Write A Few Lines

The student ‘write to your legislature’ campaign beginning this week. It may be the greatest aim of the student body to influence the Massachusetts legislature. Several hundred letters were put into the legislature from students in the form of a letter expressing their feelings. The letters were written in the form of reports, stating the facts of the situation and giving suggestions for the solution of the problem.

The students are the only group in this state that can truly understand the problem and propose a solution. They are the ones who have been affected by the current situation and are the ones who will be the ones to see it through to completion. Their letters were the greatest in number and the most effective in persuading the legislators to take action.

One of the reasons that I think the Associated College Press is so popular is that it gives the students an opportunity to express their ideas and opinions. I think it is important for the students to have a voice in the decisions that are made on campus.
