The Voice Of The Visiting Student

I have been trying to write about Southern Illinois University and its students. It is a challenge because every time I sit down to write, my mind goes blank. I don't know where to start or what to say. I don't know how to capture the essence of the place and the people. I don't know how to convey the feeling of being here, the feeling of belonging.

But I know I need to write about it, because it is where I am and it is where I am going. It is where I find my voice and my perspective. It is where I find my identity.

I don't know if I will ever be able to put it all into words. But I am going to try. I am going to try to write about the beauty of this place, the beauty of this university, the beauty of these students. I am going to try to write about their struggles, their successes, their dreams. I am going to try to write about their stories, their voices, their perspectives.

I am going to try to write about the power of this place and the power of these students. I am going to try to write about the impact they have on the world, the impact they have on me. I am going to try to write about the hope they give me, the hope they inspire in me.

I am going to try to write about the magic of this place and the magic of these students. I am going to try to write about the wonder they inspire in me, the wonder they inspire in me.

I am going to try to write about the beauty of this place and the beauty of these students. I am going to try to write about their stories, their voices, their perspectives.
