University High Lose Three Close Games

Lose to District Champs in Last Few Minutes of Play

University has met and have gone down in defeat in the last three games. All three of their opponents were of the strongest type in Southern Illinois. It is no disgrace to lose to these teams with the small score that the boys held to, Marion, who has met defeat only once this year was held to a 3 point margin. Twice they have beaten, the other. Hickey scored on the only run the score up to 3-0, now gone.

The Easterners used the five man Southern score that the boys held them to, vantage district once this year was held to a margin. Twice they have beaten. The Easterners used the five man Southern score that the boys held them to, vantage district once this year was held to a margin. Twice they have beaten. The Easterners used the five man Southern score that the boys held them to, vantage district once this year was held to a margin. Twice they have beaten.

U. H. S. 7—Carterville '4

Coach Snyder motored to Carterville Friday with ten regulars and were defeated by the speedy little Carterville quintet. All ten of the men were utilized in order to save the first string for the texture game with Marion, the district champs the following night.

Carterville H is supporting a strong team this year and will make things hot for any team they run up against. However the University squad hopes to show them a little better time when they call here Feb. 4 for a return engagement, for them Coach Snyder will probably employ his regular first five throughout the entire game.

U. H. S. 17—Marion 20

In what proved to be one of the fastest prep games played on the Normal floor in some time, the lightning University five were forced to submit to defeat at the hands of the district champions of Marion High.

For a time it seemed that the greatly touted queen of Egyptian basketball was about to be rocked from her shaky throne. But timely shots by the visitors in the final few minutes of play saved the day for them and immediately their reputation.

Meffert and Capt. Hickey were the scoring stars for the U. H. each netting three goals apiece. Brimm scored one and Renfro snared the other. Hickey scored on the only foul made by the champions. Renfro starred with his speedy floor work and his brilliant defensive play.

Johnson led the scoring for the visiting team netting a total of five goals and counting on 2 free throws.

(Continued on Page Eight.)

Whizzes Trounce Charleston but Were Defeated by Sparks

Defeats Easterners 30-21 in First Game—Lose to Sparks 41-16 in Second Battle

The boys from Charleston showed they were not going to be taken lightly in the tournament by taking the first Cape game. They showed they were not going to be taken lightly in the tournament by taking the first Cape game. For a time they looked shaky in the first half, but in the second they were able to pull ahead and hold off the Easterners.

The Easterners used the five man defensive system, and used it to the hour of 41-15. The result was almost impregnable—would have been, perhaps, totally so, to a shooting system less versatile and resilient than the Normal possesses in their scoring trio. Allen and Carter, defending the Normal goal, did noticeable good work in reducing the number of shots which fell, and, of course, were the basis of the defense.

The Carbondale team started with a bang from the start when Capt. Allen made our first basket. The quick succeeding baskets of Valentine and Procks raised the score to 11-8 at the end of the first half. The first team started with the chance of being the first, but in the second half, first came the chance of winning, and the game went as they fell.

The final score was 41-16. The local boys were not only still on the sick list, but also tired from the game the night before.

INTERCOLLEGIATE CONTEST OF COMMERCIAL SUBJECTS TO BE HELD

Carbondale, Ill., Feb. 1.—Sixteen high schools have entered an interscholastic contest of commercial subjects to be held under the auspices of the Southern Illinois Teachers’ Association. It was announced today by T. L. Bryant, chairman of the commercial section of the association and head of the Southern Illinois Normal Commercial Department.

The high schools entered are: Cairo, Murphysboro, Carlin, Harrisburg, Carbondale, Gorham, Herrin, West Frankfort, Mascoutah, Sparta, Vienna, Du Quoin, Belleville, Marion and Benton. Others are expected to enter.

Contests will be held in shorthand, typing, penmanship and first and second prizes will be awarded to the Normal school and to members of such an organization.

Mr. B. E. Bridges, Mr. R. E. Renfro and Mr. F. M. Hewitt, representing the Lions’ Club, Rotary Club, and Business Men’s Association respectively, gave interesting sketch concerning the school when they were in attendance, and the value of the Agricultural Club.

Mr. Pete, Miss Rue and Ransom Sherratz, the other honored guests of the evening, spoke enthusiastically of the work of the club, its duty to the school and to Southern Illinois.

In closing Mr. Muckleroy outlined the purpose of the banquet so well that we firmly believe that there are legitimate grounds for many more such pleasant occasions in the future.

Longshot says he would make a fine lumberman because of his knowledge of logarithms.
OUR SERVICE FLAG

We have all seen our World War Service Flag hanging from the balcony railing on the north side of the auditorium. It begins to look dingy and we probably have lost interest in it because we see it so often.

It is proposed to take steps to preserve this reminder of the "times that tried men's souls." Mr. Smith of the History Department has been appointed by President Shryock, chairman of a committee to look into the first way to preserve this emblem, to find out approximately what it will cost and report this information to the Faculty.

One plan is to place the flag in a large frame with glass face so arranged that the case or frame will be dustproof. It has not been decided just where the frame should be placed but some appropriate nook will be selected later. It is proposed to provide a really high grade frame and glass that will serve not only as a means of protection but that the effort may be keeping with the dignity and sentiment of things for which the Service Flag stands.

It has been suggested that the student body should be given an opportunity to contribute to the expense incurred in providing the frame and glass. It has also been suggested that a sort of commemorative service should be held when the Service Flag is placed in position.

A TWENTIETH CENTURY VERSION OF CAESAR

EXCHANGES

Grading on the new athletic field to be had by Old Normal will begin early next spring. It is to be a modern football and track field. The quarter mile track with seven running lanes and 116 yard straightaways will enclose the football field.

Although the field will not be ready for baseball in the spring it will be ready for football next fall.

Old Normal scored 149 points to their opponents 136.

Charleston had a two column write-up about one of their games but failed to give the final score.

Y. W. C. A. and Y. M. C. A.

A discussion of the posters sent here by the poster-exchange will be given Tuesday afternoon by Elin Hail and Edward Zeiler. This is a joint meeting and everyone is invited to come.

THE RADIATOR

We shall endeavor in the Radiator Column to radiate the wit and wisdom of our faculty members and the students in general. It is hoped that the Egyptian readers will experience real enjoyment in all that finds a place here.

WE HAVE THE BLUES

It's raining, a drizzly uncomfortable "drabulous" rain. The train whistle's, and the mob in the station begins grabbing suitcases, handbags, paper bundles, and crying babies and pours out the door into the drizzle. They (or I should say we, for I am unfortunate enough to be one of the mob) crowd down the platform, past the baggage truck. The big, black monstrosities in steps, puffs, rings their bell, and seems to wait impatiently in taking the drabulous bedrabbled crowd. We pass through the car trying to find a seat where we shall not have to talk to anyone. Finally the sticky-finger babies are safely ensconced in the red plush seats; the silly, ugly "small-talkers" are in front of us; and the two matrons who are on their way to St. Louis to shop and maybe see a good vaudeville show while they're there, are busily chattering about such inconsequential matters as their spring wardrobe.

We lean back and try to imagine we're on our way to some distant, sunny clime where the skies are ever blue, and roads always smooth, and mood unknown. But strong as our imagination is, we can hardly picture such a heaven, especially when the train comes to a jerky stop, and more bedrabbled people get on. They aren't clothed in sportswear—big, or small—nor are the owners of the cars.

It is raining, the streets are deserted, we are alone from the train, we're homesome! Back to school, back to ungraded themes! It rains! We have the blues!

Dear Aunt Minn:
I am seeking advice. In the first place I want it understood that I entirely agree with the noted discoverers along scientific lines. There are a few details, however, in which I disagree with the eminent Professor Einstein and I mean to set him and the world right, when the opportunity arrives.

Take for instance his theory that the divine attributes of the aetherized perceptiveness of the earth's equatorial zones cause a heterogeneous convex of the bascomotor capillaries of the Anarectic Polar region. Whenever the efferencescence of this atmosphere impels the poles to work upon their historic enemy, the Finn. Nothing could be further from the truth. A babe in arms would NEVER make such a statement.

Now my belief along that line is that despite the present day prices being somewhat heavier than air, they are kept suspended at great heights by hot air expelled by this country's profiteers. Obeying a law of gravity originated in the Internal Regions, they will remain aloft until an economic pressure is brought to bear upon the aforementioned profiteers. Therefore I state with conviction that the rhomboid apex circumscribing and the equilateral paralax of the cheesehead base and the hypertension comprising the terrestrial, celestial and spatial impulses caused by the friction of the Australian flea's hind leg on its left wing, emanating in an intimidated gracchoid, must never die but with malice toward none and liberty and justice for all, shall live forever. Like grape nuts, "There's a Reason."

Have I made myself perfectly clear?

IRA BEARE.

Dear Mr. Bear:
You are right, a babe in arms would NEVER have made such a statement.

AUNT MIN.

Another Game Added to Schedule

The basketball fans of the S. I. N. U. are glad to hear that another game had been added to this year's schedule. The contest is with Union University of Jacksonvile, Tenn. Union University have a wonderfully developed team and are touring the north to show what they do down south. The game will be February 14.

Agora Orchestra

The Agora Debating Club has organized an orchestra, which, if it grows as much every week as it did last week, will soon be the largest orchestra in the world.

It is at present a nine-piece orchestra, but can make more noise than we thought possible for any other orchestra to make.

If you enjoy good (?) music, come out and stand under the window next Monday night.

Prof. Smith arrived at his first hour class just after the second bell had sounded. After taking his chair and looking around he said, "Well I forgot my book this morning, forgot my notes, forgot my glasses and my examination papers. I came very near forgetting myself. — The old Ford won't work. — The c'kens have the group. Let's see who can spare their book the best?"

The Art Appreciation Club

On January 25, the first meeting of 1923 was held. The following program was given:

Humorous Reading by Ina Tibby.
"Whistler's Painting," a talk by Edith Mears.

The meeting was enjoyed by all and the usual splendid programs have been arranged by the committee for the winter term.

Under the direction of the University of Illinois, colored prints have been made of the works of art in the Chicago Art Institute. The Art Appreciation Club is very fortunate in having first Teachers' College Club in Illinois to exhibit them.

The prints will be on view some day next week. Watch for the Poster. The Club extends a cordial invitation to everyone.

Coming Social Events

The society will enter in the Senior and Senior college people next Wednesday evening from 8 until 10 at Anthony Hall.

The Juniors will be entertained by the faculty on Thursday evening.

These parties afford good opportunity of getting acquainted with your classmates. Take advantage of it. Come and see andsociable you can be.

On Wednesday the high school Freshman and Sophomores will have a social in the Gym and on Thursday the high school Juniors and Seniors.

**Y. M. C. A. Notes**

Last Tuesday Mr. Bailey spoke to the Y on the subject "Evolution and the Bible." A large number of men were present to hear the discussion of that important question. Everyone at some time or other has come face to face with this problem and to most of us it has remained a puzzle. Mr. Bailey in a very clear cut manner gave to us the views of the modern scientists and present and past church authorities. He convinced us that most of our controversies come when we try to explain the process of evolution instead of explaining evolution itself. We all know now that a true Christian can believe in evolution and still be in harmony with the Bible.

Next week the Y. M. C. A. and the Y. W. C. A. will have a joint meeting at 6:30 in Socratis Hall. The subject for this meeting will be, "Our Christian Missions." A large poster exhibit will be the main feature, besides short talks on the subject of missions. The posters have come to us from Monmouth College where they were much enjoyed. Avail yourself of this opportunity to gather some facts about missions.

The Chicago Y is asking for men to help in conducting a summer camp for high school boys. It is a six week vacation camp at Camp Roosevelt, pays $50 and expenses. See any Y men for particulars.

We hear from headquarters that the plans for a "Greater Genera" this summer are under way. The finest and largest student camp in the world on the cool shores of Lake Geneva, that gem of Wisconsin, is preparing to welcome you.

If you want a good school paper,

Each of you must do your best.

—Egyptian, 1921.

We read in the paper from the Normal School at Valley City, N. D., that the temperature there last week was as much as 18 degrees below zero.

**WHY HE WAS THERE**

A gentleman was one day visiting a lunatic asylum and while walking the grounds he met a patient to whom he said, “Well, my good man, why are you here?” The lunatic replied, “Well, sir, you see, I married a widow, he has a step-daughter, and then my father married that same step-daughter, and that made my wife the mother-in-law of her father-in-law, and my father became my step-son.

Then, my step-mother, the daughter of my wife, had a son, and that boy, of course, was my brother because he was my father’s son, but he was also the son of my wife’s step-daughter, and therefore her grandson, and that made me grandfather to my step-brother.

Then my wife had a son, so my mother-in-law, the step-sister, is also my grandmother because he is her step-son’s child, my wife. I am the brother of my own son, who is also the son of my step-grandmother: I am my mother’s brother-in-law: my wife is her own child’s aunt; and my brother-in-law is my wife’s nephew, and I am my own grandfather, That is why I am here, sir.”

**SENIOR COLLEGE WORK**

The Examiners have asked us to say something about students calling for Degree work when having their cards filled out. This is an error. All work above High School is of course Degree work. Please refer to this as Senior College work in the future.

**GOSSIP CHAT ABOUT THE LATEST BOOKS AND THEIR AUTHORS**

“Human Nature in the Bible”

By Wm. Lyon Phelps

This scholarly and thorough place of work is done by one of the greatest critics of the age. This book differs from all the previous commentaries on this much commented book. It gives a twentieth century twist to the book of the age by retelling scriptural themes from the human—not divine—viewpoint. Every incident has its interpretation, its parallel in modern American life. For instance Saul is called a cowboy, Abraham a Palestinian Roosevelt, Elijah an evangelist, and Josh a professional fighting-back. And once in a while he slings a bit of slang. Why not? In our estimation that is the deliciously human touch that makes this delightfully human English professor so interesting. We once heard him remark that he took a diabolical pleasure in shocking the ultra prudish and modest people. We’ve worshiped at his shrine ever since.

There is nothing, you understand, that would shock the puritanical ministers in this book, but the fact that he has made these Bible characters real men and women, makes this book the book for all time arranged for our own day and generation.

THE EGYPTIAN

If stumbling owns stumble Inn? Who was the roof of the Science Building the night of G. A. A.? Why love is blind? Why Ralph Warren had to be blindfolded before the picture of his county could be taken: also why he left his bunch of red-top at home last Friday.

Why the gym isn't equipped with the dumbbells in the plane geometry class?

How Miss Watson can achieve greatness as an actress could be Norn:al the dumbbells in the plane goometry class?

What broke up the Building the night of:

Why Longshot Travelstead comes to school so early at noon and watches the south door?

Why Ed Zeller does not teach the Normal Physics class all the time.

Who fell down the stairs at Anthony Hall Tuesday night during study hour?

Why Mr. Pierce doesn't oil his swivel chair?

What broke up the Palama Party at Lookwoods Sunday night.

Why all that bunch of boys stormed Anthony Hall, Tuesday night.

Why there was so many 5's in Wham's exam in Prin. of Ed.

Why Normal reads so many "Yogues."

Why some girls on third floor are never at home.

Where Pete Johnson went Saturday night.

When Elizabeth Weir's two weeks are up—going with House.

Who Lulu Watson is jealous of?

What Miss Smith drank at the "tea room."

Why Corem refers to Myrtle as "IT"?

How Greasy keeps his hair so nice and coiled during a game?

Why the mailman causes so much excitement around Anthony Hall? Who says, "I love you, 'Haw,'" in his letters to E. M. ?

Why Cape lost the game?

Why Normal is so interested in Sailo? How many girls realize this isn't a question of "Do you use rouge." but "How" and "When."

How many of us are polite for "politeness sake" rather than for "kindness sake."

If Ransom Sherrerts wouldn't enjoy an all day sucker even now?

Why faculty members haven't entertained us before with something besides lectures?

Why Ed Zeller always begins with, "I hate to talk so much but—-?"

What girl at Anthony Hall is so interested in meeting Frank Lockard?

If it always takes two people to play a viola "solo?"

Where Clyde Willoughby was at 12:01 a.m. Friday morning, January 19, and why?

What broke up the Palama Party at Lookwoods Sunday night.

Why all that bunch of boys stormed Anthony Hall, Tuesday night.

Why there was so many 5's in Wham's exam in Prin. of Ed.

Why Normal reads so many "Yogues."

Why some girls on third floor are never at home.

Where Pete Johnson went Saturday night.

When Elizabeth Weir's two weeks are up—going with House.

Who Lulu Watson is jealous of?

What Miss Smith drank at the "tea room."

Why Corem refers to Myrtle as "IT"?

How Greasy keeps his hair so nice and coiled during a game?

Why the mailman causes so much excitement around Anthony Hall? Who says, "I love you, 'Haw,'" in his letters to E. M. ?

Why Cape lost the game?

Why Normal is so interested in Sailo? How many girls realize this isn't a question of "Do you use rouge." but "How" and "When."

How many of us are polite for "politeness sake" rather than for "kindness sake."

If Ransom Sherrerts wouldn't enjoy an all day sucker even now?

Why faculty members haven't entertained us before with something besides lectures?

Why Ed Zeller always begins with, "I hate to talk so much but—-?"

What girl at Anthony Hall is so interested in meeting Frank Lockard?

If it always takes two people to play a viola "solo?"

Where Clyde Willoughby was at 12:01 a.m. Friday morning, January 19, and why?

THE EGYPTIAN

If stumbling owns stumble Inn? Who was the roof of the Science Building the night of G. A. A.? Why love is blind? Why Ralph Warren had to be blindfolded before the picture of his county could be taken: also why he left his bunch of red-top at home last Friday.

Why the gym isn't equipped with the dumbbells in the plane geometry class?

How Miss Watson can achieve greatness as an actress could be Normal the dumbbells in the plane geometry class?

What broke up the Building the night of:

Why Longshot Travelstead comes to school so early at noon and watches the south door?

Why Ed Zeller does not teach the Normal Physics class all the time.

Who fell down the stairs at Anthony Hall Tuesday night during study hour?

Why Mr. Pierce doesn't oil his swivel chair?

What broke up the Palama Party at Lookwoods Sunday night.

Why all that bunch of boys stormed Anthony Hall, Tuesday night.

Why there was so many 5's in Wham's exam in Prin. of Ed.

Summers and Stanley scored two baskets each.

Marion began the game in whirlwind fashion and scored two baskets before the U. Hi went into the fray. The locals soon found themselves, however, and started pushing the champs for all they were worth. The game from start to finish was a see-saw affair. On several occasions the Fighting University five forged ahead of their adversaries only to be cut down again with the long shooting of the champions. Efficient guarding by the University compelled the Marion team to resort to long shots. The final period proved to be the fastest of the game and for the initial seven minutes of play neither side scored. With the score standing at 17-16 in favor of the U. Hi, Marion began a desperate offensive in hopes of overcoming the small lead before the final whistle. Following up a long shot the visiting team succeeded in tipping in the rebounding sphere and quickly followed this with a long shot from near center, turning what seemed a victory for the U. Hi into a last minute defeat.

The University five goes to Anna tonight and plays at Johnstown City Friday night.

U. Hi, 19; Anna, 24

If the Anna outfit expected to have an easy time getting Blackcat's Kittens men's number at Anna last Tuesday they had another guess coming. The Cardinal and Gray, still sore over their defeat by Marion, played the style of ball that will win most contests and made Anna throw wide open the throttle and travel at top speed to divert a defeat. Score 15-24. The Kittens got the lead and kept it until the last of the fourth quarter when Anna got "gutty" and caged three beautiful long shots, shutting U. Hi completely out. The team has lost several games by dismaying close scores and can be safely counted on to start a winning streak at any time. They are saving that winning streak until they go to the tournament and then watch them "spread their stuff." The Kittens were: Meffert and Hickey at forwards, Brieim at center, and Renslo and Loy at guards. Crawford and Bridges substituted for Meffert and Hickey the first quarter. Ed Harris refereed.

What if We Play Shurtleff?
The student body of the S. I. N. U. greatly misses Shurtleff on our schedule this year. As there have been several questions concerning this, we are glad to say that there are no hard feelings between the schools as they will appear here for games next year. The authorities were unable to arrange dates for games this season:

But what if we did play them? Who would win? You may form your own judgment by the following score:

McKendree, 35; Shurtleff, 15.
Charleston, 26; Shurtleff, 15.
S. I. N. U., 29; McKendree, 22.
S. I. N. U., 30; Charleston, 21.

(Continued from Page One.)

than January 20th, are eligible to enter, the rules stipulate.

Rules for the contest will be sent to high schools not having received them upon request to T. L. Bryant, head of Normal University Business Department, Carbondale, Illinois, it was announced today.

FEATURE GAME OF THE SEASON
Forum and Agora to Clash

Next Saturday at 1 o'clock p. m., what is classed as the feature game of the season will take place. The Forum and Agora will meet, the first game of its kind at the S. I. N. U.

One glance at the line up will prove that it will be the most enjoyable (laughable) game of the year. The Agora will present the following line up:

Center—Charles Neely.
Forward—Ransom Sherrets.
Forward—Claude Parsons.
Guard—Willard Campbell.
Guard—August Meyer.

In case these get knocked out by the Forum, the line of subs are very strong.

Fishel is right at home to make a tackle and prevent the opponent from scoring. Bowers is a fast man from Murphy and hard to beat at guard. Sanford, a long and tall boy, is very swift for center. Purdue, Watson, Schroeder and Goforth are the outstanding subs for the forward position. Crandle, the speedy man can play any position.

The Forum offers one of the strongest teams ever seen on the local court. There is Ben Merkle, one of the most broad-minded men in school. He pulled down four 95's and says he can make that many points in any game. Gabraith from Fairfield—you know they raise them fast up there. Burgess hails from the mighty Ohio, he washes the slate clean. Harper comes from East St. Louis. You know what they did to Benton—Poor Agora. Then last but not least Kennedy. The boys from the Agora already have it planned to run between his legs. But what if he butts them?

The whole school is invited to attend. In fact some of the boys won't play unless there is a big crowd to see them perform.

Orville McLean Made a Second Lieutenant

Orville McLean, who attended school here the fall term, has recently received his commission as second lieutenant in the officers reserve corps of the United States Army. His many friends here will be glad to hear of his promotion.

Lost
Lost between Science building and Normal Hall, Tuesday, January 30, an Elgin watch enclosed in hunting case, size 18.

A reward of $5 will be paid for the return of same to the Egyptian office.

We may be sure that anything and everything you purchase from us is just as represented. If for any reason you think that you have not received value for your money, bring the goods. If you don't want them, we don't want you to have them.

We spend a lot of time studying the student's needs and means and when we put anything in our stock you may be sure it is worth all we ask; most times a little more.

You can't lose when you deal with us,

JOHNSON, VANCIL, TAYLOR CO.
