Get In The Swim With Summer Recreation

So! It's a hot day. But there are ways to beat the heat at Southern. Summer session need not be dull or unrewarding as far as recreational activity is involved. A fountain of fun might make you forget a pound of heat. A brief on summer recreational activities at Southern might be helpful.

If you're the athletic type or would just like to acquire a golden tan, you'll like the opportunities offered by the Physical Education department. Since swimming and anything concerning swimming is appealing in this weather the department has arranged for buses which go to Crab Orchard Lake each afternoon, Monday through Thursday. The buses leave at 4:20 p.m. and transportation is free—you need only a spot and money enough to get into the bath. Sign up on the bulletin board outside the women's gym office by noon each day.

Each Wednesday evening open air movies are shown in McAndrew Stadium, or in case of rain, in Shryock Auditorium. Admission is free, and you can bring the kids, wife, girl friend, or your guests. Incidentally, the movie to be shown tonight is John Steinbeck's heralded "Grapes of Wrath."

Have you had a chance to visit the St. Louis / Many Opera this summer? The Student Center is

Rev. Elwood Wylie Resigns To Accept Moline Position

Rev. Elwood K. Wylie, director of the Student Christian Foundation, Southern Illinois University, has accepted the pastorate of the First Baptist church in Moline, Ill. His resignation, effective Aug. 31, was announced by Prof. Woodson Fishback, chairman of the Foundation's executive committee.

Rev. Wylie was born in LaSalle County, Illinois, and received his B. A. from Wheaton College. In 1945 he entered the Southern Baptist Theological Seminary in Louisville, Kentucky where he received his B. D. and Ph. M. degrees.

In the fall of 1948 Rev. Wylie came to Southern. Through his encouragement the Foundation was repaired and remodelled by the students themselves. Working with the Board of Directors of the Student Christian Foundation, he was able to achieve added financial aid for the Foundation from the various denominations.

To Rev. Wylie, however, the greatest accomplishment of the Foundation was the knowledge that students of many denominations and faiths are able to work, study, and relax together in one organization.

Close Auditorium For Accoustical Repairs

Our hero looks with burning eyes upon the ravishing heroine, and, from where we sat, high in the balcony, he seemed to whisper husbollistically, "Does he allow cuts in his class?" The boxum beauty, apparently unflustered by this unpolemical approach, cleverly answered, "Sorry, this seat is taken."

Such were the occasional vexations of Shryock auditorium audiences before the plastic pianist decoctions were removed from the auditorium walls to be replaced by plain but scientific acoustics. The days of couples who yak it up louder than the sound track and mezzo-sopranos are of yore. Or will it? As soon as Shryock auditorium has some makeup added to its new face lifting job.

Rumor has it that Shryock has been condemned because of falling acoustic tiles, but rumors have a way of growing, and this one is no exception.

The acoustic tiles are falling, but public events scheduling in Schrock is being abandoned only temporarily. Charles M. Putley, director of the Architectural Services, reports that the ceiling repairs will be completed within weeks. So, very soon, audiences will again be climbing over knees to see a concert, or to hear Sigmund Romberg songs such as "Deep in My Heart." The whole thing is presented by Sunday Opera with Roxy, the love story of a prince and a commoner, is set in old Heidiert. It is embellished with Sigurd Rosenberg songs such as "Serenade," "Drinking Song," "Golden Days," "Come, Boys," and "Deep in My Heart, Dear."""" The book and lyrics for this work are by Dorothy Donnelly.

The bus will leave the Student Center at 3:30 p.m. on July 10 without putting words in the on-stage performer's mouth!

Student Center to Offer Opera Trip To 'Student Prince'

The Student Center is sponsoring its second St. Louis / Many Opera trip for this season. The Student Prince, the love story of a prince and a commoner, is set in old Heidiert. It is embellished with Sigurd Rosenberg songs such as "Serenade," "Drinking Song," "Golden Days," "Come, Boys," and "Deep in My Heart, Dear." The book and lyrics for this work are by Dorothy Donnelly.

The bus will leave the Student Center at 3:30 p.m. on July 10. Bus transportation and opera ticket, totaling $2.25, must be purchased at the Center by July 3.

Valuables Stolen From Cars Parked At Crab Orchard

Students should watch their valuables when swimming at Crab Orchard Lake, according to reports of theft recently released from the dean of men's office.

One car which was parked at the spillway last week was broken into and watches and other valuables were stolen from it.

There are 10 fraternity and sorority and 23 independent houses for students on the Southern Illinois University campus.

Shipment of the 1952 edition of the Obelisk is expected to arrive here Saturday, July 12, according to Donald Grubb, fiscal sponsor of the yearbook.

Plans are for an official distribution line to be set up in the Student Center Monday, July 14. At this time, distribution of the 2,200 yearbooks will be made to the following people:

(1) Students who have been in school all three years, and the last past school year are entitled to a free Obelisk upon the presentation of their activities cards.

(2) Students who have not been in school all of the three terms may obtain a yearbook at a cost of $1.60 for each term not enrolled in school.

(3) Students who request for their yearbooks to be mailed should direct their letters to the journalism office. They should also expect to pay the postage.

There will be two main periods of distribution of the Obelisk. The first will be during the week following the week of arrival.
That Word "Independence"

"Friday we celebrate the 176th anniversary of the establishment of independence in the United States."

If that statement sounds flat, it is because we were meant to serve as a reminder to you that July 4 was originally started as a day for celebration of independence.

Throughout those 176 years the United States has had to continually battle to keep her independence and through those years, the people of the United States have turned that day into one of wholehearted enjoyment without one thought of the word "Independence."

We do not go so far as to say that the vacation spirit should be taken away from the national holiday. We only wish to remind you that the U S is still fighting for her independence in Korea and that her soldiers are still giving up their lives to preserve that independence. So—how about taking time out on Friday and think a few minutes about that word, "Independence."

O.W.

Hints on Parking

According to the University Parking Committee regulations of July 16, parking space will be at a premium this summer. So—you may be happier and cooler if you will follow the rules which have been established.

1. No parking on the campus circle at any time.
2. Parking in the following areas will be open to all students and faculty cars. You may park in these spaces without a parking permit.
   a. Parking lots east of Illinois avenue and north of Grand avenue.
   b. Parking on the south side of Grand avenue in front of the University from Illinois to Thompson street.
   c. Parking on the east side only of Thompson street between Chautaqua and Harwood avenues.
   d. Parking on the south side of Harwood avenue.
3. Parking in the following areas will be open to students and faculty cars with parking permits:
   a. Parking lot west of Illinois avenue and north of Grand avenue.
   b. Parking lot north of University school.
   c. Parking lot at the corner of Thompson and Chautaqua street.
   d. Parking lot north of the Board of Trustees building.
   e. Parking lot on Grand avenue south of University.
   f. Parking lot east of Anthony Hall.
   g. Area west of the Academic Deans building.

The parking committee also requests that students and faculty not park on sidewalks and maintain the 10 mile an hour speed limit while on the campus.

Plans Set For Education Conference

Plan for a two-day Education Conference to be held Thursday, July 10 and Friday, July 11 at the University School auditorium have been announced by Jim Ross, assistant to the director of extension.

The conference, "Leadership and Cooperation in School and Community Development," is to be directed toward school administrators, guidance workers, classroom teachers, and the PTA. It is being held in conjunction with the educational materials exhibit which will be held in the University School gymnasium on the same day.

Thursday's session will begin at 9 a.m. following registration and will end at 11:30 p.m. Dean Douglas Lawson will present the welcoming address for the day.

Keynote speaker of the day will be Dr. George Hand, SIU's newly appointed chief executive assistant. This session will begin at 9:15 a.m.

Discussion groups will meet at 10:20 a.m. to discuss handling individual differences, cooperation among teachers and parents, and relating leadership.

Special interest groups meeting at 2 p.m. in the afternoon will discuss student administrators problems, meeting guidance needs, and the working of the PTA.

Dr. Woodson Furbach and Dr. Claude Dykhause are the chairmen for the Thursday sessions.

Nine o'clock the morning Mrs. J. W. Heydel, retired vice-president of the National Congress of Parents and Teachers, will speak.

Baker Brownell, recently appointed director of area services for the university, will be the keynote speaker of the day. His address will be presented at 9:20 a.m.

Discussion groups meeting at 10:20 a.m. Friday will discuss reorganizing the school staff, guidance, community, and services offered by SIU.

Following the 1:30 p.m. session which will consist of a demonstration or panel discussion the conference will adjourn.

Dr. Marshall Hixley is chairman of the Friday session.

The conference is being sponsored by the department of Education and Guidance and Special Education, the Illinois Congress of Parents and Teachers, and the Division of University Extension.

Employment Is Available For SIU Summer Students

Several job openings have been made available to Southern's students during the past few weeks according to Alice Reeter, Office of Student Affairs.

Positions are open to both boys and girls in clerical work, stenography, bookkeeping, and shorthand. Odd jobs such as garden work, window washing, and curb service are also available.

Procedure for applying for jobs is as follows: (1) Each student desiring employment should fill in their student employment form information sheets in the Office of Student Affairs.

(2) The number of working hours is regulated by the academic load.

(3) The academic load which counts as maximum work load is as follows:

Scholastic Load Full load (15 quarter hrs. or more) 70 hrs. ½ load (10 to 14 quarter hrs.) 90 hrs. ¼ load (6 to 9 quarter hrs.) 110 hrs. less than 6 quarter hrs. 130 hrs.

Requirements for job employment are that the employee must be a Southern student, with an exception made in cases of extreme need.

Student pay rates have increased five cents per hour since last April and there is a possibility of a further increase next year.

A student employee must maintain an average of "C" or above in order to continue work as a student employee, with an exception made in cases of extreme need.

Student employment has been established on campus in order to provide the student's educational expenses and to supply the student with an educational experience association, preferably in his major field.

No 30 Day Draft Deferments
Announces Selective Service

Selective Service officials at National Headquarters have announced that college graduates a thirty days' postponement of induction. Graduates are now immediately liable to induction at the end of their academic year, however, every deferred student, including any recent graduate, must be reclassified by his local draft board, the necessary processing ordinarily will take three to thirty days, it was pointed out.

College students were reminded, also, that a student deferred for one year may, if he wishes to continue his deferment for another year, must submit a new request. The following information should be carefully reviewed by each college student now in deferment.

Student Contest Criteria

The criteria for consideration for deferment as a student at the present time are either a score of 70 or better on the Selective Service College Qualification Test or class standing among the male members in the upper half of the freshman class, upper two-thirds of the sophomore class, or upper three-fourths of the junior class in order to be considered for admission to a graduate school satisfactions the criteria if they are among the upper half of the freshmen members in their senior class, or if they make a score of 75 or better on the test. Students enrolled in graduate schools before July 1, 1951, may be considered for deferment so long as they remain in good standing. Students enrolled in graduate schools after July 1, 1951, must produce evidence that they ranked in the upper half of the male members in their senior class or made a score of 75 or better on the test. These criteria are guides for the local boards. The local boards are under no compulsion to follow them, but any local board classification is subject to appeal. The appeal must be filed in writing with the local board within ten days of the date the local board mails the notice of classification.

To be considered for student deferment, students must fulfill the requirements for a commission, inform their local board that their application for a commission is being processed. Each student now in senior division ROTC and who wish to be deferred must qualify under the Selective Service student deferment criteria. There are no exceptions to these rules even in those colleges or universities where ROTC is mandatory for the first two years.

Each Student Entitled to One Statutory Deferment

Selective Service law provides that every student is entitled to one statutory deferment. Any student who is ordered for induction during an academic year on the basis of never before been deferred is entitled to be deferred to the end of that academic year. Upon receipt of induction orders, the student should at once present his case to his local board.

Accident Rates on Three-Lane Roads

Below Other Types

California highway studies show that three-lane highways do not have excessive accident rates in comparison to other types of highways, according to a report appearing in the current issue of the Southern Illinois University Business News Letter.

This finding is contrary to popular opinion that the three-lane highway is particularly dangerous, says Dr. Lewis A. Maverick, SIU Economics department chairman who edits the publication.

J. C. Young, traffic engineer in the California Department of Public Works, says that a breakdown of accident rates for the California rural state highway system shows that year after year the three-lane roads have a lower accident rate per million vehicles miles than do the one-lane undivided highways.

Two-lane roads consistently have lower accident and severity-of-acci- dent rates than do multi-lane highways. Three-lane roads are second, while four-lane divided and four- lane undivided roads rank highest in accident rates. Three-lane and four-lane divided roads exchange positions in accident-severity rates. The lower volume of traffic on two-lane and three-lane roads is a contributing factor to the lower accident rates.

On freeways (divided highways which exclude private access and have grade separations at all railroad and road crossings) the accident rates are half of that on conventional highways, and fatality rates are less than one-fifth as great.

Life Science Building
Completion In Dec. '53

Elevators will be one of the features of the new Life Science building which is being constructed on West Chautauqua street next to the Veterans Housing Project, according to Willard Hart, an architect at SIU.

The building, now approximately 40 per cent complete, will also contain laboratories, offices, classrooms, and darkrooms for graduate and undergraduate students. It will be used for chemistry and the separation of cells.

Four departments will be housed in the Life Science building upon completion. Of the four floors, the Botany department will occupy one, the Zoology department one and one-fourth, the Microbiology department one and one-fourth, and the Physiology department three-fourths.

The one and one-half million dollar building is expected to be completed in December of 1953.

Plans have already been made to air condition the building and to build a wing extending south of the 237 by 89 foot construction.

Architects for the project are Helmhild, Root, and Burgie of Chicago. The Mayfair Construction Company of Chicago is employing approximately 150 men for the work on the building.

The Southern Illinois University Alumni Clubs serve as the nucleus for making sociological movies and assist the building of better communities.
O'Brien Faces Tough Job As Grid Coach

Bill O'Brien will try his hand at building Southern a better football team next season. O'Brien last week was appointed head football coach to succeed Bill Walker, who resigned.

O'Brien, 29-year-old Marine Corps veteran of World War II, is a native of Zeigler and an SIU graduate. He is ranked as one of the outstanding halfbacks in Southland's football history and also won letters in baseball and track.

He entered the Marines in 1942 and returned to SIU in 1948 after serving a year as assistant coach at Carbondale Community high school. He worked there as assistant in football, basketball and baseball before being called to active service in the Marines in December, 1950.

AFTER 16 MONTHS at Camp Lejune, N. C., where he was a fieldback coach for the camp football team, O'Brien returned here last April and began work as assistant football coach.

There will be only one man back from last year's football staff. He is James Wilkinson, also tennis and wrestling coach, who this summer is working toward his doctor's degree at Indiana University.

Other assistants to Walker last season were Jim Linn and Charles Mathieu, Lovin has been hired as head football coach at Benton high school and Mathieu is now an assistant grid coach at Marion high.

WALLER has accepted the post as athletic director at Cody, Wyo. high school. He had been head football coach here two years, succeeding Glenn "Red" Martin, who had resigned to devote his time to being athletic director and head baseball coach.

O'Brien's task this fall will be a tough one. He will have 13 lettermen back but when you consider that last year's team won every one of its nine games and scored only 11 touchdowns to its opponents', that skill doesn't leave a lot to work with.

THE WORD is "perhaps" because some of those lettermen may be drafted this summer or may opt out of the service.

Of the 23 players awarded letters at the close of last season, only two were graduated last month. That leaves 21 who had eligibility left. Eight of them, however, had joined the service before spring drills were held last term. Maybe others have this summer or will have before the fall term opens.

A LOT Will depend on one player, Halfback Bob Ems. If he survives the summer's base training, O'Brien can hope for at least as good a team next fall as last year's. One fan remarked after the end of the 1951 season: "Well, anyway, they never missed a game." If next fall's players have any ability to offer, O'Brien is the sort of coach who will demand it and get it.

Coaches' Clinic

SIU will hold its annual football and basketball coaches' clinic here Aug. 21-22. Athletic Director Glenn "Red" Martin has announced.

Guest speakers for the football session will be E. L. "Doc" Benson, Murphysboro high school coach, and Charles "Chuck" Mast er, Massillon, Ohio, high school coach.

Basketball speakers will be Lynn Holder, SIU coach, and Merrill Duster, Thomas Pickenneyville high school coach.

NEXT YEAR'S TEAM CAPTAINS are, front row, left to right: Ed Coleman, DuQuoin, basketball; Wayne Nast, Belleville, track; Jack Stoudt, Chicago, wrestling; Jim Wilson, Mt. Vernon, golf co-captain. Back row: Jacque Theriot, Flora, cross country; Joe Huske, Chicago, football; Charles Thate, Chicago, basketball; Jack Shanks, Pana, golf co-captain and Gene Haile, Eldorado, tennis.

Coleman Misses Olympic Squad; Runs 7th In 5000 Meter Tryout

Phil Coleman, the best long distance track man ever developed at Southern, lost his chance last week for a berth on the U. S. Olympic team.

But Phil left a record of achievement that is not likely to be matched at Southern for a long while.

In the final Olympic tryouts last week end at Los Angeles, Coleman ran seventh in a field of 13 runners entered in the 5000 meter event. The top three finishers won places on the Olympic team.

WINNER OF the race, in record time, was Curtis Sine of the New York Athletic Club who traveled the distance in 14:21.7. Second place went to Wes Sanbee of Chicago, and Cappozzoli of Georgetown was third.

The distance is equal to three miles plus 187 yards. All Olympic distances are measured in meters.

Coleman, a June graduate, set school records in the mile and two mile runs during the regular track season. His mile record is 4:15.3.

The major functions of the Health Service are in the field of treatment, preventative medicine, and communicable disease control, and in the teaching of a modern approach to problems of medical treatment as they apply from young adulthood onward.
