Junior Scientists Visit Here Saturday

Science projects by students in some 30 area junior and senior high schools will be on public view Saturday in the University School Auditotium.

The Southern District of the Illinois Junior Academy of Science will sponsor an exhibit of some 250 experiments and other projects as part of its all-day annual meeting at SIU. It will be open to the public from 10 a.m. to 4 p.m.

Willard M. Gerabacher, professor of zoology and Southern District chairman, said some 500 to 600 students are expected.

The exhibits will cover such subjects as botany, physics, electronics, conservation, geology, microbiology, geology, chemistry, meteorology, and aeronautics.

Each school is being permitted three entries per 1,000 students enrolled, Gerabacher said. Students at the exposition, about 50 projects will be selected for showing at the academy's state-wide meeting May 7 at the University of Illinois.

H. A. Flascha, professor of chemistry at the General Institute of Technology, will address the students at a 2:30 p.m. session. Presidenting will be the academy's regional student chairman, Bill Perking, a student at the Community High School.

The 1,000 entries will be presented by W. D. Klimstra, president of the Illinois State Academy of Science, at 4 p.m.

JFK Cuts Foreign Aid Request $420 Million

By The Associated Press

WASHINGTON

President Kennedy asked Congress Tuesday for $4.5 billion in new foreign aid appropriation instead of the $4.6 billion from the amount he originally proposed in his January budget message.

Latin American Contribution Is Festival Theme

The contributions of early Latin America to Western Hemisphere agriculture will be spotlighted during SIU's Pan American Week April 8 through 13.

Sponsored by the Latin American Institute, the week will begin Monday with programs of songs and dances from Mexico, Panama, Brazil and Argentina at 2 and 7:30 p.m. in the Morris Library Auditorium.

"Contributions of the Indians of the Americas to Agriculture" will be the topic of a 3 p.m. discussion April 9 in the seminar room of the Agriculture Building.

On the panel will be Charles B. Hespenheide of forestry, Indiana University; Bloomington; John L. Riley, SIU associate professor of anthropology, and Melvin L. Fowler, curator of North American archaeology, Southern Illinois University Museum.

A Rockefeller Foundation representative, Jesse Parker Perry, will speak on Latin American agricultural improvement programs April 10 at 7:30 p.m. in the Jounger Room of the Home Economics Building.

Business School Lecture Series Hosts Million Dollar Bosses

Students Go To Polls In May To Pick New Student Leaders

The annual student body elections will be coming up soon and students and groups should begin giving thought as to what persons they would like to support in the elections, according to Student Government officials.

Exact date for the spring elections has not been set but it will probably be about the second week of May. Announcement when petitions for candidacy can be picked up will be made soon.

All student government positions are to be filled in spring elections. Ted Hutton, student body vice-president, suggested that persons interested in running for office should come to the Student Government Office and talk to present office-holders to get an idea of the functions and duties of the various offices.

More details of the election and campaigning procedure will be presented after election officials determine dates for the election, receiving petitions and putting up campaign posters.

Science projects by students in some 30 area junior and senior high schools will be on public view Saturday in the University School Auditorium.

The Southern District of the Illinois Junior Academy of Science will sponsor an exhibit of some 250 experiments and other projects as part of its all-day annual meeting at SIU. It will be open to the public from 10 a.m. to 4 p.m.

Willard M. Gerabacher, professor of zoology and Southern District chairman, said some 500 to 600 students are expected.

The 1,000 entries will be presented by W. D. Klimstra, president of the Illinois State Academy of Science, at 4 p.m.
Junior Given Probation For Traffic Charge

Stuart Shafer, a 21-year-old junior from Carrollton, who was fined $65 for traffic violations during the weekend, has been placed on disciplinary probation through the summer quarter and has lost his motor vehicle privileges. Police said Shafer collided with two parked cars early Saturday morning. He was charged in the court of Police Magistrate Robert Schwartz with hit and run, disobeying a stop sign and reckless driving.

FLYING PLANNERS – Four SIU students who are officers in the National Intercollegiate Flying Association go over plans for the organization's national meet here April 25-27. They are (left to right) John Fecce, president, Al Goodwin, treasurer, Don Proulx, vice president, and Ron Kelly, secretary.

FLYING MEET April 25-27:
Saluki Flying Club Squeezes Year's Work Into Five Months

It took some hurrying around but the members of the Saluki Flying Club have done in five months what it usually takes a year to accomplish: prepare to host the National Intercollegiate Flying Association meet.

Between 200 and 250 college pilots from 20 colleges across the country will be flown in here April 25, 26 and 27. Preparing for the meet included raising money, arranging for housing, transportation, publicity, entertainment, trophies and fuel.

Since the host school serves as national headquarters and provides the officers and staff of N.I.F.A., Southern, in the heart of the Midwest, has been the headquarters since last fall, and four Southern students are the national officers.

John Fecce, a sophomore, is the president, Al Goodwin, a freshman, the treasurer, Donald Langa, a senior, the vice president and Ronald Kelly, a junior, the secretary. The Flying Salukis are relatively new members of the 15-year-old national organization. The group organized two years ago, won second place in bomb-drop competition last fall at a meet in Kalamazoo, and got their hands up first when hosting the 1963 spring meet came up for grab.

Goodwin, explained recently how the prize was brought home for the SIU club.

Iowa had been designated to host the 1964 spring meet at the close of last year's spring meet held at Oklahoma State University.

When the SIU club attended the mid-winter N.I.F.A. meet at Kalamazoo, it was learned that Iowa was turning down the chance to host the annual, spring national meet.

"We were just the first ones to get our hands up," Goodwin said. "It was not that simple."

Nevertheless, the fuel, transportation, housing, transportation, publicity, entertainment, trophies and fuel had to be arranged. The only simple thing was raising the $3,000 needed to finance the meet, according to Goodwin.

Nevertheless, the fuel, transportation, housing, and entertainment costs for a dinner with a name speaker and a dance are ready. 

Tiner Lapley of the Aeronautics Department of Oklahoma State University flew to Carbondale Monday night to attend a wrap up meeting with the Saluki Club, Harold Wood, Tri Sig Names New President

Linda Atwater, junior from Springfield, Ill., is the new president of Sigma Sigma Sigma sorority.

Other new officers are: Charlotte Thompson, vice president; Brenda Bobbitt, treasurer; Sandra Ward, recording secretary; Marcia Lorenz, corresponding secretary.

Barbara Schally, scholastic chairman; Elaine Schneider, house manager; Marlene Brown, steward; Barbara Weber, Sr. Panhellenic representative; Mike Davis, Jr., Panhellenic representative; Julie England, rush chairman; and Karen Tumbleson, Jr. rush chairman.

VTI Center Board Elects President

Alan Williams has been named president of the newly-formed VTI Student Center Programming Board. Marilyn Meneses is the vice-president.

Other officers and members are Mary Jo Davis, secretary; Jerry Westrom, treasurer; Sharon Steph, Sandra Westhal, Dave Ball, Joe Cash, Doug Horn, Don Proulx, Jerry Reamer, Janie Miller and Jerry Commins.
Tiddly Wink Club Will Be Formed Here

The Recreation Committee of the University Center Program- ming Bureau announced today that a tiddly wink club will be formed next Saturday.

Pointing to the enthusiasm for the game among the fraternities, the committee was urging all students who might like the idea of the game to come out for the meeting. It will be held at 2 p.m. in the Activities Area.

The committee has ordered and received all of the equipment needed including official mats for the table play of the game.

Meetings today around campus include a good sample of what students do at Southern.

A Speech and Audio-Visual Aids conference for student teachers will be held at the Studio Theater at 3 p.m. The Young Presidents Organization will have a discussion at the same place at 4 p.m.

Young G.O.P.'s Meet

In Library Lounge

The Young Republican Club will meet tonight in the library lounge to discuss the U.S. National Student Association.

Guest speaker will be Karl Davis, president of the Illi- nois-Wisconsin region. Plans will also be finalized for the Midwest College Federation convention.

'Kabachio' Dance Scheduled by AKA

Alpha Kappa Alpha Sorority presents the annual "Kabachio," a dance, in the University Center Ballroom, Friday night, April 7 from 9:30 p.m. to midnight.

The theme is Highballs and High Fashion. Highlights of the dance will include The Tallest Man in the World and the crooning of "Mr. Kabachio" and a fashion show.

AKA Sorority Elects Officers

Janice Buckley has been elected president of Alpha Kappa Alpha sorority. Other new officers are: Carolyn Vaughn, vice president; Margaret Smith, dean of pledges and Rush Chairman; Roberta Little, recording secretary; Maurice Maches, corresponding secretary; Carol Wright, treasurer; Thelma Nelson, scholarship chairman; Carol Rancifer, social and publicity chairman; and Mimmie Brown, reporter.

Freshman Fined $50 For Conduct

Peter Wegner, an 18-year-old freshman from Park Ridge, was fined $50 by Police Magistrate Robert Schwartz after he was arrested on campus streets Saturday night.

He has been placed on disciplinary probation through the summer quarter and was ordered to make an apology to police for disrespectful conduct.

Eileen E. Quigley, dean of the School of Home Economics, has been invited to give the opening address at the annual meeting of the Illinois Diabetic Association in Chicago April 13.

She will speak on "Sociological and Technological Changes Affecting Education in Home Economics."
they will make work rules changes that eventually will eliminate 65,000 jobs.

James E. Wolfe, chairman of the National Railway Labor Conference and chief rail negotiator, said "We understand President Kennedy probably will name an emergency board before the unions set a strike date. This will prevent any stoppage for at least 60 days."

A spokesman for the Switchmen’s Union of North America said the five labor organizations involved “contemplate taking strike action,” but will continue to press for a negotiated fair settlement.”

WASHINGTON

Cuba expressed regret Tuesday for what it said was a mistaken attack on a U.S. freighter last Thursday. It promised to try to prevent such incidents in the future.

At the same time Cuba asked the United States to consider the “seriousness of the situation” in the Caribbean and to stop hit-and-run raids on Cuba.

Rosters Due For Women’s Volleyball Tournament

Intramural rosters are now due for the Women’s Recreation Association’s Spring Volleyball Tournament. Any coed who lives in an organized housing may be placed on a team by contacting the WRA sponsor in the Women’s Gym. Anyone whose housing unit does not plan to enter and who wishes to take part may be placed on a team by contacting the WRA Office.

Class and varsity volleyball meets daily from 4 to 5 p.m. in the Women’s Gym. Anyone interested needs only to come to the gym at 4 p.m., officials said.

In other WRA spring quarter activities, the Modern Dance Club is meeting Tuesdays and Wednesdays from 7:30 p.m. to 9 p.m., in preparation for its annual spring concert. Anyone interested in this activity should contact Mrs. Daskak in Room 106 of the Women’s Gym.

The Badminton Club meets on Mondays from 8 to 9 p.m. Both men and women are invited to participate in this activity. Fencing meets on Tuesdays from 7:30 to 9:30 p.m. in Main 110, and men and women are invited to attend.

Beginners as well as intermediate and advanced participants are welcome in all activities. Instructors are provided if desired.

Is Tropic Star for you?

College girls seem to know what they want. We get a lot of ideas about ring styling from American compasses. If there is such a thing as a compass, it would sound like this: conserva­tive styling, with a difference.

That’s what we’ve designed into Tropic Star...the newest of the beautiful Artcarved diamond engagement rings. Like all Artcarved rings, it’s styled for lasting beauty...guaranteed in writing for permanent value. Is Artcarved’s beautiful new Tropic Star for you? See for yourself.

Moscow
The Soviet Communist party has invited Mao Tse-tung, the Chinese Communist leader, to a Red summit meeting in the Soviet capital, Tass reported Tuesday night.

MOSCOW

The Soviet Union yesterday announced it shot its fourth and biggest of the Lantik search vehicles toward the moon and that it was flying well.

Either a landing or an orbit that would permit detailed photographs of the surface could give the Russians a significant boost in their race with the United States to land men on the moon.

Tass, the Soviet news agency, described the rocket as an "automatic moon station" weighing 3,130 pounds.

MARION, III.

The Area Redevelopment Administration and Defense Department officials have been asked to help prevent closing of Universal Match Corporation’s Ordill Division. Rep. Kenneth J. Gray, D-III., said yesterday.

Gray, in a message to constituents, said ARA and defense representatives have agreed to try to aim defense contracts at the Ordill plant, manufacturer of explosives used in missile equipment.

Geographer Named To Plan Committee

Theodore H. Schmuddle, assistant professor of geography, has been named by the American Geological Institute to a 13-member planning committee planning an earth science curriculum for secondary schools.

The American Geological Institute recently received a National Science Foundation grant of $147,182 for an earth science curriculum development project. The committee will be concerned with planning the program and assisting in implementing, reviewing and testing the project. The general objective of the project is to develop course materials—including new texts and teaching aids—for high school earth science courses. Schmuddle is the only geographer on the committee.

Manpower To Be Conference Topic
Here Thursday

Problems of manpower training and changing occupational patterns will be considered in a conference on Developing Manpower for the Coming Decade on campus April 4.

The conference is a joint project of the Illinois Chapter of the International Association of Personnel and Employment Security and the SIU Division of Technical and Adult Education. Sessions will begin at 10:30 a.m. in the University Center Ballroom. Registration will start at 8 a.m.

Walter Parker, Springfield, superintendent of the Illinois State Employment Service, will discuss at the luncheon session the changing patterns of occupations in the next decade. Featured for the concluding dinner session will be Samuel C. Berenstein, Chicago, assistant state director of labor, who will speak on "Manpower Training in Illi­

nso, Present and Future.

Others appearing on the program will be Larry Davis, personnel director at the Norge Corporation plant in Herrin, Gola Waters, Du-Quoin, personnel director for P.K. Mallory Co.; Frank Kirk, Herrin, regional director of the Board of Economic Development; J.D. Shields, Mt. Vernon high school guidance counselor; Elmer J. Church­

ill, Springfield, employment offices supervisor; Walter J. Barto, Herrin, chief of technical education, Illinois State Board of Vocational Edu­

cation; and Ernest J. Simon, SIU dean of technical and adult education.

Grundy Represents SIU At Vanderbilt Ceremony

C. Richard Gruny, legal counsel, is representing Southern at Nashville, Tenn., today as Vanderbilt Universi­

ty dedicates a new building to house the School of Law.

Metropolis Architect To Design Campus Chapel

Thomas Gramen, an architect with special experience in the design of chapels, has been selected to plan sketches and cost estimates of a campus chapel.

He was appointed by University Architect Charles Polley under authorization of President Delyte W. Morris.

Gumen, who lives in Metropolis, is currently in the process of doing research and securing basic data for preliminary sketches and cost estimates for the campus chapel.

Funds for the chapel will be sought on Journalism Day -- April 18 -- when professional and campus service clubs and businessmen from southern Illinois join forces with the Daily Egyptian.

The group, working in the area, will be selling a special edition of the Daily Egyptian in the Old Newsboy Day pro­

motion to attempt to get as much for the paper as they can for the chapel building fund.

Project coordinator for the procurement of funds is the SIU Foundation, headed by Kenneth Miller.

As of February 20, 1963, three donations totaling $300 have been received for this University project.

During the spring of 1962, the SIU Chapter of Alpha Phi Omega conducted a student survey regarding ideas, sug­

gestions and potential use of the proposed chapel by mem­

bers of the student body.

Complete Banking Services for Students & Faculty
Rumbling On A University Campus
By Paul Simon Member Illinois Senate

Recently in the University of Illinois daily newspaper there was an article expressing concern about students expressing concern by which they are receiving and about the general tone of the academic community.

While the university administration probably was not pleased with the article, it is a healthy thing for students to express concern about what they see as campus Communists.

It is stratagem probably in our campus than did some of the other colleges and universities. It is a major problem.

What bothers me about the problem is that the administration is so much this type of community, but they are not doing anything about it.

The problem with cheating is that the administration is not doing anything about it.

The professor of government says:

"I don't know that there is anything the legislators can do about it. I think it is much too much in the interest of the faculty to deal with this kind of thing. I don't think there is anything the legislators can do about it."

There may be more.

Bachelor Project Good

The college program for the 28 Inmates at Menard Prison seems to me like a good job for the university to perform. Often times the reason a man is involved in a crime is because of his lack of money and he cannot get employment for the police to come up to the police that he doesn't have enough educational background.

It is because the police do not have enough educational background.

The administration is not as apt to commit a crime as one who is not making a living,

I believe that in a more educational atmosphere there would be less crime.

But, of course, every college is a school and it is not easy to work in the prison. It is not easy to work in the prison.

The problem with cheating is that the administration is not doing anything about it.

I think it is much to much in the interest of the faculty to deal with this kind of thing. I don't think there is anything the legislators can do about it.

The administration is not as apt to commit a crime as one who is not making a living.

I believe that in a more educational atmosphere there would be less crime.

But, of course, every college is a school and it is not easy to work in the prison. It is not easy to work in the prison.

The problem with cheating is that the administration is not doing anything about it.

I think it is much to much in the interest of the faculty to deal with this kind of thing. I don't think there is anything the legislators can do about it.

Professional Tennis World Series Troupe To Play Here Next Tuesday

SIU students will have a chance to see some of the world's finest tennis players Tuesday at Carbondale Community Gymnasium when the 1963 World Series of Professional Tennis tour calls here.

Ken Rosewall, world professional champion, Rod Laver, 1961 and 1962 Wimbledon champion and winner of the Grand Slam will be here along with Andres Gimeno, Earl Buchholz, Luis Ayala and Barry MacKay.

Tuesday's match will start at 7:30 p.m. Busses will be leaving Thompson Point and the University Center to take interested students to the matches. Girls can see their house supervisors about late leaves.

Admission will be $1 for students and $2 for adults. Dick LeFevre, SIU tennis coach, points out that this will be the cheapest anyone in the country will be able to see the match. Students may purchase their tickets at the University Center Information Desk.

The World Series of Tennis is presented by the International Professional Tennis Players' Association. The 1963 World Series will be played on a round robin basis.

Upon completion of the round robin, a playoff will commence with the number one and two finishers playing a series of head-to-head matches for the Championship. Three and four will do likewise.

Prize money will be broken down as follows: winner, $35,000; runner-up, $25,000; third, $20,000; fourth, $15,000; fifth, $10,000; and sixth, $7,500. Total prize money is $112,500.

Rod Laver comes from Rockingham, Queensland, and is nicknamed the Rocket. He is 24 years old. Earl Buchholz comes from St. Louis and turned professional in 1960.

EGYPTIAN CLASSIFIED ADS

Page 7

DAILY EGYPTIAN
Quartet Of Sophomore Gymnasts
Ready To Step Into Seniors’ Shoes

"The secret to success is constancy to purpose." These words were delivered in a speech by Benjamin Disraeli way back in 1867. Perhaps Mr. Disraeli didn't direct these words towards success in athletics, but as far as Southern's gymnastics team is concerned, they couldn't be more fitting.

Under the tutelage of Bill Meade, SIU's gymnastics squad had to settle for the runner-up spot in the 1963 National Collegiate Athletic Association's gymnastic championships at Pittsburgh, Pa. last weekend.

Southern was tabbed by many as the pre-tourney favorites, but once again, the coveted trophy fell to another impres­sionable team. As it was concerned, they couldn't be more fitting.

With the likes of seasoned veterans Fred Orlofsky, Bruno Klaus, Rusty Mitchell and Tom Geocaris, the Salukis put on another impres­sive show, before the Pittsburg fans who jammed their way into the Pitt Field House. But the Salukis just couldn't catch the champion Michigan Wolverines.

Dana prior to the extrava­ganza, the Pittsburgh papers were full of stories and headline about Southern's All-American's; Mitchell, Orlofsky, and Klaus, Pittsburgh fans throughout the week read about the feats of these three boys, and they came out to see how good they actually were.

They saw what they came for, and much more. All the "oohs" and "ahs" weren't only directed toward these three outstanding athletes, however, for it was the "un­heard oh's" Steve Pasternak, Denny Wolf, Chuck Ehrlich, Bill Hladik and John Rush who drew many of the plaudits of those Pittsburgh fans.

Of course these athletes were not heros and did not shine like Michigan's versa­tible duo of Gil LaRose or Arno Lascari, or Penn State's Tom Seward or Southern's own duo of Fred Orlofsky and Rusty Mitchell. But throughout the entire meet, the Pittsburgh fans were say­ing, "they'll be back next year."

Yes, they'll definitely be back next year, the established stars like Orlofsky and Klaus will be gone because of graduation, and Mitchell and Geocaris will be back for one more shot at the title, but the future of Southern gymnastics, which is perhaps developing into a dynasty, will lie with those unsung heros, Pasternak, Wolf, Ehrlich, Hladik and Rush. For they are all sophomores.
