KAPPA PHI KAPPA LEADS OFF
It is gratifying to note that Kappa Phi Kappa has given its support to the University Association on this campus. With the cooperation of this organization, we can equip our students to be more active participants in the life of the community. Thus far the seniors have not met to concentrate their efforts in the promotion of the project. However, we feel confident that the joint efforts of these students will indeed perfect an Alumni Association as part of their last year's program. The Kappa Phi Kappa is to be congratulated for their efforts in this connection.

COMPETITORS

With Herbert Hoessbauer, Garond Randall, Stewart Cameron, Donn Ehr, Jobs Amsden, John McKenna

Associated Student Body

Business Manager - Mr. A. V. Chalmers
Business Manager - Mr. T. E. A. Bedell

SIXTEEN CHIEFS

In sports of all kinds, the University has a great deal to offer. The Student Body has much opportunity to become familiar with the social benefits deriving from such an organization. They have considered the immediate campus intercollegiate and intramural programs. With the present need is organization of energies in putting up a student organization under way.

SPORTS FOR EVERYONE
The tendency in the modern college's sports world is to a marked degree, to intramural programs, giving opportunity to a larger number of men to engage in some form of athletics. These programs can obtain. Their present need is organization of energies in putting up a student organization under way.

Progressive colleges have introduced new, or improved old, intramural programs. HARRISON ASSOCIATES have made this change in the student organization of the department. The complete student intramural basketball schedule enabling twenty-eight teams and 280 men to participate in the S. I. C.'s healthy intramural policy. When 200 college men are splitting their efforts through a well-organized schedule with regular officials and realistic playing conditions, providing thoroughly at all times, and when every one of the players is a winner in his portion of the game, there is no way to fool from participation, then it can be said that the intramural is worthwhile.

But the intramural is not limited to court competition. The hunting and sculling season to be held next month provides opportunities for the men who enjoy rowing, probably more than fifty boxers and wrestlers will be entered to take part in the meet.

In addition to the court play and the various activities, there will be an intramural program in for the men who cannot play the program. There is also the possibility of track competition for men not on the majority squad.

By all these instances, the progressive and beneficial trend of the college sports policy is apparent. S. I. C. is to be congratulated on her comprehensive, modern intramural program.

JELLYCUP DE LUXE
We take our hats off to Chris, business man supreme. His ingenuity in converting the great majority of our campus population to the joys of jelly has certainly been commended. Besides showering improving his education, his jelly has also provided a means whereby our boys and girls can satisfy the beautiful longing for jelly which we all have.

Slightly by memory of revered andTrial tortillas, the Cafe today symbolizes the interests and recreations of our student body. The addition of the two-by-four slab for polka dancers, the dance band, and an expanding student body have been the cause of a decrease in the quality of some of our students. Besides preserving the tradition of jelly all day, they have followed in the footsteps of the men who have taken the lead in making a habit of neglecting their studies. How can the citizens of this nation compare with the memory of the night you stole someone's sneaker or finally succeeded in dancing with the girl of your dreams?

When the weather becomes warmer, we advise the student body to be more cautious. Time is money and it is not always easy to find some of the money which your parents are spending for your college education.
The Marmon victory over St. Victor put a very satisfactory lid on the Southern court season recently completed, or at least, as Jim Groff climbed for eighty points, and Lyon Hoelster counted six. Each was play of the last year, and each turned in a great performance. Popular relay League also closed this year. T. C. court career with a fine finish of steady marks.

Another exciting exhibition of the Tuesday baths includes the T. C. field in defense of the victory, and the Maroons have assumed a lead that will be impossible to break the season opening. In this, however, with no games scheduled for either team, the Red Brass will meet and draw the crowd. Korea Conference, as the teams are scheduled to meet in the basketball season, will be in the Interest of both the varsity and junior, and accounting for the other team, the Red Brass will meet and draw the crowd.

New Diamond to Be Available For Play in Baseball League
Plan for the formation of a baseball league in the city under the auspices of the American Legion is being arranged. The meeting will be held on Tuesday, May 13, at 8 p.m., at the American Legion Hall. The meeting will be open to all interested parties, and the selection of the officers and the by-laws will be discussed. The league will be open to all teams in the city, and the games will be played on the fields of the various schools and parks in the city.

S. I. N. U. WAS OUT IN THE COUNTRY WHEN CARBONDALE WAS YOUNG

A student poster, "I wonder if Carbondale has always been just as it is now? It hasn't changed very much since the old days," stuck on the bulletin board.

But nevertheless it has changed. In the early days of S. I. U., in 1878, when the school was a few years old, Carbondale had a population of 2,800. The first steam mills had been installed for the grinding of corn and sawing of lumber. There was at that time the main part of the township.

As a matter of fact, practically all the buildings were on the east side of town. There were no hotel buildings, all were frame except several homes. These were brick, but almost without exception garden homes were situated a mile or more from the place. Most homes were known as country seats, and indicated the origin of the wealth of the community. Carbondale was still interested greatly in agriculture, and the Jackson County History boasts that hard work was as much as twenty-two dollars an acre. However, unless one of a great future along other lines were already present.

As it is now in the country. The Illinois Central, the S. I. T. & C., and C. & O. railroads all pass through Carbondale. The Illinois Central train is forced to employ three men to transact business along this part.
