Approximately 334 Southern Illinois University students received degrees awarded by President Delyte W. Morris at the 77th annual commencement held Sunday, June 8.

Dr. Kurt von Schuschnigg, former chancellor of Austria, presented the commencement address. He was chancellor of Austria from 1934 to 1938. In 1938, he was forced to resign his position by the German government. Dr. von Schuschnigg was held in concentration camps in various prison and concentration camps until his liberation by the American Fifth Army in 1945.

President Delyte W. Morris conferred two honorary degrees during this year's commencement. Recipients of the degrees were Dr. Percival Bailey and Dr. Chester H. Hasbrook.

Dr. Bailey is now a member of the University of Illinois Medical School in Chicago. He is also director of the University of Illinois Neuropsychiatry Institute in Chicago. Dr. Bailey received the honorary Doctor of Science degree.

Dr. Hasbrook received the honorary degree of Doctor of Laws. He is also a professor of government at Harvard College.

Dr. Frank L. Eversull, vice-chairman of the SIU Board of Trustees, gave the commencement invocation.

DELORES BLONDIN, a member of the Class of 1950, received the degree of Bachelor of Arts in Liberal Arts and Sciences.

According to the Registrar's office, 334 students received degrees. 54 received degrees of Bachelor of Arts in the College of Liberal Arts and Sciences. Of this number, 22 received the degree of Bachelor of Science in Liberal Arts and Sciences.

A total of 32 students were candidates for degrees in the College of Education. Thirty-one students, approximately five women and 25 men, received degrees. One woman was awarded the degree of Bachelor of Music.

SIU Conferences Degrees At Graduation June 8

It Soon Will Happen...

Monday, June 23—Speech Forecram Student Center, 4 p.m.
Tuesday, June 24—IRC summer forum, Student Center, 7:15 p.m.
Singing and Swing Club, parking lot, square dance, 7:30-9:30 p.m.
Wednesday, June 25—Student-Faculty cake hour, Library lawn, 9:30-11:00 a.m.
Thursday, June 26—Student summer forum, Library lawn, 9:30-11:00 a.m.
Tuesday, July 1—IRC summer forum, Student Center, 7:15 p.m.
Singing and Swing Club, square dance, 7:30-9:30 p.m.
Scientific Cramming

Well, here we are about to start another summer term with the weather hot as blazes and the books heavier than ever. Perhaps, with this being the first of the term, it might be a good idea to start out by destroying some misconceptions that most students have about studying for exams.

Here’s what Kenneth Cristophe, director of Business University’s health service, has to say on the subject:

“Don’t try to stay awake by drinking coffee or smoking. You may keep physically awake, but mentally you are just numbing your brain.

“When you take a quick break,” don’t light a cigarette. Get into the fresh air and clear your head.

“Don’t study in a room that is too hot or cold. If the room is overheated you will become sleepy. Those who believe brains work better in a cold temperature will probably miss the examination because of colds or more serious ailments.

“The absolute limit for studying should be 2 a.m. After that the output of knowledge possibly surpasses the intake.”

In addition to Cristophe’s comments on exams, there is a physician in Washington, D. G. J. who claims he has found that you can “cram” more quickly while under hypnosis. I don’t know of any course offered on the campus that has to do with the above mentioned art, but possibly there should be one started.

An Ag Student?

Instructors say that they never know what to expect of a student during examinations. Well, an instructor in an Introduction To Business course last term wasn’t any more surprised than most but did “set him to wondering when looking over a student’s answer to one of the questions on the final.

The question stated: ‘list three kinds of preferred stock’? The student answered, “Brahamia, Short-horn, and Guernsey.”

Could he have been taking an Ag course at the same time?

Get Ready to Graduate

According to the calendar, another school year has passed and another graduation has taken place. This year we lost more than 340 students to the outside world. These 340 may have spent one year at Southern or they may have given a full four years in the classrooms on the campus. However, with supervision of D. L. the Republican faculty editorial sponsor the staff are here to help them establish a good and secure home in a world that is troubled and peaceless.

To you students who are still here let us say this: Some day you, too, will graduate and be out on your own. The world then might still be in a state of peace, but that is doubtful. It will most probably still be in the war-like state that it is today. Whatever the situation is then, this nation will need leaders who are good and strong and wise. You may laugh and say that that is what you want, but no matter how hard you laugh, you will find that the statement is true. Whether you find this out early or late in life will determine your future for you. At any rate, a good deal of that strength and wisdom mentioned above will come to you along the road, but not all of it. To eventually gain those powers, a person must have a good base or foundation to work off of. This can only be had through education, and the minimum education in this day is a bachelors degree in some college or university.

Eleven Professors Appointed for Summer Quarter

Southern added 11 professors to its faculty at the beginning of the quarter.

John P. Friis has been appointed assistant professor at University School for the summer and next year. Friis, formerly on the staff at the State Teachers College, received his Ph.D. from Northwestern University.

Miss B. Elizabeth McKay has been appointed associate professor in the department of Guidance and Special Education.

Robert T. Harris, assistant professor at University of Utah, joined the university's department of Guidance and received his Ph.D. from the University of Utah.

Baker Brownell, professor of philosophy at Northwestern University, was appointed director of a new center for the study of philosophy. Brownell also served as director of area services at Southern, effective June 30. He will direct a division designed to coordinate the work of the university's Information Placement and Alumni Services.

Dr. J. D. Gould, director of the journalism department at Washington State College, has joined the Southern faculty as an assistant professor of journalism.

Dr. Arthur H. Bond, professor of mathematics at Cornell University, will serve as a lecturer in the department of mathematics.

Dr. John H. Johnson, president of the university, has been named to a new position as lecturer in foreign languages.

Miss M. J. Dietz, who has worked toward a doctorate in education at the University of Illinois, has been appointed lecturer in education.

EARTH-MOVING MACHINES are shown here as they begin to gouge out a right-of-way through the tennis courts area of the campus for a 1.5 mile re-location of U. S. Highway 51.

Highway 51 Relocation Under Way

With the Southern Illinois University gymnasium as a backdrop, earth-moving machines are gouging a right-of-way through the tennis courts area for the new road. The old pavement near the City Lake will be bulldozed and replaced with new. The new road will eliminate two sharp turns and transfer fast automobile and truck traffic away from campus areas where student pedestrian traffic is heavy.

The highway department is building a four-lane pavement as far as the University of Illinois. Moving forward, the pavement is scheduled for completion in late summer.

The department will be reconvened for the summer session and will be held for 30 weeks. Permits issued by the university, students, and employees will be honored during the summer. Those who have been parking on university land and desire to continue parking must have permits.

SUMMER PARKING PERMITS TO GO ON SALE TODAY

The parking committee has announced that 70 additional parking permits have been placed on sale today. These permits will be good for the summer session and will be sold for $5 each.

Permits now held by university faculty, students, and employees will be honored during the summer. Those who have been parking on university land and desire to continue parking must have permits.

Presidents Office Changes Location

Moving of the offices of the president into more adequate quarters was recently completed. The new office is located at 1008 South Thompson street. The house has been redecorated to provide more adequate quarters.

Olympic distances are measured in meters. The 5000 meter run is the equivalent of three miles plus 187 yards.

President's Office will be the most adequate quarters.
Track Season Highlighted by Coleman’s Feats

The performances of Phil Coleman added lustre to an otherwise mediocre track season for Southern. Coleman's feats won him Southern's highest athletic award, the Senior Cup, and made him the lone track man to go each year to the school's outstanding athlete.

Coach Leland "Doc" Lingle's men had a dual meet record of four wins and two losses. They won their first four meets, whipping Cape Girardeau twice, Rolla, Mo., and Illinois Normal and then dropped their last two to Eastern Illinois and Washington U.

In the conference meet Southern took fourth place with Coleman winning both the mile and two-mile runs.

The Salukis took second in the NAIA district meet at Macomb as Coleman again won both of his specialties and Harold White won the high jump. At Macomb Coleman posted a new school record for the mile in 4:15.3.

The next week Coleman went to the NAIA finals at Abilene, Texas, and took second in the two-mile race although he was off his best. The Salukis won nine of their 10 league games. Their only loss was a 3-2 decision to Illinois Normal. Northern Illinois' Huskies, who had won the crown the previous year, went second to Eastern Illinois.

Ineligible for the 1952 Illinois State meet at Chicago due to military service, Coleman trained on the school track daily until the end of the season, and was serving his country. You can choose immediately—"Pilot or Aircraft Observer in America’s swiftly expanding Air Force. The Air Force encourages candidates to stay in school and graduate. Seniors and students with two years or more of college who anticipate early entrance into military service can receive unmatched training in flying and leadership for the Air Force."

Today Only: Outstanding athletes who have graduated from college and are not enrolled in a graduate program are eligible for military training. New Aviation Cadet Oglala Offers Special Advantages To College Men Now Preparing for Military Service

Here is valuable postgraduate training that money can't buy! As an Aviation Cadet you can receive instruction and training worth thousands of dollars—at the same time you are serving your country. You can choose immediately—"Pilot or Aircraft Observer in America’s swiftly expanding Air Force. The Air Force encourages candidates to stay in school and graduate. Seniors and students with two years or more of college who anticipate early entrance into military service can receive unmatched training in flying and leadership for the Air Force!"

WALLER RESIGNS AS HEAD FOOTBALL COACH

William H. (Bill) Waller, Southern's head football coach for the past two years, has resigned. He has accepted a job as athletic director and wrestling coach at Cody, Wyo., high school.

Waller's resignation was announced last Tuesday by Glenn ( Abe) Martin, athletic director. The resignation is subject to approval of the board of control, which meets Monday. The board is expected to discuss a successor at that time.

Waller came here in July 1950 after compiling outstanding coaching records at Yakima Valley, Wash., and Ohio. Waller, a St. Louis native, had coached high school in his home town before going to Yakima.

In 1950 the Salukis lost the conference title to Evansville, Ind., 6-1, and Ohio, 7-4, although Southern led Ohio 2-1 through the season.

New Aviation Cadet Oglala Offers Special Advantages To College Men Now Preparing for Military Service

WHO APPLY

AGE: Between 19 and 26 years old.
EDUCATION: At least two years of college, with major in engineering, physics, chemistry, mathematics, etc.
PHYSICAL CONDITION: Good, especially heart, lungs, and vision.

HOW TO QUALIFY

1. Take transfer of college credits and take written test to American Air Force Oglala Recruiting Station.
2. Attend Aviation Cadet Training Classes.
3. Accomplish Flying Qualification Tests and complete for two years only.
4. The Selection Service will review and score your application to determine your qualification.
5. Attend Aviation Cadet Training Class.
6. Attend Aviation Cadet Training School at Oglala.
7. Graduate, win your wings Commissioned second lieutenant, beginning $15,000 a year! Phil Coleman will seek a berth in the Olympic tryouts tomorrow when he runs the 5000 meters in the National AAU track finals at Long Beach, Calif.

First and second place winners in the AAU meet qualify for the Olympic Trials the following week at Los Angeles. Coleman, a June graduate of SIU, left for California Wednesday. Phil’s older brother, Bob, is paying his traveling expenses as a graduation gift.

Southern's outstanding all-time distance star, last Saturday won the three mile race in the Midwest AAU meet at Chicago. His time, against a 13-field, was 15:34. Coleman won the race easily although hot weather and wind left on the track from the previous day’s thunder storm cut down his time. He lapped the second-place finisher.

Remember, the future is in your hands—"You can make a difference in our country's military needs by signing up for our service."
