One Summer Term Attracts More Than Twelve Hundred

The enrollment of 1244 for the Summer Term of 1933 testifies to the popularity of summer school, including the Century of Progress Exposition notwithstanding. This year for the first time since the summer term was inaugurated, the enrollment in the twelve-week period was sixteen in half to satisfy the demands of a rigorous retirement program.

Although an abbreviated summer term allowed a maximum of only two credits, the full curriculum of college classes was offered.

The school year opening today may or may not be the biggest in the history of the school so far as enrollment, graduation, etc., are concerned, but whether it is or whether it is not its biggest year is not a matter of very great import; the thing that does signify is whether or not it is to be the best year in the history of the institution, because whether or not it is the best will be determined largely by the faculty and the students. In this spirit the school authorities greet you today and welcome you.

H. W. SHRYOCK, President.

Shryock, Thalman and Merwin Named in Education Book

The names of President Henry W. Shryock, with Dr. Wellington A. Thalman and Dr. Bruce W. Merwin, both of the Department of Education of this college, have been included in the first edition of J. Mckenzie Call's new book, "Leaders in Education," published by the New York Science Press in 1933. Mr. Call, formerly professor of political science in the University of Pennsylvania, and Columbia University, is author of several books of biographical character. The book, "Leaders in Education," contains strictly objective sketches of the men and women therein, giving only information that relates to the educational career.

President Shryock's name appears with his work in "Normal University" (Continued on Page Eight)

DR. MERWIN MAKES STUDY FOR NOTED ARCHEOLOGIST

Dr. Bruce Merwin of the Department of Education of this college, during the last few weeks has been making studies of Indian relics and village sites in the region of Southern Illinois. These researches have been made for Warren N. Moorehead of Phillips Academy at Andover, Massachusetts. Mr. Moorehead is one of America's greatest archaeologists, as well as author of about a dozen books and fifty magazine articles on archeology in America. It was he who was responsible for Illinois taking over California and making that region a state park.

Dr. Merwin's research has been concerned primarily with the study of different types of Indian usage, as well as the various types of ceremonial and communal objects of the Indian tribes in this territory. In addition to these, Dr. Merwin has devoted some time to the mapping of village sites and aboriginal remains.

With the beginning of the school year, courses in French and music will be opened at Carterville High School, one of the five units maintained by the S. I. T. C. for practice teaching. According to Dr. Bruce Merwin, head of the Practice department, these students will be added not merely for the benefit of the students there, but also to meet the demand of numerous students here who have taken major in those subjects. Irve Watson, who holds the B. S. in music from Millikin University, and the M. A. from the University of Illinois, will organize the department and teach his class teacher in them. Miss Watson has taught previously in the high school at Sparta.

Requests for practice teaching have been unusually heavy, Dr. Merwin indicated, in the rural schools as well as in the elementary and high schools.

The Egyptian

WM. McAndrew

Coach WM. McAndrew is entering his 29th year at Southern Illinois Teachers' College as the head coach of the football and basketball teams. Captain McAndrew took over the Athletic department in 1912 and has been producing winning teams since that date. He is the second oldest coach in the "Little Nineteen" Conference. Lancy of Charleston, ranks first. Captain McAndrew's football team won the Little Nineteen conference title once, and has ranked high in the standings on other occasions.

Football Schedule Provides Four Games For Local Field

The 1933 football season will see the Maroons in action nine times; four games being played at home. Two of these will be played under the flood lights. The Homecoming celebration has been advanced to November 1, St. Louis College will provide the opposition.

1933 Schedule

Sept. 29—Murray, Ga., 4—Cape, here.
Oct. 1—Maroons, here.
Oct. 1—McKendree, here.
Oct. 2—Normal, here.
Nov. 1—Shurtleff, here (Homecoming.)
Nov. 10—Cape, here.
Nov. 16—Charleston, there.
Nov. 26—DeKalb, there.
Dec. 14—Little Nineteen Conference.

The Maroons and White team were pitted against heavy opposition in nine games last year with the following results:

Sept. 29 Ill. Wesleyan at Bloomington
Sept. 30—Murray Ky.

Teachers at C'ville

Oct. 7—Cape Girardeau

Oct. 14—McKendree at Cape Girardeau

Oct. 15—DeKalb Teachers at DeKalb

Nov. 2—Normal at C'ville

Nov. 3—Cape T. at Cape Girardeau

Nov. 9—Charleston Teachers at Carbondale

Final standing shows the teams were well matched.

The usual Summer athletic ball at the College was broken during the last June—July term when a three club baseball league sanctioned for four weeks and thrashed many fans during the course of a twelve game schedule. The Summer championship was won by the Faculty, but victory was assured until the last game of the season when the Instructors conquer ed the Browns, 16-5. Had the Browns won, the league season would have ended in a three-way tie, all of the teams even in games won and lost. The standings at the close of four weeks of play were as follows:

Wm. Lost Pct.

Fr., 0.8 .682

Yanks, 0.4 .600

Browns, 0.3 .375

The victory of the Faculty surprised many of the fans for that team lost last year. Emil Wiggins' Yankees were the early favorites to win, but their heavy hitters broke them during the last critical week.

Paralleling the fight for team honors was a most interesting fight for the individual batting championship. Careful work was done in the preserving of the averages and the regular publication of these in the Carbondale Herald did much to stimulate interest. Russell Emery of the Browns won the batters' crown with a mark of .329. Two of his teammates, "Red" Roberts and Harry Luts tied for second place. Emery held the lead during the first two weeks, but at the end of the third week he was passed by Bruce Hamilton of the Yankees. The latter slumped in the final week and Emery regained his honors.

An interesting sidelight of the race was the fact that the last place the Browns put three of its men in the first three positions in the list of heavy hitters. On the other hand, the championship Faculty team had only one player in the ranks of the first ten leading hitters. This was Do. C. Cramer who slugged the ball for a .465 mark.

The ten leading hitters were as follows:

Emery, Browns .7 .17 .8 .9 .529

Roberts, Browns .5 .18 .4 .9 .500

Latts, Browns .8 .26 .6 .13 .500

Emery, Browns .9 .26 .5 .12 .500

W. Hamilton, Y. .7 .29 .7 .9 .450

Cramer, Faculty .8 .30 .14 .5 .433

Hale, Yankees .8 .27 .01 .13 .429

Veach, Yankees .6 .29 .5 .8 .400

Holde, Browns .7 .28 .8 .11 .335

The four players who excelled in these departments: two-base hits, Latts (Browns) and Martin (Browns); four three-base hits, Cramer (Faculty); home runs, Hale (Yankees); stolen bases, Hale (Yankees).

And there is the story of the right little freshman who wrote home that he had four "cuts" and received a first-aid outfit from his mother.

WHEN YOUR SISTER CAME HOME

From S. I. T. C. last year she told you about a Good Drug Store where you could get more for your money—THIS IS IT. Sheaffer Pens, Whitman’s Candy, Auchery’s, Evening in Paris, Elizabeth Arden Toilettries, Luncheonette Service, Salads, Sandwiches

Cline Vick Drug Stores
Cut System Enacted
Two Years Ago is Still in Effect

The cut system of this college, adopted by the Student Council in November, 1931, will continue to be in force during the coming year. Its qualifications are as follows:

1. Each student is entitled to four cuts from each class within the term, provided that the grade of his first cut be regarded as such regardless of circumstances, provided the four cuts do not exceed one-tenth of the number of vacations scheduled for the course.

2. Any absence in excess of four cuts will result in the disappearance of the credit for the course and the loss of credit in the course with the grade “Drop,” unless such absence was caused by serious illness or similar unavoidable circumstances, or in which sufficient evidence may be presented.

3. Each student of Junior or Senior rank is eligible to unlimited absences from each class within a given term, provided that the grade of his first cut be regarded as such regardless of circumstances, or in which sufficient evidence may be presented.

4. This system of regulations is automatically suspended in excess of four cuts on the day of an examination announced one week in advance, and the student will be notified by the instructor on the day immediately preceding and immediately following a regular vacation.

5. To aid in a uniform application of the above system of regulations, the Student Council is empowered to make any necessary alterations in the regulation as necessary without full council action if the appeal is made within two days following such action.

YEAR-ROUND INTRAMURAL TO BE ORGANIZED THIS SEASON

This coming college year promises to be the greatest year for intramural sports that S. I. T. C. has ever known. Through the persistent efforts of the athletic department, intramurals have been broadened to include almost every phase of sports during the last college year; several hundred students participated with very gratifying results.

The winter term saw twenty-six teams, including approximately two hundred fifty boys engaged in a round robin, basketball tournament, in which the Goddards were crowned champions of both leagues.

The boxing and wrestling tournament played every year brought together a great amount of interest revealed and no small amount of skill. The boys complete for medals and are expected to defend their titles the following year, if they are still in College.

All non-varsity men are eligible for the track and field meet. Last year's meet saw Peirce and Furnell the outstanding men. Eich won first place in more than one event. The annual Ping Pong tournament is held for girls as well as boys. It was played throughout the year and draws numerous entries.

In the indoor baseball series held upon the organization of the four classes, the matter of electing representatives to the School Council will be immediately taken. This Council, administrative body of the college, is composed of eight faculty members, appointed by the President; and eight students, a young man and a young woman from each class. The student members partially have the election and the classes electing them a chance to see that they are capable and conscientious.

An unobtrusive but noteworthy administrative factor of our college is the School Council, composed of eight faculty members, appointed by the President; and eight student members, two from each class, a young man and a young woman, selected by the classes themselves.

Dean Wham, chairman of the Council says: The School Council serves admirably as an administrative meeting point between Students and Faculty. It is a representative organization to which any student or teacher may submit any suggestion that looks to the good of the school, with the assurance that it will receive prompt and impartial consideration.

"It is especially to be noted that the Council furnishes a mechanism through which students may express themselves with regard to such fees as they may voluntarily impose upon themselves. It may further be noted that the selection of the staff of the student publications the Egyptian and the Obelisk, is in the hands of the Council, and that the Council performs a leading role in helping to maintain conditions favorable to the success of these publications."

Illustrative of special matters coming before the Council, by and with the consent and cooperation of the President and Faculty, are the following:

1. The Cut-By-Num, the Two-Hour Examination plan, the regulation of the compensation of officers of the Egyptian and Obelisk staffs, and the petition to the Board of Trustees asking that our auditorium be officially known as the Shyrock Auditorium.

The personnel of the Council for the coming year is necessarily not available at this time. The membership of the Council last year was as follows: Faculty members: Dean George D. Wham, chairman; Miss Emma Boyer; Dr. Mary Steeves; Mr. W. T. Feltis; Dean Lucy N. Woody; Dr. Richard L. Boyer; Dr. Willie G. Scott; Dr. J. W. Neckers. Student members: Seniors—Elmo Tryb, Richard Cooper (succeeded by Robert Ward during the spring term); Juniors—Virginia Shields, Rolla Windelmeyer, Sophie Mathews, Grant Mitchell, Marie Taylor; Freshmen—David Warman, Charles Wing.

During the spring term, the Spirit of '76 team composed of faculty members led the American league while the "Flying Dutchmen" were winners of the national league. Twelve teams took part in the baseball series.

OFFICE OF DEAN WHAM
KEEPED OPEN DURING SUMMER TO ASSIST GRADUATES

It will be of special interest to S. I. T. C. students, particularly to the graduates of this year's class, to know that Dean Wham's office has been kept open throughout the vacation in order that the work of the Appointments Committee might suffer no interruption or neglect. Either Dean Wham, or his secretary, Miss Towery, has attended to the correspondence and all requests in the absence of the office being regularly staffed.

To publish the percentage of placements in this time before all placements have been reported would be premature because misjudging students at the progress actually made. It will be stated, however, that the results are Preston satisfactory, especially when the adverse conditions prevailing over the country are taken into account. It will be remembered that last year's record was surprisingly good, surpassing greatly, as it did, the record of placements in the country at large; and it may be promised that this year's results, despite still greater obstacles, will be even better, as will be shown as by the assembled figures to be published in the near future.

The Appointments Committee, through its Chairman-Secretary, wishes to call attention to the cooperation of faculty members in the various departments who have spared no pains to help graduates by answering inquiries and writing recommendations.

Delta Sigma Epsilon
Virginia Scott of Murphysboro spent her vacation in Chicago visiting relatives.

Miss Harriet Means, house mother, spent her vacation at her home, Hersman, Illinois.

Miss Margaret Greiner, Murphysboro, visited relatives in Buffalo, N. Y. She will attend the University of Southern California this year.

Miss Lois Mallory and Dorothy Clark visited the school house on the way home from Kentucky and Tennessee, where they inspected points of historical interest.

The traditions of S. I. T. C., we will be told many times during the year, are those customs to which we unconsciously adhere and of which nothing is ever said.

We do not intend to disclose carefully guarded traditions in open print. You may learn of them by means of our unique grapevine telegraph system. But suppose you are a snow-fighting fan from your earliest youth up through your present age, you have depended on snow-fighting for recreation. The first snowfall of the year calls you forth unto our beautiful campus and you disturb its serenity by an indulgence of your mania. The sidewalk! Then you learn.

Paul Pry's Ponderings

I suppose that a word of introduction is in order; for, of some you people are reading this column for the first time, and some who has the reputation of uncovering bits of news of a personal sort and interpreting such items with his own manner. He is not a dyspeptic cynic, nor is he a sanctified philosopher. Pry is human and tries

The SPHINX KNOWS

We were just about to leave this morning. He came at the crack of dawn (or is it the peep) so that he could be sure to get his tuition paid and get into a pensammon class.

You freshmen ought to be glad that the Encryption Service is not bullying you into subscribing for the paper while you're standing in line. Of course you subscribe anyway. With the tuition building, but that's beside the point.

A freshman girl who wants to know the proper names for the three dewdrops will be a thought you once entertained. Paul Pry is your column in a dual sense.

I wonder—as I sit in front of a rear ing fireplace—if the turmoil of Carbondale burns, young under love of Fitzer and Stef anooff.

It is 3:34 p.m.—Is Dr. Richard L. Beyer mapping his high scholarly brow and enjoying his walking students?

In the Denver Post I read of our own Brown's recent Fitch, B-402. Out here the Loco Weed is given credit for such acts.

Alicen Bowman is under contract. He received $1000 for quitting drink. Quite often "Sear," it's good business.

This is being written in a mountain camp—24 miles distant from the mile stone peaks that are always white with snow. The quiet of the mountains is reflected in the quiet of the men who write the stories. I know now ant feels as he looks up at the sides of the crack in the sidewalk!

But so long ago I was riding with a group of burno on a freight train. We were all good friends, and the friendly, leg get into the box car—victim of the depression I found out later. I remember thinking how those burns reacted to the presence of this woman. Curious, vulgar stories, but the woman, fat or buxom was the bone. A "lady" wasボードed. I not only like burns but I have faith in them...

Among the men on that train were:

A graduate of Cornell University—Mr. M. Beyer mopping his high brow. Tuesday?

The facts.

Dr. Seacock and Maurie Taylor were both sore soles that didn't get in the line for Miss Carpenter got all it. Ray, the gym teacher's tammy, and Mrs. Brown, the midget, and Ellen Woods is happy she's glad she's back, for Peter certain has been lonely. He was named the Rookie of the Week for companionship. (And the Sphink is not so awfully fond of this)

Cold Hill really just as dumb as he looks.

The SPHINX WONDERS:

What will Cashwell has found anybody's eyes ever "rocky" to test this morning.

Do not disturb the freshmen as they do the freshman men half as much as they do themselves. It's nice to feel important.

If you old students have noticed how the alligator's looks has improved since last spring. Did Anthony Hall find the kindling on their ledges. (I think Betty Jones knows something about it)

Who'll be ping pong champion this spring.

What Lynn Calley's drag with Dr. McLane.

Where is Salt Petre (is that the way to spell Salt Pete) rave.

Captain Louis Bertoni made five A's last spring term. And then they say football players are no good.

Has Audrey Land been keeping himself until now.

Did you see the M. C.

A Registration Committee is planning things for the boys that happen. It is being planned for the girls. But now, I think that's all wrong. It's a character for the girls and Big Skip for the boys, don't you think?

Dear Freshman:

Of course if you saw "College Humor" you have an inklings of an

What Do You Think?

Every fall the mob of freshman new school offer a group of organization to the jovial organizations and social clubs on campus. This year inspired the question: "Are freshmen more of a bother to help organizations and social clubs?"

Raymond Dillon's answer:

"The freshmen are a lot better than the freshman ambulance, but that's beside the point.

Jimmie Holder's smile tells his reply as he said: "Freshmen are all address before and after them."

The first serious answer was given by Max. He said: "They're an audience for us and they give us a new spin at the organization, so they ambled.

Harry Lutz merely said dumber.

Mary Ellen Woods, the editor of the newspaper, say: "we all have a serious feeling to match Marjorie's: "Are the men the life of the org." Who knows and that's the way to see them in the organization, otherwise the org.

"We are to blame," a reader replies was a suggestive: "I think they do just what they want and the other half.

What is idea of expected of you may have missed that.

You are supposed to fill in the list of any private or especially sophomores. You supposed to have any privacy or particularly above the rest. Seriously. You must get in dates at nine o'clock. If you are not the friend of anyone. If you are not the friend of anyone, or your students should knock (and look them up.) It is a place to study and the heart place to go. Especially the corner point of study for the corner is the cafe. And the best place to put their books in the library. The corner book is quiet. You can spend long contemplating the subjects. The SPHINX is supposed to copy, to reverence, to love the (seen in the past)

It may roll your stockings, but not below the knees. No, no, if you are going outside there are some rest of a tie, and it is well to leave your blouses in your locker if you intend to remain in your "externally cheap". And k. I. Yugoslav for the junior. Same thing runs around loose over their bodies. A room of a library. During the week, there are reading rooms and more. Estamingers is a place to sleep. A pin. Cars are thine to ride in the balcony at the North side.

Best of luck.

The SPH is
BOOK REVIEW

The average college freshman on entering the university is acquainted with the most important item in college training—the library. Any number of the first year students never enter the library. Their conception is dulled largely to the absence of any information given in advance to them. To whom are these people for the most part? People who have not found out where the library is. Lately, therefore, the library has reported that certain of these intellectuals have been entering this fountain of knowledge at a rapid rate. The author has certain suggestions to make that might explain this remarkable phenomenon: (1) Absence of dates; (2) Coercion on the part of certain well-known faculty members; (3) A lack of any accompanying knowledge. (This last is the largest.)

Stephen Leacock asserts that next is a smoking room, the library is the top of the intellectual scale in educational matters. We might paraphrase this statement and say that next to the library is the railroad track. Besides all the trouble the students are causing, the library is dotted with rare occurrences.

Besides the usual students who work with the library that might interest the newcomer. The library proper, in the fiction and critical works, is indexed in the card catalogue, located to the left of the librarian's desk. All the records of valuable literature is written on the left wing of the reading room. Lastly, the new book shelf, an innovation of last year, should be of greatest interest. This section is designed to give the student body some idea of the newest volumes recently published. Last year the plan was extremely successful in introducing a number of fiction books, biography, popular and miscellaneous works. Among those biographies put on the shelf last year were the Van Wyck Brooks Life of L. L. Philip H. lives of Goethe, Heine, Karl Schurz, Rutherford B. Hayes, Social Advance, The March of American Democracy and Quince's Soul of America.

The Van Wyck Brooks book is to be held up as one of the most stimulating biographies received last year. For factual material the work is notably deficient. The date of Emerson's birth is not even given; perhaps the author intended that he was born.

Strut and Fret

Begins Work on Homecoming Play

The first meeting of Strut and Fret will be spent in adjusting the regular meetings with rehearsals for the Homecoming play, according to Miss Julia Jonah, sponsor. The plans for Homecoming will be revealed at the Homecoming meeting, and the election of officers will be held at the second meeting.

The meetings of the Dramatic club are held in Room 103 of the Chemistry building Thursday night at 7:30. The club will hold meetings every week the fall term, every other week the winter term, and every week for the first half of the spring term.

EGYPTIAN TO PUBLISH MENUS BY MES. BARNEs

From time to time, Mrs. E. D. Barnes of the Househould Arts department will publish in the Egyptian recipes and menus to assist students who are doing light housekeeping. Last year several articles of that nature were published each month, and some paragraph as well as students found them unusually helpful.

Mrs. Barnes prepared most of the menus herself, but at the last of the 1932 college year, a class in menu planning a published a series of menus worked out in detail as to cost and food value. Some of these menus were presented to the United Chamber of Carbondale to be used for distribution among the poor.

LOST AND FOUND SERVICE CONTINUES IN THE EGYPTIAN

The inability of many students to retain their property has been the basis for the establishment of one column in the Egyptian, the lost and found column. In this section, there is published a list of articles lost and found during the week, brief description of them and the location in which they were lost or found. All students having lost an article are requested to report it at the Egyptian office, and those having found an article to return it to the President's office.

Students may aid this department by reporting immediately to these offices articles lost or found. A reward is often very helpful in retaining a valuable object.

Miss Frances Draper, an alumni student of S. I. T. C. of the class of 1930, was married on August 2 to Mr. Joe La Flamme of La Salle, Ill. They will live in LaSalle.

A grave digger dug a grave for a man named Button and when he sent his bill to the widow it read: "One Button Hole—$5.00"

Miss Bertha Chrisman and Katharine Cavella of Pinckneyville attended the University of Iowa this summer.

Margaret Hueckel of Belleville spent the summer at Chautauqua.

THE WAILING WALL

The "Wailing Wall" offers the student an opportunity to voice through print his opinions of various things concerning college. The Egyptian carries this column in its pages, but it should be understood by everyone that the Egyptian itself remains in policy entirely independent of the letters which it publishes. These ideas are of the students, not of the newspaper staff. All letters must be signed when they are sent to the Egyptian office, although the signature will be withheld upon special request.

AESTAS

When summer comes around each year, an energetic man is rare. For when the day is warm and clear, and sunny rays shine through the air, we step and rest. It doesn't pay to work and slave and white and fret. We know there'll be another day when debts to Duty can be met. Each day we merely sit and think of planning that and things to be or sip a cool refreshing drink and ponder o'er eternity. We contemplate eternity. While drowsily we taste our drink and see asleep we will be And think and dream and dream and think. We dream of lovely friends we've met. We dream of where we'll be some day. In years to come. We never fret about mere toil. Forget to pay tribute to Duty. Take the air. One of a kind. It is clear That men who labor hard are rare. When summer comes around each year.

—Richard G. Harrison.

When summer comes around each year, an energetic man is rare. For when the day is warm and clear, and sunny rays shine through the air, we step and rest. It doesn't pay to work and slave and white and fret. We know there'll be another day when debts to Duty can be met. Each day we merely sit and think of planning that and things to be or sip a cool refreshing drink and ponder o'er eternity. We contemplate eternity. While drowsily we taste our drink and see asleep we will be And think and dream and dream and think. We dream of lovely friends we've met. We dream of where we'll be some day. In years to come. We never fret about mere toil. Forget to pay tribute to Duty. Take the air. One of a kind. It is clear That men who labor hard are rare. When summer comes around each year.

—Richard G. Harrison.

Student of the University of California who have a grade of "A" for a course at the end of the first four weeks. No one to have a grade of "A" for the course is carried through by the University. All in all the washwoman is the greatest woman in the world; she travels most; she crosses the line again and again, and she goes from pale to pale.

Believe it or not, this happened at the University of Texas. A car stopped a street car, tied her shoe-string on the stop and nonsensically walked back to the chapter house. Hell Week!

A course in love-making has been added to the curriculum of Middlebury College, Vermont. Many faculty members as well as first, second, and third year students enrolled for the course, which includes demonstrations by the seniors.

Junior at the University of Minnesota drew lots to see which one should carry the skeleton from one building to another when such a change was necessary.

Professor (at the close of examination): Pass your paper to the left and place a piece of coton paper between each one, so I can grade them all at once.
Christian Societies Give Welcome Party
The First Week

A Freshmen Party given to welcome new students will be the first joint activity of the local young people's associations, the Y. M. C. A. and the Y. W. C. A. All students will be invited. Although the exact date was not set when the Egyptian went to press, it will undoubtedly be some time this week.

During the morning and afternoon of the registration days, the members of the Y. W. C. A. are serving iced tea and refreshments to all women students of the college. New girls are invited to come and get acquainted with the organization.

The book exchange sponsored by the Y. W. C. A. has been active during the summer session and will continue its activities during the Fall term. This exchange makes it possible for students to buy and sell second-hand books through a convenient and efficient medium.

Both the Y. M. C. A. and the Y. W. C. A. are planning many interesting programs to be given at their meetings during the fall and winter.

FRENCH CLUB TO MEET
UNDER MAURIE TAYLOR

Regular meetings of La Reunion Gallique will begin about a month after school opens. A series of programs which are to have both instructive and entertaining features have been planned. The purpose of the club is to provide opportunities for conversation in French and appreciation of French literature. All students who are enrolled in a French course now or have studied French in the past are invited to attend the meetings.

Maurie Taylor, president of the club, and Dr. Vera L. Peaceock, faculty sponsor, have spent the summer traveling in France.

W.A.A. Organizes for Women Interested in Class Athletics

For the girls who are interested in athletics the Women's Athletic Association promises much. Mrs. M. E. Starkey, Miss Frances Ethridge and Miss Eileen Carpenter are the sponsors. Briefly stated, the object of this association is to promote the health interests of the girls of S. I. T. C. by means of:

1. Encouragement of health habits.
2. Promotion of interest and participation in all forms of physical activities which make for health and sportsmanship.

The association participates in the annual Hockey, Baseball, Basketball and Volleyball events. The girls also take prizes to points of interest. The requirements for membership are: Attendance at S. I. T. C. for one term, with an average of an "C" and payment of dues of 26 cents a term.

The climax of the W. A. A. program occurs in the Spring when the W. A. A. girls are hostess at the Annual Play Day of Southern Illinois.

The officers for this year include:

President, Margaret Ann Cummings
Vice-President, Maurie Taylor
Treasurer, Betty Jones.

TAYLOR

Maurie Taylor, president of the Y. W. C. A., was not the be of the registration activities.

Church in Dupo performing the ceremony. Mrs. Starkey is an alumna of the Delta Sigma Epsilon and during the past two years has been treasurer of Dupo. Mr. Starkey graduated from the four year course here and is at present employed on the faculty of the University of Western Canada. The young couple returned to her city where they are making their home.

Miss Dorothy Farr, a former student of S. I. T. C., and Mr. Leland Lingle of the college faculty, were married at the home of the bride's parents, Professor and Mrs. W. A. Farr of Carbondale, on July 21. Mr. Lingle taught in the English department of Centralia Township High School during the past three years. Dr. Lingle is a member of the Athletic department of S. I. T. C. They will live in Carbondale.

Miss Pauline Sorgen of Carbondale and Dr. Richard L. Beyer of Erie, Pennsylvania, were married at the home of the bride's parents, Mrs. Paul Beyer and Mr. Beyer, on July 21. Mrs. Beyer will receive her degree from S. I. T. C. with the class of 1934. Dr. Beyer has been a member of the S. I. T. C. faculty for the past four years, teaching Dr. Holt's place as head of the History department. The couple are making their home in this city.

The marriage of Miss Mary Nates Faith of Harrisburg to Mr. William Nolen of the S. I. T. C. faculty was solemnized on July 29 at the home of the bride's parents, Mr. and Mrs. L. D. Fols of Harrisburg. Mrs. Nolen is in her junior year at S. I. T. C. Mr. Nolen has taught in the Economics department of the college for three years. The couple are living in Carbondale.

Miss Helen Ellis of Carbondale, a former student, was married on June 26 to Mr. Charles Henry Now of Chicago. The couple will reside in Boston, Massachusetts.

Miss Mary Ann Fowley of Carbondale and Mr. Emil Wiggins of Eldorado, were married at the former's home on June 30. Mr. Wiggins attended school during the past year.

Committee Offers Rules to Govern Social Functions

For the past several years the social functions of S. I. T. C. have been governed by rules drawn up by the Social Committee under the chairmanship of Miss Mary Entsminger, working with Dr. George Wham, Mr. R. A. Scott, Mr. William McAndrew, Mildred Frances D. L. Etheridge, Miss Mary Crawford, Miss Esther Power, and Dean Lucy K. Woody.

These social rules, which will be enforced again this year, are the following:

1. Social functions include parties, banquets, dances, and such other gatherings as are not directly educational in nature and purpose.

2. The number of social functions given by any one organization may not exceed two in any one term.

3. Attendance at a social function is limited to students enrolled at the time the function is held; to alumni of the organization sponsoring the function; and to such guests as may be officially invited to attend.

4. All social functions must be chaperoned. The date and time of the function, list of chaperons, admission fee if any, as well as the general type of the function must be approved by the Social Committee a reasonable time before the event.

5. No function, social or otherwise, lasting later than 9:00 additional may be held on an evening preceding a school day, unless by special permission of the Social Committee.

6. Any organization violating any of the above rules will be prohibited from holding any social function during such time as the Social Committee may prescribe.

REGISTRATION HELD TWO DAYS, CLASSES ON WEDNESDAY

(Continued from Page 1.)

The Old Science Building, on the west side of the first floor,

Unattached students see Dr. W. A. Thalman whose office is on the second floor of the Main Building, directly opposite Mr. Wham's office.

Students doing graduate work go to Dr. W. A. Thalman whose office is on the first floor of the New Science Building.

Class Cards.

When the adviser has assigned the student to his particular schedule of studies, the student receives his class cards at the desk at the western end of the first floor, Main Building. This concludes registration.

Schedules of classes will be placed in the various buildings, probably at the entrances to the offices of the department heads. These schedules will be posted in the Old Science Building and the Main Building.

FRENCH AND MUSIC UNDER NEW CRITIC AT CARTERVILLE

(Continued from Page One.)

Though only forty can be placed in the six rural schools, there have been an hundred and twenty applicants since the fall term generally brings the highest application of the school year, the record this year is totally unprecedented.

For years, S. I. T. C. has conducted practice teaching in the University High School, the Allyn Training School, the Brush School, and the six rural schools, but the Carterville school was not added until last winter. Pleasant Grove, one of the rural schools that was not managed by S. I. T. C. last year, will be included in the group again this year.

give the student the necessary information concerning the location of classrooms and the identity of instructors.

SRHOCK, THALMAN AND MERWIN, NAMED IN EDUCATION BOOK

(Continued from Page One.)

Administration," with emphasis on the fact that he was head of the department of English of this college (known then as R. I. N. U.) from 1904 to 1906. At this time he became vice-president of the college and in 1913 he was appointed president. Dr. Bruce W. Merwin is given credit in this recent book for his work in the training of student teachers and in the development of teachers' college curricula. He came to S. I. N. U. in 1927, before which he was assistant instructor of education in Kansas. Dr. Merwin's place in Cartell's earlier book, "American Men of Science," was accorded because of his researches at the time he was assistant curator of the University Museum at Philadelphia.

Dr. Wellington A. Thalman is included in "Leaders of Education" with the information that he is associate professor of education at this college. He is also given recognition for his studies on after-images.
