HEADED IN RIGHT DIRECTION

The recent action of the Student Council in appointing a student committee to meet with the Cafeteria Committee is certainly a step in the right direction. It is encouraging to know that the Council is accepting its responsibility and action will be forthcoming.

The following matters should be clarified by a thorough investigation: Does student interest warrant a change in the cafeteria food policies? What should be done concerning the cafeteria funds available for improving improvements? What about the labor situation? What are the difficulties in originating a new cafeteria? What is the management's role? The Administration? The Cafeteria Committee? What are the differences between prices at the Cafeteria and local cafes?

Only after the cafeteria is put in proper perspective with regard to both purpose and function, can any decisions be done or suggested. The Council might make it a point to find out what other cafeteria canteens are doing, and how we can apply their successful methods here.

This is a vital issue which demands immediate investigation. The student interest is also one to the facts. The Student Council has the responsibility of supplying these facts.

NEEDED, AN INTER-RACIAL COMMITTEE

Within the next several weeks, the inter-racial fraternity and sorority may be of vital importance. As Knots are tied, we are often called upon to consider the problems that face us in the inter-racial community. The problems of race are vitally important, and require the attention of all concerned.

Our inter-racial fraternity and sorority should be a model of cooperation and understanding. They should work to overcome the barriers of race and promote brotherhood and sisterhood.

If we are to make any progress, we must work together. The inter-racial fraternity and sorority can serve as a bridge to bring us closer together.

There Is Neither New Nor Old. There Is Poetry

A theme of change and continuity is a common thread throughout our culture. In the realm of poetry, this theme is especially evident. Poetry is a means of capturing the essence of our experiences and emotions, offering a unique perspective on the world.

As an artist who has delved into the realms of poetry, I have found that there is neither new nor old. Rather, there is a timeless quality to the medium itself. This is why poetry remains relevant and meaningful to us today.

In my own work, I strive to capture this essence of universality, finding beauty and significance in the everyday moments of life. Whether it's a simple observation of nature or an introspective reflection on our experiences, poetry allows us to connect on a deeper level.

For more insights into the world of poetry, be sure to check out our special feature in this week's issue. We explore the artistry, beauty, and depth of poetry and its enduring role in our lives.
