Enrollment Sets Record at 2162

Fifteen New Teachers Assume Positions On Southern Faculty; Ten in University High

With the coming of classes at the Southern Illinois University last week, 2162 new faces were added to the college student body. This is an increase of 4 per cent over the enrollment of last year. The figures were announced by Dr. W. T. Halsey, president of the university.

Dr. Halsey explained that the figures were not as accurate as those made last year, when the enrollment was 2140. However, he said that the figures were still a good indication of the growth of the university.

The figures were announced at a meeting of the Southern Illinois University Board of Trustees, which met last week.

The new students include 15 new teachers, ten of whom are in the University High School. The other five are in various departments of the university.

The new teachers are:

- Dr. Robert M. Jones, associate professor of English
- Dr. John A. Johnson, associate professor of History
- Dr. William L. Martin, associate professor of Chemistry
- Dr. Charles E. Smith, associate professor of Physics
- Dr. William W. Stover, associate professor of Biology

The new students are:

- Miss Margaret A. Clark, Freshman, Business Administration
- Miss Elizabeth A. Davis, Freshman, Home Economics
- Miss Margaret E. Dougherty, Freshman, English

- Miss Margaret A. Green, Freshman, Business Administration

THE MAJORITY HAS DECIDED

The majority has decided it is necessary to draft the mass man in the nation to prepare for the challenge of America against possible attack.

First of all it is the right of the people to demand the necessity to support this decision.

As we know, any decision is supported by the majority.

**SINU HAS BEEN SCENE OF GREAT CHANGES IN FEW YEARS**

by OLIVE WALKER

During the past few years, Sinu has become a center for new minds and new ideas. In the past, it was primarily a place for old minds, but now it is becoming a place for new ones.

The changes have been gradual, but they have been significant. The school has become more accepting of new ideas and is encouraging students to think independently.

The faculty has also been affected by these changes. Many of the new faculty members are bringing new ideas and perspectives to the school.

These changes have been welcomed by the students. They feel that the school is becoming more relevant and meaningful to them.
