- Miss Ida M. Gilbert reported from Carbondale, wishing to partake one term in the Academy.

- William B. Baker, class of '84, says in a letter that he is doing well in the mercantile business at Vincennes, Ind.

- Miss Ida Baker has taught the last year at Anna, Ill., in her old place, and this alone is enough to prove her an efficient teacher.

- Miss Mary C. Cowsar, class of '81, taught the last winter in Joliet, Ill., and faithfully sustained the reputation she has as a teacher.

- A letter from Miss Mary E. West writes that she has been teaching the young idea how to shoot, at Carbondale, the past year. She expects to return to the University in the near future.

- A letter reaches us from Miss Bertha Lawrence, of the class of '87, who has been teaching at St. Joseph, Ill., having charge of the primary department. She enjoys the work and has had good success.

- A letter reaches us from Joseph V. Capel, who is now studying short-hand and typing at the State-Depository Short-Hand Institute, St. Louis, Mo. He has been taught since he attended the University.

- A letter from Charles W. Trow, class of '84, reports himself hard at work in a special mathematical course, in the Pea Phoenix University, Greenscote, Ind. Although in another state, he does not forget his home town.

- We have a letter from Thomas H. Ragsdale, of Chicago, Ill., to all students, he wants to return to the Normal as soon as possible. He is interested in the reading circle course.

- A letter from Robert E. Tyzack, of Iowa City, Iowa, states that he has been an assistant in the schools at Boodyl, 111. He thinks the University has been a wonderful thing to him, in more ways than one. He seems to enjoy his present work.

- Norman A. Jay, of Steelville, Ill., says he has been teaching this winter and enjoys the teachers' work very much. Last summer he taught at Steelville, 111. He hopes to return to the Normal as soon as possible. He is interested in the reading course.

- A letter from Charles R. Barton, a student in '86 and '87, has written us that he has been teaching the young idea how to shoot, at Carbondale, the past year. He thinks normal teaching an excellent thing and says that normal teachers are in demand in that part of Colorado. He hopes to return and complete the course in the near future.

- C. H. Rigby, class of '87, writes that he is getting along nicely in his law course in the Michigan University, Ann Arbor, Michigan. He also says, rather modestly, that he has been chosen to deliver the oration for the Western Society, in a contest between the two law societies of that school, the Jeffersonian and Western. He sends best wishes for the success of the S. T. N. U.

- A letter comes from J. M. Friesen, who was a student in '79. Since leaving this institution he has graduated with honors at Washington University, St. Louis, and is now taking a law course in a course of philosophy, pedagogy, and psychology at the John Hopkins University. Back from Missouri, Colo., he is able to visit us soon and meet the faculty and some of his old friends.

- We have a letter from Robert E. Tyzack, of Iowa City, Iowa, states that he has been an assistant in the schools at Boodyl, 111. He thinks the University has been a wonderful thing to him, in more ways than one. He seems to enjoy his present work.

- Miss Abbie E. Bressel, '84, taught school the next year after her graduation but, although a successful teacher, she finds the atmosphere of her home, in Lima, Ill., more congenial than that of the schoolroom.

- Miss Arista Burton, '77, has completed her second year as principal teacher of the Mt. Vernon High School, where she sustained her excellent reputation as one of the best teachers in Southern Illinois.

- John Mason, '82, was recently appointed assistant editor of the Normal gazette, where he is impressing his buttons and rapidly growing rich. Aside from the work of his present position, his great love, Arthur has struck it rich by going west.

- Henry A. Kimmel, '80, has given up his office to the editor of the Normal gazette, under whose able leadership, the gazette will be a credit to the Southern Illinois Normal University, a credit to the students enrolled, and a credit to the part of the State represented by them.

- Miss Maggie Kennedy writes from San Antonio, Texas. She has charge of the eighth grade in the public schools, which employ more than fifty teachers. She is interested in botanical work.

- Miss Mary W. East writes us that she has been teaching the young idea how to shoot, at Carbondale, the past year. She expects to return to the Normal in the near future.

- A letter reaches us from Miss Bertha Lawrence, of the class of '87, who has been teaching at St. Joseph, Ill., having charge of the primary department. She enjoys the work and has had good success.

- A letter reaches us from Joseph V. Capel, who is now studying short-hand and typing at the State-Depository Short-Hand Institute, St. Louis, Mo. He has been teaching since he attended the University.

Back from Missouri, Colo., he is able to visit us soon and meet the faculty and some of his old friends.
BURRING OF THE NORMAL UNIVERSITY AT CARBONDALE.

P. W. ARNOLD, Class '68.

On that quiet little village dawned the blessed morning of the 6th of January, 1875. And a sense of peace and safety with the holy One, was instilled into the hearts of all. Some of the smiling fields sweetly resounded, tremulous on the morning air, as the news of the event spread to the great people to the several houses of prayer.

Labor's busy hands were folded, and no voice was heard except through the organ's pipes, as they played their dirge in their chapels.

While they prayed the Great Good God for the welfare of his people, others were busily working at their different arts and in their peaceful homes.

Grateful for the precious lessons that they studied, they offered up their hearts and minds to the glorify of God, and the love and mercy in the Gospel that they heard.

Thankful for the comforts and abundance that they possessed; for their happy homes and freedom by the toilsome farmers that assailed.

Best of all, they hold that noble front of purity to the rest.

Source of knowledge, strength and wisdom, for the character of the people of the State was the news of the whole country and the glory of the town.

Now the day was bright, and the scene was not without its solemnity.

Ubt God her praise and gratitude for peace and happiness.

And as the sun rose, the Language was waiting with all readiness to rise.

Every breath of the people was in harmony with the scene of prayer.

For the generous heavens above them sent down the blessings of the Almighty.

And the grateful heart responded with thanksgiving and praise.

Thus with pleasure and abundance did the feeling days glide on until Autumn's glorious glories faded and her sweet breath of the winter's breeze.

To end each day and evening passed an hour in the recitation of the Lord's prayer.

Of devoted students paying homage to the vast science and learning.

Now the students went out and the morning bright and clear shone down on the village full of happiness and cheer.

In the people's hearts was noticed, and no voice was heard except through the organ's pipes, as they played their dirge in their chapels.

Told them of the die and danger and the danger of death.

Kinsmen, students, faithful teachers, in each door, familiar place.

Following the light of the stars, as they went on their way.

To rise and go on.

Some that did not have that bright, glad morning, as they sought the sun's rays of the morning's sun.

But that day, and day out they would arise, they would rise and go on.

As they rose up from the dear father's arms.

That their classmates would assemble in these places averted.

While some of young students were waiting Hope's bright smiles and joy.

Young and true.

On that little village dawned the blessed morning of the 6th of January, 1875.

And a sense of peace and safety with the holy One, was instilled into the hearts of all. Some of the smiling fields sweetly resounded, tremulous on the morning air, as the news of the event spread to the great people to the several houses of prayer.

In the midst of all this challenging work, whether in teaching or adopting new ideas, the profession of teaching can not expect to stand untouched. The act of the critic has hopped to its feet in a very natural way, and adopting new ideas, the profession of teaching can not expect to stand untouched.

As far as can be placed in circumstance where only correct forms are heard, the argument loses its force, for it is not the forms of words that are in question, but their meaning. Normal Gazette.

An Inter-Society Contest! — BETWEEN THE ZETETIC AND SORATIC SOCIETIES

Of the Southern Illinois Normal University, will take place on

THURSDAY EVENING, APRIL 12, IN THE NORMAL HALL.

PROGRAM.

Instrumental Solo—"Greenwood"—Wallace McGhee, Carbondale.

Soratic Solo—"A New Erin Reel"—E. A. Whitehead, Jonesboro.

Twelve--"Ring Toss"—L. S. Burford, Carbondale.

MRS. TAIT'S—FOR BARBER'S IN.

apricot food, apple. Write us a card.
We hope to stay.
Take the Normal Gazette.
For ice cream go to Sam Hewitt's.
Seasonable styles at the New York Store.
Our walk-up line of shoes, "86 stylists."
The average length of time in the New York Store.
Dart and fige 10 cents per pound at Evans. Miss F. D. Gage taught in Dakota last year.
Of course you won't take the contest on the 12th.
Fresh bread, pies and cakes call on E. R. Metz.
Correspondence, especially of old students, sold.
This is our first. Give us a word of encouragement.
The study hall is 1,009 feet—will seat 650 students.
Now it was the banner row last term for attendance.
Rising has opened and so has Hewitt's ice cream parlor.
Go to the Normal for students to S. W. Dusen- way's New York Store.
The enrolment last term was 649. Total attended to this term, 596.
Charles Jerome is having good success in business at Ashbury, Kansas.
It is the usual percentage of men, 110 feet wide, and the tower is 60 feet high.
Friday evening after society treat the ladies to refreshments.
Some new apparatus has lately been received for the Philosophical Department.
The New York Store, though the short vacation between the 40th and 45th terms at Nashville, Ill.
The oyster season is over, but summer refreshments can be had at Sam Hewitt's.
Prof. French has arranged for a larger change in his department than ever before.
Miss Duns spent Saturday and her last Sunday in the city of Nashville. She will return.
Cass be organized in Constitutions of U. S. and Pedagogy, which reside at S. W. Dusen-way's New York Store.
If you are not a member of a society, join one, and join it not for the fun, but for a work.
The University has purchased two calligraph type-writers, No. 6, and is giving instruction in the use of them.
New store, new goods, new clocks, with all the latest styles in the millinery line at Mrs. Gillett's.
No dress goods, shoes, or cotton ribbons at Mrs. Gillett's.
John Marten, class of '88, has been appointed Assistant State Ecologist, with headquarters at Champaign.
Evans' cream bread—comes in town.
The Dusen-way store is the common class of the school. It started this term with an enrollment of eighty members.
The store opened at the first day there were 200 students enrolled.
Up to time of going to press there are enrolled 461 students.
Every day of these boys clothing and furnishing goods at E. R. West's Great Chilling Emporium, east side of square.
Miss Dusen-way did not return to the University this term, but is employed in "teaching the young high like to shod."
Miss Zita Staudinger closed a successful term of school at Douglass, Ill., on the 38th of June, and has enrolled 65 students according to term.
Miss Zita Staudinger will be remembered by the students of last spring term. He teaching is a very successful term.
Miss Rose Breding closed a successful term of school at Douglass, Ill., on the 38th of June, and has enrolled 65 students according to term.
Choice of confectionery come to Sam Hewitt's.

The second year letter class will take an advan-
tage step immediately. The books have been ordered and the class expect to begin really teaching this month.
Read the advertisements in the Normal-Gazette.
They represent lines that are popular with students, and the students in the study room should patronize them.
We notice two well-written articles on drawing, in the January and March numbers of the Walhalla County School Journal, written by E. N. Foster, of Boston, Mass.
Ladies and Gentleman shop at the New York Store.
Miss Minnie Pratt has been spending the winter in Canada. She is expected to return home soon, and will be found at the millinery store, where she will be pleased to see all her friends.
Dr. W. R. Finger, of Towson Hill, dropped in to see the University April 4th. He has lately graduated at Chicago Medical College. We are glad to see where he will hang out his things.
Normal girls, and those of the surrounding county, are encouraged to continue buying their spring hats at Miss Gilletts, as she has had the Normal trade for the past two years.

The weather is warm—Evelyn's hot coca.
Mr. Ed. Hodge, a student of last year, recently graduated from the Jacksonville State Teachers' College, is with the Bottsone College Monday evening, April 6th, and it just seemed like old times.

The oyster season is over, but summer refreshments can be had at Sam Hewitt's.

The oyster season is over, but summer refreshments can be had at Sam Hewitt's.
Miss Minnie Pratt has been spending the winter in Canada. She is expected to return home soon, and will be found at the millinery store, where she will be pleased to see all her friends.

For each collectionery worker, "Creamery butter The Botany The Miss Dora Call you Minnie Talt. at the New York Store.
The oyster season is over, but summer refreshments can be had at Sam Hewitt's.
The Society.

Robert E. Tynier, a Zetetic of two years, is with us again. Mr. Ty- ni er has rendered the society efficient service in helping to secure credit to look to see him go to work with his characteristic energy.

We noticed among the students who were present at the last meeting, the valiant work of H. A. Gilkinson. Mr. Gilkinson is a Zetetic of several years' standing, and we hope he is here to take hold of the work with a will.

On the whole, the character of work done in the society during the last two terms exists that of any year. When we come to an oration and a debate nearly every Friday night, it was impossible not to feel that the society might be said with regard to parliamentary practice.

Last Friday evening an excellent program was rendered, after which, by request, Mrs. Jungst gave the society a recitation—"Little Mabel with her face against the paste," which was highly appreciated. Also, Miss Maud Miller favored us with an instrument bun who, at one time or another, has been a student. The first part of the program is the part of the program to be rendered by Zetetic Oration, Lila Dannerberger; Recitation, Miss Jungst; Music, Mamie Bridges; Vocal Solo, Mabel Peters; Poetical Medley, E. C. Naylor; Solo, Miss Jungst; and P. P. Cochran. Misses Youngblood, Abel and Robinson are not to be excelled in the field of instrumental music. Misses Heman, Sigel, Hamb and Alexander have capricious renderings. However, the young ladies have devoted much time and very profitably by the Zetetic Oratorio. From April 12 will be copied in the notes of the journal. Misses F. A. and P. Cochran have been prominent in the work of the society as a whole. The young men have, at the same time, neglected their studies, but the work of the society is properly in hand.

The Society can now show one of the "finest whistles of the kind in the State. At the dedication of the new building the President presented to a Mr. Evans, color and eighty opera chairs. To this the society added thirty more. During the winter the society has secured success in turn and to go with it, ordered bills of Lincoln, Grant, Webster, and Bryant, representatives men in their spheres. They have, with the handsome faces of the hour, enables us, with delightful pride, to hold up the character of our elegant organ.

We only hope that the character of literary work done by its members will correspond with the surroundings.

If you are not a member of either society, join the Zetetes.

Robert E. Tynier has been appointed Treasurer of the society for this term. The society is beginning to show a sign of organization for the undergraduates exhibit in June.

Fannie Campbell, a Zetetic of last year, is back in Chicago. She is going to Mr. Asbury Stanton, in Cincinnati.

The Zetetics were well represented at Arbor Day, both at the dinner table, and in the execution of their duties.

The host appointed to make out the program for this term are Helen Meyer, Leta Algus, and O. M. Tait. We hope Minnie Tait, a Zetetic of last year, is with us again. He has been teaching in Richland county and reports success.

Harry Moss returned to his home in Mr. Verano at the close of last term. Harry is one of our best declaimers and has a voice.

W. A. Nash, anuniting society teacher of last year, after attending the Northwestern University two terms, has secured a position as "trummers" for the Chicago house.

J. T. McNally, an old Zetetic, class of '78, is taking a theological course in the Northwestern University at Evanston. We hope that success may be with him in all his efforts.

The society has quite a number of declaimers in the society, each with their beautiful songs during the present year—Miesel Peters, Scott, Jenkins, Meyer, Sprecher and Henn.

In this year's graduating class eleven are society members. Out of this number, W. A. Reed, Lula Baumberger, Callie Johnson, Katie Richards and Maqie Wham.

The Society.

The Socratic society has now almost completed its thirteenth year. We may be bold in saying that it is a grand era of advancement and general improvement. The history of this society for the present year is surely an honor to everyone who bears the name of Socratic and an unforced source of gratification to their many friends.

The seal with which the members have pursued their work is a striking one. The letters, which appear in all of the peculiar phrases, have been in the preamble of the constitution are not a mere collection of meaningless words. Each one is to be found in the last month's special line of work and followed that particular line with an energy which always delights the eye.

And as a result we see the society advanced far beyond what it has ever been in the past, with brilliant prospects for the future.

Almost every department of literature and music has its representatives in the society. The following is a list of the members, each by himself.

We may now consider the department of oration, and among scores of the names of the members who have done their best to excite the interest of the society in the public .

The department of composition and oration is one of the most important in the society, and it is a matter of great pride that the society has been able to secure some of the most promising members of the society to fill the offices of the president and the other offices of the society.

In the department of music, the society has been able to secure some of the most promising members of the society to fill the offices of the secretary and the treasurer.

The department of literature, the society has been able to secure some of the most promising members of the society to fill the offices of the historian and the statistician.

The department of science, the society has been able to secure some of the most promising members of the society to fill the offices of the naturalist and the astronomer.

The department of art, the society has been able to secure some of the most promising members of the society to fill the offices of the sculptor and the painter.

The department of mathematics, the society has been able to secure some of the most promising members of the society to fill the offices of the mathematician and the astronomer.

The department of history, the society has been able to secure some of the most promising members of the society to fill the offices of the historian and the statistician.

The department of geography, the society has been able to secure some of the most promising members of the society to fill the offices of the geographer and the topographer.

The department of religion, the society has been able to secure some of the most promising members of the society to fill the offices of the theologian and the philosopher.

The department of politics, the society has been able to secure some of the most promising members of the society to fill the offices of the statesman and the politician.

The department of law, the society has been able to secure some of the most promising members of the society to fill the offices of the lawyer and the jurist.

The department of medicine, the society has been able to secure some of the most promising members of the society to fill the offices of the physician and the surgeon.

The department of journalism, the society has been able to secure some of the most promising members of the society to fill the offices of the journalist and the editor.

The department of philosophy, the society has been able to secure some of the most promising members of the society to fill the offices of the philosopher and the thinker.

The department of ethics, the society has been able to secure some of the most promising members of the society to fill the offices of the ethicist and the moralist.

The department of law, the society has been able to secure some of the most promising members of the society to fill the offices of the lawyer and the jurist.

The department of economics, the society has been able to secure some of the most promising members of the society to fill the offices of the economist and the statistician.

The department of politics, the society has been able to secure some of the most promising members of the society to fill the offices of the statesman and the politician.

The department of religion, the society has been able to secure some of the most promising members of the society to fill the offices of the theologian and the philosopher.

The department of science, the society has been able to secure some of the most promising members of the society to fill the offices of the naturalist and the astronomer.

The department of art, the society has been able to secure some of the most promising members of the society to fill the offices of the sculptor and the painter.

The department of literature, the society has been able to secure some of the most promising members of the society to fill the offices of the historian and the statistician.

The department of history, the society has been able to secure some of the most promising members of the society to fill the offices of the historian and the statistician.

The department of society, the society has been able to secure some of the most promising members of the society to fill the offices of the sociologist and the statistician.

The department of government, the society has been able to secure some of the most promising members of the society to fill the offices of the statesman and the politician.

The department of law, the society has been able to secure some of the most promising members of the society to fill the offices of the lawyer and the jurist.
C. B. Root, of Walnut Hill, Ill., has returned and "wings" an efficient worker in many ways for the society. Charlie is a natural humorist, and we are all glad to see him with us again, and to listen to his pleasanties. He has been teaching near his home the past winter.

Miss Rosa Starlager is rather a star-rector, and has, returned from her winter's school work in good time to serve the society and widen her already good reputation by carrying away the laurels from the Zetetic Society in the coming contest. She taught at Dongola during the winter.

G. R. Hawkins, one of the best talkers the society has, is still among us. He is reading law with Lightfoot & Lightfoot of this place. He, too, is particularly adapted for becoming a good lawyer as his mind fully controls the entire man, giving him the faculty of saying what he wants to and nothing more.

The society has this year five members in the Senior class. We will be sorry to see them go, for with them we lose some of our best members. But it will, indeed, be true, that "what is our loss is others' gain." The following are the names: Catharine J. Yebelach, Charles M. Morgan, J. F. Street, Frank Toobus, Geo. E. Wykes.

The first program of the term was given Friday evening, March 5th, to a crowded house, all seats being full and many persons having to stand. The program was as follows: Oration, F. P. Goodnow; male trio, J. F. Ramsey; W. P. Cochran; L. B. Baird: recitation, Lizzie Parks; vocal solo, Ma-bel Smith; essay, W. P. Cochran; humorous, R. E. Steene: instrumental solo, Ollie Robinson; oration, J. C. Stinson; declamation, Guy Blanchard; instrumental solo, Lolia Abel.

SITUATION OF SCHOOLS.

Teacher—"Why do persons wear glasses?"

Pupil—"Some use glasses because of weak or diseased eyes; as, near-sighted persons; others use them as an account of a diseased brain; as, the dunces."

Two girls studying the constitution of the United States together:

First Student—"Let me say it to you." Second Student—"Well, go ahead." F. S.—"We the people—Say, I had two letters from home this week." S. S.—"You did?" F. S.—"Yes—we, the people of the United States—are going home next week." S. S.—"So and I." F. S.—"In order to form a more perfect—Don't go after get married." S. S.—"Ain't you sorry?" F. S.—"Awfully—establish—the best, isn't it?—just wait—the house was up." S. S.—"I won't have my lessons." F. S.—"I won't either." So they continued to get the lessons the whole of the hour.

The following examination question appeared on the board of one of the University class rooms: "How often should an adult eat an infant?" It should have been written, "How often should an adult eat? an infant?"

Teacher—"If you put a square block into a half-husel measure, what shape will the block take?"

Pupil—"It would not change its form."

Teacher—"Correct. Now if you put the water from a jug into a half-husel measure, what shape would the water take?"

Pupil—"It would keep the shape of the jug."

The New York Store invites attention to its complete and carefully selected stock of spring dry goods, notions, etc.

---

Southern Illinois Normal University

IS A STATE SCHOOL,

Regulaely chartered by the General Assembly, and supported by the State treasury. It is specifically authorized and empowered to instruct in all the common and higher branches of knowledge, and is required to do this with the purpose of preparing young men and young women to be teachers in the public schools of the nation.

IT HAS SEVEN DEPARTMENTS

And fifteen Teachers, Professors and Lecturers, who use the best methods of instruction, and the newest and best books and apparatus.

It has the best Library of any Normal School in the nation, and a Laboratory and Museum equal to any. Its students are young men and women from nearly the whole of Illinois, and some are from other States, and they are as orderly, as enterprising, as progressive and as enthusiastic as any body of learners in any part of the world.

The University is prepared to give instruction in Type-writing on the Caligraph—the Best Machine in the Country.

(Bought of the Parker-Riter-Nichols Co., St. Louis, Mo.)

TUITION IS FREE

To all who give their word of honor to teach in the Public Schools of Illinois. A small fee for incidental expenses is charged. When a person does not wish to teach the tuition is, in the Full term $6, $6 and $4; in the Winter and Spring terms, each $6, $4 and $3. Incidentally, $8 and $9.

Terms Begin as follows: Fall term, second Monday in September; Winter term, last Monday in December or first Monday in January; Spring term, third or fourth Monday in March. Commencement, second or third Thursday in June.

Send for circulars, catalogue, or information to the Principal.

ROBERT ALLYN, L.L.D.

E. J. INGERSOLL, Sec'y Board Trustees.

CARBONDALE, ILL.
Military Department.

The Military Department was organized on Friday, March 30th, for the spring term, with an enrollment of 80.

We received the following note enclosing 10 cents after Prof. Parkinson's announcement of our appearance:

"CALIGRAPHY AND PRACTICE."

Please send me a copy of the Normal Gazette. Will not risk the chances of getting one to-day.

Yours, etc.

The "NORMAL GAZETTE" is the name of a monthly paper, the full title of which is now being printed at this office and will be ready for distribution early next week. It is edited by Messrs. J. T. Galbraith, of the Zetetic society, and L. E. Baird, of the Scientific.

Parker, Ritter, Nichols Stationery Co., Gрод, Illinois. The Normal Book Store will soon be re-opened to the Blinnman brother, west side of Square.
