WORLD HEADLINES--

By Albert Vibus, Jr.

II. DUCK PROMISES TO STAY OUT OF GREECE--Prime Minister Chamberlain makes new move to achieve a settlement of the Balkan crisis by taking his forces out of the Dodecanese islands. His move is expected to be a step toward a peaceful solution of the conflict in the region.

President Chamberlain, under-secretary of state for foreign affairs, conveyed his arrival in Athens to the Greek government and assured it that Britain would remain in the region.

President Chamberlain, addressing the Greek parliament, said that Britain would continue to support the Greek government in its efforts to maintain its independence.

President Chamberlain also announced that Britain would not send troops to occupy the Dodecanese islands, a move that had been under consideration.

President Chamberlain's visit to Athens is expected to be a significant step toward a peaceful resolution of the conflict in the region.

Another milestone--

President Chamberlain's visit to Athens is expected to be a significant step toward a peaceful resolution of the conflict in the region.

With these ideas in mind, the 1935-36 staff publishes its last issue of THE EAGLE, thankful that it has played a small part in encouraging and supporting the growth of the school and feels confident that the staff will be able to take over the next issue and will continue to enjoy critical success.

Complete cooperation on the part of the student body, administration and the school administration, with the fact that the school is being conducted with the best interests of the students in mind, is to be expected.

With several new ideas in mind, the 1935-36 staff publishes its last issue of THE EAGLE, thankful that it has played a small part in encouraging and supporting the growth of the school and feels confident that the staff will be able to take over the next issue and will continue to enjoy critical success.

Complete cooperation on the part of the student body, administration and our colleagues, with the fact that the school is being conducted with the best interests of the students in mind, is to be expected.

She Always Knows the Answer--

Although Gracie has been selected as one of the best game players, instead of doing her outside reading, she immediately proceeded to work on the second year's lecture which was the first question discussed at her inmorse this morning by her political science teacher.

"When would you hit," answered Gracie, "that they may both know the Kids Do.

Verbatim--

"According to me there is room for a cleaner realization on the part of the public that football is not a trade, or a business proposition, in which you won or lost, no matter how. It is a good American game. It has done a vast service in keeping America alert, young, just, and patriotic. And the game can only as a clean wholesome part of a college course and I hope that it will continue in this form.

"I would like to say a word about the Carnegie Scholarship. The university of Pittsburgh's Chancellor John G. Bowman has the stamp of approval on the nation's greatest amateur sport.

BARTON TO ADDRESS AGRICULTURAL CLUB--

R. T. Barton, a prominent agriculturalist and economist, will address the Agricultural Club of this university on April 22. His topic will be "The Future of the American Agriculture." Barton will discuss the current state of agriculture and the factors that will influence its future.

Mayfield to talk to zoologists--

Dr. Mayfield, a well-known zoologist, will present a lecture on "The Evolution of the Animal Kingdom" at the annual meeting of the American Society of Zoologists. His lecture will cover the major evolutionary events that have shaped the diversity of life on Earth.

S. I. N. U. BRINGS HAPPIER AMERICA TO YOUR HOME--

S. I. N. U. this fall will introduce a new series of programs designed to bring the nation closer to its citizens. The series will focus on the problems facing American society, and will include lectures, concerts, and film screenings. The theme of the series is "Happler America to Your Home."
Heroes Are Wasted!

It is interesting to note that during the present session of Congress, a half billion dollars were appropriated for building new naval bases, all these monies being voted to the United States Public Health Service to erect the naval bases in the Aleutian Island group at the extreme western tip of the state of Alaska near to the Soviet Union. This, after acquiring another item of information, the number of mothers who die in childbirth might not be reduced in the United States, and that a yearly cancer toll could be decreased by 50%, pneumonia’s annual death toll could be cut in half, and the creation of a medical research institute could be abolished.

The need by the knowledge, but our economic framework prevents the distribution of that knowledge to the people who had it. It is estimated that approximately one-third of the American people should have access to a new form of care.

Consequently, mothers must go on dying; infants must die before they are born, although the tuberculosis victims must continue to die while medical research stands helpless, paper to help, but shorn of opportunity services.

The stimulation needs all those who live in poverty. We should be able to provide a welfare system with a guarantee that every American citizen will have access to the latest medical knowledge. Unfortunately, the height of such welfare is ineffective in our long-term interest. It is through such knowledge that life can be sustained. It is time we began to think of the prevention of disease the same as the prevention of war.

The Student Senate has had every effort made to protect the health of the students and medical research departments. Whether or not the schools of medicine are successful in their efforts, the students are faced with the problem of getting adequate medical care at the cost of the education.

More Than 50 Organizations Cater To Individual Interests At Southern Illinois

Students Attend Southern On As Little As Ninety Dollars Per Term

By Charles Mayo

Leaders for Our Student Government Must Come From The Colleges of Southern Illinois’ Says Council President

The following statement was made by Charles Mayo, a junior in the College of Liberal Arts and one of the candidates for the office of President of the Student Council. "I believe that our Student Council should be a body of students who are interested in the welfare of the college and its students. This council should have the power to make decisions that will benefit the college and its students."

The Cox Article Describes Three Natural Bridges

The story of the three natural bridges is told in a recent issue of the Cox Article. The article describes how these bridges were formed and how they can be used for recreation. The bridges are a natural resource that can be enjoyed by everyone.

The Cynic

"I don’t know if it’s true or not, but I heard that the new President of the Student Council has been elected. I can’t wait to see what he does next."

Students Contribute $56,000 To Student Council

The Student Council has announced that it has received $56,000 in contributions from students. This money will be used to support the Student Council’s programs and activities. The Student Council is grateful to all the students who have contributed to its program.

The Egyptian

About Pictures

By M. Lowery

The Rocky Mountains are characterized by their towering peaks and the deep valleys that cut through them. The area is home to a variety of wildlife, including mountain goats, bighorn sheep, and elks. The mountains are also a popular destination for hikers, climbers, and skiers. The area is protected by the Rocky Mountain National Park, which was established in 1915.

Students Save 75 Percent on Books Through New Rental System

R. I. THALMAN is now handling the new rental system for textbooks. Before this semester, books were purchased, returned at the end of each semester, and there was an additional charge for each book returned. Now books are rented for only $1.25 per book. This system has been in operation for only one semester, but so far it has proven to be a great success.
S. I. N. U. Scores First Season Victory Over Leathernecks

Rural Schools Sponsor Relays
Charleston Netmen Here Tomorrow
Murray Will Go Next Wednesday

In the second home match of the season, to be played on the Charleston-Watchman University grounds, Charleston will have a chance to avenge last year's 15-1 victory over the Watchman Netmen. The match will be played tomorrow night. The Charleston-Watchman University grounds are located on the outskirts of Charleston, about five miles from the city center.

Track Season Off to Fast Start with Initial Victory

By D. N. Smith

An excellent athletic department has been established at the University of Southern Illinois. The school is now well on its way to becoming a complete and competitive athletic program, and is rapidly making itself known throughout the United States. The team has already set a new record for the season, and is expected to continue its successful campaign throughout the year.
