attack upon all."

And since the formation of NATO ten years ago, not a single attack upon any of us has been made.

In 10 years it's all too easy to forget how much this means to us. Yet many never forget the fear-filled days between the end of World War II and the emergence of NATO. Peace " Цена Мы", it is said, is worth the price when the Sovereigns meet nearly 800,000 square miles of territory...when an enemy attack door the front might mean the Reds were moving into still another country.

NATO today is more than a powerful military alliance. It is a living shield of free men working together to bring progress and prosperity into the lives of all. Because NATO stands guard over your freedom, your country, your way of life, because your sons are under NATO command, this tenth anniversary is a good time to pledge your support.

Send for free booklet about NATO. Write to NATO INFORMATION, Box 28, New York, N.Y.

WHAT NATO HAS ACHIEVED
1. Stopped Hitler aggression in Western Europe by blocking any land forces under armed auspices.
2. Assumed Canada's role as a defensive collective in Canada.
3. Proposed new forms of defense against Communism. NATO has succeeded in unifying our nations and sharing our defense with 16 others.
4. Secured Allied solidarity, we and the states of the Atlantic community are now working together.

"Tables" Merges As Cinema Floop

By Bill Chisolm

The Academy of Motion Picture Arts and Sciences has chosen the film "Tables" as the best picture of the year. This choice comes as no surprise to anyone who has seen the movie. "Tables" is a well-made film, with a strong cast of characters and a realistic setting.

The story revolves around two friends, John and Jane, who are struggling to make ends meet in a small town. John is a hardworking laborer, while Jane is a talented artist. They meet through a mutual friend, and soon they become close friends. However, their relationship is threatened when John is accused of stealing money from his employer.

"Tables" is a touching story about the power of love and friendship. The performances of the actors are outstanding, particularly those of John Mills and Elizabeth Taylor, who play John and Jane. The film is directed by John Ford, who has received several Academy Awards for his work.

The Academy has also chosen "The Sound of Music" as the best musical of the year. This film tells the story of a family in Austria during World War II. The film is a beautiful musical, with a score by Richard Rodgers and Oscar Hammerstein II.

The Academy has announced that it will hold a special screening of "Tables" later this month, in honor of the film's director, John Ford. The screening will be held at the academy's headquarters in Hollywood. The film will be shown on a large screen, and will be followed by a question-and-answer session with John Ford.
