S. I. N. U. Training School was Built To Serve 297 Students; Now Faced With Necessity of Serving 1859 Students

The S. I. N. U. Training School which was opened in 1950 to serve a student body of 297 students is now faced with an enrollment of over 1859 students. The school is currently operated by the State of Illinois and is located on the campus of Northern Illinois University. The school was established to provide vocational training and education for those who wish to enter the fields of nursing and related health services.

In recent years, the school has experienced a significant increase in enrollment, with over 1859 students currently enrolled. This has led to a number of challenges, including a need for additional facilities and resources to accommodate the growing student body.

Friday, September 16, 1954

FACED WITH an overwhelming number of students, the S. I. N. U. Training School is now faced with a need to double its capacity. The school is currently equipped to serve 297 students, but the current enrollment is over 1859.

In order to meet this challenge, the school is considering a number of options, including the construction of new facilities and the expansion of existing ones. The goal is to provide the necessary resources to ensure that all students have access to the high-quality education and training they need to succeed in their chosen fields.

The growth of the school reflects the increasing demand for skilled workers in the fields of nursing and health services. As the population grows and people live longer, the need for qualified nurses and healthcare professionals continues to rise.

In conclusion, the S. I. N. U. Training School is facing a significant challenge as it navigates its growth and expands its capacity to meet the needs of an ever-increasing student body. The school's leaders are working diligently to ensure that all students have the opportunity to receive the education and training they need to succeed.
LITTLE THEATRE Open House is Monday evening at 7:30. You and your friends are invited to come meet the faculty and students of the Department of Theatre. The faculty will have a number of different activities planned for the evening, including a performance of a short play and a discussion of the department's future plans. A light refreshment will be served after the performance. All are welcome to attend and join in the fun.

DON'T MISS THE LAST NIGHT of the New Faculty at the One Act Play. The play is called "The Mousetrap" and it is a favorite of the students. The cast includes many of the new faculty members and it promises to be a great evening of theater. Don't miss it!
Charlie McCarthy Says: "Let 'er Go!"

Charlie McCarthy, in spite of college degree andsandwich-board sign, will probably attract the attention of some of the more observant shoppers in the college store. His sign, which reads "Let 'er Go!" has been noted by inquisitive students in the past and it is likely that he will continue to attract their attention.

BARITZ URGES STUDENT BODY TO SUPPORT DEBATING

After a somewhat successful year, debating on the campus has been praised for its contribution to the development of public speaking. The debate team has been active in both local and national tournaments, and has established a reputation for excellence.

WAA ORGANIZES COUNCIL AND SPORTS BOARD

Tennis Courts and Field Space Are Inadequate

The Women's Athletic Association was faced with a new organization this year, having been both an executive council and a service bureau. The council will consist of the president, vice-president, secretary, treasurer, assessor, two students representing each of the College Women's, and the ex-officio members-the directors of the Department of Physical Education for Women and the Athletic Director.

The sports board will be composed of the presidents and five of the different sports are appointed by the department. As the W. A. P. president, Martha Ferris, will be considering the service bureau for council and council members.

The extra-curricular activities of the students has soaring to new heights and the section women's activities are being overshadowed by handicapped by lack of facilities, lack of space, lack of teams, and lack of organization. However, the Athletic Association's organizational activities will be noise ones and those activities will be limited only by the other two areas.

All women who are interested in any branches of the feminine side of the collegiate life are invited to Delta Xi and the bulletin boards for further information.

Athletes Put In Hard Summer

Saturdays in front of the Pan-American Post Office, you'll see a picture of a woman's arm, hand, and trunk, and a note that says, "Please keep her arm up." She will be there from 9-11 a.m. and 1-3 p.m. every Saturday.

The women's basketball team has been working hard this summer, practicing at least four times per week. At the end of the summer, they will be ready to go.

SCHNITZEL'S CAFE

Schnitzel's Cafe is now open for business. The cafe is located at 115 W. Illinois St. It is open from 7 a.m. to 10 p.m. every day.

IT'S LIKE THIS

When "Cape" plays the Maroons here Sept. 30, of course you know the ball has to stop some place when the game is over. Well if you think you can out-guess everybody else, come right down here and put your name on a chart of the playing field. With each life you spend for Scheaffer ink, sharpeners, pens, pencils, etc., you get one guess and the best guesser gets a $13.00 Pen and Pencil Set. We want you to know Scheaffer quality and we want you to know that he's the "why".

REGULAR NEWS

AUGUSTINA MAJOR

The University of Illinois is the only public institution of higher learning in the United States that has been granted a charter by the state of Illinois. The university was founded in 1867 by a group of citizens who believed in the value of higher education for the common man.

The university is divided into four colleges: Arts, Sciences, Engineering, and Commerce. The college of arts offers a wide range of courses in the humanities, social sciences, and fine arts. The college of sciences offers programs in the natural sciences, mathematics, and computer science. The college of engineering offers programs in civil, mechanical, electrical, and computer engineering. The college of commerce offers programs in business administration, economics, and finance.

The university has a strong commitment to research and innovation. It is home to several centers of excellence, including the Institute for Research on International Politics, the Institute for Research on Culture and Society, and the Institute for Research on the Environment.

The university is also a leader in the field of health care. It has several affiliated hospitals, including the University of Illinois Hospital and Clinics, and is home to the University of Illinois College of Medicine, which is one of the top medical schools in the nation.

The university is committed to providing a diverse and inclusive environment for students, faculty, and staff. It has a strong commitment to diversity and inclusion and is a leader in the field of multicultural education. It is a member of the Association of American Universities (AAU) and the Association of Public and Land-Grant Universities (APLU).

The university has a strong commitment to sustainability. It is a leader in the field of clean energy and is home to the Institute for Sustainability, which is dedicated to promoting sustainable practices on campus and in the community.

The university is located in the heart of the Midwestern United States, in the city of Champaign. It is a vibrant and diverse community that is home to a wide range of cultural and entertainment options. The university is also located near several major cities, including Chicago and St. Louis.

The university has a strong commitment to community engagement and is involved in many partnerships and collaborations with local organizations and businesses. It is a leader in the field of community engagement and is committed to making a positive difference in the community.

The university has a strong commitment to excellence in teaching and learning. It has a strong reputation for providing a high-quality education and is home to several highly ranked programs and departments.

The university has a strong commitment to excellence in research and innovation. It has a strong reputation for producing cutting-edge research and is home to several highly ranked research centers and institutes.

The university has a strong commitment to excellence in student success. It has a strong reputation for providing a high-quality education and is home to several highly ranked programs and departments.

The university has a strong commitment to excellence in student success. It has a strong reputation for providing a high-quality education and is home to several highly ranked programs and departments.
