First Miss Thompson Point Will Be Crowned At Dance Saturday

"Miss Thompson Point" will be crowned at the first annual dance for Sigma Chi members, to be held under the wing, in the Thompson Point House on Saturday night. The title will be given the first "Miss Thompson Point" in the history of Sigma Chi. She will represent the "Point" on the Southern University dance team during the spring formal.

The final selection for the honor will be made Friday night at a meeting of the members of the two fraternities. Each member will submit a photo and a letter of recommendation from his advisor. If there is no candidate, the highest number of votes will be equal to half the membership. In the event there is no candidate, the selection will be made by the student body at large.

The candidate must be a senior majoring in business, and have a minimum GPA of 3.0. She must be active in campus affairs, and have a good reputation for leadership and service to the campus. She must be a member of Sigma Chi, and must have been a member for at least one year. She must be in good standing with the fraternity, and must be willing to serve on the Southern University Dance Team.

The dance will be held on Saturday, April 15, at 8:00 p.m. in the Thompson Point House. Tickets will be $5.00 each, and can be purchased from any member of Sigma Chi.

The winner will be announced at the dance, and will be crowned on stage. She will receive a sash and a tiara, and will be the official representative of Sigma Chi on the Southern University dance team.

The dance will feature live music, dancing, and refreshments. Sigma Chi members and their guests are encouraged to attend. Any Sigma Chi member who is not a student at Southern University is welcome to attend as a guest.

The dance will also feature a raffle, with prizes including a trip to New Orleans, a gift basket, and a night out at a local restaurant. All proceeds from the dance and raffle will go towards the Sigma Chi scholarship fund.

The Southern University Dance Team is excited to have Sigma Chi participate in the dance, and we look forward to seeing everyone there to support our new "Miss Thompson Point"!
CURTAIN TIME

It is well to think in terms of million-dollar moments and functional design in building a presentable community. It is well to remember that in every architectural design there are innumerable small buildings, as well as large buildings, as a necessary part of the whole.

A problem and a need have arisen to Strayach Architecture: the demand for more people in the community for the benefit of our present and future generations. A new building or an addition to an existing building must be new, or the result will be a cluttered, confused, and confusing mess.

Curtain Time is a new and better building which is to be built on the north side of Strayach Avenue, between Strayach and Grove Streets.

It will be used for the purposes of entertainment, education, and social intercourse. It will be a beautiful building, and will add greatly to the beauty of the community.

For further information, please see the architect of this building, Mr. Henry Smith, at his office.

THE EGYPTIAN

"A big company works for me..."

I began working on a training program for General Electric in the summer of 1932. Right now, I'm Em- ployee and Plant Community Relations Manager of my company's new plant in Burlington, Iowa. One of the advantages I found in working for a big company such as General Electric is that, because of its size, it is able to give me, and other college-graduate employees like me, a wide variety of training and experience in any of 165 plants all over the country. Through an extensive on-the-job training program, I have been provided with the opportunity to become one of the top men in my field, and I know that as long as I apply myself to each job, I'll keep moving up.

The way I look at it, General Electric is helping me help myself. That's why I say I'm working for a big company, but a big company works for me, too.

The "big company works for me" phenomenon is a unique characteristic of a company of General Electric's size. 27-year-old John Evans is just one example of the thousands of college graduates at General Electric, receiving the same development that he may grow and realize his full potential.

The "big company works for me" phenomenon is one reason why the company continues to grow and expand in the years ahead. Thousands of young people of leadership caliber will be needed to fill new positions of responsibility in American industry. General Electric is one company that by assisting young people like John Evans in a planned program of personal growth, has found we have one way of meeting this need.

Progress Is Our Most Important Product
**November Debate Teams Win 2nd at Champage**

Two SLU debate teams added additional honors to their Southern debater's crown as they received the second place award at the University of Illinois Never Doubt Tournament last weekend. The two men's teams won the double while losing one, with the men of Central Beckham and Kentucky Carter going unscathed in their four rounds of competition. They defeated Wayne University, Duke College, Purdue University, and Western Illinois. This is the second tournament in which Beckham and Carter have gone undefeated this year.

The other SLU team of Richard Howard and Marty Lee were three out of four defeat. They defeated Wisconsin State, R. E. State, and Indiana Central.
