AFROTC To Begin Here

Southern's Air Force Reserve Officer Training Corps will open on a full scale in the fall term 1951 according to Major P. F. Vickery who is in charge of the program here.

Enlisting male students will have the opportunity to enter the basic ROTC program for two years and if selected may have the opportunity to take advanced coursework which will enable them to receive a Second Lieutenant's commission upon graduation.

There is an enrollment quota which has not been announced yet. The Defense Department will also assign a detachment quota to Southern's unit and students in the basic Air Force ROTC may be deferred if present needs of the Defense Department dictate. Requests for deferments must be handled by the student center offices on the campus of SIU Carbondale, Ill.

Leadership Meet
Begins Today At Gigant City Park

Leaving the flag pole and the Student Center at 3, 4 and 5 o'clock p.m. are homes headed for Southern's first Student Leadership Conference, the first part of which will consist of a picnic at 5:30 p.m. at the Giant City Park. All student organizations have been invited to send representatives to the conference. The picnic will be held at the new shelter east of the Student Center Lodge. In case of rain, it will be held at the large shelter.

Dr. Robert Strozier, dean of students at the University of Chicago, will be the main speaker of the conference. He will talk on the subject, "The Role of Campus Leadership," after the picnic to 6 p.m.

SATURDAY'S EVENTS of the conference will begin at 5 a.m. with a coffee hour at the Canteen. At 9 a.m. five sectional meetings will be held for students on the following topics: organizational president, the vice-president, the secretary, the treasurer, and the social chairman.

Then at 10 a.m. group discussions will be conducted on departmental clubs, social fraternities and sororities, housing organizations, activity and interest groups, religious organizations, and governmental bodies.

From 11 a.m. until noon, the program will consist of three group meetings titled, "Organizations and Their Relation to the University," "Organizational Responsibilities to Members," and "Inter-organizational Relationships."

Each discussion group will be headed by a student representative and a faculty assistant.

Hold Open House At New Location Of Student Center

Southern's new Student Center held an open house for students and faculty members at its new location just east of the home management house on Harwood Ave. from 3 p.m. to 5 p.m. yesterday.

The Center which is open from 8 a.m. to 5 p.m. on weekdays and 3 p.m. to 5:30 p.m. on Sundays has a spacious lounge and cardroom.

Other features include a music room, which will be played in; two telephone booths, a student center office, ladies lounge, obelisk office, a group of organization meeting rooms and modern rest rooms.

THE LOUNGE with kitchen attached, located in the front part of the building, may be used by organizations for special activities.

Organizations meeting in the student center are the Student Council, Social Senate, S. A., Alpha Phi Omega, and the International Ret Washington Club.

Future plans are to make an enclosure between the barracks which presently houses the center and the barracks on the east. This would make possible other facilities such as game rooms and dancing room. The center will be open as soon as necessary.

Hutchins Will Speak At Graduation June 10

Southern's June graduates will hear a commencement address by Robert Maynard Hutchins, former president of the University of Chicago and now associate director of the Ford Foundation, at the annual graduation exercises to begin at 7 p.m., June 10, in McAndrew Stadium.

Dr. Hutchins is one of the most widely discussed men in American education. At the age of 30, he was the youngest man in the nation to ever be president of a major college.

Tentative number of students to receive bachelor's degrees on June 10 is 175. Graduate students will receive master's degrees.

The commencement exercises will be climax of a series of events being held in honor of June graduates next week. A schedule of these events is as follows:

JUNE 6, 3:00-5:00 p.m.—American Association of University Women tea for all senior women at the home of Mrs. Delvyte W. Morris, 1006 South Thompson street.

JUNE 7, 2:00-4:00 p.m.—Free mock trial by the Mock Trial Board for all SIU graduates. 8:00 p.m.—University high school graduation exercises in McAndrew Auditorium.

JUNE 8, 5:00-7:00 p.m.—free open house at Crab Orchard Lake for university graduates.

JUNE 9, 10:00 a.m. Alumni Association board meeting at the board house on Thompson street. 12:00 noon Alumni Association dinner at University Foundation and Alumni board luncheon at the University Center.

JUNE 10, 8:00-10:00 a.m. open house for students at the home of President and Dr. Delvyte W. Morris, 1006 South Thompson street. 6:30 p.m. Alumni Foundation dinner at the Old White Hall. 7:00 p.m. University Commencement at McAndrew Auditorium; Price: $1.75 per plate; Reservations must be made at the Student Center, June 9. 9:00-10:30 p.m.—Southern Illinois University Foundation meeting at the board house.

Large Attendance At Annual Senior Banquet

Approximately 120 seniors attended the senior banquet held in the Student Center on May 25.

R. B. Mufflin was toastmaster and Paka Nordmeyer, president of the Student Council, was toastmaster.

The program included a vocal ensemble by the Madrigals from the Illinois University High School and a film "From Normal School to Regional University." Wayne Main, director of the Alumni service, delivered the address entitled "Stone Walls are Obstacles.

Dean E. G. Lentz, past senior class sponsor, and Dr. Amos Black, present senior class sponsor, were introduced to the class.

BULLETIN
At the Student Council offi er elections yesterday Jerry Lone, president, and James P. O'Donnell, vice-president were chosen.

Jim Parker, vice-president; Jo Ann Edson, secretary; and Dolores Hamps, treasurer...
After Graduation

Another class of graduating seniors will soon be off to join in the battle of earning a living. Before they leave some successful materialist will assure them that they are the hope of the world; that the future of America and of the democratic way of life depends on them. They will be told once again, that they are superior persons as evidenced by the fact that they are being granted a degree from an institution of higher learning.

Dr. They will do no doubt be assured that carefree college days have been the happiest of their lives and they will never be able to forget these inspiring moments.

Then comes the rude awakening ... most of the graduating class will suddenly be working at very menial tasks as the lowest echelons in the hierarchy of the interminable chain of office drudgery.

**SOME WILL TEACH**, and will awaken one day to find themselves almost totally unfitted for the sacred task of inspiring young minds to think. Others will have gone out into other chosen fields, failed, and then gone into teaching (I can always teach, I can't fail). At the same older generation who lectured to the seniors about their youth being the hope of the world have now begun to oppose the youth on grounds that too much change is not good and that mature experience should rule.

Yet, in spite of the disappointments and the setbacks, the seniors have at least the tenacity of a small minority will actually help to accomplish some of the things that have been predicted for them. Perhaps they will not abolish war or famine or hardship, but they will do their bit to make this a better world in which to live.

Good luck to all the members of the class of '51.

**M.I.S. Just Like A Man**

(With paraphrase credit due to J. K.)

The expression, “That just like a man,” has been reiterat- ed by having our terminus. And yet, go wonder what would happen if we asked the pertinent question, “Just what is a man like?”

Well, we know! After living for 20 years, and realizing firmly that men are physically, psychologically, sociologically, meta-physically and astronomically different than women, we know that everything there is to know.

Webster defines man as “a being human; also, the human race.” And to Mr. Webster we toss an onion for authoring the grossest understatement yet to hit the printed page. Man, he should have said in describing the male gender, is a non-descriptive blot of humanity, whose cawings and preens before his woman, cajoling her to make his place in this sun.

**HIS CASEMENT** is of an elastica substance which ex- pans and deflates, according to his moulder’s whim. He possesses no intelligence, that being accorded to the female sex; not even for this vacuity since a statement is given a true rumbling guitar noise, which like a broken record echoes and re-echoes.” I am master, I am Lord.” And woman, content in the knowledge that man is all wet, sympathetically lets him rave on.

And so, women are referred to by their inferior earthly counterparts: “ambulance, flits, dumbbells, should-offs, and teasers,” and can only answer these idiotic ravings by “My, you’re wonderful, My, you’re strong, my, my!”

But, in passing, my ladies, do not be deceived. You’re only as wonderful, you’re only as strong, you’re only as ladylike as woman, the superior but ever downtrodden sister, lets you be M. R.

**So Long For Now**

Well, there’s no use reminding about this past year and all the events that help make it a memorable one. We’ve all had a variety of welcome experiences and probably an equal number of mishaps and disappointments.

We don’t have a long list of resolutions for the new (school) year or any wise or solemn sayings to offer. Just—its been fun, hope you get through exams ok, and see you next year (or next term, as the case may be).

V. M.

**AFROTC To Begin**

(continued from page 1)

be two class meetings and one drill period each week.

Southern’s students will be re- moved to booths to count uniforms only during drill periods. The students will continue to take physical education credit for the regular curriculum.

When a student finishes his first two years of training, he will be eligible to apply for admission to the advanced course. Applicants must secure approval from the administration and the Professor of Air Science and Tactics. This section will be made on the basis of grade point average, rank for officer at that time when the student is to enter the service.

A student selected for advanced work will sign an agreement to airmanship of the AF during the remainder of his undergraduate courses and to attend summer camp when ordered to do so. Based on the completed courses, a student will be able to take one of four Air Force career fields: armament, medical, meteorology, flight operations, and general technology.

If a student is completing junior and senior years, he is en- titled to a monetary allowance of $150 per month during the summer camp for six weeks; he is paid $75 per month. Students who are already enrolled at a campus the year and who will enter their sopho- more year in the fall term will also have the opportunity to par- ticipate in the AFROTC program. To do this, a student may take Air Science basic courses during his sophomore year, and in his junior years, he will double up on courses and take the advanced course.

**VETERANS WHO will enroll at SIU next year in their freshman, sophomore or junior years, will be eligible to receive the same benefits as the veterans, one year of active service with the armed forces, during the two years basic training under the AFROTC program. The veteran who fails to meet the requirements of the program will lose his eligibil- ity for advanced training courses in his junior year.**

After finishing the advanced training, a student will remain in the Air Force reserve for five years as a Second Lieutenant. If, during this time, he elects to active ser- vice, he will be given the chance to take flight training and advance to the rank of First Lieu- tenant.

**Southern Sends Books**

**To Japan University**

At the request of the president of Hiroshima University in Japan, Southern is sending books and tree seeds which will be used for replanting and rebuilding of the Japanese University. SIU is one of several colleges in the U.S. con- tributing materials. The Japanese university will restock its library in this way, and books from Southern in the U.S. will be planned on the campus.

The International Relations club of SIU accepted the responsibility for selecting the books and shipping them. The botany department contrib- uted the tree seeds.

Books on the understanding of interdependence and the meaning of life are being sent. Some of the titles are “Look at America,” “Conservation in the United States,” and “Reed’s Foster Home” book of the United Nations charter also is included.

---

**Board of Trustees Approves Contract**

A contract for an atomic ener- gy education program worth $10,000 to Southern Illinois Uni- versity was approved by the SIU Board of Trustees in a meeting last Friday night.

The grant is to be used for ex- tension of work being carried on by Dr. Carl E. Liptak, Director of the SIU Biological Research labora- tory and widely known as sci- entist for his research with cells over a period of more than 12 years.

Dr. Arthur J. Klein, former dean of the College of Education, State University, and now a specialist (in school organization, met with the board to discuss final revision of the "Klein report," a study and recommendations for the internal organization and operation of Southern Illinois University. An Editorial Committee was appoint- ed to prepare the report for print- ing.

**D. W. Morris, SIU president, re- ported that with the completion of the 20-year term of 100 or more students, SIU will have the most adequate space it has had in 30 years. Converted bunk- beds now provide almost half of the dormitories, classrooms, and of- fice space.**

On recommendation of the Graduate Council, the board ap- proved the granting of graduate de- grees in educational administration and in instructional supervision, with the latter being limited to the elementary level.

Among appointments approved by the board were:

As professor of education, Dr. Clarence D. Sanford, professor of education at the University of Wyoming and a graduate of SIU, with advanced degrees from the University of Michigan and New York University.

As instructor in education, Ernest E. Brol, Colorado State Col- lege of Education, formerly direktor of rural education at the State Teachers College, Peru, Neb., with degrees from the Peru college and the University of Nebraska.

As a faculty assistant in the Uni- versity Statistical Service, Francis H. Rorick, is engaged in industrial statistical services and who studied at St. Louis University and Webster University.

As faculty assistant in the Uni- versity Information Service, Betty J. Bowden, graduate of SIU and an assistant at the University of Illinois, who has been engaged in public relations and advertising work in Chicago and Springfield.
Obelisks Moved to Journalistic Office

Obelisks for this year will no longer be available at the men’s gym, but standing today will be located in the office of the journalistic building, corner of Harwood and Route 51. The yearbooks may be picked up from 8 a.m. to 4 p.m. According to A. B. Mifflin, editor, no yearbooks will be mailed out from now on, except by direct request. A check of the supply of Obelisks will soon reveal that there are only 340 left.

Students are being urged to pick up their books before the end of the spring term.

Those students who were in attendance less than three terms during 1950-51 will pay $1.50 a book.

Botany Students Make St. Louis Field Trip

Twenty Southern Illinois University students visited Shaw’s Gardens in St. Louis Monday and included a stop at the Forest Park Zoo. They were accompanied by William Marberry, assistant professor of botany.

Students making the trip were: Mary Ann Sharpe, Janet Mosocks, Charlene Davies, Lois Anne Prince, Marilyn Seymour, Virginia Stringer, James Dodd, Betty Jane Lutomski, James Schweitzer, Betty Chestman, Carmelita Nichols, Carolyn Wason, Loren Weaver, Marjory Clendening, Carol Sue Boll, Opal Dickey, Mary Gall Niebruegge, Mary Ann Campbell, and Shirley Jean Haug.

Jo Ehlen To Head Forensic Group

Officers of Pi Kappa Delta, honorary forensic fraternity, for next year are president, Jo Ann Ehlen; vice-president, Helen Dickels; secretary-treasurer, Jeanette Smalley.

Elections were held at the Pi Kappa Delta banquet at Jackson country club Tuesday night, during which Carolyn Reeder was presented the Kehuna award, given to the person who encountered the most mishaps on debate trips this year.

Formal initiation into the organization was held for Norman Megel, Jo Ann Ehlen, Jeanette Smalley, Carolyn Reeder, Jake Lipe, Carol Boyles, Roy Clark, and Bill Spangler.

SIU Makes Use of Surplus Material

Southern is finding that almost any object, from silk parachutes to a seven-ton crane, can be used in education—one way or another.

Take one of war surplus tents and the University of Illinois now uses it for zoology field trips and an outdoor education camp this summer at Little Grassy Lake. Parachute silk becomes drapes for windows, background for photography, and is stretched over frames for silk screen printing in all classes.

"THESE ARE just a few of the multitudes of varied materials acquired by SIU through the government surplus program. Surplus property is given to educational institutions by the government through various federal agencies. The surplus material is the property itself; the university pays only the freight or storage due on the shipment.

Ernest R. Wolfe, SIU superintendent of veterans housing, is in charge of distribution of the equipment for the state educational institutions.

A SEVEN-TON "surplus" crane is used for moving heavy equipment around the university grounds. Deep freeze units are used in the c Walter D. Boyles, Roy Clark, and Bill Spangler.

-led to the heads of departments, offering courses in the fields listed to the Government department of SIU.

Virda Sill Elected Little Theatre Prexy

Virda Sill, junior from Carbondale, was elected president of Little Theatre, SIU drama group, for the coming year at the annual Little Theatre banquet at Giant City last Monday night. Other officers elected were vice-president, Sue Smith; secretary-treasurer, Dave Hilsman.

Another feature of the banquet was the formal installation of the following eleven apprentices into the dramatic organization: Nancy Yost, Willette Smith, Helen Dickens, Marguerite Williams, Norman Meger, Don Fearhley, Nancy Spooner, Carol Krumen, Helen Austin, Rose Owen, and Dorothy Olds.

Social Analyst Exam Conducted Tomorrow

An examination for positions as a social science analyst for the federal service will be given at Southern Illinois University tomorrow beginning at 8:30 a.m.

The examination will be conducted Sunday night at 10:30 at the Old Main building under the auspices of the United States Civil Service Commission. All candidates eligible to take the examination will be asked to make application immediately. Forms may be obtained at the Carbondale post office.

REGISTERED ESTABLISHED from the examination will be used to fill the following positions: research analyst, intelligence special field, foreign affairs specialist, educational assistant, history and social science analyst.

Candidates who successfully pass the examination and are certified for appointment may be expected to be assigned as research assistant, performing research or assigned to problems in the fields of economics history, political science, international relations, sociology, public opinion, education or closely related fields.

Full information on qualifications for admission to the examinations may be received by contacting the heads of departments offering courses in the fields listed at the Government department of SIU.

Two Systems Used In SIU Teacher Training

The teacher training program at Southern Illinois University has been divided into two systems: Charles D. Neal, director of the program announced today.

The 12 hour system is one in which the practice teacher spends four and one-half to five hours each day in school. He teaches three classes, preferably two of these in his major field, and one in his minor field. Besides teaching classes, he is required to participate in one extra-curricular activity.

The 16 hour system is one in which the practice teacher spends the full day in school and teaches four classes. He enters into more extra-curricular activities; sponsors a school club, attends teachers meetings, and acts as ticket-seller at ball games.

AGRICULTURAL SERVICE MAKES FINAL REPORT

The final report and recommendations on the development of an agricultural research and teaching program for Southern Illinois University were made at a meeting of the Agricultural Service, Inc., at a meeting in the office of Dr. D. E. M. Morris at 9:30 a.m. today.

Representatives of Governor Addie Stevenson, the Federal Reserve Bank, and the Illinois Agricultural Association were present. The report showed that the basic fundamentals of the photographic system is one in which pictures is satisfactory.
NANCY SPOONER, Murphysboro junior, illustrates how the old stone wash basin probably was used about 100 years ago. The basin was used by the first white child born in Jackson county. It was brought to Southern about 60 years ago. Its present location is near Old Main (photo by Peterson).

Looking Back . . .

Stone Basin Is Historic Landmark

A perjular reminder to Southern students of the hardships encountered by early settlers, is an old stone wash basin on the west side of Old Main.

Benningen, first white child born in Jackson county and relative of the immortal Daniel Boone, chiseled out the hollows in the stone for use in wash basin and soap dish, according to John Allen, curator of history at Southern.

Mrs. J. A. Wilson of Ava, a great granddaughter of Benningen Boone, has authenticated the story of the wash basin.

About 60 years ago the stone was brought to the campus in a farm wagon. It was transported from the site of the spring on the east side of Cottonwood Bluff, sometimes called Big Hill, where Boone's brothers kept their old stone mill.

THE WASH-Basin is cut from a sandstone boulder which stands about two feet high and three feet thick. There were about six inches of water high. The stone had been chiseled and sandblasted into the basin from a bucket or bucket of water. According to John Allen.

History is indefinite concerning the exact date of Boon's birth, but it is known that he was born on the line of 1805 in or in the spring of 1806, and that he grew up in the village of Sandridge.

Benningen was a practicing physician, county commissioner, and first postmaster of Grand Tower. During the Black Hawk war in 1832, he served as a corporal, and wrote the first collection of notes that can be termed a history of Southern Illinois.

In Boon's day, people made their own soap, a soft lye substance of wood ashes and soap. It was used to wash clothes and bedding, and was kept in a basin or similar device. The stone was kept for dishwashing and had been chiseled into a basin from a bucket of water. According to John Allen.

The course of the river is in the east, and the stone is in the west. The stone was chiseled out of the sandstone boulder and kept for dishwashing. The stone is about two feet high and is about three feet by two feet at the base. The stone is still visible.

The stone was cut from a sandstone boulder which stands about two feet high and three feet thick. The stone had been chiseled and sandblasted into the basin from a bucket or bucket of water. According to John Allen.

235 Students Take SIU Draft Exam

The Selective Service College Qualification test was administered to 235 college students at Southern Illinois University Saturday. The tests were immediately forwarded by S. L. U. to the Educational Testing Service in Princeton, N. J., where they will be scored and results sent to the local selective service boards. - *

Purpose of the test is to determine whether or not a registrant under the Selective Service Act may be considered for deferment from military service as a student. Any college student who is a registrant and has not reached his 26th birthday may apply for the test by securing an application postal card and bulletin of information from any Selective Service local board. The test will again be given June 16, June 30 and July 12.

TUDOR TO RETURN FROM GREECE THIS SUMMER

Dr. William J. Tudor, Southern Illinois University associate professor of sociology, will return to SIU this summer after spending the past year in Greece.

Dr. Tudor was a recipient of a Fulbright professorship and has been serving as coordinator in re-establishing rural areas in Greece, of Southern Illinois.

In Boon's day, people made their own soap, a soft lye substance of wood ashes and soap. It was used to wash clothes and bedding, and was kept in a basin or similar device. The stone was kept for dishwashing, and was chiseled into a basin from a bucket of water. According to John Allen.

STATE TEACHER EXAMINER MEETS WITH STUDENTS

Luther Black, secretary of the State Teacher Examining Board of the State of Illinois, visited the students in the College of Education yesterday. Black discussed the students' problems of certification and the securing of jobs as teachers. He answered questions concerning the location of available jobs and correct application procedure.

LIBRARY STAFF MEMBERS TAKE LEAVE OF ABSENCE

Two members of the staff of the University Libraries will be on leave this summer in order to teach courses in library science. Robert E. Mullen, Director of Libraries, will be a Visiting Lecturer at the University of Illinois Library School at Urbana, where he is scheduled to teach two advanced graduate courses, one in the field of College and University Library Problems, the other one in Principles of Research Methods.

Harry Dewey, Assistant Director of Libraries for Special Services, will teach one course in Cataloguing and one in Science Bibliography in the School of Library Training and Service of Florida State University at Tallahassee, Florida.

1300 To Complete Extension Courses

More than 1300 persons this week will complete one of 44 Southern Illinois University extension courses conducted for the past term in various counties throughout Southern Illinois.

The courses are taught by regular SIU faculty members who travel over 100,000 miles a year bringing university courses directly to the students.

Most of the courses are in teacher education, offered to persons completing requirements for bachelor's degree. However, 77 graduate students are enrolled in seven courses leading to master's degrees. One-third of the quarter hour's credit necessary for a degree can be acquired off campus in this manner.

CLASS MEET on either Tuesday or Thursday evenings for 16 periods during the term. Extension courses are convenient for the person who wishes to remain on his job and complete a degree at the same time.

COUNTIES in which courses were conducted this term are: Madison, Jackson, Franklin, Alexander, Clinton, White, Marion, Randolph, St. Clair, Hardin, Wayne, Pope, Saline, Williamson, Massac, Pulaski, Jefferson, Hamilton, Washington, Perry, Gallatin, Johnson, and Monroe.

Pyramid Officers For Next Year Elected

Pyramid, local senior women's honorary society, held election of officers at a noon meeting last Friday.

President for next year will be Leah Bradley and secretary will be Virginia Miller.

Eight members for next year were formally initiated into the organization. The next meeting of Pyramid will be Thursday, June 21, in the Pershing Theater.

EMPLOYMENT SERVICE HAS SUMMER COUNSELORS JOB

The university student employment service has an opening for a boy's counselor at Wiggins Ozark Camp which pays $100 plus room and board for the summer. Proficiency in swimming is desired.

All men interested should see Mr. Rector at the Desk of Men's office.
Offer One-Week Home Ec Courses

A series of one-week courses in clothing construction, art in the home, upholstery, and food preservation will be offered by the Home Economics department of Southern Illinois University beginning June 9. There will be eight to nine hours of classwork each day.

Clothing construction, offered without credit, will be taught by Helen Zolancak, resident staff member of the University of Illinois. Each student is expected to complete a blouse by the close of the course.

The art in the home course, which will be taught by Kathryn Winsor, resident staff member of the University of Illinois, will be offered for one and one-half hours credit. Besides furnishing her own materials, each student must pay $3.75.

Offered for three hours credit in connection with the Industrial Education department is the upholstery course, taught by Carl Kimsey, industrial education staff member at Southern Illinois University. Each student is expected to upholster a chair which will be in use in his future work for three hours credit. The course is taught by the new Bishop short-course method, and to provide her own materials, the fee for the course is $19.00.

The food preservation course which will be taught by Mary Barnes, home economics staff member at Southern, will be offered for three hours credit. The course will be a study of new methods in canning, preserving, and freezing foods. It will also include a full week spent at the Illinois Experiment Station near Champaign.

Summer School Offers Two Library Courses

Robert H. Muller, Acting Chairman of the newly established department of Library Science at the College of Education, announced that two courses in library science will be offered during the regular summer session of the University.

The two courses will be (1) "School Library, Organization and Management" to be given by Mr. Muller and (2) "The Library as an Information Center" to be given by Miss Dorothy F. Burg, who has been teaching in the School of Science in Library Science Degree from the University of Oklahoma. She also obtained a Master of Science Degree from the School of Library Science of Columbia University.

Choose Your Summer School Courses Wisely

The selection of courses is a critical matter. The student should find out what type of library science work he wants to do, and seek advice from his local librarian before selecting courses.

PLAN JUNE MEETING FOR HOME ECONOMICS MAJORS

According to Dr. Eileen Quijley, chairman of the home economics department, there will be a meeting Tuesday, June 12, at 4:30 p.m. in Parkinson 203 for all home economics majors who have had health education 127, clothing construction, but who have not had home economics 360, advanced dressmaking. According to Dr. Quijley it is very important that all home economics majors attend.

FOR "I" NATION'S BIRTHDAY

Home Economics Department

Just recently a group of SIU students entertained for the Lions Club at Mt. Vernon. James Trigg was master of ceremonies, Scott Lamb gave a reading, "Some Disenchanted Evening," and Herb Rieke gave impressions of Indian dances and songs. Trigg gave one of his famous baseball parodies.

W. A. SMITH, (PhD) national president of Sigma Pi fraternity, is welcomed by Southern by Dr. Charles Tenney, administrative assistant to the president at SIU, during the installation banquet last Saturday night. The banquet followed the initiation of Nu Epsilon Alpha local fraternity into Sigma Pi national fraternity.

Alumni Association To Meet In Near Future

Wayne Mann, director of the Alumni Service, and Bill Plater, member of the Alumni Service, will travel to Orlando, Florida, for an Alumni Association meeting tomorrow.

After this meeting they will attend the annual meeting of the Junior Chamber of Commerce, scheduled for June 4 through June 8. The university will have a display at the convention.

There will be an Alumni Association meeting held here June 9. Three new songs, written by alumni, will be performed at this meeting, and the banquet will be at the university's home of Francis Clark Peer, on June 10. A Mother's Club meeting will be held at the University of Illinois on June 11.

The bust of W. V. Vanderveer, created by the famous sculptor Adele, will be unveiled at the meeting.

Summer Session Offers Beginning Photography

A course in Introductory Photography will be offered during the summer session for the first time. There will be eight weeks. The course is taught by William Horrell, director of the University photo service, and will be conducted at 8:35 for a single period on Mondays, Wednesdays, and Fridays, for a total of six periods on Mondays and Tuesdays.

There are no prerequisites for this course. If possible students enrolled in the course should have their own cameras, but if this is impossible the university will furnish cameras.

SU ALUMNI APPOINTED TO STATE DIRECTORSHIP

Dr. Percival Bailey, prominent Chicago neurologist and past president of the Southern Illinois University Alumni Association, has been named director of the Illinois Neuroencephalological Institute by Governor Adlai E. Stevenson.

Dr. Bailey, a native of Mt. Vernon, was a member of the 1912 SIU graduating class. He also received a bachelor and doctor of philosophy degrees from the University of Chicago and his medical degree from Northwestern University.

Student Speakers Give Out of Town Programs

The Student Speakers Bureau has recently provided entertainment at several out of town meetings. Just recently a group of SIU students entertained for the Lions Club at Mt. Vernon. James Trigg was master of ceremonies, Scott Lamb gave a reading, "Some Disenchanted Evening," and Herb Rieke gave impressions of Indian dances and songs. Trigg gave one of his famous baseball parodies.

Five Faculty Members Return to Southern

Five faculty members of Southern Illinois University will return to the teaching staff after being absent for the past year on leaves of absence.

Chalmers A. Gross, on leave to the University of Chicago, will resume his duties as assistant professor in the University School of Music. Miss Annamaria Krause, who has been studying in Paraguay, South America, will return as assistant professor in the geography and geology department; Hal Stone, on leave to the University of Alabama, will return as instructor in the chemistry department.

John S. Wharton, on leave to the University of Indiana, will return as assistant professor in the music department; Miss Charlotte Zimmermann, who is studying at the University of Minnesota, will return as assistant professor in the physics department.

Lettermen’s Club Buys Saluki For Southern

By Jim Kahmann

Art Menendez, president of the “I” club, announced early this week that the lettermen’s club has decided to purchase SIU’s first mascot, a saluki. Since the nickname, “Saluki” has now officially become Southern’s moniker, the lettermen at Southern are taking money out of their treasury to buy the mascot.

The dog will be purchased from a kennel in Champaign at a cost of approximately $150 dollars, and will be kept in a kennel to be constructed on Southern’s campus, near the gymnasium.

The Saluki will be the official mascot for all Southern athletics teams, and will make an appearance at all athletic events with other schools, if possible.

History has it that the Saluki is the oldest domesticated dog in the world, having its origin in Egypt long before the birth of Christ. Egyptian rulers looked upon the holy canines with high esteem, and mummified bodies of Salukis have been uncovered in recent digs. Since Southern Illinois has always been referred to as, “Little Egypt,” the dog fits extremely well into the theme at SIU.

Jim Kahmann
Sports Editor To Enter Air Force

By Don Duffy

This June will bring to a close the collegiate athletic career of several Southern stars. It will also mark the end of the college career of a man when leaving for service after recording deeds of these athletes for nearly two years.

Jim Kahmann fell heir to the sports editorship of the Egyptian in the winter quarter of 1949. This date also marks the beginning of Kahmann Konner, Jim’s sports column which always has concerned itself with Southern’s varsity athletes. In “Kahmann Konner” Jim has given praise when deserved, criticized when criticism was due, and always campaigning for the betterment of sports and sports facilities here at S. I. U.

Jim does not write sports from the inexperienced viewpoint of the spectator. He came to Southern from Edwardsville, with a high school athletic career which boasted of varsity letters in both baseball and football. Jim served as first string catcher, with a batting average consistently over .400. and as first string quarterback for his high school graduation.

He showed great promise as a Southern signal caller in 1948, and big things were expected of him next year. However, a severe knee injury early in the 1949 season brought his running and passing days to a close. Since then, he has kept active in the field of sports by describing them to Southern students through the sports pages of the Egyptian.

Truly, when Jeff Kahmann leaves for active duty in the Air Corps this summer, the Egyptian will lose its own Grantland Rice, and Southern’s athletic department will lose one of its biggest boosters.

Phil Coleman Wins Conference Mile

As Saluki Trackmen Finish Fifth

Michigan Normal’s strong track team walked away with I. I. A. C. honors at Charleston Thursday as two new records were set and another one broken.

Normal also retained its 1950 tennis title by sweeping three singles titles and one double title. Western replaced Normal as league golf champion but Hank Mussatto, the

Phil, last year’s medalist, this year dropped out of the race with a bad ankle in the third leg.

Coleman’s poor last quarter kept him from setting a record. His quarter times were 46, 69, and 68. Thus the first three quarters were in good time for him, but the last one was too slow to beat the record. Joe McLaughlin ran one of his best mile races in a long time to finish about 10 yards behind Coleman victory.

Jim Alexander, competing despite a pulled muscle in his right leg, got most of Southern’s other points. He was third in the broad jump, fourth in the low hurdles and fifth in the high hurdles for six points.

Ray Palmer was third in the two-mile for three points. Keene tied with five others for second in the high jump at 5-10 and Clark tied for fifth in the pole vault at 12 feet.

Two SOUTHERN records barely withstood challenges. Bob Neighbors’ 15-3 pole vault mark was threatened as Crawford of Eastern and Greinke of Northern both missed 15-4. Pensinger of Western, who has done 16 several times, could do no better than 16 1-3 4 in the high jump. Harold Hartley set the 6-4 mark in 1948.

The 440 was the outstanding event of the meet. McCommer and Gilliam of Michigan Normal and Johnson of Eastern all big Negro boys, staged a thrilling battle as McCommer took the event in 48.9. Southern finished fifth in the track meet and sixth in both golf and tennis.

Tom Henderson of Normal was the No. 1 tennis singles champion. The Redbirds scored 167 1/2 points, Eastern 111 1/2, Michigan Normal 7, Western 3, Central Michigan 3, and Northern 0. No Southern players got any farther than the semis.

Rena Circetti of Western was medalist in the golf match with a 151 total for 36 holes. Western won the title with 625 to 639 for Northern, Central Michigan 652, Michigan Normal 651, Normal 685, Southern 700 and Eastern 780.

Nichols paced Southern with 172. Shanks had 173, Adams 177 and Wilson 178.

John Corn Accepts Position With FBI

John Corn, assistant football coach and instructor in men’s physical education for the past year, has accepted a position with the Federal Bureau of Investigation and will report June 13 for his new job.

Previous to this year’s coaching job with the Salukis, Corn was assistant football, basketball, and track coach at Benton high school for one year. Corn went into the coaching field following an outstanding record at Southern as an athlete.

“Big John,” as he is known to his athletes, was an all-conference tackle for Southern in 1947 and 48. He captained the ‘48 team following his outstanding year as the powerful linemen on the ‘47 Corn Bowl championship team.

In all, Corn earned four letters in football at Southern. He played alongside some of the Salukis’ outstanding athletes, Bob Colborn, Joe Hughes, Bill Malinsky, Charlie Mathew, Bob Etheridge, and Jim Livin.

Corn is 27 years old, and is a married veteran.

THE 1951 track team, which placed fifth in the IACC meet last week, is pictured above. On this team are such track stars as Phil Coleman, Joe McLaughlin, Jim Alexander, Larry Taliana, and Ray Palmer. McLaughlin, Taliana and Palmer will be graduated next week.
Percentage Points Give Crown To Northern; Southern Second

By Don Duffy

A split in the two-game series against Illinois Normal gave the Southern Salukis the runner-up position in the I. I. A. C. loop play for the second straight season. Again, it was the Northern Huskies who nosed out the Martinmen in a near photo-finish.

Northern finished the season with a record of 7-3 in conference play, while the Salukis trailed with a total of 7-4. Two of the Northern defeats came at the hands of Southern when they swept both ends of a two game series.

THE MARTINMEN played the first game of the Normal series last Thursday night under the lights. It was either the lights or the pitching of Red Bird Don Halbrunch took effect, at the Southern offensive was limited to two hits, both by Chuck Valier, and one lone run batted-in by Valier.

The Red Birds amassed five hits, but starter Darrell Thompson's wildness and three Southern errors led to eight runs. Normal collected their first two runs in the second inning, with a double, a single, and a wild pitch figuring in the scoring. They scored twice again in the third, this time without the benefit of so much as one hit. Two walks, an error by Thompson on an attempted pick-off, and a throwing error by the usually reliable Don Campbell handed them the two gift runs.

THE SALIS KIS also dented the plate for their first and only run in the fifth. Thompson was wild on an infield error to lead-off, Campbell forced him at second. Then after Schmulbach struck out, Valier singled for the second time, scoring Campbell. After Jones walked, Ems struck out to end the inning. In all, Halbrunch whiffed fourteen of the Southern batsmen.

The Red Birds, possibly fearing a late Southern rally added their insurance runs in the sixth. Two errors and a walk filled the bases with two out. Then a passed ball then scored four runs and summoned Elmer Grandclas to the bullpen. Grandclas tided the side and succeeded in holding the Red Birds at bay for the last two innings.

SECOND GAME

The Salukis found daylight and the offerings of Normal's Mike Radzicki more to their liking. They bunched 11 hits in the right spots for a 9-1 victory. Millikin worked the whole game for Southern. He gave up nine hits, but spread them out thinly enough to leave eight men stranded on the base paths. Big Tom also showed fine control in not giving up a single walk. Also led the team at the plate, along with Rikner, by singling his bat to the tune of three hits.

SINGLES by Jones, Coleman, Ems, and Millikin gave Southern a two run margin in the second inning. Ems, Coleman, and Millikin contributed singles again in the fourth. This offensive outburst, helped along by two Red Bird errors, netted three more runs.

Millikin started off the fire works in the seventh with a single. Schmulbach followed with a long triple to left. Valier singled Schmulbach home, and reached second when Moffly muffed a play on Jones' ground ball. Ems then blasted out his third hit, a single to center. When Durballiet left the ball the way him Ems kept going. Finally stopping at third. This brought a change of pitchers for the Red Birds. Gene Staats came in and retired the side with no further damage.

Normal scored their only run on two hits in the third. Two Southern doubles play, one in the sixth inning going from short-to-short-to-first, and one in the eighth when a fine throw from Campbell doubled a runner off first helped Millikin ease over a couple of Touchy situations.

Joe Jones Ends Colorful Baseball Career at SIU

By Don Duffy

Whoever said that baseball is a young man's game, especially on the college level, didn't figure on guys like Southern's Joe Jones. For Captain Joe, who has just completed his third and last season at Southern, is crowding his third and last season at Southern, is crowding

Joe Jones

Edwardsburg, the home of baseball. And then to the sports staff, the boys who came through with the articles to fill the page. the good, timely. stuff. Don Duffy and Jim

Chuck Valier

Chuck Valier paced the Southern hitters this season with an average of .326. Valier went to the plate 92 times, collecting an even 30 hits. Bob Ems, out much of the season because of a leg injury, was highly successful in the role of pinch hitter. Ems batted .357 for the season, but appeared in the batter’s box only 42 times.

Joe Jones was second on the list of regulars with a .317 average. Captain Jones was hitting well above the 400 mark in the earlier part of the season, but was hit on the head by a pitched ball. Then after Schmulbach struck out, Valier singled for the second time, scoring Campbell. After Jones walked, Ems struck out to end the inning. In all, Halbrunch whiffed fourteen of the Southern batsmen.

The Red Birds, possibly fearing a late Southern rally added their insurance runs in the sixth. Two errors and a walk filled the bases with two out. Then a passed ball then scored four runs and summoned Elmer Grandclas to the bullpen. Grandclas tided the side and succeeded in holding the Red Birds at bay for the last two innings.

SECOND GAME

The Salukis found daylight and the offerings of Normal’s Mike Radzicki more to their liking. They bunched 11 hits in the right spots for a 9-1 victory. Millikin worked the whole game for Southern. He gave up nine hits, but spread them out thinly enough to leave eight men stranded on the base paths. Big Tom also showed fine control in not giving up a single walk. Also led the team at the plate, along with Rikner, by singling his bat to the tune of three hits.

SINGLES by Jones, Coleman, Ems, and Millikin gave Southern a two run margin in the second inning. Ems, Coleman, and Millikin contributed singles again in the fourth. This offensive outburst, helped along by two Red Bird errors, netted three more runs.

Millikin started off the fire works in the seventh with a single. Schmulbach followed with a long triple to left. Valier singled Schmulbach home, and reached second when Moffly muffed a play on Jones’ ground ball. Ems then blasted out his third hit, a single to center. When Durballiet left the ball the way him Ems kept going. Finally stopping at third. This brought a change of pitchers for the Red Birds. Gene Staats came in and retired the side with no further damage.

Normal scored their only run on two hits in the third. Two Southern doubles play, one in the sixth inning going from short-to-short-to-first, and one in the eighth when a fine throw from Campbell doubled a runner off first helped Millikin ease over a couple of Touchy situations.
