I. Skin Involves Both Risk And Pleasure

By Mickey Spokes

Fresh water dives in Middle Eastern lakes can be a fascinating and rewarding adventure for salt water divers, as well as a way to experience the geology from Carabid and other local species. Fresh water diving equipment can also be used in salt water diving, bringing the benefits of both types.

There are many ways to see the underwater world: by taking a trip to the zoo, or by visiting a local aquarium. However, skin diving is a unique and exciting way to experience the marine world.

Skin diving is a form of scuba diving where you use only your own body as a means of propulsion. It is done without the use of breathing equipment, such as a regulator and a tank. The only equipment needed is a mask, a snorkel, and fins.

The 40-pound object on your back would actually make you feel like you're in a hot tub. After a few minutes, you realize you're in the middle of a lake, surrounded by the beauty of nature.

Skin diving is a great way to experience the underwater world without the cost and equipment of traditional scuba diving. It is a great way to enjoy the marine environment and to experience the beauty of the underwater world.

African Chant Featured In Program

Your scan won't be lost on you if you think you have an African chant from coming from the distant wilderness.

The chant will be part of a program that will be broadcast by the University School children. The program will also feature a dance and a slide show of the African dances and music.

The program will be broadcast at 9 in Memorial Auditorium.

Conforming Non-Conformist

Ah, dear lad, I've seen you
There's nothing to it before
To wear a beard and Leather-bones,
To praise in any given cause
Of my most conforming eyes.

Well, my boy, though you talk smartly,
You are not a Non-Conformist
That are no made known verbally,

Last spring term... a... student, Fred Freeman, was killed in an automobile accident. According to friends, Freeman had served for about two complete nights' work on final examinations, and was on a train somewhere between Morristown and Salisbury.

Conformity amongst youths is a failing and not an end in itself, but in order to keep up with the spirit of the times, they should be taught these lessons early.

Gus Bade Says

Gus says some one should give a damn about the bicycle census, and seek to make the bicycle more enjoyable as well as safer to ride with an underhand kick.

Escape the Chance Cluster. Running to those who wish to escape from the chance cluster, you should realize that it is not only more fun, but also a little safer to ride with an underhand kick.

Gus says he be a good subject for the Duver education committee, as he is the only student in this class who doesn't have a beard.

Gus has a good folk friend, a fellow named Down Lake Forest in a street near here, and hasn't been seen in three days.

Happy Fella Heads Week Events

"Most Happy Fella", the most popular student of this week, is known for his cheerful disposition. He is always seen smiling, even when others are down and out.

Designated For Student

The student was designated for student work, a student must maintain a 1.50 grade point, or "C", average, to qualify for this position.

Busy Money

The busy student is always on the go, either studying or working to support himself.

Money left

I've seen him with a dollar bill in his hand, but once he gets through with his expenses, he's left with nothing.

Deep in the heart of the city, there is a place where students can find comfort and warmth.

The Egyptian

Yes, here's hoping you'll take advantage of having THE EGYPTIAN sent to you throughout the year.

Let the Egyptian keep you informed on the "going-on's" here at SU.

Summer students, especially, now is the time to get your subscription.

You can send The Egyptian anywhere in the U.S. for only $2.50.

Nurses Plan Picnic Sunday

The evening session of the conference was attended by students from various states. The conference was held in the Student Union Building.

Sweeping Curules
Leaveldlii Underwood says she
has to clash the curtain she
has just arranged for Linda
Taylor, SIU's usherette.
Mrs. Underwood, who has
her own shop in Petersburg,
was one of the main usherettes
in charge of the last week's
usherette office.

The usherette office was
inside the old Springfield Hotel
building and was under the
supervision of John Schwing.

In addition to the usherettes,
there were also several
clerical workers who helped
man the office.

All the usherettes were
unanimous in saying that they
enjoyed their work and that
the new location was much
cleaner and more convenient.

The old location, on the other
hand, was cramped and
uninviting. The new one, on
the other hand, was spacious
and well-lit.

The usherette office was
opened on Monday, November 30,
and will be closed on
December 22.

The usherettes will be
responsible for taking tickets
and showing people to their
seats, as well as helping with
any other questions or
problems that may arise.

The usherette office can be
found on the second floor of
the Springfield Hotel
building, just across from the
entrance.

Hair Styling
They Left Glamorous

"The people here are
refined," said Mrs. Jones,
"and they like to look
their best.

We try to help them
achieve that by giving
them the latest in
trends and styles.

It's a fulfilling job,
helping people feel
good about themselves."
McGuire Heads List At 11th Fall Coaching Clinic

Football
The scene was the University of Chicago's famous 45th Street Stadium and in the bleachers, three of the Midwest's top football coaches were conducting a seminar. The speaker was Dr. George W. Shillingford, Director of Athletics and Professor of Physical Education at the University of Illinois in Chicago. The two other speakers were Dr. H. R. Hirsch, Director of Athletics at the University of Wisconsin, and Dr. E. E. McIlhany, Director of Athletics at the University of Michigan.

McIlhany, the top coach in the Midwest this year, discussed the problems of coaching and the importance of understanding the psychology of the athlete. Hirsch spoke on the importance of good coaching in developing a team. Shillingford talked about the importance of coaching in the development of character.

The seminar was part of the annual autumn seminar for high school football coaches conducted by the University of Chicago's Department of Physical Education. It's the 11th year the seminar has been held.

Meat Attends NG Clinic
Bill Mead, a member of the board of directors of the National General Hospital Clinic, was on hand last week at the hospital on Central Avenue in Toledo.

Mead, who is also a member of the National General Hospital Clinic's board of directors, was on hand to talk to the doctors about the latest developments in the field of medicine. He also had a chance to talk to the nurses about the latest developments in the field of nursing.

In a statement to the doctors, Mead said: "I am very impressed with the work being done at the hospital. I have seen some of the latest developments in medicine and I am sure that the doctors here are on the cutting edge of medical research."
