Weep No More

Students who do not wish to go through the security check and metal detector will not be forced to search in vain for activities.

The Workload Committee, which will meet on campus today on the second floor of the main building, will be working on the organization of a full program of activities for semester one. The committee will meet Thursday and Friday afternoons.

The committee has set as its goal the organization of a full program of activities for the semester. The committee will meet Thursday and Friday afternoons.

The reasons for this form of activity have been noted in recent years. The beginnings were different, but the ending was invariably the same—cancellation. The reasons for cancellation are too many to list.

The same scarcity of interest, cooperation, and participation in University affairs by the majority of the student body has been the cause of much concern by students and university officials.

If the latter reason is your excuse, the remedy has been offered in the form of The Student, a group that offers the opportunity of benefit to all students, whether Greek or non-Greek. The committee offers the suggestion that you try to improve your activities and interest instead of asking for students interested in doing something right now.

Arab Student Gives His Views On Crisis In Near East
By SAAD JABER
I feel strongly forced to express the Arab's point of view in the current crisis in the Near East. My views are not shared by any one Arab. I express the views of the Arab people as a whole. This does not mean that I speak for the Prophet, nor for the Arabian nation as a whole. All of the Arab nation have taken a stand in support of the United States. It is up to the United Nations to see that the Arab cause is protected.

When the United Nations makes a decision in favor of the Jews, the Arabs are relieved. When they make a decision in favor of the Arabs, they are disappointed. The United Nations is supposed to be neutral. The Arab people believe that it is bias. They feel that the United Nations is not doing its job.

The Arab people are not just fighting the Jews. They are fighting the British, the French, the Americans, and the United Nations. They are fighting for their freedom. They are fighting for their land.

The Arab people are not just fighting for the Land of Israel. They are fighting for the Land of Palestine. They are fighting for the Land of Jordan. They are fighting for the Land of Lebanon. They are fighting for the Land of Syria. They are fighting for the Land of Iraq. They are fighting for the Land of Egypt. They are fighting for the Land of Turkey. They are fighting for the Land of Turkey.

The United Nations should not make decisions in favor of the Jews. It should not make decisions in favor of the British. It should not make decisions in favor of the Americans. It should make decisions in favor of the Arab people. It should make decisions in favor of the Land of Palestine. It should make decisions in favor of the Land of Jordan. It should make decisions in favor of the Land of Lebanon. It should make decisions in favor of the Land of Syria. It should make decisions in favor of the Land of Iraq. It should make decisions in favor of the Land of Egypt. It should make decisions in favor of the Land of Turkey.
