Pajama Game

A Superb Climax For SIU Summer Theater

by Mickey Sparks Klaus

"The Pajama Game," which ran Friday and Saturday nights in Shryock, was a superb climax for Southern's summer theater season. The hilarious slapstick musical featuring a number of convicts and their finales into the background as the audience laughingly followed the cast through two acts of pleasurable nonsense.

Karen Hills gave a fine portrayal of Pajama, the pretty blonde chairman of the grievance committee who led the love-stricken factory supervisors on a merry chase as she and her fellow workers fought for a seven and a half hour day. Miss Hills' acting ability was a credit to the production.

The fact that Sid Sorokin, equally well portrayed by Larry Jarvis, also gave an amusing and believable performance as he tried to keep the "bottoms up with the tops" despite the employees' determination to slow down on the job.

Tightwad

Ken Bubbe stunned and sunk his way around the stage in the role of Hauler, the tightwad, who runs the Pajama factory who kept a double set of books to avoid giving his workers the raise they deerved. Bubbe was well cast in the part and handled it superbly.

Ron Danko, John Keller, Milton Ledbetter, Sherry Rushing and Marcia Swainsey these five made the musical the success it was. Each had tremendous in his role and proved himself to be a splendidly working median.

A report of the performance and Miss Rushing left the audience howling and ready for more after they sang "I'll be a sinner one day." Filling the parts of Hines and Murbelle, the two completely controlled their laughing audience. Both are able actors and performers.

Encore!

It is said that complete perfection can't be achieved. Keller was trying to do so. Keller was seen in the role of Pajera, the union president, who tried to chase the women during his performance.

Keller held the theater-goers in the palm of his hand and made them laugh just how far a clowning. The same can be

Southern Sends Delegation To Executive Meet

"There is much to be desired in the field of education from the standpoint of the Southwestern college students who lead the governments are failing in their duty to the students whom they were designed," according to Bill Moore, president of the SIU Eastern student body. The following students will represent the state at the second convention of the National Student Government Council Conference.

The convention will be held at the University of Illinois, Urbana, at 8 a.m., Aug. 11-12. Two delegates from each state university in Illinois will attend.

Organized this year in April, the convention was formed to bring about better communications between all of the state-supported campuses and also to unite the efforts of student governments and student bodies toward the goals of higher education.

Each delegation will discuss and explain their own particular problems and ject ideas and solutions for the problems presented by other delegations.

Some of the items to be discussed are: student government in the National Students Assn.; problems with state legislation in conjunction with education and transfer procedures throughout the state; the Super Board and appropriations to the universities will also be discussed. Although only a small delegation was present at the April conference, the efforts of those who did attend that much was gained and such meetings could be much more fruitful with a higher percentage of participation.

Over 500 To Get Degrees At Graduation Ceremonies

Georgia Winn Guest Speaker At Graduation Friday Night

Over 500 SIU students are scheduled to receive diplomas at commencement exercises Friday night at 7:30 in McAndrew Stadium.

Of the total prospective graduates, 225 will receive master's degrees; 275 will receive bachelor's degrees and 25 candidates for the highest degree are Mohandas Baliga in government, Richard Dandenau in accounting and Business March, John Slow and Leslie Woodin in secondary education.

Dr. Georgia Winn Gait, assistant vice president of the SIU English department will deliver the commencement address.

"Fortunately Debtor, Professor Winn joined the Southern English staff in 1941 after teaching seven years at Texas State College and the State College (Slippery Rock) in Pennsylvania.

She was the superintendent of schools of Corteziana, Texas, and served as a Navy personnel officer in WW II.

She is the co-author of six textbook series in language and literature. In 1937 she worked with the British Council in Durham, England preparing a course for teachers of English.

For the fourth year, graduates of the Southwestern Illinois campus are joining in the summer commencement exercises in Carbondale. Approximately 55 students from the Alton and East St. Louis residence centers will take part in the ceremonies.

The total—504 graduates—is a record for the summer session. In addition to the large number of graduate degrees being conferred, 128 in the School of Education and 63 in the School of Industrial and Liberal Arts Sciences will be given at the Friday commencement exercise.

We'll See You in September

After a brief rest period Southern students will return to campus to start another year with the books.

Student Week will get under way on Monday, Aug. 23, and the keynote speaker for the week will be J. B. Dale, principal of the Parents' Picnic, to be held in the University Center this year.

Local residents who wish to attend the ceremony will get underway Sept. 20.

Lightning Strikes WSIV Tower

According to Julian Ember, chief engineer of the WSIV radio station, lightning has struck the radio tower several times in the past and nothing can be done to prevent the damage incurred by the transmitting equipment.

The most recent damage occurred July 24 and caused the campus FM radio station to go off the air for nearly a week. "There is no way it can happen again at any time," commented the engineer.

Ember was on vacation and had to be called to work to repair the tower after the July 24 accident. The work took two days after the parts were flown in from Cedar Rapids, Iowa.

Low Bid Received On Steam Generators

SIU Foundation Treasurer Robert Galgally presents royalty check to the designers of the mouse house which is now being produced on Kennedy Basic. Seated in the front row are Robert Hunter, Harold Cohen and Isaac Shekmister who combined their efforts to produce the disposable animal cage. Looking on from the back row are Jane Shrake, Foundation, and John Anderson, assistant dean in the graduate school.

Babe and Sid

Babe Williams and Sid Sorokin, portrayed by Karen Hills and Larry Jarvis, put their hooks together in "The Pajama Game," which was presented Friday night in Shryock Auditorium. Miss Hills and Jarvis played the lead roles of grievance committee chairman and supervisor in the production presented by the Summer Opera Workshop and Southern Players.

BABE AND SID

Babe Williams and Sid Sorokin, portrayed by Karen Hills and Larry Jarvis, put their hooks together in "The Pajama Game," which was presented Friday night in Shryock Auditorium. Miss Hills and Jarvis played the lead roles of grievance committee chairman and supervisor in the production presented by the Summer Opera Workshop and Southern Players.

LOW BID RECEIVED ON STEAM GENERATORS

The Wicks Boiler Co., Saginaw, Michigan, submitted the lowest bid for two 80,000-pound steam generators to be installed here. The apparent low bid was for $352,000.

The new units, one to replace an existing unit, the other to add to the present capacity, will be used to increase heating capacity from 92,000 to 226,000 pounds of steam per hour. The expansion is necessary in addition to the addition of the University Center and other buildings slated for construction from bond issue funds.

Architect Charles Pulley said bids for construction of an expansion of the Physical Plant, forcing the Center to close its doors Aug. 27. The Center will be kept up to standard for the winter.

The Olympic Room will be on special collection of capes and gowns by graduates after the commencement ceremony. Faculty members and guests will also pick up their diplomas in that room.

Each summer session ends Thursday, the cafeteria will be open through Friday, serving lunch and dinner that day, Dougherty indicated.

Minor corrections in the construction of the building will be made by the contractor during the two-week shutdown. Other general clean-up can be done at this time to prepare for fall.

When the Center reopens, it will have 7 a.m. to 7 p.m. During the period before fall term begins it is expected that the University Center will serve extended hours, re-training students who are registering and the University staff.

The Center will be closed Labor Day and the next Monday.

The operating schedule beginning Monday, Sept. 18, will be 7 a.m. to 9 p.m. on weekdays, and 9 a.m. to 5 p.m. on Sundays when fall term begins.

Mouse Houses Are Paying Off

The new SIU disposable animal cages are paying off. The new cages were designed by Dr. Robert L. Galgally, treasurer of the SIU Foundation, and the three inventors of the cages, Dr. Isaac Shekmister, chairman of the Microbiology department, Harold Cohen, chairman of the geology department and Robert Hunter, design department.

The check was received from Jerry Retting, Inc., and will be divided between the Foundation and the three inventors. Half of the royalties will be held over for the next year and the rest will go to Shekmister, Cohen and Hunter.

According to Kenneth R. Miller, executive director of the Foundation, the royalties received on the cages are some-

n. Three of the months, the gross sales amount-

ed to $100,400.
Editor's Opinions

Improve Summer Session

As the term draws to a close, everyone is cramming for finals and we are fondly looking forward to the five weeks of freedom before another term begins. But don't worry, our future summer sessions will be an improvement over last year's.

This is not to insist that the 1961 summer term has not been good, or has been a failure, but there is considerable room for improvement. The large number of workshops and special sessions at the university is attracting many people in the area and many high school students and teachers from longer distances. This is not the place to belabor the point, but it is especially true in an area such as southern Illinois.

But they may also serve as a handicap to the many paying students who pay out of love for the university. With theinterspersed lecture, much of the time with the special groups, they are forced to pay more for their courses.

As a result, reports and exams may never be graded, or at least graded only haphazardly, and master's theses may be delayed with the result of graduate students being kept in school until they do a dissertation.

Of course the greatest fault we can find cannot be blamed on anyone other than ourselves.
At The Library

Population Low In Summer

by Ed Cook

Despite its relief - giving air conditioning, Morris Library did not attract enough students on weekends to remain open for business during the summer.

More students stayed away from library during the summer session plus insufficient funds forced the Library to close on Saturday evenings and Sunday, according to Ralph E. McCoy, director of Morris Library.

"The largest usage is by education students in the College of Education Library," McCoy explained.

McCoy also added that the cost of running the library during the weekend would not justify opening the doors for a few students. He pointed out that "if we were to figure out the cost, it wouldn't be worth opening the library. People just don't want to study on Saturday or Sunday. They want to be out at the lake or somewhere else." He continued that "even if there were enough students to warrant opening the library, I just don't think we would have enough money to maintain a staff."

The director pointed out that a tremendous amount of money is necessary to keep the Library open on weekends. "We ran about $2,000 in the hole last year," he commented.

"As far as library personnel are concerned, McCoy explained that "at least ten people are needed to run the library. There are four subject libraries to be covered besides the circulation desk."

However, McCoy explained that the Library will be open during the break between the summer and fall term on a requested schedule. The library will be open Friday through Sept. 16. He added though that the building would close at 4 p.m. Friday because of commencement exercises.

Beginning Saturday through Sept. 15 the hours will be from 8 a.m. to 5 p.m. On Saturdays, beginning Aug. 19 through Sept. 16, the building will be open 8 a.m. to 12 noon. The Library will be closed on Sunday.

McCoy also pointed out that the air-conditioning will not be operating Saturday through Aug. 17 because the Physical Plant will be shut down.

McCoy remarked that a meeting will take place later this week with a committee of the Student Council to set up Library hours for fall term. After the meeting, cards bearing Library hours will be distributed to students.

REFRESHING PAUSE

A thirsty patron visitor paused for a bowl of lemonade at the Monday Library. Some students and faculty were treated to the refreshing pause each Monday this summer. The activity was one of many sponsored by the Activities Development Center for the summer session.

Three From SIU Will Compete In National Contests

Fred Orloffky and Bruno Kinoski of the SIU basketball team were invited to the NCAA gymnastic championships last spring, will enter national competition again this week with trips abroad at stake. The pair of Southern standouts, who paced the Salukis to second-place finish in the NCAA meet, will be in action at West Chester State Teachers College at Westchester, Pa., today and tomorrow. Most of the nation's top gymnasts will kid for spots on two teams representing the United States. One group of six men will leave Aug. 11 for Europe and will engage in a series of exhibitions with the Russians and in a final meet in Moscow before returning Sept. 1. Another six-man squad is expected to leave Sept. 2 for a one-month trip to Africa where it will stage exhibitions sponsored by the State Department.

Orloffky, a member of the U. S. Olympic team a year ago, won the NCAA still rings title in 1966. Orloffky and Klaus, Gar O'Quinny, recently appointed assistant gymnastic coach at Southern, will complete the 13-member team. Orloffky and Klaus are graduates of the Missouri Military Academy, where Orloffky was a member of the 1960 boys' varsity basketball team. The Saluki pair will arrive in Stockholm, Sweden, Thursday, Aug. 11, their warm-up period lasting until the final competition.

Student Photo Display Now In University Center

Seven graphic photographs selected from the work of students in a beginning photography class at Southern this summer are on display in the University Center.

The mounted photographs, which are copies of graded negatives, are placed in the Center's east-west corridor exhibit cases.
