I "THE BAY "THE NEWSPAPERS ~ DON'T COME OUT

Newsboys had no papers to deliver or sell. The city's newstand was bare. No papers to be bought anywhere. Strikes had halted production of the city's newspapers and overnight this important part of the live stream ceased to exist.

Other media tried to fill the gap, but without much success. Radio cannot illustrate the day's news. TV is impractical for the bus or train ride on the way to work. Neither furnish a memorable printed record for study or comparison. Magazines miss the spontaneity of a fast-breaking story.

The city's businesses suffered. Merchants missed the throngs who respond to their newspaper ads. National advertisers discovered that their brands remained on dealer's shelves longer.

This actually happened recently in several of the nations cities. Newspaper shutdowns were voids in the routine of thousands - voids which clearly demonstrate the vital importance of the newspaper.

Your newspaper reports and interprets current issues. It keeps you aware of matters that affect your health, safety and children's education and future. It helps make your community a better place to which live, work and play. It relaxes and entertains you in a score of ways. And, most important, your newspaper guards your freedoms,

The Right to Know is the Truth is Fundamental to the Exercise of the American Rights. By Keeping Former Open Your Channel of Accurate Information, Your Newspaper Guards Your Freedom.
