Greeks Vote
For Queen

Members of eight social fraternities on campus voted Tuesday night for queen of the 1965 Teke Ole-Impala.

Five girls were nominated by the members of the fraternities, and the winner will be announced and crowned Saturday at the annual games, which begin at 1 p.m. in McAndrew Stadium.

Marty L. Katzenmeyer, Alpha Gamma Delta, a sophomore majoring in speech, said, "I am from Memphis, Tennessee."

Katzenmeyer, a junior majoring in interior design, is Sigma Sigma Sigma's representative.

Representing Delta Zeta sorority is Jermame Clark, Kankakee, a junior majoring in interior design. She is from Chitaxon.

The new queen will be crowned by last year's queen, Ellen Brockway of Sigma Kappa.

Grand Avenue Reopening Set

Grand Avenue between Wham Education Building and Campus Drive will open in three weeks, John Lonergan, university landscape architect, said.

Grand Avenue was closed 18 months ago, with the intention of reopening it in 30 days.

Grand will be temporarily surfaced to serve as an alternate route for Mill Street which is to be closed for widening and resurfacing between Oakland and University avenues.

Harwood Avenue will be widened to a four-lane thoroughfare from near the University Center through the old tennis courts to the present traffic light at Harwood and Illinois avenues. Construction is scheduled to begin in late spring, Lonergan said.

Tickets Still Available

Noted Rodgers and Hammerstein Melodies
Fill The Air as 'The Sound of Music' Opens

Shrock Auditorium will be filled with sounds of "My Favorite Things," "Do-Re-Mi" and other Rodgers and Hammerstein favorites when "The Sound of Music" opens for a three-day run at 8 p.m. today.

The musical, under the direction of William K. Taylor, assistant professor of music, is the work of the Summer Music Theater.

Denise Cocking will play the lead role of Maria Rainer.

Other performers include Felicia Fik, singing the nuns' part; Susie Webb portraying Sister Berthe; Georgia Bollmeier and Judith Sabelton rotating in the roles of Sister Margareta and the mother abbees.

Judy Sink, as Sister Sophia; Robert Guy as Captain George von Trapp; Richard Hylland as Franz; and Marilyn Whitlow and Sarah Moore rotating in the role of Frau Schmidt.

The seven von Trapp children will be played by Linda Sparks, Alan Diedrich, Judy Layer, David Ramp, Susan Ramp, Becky Taylor and Wendy Taylor.

Others in the cast are Michael Williams as Rolf Gruber; Jeana Bray as Elsa Schrader; Jonny Gilliam as Max Detweiler; William McHughes as Herr Zeller; Albert Hayke as Baron Elberfeld; Pam Worley as Baroness Elberfeld; Susan Pearce as Frau Zeller and Betty Oden-dorf as a postulant.

Members of the nun's chorus include Felicia Fik, Carolyn Godsil, Marilyn Beilin, Joana Hogan, Betty Steller, Dorothy Graham, and Jane Hugson.

Egyptian to Run Feiffer Cartoons

The cartoons of Jules Feiffer, a satirist whose strong points are tenderness and pity, will be appearing weekly in the Daily Egyptian starting Tuesday.

Feiffer was an unknown artist a few years ago, contributing his work to the Village Voice, a Greenwich Village weekly. Today Feiffer "has made it" in the parlance of the urbanites who provide the source for his material.

His is distributed internationally by the Hall Syndicate, and his contract includes a provision that not a word of his captions can be altered, sure sign that this fellow "has made it."

He is also the author of two plays and a novel, and several collections of his cartoons have appeared in book form. He recently wrote a nostalgia piece in the October issue of Playboy magazine.

Feiffer has been called "the most talented social commentator in cartooning in our generation." His favorite targets are political morality and "the huffenement of love in the city."

Britons Discuss Research Effort

Representatives from corporations and universities from the United States and Canada will be on campus this week and Saturday to meet with Elliott Jaques and Lord Wilfrid Brown, developers of the Glacier Theory.

Jaques, head of the School of Social Sciences at Bruel University in Accra, England, and Brown, chairman of the board of Glacier Metal Co., Alperon, England, worked together 18 years studying organizational behavior and employee satisfaction.

It will be the first time they have taken part in a seminar on the subject in America.

Also participating in the seminar will be Victor Reback, managing director of the Allen Industries in Herrin, and John and McCarty of SIU's Department of Management.

Reback and McCarty were the first to carry out similar work measurement research in the United States.

Jaques has gained international acclaim for the Glacier Theory, but only recently has his theory been recognized in American business.

In his research, Jaques has attempted to find a good operational definition of work and to develop measures of work that are both arbitrary than those provided by time and motion techniques.

Reservations from 110 representatives of Canadian and American businesses and universities have been received.

Register Set

Address Deadline

Today is the last day for students who have had changes in their local, parent, or home address since the fall quarter to report the changes to the Registrar's Office.

If they do not report changes in addresses and telephone numbers, the changes will not appear in the 1965-66 student directory, according to Registrar Robert A. McGrath.
Latin Americans To Elect Officers

The Latin American Students organization will hold a general meeting at 7:30 p.m. today in the Studio Theatre in the University School, where officers for the year will be elected.

In Programming

Weekend accents the Cultural

Several cultural and educational programs are spon-
sored by the University Center Programming Board.

Several programs are sponsored by the University Center Programming Board.

Cinema Classics, at 8 p.m. Fridays in Davis Auditorium, brings to students and faculty

some of the older classics of the American screen as well as experimental com-

mercial films released from abroad.

Probe, set for 8 p.m. Fridays in Browne Auditorium, will provide scientific pro-

grams. In this series, according
to the board, an attempt

is made to cover a wide range
of topics in order to broaden
the student's knowledge of

science.

The programs often combine

movies and lectures, and

may be supplemented by
guided tours or field trips to
areas of related interest.

Fims that have been adapted

from recognized pieces of

outstanding literature are

presented at Savant at 8 p.m.

Saturdays in Davis Auditor-

ium. These often will be a

prologue by a faculty member

who will also discuss context,

imagery, technique, message

or some other aspect of the

film.

Creative Insights is held at

7 p.m. Sundays in the Gallery

Lounge of the University Cen-

ter. This series is an explo-

ration of broad creative areas

of life.

Speakers will attempt to

share their feelings and in-

sights as they convey expres-

sion, emotion, thought through

their subject matter.

Sunday Seminar, at 8:30 p.m. in Activities Room D of the University Center, deals

with one or more of the con-

cerns of students in the 20th

century.

Fee Deadline Set

Students who deferred fees for the fall term have until Tuesday to pay them, the

Registrar's Office said today.

Because of the pressure of work in the fall term, individual reminders will not be

mailed out this year as in

the past.

Students who fail to pay their fees by Tuesday will have their registration cancelled and will

be withdrawn from school.

Wrong Side of the Tracks

Plans should be reinitiated at the earliest possible moment for the construction of the over-the-illinois Central Railroad tracks and Route 51 at Jacksonville.

The present necessity for the over-the-illinois Central Railroad tracks and Route 51 at Jacksonville is a hazard and an inconvenience. This is both logical and common place for students to walk the tracks in front of another train coming from the opposite direction before it was noticed.

Also, the stormy weather which is common in this area can nearly hide an incoming train.

The Route 51 crossing is protected by a light, but there is still danger of students being hit by cars turning onto the highway.

But the chief problem is simply the inconvenience of having to cross the tracks during the passage of IC freight trains, which are often long and very, very slow. They have improved the present crosswalk between the campus and the road tracks but it could be a slight improvement over existing conditions for students on the road tracks, and it is still acceptable as more than a temporary measure.

We feel it is the University's responsibility, both toward students and the general public, to make the crossing road tracks safe for everyone to cross.

Bob Smith

We Jews Don't Agree But... Arabs Unite!

By Arthur Hoppe
San Francisco Chronicle

Israel is certainly a wooing country, and I have brought up a subject that is spoken of only in whispers, if I'm speaking, of course, of a widespread feeling against Jews.

You never saw so much anti-

Jewish talk in your life as in Israel today. Virtually every Jew you speak to in Israel is anti-some other Jew.

The Russian Jews, who get here first, look down on the German Jews.

The German Jews, of course, look down on the Polish Jews, who look down on the Moroccan Jews, who look down on the Yemeni Jews, who... And then there are the British Jews, who, like British everywhere, look down on everybody.

At the very bottom of the totem pole are the bearded members of Jerusalem's small natural kibbutz sect who are undoubtedly the most de-

sirable Jews of the world. They're so devout, they don't recognize the Jewish State of Israel because it wasn't founded by the Messianah. In fact, they won't even fight the Arabs. So all the other Israelis are mad at them for their devotions. And if that isn't anti-Semitism, what is?

At the top of the totem pole is the Polish Jew who is an Israeli.

I asked my Sabra friend, Mr. Chaim Topol, what holds his irreligious, anti-Semitic country together. Mr. Topol laughed. He's always laughing. I like to think of him as the typical Israeli. He's 30 years old, an actor of interna-

tional repute, known to be as typical Israeli, He's 30 years old, an actor of interna-

New Buildings Soon Will House Classes

The swell of enrollment this year combined with the problem of some unfinished classrooms in new buildings has caused some administrative and student headaches.

Classrooms had to be reassigned to older buildings until the new rooms are ready. Bianchi, administrative assistant to the vice president for business affairs, said that classes now meeting in older buildings would return to the planned locations as soon as the new buildings are ready, hopefully within a month.

Workmen at Lawson Hall and other buildings are hurrying to complete the work. Bianchi said, "We do our best to admit as many students as possible and we have had to utilize all space available now to accommodate the record enrollment."

Meet the Faculty

Philosopher Paul A. Schilpp Appointed Visiting Professor

Paul Arthur Schilpp, professor of philosophy at Northwestern University for 27 years, has been appointed visiting distinguished professor. Schilpp, editor, teacher, lecturer, philosopher, author and humanitarian, was born in Dillenburg, Germany. Since coming to the United States, he has published more than 20 books.

Since moving to Carbondale on Sept. 1, Schilpp has participated in a two-day conference on "Equal Justice in an Unequal World." The conference was arranged by the law school of Northwestern University.

Interpreters Theater Reception Set Today

A get-acquainted reception will be held by the Interpreters Theater at 7:30 p.m. today in the Seminar Room of the Agriculture Building.

To Reassign Reassignments

Dean Quigley Will Address Meeting

Eileen E. Quigley, dean of the School of Home Economics, will be a key speaker at the annual meeting of the Illinois Home Economics Association annual meeting in Chicago Oct. 29-30.

Dean Quigley will appear on an opening-day panel on "New Tides, New Talents," discussing the wealth of opportunities open to those with advanced degrees in economics. In announcing the program, the association said, "Dean Quigley is well qualified to bring us up-to-date picture of home economics at the graduate level."

Mrs. Quigley is the state association's representative to the Governor's Commission on the Status of Women.

Taal Volcano Still Rumbling; Search Delayed

MANILA (AP)—Volcano experts and rescue workers, still trying to determine the death toll of the eruption Tuesday, probed around the growling Taal Volcano on Thursday as though it were a great, live bomb.

Ominous rumbling delayed any systematic search through the volcanic ash that covers nearly half the 12-mile-square island, situated in Lake Taal, 40 miles south of Manila. It originally was feared that up to 2,000 persons might be buried, but the figure is now estimated to be closer to 500.

The precise toll, as in the case of Taal’s last previous eruption in 1911, may never be known. Estimates of losses in the disaster 54 years ago still range from 1,300 to 3,000.

A few constabulary patrols made their way into parts of the blackened area on Thursday and found no life. They reported that rain and sunshine since the eruption have caused the ash and lava to harden. In most areas the layer is four feet deep.

Col. Severino Bazmin, who is in charge of the area, said his main concern is for the 15,000 persons in evacuation camps. He has posted guards to stop looting and has patrols out to prevent anyone from returning immediately to the island.

Gazmin said government relief supplies, coming in the disaster 54 years ago sure. The Red Cross is listing the dead bodies of her relatives at an evacuation post near Taal Volcano, on Tagaytay Island in the Philippines.

Kashmir Chief Vows to Fight

MUZAFFARABAD, Kashmir—Fighting against Indian forces in Kashmir will continue until a plebiscite is guaranteed, said the president of Azad Kashmir.

India, he said, “needs a bit of knocking.”

President Abdul Hamid told a news conference Wednesday “We shall continue the struggle as long as we have not attained our objective—a plebiscite on accession to Pakistan.”

India, which controls three-fifths of Kashmir, opposes a plebiscite. It claims the Himalayan border state is an integral part of India.

Abdul Hamid repeated the claim that guerrilla warfare in the Indian-ruled Kashmir valley was being waged by Kashmiri Moslems who want to be governed by Moslem Pakistan instead of the Indians, largely Hindus.

India has claimed the fighters are Pakistani and Kashmiris trained and equipped by Pakistan who infiltrated into the valley.

Asked about reports in the Pakistan press quoting a revolutionary council as saying that the India-Pakistan cease-fire would not be observed, the president replied: “They are quite right, India needs a bit of knocking.”

He added, however, if India “withholds its forces, the freedom fighters would quit fighting.”

“All we want is the right of self-determination,” he said.

Illinois at Mill St.
GDP Leaders Speak Out Against Inroads by John Birch Society

WASHINGTON (AP) — Republican congressional leaders hailed the John Birch Society on Thursday, accusing the organization of trying to infiltrate their party.

The tongue-lashing started when Sen. Thurston B. Morton, R-Ind., called for the ouster of Birch influence within the party.

Morton, a former national chairman and now chairman of the Senate Campaign Committee, promised to bring the matter up when the Republican Coordinating Committee meets Dec. 13. But before the day ended there was a flurry of statements from other Republicans including Senate Majority Leader Everett M. Dirksen of Illinois, House Minority Leader Gerald R. Ford Jr. of Michigan, Sen. Jacob K. Javits of New York and Sen. Leverett Saltonstall of Massachusetts.

Dirksen and Ford told a news conference that there is no place in the party for the militantly conservative Birch followers.

"They are not a part of the Republican party, they have never been and they will not be," said Ford. He described the society as a monolithic organization that takes orders from the top, and declared: "There is no place for it in the Republican party."

In Los Angeles, John H. Rousselot, a former GOP congressman and now a John Birch Society official, said Morton was "confused and misled by the unfortunate pressures being purposefully stirred in Washington at this time to jump on the John Birch Society."

"It must be challenged and its influence defeated," said Javits. The Birch issue was further highlighted when a floor resolution denouncing it failed. From what I see, a similar resolution would succeed today."

15-Inch Rain Soaks Mobile

MOBILE, Ala. (AP) — Mobile's greatest rainfall in history—15 inches in 15 hours—fell on the city Thursday, paralyzing the area.

The Weather Bureau said the torrent was measured during a period beginning at midnight. Eight inches came in a deluge in 31/2-hour period between 5 a.m. and 8:30 a.m. Twelve inches fell between midnight and noon.

The cloudburst was a side effect of tropical storm Debbie.

Malaysian Overthrow Try Linked to CIA

KUALA LUMPUR, Malaysia (AP) — Malaysian officials revealed Friday that an Indonesian government radio broadcast had said "elements of the armed forces linked with" the U.S. Central Intelligence Agency had made an unsuccessful attempt to overthrow President Sukarno.

The Indonesian broadcast, monitored Friday morning, said Sukarno was safe and his palace in the heart of Jakarta was surrounded by guards, the Malaysian radio officials reported.

Radio Jakarta said all other communications with Jakarta, both internal and foreign, had been cut off.

The new broadcast reported a "revolutionary council" has been set up. Malaysian officials assumed this council to be pro-Sukarno since the broadcast ended the coup attempt had failed.

There was no elaboration on the alleged link with the CIA and no further details, the Malaysian officials said.

MALAYSIAN OVERTHROW TRY LINKED TO CIA

On Monday night, President Sukarno's broadcast had said "elements of the armed forces linked with the U.S. Central Intelligence Agency" had tried to overthrow him.

But the Malaysian officials said the broadcast was "confused and misled by the unfortunate pressures being purposefully stirred in Washington at this time to jump on the John Birch Society."

"It must be challenged and its influence defeated," said Javits. The Birch issue was further highlighted when a floor resolution denouncing it failed. From what I see, a similar resolution would succeed today."

Open until 8:30 monday nights
SAIGON, Viet Nam (AP) — Two U.S. Air Force planes were shot down in North Viet Nam Thursday and one of them apparently was hit by a surface-to-air missile, a U.S. military spokesman said Friday.

The three men in the two planes were presumed killed. An F105 Thunderchief with one man aboard apparently was hit by the missile — the fourth U.S. aircraft believed to have been downed by a missile in the Vietnamese war.

The other plane downed Thursday, an F4C Phantom with a two-man crew, was the victim of conventional anti-aircraft fire.

Both planes were on a bombing mission 55 miles southeast of Hanoi.

Another Thunderchief pilot said he saw what he believed to be a missile strike the plane, causing it to go out of control and burst into flames.

U.S. planes pressed the air war with strikes on both sides of the border Thursday while the ground fighting dwindled.

U.S. B-52s from Guam joined the attack again, hammering suspected Viet Cong concentration near Cambodia for the second time in four days.

On the ground, U.S. Marines tangled three times with Communist guerrillas near Da Nang, 380 miles north of Saigon, and killed five, a Marine spokesman said. He said the Marines suffered light casualties in one scrap, an attempted ambush, but beat off the bushwackers.

Marines patrolling the area also tried out a portable smoke-making machine intended to drive out, unharmed, inhabitants of Viet Cong tunnels and caves. The Marines used the machine on one tunnel but no one was inside.

In other scattered ground fighting, 39 Viet Cong were reported killed by government troops.

The heavy air strikes by U.S. planes followed by hours threats from North Viet Nam to try American pilots captured in its territory as war criminals. There was no indication from Hanoi whether conviction would mean a death penalty.
Research Seeks Cell Life Process

Harry O. Betterton, a doctoral microbiology student from De Motte, Ind., is conducting experiments to find out how a living cell converts its "food" into useful nutrients that enable it to breathe and grow.

The cancer-related project deals with yeast cells which have been bred in a solution of acetic acid to be incapable of respiring, and hence growing. But they can use the acid when sugar is added to it. Radioactive isotopes in pellets resembling dried salt are added to the acid-sugar liquid to measure the amount absorbed by the cells. He takes samples of the yeast at different times, washes them in cold water, then measures the radioactive activity which reveals how much acid-glucose has been used.

Use of radioactive isotopes as "tracers" in research of this nature is more accurate and effective than chemical analysis, Betterton said. It is possible to measure the presence of one part per million, while isotopes can reveal one part per billion.

One variety of yeast which Betterton used quickly took up 97 per cent of the acetic acid to which one per cent sugar had been added. Another took up 70 per cent in 20 hours. But he wants to know what the cells do with the acetic acid — how they use it as "food" — so in the next step he fractionates the cells to see where the tagged acetic acid-sugar had lodged.

Nature’s Species Thrive

When it comes to nature study, you name it, and you will find it at 3130 Pine Hills Field Station. 33 miles southwest of Carbondale.

Within the station itself, land forms range from lakes and wet swamps to streams and dry, rocky ridges. Within the station, itself, landforms range from lakes and wet swamps to streams and dry, rocky ridges.

At a single site, botanists count 20 floras, 15 aquatic species, and 1000 species. At 3130 Pine Hills Field Station, botanists count 20 floras, 15 aquatic species, and 1000 species.

Such trees as the Southern white pine, the cucumber magnolia, and the sweet gum of sugar maple grow within 50 miles of each other. Pine Gathering areas provide water, maple trees provide food, and the station is a resource for biological research.

When the station was opened 6 years ago, President W. Morris said, "The station is the home of all scholars, and I hope you will show us how it can be used." President W. Morris said, "The station is the home of all scholars, and I hope you will show us how it can be used."

In recent years, the station has become a center for research, increasing numbers of visiting scientists have been added to the 3130 Pine Hills Field Station facility. In recent years, the station has become a center for research, increasing numbers of visiting scientists have been added to the 3130 Pine Hills Field Station facility.

Among the projects, a continuing study started in 1960 has proved one of the most important research projects. In recent years, the station has become a center for research, increasing numbers of visiting scientists have been added to the 3130 Pine Hills Field Station facility.

A difference? There isn’t one – thanks to a new fiber called CRESLAM blended with cotton fibers. It’s a friction to wash control to wear – for a lifetime. Styling by Coleman Manufacturing Co. of Wisconsin. No other company makes it. Coleman Manufacturing Co. of Wisconsin.
Southern's cross-country team has a score to settle with the University of Kansas, who finished fourth. Southern's lone finisher in the top five was Bill Cornell, who has since graduated and is now an assistant to Coach Kermit McClain. However, the presence of sophomore Dan Shaughnessy in the lineup gives the Salukis hope for a better showing this year.

Shaughnessy ran "unofficially" in last year's race and finished the four-mile course first with the time of 19 minutes, 22.8 seconds. Running with Shaughnessy Saturday will be Al Ackman, John Trowbridge, Jack Leydig, Tom Curry and Art Solmon.

The Jayhawkers have lost two of their performers from last year's team, including their ace runner, Bill Silverberg. The Jayhawkers, however, have two of the best runners in senior John Lawson and sophomore Gene Somner. "They're going to be tough to top," said Hartong, "since they have had two more weeks of practice than we've had and our fellows aren't in the best shape yet."

The meeting is open to all African students.

DAN SHAUGHNESSY

Hole-in-One Golf, Bowling Offered

Participants in intramural hole-in-one golf will meet between 3 and 5:30 p.m., Oct. 12-14 east of the Arena near the tennis courts. No entry fee is required.

Students interested in intramural bowling should contact Henry Villani, manager of the University Center bowling lanes, before Oct. 9. Both teams and individuals may enter. No entry fee is required, but there is the usual charge for use of the lanes.

**Africans Slate Meeting**

The African Student Association will meet at 7 p.m., Friday in Room C of the University Center. The meeting is open to all African students.
Shroyer Sets Pregame Drill at Youngstown

Coach Don Shroyer has made three changes in his lineup and is planning a pregame scrimmage in preparation for Saturday's away game against Youngstown University. Shroyer is considering the unusual pregame scrimmage in hopes it will erase the early-game ineffectiveness that has marked the Salukis' first two games.

In the opener Southern fell behind State College of Iowa 14-0 before coming back to win 23-16. Last week against Louisville the Salukis were down 13-0 in the first nine minutes, and the score never changed. "We simply haven't been ready to start the game when the opening whistle has sounded," Shroyer said, "and if more severe loosening-up drills could possibly help, we're willing to give them a try."

Two of the lineup changes for Saturday will be in the defense. Al Jenkins, a 150-pound sophomore, will return to the defensive unit, having played with the offense last week. In the other switch, Gus Heath, a 175-pound sopho-

more, will replace Eddie Richards at left cornerback. The other starters in Shroyer's defensive line will be John Freret, 236, and Gene Miller, 206, at the ends, along with tackle Willie Willerson.

Bowling Teams Being Sought For Fall Intramural League

The University Center League now accepts teams for the fall quarter intramural bowling competition.

Five-man teams will bowl at 8 p.m. Monday through Thursday, at 9 a.m. Tuesday through Thursday and at 11 a.m. Saturday. Three-man teams will bowl at 9 p.m. Sunday. A $150 entry fee composed of four-member teams will compete at 6:30 p.m. Thursdays.

Team entry blanks are available at the activity office, 305 Administration Building. The league will be conducted on a round-robin basis, including a positioned point system. The first and second-place teams, All matches will consist of three games.

The four-point scoring system will be used, giving a point for each game and a point for high series.

Fourteen divisions are expected to participate.

Meet Jason and Joanna Undergrad

Jason and Joanna Undergrad are surprisingly enough just that — they're undergrads. They've been married practically three weeks — so you could still call them newly weds. Jason is a junior majoring in economics. Joanna is a second term sophomore majoring in home ec. So you can see these two have something on the ball.

They knew when they got married that they still had at least 2 years left in school. So what 2b these two sharpies do? They bought a mobile home. None of this rent paying for only 520 a year and 90 a month these two have a beautifully modern mobile home. You could say they applied a principle in economics.
