FINAL EXAMINATION SCHEDULE SECOND SUMMER SESSION The schedule of final examinations for the second summer session will be as follows: Friday, August 21, 1942 1st and 4th hours 8:00-10:00 2nd and 5th hours 10:30-12:30 3rd and 6th hours 1:30-3:30

Frank Logan Gets Appointment To Annapolis Maryland

Frank Logan of Christopher, a Junior at Southern Illinois Normal University, received an appointment to the United States Naval Academy at Annapolis early this week. Logan, who left Sunday for his new post, received this honor through the efforts of Congressman "Burr" Bishop of Carterville.

REYNOLDS SUFFERS FIRST DEFEAT IN SUMMER CHESS TOURNAMENT WEDNESDAY

B. S. U. Holds Lead

Wesley Reynolds, hitherto undefeated champion of the summer chess tourney, went down in ignominious defeat at the hands of Howard Callis of Harwood Hall Wednesday.

Shelley Meets Defeat

Two other upsets occurred that evening when Bill Reynolds of Harwood Hall and Charles Tenney of the Faculty both defeated Leo Shelby of the Baptist Foundation.

HOUSE SCORE

Table with 4 columns: House, Won, Lost, Pct. Wesley Reynolds 6 1 .857, Wesley Shilgrave 5 1 .714, Bill Reynolds 5 1 .714, Leo Shelby 5 1 .714, Charles Tenney 3 4 .428, Neal Stanton 2 3 .408, Howard Callis 3 5 .378, David Karasick 1 6 .142, Cotton Hunter 0 4 .000

PLAYER STANDINGS

Table with 4 columns: Player, Won, Lost, Pct. Wesley Reynolds 6 1 .857, Wesley Shilgrave 5 1 .714, Bill Reynolds 5 1 .714, Leo Shelby 5 1 .714, Charles Tenney 3 4 .428, Neal Stanton 2 3 .408, Howard Callis 3 5 .378, David Karasick 1 6 .142, Cotton Hunter 0 4 .000

Homer Rose Is Teacher Trainer At "Blitz College", Fort Knox

Graduates 38,000 Officers and Specialists a Year

Homer J. Rose, formerly of the S. I. N. U. industrial education faculty, is now teacher-trainer in a "blitz college"—the Armored Force School at Fort Knox, Ky. This college is one of the largest of the army service schools, and graduates more men yearly than any civilian college in the United States.

Only in existence for approximately a year and a half, Fort Knox graduates 38,000 officers and specialists a year. The armored force division, successor to the tank corps and mechanized cavalry, was organized only two years ago. The primary purpose is to train officers and specialists in the use of tanks, armored cars, and other armored fighting vehicles.

There are also departments in the college for training in the use of aircraft, motorcycles, summary, tactics, clerical, officer candidate school and the newest, teacher training. Training has been stepped up to meet increasing demands for officers and specialists in the field.

Play Night Host To Large Group of S.I.N.U. Students

The second annual play night of the student organization was held at approximately 160 students on the old athletic field Wednesday evening, August 12. Playing to the music of the latest records of the season, students enjoyed the various games provided for the occasion.

The most hearty sport of the evening proved to be volleyball which attracted a large portion of the male students. Archery, ping-pong, paddle tennis, badminton, and pushing the medicine ball, also were participated in by an even larger group of the students.

Bill Goetch, a Junior from Hopkinton, was responsible for the fine organization of the play night. Bill Kallenbach handled the public address system.

L. Peterson Marries Evelyn Seymour Saturday

Lieutenant Robert Peterson and Miss Evelyn Seymour were married Saturday, August 8, at Harmony hall. Reverend Charles J. Pardo performed the ceremony.

Following the wedding, Ruby Lee Tomlinson sang "I Love You Truly," accompanied by Eugene Ulrich. Mr. Ulrich also played the traditional wedding music. Carol Kraatz served as bridesmaid, and Charice Pardo, Jr., was the groom's attendant.

After the ceremony a reception was held at the home of the couple. They then left for Camp Claiborne, La., where the groom is stationed.

Springs, Peyton Nuptials To Take Place August 25

Carl N. Springs, 42 graduate of S. I. N. U., and Miss Wilma Dean Peyton, sophomore, will be married on August 25 at the home of the bride-to-be at Mt. Vernon.

Mr. Springs majored in mathematics and minor in economics and commerce while a student here. In addition, he was active in the affairs of the Baptist Student Union.

Full term registration is scheduled for Wednesday, September 9.

Citizens Defense Corps Meets Tues. Night At Armory

Commander Keop Gives Outline of Six Divisions

At the third meeting of the volunteers for the Protective Services of the Citizens Defense Corps held at the Armory Tuesday night, Commander C. E. Keop stressed the importance of forming an organization of 80 to 100 members for the purpose of civilian defense in Carbondale, and outlined the six divisions in which the volunteers will work.

Commander Keop stated that the main objectives of the organization are to: 1) protect the community from air attack, 2) to organize communications and transportation, and 3) to break down civilian morale by fire, sabotage, and chaos.

MAYOR APPOINTED COORDINATOR OF RESERVE PROGRAMS AT SOUTHERN

Dr. John R. Meyer, head of the Southern Illinois Normal University Mathematics department, was recently appointed coordinator of the Navy V-1, V-5, V7, the Marine Reserve, and the Army Reserve programs as they are in existence here at Southern Illinois.

The official position of coordinator was installed especially to reduce competition among various programs and to aid students who know nothing about them to gain first hand information before it is too late.

Johnson heads organization. Headed by Walter Johnson, the local civilian defense council will supervise the training of the volunteer workers, all of whom must undergo a period of instruction. John Wright, coordinator of the local council, has just received a diploma from a ten-day course at Purdue University.

After Commander Keop's talk, the workers underwent a half-hour period of instruction under the direction of Major George Lee of the Illinois Reserve Militia.

DR. THOMPSON ACCEPTS TEACHING POSITION AT SYRACUSE UNIVERSITY

Dr. George Thompson of the department of education has accepted the position of assistant professor at Syracuse University, beginning with the fall term. Dr. Thompson came to Carbondale in the fall of 1934, having just received his Ph.D. from the University of Iowa.

In addition to his regular teaching load, Dr. Thompson supervised the sophomore tests and served on the Bureau of Child Guidance. His undergraduate work and his Master's degree were taken at the Fort Hays, Kansas, State College. For one summer he has served as assistant in the department of education at Northwestern University.

BOHRD DRAWING IN COLLIER'S

Arden Bohrd, famous artist who will be "in residence" at S. I. N. U. during 1942-43, is represented in the current issue of Collier's magazine by a drawing of a southern tobacco scene. The drawing is used in an advertisement for Lucky Strike cigarettes.

TO HEAD CAFETERIA

Miss Coleta Knewitz of East St. Louis, who was recently employed to supervise the new S. I. N. U. cafeteria and to instruct classes in Home Economics at the University High school.

Home Ec. Dept., Red Cross, OCD Offers Canteen Courses

Open to College Students and Citizens of Carbondale

The S. I. N. U. household arts department, the Red Cross, the local office of Civilian Defense, and the extension service in home economics will cooperate in offering nutrition and canteen courses in Carbondale this fall.

Teaching the courses will be Mrs. Frank Bridges of the college household arts department and Mrs. Mary Louise, formerly a member of the University of Illinois extension service in Home Economics.

Two Alumni Receive Petty Officer Ratings

George T. Parlington of Sparis, Ill., and Robert L. Cary of Virden, Ill., two alumni of Southern Illinois Normal University, received petty officer ratings recently at the Great Lakes Naval Training Center, Great Lakes, Ill.

CLAIRE PATTERSON KENNEDY SECY. TO ROSCOE PULLIAM

Mrs. Claire Patterson Kennedy of Carbondale, a 1931 graduate of Southern Illinois Normal University, has recently accepted the position as secretary to President Roscoe Pulliam of the University.

CLAIRE PATTERSON KENNEDY SECY. TO ROSCOE PULLIAM

Mrs. Claire Patterson Kennedy of Carbondale, a 1931 graduate of Southern Illinois Normal University, has recently accepted the position as secretary to President Roscoe Pulliam of the University.

Civilian Pilot Training To Give Mental Screen Test Monday Course Is Open To Men Between Ages 18-27

Requirements Less Rigid Than Those of Army Air Corps

All men between the ages of 18 and 37 who are interested in Civilian Pilot Training will have an opportunity to take the Civil Aeronautics Authority mental screen test at 1 o'clock Monday afternoon, August 17, in Room 303, Parkinson Laboratory, on the campus of Southern Illinois Normal University, Dr. O. E. Young, C.A.A. Coordinator, announced this week.

Civilian Pilot Training is open to men between the ages of 18 and 37 who have failed the Army Aviation Cadet mental or physical examinations. Anyone who made a grade of less than 80 and more than 65 on the Army exam is eligible for CPT. Both mental and physical examinations given by the CAA are less rigid than those of the Army Air Corps.

Southern Plans To Train Students In Vital War Work

M. D. S. McClellan of the S. I. N. U. chemistry department announced this week that Southern is planning a greatly enlarged program to train young men and women in vital war work.

Special emphasis will be laid on those science subjects which have to do directly with the war, such as beginning with the fall term the college will be more nearly on a "war footing" than ever.

M. D. S. McClellan of the department of chemistry, outlined the need for such courses in the following interview: "Most of us have already been told that today's war is being fought with the most deadly instruments that mankind has been to produce. The guns shoot farther, the planes fly higher, the ships are larger, the submarines are more accurate. All of the greatest mechanical accomplishments of the age are being rated by their destructive power, their feasibility for use as a machine of war."

Germany has outperformed the countries surrounding her because of a superiority of fighting equipment. Her tanks were better, her planes superior, her ships were more of them. But what it is that produces the better tanks, the faster planes? When the United States called for better equipment and increased production, upon whom did the burden lie? The answer comes back like an echo from a distant cliff. Science, education and industry makes the plans, tests the product, improves the quality. The scientist determines the better materials and the faster methods. Yes, this is a war of machines; but behind each tank, behind each plane, some scientist has had an idea, some engineer has reported the manufacturing process, some scientist made our tanks and planes superior.

Cooper Receives Scholarship To Miami University

Miss Nancy Cooper of Carbondale, a member of the 1942 Southern Illinois Normal University graduating class, received word this week that she had been granted the Delta Sigma Epsilon scholarship for graduate study at Miami University, Oxford, Ohio.

This scholarship, which is given every year by the Alpha Chapter of the Delta Sigma Epsilon organization to a deserving member of this national organization, will cover all tuition and maintenance costs while Miss Cooper is attending the university.

Miss Cooper, who majored in women's physical education while an undergraduate here, intends to work on a master's degree in Education and to minor in women's physical education.

While a student at Southern, Miss Cooper was active in the Women's Physical Education Association, has been awarded her position here to accept that of assistant in the reference department of the Newark, N. J., public library. She will assume her duties in the near future.

Kerley Resigns To Work at Newark Public Library

Miss Kerley received her B.E.D. degree from S.I.N.U. in 1935, has received her Bachelor's degree in Library Science from the University of Illinois and the Masters in the same field from the University of Michigan. Before coming to Wheeler Library in 1936, she worked at the Carbondale public library.

LITTLE EGYPT IN REVIEW

By PAT McSHERRY
Peoria Jo Act on Plea to Ban Women At Bars

A proposal to ban women from Peoria bars is being considered by the city Council.

The resolution asks: "that the liquor ordinance of the City of Peoria be amended to read that the sale of liquor at bars in taverns be limited to males only."

Blackout tests for Southern Illinois will be ordered soon after the Wednesday night test in northern counties.

Capt. William F. Wanch, chairman of the Illinois Council of Civil Defense, revealed that some communities in the northern section are finding it difficult to complete preparations in time because they did not properly organize and train units of the Citizens Defense Corps.

Herrin Club to Help W.P.A. Nursery School

The Lions Club of Herrin has voted to make monthly contributions to a local nursery school to be conducted primarily for the care of small children whose mothers are engaged in defense work.

William Henry Wenzel of Peoria was elected with making editorial remarks and expressing pro-Nazi sympathies.

Wenzel's demoralization is a result of a series of editorial actions in regard to alleged pro-Nazis in the Southern Illinois Federal District.

\$60,000 Airport Bonds Voted in Mt. Vernon

A \$60,000 airport bond issue has received the approval of Mt. Vernon residents, 1159 to 408, at a special election.

Illinois Soldier Explains Medal to Daughters

In Britain everyone wants to know why some U. S. soldiers wear so many medals, so the Daughters of Gloucester mentioned it to Corp. J. Wille of Granite City, Illinois, during a visit he paid to a canteen in Northern Ireland.

175 volunteers from Carbondale have entered the Citizens' Defense Corps. Twelve women attended Tuesday's meeting at the Armory as members of the Medical Corps.

Typical of the bright splash made by new campus clothes is this royal blue hollow knit velveteen blouse bound with plain velveteen lined with red wool jersey. The same jersey makes the pleated skirt.

BEST SCHOOL PAPERS BY ADVERTISING HELP US MAKE THE EGYPTIAN ONE OF THE

Still Here Southern

By CAROLINE COLP

S. I. N. U. is almost ready to close its doors on the second summer session, and for many of its students this will mean the end of college days. In the armed forces many of Southern's men are finishing courses, periods of training, etc. For instance, from the Officer Candidates Course 27, Fort Sill, Okla., Cpl. K. A. Whisler writes that he will finish his training in September, and may visit home.

Pvt. Harold F. Noel-U. S. A. F., 46 Sch. Sqdrn., Shaw Field, Sumter, S. C., tells us: "I finished my 110-day course at the 'Casey Jones School of Aeronautics.' I am now here at Shaw Field working on basic trainer planes. This field is a very fine one. The only thing I dislike about it, is that it is too hot."

Moore to Complete Training Aug. 15 they had better make clear of our A/C Homer O. Moore, U. S. N. R., on the beach practicing with the big writes that his period of flight training will be completed by the 15th of August. "I've received the rating of technical sergeant since last writing to the Gift Club. Behind in the army less than six months, I feel as though I am doing my part and an accomplishing something in the service."

McHugh Writes Jerry McHugh writes: "Like most others at Scott Field I am studying radio. It is a fascinating subject and it is nice to know that it won't be long till the boys now in training will be filling a surely fast need in our nation's fight." Jerry's address is: Pvt. Gerald McHugh, 593d T. S. S. Bks. 324, Scott Field, Ill. Dewey in Australia

Indirectly, the Faculty Gift Club heard from a former Southern student, Ralph Dewey. His mother sends this news: "Our son is with the 103rd Infantry band and also in a dance band unit, twice taken from the base unit. He writes the orchestra arrangements for these twelve and enjoys it a lot. He is enjoying himself all his life and was majoring in it at your college so I thought it might be of interest to the school. We hear from him quite regularly now, although we didn't hear from him for two months after he left this country." Mrs. Dewey also in address: Mrs. Dewey, 1140 E. Hwy. 3, McDonna, Aviation Cadet Regiment, U. S. Naval Air Station, Corpus Christi, Tex. Corp. Townes Writes

"I want to thank the person responsible for sending me the Egyptian every week. I had no idea how important this address was until I began getting it every week. Now I look forward to receiving it each week and I am disappointed when it arrives late. That is one of the reasons I am writing this letter. Since I began receiving the paper I have had no correspondence but it should be sent to Philadelphia, Pa."

"I have been reading with great interest the column on the former students of Southern who are in the armed forces and some of the things which they are doing, but I have never seen any report of one who is in an outfit such as the one with which I am located. Ours is a semi-mobile anti-aircraft regiment and at the present time we are furnishing anti-aircraft protection for the city of Philadelphia and portions of the Navy yard. You can tell any Japs or Germans you see that

"Big Boats" As weapons of concealment and surprise, submarines or "big boats", as they are called by their crews, are just as valuable for scouting purposes as they are as instruments of destruction. Capable of 20 knots on the surface and only 6 to 11 knots submerged, these black-hulled vessels can submerge to depths of 250 to 300 feet and remain under water 24 to 36 hours. Service in submarines is on a volunteer basis and standards for acceptance as a member of a submarine crew are the highest of any type ship in the navy.

The average submarine is about 300 feet in length and weighs about 1600 tons. Its complement of men ranges from 50 to 80 who, because of the necessary cramped quarters, must be calm, alert and not possessed of any personal idiosyncrasies which in the prevailing intimacy

News From College Film Service Dept.

The Film Library Service for the School Year '42-'43 Conditions this year have made it impossible to canvas Southern Illinois schools in behalf of the College Film Library, but notwithstanding this fact, the following schools have made requests for our service: Carbondale Community High School, Carbondale city schools, Elkhart High School, Clay City schools, and Fairfield High School.

Since 46 or 50 schools in Southern Illinois now own sound projectors and since the S. I. N. U. library now contains more than 200 reels, about half of which are adapted to use in grade schools and the other half adapted for high school use, the service is counting on many more schools subscribing for the privilege. Our servicing department has been greatly improved and films go out in the best possible condition. Shipments are made by parcel post on Saturday mornings and the school has the use of films until Thursday when they are started on the return trip.

NEW FILM ADDED TO LIBRARY

Just recently a beautiful colored four reel film of Mexico has been added to the S. I. N. U. film library. This film visualizes and vocalizes the life and customs of our neighbors on the south. It will be of value to classes in geography, languages, and art.

Day after day new films on many problems of national defense are becoming available. Any teacher or group desiring such films are invited

FRESHMAN ORIENTATION PROGRAM IS SCHEDULED FOR SEPTEMBER 8-9

Registration, Tests and Dance Figure in Events

By MARIE WRIGHT

Open the gates of S. I. N. U. to the new flock of freshies! As it is the tradition of S. I. N. U., the Freshman Orientation will take place September 8 and 9.

There will probably be plenty of hustle and bustle on Tuesday, September 8, as the new students arrive. The buses and trains will unload their cargoes of intellectually minded "young-uns" and many a tear will be shed as they bid a final farewell to Mother and Dad. From here the Freshmen will be on their own, but they will get acquainted with one another and soon will forget their empty feeling. All Freshmen are given an orientation book giving the calendar of events, traditional information, and a map of Carbondale.

Begins Tuesday

DR. ALEXANDER'S RESEARCH PAPER NEAR COMPLETION

Dr. Orville Alexander, associate professor of the Southern Illinois Normal University Government Department, has nearly completed a research paper for the Illinois Legislative Council, for which he is research assistant. It was announced yesterday. The paper is entitled "In Lieu of Taxation in the United States and in Particular the State of Illinois."

The Illinois Legislative Council publishes documents for the general information of the people in the state of Illinois and for statistical reference by the state General Assembly.

Dr. Alexander has done all his documentary work in Carbondale because of the excellent opportunities for compilation of material afforded by the various governmental agencies in both Carbondale and Marion.

CAMPUS BUZZ

All student library cards expire August 21, 1942, and must be returned to the library on or before that date. Wheeler Library.

Clearance slips for candidates for the Bachelor of Education degree at the end of the second summer session, 1942, are due in the registrar's office, Friday, August 21. A student may not receive his diploma until a Clearance Slip has been filed.

Two new curricula, one to prepare physical therapists and one for occupational therapist, will be instituted at the New York university school of education next fall.

The serious side of college life comes forward on Thursday when classes begin and the freshmen are on the way to fame and glory as scholars.

SPORT in the News!

CARTER'S ACES CONTINUE WINNING STREAK; DEFEAT SPIRITS '76 10-8

Sebastian Hits Two Homers, Triple

Continuing their drive toward the baseball championship, the Carter's Aces came from behind twice to tie it up and once more to win yesterday as they defeated the Spirits of '76 in one of the most thrilling games ever played in Intramural baseball. The final score was 10 to 8, in eight innings.

The Spirits of '76 led off the scoring of the game with four runs in the second. Mitchell, Glodich, Fodder, and McClain all led off the rally with four singles. Macchi's final hit of the inning drove McDonald home with the final run of the inning.

Aces Overcome Lead

The Carter's Aces kept plugging away at the Spirits' lead throughout the game and came up with one run in the third, two runs in the fourth and four in the sixth to take the lead seven to four.

John Sebastian's first-homer of the game provided the first run in the third; while Milosevich's, McDonald's, and Leilich's singles gave the Aces their two runs in the fourth. With the game tied up going into the last of the sixth, McDonald singled, took second as Sebastian tripled with the bases loaded. Previous to the three-bagger, Glendahn had scored first on Carver's error. Sebastian later scored as Stewart grounded out deep to second.

Spirits Rally in Seventh

The Spirits put up a tremendous fight in the first of the seventh when, with Cromer on first and Filgor on second, Rock McCright sent a line drive over Glendahn's left for another homer. Next up, followed McCright's example and also poked one out left for another homer. This put the score at 8 to 7 in favor of the Spirits.

The Aces were undaunted, however, and came right back with the tying run in the last of the seventh. Pigg scoring from second on McDonald's looping drive to deep.

In the last of the eighth, with two strikes and no balls, and with the tying run on first with no one out, John Sebastian again proved his worth as a home-run hitter, as he walloped relief-pitcher Jeff Mitchell's ninth pitch over the right field fence for his second homer of the game, scoring behind Glendahn to end the game at 10 to 8.

Just to Prove That Women Are Caddy

Wildwood, N.J., Golf Club officials, experimenting with girl caddies, are puzzled by high scores posted by players who usually shoot in the low 80's. Left to right: Joyce Fodder, Jean Whitson, Gertrude O'Farrell, Jane DeHaven and Amanda LeVey.

SPIRITS RECEIVE 5-0 SETBACK FROM CARTER'S ACES TUESDAY

Carl Soeteber, star-right-hand fireballer of the Carter's Aces set down the faltering Spirits of '76 with a total of only five scattered hits on Tuesday, 5 to 0. The only inning in which the Spirits mustered enough strength to collect over one hit was in the last of the first, as Carruthers and Macchi both singled.

Aces Start Scoring

The Carter's Aces started things off with both in the first. Left of the first when Soeteber wanted to right to lead off. Stewart immediately sacrificed John John to second, and the Aces had a man in scoring position before the game was scarcely five minutes old. Peruchio, who was out of the Aces' lineup for the latter part of last week, followed by the sacrifice with a long triple to right. Sebastian scoring on the drive. Charlie Pigg and Nick Milosevich both followed with one batters and Peruchio scored the second run for the gang from Carter's.

The Spirits tried to imitate the Aces' methods in the last of the first, but fell short of a rally at the first two base-runners were both tagged out coming into third. Nevertheless, the Spirits managed to keep it up with both in the sack. It was Jean Fodder, who died at second as McCright flew out to right.

The Seventy-sixers continued their wild base running in the last of the second. Jeff Mitchell reached first, when Johnny Peruchio dropped his ball. Both men scored as McCright caught trying to take second, however, as Milosevich threw him out trying to steal.

Carter's scored again in the first half of the fourth. Soeteber led off the attack with a single. Moked led off with a single. Soeteber and Fodder's two base hits allowed Sebastian to reach second.

The final run of the game was tallied in the first half of the fifth. Nick Milosevich singled, went to second on a balk, and came home as Roy Leilich sent a screaming single out to right.

Spirits Miss Bus

The Spirits missed their scoring chances throughout the game. In the first innings, wild base running accounted for the apparent lack of runs, but in the last innings, the Aces were able to come up with men on the sacks. In both the last of the sixth and seventh, two men were left stranded. Macchi and Filgor were left in the sixth. Glodich and Meyer in the seventh.

The Spirits apparently got the best of their manager, Doc Cromer, in the game Thursday. A total of six errors were unloaded on the hands of the Spirits, nearly all of which accounted for runs.

The win for the Carter's Aces keeps them still in the running for the championship of the second summer session. The series stands at

SPEAKING FOR MYSELF

(Continued from page two)

tion for vocationalism in higher education.

On only one score in my duel with "insurance" bugaboo. But though my charming opponent's sword grazes the epidemics of my argument, it does not, I fear, penetrate to his heart. For I recognize—and am ever reconciled to—the lamentable necessity of earning a livelihood. But I do not recognize, as is the function of the liberal arts college to provide the training with which to do it. That, strange as it may sound, is the function of the professional, vocational, or business school even as the function of the liberal arts university is to furnish a liberal arts education. The significant point is that the former are doing their jobs and doing them well; the latter are doing well neither the job of the former nor their own. It is no rare occurrence to see in the daily newspaper statements from some prominent placed business or professional man as to the inability of subordinates in his field to speak and write the English language clearly. That is one of the things a good liberal arts education is supposed to do for an individual, a thing.

Miss Dexter weakens her argument immediately when she insists upon the priority of vocational as opposed to liberal education. For a liberal education, since it develops the whole man, and his rational or thinking powers which are uniquely human, fits an individual to do better almost anything which he might have to do to gain a living. Liberal education is really the best vocational education.

It is in her implied attitude that liberal education is a luxury—something that is good if you can get it but nothing of really supreme importance—that may be detected the most ominous undertones of Miss Dexter's remarks. She indulged in the regrettable and dangerous delusion that we can let some people acquire what she terms a "cultural" education and permit others to pursue only some vocational training. Well, there it is again—every man we shun universal liberal education we are faced with a form of Fascism as our alternative. For that means that we would have in our midst a heterogeneous group of men, each to concern themselves with that in life which is most human—the things of the mind—and an inferior class whose function would be to go through life blind to its beauties as it concentrated on the "practical" business of getting along in the world. But I should like to think that, even in this materialistic age, men still do not live by bread alone. Not even by the ambrosia of disguise which I am sure Miss Dexter and her fellow home economics majors are equipped to prepare.

STOP HERE FOR KODAK SAFETY FILM IN ALL POPULAR SIZES

Right now snapshots are important. For the family record, for the man away from home, for your own enjoyment, take pictures often and get into the habit of using Kodak Verichrome Film. It will help you end in getting the kind of snapshots you want. Stop for a couple of rolls of Verichrome today and put your camera in action.

FACTS ABOUT NAVY

(Continued from page 3)

might grate on the nerves of shipmates. 21-inch torpedo tubes, a machine gun and a 3-inch gun on deck make up the armament of the sub. The maximum range and speed of torpedoes are kept secret, but in training, torpedoes geared from 27 to 45 miles per hour are fired at targets from 4,000 to more than 15,000 yards distant.

BUILT BY BRAWN

The mysterious prehistoric temple on Salisbury Plain, England, known as Stonehenge, was erected by men of the Bronze Age. The great slabs of stone, each weighing tons, were lugged into place by brawn alone.

Educational clinic of City college, New York, established in 1913, was the first one opened in this country for treatment of mal-adjusted children.
