U-Senate seeks Board approval of present governance system

By Dale McConnaughy
Daily Egyptian Staff Writer

The Governance Committee of the University Senate voted Tuesday afternoon to draft a resolution requesting the Board of Trustees to approve the present governance system as proposed—including the Senate’s power to override a veto by the University president. The action was taken following Chancellor Bob Smith declaring the disclosure to the U-Senate that the Board would not approve a governance system in which a chief administrator’s veto could be overridden.

Provisional University Senate had been operating according to the governance system as described in the January report of the Task Force on University Governance, as amended by the Provisional Senate.

The Task Force report on University Governance included an article which allowed the U-Senate to override the chancellor’s veto of legislative actions with a two-thirds vote. However, the governance plan has not been presented to the Board for approval.

The Governance Committee voted to draft a resolution—present to the Aug. 23 U-Senate meeting for approval. If the U-Senate approves the resolution, the governance system working papers would be sent to the Board for consideration

The Board can accept the governance system proposal in its entirety, in which case Article E. Section 3-e giving the U-Senate the power to override a chief administrator’s veto would be revoked.

The Board can also reaffirm their position of deletion of the Article E. Section 3-e, as William Lewis, acting chairman of the Governance Committee, pointed out, the Board could make “further revisions” in U-Senate legislative governance.

Lewis indicated that these “revisions” by the Board, if it should choose to make them, could mean further reductions in the U-Senate’s role in campus governance.

Asked why the U-Senate had never sought approval of the governance system before this time, Lewis replied: “We wanted to get the system in operation on a provisional basis and then obtain agreement from all the constituents to ask for formal approval.”

Lewis said he hopes that by presenting the governance system ready to the Board, the trustees might “change their minds” about not allowing the U-Senate to override a chief administrator’s veto.

“I might even be desirable for a few Board members to visit a meeting of the U-Senate and observe it,” Lewis said. He added, however, that no formal consideration had been given to revising members of the Board to such meetings.

Deletion of the article allowing the U-Senate to override the chief administrator’s veto is expected to go into effect on Sept. 1 when the chancellor of the SIU Carbondale and Edwardsville campuses becomes president.

Contract plan for relocation gets city ok

By Pat Sills
Daily Egyptian Staff Writer

At its first “regional city council meeting” Tuesday night, the Carbondale City Council approved a proposal to offer a $5 million incentive to relocate residents of the Cedar Lake displaced by the construction of the proposed recycling center.

The contract was awarded to David Sullivan, a private individual who is providing the local acquisition negotiating for the project.

According to a memorandum to the City Manager William Schmidt, the Community Conservation Board (CCB) staff had been awarded the contract earlier, but had made “minimal” progress on it due to the ongoing relocation specialist staffing on the staff.

Schmidt told the Council the city was under a “severe time restraint” concerning the matter, as no funds would be allocated by the federal Housing and Urban Development (HUD) office until the plan had been filed with them.

HUD has already authorized $1 million for the construction costs of Cedar Lake.

Before passing the proposal, the Council accepted a suggestion from Councillor Hans Fuchss, who offered $1,000 for the ceiling on the compensation for the plan.

The original recommendation only contained hourly rates for Sullivan, a realtor, consultant and a clerk-typist. However, included in his proposal, Sullivan said he hoped to have the plan submitted to HUD within 30 days of his authorization to proceed.

Schmidt had told the Council it would be “very difficult” for him to make an adequate prediction of the length the task should take. He added that Sullivan would be working out of the Park and Recreation building, which city would be conducting a “daily monitoring of the project.”

In other action, the Council received the report of the Central Business District Parking Study.

According to Schwegman, the study made the short-term recommendation of changing parking by metering, starting from their current rate of 5 cents per hour with a maximum time limit of two hours and increasing that rate 5 cents for every additional hour, with maximum time limit of one hour.

As a long range goal, Schwegman recommended the establishment of a combination parking and pedestrain mall in the middle portion of the main streets between Monroe and Cherry Street.

Black Faculty Council decides no race restriction for membership

By John D. Temple
Daily Egyptian Staff Writer

The Black Faculty and Staff Council at its monthly meeting Tuesday approved an operational paper which puts no race restrictions on membership according to race.

The paper states that membership in the council is open to all persons employed by SIU “who share the goals of the council.”

Supporters of the membership proposal take the meeting as aid for the organization in reaching its goals could come from persons of any race, and “such a welcome so long as it works ‘to the benefit of everyone.’”

The operational paper, which was first approved by an ad hoc Executive Committee, lists the goals of the council as “to provide for black representation, influence and inputs into the total University system on behalf of the black University community.”

The paper was unanimously approved by the approximately 100 persons at the meeting. In part it states: “In order to consistently and effectively articulate the needs and interests of this community, and in order to establish a desirable measure of solidarity and fraternity within this community, we the black faculty and staff of Southern Illinois University in Carbondale, Campus, establish the Black Faculty and Staff Council.”

The operational paper provides that no officer is to serve more than two consecutive terms in the same office and for an executive committee to be composed of the five elected officials plus a representative of Carbondale’s Northeast Community Congress.

Genes H. Hudson, assistant professor of history, has been serving as chairman of the council since its organization in April. Benjamin Shepherd, assistant professor of zoology, is vice chairman and Richard Hayes, internal compliance coordinator in the Affirmative Action Office is recorder.

The group will meet again in September.

Act of ecology

A petition to prevent the artificial flooding of Allerton Park by an Army Corps of Engineers project gained a signature Tuesday from Bob Schultze, a sophomore in photography from Hoffman Estates, Chicago suburb. The petition was part of a table display Tuesday in the Student Center by the Student Environmental Center and EVFEC (Students for Environmental Action). People manning the table also had copies of the center’s newspaper available and pamphlets on environmental protection. (Photo by John Bunningham)
Coalition of women is formed

Women faculty from eight Illinois institutions assembled Monday night and formed a Coalition of Illinois Women's and Capitulations of Illinois Women's Coalition. Committed to working with the HEW (Department of Health, Education and Welfare) to ensure a fair and equitable environment and to get acceptable Affirmative Action programs implemented on campus.

The Affirmative Action programs are needed to eliminate discrimination in university hiring practices.

Mrs. Comit-Amonor—who called the meeting, a former BU professor of applied science. Her presence at the meeting was attended by representatives from Eastern and Western Illinois University, University of Illinois, Chicago; Circle College, University of Chicago and Chicago State University.

Three persons file applications for internships

There have been three applications filed to date and applications will continue to be accepted until Aug. 10 for the three internships offered by the Provisions University Senate, according to Ralph Thomas, secretary at the Senate office.

The internships, offered beginning fall quarter, are open to any junior, senior or graduate student in good academic standing.

Applications, which are to be submitted to the Senate Office, must include two letters of recommendation, an academic transcript, curriculum vitae and a letter stating applicant's interest in University governance.

President William Simpson explained that interns are assigned to conduct research for offices and committees of the Senate. Interns are paid regular student wages.

GOP proposes reapportionment in Cook County

SPRINGFIELD, Ill. (AP) — A Republican map of Cook County legislative districts was introduced in a House committee hearing on a session of the Illinois Reapportionment Commission. The map was introduced earlier in the day to the House Rules Committee.

The newly proposed GOP map is considered much like another submitted to the House on Thursday, by Sen. Terry Hart, R-Western Springs, which would redistribute 11 districts for Republicans dominated Cook County suburbs while giving 19 to the control of Democratic Chicago.

The new map was introduced by Rep. Gerald Purnell, D-Chicago, told Niles Township Commissioner John L. Nelson he would support and giving appreciation for the Republicans in their attempts to get a better reapportion map. He didn't say he'd vote for it.

Peace Committee: Meeting, 9-11 a.m. Morris Library Auditorium. Der Deutsche Klab: Meeting, 8 p.m. Fireway. ElR Restaurant.

Vocational or Educational Counseling for Students: 800 S. Washington, phone 532-3988.
Grandfather Vanderhof is a likable nonconformist who, 35 years before the curtain rises on the play, quit the "rat race" and has since devoted himself to raising tomatoes and raising snakes.

His family follows Grandpa's example, which results in a sawmill law which manufactures fireworks in the basement and a playing-card daughter. Vanderhof's daughter Ester marries a telephone player who sells the candy she makes. Unfortunately, Granddaughter Alice remains "straight" and falls in love with the conventional son of her employer.

A dinner party held for the prospective in-laws starts chaotically and ends up being raided by the FBI because Vanderhof hadn't paid his taxes in a long time.

The play ends happily in its portrayal of human nature as it is in real life.

"You Can't Take It With You" will be performed at 8 p.m. Friday, Saturday and Sunday in the Communications Building's University Theater. Tickets may be reserved by phoning the Box Office at 549-7414, admission is $1.25 for students and $2.25 for non-students.

You can't take it with you so sell it in the D.E. Classifieds.

You can't make your mind up...
The innocent bystander

The slowest beast in the world

By Arthur Hoppe
Chronicle Features

Once upon a time there was a huge and ponderous beast called a Democracy. It carried thousands and thousands and thousands of people on its back.

All of the people were equally entitled to tell the Democracy which way to go. That was because all of the people were equal.

The most equal of all, of course, was the President because the Democracy listened to him—most of the time. More equal than most, of course, were the Congressmen, and the Generals because the President listened to them—much of the time. And least equal of all, of course, were the Citizens because to one listened to a lone, individual citizen—hardly any of the time.

Besides, most Citizens were so busy clinging on for dear life that they seldom had time to shout much. Naturally, the Democracy sometimes headed off in the wrong direction. But it moved so slowly and ponderously that it usually could be turned around before it got into much trouble. Until one day it ever so slowly lumbered into a Quagmire.

The President said he was in favor of stamping out Quagmires. And he told the Democracy to do so. The Congressmen said this was a great idea. The Generals said they could see the wildflowers at the end of the mud. And the Citizens nodded complacent ly and said the Democracy must know what it was doing.

But, of course, the more the Democracy stamped on the Quagmire, the deeper in it sank. The mere just seemed to get quaggier and quaggier.

As time passed, the Citizens grew increasingly nervous. Some began marching up and down on the Democracy’s back shouting, “Get out of the Quagmire now!” But this just made the President angry. “Don’t listen to those Nervous Nellies,” he irritably told the Democracy. “Keep stamping!”

But as time more passed, more Citizens grew nervous. Finally, they tossed out the old President, whom they didn’t believe anyway, and put in a new one.

The new one promptly turned the Democracy around and ordered it out of the Quagmire. The Citizens cheered. “But of course,” said the new President, “this will take time. Maybe five years. Or ten. Or who knows?”

And so time passed. More and more Citizens grew nervous. Finally, three-quarters of the Citizens were saying, “I don’t understand what’s going on. It’s so much quicker. And more than half said glumly they didn’t believe the new President any more either.

But for the moment, at least, the Democracy just lumbered ponderously along in its seemingly-invariable way. That’s when a lot of Citizens lost faith.

“Why is our inalienable right to tell the Democracy which way to go taken away so dispiringly, ‘if it doesn’t listen to what we say?’

“Why are our legislators so foolish? They have forgotten, of course, that their counterparts had already turned the Democracy around—and that their proddings now would inevitably speed things up.

For if a Democracy is slow to get into trouble, it’s also slow to get out. That’s the nature of the beast. Moral: Keep shooting. In the end, a Democracy listens to its Citizens. It’s just a little hard of hearing.

Letters to the editor

Principal says ‘thanks’
To the Daily Egyptian

I wish to express my appreciation of the excellent story and how our students were taken by a member of your staff. Mike Klein, of one of our field trips made by our first grade students during our summer school program. The trip was supervised by teachers in the Herrin Community Unit No. 4, Mrs. Diane Beyer and Mrs. Jane Rees and eight student teachers from SIU.

Mr. Klein’s interest and attitude toward the children and his patience and perseverance in getting really good pictures was superb. We believe this type of summer program is valuable both to the students and the sixty-five student teachers from SIU doing their practice teaching this term.

Thank you for the interest shown in our program.

Leslie McGuire
Principal
Herrin Community Unit No. 4
Summer School Program

Error noted in story
To the Daily Egyptian

In the July 30 edition of the Daily Egyptian, one of your student writers had an article on Professor Robert F. Davis General Studies course, the course being a very worthwhile course for students.学生. Principal Klein student writers would be more careful in their reporting and checking up.

The classic film “The Great Train Robbery,” which was made by camera man-director Edwin S. Porter, NFT B. Griffith, Porter was chief producer for the Edison Company, and his accidental discovery was the basic screen narrative and simultaneous action in cinema.

The film cutting is from the scene of the crime to the getaway robbers, and then back forth again with increasing tempo A device now generally used in the inevitable chase sequence. The interesting thing is Porter never realized what his real discovery was. His success was ascribed to the story, the crime, the violence, the swift action, but no one realized that it was a new technique in cinema art—parallel action. So let us give due honor to its inventors, even if it was unconscious.

Maintenance attacked
To the Daily Egyptian

I am writing to express my dismay at the nearly total incompetence of the Maintenance Department at Southern Hills. The mere mention of it is enough to cause a chuckle among most residents here. Dry smiles follow those naive newcomers who suggest it as a solution to a problem. Usually after a few attempts at employing its services, they learn that the only way to get anything repaired is to do it themselves.

I realize that the maintenance department is hampered by its dependence on the Physical Plant. I was informed that a carpenter from the Physical Plant must be called in order to replace a screen in my apartment window; a job consisting of placing a hook, already attached to the screen, over a nail, already attached to the wall. My request for this small service was placed two months ago. As yet, there has been no response. Surely, an maintenance department could perform this simple task.

And why is a 48 hour wait necessary to have a clear plastic screen put in place? Inquiring minds are wondering if the maintenance department either assumes no responsibility for itself in handling problems, or if that be the case, how they expect us to deal with them.

The Department is merely an answering service for the Physical Plant, perhaps it could be eliminated altogether.

User fees only solution to parking problems

By University News Services

A multi-pronged plan being worked out by user fees is the only possible solution, according to the President of SIU, according to an article in the Illinois Times.

"The answer is clearly," said President M. Haller, "the only available one. There are no other solutions. The only possible but impractical one is to build a parking garage which would cost $50,000 to build and 25 cents per student."

"In the next two years, schools could get 10 percent more parking revenue from the state. In the second two years of the parking fund, (since schools have until 1980 to begin participating), the ratio would increase to 50 percent."

SIU parking permits will be lower this coming school year with the following dollars cut from $30 to $29; red decals cut from $30 to $28; and blue decals reduced from $32 to $30.

The cuts were not as sharp as those recommended by the Traffic and Parking Advisory Committee, President Haller said, and further reductions would diminish chances of reaching the maximum advantage of the parking permit fund formulas by the 1976 deadline date.

The Higher Board's formula is under study by a task force. President Haller said, but the policy remains the same as it has been: we will pay half and the state pays half. The first two years we pay three quarters and pay the rest the third year.

A new system is in place this year. President Haller recommended that student parking fees at SIU are 1 0 percent of the cost of the last quarter combination at $5,600,000. With half and half shared financing with the state, SIU said the parking revenue fund showed a balance of $1,185,000.

During the first two years, schools could get 10 percent more parking revenue from the state. In the next two years of the funding period (since schools have until 1980 to begin participating), the ratio would increase to 50 percent."

News Analysis

SIU after four independent campus parking surveys and a National Association of College and University Parking and Transportation Advisory Committee, undertaken by the Illinois Higher Education formula, adopted five years ago, which allowed all public institutions separate parking construction money, except for critical buildings within the state.

Instead, the Board set up a plan by which state campus state schools would submit long-range parking plans, which a limited fund of parking fees for a four-year period. To support it, they would have to show improved in their own parking revenues.

Lunar surface activity over

Apollo 15 orbits moon' charting surface

By Tom B. "Oral" Oop, Staff Writer

SPACE CENTER, Houston (AP) - "The early surveys after a better score, the Apollo 15 pilots soared around the moon for the first time in human history, that pocket planet's place in the family of worlds."

David R. Scott, James B. Irwin and Alfred M. Worden awoke refreshed and cheerful. They had slept late, tired by the exciting and sometimes tense events of Monday.

They set about the day's tasks, busying the command ship's crew with monitoring the the fluid of scientific instruments that are sampling the moon's surface, in preparation for the first surface landing of man in the history of travel by man.

The next day, the astronauts exited the lunar module "Skylab" and began their exploration of the lunar surface. They set up equipment and took samples of the soil and rocks they observed.

On the third day, the astronauts conducted experiments such as seismology and returned to the command ship for rest and recreation.

Chord groups auditioning for new members

Robert Kingsbury, Director of University Choir and Male Glee Club, has announced that the two groups are auditioning for the school year beginning fall quarter.

Both choirs are open to graduate and undergraduate students. Those interested people should stop by the Choir Office in Alford Hall, Room 313A, or call 549-4024 for an appointment.

University Choir, Mixed 60+, is directed by Assistant Director, Michael N. T. Thomas, and will meet from 6:00-9:45 p.m. on Tuesdays and Thursdays from September to December. An audition of sight reading is required.

Male Glee Club, Mixed 50+, also conducting a bar of chords, will meet from 6:00-9:45 p.m. on Tuesdays and Thursdays from September to December. An audition of sight reading is not required.

Correction

The joint concert of the Summer Ensemble and the University Choir will be presented at 8 p.m., tonight, Thursday, in University Auditorium, and at 4 p.m. on Saturday, in垫ford's Daily Egyptian.

The wrong time was included as in Saturday's Daily Egyptian.

Athletes handed setbacks

Anti-U.S. feeling at Games

CALI. Colombia (AP) – U.S. athletes are beginning to get a
"Yankee go home" message from the Latin American
Americans.
"I saw enough out there," said one U.S. official, bit on the back of
the plane returning from Cali, where a Yankee boxcar had been
awarded a close decision in a bout at the Plaza del Toro.
Spectators whistled, jeered, barred paper and threw rocks. Ring
fighters had to use chains to protect themselves from the hostile
masses.
"They don't like us here," confided Ron Hodge of Los Angeles
decathlon veteran, after losing to tournament Rock Wannamaker in the
10-sport event.
In the major events – the main
Caracol Guerrero Stadium, the
basketball gymnastics and the
basketball field – the sentiment
appears to be heavily prevalent.
U.S. competitors frequently are
greeted with whistles and jeers.

"Cuba" Cuba
Cuba's seasoned baseball team
and surprise male gymnasts halted
the United States' fresh set backs.
Tuesday and Uncle Sam's basket
ball team barely escaped a second
straight defeat in the Games.
The basketball forces, their
piercet and shooting cool, had to go
onto overtime for an 81-79 victory
over Brazil. Also, following the 73-70
debacle against Cuba last Sun-
day, would have been eliminated.
Cuba's baseball team, profession-
ally smooth, whipped a collection of 6-7 colonials, 4-3
and three bases-empty home
runs by Yankee players.
It was the fourth straight victory
for Cuba and the first in three
games for the United States in a
tournament to be decided by a nine
round robin.

"Larry Cushie" of SUI is an Un-
cle Sam's team.
In gymnastics, the Cubans
showed the effects of four years of
dedicated training as their male
stars of the bars and beams stunned
the United States' defending champi-
on in both individual and team
over-all competition.
Jorge Rodriguez of Cuba won
the individual men's title with an unof-
ficial score of 118.40 over the United
States. John Creasy of New York
City, who took the silver with 108.75,
Cuba's Jorge Cavamar won the
bronze.

"BIG" Lee Limiter performed for the U.S. in
in a team event it was Cuba
340.55, the U.S. 276.80. Canada was
dead third. The figures were unfinal.
The basketball game, despite the
United States' shaky play, turned
into a thriller. The Yankee rallied
from a 20-25 deficit at halftime to tie
the score, 30-30, at midquarter and
won on a field goal with 16 seconds
left of the five-minute overtime with a
jump shot by Bob McLeod of the
University of North Carolina.

Create a jail cell.

We've done it
Not because we like prisons, but because people live in
them and we design for people.
We're a college called Parsons School of Design, part of
a University called The New School for Social Research.
Our students and faculty work with the city to design
the cell blocks in the new Women's House of Detention,
here in New York.
In fact, we have an entire program devoted to Urban
Design, part of our Department of Environmental Design.
It's taught by professionals who are truly concerned with
social, cultural and ecological design problems.
Our students have designed drug treatment centers,
mental hospitals, parole offices, slum renovation
projects and a useful lot of private homes.
If you're interested in this sort of design, or virtually
any other write to us now. Classes begin September 9th.

Rain damps softball finds

A steady afternoon drizzle may
have damped hopes of a Post
Tournament championship for the
AUD women's softball team.
Southern was to face Johnson.

Eagles drop

Wheelright

Running back Ernie Wheelright, a
former AUD football player, was
placed on waivers with 12 others by
the Philadelphia Stars earlier this
week.
Wheelright, who received a letter
as a fullback on the 1966 AUD foot-
ball squad, also played for a couple of other NFL teams.
Between his college and pro
tenancies, Wheelright played as an
Army drill

The list of players cut by the
Eagles includes former Olympian
track star John Carlos, who signed
with Philadelphia as a wide
receiver last year.

Baseball teams will play for kids

Twenty-three teams will compete
in "Operation Little Giants," the 13th
annual benefit baseball tournament
in several towns and cities throughout
Southern Illinois next week.
The teams will be playing in
behalf of the Eastern Seaboard Society
for Crippled Children and Adults
of Southern Illinois.
The tournament ends at Lewis
Park in Carbondale with the semi-
finals and finals next Fridays and
Saturday nights.
Round one begins Monday night
at seven locations in the region:
Carbondale, Carterville and six
other squads drew first round byes
and won't begin play until Tuesday.
A donation of 25 cents will be
collected at the gates to help raise
funds for spina-bifida-handed
children at Camp Little Giants.
