Immediate Benefits

Many students could be excused for wondering when the campus would be completed. Most of the buildings they have seen at Shurtleff are not yet ready for occupancy. The administration has announced that a complete statement of the campus will be published this winter. Several buildings which now are visible on the campus will be ready for occupancy in February.

The benefits to the student of the new campus are many, and include:

1. More space for student activities and labs.
2. Improved facilities for the dormitories.
3. An increased variety of courses available.
5. Enhanced opportunities for extracurricular activities.

The benefits to the community of the new campus are also significant:

1. A more attractive and welcoming environment for visitors.
2. Improved opportunities for cultural and educational events.
3. Enhanced opportunities for community members to become involved in campus activities.
4. A stronger sense of community pride and identity.

Must Expand

Before a university can be expanded it must be expanded. The future of the Shurtleff College is dependent on its ability to expand and to become a full-fledged university. This expansion must be done in a responsible and orderly manner, to ensure that the needs of the students and the community are met.

The Shurtleff College has a number of problems, and the first step in solving them is to expand the campus. This can be done by purchasing additional land and by building new facilities.

The campus expansion will include a new dormitory, a new library, and a new dining hall. These new facilities will be designed to meet the needs of the students and the community.

The new dormitory will provide additional living space for students. The new library will provide additional study and research space for students and faculty. The new dining hall will provide additional dining options for students.

These new facilities will be funded through a combination of private donations, government grants, and bond issues. The college is currently working on obtaining these funds.

The expansion of the Shurtleff College is a necessary step in the development of the college. It is essential that the college be able to expand in order to meet the needs of the students and the community.

BASIC UNIT

The basic unit of the Shurtleff College is the student. Each student is important to the college and to the community. The college must be able to serve each student in the best possible manner.

The college must be able to provide each student with the education they need to succeed in life. This can be done by expanding the campus and by providing more resources.

The college must also be able to provide each student with the support they need to succeed. This can be done by providing counseling services, financial aid, and other support services.

The college must also be able to provide each student with the opportunities they need to be successful. This can be done by providing a variety of courses and extracurricular activities.

The college must also be able to provide each student with the resources they need to be successful. This can be done by providing a variety of resources, including library, computer, and laboratory resources.

In conclusion, the expansion of the Shurtleff College is a necessary step in the development of the college. It is essential that the college be able to expand in order to meet the needs of the students and the community.

By expanding the campus and by providing more resources, the college can provide each student with the education, support, and opportunities they need to succeed in life.

McCall Addresses Freshmen on Religious Life in Week Thru

By Lois Mayer

The purpose of Religious Life is to help you find Jesus Christ in the story of your life and the story of your Church. Our College's Religious Life group, the Freshmen, is an important part of the college community. Mrs. Mary L. Sayre, the Freshmen's Advisor, described McCall's role in the Freshmen's group.

McCall is president of Saint Louis University, a Jesuit institution. His experience includes serving as a professor and Dean at the University of Wisconsin in Madison, Wisconsin. He has also served as a university president at several institutions.

The Freshmen's group meets weekly on campus and is open to all students. The group is not affiliated with any particular religious denomination.

March 15 Deadline For Scholarships

"Many students who apply for scholarships are qualified, but they do not apply because they are not aware of all the resources available. Many scholarships are available to students who are not in the top 10 percent of their class. McCall's message is to encourage students to apply for scholarships regardless of their grades." -- Advisor Mary L. Sayre

Aquamen Drub Bills, 70-15

By Clarence Lockett

The STU senators called the1.50 bill for Tuesday's march auto admission and Stu- permission from the University Board of Ad- mission officials.

In debating the Billings, Southwestern chapter, 219 in 403s, Sen. Jack Keating, said, "Our object in this bill is to improve the financial situation of the students and to increase the support of the University." Sen. Larry Hames, also a member of the STU, said, "I think this bill will help us in the long run." Sen. Bob Montgomery said, "I don't see any reason why we shouldn't pass this bill." The bill was passed unanimously.

Entrepreneurial Edge

The STU wrestling team took a narrow victory over their Illinois counterparts on Tuesday night. In the heavyweight division, STU's Bill Jones defeated Illinois' John O'Donnell, 2-0, in a tense match that lasted over 20 minutes. STU's Jim Johnson also won a close 15-14 decision over Illinois' Mike Farley in the light heavyweight division. The final score was 32-19 in favor of STU.

DO YOU like to stick work? Here's some money - stand Stickling! We'll pay $25 for every Stickler we print - and hundreds that never get used. Sticklers are a simple riddle with your name, address, and college and class to Happy-Lucky, Box 67A, Mount Vernon, N.Y. And remember, you're bound to stickle better when you're enjoying a Lucky, because Luckies taste better. Luckies' mild, good-tasting tobacco is TOASTED to taste even better. Fact is, you'll say Luckies are the best-tasting cigarette you ever smoked!
