Keene Leads Miller in Mayoral Race

**Ohio School Post Taken by Gillespie**

The Rev. Malcolm E. Gillespie, director and campus minister at the Christian Foundation at 913 S. Illinois Ave., has announced he will seek the seat in the 1st Ward to be vacated because of the resignation of the former incumbent. He has also been appointed assistant professor of philosophy and director and campus minister at the Christian Foundation.

Gillespie said.

The heavy turnout slowed the counting although only one short ballot was involved. The 1st Ward was last to report, but its total vote of 3,376 was not available at 11:45 p.m.

City Clerk Elizabeth Leighty said the vote was heavier-than-anticipated, but the supply of ballots was sufficient. The number of students who voted or attempted to vote was also lower than expected, Mrs. Leighty said.

The first returns were received at city hall shortly after 8 p.m. Tuesday. The counting had been expected to be completed by about that time, but the heavy turnout of voters swamped the election board members despite the fact they had only one short ballot to tally.

More U. C. II Hibernate Center Use Increases Since Program's Start, Report Shows

Continual growth has been a characteristic of the Self-Instruction Center since its introduction here in March, 1966, according to Donald L. Winsor, director of Audio-Visual Services.

The number of students and faculty using the Center, located in Room 112 of the Communications Building, has increased each semester the Center has been open. However, this increase is not in comparison to the potential usage, Winsor explained.

Unfortunately, the percentage of students who use the Center is greater than that of freshmen and sophomores, Winsor explained.

A recent report prepared by Harry Denzel, director of the center showed that out of a total of 367 persons who registered at the center during fall quarter, 169 were upperclassmen, 141 were freshmen and sophomores. The remaining 57 were graduate students and faculty members.

Denzel's report also showed that the largest usage occurred during the fall quarter. The attendance during spring quarter, 1966, was 250, and 1,152 students during summer quarter, 1966, and to 1,980 during fall quarter, 1966.

An increase in facilities available to students has also accompanied the increase in usage, said Denzel, who is also an instructor in educational psychology and guidance.

The taped lectures on subject matter ranging from political economy to art appreciation have been added to the standing list of 27 available instructional programs.

Denzel said the plans and objectives of the Self-Instruction Center are being discussed by the Learning Resources Committee. The recommendation of the 11-member committee, which is headed by D. J. Robinson, associate professor of geography, will be announced in April.

Library Growth

Report Pairs SIU, MSU

SIU and Michigan State University are paired in a report, "The Emerging Universities," a published in a late 1966 issue of the journal, Library Trends, published by the University of Illinois Graduate School of Library Science, according to Dr. Richard E. Chapin and Ralph E. McCoy, library directors respectively, says both institutes, faced with booming enrollments and growing need for more library facilities.

Duncan confirmed that the "halo clause" had not been agreed on at a session last Friday. Evidently the representative from the international office of ITU refused to sign the agreement on Thursday. Duncan said he did not know why the representative declined the wording. The "halo clause" seeks to protect workers transacting union business during working hours.

At Friday's meeting the two sides agreed on a three-year contract. The union asked for a pay increase of 29 cents per hour. The Southern Illinoisan offered 14 cents, 12 cents, and 10 cents for the three years. The union Friday sought for the contract to begin as of Nov. 1, 1968, the day the strike began. The Southern Illinoisan wanted the contract to take effect when work resumes.

Record Turnout

Sloans Returns

David H. Keene, a newcomer to politics, outpolled two-term Mayor D. Blaine Miller in Carbondale's municipal primary election Tuesday.

With 10 of 11 wards reported by midday Tuesday, dioxide Eddie Keene led Miller by a margin of 1,866 to 1,114.

The 1st Ward, described as largest in the city, was still not reported at midnight.

But on the basis of the returns reported, Thomas H. Miller, 3,070 votes for mayor and Joae L. Groves, four.

The incomplete reports gave those totals for the other candidates for Council, and the eight will vie for the four Council seats in April 18 general election.

Frank, Kirk, 1,983
Randall H. Nelson, 1,906
William E. Eaton, 1,683
Joseph R. Ragdale, 1,441
Arlene Jones, 1,438
A.E. (Gene) Ramey, 1,097
Lynn C. Holder, 861
Kenneth R. Miller, 496
Eaton, Kirk, Ramey, Ragdale and Ramey are incumbent members.

Keene, Kirk and Nelson ran under the label of "blue-ribbon candidates," and another slate ran under a "Citizens for Progress" grouping. Its members were Mayor Miller, and Ramsey, Ragdale, Schoen and Jones.

Gus Bode

Gus says he didn't win either.
**RESEARCH TOOL** — George H. Waring, assistant professor of animal industries and zoology, demonstrates a sonogram of the type he uses in his research in animal communications. The instrument gives him a graphical representation of certain animal sounds to aid him in the interpretation of communications. The device is property of the Department of Speech Pathology and Audiology and is also used in human speech research.

**Professor Studies Animal Communication**

*Starting in Horse's First Few Hours of Life May Be Key to Easier Future Training*  
By Gary Blackburn

Beginning a horse's training during the first few hours after his birth may be the key to easier training later in his life.

At least this is the line of research being explored by George H. Waring, assistant professor of animal industries and zoology.

Waring is studying animal communications, and part of his research involves new training techniques for horses. He has studied the line, and made a film and extensive notes on this strain around 25 years ago.

The Fanny Brice strain and their offspring, along with the other American saddle horses housed at SIU, will be the major subjects in Waring's proposed project.

He has been looking for a long time, according to Waring. If a man could handle a foal soon after its birth, the later training might be minimized, Waring theorized. Horse training could become much easier, and beneficial early training experiences might produce a more useful horse if better methods are found.

Waring hopes to bring back some of the old, lost Indian training methods and verify the best methods scientifically.

Waring has just obtained the address of an old Cherokee Indian, who is said to remember the Indian horse training methods. Waring wants to know if the Indians started training the horses as foals, and perhaps treated them like pets.

"Apparently certain Indian boys had magical powers with horses," Waring said. "I want to find out how they could ride horses without bridles and other restraining lines. They must have used some sort of strong communication," he added.

As an undergraduate at Colorado State University, Waring became interested in animal communications "somewhat as a hobby." Through some sound-graphing equipment in Colorado State's speech pathology department and a book called "Animal Sounds and Communication" edited by W.E. Lanyon and W.H. Todvold, he began his first actual study.

In his master's thesis Waring investigated the communicative code of the marmot, a small, furry rodent related to the prairie dog. Living right with marmotes in the Colorado mountains, Waring camped out by night in an abandoned miner's cabin that had "so many gaps in it that it was like being outdoors," he said. Daylight he spent listening and recorded the animal's vocalization. He found that by putting together the sonogram with the animal's actions, he could tell the communication the animal sent.

The shorter the interval between whistles, the more excited or alarmed the marmot got. In fact after several months of observation Waring could guess the name of a nearby animal just by listening to the marmots.

Waring spent the summer of 1961 in the mountains of Colorado with the marmots. Although not enrolled in any university, Waring worked in hopes that his study of the animal would be acceptable thesis material.

His doctoral research, at Colorado State, this time on prairie dogs, Waring observed a prairie dog rear up on its hind legs and give a mournful "weep-coop" just like he was saying "everything in the world is good with me." Immediately the whole prairie dog town sprang up "weep-coop" as if they had just won a free spring break trip to Florida.

An animal's communications may be very simple, according to Waring. His example: his life may be with- in a 100-yard circle, but the animal's communication is adequate for his purpose. Waring added.

Tonight's Basketball Game
To Be Broadcast by WSU

WSU Radio will broadcast the Saluki-Southwest Missouri basketball game from the arena beginning at 8 p.m. today. Other programs include:

7:50 a.m. News
7 a.m. Morning show
12:30 p.m. Pop concert
2 p.m. Score report
3:10 p.m. On Stage: Scores and performances by the original cast
6 p.m. Scope

Hollywood Story
On WSU-TV

"Hollywood: The Golden Years" will be featured on "Special of the Week" at 10 p.m. on WSU-TV. Other programs include:

11:35 a.m. News feature
12:30 p.m. Film feature
5:30 p.m. Jazz Casual
8 p.m. Great Decisions: 1967

Other programs include:

 Passport 8-Bold Journey: Sailors from Formosa, 11:45 p.m., News in Perspective, 9:30 p.m.

A Special: David Ben Gurion.

Event Planned Thursday
Annual Careers Night Set

The Home Economics Club is sponsoring its annual Careers Night at 7:30 p.m. on Thursday in the Family Living and Home Economics Building. The theme is "Home Ec and a Great Career, Too!" Volunteers are needed to work on the 400-page JrU yearbook, "The Obelisk," according to Terry Myers, editor. The yearbook will be finished in the spring. For some reason there seems to be a lack of interest in the Obelisk," Myers said. The bulk of the work is done by six staff members who must complete the book by March 25 in order to distribute it at the end of spring quarter.

Volunteer workers are needed for services such as typing, writing, indexing names, and scheduling pictures. Volunteers are needed for duties for two terms, the work of the staff and paid staff positions with the Obelisk. The Obelisk office, located in the barracks at the north end of the Agriculture Building, is open every weekday afternoon. Also, there are Friday work parties from 5:30 to 11 p.m.

Go-Go." The public is invited. Each of the four departments in home economics will have a booth for an exhibit showing the work each does in home economics. The four departments are Home Economics, Clothing and Textiles, Foods and Nutrition, and Home and Family. Each department head will give a short talk and introduce the faculty in his department. After the talks, visitors will talk with members of the faculty and see the exhibits. The purpose of Careers Night is to acquaint the public with opportunities in home economics.

Activities

Senators Meeting Tonight

Plant Industries Club will meet in the Agriculture Building Room 77 at 6:30 p.m. Tuesday. The National Agriculture Club will meet in the Agriculture Building Room 105 at 7:30 p.m. Tuesday. The Inter-Varsity Christian Fellowship will meet in room J of the Recreation Center beginning at 9 a.m. Wednesday. The Kappa Omicron Phi fraternity will meet in the Agriculture Building Room 780 Thursday at 3:10 p.m.

Other programs include:

From 7:30 to 9:30 p.m. on Thursday S. "Great Decisions-1967.

"Hollywood: The Golden Years" will be featured on "Special of the Week" at 10 p.m. on WSU-TV. Other programs include:

Passport 8-Bold Journey: Sailors from Formosa.

"Best Film of 1966!"

"A STUNNING PICTURE—beautifully built up with glowing images and color compositions. A FASCINATING PICTURE, which has something real to say about the matter of present involvement and emotional commitment in a jazzed-up, media-hooked-in-world. The performing is excellent..."

The Daily Egyptian
The Future of Intercollegiate Athletics at Southern Illinois

Jack Harman's basketball Saga is not yet over. The NIT is next. While we gaze into the future, however, it is still sufficient to dwell on the past few days. Big Ten fans have ordered the firing of three of their coaches. Some people there are saying the punishment is unreasonably severe. They feel the action of the board is sufficient. But what was that disciplinary action? The major portion was the suspension of athletes. Light was shed on the future that the fans state they are successful in accomplishing. The coaches. Apparently the philosophy is that the students are responsible for the wrong doing and the coaches just play along with the students.

On Returning To SIU After An Absence of 610 Days

I have been asked by the Editors of K.A. to give my impressions of the past year and a half when I was away from the university. As soon as I arrived, we had just seen the final partial results of the N.I.T. and while our team had pulled off a victory, we had hoped they would have been more significant. But what was that disciplinary action? The major portion was the suspension of athletes. Light was shed on the future that the fans state they are successful in accomplishing. The coaches. Apparently the philosophy is that the students are responsible for the wrong doing and the coaches just play along with the students.

...Role of the U. of I feel that the discollese athletics as the coaches, Dr. Henry, and the University, are only proving rewards for corruption.

It is interesting to see what groups are doing to Southern Illinois University, but to the 'civic leaders of Carbondale' who already have their thesis student funds going. Our University should set down stringent guidelines for outside 'booster organization' involvement in university affairs. The University could also publicize present involvement of these groups.

If the University is going to publicize our athletic program—and at this stage it seems impossible not to—you should make available the funds to maintain this program in an above-the-board fashion. This will continue to reflect credit on the University, the Student Senate, and the Administration and will also lead to a reward for cooperation.

S.E. Wilson

(Editors' note: Mr. Steve Wilson returned from SIU on March 4th to June 5th. While a student here he became a Student Council Senator, Vice-President of the American Family, Member of the Ad-hoc Committee for the Study of Student Government. He has spent the last year and a half in Europe.)

Defender and Champion of "The People's Voice"

We are greatly pleased to report that the cause of free speech continues to flourish in this world.
Free School Controversy: The Critic Answers His Critics

Like KA’s Local Anarchist, I was gratified, if not particularly surprised, to learn that I have acquired a pair of critics. I feel honored that my efforts have been regarded as sufficiently outmoded for such recognition. I criticize the contemporary system of higher education as specifically the purpose and quality of that system. My conception of the purpose of “conventional American education” is accurate. The process imparts accumulated knowledge to the student while preparing him for a useful role in society. My confidence in this system has firm foundation.

What our educational system lacks is an opportunity, not for a privileged minority, but for the great majority. The concept of utilitarianism, which is the basis of the “greatest good of the greatest number” comes to my mind, and if any concept cannot be described and justified this educational system then it is this. The system is tested and graded by the Free School, serves to challenge the conception of the greatest good of the greatest number. As I stated in my previous article, the Free Schools are springing up around the country. It seems to the educated that what we now experience is a nationwide flowering of progressive ideas. The Free School movement is a nationwide flowering of academic ideas. It takes the laundries quite properly to task for fixing prices, but a large part in the type of life you’re going to live. You give up your rights and pray for his mercy, but the “Great Forrester” has not had to face. Like a group of numbers, but a brave and useful person you stand up as sunlight as you pretend to use? Is it making you feel important? Indeed. So you’ll need to be in ten years? Is it preparing you for a real life, stimulating life, or are you just another victim of the big “diploma sellout?”

Wake up undergraduates! The time to think is now. Evaluate this system from every aspect, and find the ones that keep you from being the person you could be, then bring them to the battleground this spring. Fight with them every aid given and you will find that you have intelligence and sincerity and gain respect. Civil disobedience is no answer! The man who yells “Moo” and has not seen a cow is a fool. The “Forrester” prophetic. He is life, and if you can’t get a real life, “Great Forrester” as an excuse to plant you deeper and distort your public image to that of a bunch of “irrational hoodlums.” Show those who dictate over you that you are no longer a group of numbers, but a group of intelligent men and women who have not long to stand the stench of the bowels of this fallacy. Pull the “Great Forrester” from behind his computer, and force him to show the public the marvelous life you live.

One way to act, dear undergraduates, can’t you feel the big boat moving down the river? Out accepting students? This is the time to wake up undergraduates; in a few years the “Great Forrester” will be hanging you in the river called life. Don’t you feel well, there’s nothing to guarantee that your diploma will keep you alive.

Why is this man laughing?

Paul Arwood

LBJ Pushes for Nuclear-Powered Rocket

WASHINGTON (AP)—President Johnson proposed Tuesday a $27.5 million for work on engine systems—essentially for the Nerva—nuclear-powered space rocket engine.

Space scientists largely agreed Monday that the engine program will manned flights to the moon and beyond be possible.

And Johnson told Congress, "We know that the development of a nuclear-powered space rocket engine will take place."

"I now call for delivery of the first test engine in 1968," he said. "A number of flights and ground tests will precede full use of the engine for any program."

The Nerva project was the big item of three scientific projects totaling $149.8 million in the fiscal year starting next July 1 which the chief executive proposed to "advance America's ability to harness atomic energy for the peaceful exploration of space."

The test of the money, $38.8 million, will be used to develop two new research facilities at the Los Alamos, N.M., scientific laboratory of the Atomic Energy Commission, one for a laboratory for basic physical and medical research, for which Congress already appropriated $4.7 million, and a center for advanced research into controlled thermonuclear fusion as a possible power source for the future.

Of the amounts asked for the first test engine, the AEC would receive $41 million. The remaining $30 million would be used by the National Aeronautics and Space Administration in these amounts:

- $27.5 million for work on engine systems—essentially for the Nerva—nuclear-powered space rocket engine.
- $22.5 million for the design and initial construction of special testing facilities, principally at Jackson, Miss. (the testing center is 85 miles northwest of Las Vegas, Nevada.

NATCHES, Miss. (AP)—Natchez police told their followers Tuesday that they have several leads in the August 25 slaying of a 20-year-old former NAACP leader. A NAACP leader, Charles Evers, was described by Johnson as the "most recent of the three.

**Henry R. Luce Dies at 68**

PHILADELPHIA, Pa. (AP)—Henry R. Luce, founder of Time Inc., who has written magazine publishing a brand of personal journalism that inspired and sometimes irritated, died Monday at the age of 68. Luce was editorial chairman of Time, Life, Fortune and Sports Illustrated magazines. The magazines have a combined circulation of nearly 14 million.

He succumbed to a massive coronary occlusion at St. Joseph's Hospital, which he had entered Monday after complaining of not feeling well.

Luce had telephoned his wife, Clare Boothe Luce, 10:30 p.m. Monday night at their winter home here and told her he was feeling. A nurse said he left his bed at about 3 a.m. and went to a bathroom where he collapsed and died.

The couple said Luce had played golf until a few days ago. He suffered a heart attack late Tuesday night when he attended a dinner in honor of Vice President Hubert H. Humphrey.

"A fire now call for delivery of the first test engine in 1968," he said. "A number of flights and ground tests will precede full use of the engine for any program."

The test of the money, $38.8 million, will be used to develop two new research facilities at the Los Alamos, N.M., scientific laboratory of the Atomic Energy Commission, one for a laboratory for basic physical and medical research, for which Congress already appropriated $4.7 million, and a center for advanced research into controlled thermonuclear fusion as a possible power source for the future.

Operation Junction City

**Jets Raid Cambodia**

SAIGON (AP) - 852 jet bombers staged a heavy raid near Cambodia's frontier in support of Operation Junction City Tuesday. On the other side of the country, U.S. Marines in Operation Deckerhouse 6 stabbed again from the sea at the enemy's coastal holdings.

U.S. fighter-bombers struck on both sides of the border amid official silence here about developments in newly disclosed pressures on North Vietnam — the long-range artillery shelling, naval bombardment and the aerial mining of navigable streams. Tass, the Soviet news agency, declared, however, that the U.S. guided-missile cruisers shelled coastal areas Monday between the border and Thanh Hoa, 80 miles south of Hanoi. The dispatch from Hanoi described this as a 'satire action.'

The Viet Cong's political leaders, the Central Committee of the Communist Party, reaffirmed in a broadcast statement that the guerrillas intend to fight on until their five-point demands of March 22, 1965, are met. Their No. 1 point is the withdrawal of all U.S. troops and bases from Vietnam.

In Saigon there was another officially sanctioned demonstration against France, the former colonial ruler of Indo-China whose chief of staff now regards neutrality as the solution of Vietnamese problems. More than 200 motor scooters sputtered slowly through the main streets in the fourth day of the demonstrations, which President Charles de Gaulle's government protested Monday.

"Down with De Gaulle" was the theme of the chanting demonstrators and their crudely lettered signs on the three-wheeled vehicles which form part of Saigon's public transport. Leaders handed out petitions calling for the cessation of all French property in the country and its disestablishment among poor Vietnamese.

Troops in Operation Junction City, launched last Wednesday, reported killing 27 more of the enemy, raising the toll to 99.

While battle contact has been slight, American officers said the drive is paying off in the destruction of enemy installations and the seizure of documents.

**Mobil Oil Rescinds Part of Price Hike**

NEW YORK (AP) — Mobil Oil Co. joined today in recouping part of a gasoline price increase that had brought government threats to boost gasoline imports to force a rollback.

Continental Oil Co., Monday was the first to break ranks among the major petroleum companies which earlier this month announced raises.

18 Indicted for 1964 Civil Rights Slayings

**MERIDIAN, Miss. (AP)**

EIGHTEEN persons, including Neshoba County Sheriff Lawrence Rainey and his chief deputy, Cecil Price, were arrested Tuesday after being indicted for conspiracy in the slayings of three civil rights workers near Philadelphia, Miss., in 1964.

For 16 of them, including Rainey and Price, it was the second time they had been indicted in the case. The first indictments were dismissed. The 18 men posted $5,000 bond each and were released.
The image contains a calendar for March 1967, with events listed for various dates. The calendar is illustrated along with text promoting a variety of events.

"FIVE FOOT TWO...EYES OF BLUE"

Easy to look at Kitty Trowbridge is March's Femme Fatale. Majoring in elementary education, this 18-year-old freshman comes from Niles, Illinois.

Blonde, blue-eyed, and 5'2", she enjoys everything from swimming and water-skiing to pop music and dancing. Making collages is another of Kitty's interests.

Niles has made an outstanding contribution to the "Beautification of Southern" program.
Huang Services Scheduled Today
Chung Citing Huang, 74, of Taipei, Taiwan, died at 10:04 a.m. Tuesday in Doctors Hospital. He was a retired orchard farmer.
He belonged to the Oak Grove Methodist Church and the KOP Lodge in Carbondale. He had lived in Makanda all his life.
He is survived by his wife, Nora, five daughters, and two granddaughters.
The funeral will be held at 2:30 p.m. Thursday at the Huffman Funeral Home in Carbondale. The Rev. William L. Hoffman officiating.
Friends may call after 10 a.m. today at the Huffman Funeral Home.

Chadwich Services Set for Thursday
Robert R. Chadwich, 82, Makanda, died at 10:04 a.m. Tuesday in Doctors Hospital. He was a retired orchard farmer.
He belonged to the Oak Grove Methodist Church and the KOP Lodge in Carbondale. He had lived in Makanda all his life.
He is survived by his wife, Nora, five sons, and two daughters.
The funeral will be held at 2 p.m. Thursday at the Huffman Funeral Home in Carbondale. The Rev. William L. Hoffman officiating.
Friends may call after 10 a.m. today at the Huffman Funeral Home.

Visiting Geographer To Lecture on Kenya
Edward W. Soja, assistant professor of geography at Northwestern University, will speak on "The Impact of European Settlement on the Development of Kenya" at 8 p.m. today in Lawson Hall.
The lecture, sponsored by the Department of Geography, is open to the public.

Student in Society To Be Discussed
The General Studies program on the student in society will be discussed Thursday evening during one of the social change education courses sponsored by Free Soil.
The discussion will begin at 7 p.m. in room 210 of Old Main. A representative of the General Studies committee is being sought to attend the meeting to talk with students, Stewart Tadlock, course coordinator, said.

Alpha Zeta Reception
Alpha Zeta, a scholastic honor fraternity in agriculture, will hold a reception for prospective initiates at 7:30 p.m. Thursday. The welcoming of the Beta Chapter group will be the theme of the faculty adviser, David Armstrong, WO Glenview Dr.

Service Fraternity to Sponsor Easter Seal 'Bucket Brigade'
The Alpha Phi Omega service fraternity will sponsor its annual Easter Seal "Bucket Brigade" Saturday.
The members will collect donations at various shopping locations in Carbondale. This is the fraternity's seventh year in the project.
This bucket brigade is in coordination with the Easter Seal Campaign that will be held until March 26 under sponsorship of the Easter Seal Society in Carbondale.
The Easter Seal Society of Carbondale was incorporated in 1931 and is an affiliate of the Illinois and the National Society which is the oldest and largest voluntary agency serving the crippled in the United States.
The Carbondale office serves the 33 southernmost counties of Illinois. The local office is governed by a volunteer board of directors composed of men and women from several business and professional areas. The executive director is Mildred L. Holland.
Last year over 500 persons including doctors, physical, occupational and speech therapists, and counselors received scholarships and fellowships by the National Society for advance training.
The Easter Seal Research Foundation has made more than 200 grants, involving nearly $2-million, to universities, medical schools, hospitals and other institutions for research in the prevention and healing of crippling disease.
Further information concerning the Easter Seal Society is available at 801 S. Oakland Ave., telephone 7-4246.

Services Pending For Bernard Baby
Funeral arrangements are incomplete for the infant son of Capt. and Mrs. Robert Keith Bernard of Carbondale. Robert James Bernard, six days old, died at 1:30 p.m. Tuesday.
Capt. Bernard, a 1961 graduate of West Point Military Academy, is now serving in South Vietnam. Grandparents of the infant are Mr. and Mrs. Robert L. Bernard of 819 S. Illinois Ave, and Mr. and Mrs. James Woo of California.
Block, Bridle to Meet
The Block and Bridle Club will hold the last meeting of the quarters at 7:30 p.m. Thursday in the Seminar Room of the Agriculture Building. Alpha Zeta Reception

MEET THE CHAMP!
Top Civilian Overseas Booker for 1966

DAVID KEENE
David Keene, President, Keene Transfer and Storage Company of Carbondale, Illinois, is indeed the "title-holder", with a record 99 orders in 1966. How did he do it? Here's how Dave explained it.

"A couple of years ago when I booked my first few overseas shipments, I sent them through a St. Louis freight forwarder. Unfortunately, I found our shippers had a terrible time locating their shipments at the overseas dock. So I decided to switch to United and have used them ever since. And, believe me, the service has been fantastic. This, of course, is the key to securing foreign business---GOOD SERVICE!"
THE KLADEIDOSCOPE PLAYERS

Tour Group to Perform

The World of Lewis Carroll
Thursday Convocation Event

The world of Lewis Car­roll, his times, his writings and the man himself, will be pre­sented Thursday in the University Convocations Ser­vice.

The Klaedidoscope Players, a national touring repertory company, offer a new musical adaptation called "Other Sides of the Looking Glass." Performances will be at 10 a.m. and 1 p.m. in Shry­er Center.

The Players portray nu­merous familiar Carroll characters such as the March Hare, Humpty-Dumpty, Tweed­edum and Tweedledee and the red and white queens. The musical comedy was brought to the stage by author David Novak and composer C.J. Kel­ley.

The Klaedidoscope Players have been touring the United States and Canada for the past six years, covering all 50 states and numerous college campuses. They have pre­sented such literary works as "Robert Louis Stevenson On Stage," "The World of Carl Sand­burg," "Under Milk Wood" and a presentation of Rosen­ard's works called "Two by Five.

A coffee hour will be held at 11 a.m. in the River Rooms of the University Center.

The convocations of March 9 will feature Pierre Schryer, director of the Kaleidoscope Players.

Grand Tower Sets
Planning Program

The Grand Tower City Council is planning a six-week education program, starting tomorrow which is geared to help citizens learn and discuss planning in Grand Tower.

Group discussion is sched­uled on matters of concern to the community and what actions can be taken to improve them. Citizens will learn about planning in Grand Tower and the Greater Egypt Regional Planning Commission are consisting of Franklin, Jackson, Perry and Williamson counties.

... continued another article on the front page about Lewis Carroll's characters and a musical adaptation called "Other Sides of the Looking Glass." Performances were scheduled for 10 a.m. and 1 p.m. in Shryer Center. The Players portrayed numerous familiar Carroll characters such as the March Hare, Humpty-Dumpty, Tweedle-dum and Tweedledee, and the red and white queens. The musical comedy was brought to the stage by author David Novak and composer C.J. Kelley.

13. Further annexation of property in this area will be carried out through this action and exercising standing agreements.

The Council also agreed to extend sewage and water to the new Community High School East building in ex­change for the easements for the city. The cost will be $650 for the extension of the sewage facilities and $1,200 for ex­tension of water lines and addition of water taps.

A committee was appointed to talk to developers of areas in subdivisions that have not been completed or maintained by the developer. The city will not be responsible for the maintenance of these streets that were built without planning approval of the city or that do not meet standards prescribed by the city.

An ordinance was passed changing the name of Myrtle Lane to Sunset Drive.

The Council also decided to submit a bid of $500 for used street light containers owned by a Springfield firm.

On March 3, 1967, the Daily Egyptian of Carbondale, Illinois, published an article about the Spring Quarter Registration due March 10. The article included information for students on how to register for the Spring Quarter and the dates for new members admitted by FFA. The article also mentioned a special program for industrial arts and homemaking students at the University of Illinois, and a technical subject to be added to the schedule.

The article also mentioned a news update about the Zeta Omicron chapter of the Alpha Kappa Psi fraternity, which is open to all interested members.

The Daily Egyptian also published an article about the Love Book, which is open to all interested persons.

SIU Students Given Honors In Marketing

Two SIU students, Wayne Wecks and Bart Modica, were among 10 students from 14 Midwestern colleges honored at the recent sixth annual Marketing Theory in Action Conference in St. Louis.

Wecks received the outstanding marketing student of the year award for the Carbondale campus, while Modica, a student at Edwardsville, received the award for that campus.

To market men representing leading business and educational institutions lecture out of standing marketing students of the Southern O1inois University.

Midwestern colleges honored their best students at the conference. This has helped to encourage a greater number of students to become involved in marketing studies.

Major to Craft in More than Education

Major has been promoted to major.

Robert W. Probst, a senior Air Force ROTC student, has been promoted to major.

Maj. Probst, who teaches at the Federal Aviation Agency (F.A.A) training program at the school, heads SIU's senior flight instruction program.

Before coming to SIU, Maj. Probst flew C-124 aircraft in more than 40 missions out of Viet Nam. Since graduating from the AFROTC program at Central Wash­ington State College, at Ellensburg, Wash., the major has accumulated over 4,000 hours flying time.

Maj. Probst will complete his assignment with detachment 201 at Southwood, Ill., in June. He will probably then be assigned to another flying job in southeast Asia.

"I have served an interesting and educational assignment at Southwood, and I've especially enjoyed working with the cadets," he said. "I appreciate the excellent support that the University has given to the AFROTC detachment. This has helped to make it possible for me to have a most enjoyable one."

Chemistry Seminar Set

Joseph A. Carlson of Michigan State University will deliver a seminar on "Acid-Base Equilibria in 3,3-Di­tetrachloro-polyene" Monday in Parkinson 204.

Hanseed, Students Help Children

Handicapped Receive Education

By Karen Winn

Seven Murphysboro children, unable to attend public schools because of severe handicaps, are receiving an education through the efforts of Mrs. Stanley Thier and three SIU students.

The children are attending the Southern Illinois United Cerebral Palsy Achievement Center of Jackson County under the direction of Mrs. Thier.

Mrs. Thier, a Murphysboro housewife, has had no formal training in special education, but attended classes with an aphasic patient for a year. The patient had lost her speech.

She became interested in a center while working as a volunteer at the Jackson County Nursing Home. Mrs. Thier said the center was started because there was no school for these children.

She commented on the severity of their handicap and the importance of the center.

Southern's Homecoming Opponent to Be Tulsa

Four changes dot the SIU schedule for this weekend. They are Northeast Missouri State University, Dayton University of Tulsa and Lincoln College.

The Salukis, ranked No. 1 in the nation according to The Associated Press, will be the team to beat in the five regional tournaments which will be held in Chicago over the weekend.

The Salukis will be No. 1 in the nation according to the AP and Coaches polls and will be the top seed in the East Regional of the NCAA tournament. The regional will be held at the UofL arena which is in the downtown area of St. Louis.

The Salukis will begin March 31.

Many of the best teams in the nation will be in St. Louis. The Salukis will play Michigan State, Ohio State, University of Kentucky, and St. Louis University among the major university teams.

The Salukis will play the host team, the Washburn Ichabods, in the first round of the regional. The Salukis will have a veteran team to start the new season. Emissions and other four road games which is contrary to the pattern of five home games and four away games in previous seasons.

The Salukis will travel to face Michigan State, Ohio State, and Penn State in the regionals and the second round of the NCAA tournament, and the third round of the NCAA tournament.

Odd Bodkins

THEY HAVE A HARD TIME GETTING TO OHIO IN TIME FOR EASTER.

UCLA Unanimous No. 1, Cards 2

By The Associated Press

If college basketball is the overwhelming leader in this country, the policy-making conference could win the debate. The three-member delegation is the strongest possible term, an ultimatum to the Big Ten's leaders if they want to fire three Illinois coaches from a weight of $21,000 athletic staff and the school uncovered last December.

falling to do this, the conference code requires Illinois to show cause why its athletic program should not be suspended or ended.

Final action by the faculty group may develop in time for the regular conference March meetings which continue through Saturday, and the results will be compiled next Monday, Louisville held the runner-up in the latest balloting. The Cards collected 253 points in 10 first-place votes, 9 for second, etc.

The Top Ten, with first-place votes in parentheses, little meat throughout, Feb.

1. UCLA (32) 23-0 320
2. Louisville 23-1 253
3. North Carolina 20-2 212
4. Kansas 19-3 204
5. Kentucky 19-3 193
6. Western Ky. 21-2 139
7. Penn State 20-6 128
8. Tennessee 18-4 74
9. Texas Western 10-3 52
10. Boise State College 17-2 40

The Daily Egyptian reserves the right to reject any advertisement for non-cancelled ads.

Don't miss this weekend in Carbondale. Friday night's schedule includes the Draft Dodgers, and Saturday's event will feature the Bills and Kansas State. These events are not to be missed.

Bills, Kansas State

This weekend in Carbondale will be filled with exciting events. The Draft Dodgers will play the University of Illinois on Friday, and the University of Kansas State will take on the Bills on Saturday. These games are sure to be action-packed, so make sure you don't miss out on the fun!
Tonight Marks the Last Appearance Of Four SIU Seniors on Home Court

By Tom Wood

Four seniors will be playing their last Intercollegiate basketball game in the Arena for Southern tonight.

The four who will make their final appearance before the home crowd are Ralph Johnson, co-captain and center, who has played 71 varsity games for SIU; forward Clarence Smith, who will start his 39th consecutive game; and guards Roger Bechtold of Belleville and Ed Zastrow of Morton Grove.

This quartet will bow out on Coach Jack Hartman's appreciation night. The City of Carbondale will present Hartman with a few presents and a citation at halftime in appreciation of his contribution, in the form of publicity, to the community according to the proclamation drawn up by the city.

The opponent will be Southwest Missouri. The Salukis will be making a bid for their third 20-victory season since Hartman turned the points better than four seasons ago.

In a game played at Springfield last Jan. 14, the Salukis captured a 50-49 victory over the Bears, who have been ranked among the top 10 small college teams in the country for much of the season.

Southwest Missouri possesses good height and the Bears are strong in all phases of the game, according to Hartman, who said that there should be no real problem preparing the Salukis mentally because they know first-hand that Southwest Missouri is a real fine ball club.

Hartman pointed out that a 20-2 record, which the Salukis would accumulate if they win tonight, provides a lot of incentive.

The Bears also have a shot at a 20-victory season tonight. They bring a 19-3 record into the contest, including eight consecutive triumphs. They have lost to Washburn 79-77 and Central Oklahoma 92-70, in addition to Southern. They recently won the Missouri Intercollegiate Athletic Association's second straight year, accomplishing this with two perfect league campaigns, the first time any team has done so in the MIAA for the SIU victory it would give the team its best record in school history. It would have a winning percentage of .909.

This group represented the AAU-Swimming faction of the amateur level. Harting pointed out that the AAU-Swimming achievement is composed of representatives from the AAU, colleges, high schools, and all other organized groups concerned with swimming at the amateur level.

Why has swimming achieved this level of agreement as to who should be represented in administrative policy?

"Dr. Harold W. Henning, who was for eight years the Men's National Swimming Chairman, is responsible. He set up the organization so that NCAA, NAIA, AAU, intercollegiate and scholastic others would have a voice in pollicy-making." Essick said.

"Dr. Henning had the foresight to appoint college and high school leaders at every administrative level. This enabled us to solve our problems quietly and with sound judgment.

Today we have been able to agree easily on such important changes as sponsorship of meets, athletes, coaches and international trips."

Essick said the problems usually encountered in swimming are not similar to track. Swimming does not have the big money aspect of track and there are not as many open meets, according to Essick. What problems do exist are solved quite easily because of the good cooperation, he said. The reason for the high degree of cooperation which does not appear in track and gymnastics.

Essick said, "The people in those administrative posts look upon themselves as AAU or NCAA, but as swimming people. They are concerned with the development of our young swimmers and have seen the damage such blemishes as have occurred in other areas can have on the programs. It is the athlete who is hurt by these facts and our main concern is that athlete.

Essick pointed out that at the moment the only effect that the recent feud has had on swimming is that it has lost most of the people concerned pretty scared that each organization will pass down directives which will bar all swimmers from AAU competition, including swimmers.

This, Essick said, would do immeasurable damage to the structure of the AAU swimming program and obliterate any hopes of most collegiate swimmers making our next Olympic squad, because it would eliminate all meets prior to the trials as far as collegiate are concerned. There is no summer collegiate competition and the Olympic trials are at the end of the summer.

Essick is keeping his fingers crossed as are all other swimming people, hoping this situation never materializes. And he hopes that maybe other within the AAU and NCAA can learn a few lessons from cooperation and compromise are essential on all administrative levels.
