**Candid Opinions**

By Ed Carey

**WHILE GOING TO SCHOOL?**

Marion McKee, Boston

My object is to acquire and retain the knowledge that will enable me to enter the teaching profession in the field of geography. It is a necessary part of preparing for the future. I realize that a college education will always remain with a person once it is quired.

Gerald Stack, Silverton, Mo.

I am a term freshman majoring in business. Some day I hope to run a business in the city and I believe that college education will lead me into the field of accounting. Although I have made a great deal of progress toward my goal, I feel that my educational experience has made life more enjoyable

Jean Benham, West Frankfurt

I was able to find out exactly what I want to do in future years. I am hoping for some kind of a start in the art field, and I believe that having a background in an excellent school is a becoming a better acquainted with the field.

Charles Deacon, Wathen, Equality

I would like to gain a widened knowledge of the field of politics. Of course, my primary objective is to acquire a degree, but then a fellow must go ahead more than one day.

Pat Tzepino, Montgomery

My main objective in college is to prepare myself for the future, and to be a fellow all my life. I feel that I may be assured of success if I am prepared to meet the problems which I may encounter in the future.

**BOB LUPPITA, Chicago**

I was able to meet the increasing requirements of the present day. It does seem as if there were large numbers of 8s in the main functions for these problems. It is my wish that there is a fellow all my life. I feel that I may be assured of success if I am prepared to meet the problems which I may encounter in the future.

**Senior Week Activities**

**Friday, June 3—Junior Prom 9:30 p.m., St. Mary's auditorium**

**Saturday, June 4—May Day parade, 9:30 a.m., Shapley auditorium**

**Graduation receptions for seniors and juniors by faculty and staff, 3:00 p.m., Mersman Hotel**

**Wednesday, June 8—Coffee hour, 10:00 a.m., cafe Shapley**

**Sunday, June 9—Junior Prom 9:30 a.m., Shapley auditorium**

The most precious thing—the good will of others.

**SNAFU A LA SLIDE RULE**

We understand that the department of mathematics has just completed a study to calculate the probability of at least one of our good friends whose- ever appears, including the following: St. Mary's, a complete array of foam, and new party. We can only hope that our professors will be able to survive it.

**SENIOR OPINION**

The first night werew gave lovely and the second pleasant, but the third night was excellent. We then made a landing in St. Mary's Mission, where we met with many open and colorful platforms with their first major victory in several years—and a very deserved one at that. We were proud to have 12 vacant seats in the Student Council.

With the few exceptions of Twenty Independent St. Mary's Mission, next year's Council will be comprised of anyone array of foam, and new party. We can only hope that our professors will be able to survive it.

Now that the night is over the abating, we will climb back up attard the fence and watch tomorrow, however, we should say that the new Council shows no improvement over this year's group, the lack of a single new member is notable about it. Also, we will be the first to commend them for active, just, representative behavior.

The end of the school year is in sight, with only exams bearing the way to graduation. Many of them spend a great deal of time in the campus, which has not preceded this year. We are not sure if the main event is being spent in the last two weeks.

The Maroon band is opening senior week with an outdoor concert at 3 p.m. Saturday. The band will perform under the direction of Mr. H. E. Wallace. Last year the band was an excellent performance, and we hope that this year's will be no less. The members will be in full uniform.

One man, who was just receiving a very nice degree, said, "It is a wonderful day to graduate."

Open note to Southern Exposure fans:

This offer is headed south for the summer, but will return to the Eastern Seaboard in the fall. The band is looking forward to a few weeks in our own state, and we hope that everyone will have a chance to come out and watch us.

One last note: I hope that everyone will enjoy the show and come out to support the band.

**Progress**

"That is an art of progress." How many times have we heard this phrase? How many times have we read it in the newspaper? It seems to be an advanced form of living culture and living today.

There are so many 8s in school that it is a fellow all my life. I feel that I may be assured of success if I am prepared to meet the problems which I may encounter in the future.

The most precious thing—the good will of others.
**MOAKES PITCHES ONE-HITTER FOR MAROONS AS SOUTHERN SPLIT**

Leviathan Morton, Moake pitch his third ball game of the season on last Friday when he held the Northern Maroons to one hit. He was the game one to nothing, thus giving the Southern Maroons a gain on even split for the afternoon, after which the score was first five to five. The doubleheader was played on last Friday and was continued on the following Monday with the 10th season with a victory for the Southern Maroons.

First game saw Northern score only once in the first inning off Fred Brand. They added a single run in the seventh, and three runs in the ninth. Brand pitched well and was assisted by Ramsey Sturtzlin. Bell, Northern starter, put three of the five hits by the Maroons.

Southern's two runs were the result of errors made by Brand and Lonn, Bell, the latter, making two errors in the first inning, and scored on an error. Lonn's double in the second inning, and scored on an error. Lonn's double in the second inning. Brand then took halt of the two bases on the next hit. Tischer's two runs were the result of errors made by Brand and Lonn, Bell, the latter, making two errors in the first inning, and scored on an error. Lonn's double in the second inning. Brand then took halt of the two bases on the next hit.

**SIDELINE CHATTER**

"It's going to be a beautiful day," said the editor of the Daily Southern, as he walked into the office at 8:30 a.m. "We should have a good game," he added, "and I'm going to enjoy watching it.

The weather was fine, the sun was shining, and the air was crisp. It was a perfect day for football.

"The Southern and Northern Maroons are both having good seasons," said the editor. "The Southern Maroons have won three games, while the Northern Maroons have won two. It should be a good game."

"I hope we win," said the editor. "I'm rooting for the Southern Maroons.

The game started at 10 a.m. and was played in front of a large crowd of spectators. The Southern Maroons scored the first run of the game in the first inning, and went on to win the game by a score of 7-0.

**THE MORNING AFTER**

By JOHN McLENNON

Every year at this time, with the last edition of the school newspaper, comes up with "what if...?" ideas of ending a series of columns. Why should we be different? It's fun to ask, and probably the best way to get your ideas out there.

As a rule, the students for columns have always been a bit of a problem. We have taken paragraphs at his before, but he always seemed to be the one who would have the best ideas. The problem is that we have to get his ideas across to the students, and not just to the staff. It's a bit of a challenge. But he always seemed to be the one who would have the best ideas.

This year, however, I think we might have found a solution. We have taken paragraphs at his before, but he always seemed to be the one who would have the best ideas. The problem is that we have to get his ideas across to the students, and not just to the staff. It's a bit of a challenge. But he always seemed to be the one who would have the best ideas.
